ABOUT EMORY COLLEGE

Emory College of Arts and Sciences combines the personal engagement and excellent teaching of a traditional liberal arts college with the ground-breaking scholarship and resources of a major research university.

Our diverse, ethically engaged, and inquiry-driven community seeks to transform the world through leadership in research, teaching, and service. Our mission is supported by an internationally recognized faculty, dynamic staff, and superb facilities that adopt the latest innovations in technology and environmental sustainability.

Nearly 40% of College students have some international experience by graduation, placing Emory among the top U.S. research universities for study abroad. Emory College faculty have published more than 750 books and have been distinguished recipients of the Pulitzer Prize, the National Humanities Medal, and the National Book Award. Through participation in interdisciplinary research centers across campus, College faculty bridge traditional barriers between the disciplines and work together to advance the frontiers of knowledge.

COLLEGE PROFILE

Emory College of Arts and Sciences combines the personal concern of a small, liberal arts college with the rich diversity of a major, urban university.

The oldest and largest division of Emory University, Emory College of Arts and Sciences has provided instruction in the arts and sciences to talented, highly motivated students for more than 165 years. Today its faculty of some four hundred offers more than twelve hundred courses to nearly five thousand students drawn from every section of the United States and many foreign countries.

The College offers students off-campus opportunities to participate in a wide range of internship programs or to study abroad, including the Bobby Jones Scholars Program with St. Andrews University in Scotland.

Emory College of Arts and Sciences resources are enriched by those of Emory University, a research university comprising

- Oxford College, a two-year college located in Oxford, Georgia;
- the Graduate School of Arts and Sciences;
- and the schools of business, law, medicine (including the allied health programs), nursing, public health, and theology. Most members of the college faculty also teach in graduate or professional programs. Emory University is a community of scholars where undergraduates, graduate and professional students, faculty, and staff benefit from the presence of each other as well as from the presence on or near campus of the

- United States Centers for Disease Control and Prevention,
- The Carter Center of Emory University and the Jimmy Carter Library and Museum,
- Yerkes National Primate Research Center, and
- the national headquarters of both the American Cancer Society and the American Academy of Religion.

Emory is expanding its international programs and opportunities to rise to the challenge of globalization. This effort underscores the University’s conviction that a liberal arts education in the twenty-first century must embrace global perspectives and enhance cross-cultural understanding. Emory is committed to training its students to pursue their professions and live their lives in a world that is fast becoming a global neighborhood. Emory College requires courses on foreign language and international and comparative issues; the other schools have strong international and global components in their curricula. A growing number of international scholars are teaching and conducting research at Emory; professors from Emory are pursuing scholarly research and service abroad, and their
students gain from their experiences, insights, and broadened perspectives. The enrollment of international students is rising. Emory faculty and students are participating in The Carter Center action programs in developing countries. Mutually beneficial linkage agreements with foreign universities present challenging opportunities. Substantial new funding is stimulating exciting initiatives in global education.

Emory College offers a variety of study abroad opportunities through exchange agreements, Emory study abroad programs, and programs run by other institutions. While earning direct Emory credit in most academic disciplines, students can study in most parts of the world, including: Argentina, Australia, Austria, Bolivia, Botswana, Brazil, Chile, China, Costa Rica, Czech Republic, Egypt, France, Germany, Greece, India, Israel, Italy, Japan, Kenya, Korea, Namibia, Portugal, Russia, South Africa, South Pacific, Spain, Turkey and the United Kingdom. The Center for International Programs Abroad advises students about studying abroad and works with college faculty to develop and administer academic year, semester, and summer study abroad programs designed specifically for Emory undergraduates.

Among the centers for specialized research and study at Emory are the Graduate Institute of the Liberal Arts; The Carter Center of Emory University; the Emory Center for International Studies; the Center for Ethics in Public Policy and the Professions; the Center for Research in Faith and Moral Development; and the Michael C. Carlos Museum. Independent affiliates include the National Faculty of Humanities, Arts, and Sciences and the Georgia Humanities Council.

To qualify for baccalaureate degrees, students of Emory College must fulfill distribution requirements that ensure both basic competency in essential skills and a general knowledge of each of the major areas of human inquiry, and they must fulfill major requirements that ensure a command of the area of inquiry of most interest to them. Since these requirements permit flexibility and also reserve a substantial portion of each course of study for free electives, students work with faculty and student advisers to fashion programs that fit their individual interests. In this way Emory not only prepares students to face demanding tasks and complex problems but also introduces them to the full range of human achievement and aspiration in the hope of deepening their most searching questions and intensifying their resolve to attain their life goals.

To encourage full participation in its programs, Emory College encourages students to partake of an active residential life on campus. The college’s commitment to campus residence reflects its conviction that largeness of mind and spirit may be learned in dormitories and concert halls, on stages and playing fields, as well as in classrooms, laboratories, and libraries. Students are, therefore, encouraged to participate in cocurricular activities that range from lectures, colloquia, and symposia, to concerts, exhibits, and plays, to intercollegiate and intramural sports, to scores of social clubs, civic organizations, and religious groups. Although the college faculty is deeply committed both to discovering knowledge through scholarship and research and to communicating it through teaching, it also values informal interaction with students through advising programs and cocurricular activities. Students who become members of the Emory community should expect, therefore, to meet challenges in a variety of contexts and to learn from other students as well as from the faculty and staff.

Members of the college also join members of other divisions of the University in bringing distinguished guests for comprehensive symposia or consultations on themes of common interest. The Carter Center of Emory University regularly sponsors major consultations. Topics have focused on the Near East, national health policy, arms control and international security, reinforcing democracy in the Americas, global health, the Middle East, and women in the Constitution.

Surrounded by a hilly residential section of Atlanta called Druid Hills, the Emory campus combines natural beauty with historic interest. Peavine Creek, a branch of Peachtree Creek, winds through the campus. Flowering shrubs—azaleas, dogwoods, and redbuds—abound; and towering trees—magnolias, maples, oaks, and pines—provide shade. Several buildings on the main quadrangle are listed in the National Register of Historic Places, and several markers on the campus commemorate historic events.
A few miles south and west of the campus, the center of Atlanta bustles with activities stimulated by government, business, and transportation as well as research, education, and culture. A contemporary city of energy and charm, Atlanta has increasingly gained national and international prominence. This was highlighted by its selection as the host of the 1996 Olympic Games. It is the home of some twenty colleges and universities, including Agnes Scott College, the Atlanta College of Art, Clark Atlanta University, the Georgia Institute of Technology, Georgia State University, Morris Brown College, Morehouse College, Oglethorpe University, and Spelman College. Several professional sports teams are based in the city. Opera and theater have been strong since the opening of DeGivée’s Opera House in 1893. Today Atlanta’s Woodruff Arts Center includes the High Museum of Art and the Alliance Theatre as well as the Atlanta Symphony and Chorus.

Located more than one thousand feet above sea level, Atlanta offers four distinct seasons. A few hours north of the city, students hike on the Appalachian Trail, canoe and raft on the Chattooga, Chestatee, and Hiawassee rivers, or ski on Sugar Mountain. East and south, they swim and sun on the coasts of South Carolina, Georgia, and Florida. Through organizations such as Volunteer Emory, the college encourages students to explore the city of Atlanta and the region surrounding it and to contribute to the lives of other people—its hope being that the education and the lives of all of its students will be enriched both by their human and civic concerns and by their work and play.

Emory University is accredited by the Southern Association of Colleges and Schools Commission on Colleges to award associate, baccalaureate, master’s, doctorate, and professional degrees. Contact the Southern Association of Colleges and Schools Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097 or call 404-679-4500 for questions about the accreditation of Emory University.

MISSION STATEMENTS

UNIVERSITY MISSION STATEMENT

Emory University’s mission is to create, preserve, teach, and apply knowledge in the service of humanity.

To fulfill this mission, the University supports the full range of scholarship, from undergraduate to advanced graduate and professional instruction, and from basic research to its application in public service. While being a comprehensive research university, Emory limits its academic scope to those fields in which, by virtue of its history and location, it can excel. Hence its academic programs focus on the arts and sciences, business, law, theology, and the health professions. These disciplines are unified by their devotion to liberal learning; by cooperative interdisciplinary programs; and by the common pursuit of intellectual distinction.

The Emory community is open to all who meet its high standards of intelligence, competence, and integrity. It welcomes a diversity of ethnic, cultural, socioeconomic, religious, national, and international backgrounds, believing that the intellectual and social energy that results from such diversity is a primary asset of the University.

In keeping with the demand that teaching, learning, research, and service be measured by high standards of integrity and excellence, and believing that each person and every level of scholarly activity should be valued on its own merits, the University aims to imbue scholarship at Emory with

- A commitment to humane teaching and mentorship and a respectful interaction among faculty, students, and staff;
- Open disciplinary boundaries that encourage integrative teaching, research, and scholarship;
- A commitment to use knowledge to improve human well-being; and
- A global perspective on the human condition.

The University, founded by the Methodist Episcopal Church, cherishes its historical affiliation with the United Methodist Church. While Emory’s programs are today entirely nonsectarian (except for those at the Candler School of Theology), the University has
derived from this heritage the conviction that education can be a strong moral force in both society and the lives of its individual members.

### COLLEGE MISSION STATEMENT

The scholarly mission of Emory College involves research and creativity, teaching, and service.

As an institution dedicated to intellectual discovery and creativity, Emory College is charged both with generating new knowledge and with inventing new ways of understanding what is already known. Faculty, administrators, and students cooperate to expand the boundaries of the known through

- research and experimentation,
- creation and performance,
- publishing the results of their efforts for the general advancement of learning and the betterment of the human prospect.

As a teaching institution, Emory College imparts to its students the kinds of knowledge that traditionally compose a broad liberal education:

- practical skills in critical thinking and persuasive writing, in mathematics and computation, in a foreign language;
- a basic familiarity with modes of inquiry proper to natural science and mathematics, to the social sciences, and to the arts and humanities; and
- a mature command of at least one discipline or field of concentration.

Through instruction that aims to be the symbiotic complement of research, Emory College prepares its graduates to live an active life of the mind, aware of their responsibilities to assume a part in the intellectual leadership of the nation.

As an institution responsive to the various communities of which it is a member, Emory College acknowledges a commitment to service in its local community, in the national and international academic community, and in the nation as whole.

Each aspect of this threefold mission must be carried forward in an atmosphere of intellectual and moral integrity, one of habitual regard for the ethical dimensions of research and creativity, teaching, and service.

### COLLEGE STATEMENT ON DIVERSITY

Emory College of Arts and Sciences is committed to valuing difference and ensuring that the students, faculty, staff, and administrators are diverse in ethnicity, gender, religion, philosophy, sexual orientation, and physical ability. At the same time, we are unified in the goal of achieving academic excellence, preparing for life and work in a global society. We strive to offer multicultural and gender-balanced education in the curriculum, instruction, and services that address learning and physical disabilities and support for staff and faculty development.

### UNIVERSITY ENVIRONMENTAL MISSION STATEMENT PRECIS

We, the Emory University community, affirm our commitment to protect and enhance the environment through our teaching, research, service, and administrative operations. We seek to foster a community that sustains ecological systems and educates for environmental awareness, local action, and global thinking. We seek to make environmentally sound practices a core value of the University.

### COLLEGE HISTORY

GARY S. HAUK 91PHD
VICE PRESIDENT AND DEPUTY TO THE PRESIDENT
In 1836, when the Cherokee nation still clung to its ancestral lands in Georgia, and Atlanta itself had yet to be born, a small band of Methodists dedicated themselves to founding a new town and college. They called the town Oxford, linking their little frontier enterprise with the university attended by the founders of Methodism, John and Charles Wesley. The college they named Emory, after an American Methodist bishop who had inspired them by his broad vision for education that would enhance the character as well as the mind of men and women.

From its beginning, Emory has sought to preserve and carry forward the ideals of the nineteenth-century public spirit out of which Emory and other colleges had their beginnings. These ideals owed much to the peculiarly American blend of hope for a perfect future, democratic conviction about the importance of individuals, and progressive reform of educational curricula. That philosophy has shaped a university that aims to nurture moral imagination as well as critical intellect and aesthetic judgment.

On December 10, 1836, the Georgia legislature granted a charter to Emory College, named for the young Methodist bishop John Emory, from Maryland, who had died in a carriage accident the previous year. Not until two years after the chartering would the College open its doors, and on September 17, 1838, the College's first president, Ignatius Alphonso Few, and three other faculty members welcomed fifteen freshmen and sophomores. They hailed from as far away as Charleston, South Carolina, and they included a future Emory president, Osborn L. Smith, and a future member of the faculty, George W. W. Stone.

In retrospect, the mission of the nineteenth-century college appears to have been to rein in the spirit as much as to expand the mind. Certainly that was true at Emory. Students had to be in their rooms during study hours and could not go beyond the town limits more than a mile without the president's consent. Signing their names into the Matriculation Book, the earliest students bound themselves to obey the "Laws and Statutes of the College." Despite the watchful attention of their "guards," students often found ways to work up enough mischief for the faculty to put them on probation, even to expel them. Covington, an apparent seedbed of temptation, provided the allure of taverns and traveling shows.

Other social outlets proved more harmonious with the academic tenor of the campus. Two principal venues for student gatherings were Phi Gamma Hall and Few Hall, named for the two literary societies that brought students together for sharing meals, preparing their lessons, and talking about matters of the intellect. A keen competitiveness developed between the two societies, leading to a tradition of debate that permeated the campus, and laying the groundwork for Emory's national preeminence in debate—a tradition carried forward since 1955 in the Barkley Forum.

Athletics, too, has had an important place at Emory for well over a hundred years—although Emory has never played intercollegiate football and still proudly proclaims, under the emblem of a football on T-shirts, "Undefeated Since 1836." For many years, going back to the presidency of Warren Candler in the 1890s, Emory prohibited intercollegiate sports. His principal objection was the cost of intercollegiate athletics programs, the temptation to gambling, and the distraction from scholarship. Candler was not unalterably opposed to athletics, however. During his presidency he oversaw the creation of the nation's first model intramural program. In spirit the program made it possible for every student to participate in athletics, and this possibility became at Emory a guiding principle—"Athletics for All."

In time, the Board of Trustees modified its position on intercollegiate sports by reaffirming the ban on major sports—football, basketball, and baseball—but allowing the possibility of competition in others. Soon Emory was competing in soccer, swimming, tennis, track and field, and wrestling, and in 1985 Emory helped to found the University Athletic Association, a league of Division III members that stresses academics first. Emory's intercollegiate programs regularly rank among the top ten NCAA Division III programs in the country and graduate more academic all-Americans than any other university in Division I, II, or III.

For the first half-century of its life Emory struggled for existence, clinging to a tenuous financial lifeline. When war broke out between North and South in 1861, every student left to fight, and the College's trustees closed the College for the duration. When
Emory reopened in January 1866, three faculty members (including President James Thomas) returned to a campus whose buildings had been used for military hospitals and whose libraries and equipment had been destroyed.

By the turn of the twentieth century, Emory's curriculum had evolved from a traditional liberal arts program dependent on rote memorization and drill, to become broad enough for students to earn degrees in science, to study law or theology, and even to pursue learning and expertise in technology and tool craft. President Isaac Stiles Hopkins, a polymath professor of everything from English to Latin and Math, had launched a department of technology that struck the fancy of state legislators, and soon enough they were luring him away from Emory to become the first president of what is now the Georgia Institute of Technology.

Still, the sleepy little town of Oxford offered little advantage to a college whose trustees might have their visions set on higher aspirations. By happenstance, the road from Oxford to Atlanta was paved by Vanderbilt University. In 1914, following a protracted struggle between the Vanderbilt University Board of Trust and the bishops of the Methodist Episcopal Church, South, over control of the university, the church severed its long relationship with Vanderbilt and made plans to create a new university in the Southeast. Asa Candler, the founder of The Coca-Cola Company and brother to former Emory President Warren Candler, helped the church decide that the new university should be built in Atlanta. Writing to the Educational Commission of the church on June 17, 1914, Candler offered $1 million and a subsequent gift of seventy-five acres of land.

Emory College trustees agreed to move the college to Atlanta as the liberal arts core of the university. Those seventy-five acres, about six miles northeast of downtown Atlanta, lay in pasture and woods amid Druid Hills, a parklike residential area laid out by landscape architect Frederick Law Olmstead, the designer of New York City's Central Park. Within a year marble buildings were under construction out in the Druid Hills, and within four years—by September 1919—Emory College had joined the schools of theology, law, medicine, business, and graduate studies at the University's muddy new campus.

The course of Emory's history changed dramatically and forever when, in November 1979, Robert Woodruff, an Emory alumnus and former Coca-Cola chairman, and his brother, George, transferred to Emory $105 million in Coca-Cola stock (worth nearly one billion dollars in 2005). At the time the largest single gift to any institution of higher education in American history, the Woodruff gift made a profound impact on Emory's direction over the next two decades, boosting the University into the top ranks of American research universities. In the quarter-century since, Emory has built on its considerable strengths in the arts and humanities, the health sciences, and the professions, through strategic use of resources.

The small community of scholarship founded in Oxford has grown, but Emory's growth in research has in no way diminished the insistence on great teaching by the faculty. The 1997 report of the University Commission on Teaching reaffirmed Emory's historical emphasis on the high quality of teaching at all faculty levels and in all schools and recommended various means of support to ensure the perpetuation of this great tradition.

Since September 2003 the University has undertaken to refine its vision for its future and to develop a strategic plan for how to get there. The Vision Statement calls for Emory to be

"a destination university internationally recognized as an inquiry-driven, ethically engaged, and diverse community, whose members work collaboratively for positive transformation in the world through courageous leadership in teaching, research, scholarship, health care, and social action."

This vision harmonizes with Emory's heritage, which has blended the pursuit of truth with a commitment of service to the wider community. As summed up by Emeritus Professor James Harvey Young in an earlier history of Emory, the University has sought, throughout its life, "to make the chief ends of teaching and learning not simply the advancement of scholarly knowledge and professional expertise but also the cultivation of humane wisdom and moral integrity." True to this commitment, Emory continues to shape an education for the twenty-first century that will enable the wise heart to seek knowledge for service to the world.

MARTA information
404.848.5000

Atlanta’s mass transit system is MARTA, which operates a coordinated system of bus and train lines around much of the Atlanta area. The Emory campus is accessible from the Lindbergh MARTA station, and from the Inman Park station via the #6-Emory bus, or from the Arts Center station and the Avondale station on the #36-North Decatur bus. Also, the #245 “Blue Flyer” Kensington/Emory express bus serves Emory from the Lindbergh and Kensington stations.

For the Clairmont Campus, take the #19-Clairmont bus from the Brookhaven or Decatur stations.

Coming from the airport, take any train northbound to the Lindbergh MARTA station, and take the #6-Emory bus to the Emory campus. Ask the bus driver to stop in Emory Village near the Emory main entrance.

ANT 307  HUMAN EVOLUTION
This class aims to integrate data and theory from genetics, geology, and paleoanthropological evidence to trace the evolution of the human species. Opposing theories regarding the interpretation of data will be the focus of student evaluation. **Credit Hours:** 3. **General Education Requirements:** SNT.

ANT 307W  HUMAN EVOLUTION
This class aims to integrate data and theory from genetics, geology, and paleoanthropological evidence to trace the evolution of the human species. Opposing theories regarding the interpretation of data will be the focus of student evaluation. **Credit Hours:** 4. **General Education Requirements:** SNTW.

ANT 308  EVOLUTION OF SOCIAL BEHAVIOR
Prerequisite: Anthropology 201 or Biology 142. Application of evolutionary theory to social behavior of a variety of animals, including humans. **Credit Hours:** 3. **General Education Requirements:** SNT.

ANT 309  SEMINAR IN PRIMATE BEHAVIOR
Prerequisite: Anthropology 101, 201, or 302. Relationship between ecology and individual and social behavior, dominance relations, intelligence, and communication. Topic varies. **Credit Hours:** 3. **General Education Requirements:** SNT.

ANT 310  COMMUNICATION IN PRIMATES
This course examines human as well as non-human primate communication systems from an evolutionary perspective. Topics covered include signal structure and function, information content of signals, honesty, deceit, and the evolution of language in humans. **Credit Hours:** 3. **General Education Requirements:** SNT.

ANT 311  NUTRITIONAL ANTHROPOLOGY
Introduction to the evolution, diversity, and social significance of human diet and nutrition. **Credit Hours:** 3. **General Education Requirements:** HSC. Crosslisted Courses: AFS 311: Nutritional Anthropology.

ANT 312  HUMAN SKELETAL BIOLOGY
This course focuses on theory and method for understanding variation in prehistoric skeletal populations. Determination of age and sexual activity, disease and demography will be undertaken. **Credit Hours:** 6. **General Education Requirements:** SNT.

ANT 314  RACE & RACISM: MYTHS & REALITIES
The social construction of race relies on differences that lack biological significance. The social and biological cast of racism from the continued entrenched concept of race in America is considered. **Credit Hours:** 3. **General Education Requirements:** None.

ANT 315  ANCIENT DNA & HUMAN EVOLUTION
The course focuses on the key methods adopted in the study of ancient DNA, such as next generation sequencing and population genetics, as well as a thematic approach to the major evolutionary questions. Topics include human migrations, archaic humans, domestication, and ancient pathogens. **Credit Hours:** 3. **General Education Requirements:** SNT. Crosslisted Courses: BIOL 315: Ancient DNA & Human Evolution.

ANT 316  EVOLUTION: HUMAN BRAIN & MIND
This course is concerned with evaluating neuroscientific, psychological and behavioral evidence of modern human cognitive specializations as well as archeological, paleontological, and comparative evidence of their evolutionary origins. **Credit Hours:** 3. **General Education Requirements:** SNT.

ANT 317  HUMAN SOCIAL NEUROSCIENCE
Neurobiological substrates supporting human social cognition and behavior. Review and synthesis of relevant research in neuropsychology, psychiatry, neuroimaging, and experimental animal research. **Credit Hours:** 3. **General Education Requirements:** SNT. Crosslisted Courses: NBB 317: Human Social Neuroscience.

ANT 318  DEVLP ORIGINS: HLTH+WELL-BEING
This is a research seminar exploring the intersection of genomics, the environment, and lifestyle/behavior as it pertains to human health from a developmental perspective with the aim of understanding human health over the lifespan. **Credit Hours:** 3. **General Education Requirements:** None. Crosslisted Courses: HLTH 312: Devlp Origins: HLTH+Well-Being.

ANT 319  ANTHROPOLOGY OF FATHERHOOD
This course will describe and explain variation in male parental care across species, across cultures and across individuals within a culture. Emphasis will be placed on hormonal and neurobiological foundations of paternal care, evolutionary theory, ethnography and developmental psychology. **Credit Hours:** 3. **General Education Requirements:** None. Crosslisted Courses: NBB 319: Anthropology of Fatherhood.
ANT 324  
**WOMEN IN CROSS-CULTR PERSP**  
Cross-cultural study of gender and women's lives in diverse cultures, including the United States; comparative study of work, child-rearing, power, politics, religion, and prestige.  
**Credit Hours:** 3.  
**General Education Requirements:** HSC.  
**Crosslisted Courses:** WGS 340: Women in Cross-Cultr Persp.

ANT 325  
**LANGUAGE, GENDER AND SEXUALITY**  
Cross-cultural examination of how language reflects, maintains, and constructs gender identities. Topics include differences in male/female speech, the grammatical encoding of gender and childhood language socialization.  
**Credit Hours:** 3.  
**General Education Requirements:** HSC.  
**Crosslisted Courses:** WGS 333: Language, Gender and Sexuality, LING 333: Language, Gender and Sexuality.

ANT 328  
**WOMEN, RELIGION & ETHNOGRAPHY**  
Cross-cultural ethnographic study of women's religious lives, including ritual and leadership roles, forms and contexts of religious expression, and negotiations between dominant cultural representations and women's self-representations.  
**Credit Hours:** 3.  
**General Education Requirements:** HSC.  
**Crosslisted Courses:** REL 328: Women, Religion & Ethnography, WGS 328: Women, Religion & Ethnography.

ANT 328W  
**WOMEN, RELIGION & ETHNOGRAPHY**  
Cross-cultural ethnographic study of women's religious lives, including ritual and leadership roles, forms and contexts of religious expression, and negotiations between dominant cultural representations and women's self-representations.  
**Credit Hours:** 4.  
**General Education Requirements:** HSCW.  
**Crosslisted Courses:** REL 328W: Women, Religion & Ethnography, WGS 328W: Women, Religion & Ethnography.

ANT 330  
**GLOBAL FOOD SECURITY**  
This course provides students with a comprehensive understanding of food insecurity. To do so, we study what food insecurity is, how it is defined and measured, how it is experienced and managed by people in different settings, what causes it, and what its consequences are for human well-being.  
**Credit Hours:** 3.  
**General Education Requirements:** None.

ANT 331  
**CROSS-CULT ISS IN MENTAL HLTH**  
Focuses on cultural approaches to mental health and illness.  
**Credit Hours:** 3.  
**General Education Requirements:** HSC.

ANT 332  
**RACE IN THE AGE OF GENOMICS**  
The course will take a contemporary view on how population genetics has changed our understanding of the biological explanation of race.  
**Credit Hours:** 3.  
**General Education Requirements:** HSCE / HSC.  
**Requisites:** Juniors or Seniors only.

ANT 333  
**DISEASE & HUMAN BEHAVIOR**  
Biological and cultural adaptations to disease, the role of specific diseases in evolution, social epidemiological patterns related to culture, contemporary issues in disease control, and economic development. Diseases covered include malaria, tuberculosis, AIDS, diabetes, and depression.  
**Credit Hours:** 3.  
**General Education Requirements:** SNT.

ANT 334  
**EVOLUTIONARY MEDICINE**  
Biological and cultural adaptations to disease, the role of specific diseases in evolution, social epidemiological patterns related to culture, contemporary issues in disease control, and economic development. Considers a variety of diseases including malaria, tuberculosis, AIDS, and malnutrition.  
**Credit Hours:** 3.  
**General Education Requirements:** SNT.

ANT 336  
**ANTH. OF EMERGING DISEASE**  
Disease emerges as humans disrupt their environment, exposing them to novel pathogens. Students will examine this pattern from the Paleolithic to the present pattern of globalization of antibiotic-resistant pathogens.  
**Credit Hours:** 3.  
**General Education Requirements:** SNT.

ANT 336W  
**ANTH. OF EMERGING DISEASE**  
Disease emerges as humans disrupt their environment, exposing them to novel pathogens. Students will examine this pattern from the Paleolithic to the present pattern of globalization of antibiotic-resistant pathogens.  
**Credit Hours:** 4.  
**General Education Requirements:** SNTW.

ANT 337  
**RELIGION HEALTH AND HEALING**  
This class explores issues such as what makes for a healthy self or person, the role of religious practices and belief in healing, and the relationship of body and mind.  
**Credit Hours:** 3.  
**General Education Requirements:** HSC.  
**Crosslisted Courses:** EAS 337: Religion Health and Healing.

SEM: ART - ANC AMER/ AFR/ AFR DIASP
Advanced seminar with emphasis on critical texts, methods, and techniques of art historical investigation. For art history majors; open to others with permission from the instructor. 
**Credit Hours:** 3. **General Education Requirements:** HSC / HAP.

ARTHIST 485RW
SEM: ART - ANC AMER/ AFR/ AFR DIASP
Advanced seminar with emphasis on critical texts, methods, and techniques of art historical investigation. For art history majors; open to others with permission from the instructor. 
**Credit Hours:** 4. **General Education Requirements:** HSCW / HAPW.

ARTHIST 495R
HONORS
Open to candidates for honors in the senior year who are writing an honors thesis. For requirements and permission, consult the departmental honors coordinator. 
**Credit Hours:** 4. **General Education Requirements:** HAP / HSC.

ARTHIST 495RW
HONORS
Open to candidates for honors in the senior year who are writing an honors thesis. For requirements and permission, consult the departmental honors coordinator. 
**Credit Hours:** 1 - 8. **General Education Requirements:** HAPW / HSCW.

ARTHIST 999XFR
NON-EQUIVALENT TRANSFER COURSE
Non-equivalent transfer course in Art History 
**Credit Hours:** 1 - 99. **General Education Requirements:** None.

**VISUAL ARTS**

ARTVIS 103
INTRO DRAWING & PRINTMAKING
This course uses the tools/concepts of drawing and printmaking to develop skills in representation and observation. Students will acquire skills with the fundamental of visual observation, and the extrapolation to visual problem solving. 
**Credit Hours:** 4. **General Education Requirements:** HAP.

Offered in rotation. Credit, four hours. This course uses the tools and concepts of painting to develop skills in visual thinking. The fundamentals of visual observation and articulation are developed through visual problem solving. 
**Credit Hours:** 4. **General Education Requirements:** HAP.

ARTVIS 107
INTRO TO DIGITAL VIDEO
Creative as well as technical problems in these related media are examined; techniques in using cameras, projectors, and video editing equipment. 
**Credit Hours:** 3. **General Education Requirements:** HAP. **Requisites:** FILM 101 or FILM_OX 101 prereq. 
**Crosslisted Courses:** FILM 107: Intro to Digital Video.

ARTVIS 109
INTRO SCULPTURE
Offered in rotation. Credit, four hours. A course designed to provide a firm grounding in the rudiments of sculptural practice. Students are exposed to an overview of processes, tools, and materials used in sculpture. 
**Credit Hours:** 4. **General Education Requirements:** HAP.
ARTVIS 111
FOUNDATIONS IN ART PRACTICES
This course explores historical media and art practices from Prehistory to the Renaissance. Students will study materials, techniques and practices of drawing, painting, print making, sculpture and architecture. Specific projects will be supplemented by readings, presentations and discussion. 
Credit Hours: 4. General Education Requirements: HAP.

ARTVIS 112
FOUNDATIONS IN ART PRACTICESII
This foundation-level course exposes students to historical media and practices that undergird the creation of art objects. Designed as a studio course to complement ARTHIST 102. Strategies and materials of art-making from the late Renaissance through the present day will be explored. 
Credit Hours: 4. General Education Requirements: HAP.

ARTVIS 180
SPECIAL TOPICS STUDY ABROAD
Monuments and art collections studied in important cities such as Amsterdam, London, Munich, New York, Paris, Rome, and Venice. Details can be obtained from the Art History Department. May be repeated for credit when topic varies. 
Credit Hours: 1 - 4. General Education Requirements: None.

ARTVIS 180W

Credit Hours: 1 - 5. General Education Requirements: WRT.

ARTVIS 203
INTERMED DRAWING/PRINTMAKING
This course builds on the tools and concepts of drawing and printmaking and expands skills in observation and imagination. This course incorporates intermediate levels of conceptual and aesthetic awareness. 
Credit Hours: 4. General Education Requirements: None.

ARTVIS 205
INTERMEDIATE PAINTING
This course builds on the tools and concepts of painting. This course incorporates intermediate levels of conceptual and aesthetic awareness, creative problem solving, aesthetics and critical thinking with an emphasis on the 20th and 21st century aesthetic practices. 
Credit Hours: 4. General Education Requirements: HAP. Requisites: ARTVIS 105/104 as PreReq.

ARTVIS 209
INTERMEDIATE SCULPTURE
Contemporary sculptural practice is emphasized in both practical and theoretical terms. Students will continue to investigate the relationship of ideas to materials and construction techniques. 
Credit Hours: 4. General Education Requirements: HAP. Requisites: ARTVIS 109 as PreReq.

ARTVIS 290
SPECIAL TOPICS STUDY ABROAD
Monuments and art collections studied in important cities such as Amsterdam, London, Munich, New York, Paris, Rome, and Venice. Details can be obtained from the Art History Department. May be repeated for credit when topic varies.

ARTVIS 303
DRAWING & PAINTING TUTORIAL
This advanced tutorial uses the tools and concepts of drawing and painting to develop skills in research and project development as well as advanced skills in drawing, painting and mixed media. 
Credit Hours: 4. General Education Requirements: None.

ARTVIS 305
PAINTING TUTORIAL
This advanced tutorial uses the tools and concepts of drawing and painting to develop skills in research and project development. Written documentation, oral presentations, critique skills and studio skills that support independent research are developed. 
Credit Hours: 4. General Education Requirements: HAP. Requisites: ARTVIS 205 as PreReq.

ARTVIS 309
SCULPTURE TUTORIAL
This course focuses on individual student inquiry into advanced sculptural practices utilizing the concepts, histories, practices, and potentialities of the field. Advanced level allows students to assume a greater role in defining the parameters of projects. 
Credit Hours: 4. General Education Requirements: HAP. Requisites: ARTVIS 209 as PreReq.

ARTVIS 311
ADVANCED PAINTING
This course explores advanced concepts in painting including new materials, mixed media, and contemporary approaches to space, scale, and installation. Exploration of diverse materials and techniques will be supported by theoretical examination and independent research projects. 
Credit Hours: 3. General Education Requirements: None.

Students will learn evolutionary biology through the use of experimental evolution, real-time evolution in the laboratory. In addition to exploring primary literature, this is a laboratory course in which students will design and execute projects to actively test evolutionary theory in the lab. **Credit Hours:** 4. **General Education Requirements:** SNTL. **Requisites:** BIOL 142 or BIOL_OX 142 prereq.

This course focuses on the conservation of biodiversity and introduces students to ways that ecological and evolutionary principles can be used to conserve and protect species and ecosystems at risk. **Credit Hours:** 3. **General Education Requirements:** SNT. **Requisites:** ENVS 131, BIOLOX111, BIOL 142. **Crosslisted Courses:** ENVS 345: Conservation Biology.

Experiments involve analysis and characterization of the major classes of biological compounds. **Credit Hours:** 2. **General Education Requirements:** None. **Requisites:** BIOL142/301, CHEM301 as prereq. **Crosslisted Courses:** CHEM 346L: Biomolecular Chemistry.

Research on the ecology of infectious diseases has increased tremendously, fueled by challenges to global human health and ecological conservation as well as advances in theory and molecular technologies. This course introduces major issues and advances in the ecology of infectious diseases. **Credit Hours:** 4. **General Education Requirements:** None. **Requisites:** BIOL 142/142L and QTM 100.

A survey of current topics in neural development and neural basis of behavior. Emphasis is on research work that uses a combination of physiological, genetic, cellular, and molecular techniques to understand neural systems and their evolution and development. **Credit Hours:** 3. **General Education Requirements:** None. **Requisites:** BIOL 142/CHEM 141 PreReq.

This course will familiarize students with principles of ecological invasions and methods for assessing the spread and impacts of invasive species on a global scale. Students will also become familiar with major sources of exotic species introductions and methods available for prevention and control. **Credit Hours:** 4. **General Education Requirements:** None. **Requisites:** ENVS 131, BIOLOX111, BIOL 142. **Crosslisted Courses:** ENVS 349: Ecology of Invasions.

Epigenetics is the study of heritable characteristics not caused by changes in DNA sequence, but rather induced by non-genetic factors that alter gene expression and are dependent on time and location. The course explores epigenetics and its relation to normal development and disease. **Credit Hours:** 3. **General Education Requirements:** None. **Requisites:** BIOL 142 & BIOL 264 as prereq..

This course will study the fundamental principles and methodology of quantitative genetics and expose students to current primary literature on current genetic analyses of complex traits such as human diseases. **Credit Hours:** 3. **General Education Requirements:** None. **Requisites:** BIOL 142 & BIOL 241 prereq..

This course will study the origins and evolution of the immune system from different fields such as immunology, molecular biology, and evolution. **Credit Hours:** 3. **General Education Requirements:** None. **Requisites:** BIOL 142/142L or 152 prereq..

This course covers the fundamentals of time series analysis in both the natural and social sciences, utilizing analytical, statistical, and numerical approaches. We will focus on the application of these methods to complex, real world data from medicine, economics, geology, and other fields. **Credit Hours:** 3. **General Education Requirements:** None. **Crosslisted Courses:** QTM 355: Intr. to Time Series Analysis.

Includes electrochemical and biophysical mechanisms for neuronal signaling, synaptic transmission, and neural bases of behavior and perception. GER Note: This course and BIOL360L satisfies half of SNTL requirement. This course w/o BIOL360L will award half of SNT only. **Credit Hours:** 3. **General Education Requirements:** SNT. **Requisites:** BIOL 142/CHEM 142 as prereq. **Crosslisted Courses:** NBB 301: Introduction To Neurobiology.

This course will explore topics in cellular and small network neuroscience by performing virtual electrophysiology experiments on the computer. The content matches the material covered in Biology 360/NBB 301 and will help students understand neurons and neuronal networks in greater depth. **Credit Hours:** 2. **General Education Requirements:** SNTL. **Requisites:** BIOL 142/360 as Prerequisite. **Crosslisted Courses:** NBB 301L: Neurobiology Simulation Lab.

Microbes shape the world we live in! Come research fungal microbes and their interactions with the environment. Students will propose and carry out the experiment while learning aspects of research, such as data analysis and presenting results to other scientists and to the public. **Credit Hours:** 4.  
**General Education Requirements:** None. **Requisites:** BIOL 142/142L or BIOL_OX 142.

Intro to computational neuroscience with an emphasis on biophysical neuronal modeling of single neurons and small networks. Other topics include spike train analysis, dynamical systems analysis, and dimensionality reductions methods. Some Matlab and general programming skills are required. **Credit Hours:** 4. **General Education Requirements:** None. **Requisites:** BIOL360/NBB301/IBS514.

The basic principles of immunology, the causes of pathogenesis during the course of infection with microparasites, and the limitations to the understanding of infectious diseases (such as HIV/AIDS, tuberculosis, and malaria) caused by viruses, bacteria, and unicellular eukaryotes. **Credit Hours:** 4.  
**General Education Requirements:** None. **Requisites:** BIOL 142/142L or 152 prereq.

Explores our current understanding of the mechanisms that regulate development of the nervous system. Topics covered include neurogenesis, axon guidance, programmed cell death, and synapse formation. **Credit Hours:** 3. **General Education Requirements:** None. **Requisites:** BIOL 142/142L or 152 prereq. **Crosslisted Courses:** NBB 460: Building Brains.

Application of basic principles of population genetics and population biology to the study of infectious diseases, aging, and cancer. **Credit Hours:** 4. **General Education Requirements:** None. **Requisites:** BIOL 142/142L or 152 prereq.

The purpose of this course is to introduce students (upper level undergraduate) to the fundamental concepts of RNA biology and to state-of-the-art biotechnologies that use RNA for medical and industrial applications. **Credit Hours:** 3. **General Education Requirements:** None. **Requisites:** BIOL 142/142L or BIOL_OX 142.

This course covers ecology and systems biology of species interactions, with a focus on microbial and microbiome ecology including interactions between microbes and their hosts. This course relies heavily on the primary literature, and a basic familiarity with college-level calculus is recommended. **Credit Hours:** 3. **General Education Requirements:** None. **Requisites:** BIOL142/142L pre.BIOL 370 core.

**BIOL 499R**
**UNDERGRADUATE RESEARCH**
For biology majors only. Permission required (see biology.emory.edu/research-opportunities). Must be taken for 4 credits/semester. Fulfills 4 elective credits (maximum) and upper-level lab requirement for Biology major only upon completion of two semesters. **Credit Hours:** 4. **General Education Requirements:** None. **Requisites:** BIOL 142/142L or BIOL_OX 142.

**BIOL 999XFR**
**NON-EQUIVALENT TRANSFER COURSE**
Non-equivalent transfer course in Biology **Credit Hours:** 0 - 99. **General Education Requirements:** None.

### COMMUNITY BUILDING AND SOCIAL CHANGE

**CBSC 370A**
**COMMUNITY BLDG & SOC CHANGE I**
Open only to undergraduate students by permission of the instructor. Additionally, this course is required for all students seeking to apply for the fellowship in Community Building and Social Change. **Credit Hours:** 3. **General Education Requirements:** HSC. **Crosslisted Courses:** POLS 370A: Community Bldg & Soc Change I, SOC 370A: Community Bldg & Soc Change I, ENVS 370A: Community Bldg & Soc Change I.

**CBSC 370B**
**PLANNING COMMUNITY INITIATIVES**
Open only to students admitted as fellows in the program in Community Building and Social Change. **Credit Hours:** 4. **General Education Requirements:** HSC. **Crosslisted Courses:** ENVS 370B: Planning Community Initiatives, POLS 370B: Planning Community Initiatives, SOC 370B: Planning Community Initiatives.

**CBSC 370BW**
**PLANNING COMMUNITY INITIATIVES**
Open only to students admitted as fellows in the program in Community Building and Social Change. **Credit Hours:** 5. **General Education Requirements:** HSCW. **Crosslisted Courses:** ENVS 370BW: Planning Community Initiatives, POLS 370BW: Planning Community Initiatives, SOC 370BW: Planning Community Initiatives.

Open only to students admitted as fellows in the program in Community Building and Social Change. **Credit Hours:** 2. **General Education Requirements:** None. **Crosslisted Courses:** POLS 492R: Practicum:Comm Bldg & Soc Chng, ENVS 492R: Practicum:Comm Bldg & Soc Chng, SOC 492R: Practicum:Comm Bldg & Soc Chng.

### CHEMISTRY

**CHEM 105**
**HOW THINGS WORK**
No prerequisite courses. Topics such as lasers, CD recording, the pill, photocopying, jet engines, cocaine, genetic engineering, perfume, cooking/baking, and pheromones will be discussed. The goal is to impart an appreciation for various scientific and technical features of everyday life. **Credit Hours:** 3. **General Education Requirements:** SNT.

**CHEM 110**
**CONCEPTS IN PHYSICS & CHEM**
General topics course covering material of societal interest to the general education community. **Credit Hours:** 3. **General Education Requirements:** SNT.
Maymester Course. This course will first explore how chemicals can be used to deceive and destroy. Next, scientific techniques used by forensic chemists will be employed to evaluate and interpret evidence from a staged crime scene. New evidence will be presented each day as the mystery unfolds. Credit Hours: 4. General Education Requirements: None.

This course will examine the science of chemistry using themes that delineate chemistry as a human activity. The broader impact that the practice of chemistry has on society will be emphasized using current, historical, and interdisciplinary topics. Credit Hours: 1 - 4. General Education Requirements: SNTL.

Fall, summer. Laws and theories of chemistry; atomic and molecular structure, chemical bonding, properties of solutions; qualitative analysis. Credit Hours: 4. General Education Requirements: SNTL. Requisites: Chem 141 as Prerequisite.

This course will build a strong foundation in atomic and molecular structure. It starts with atomic structure and builds to ionic compounds and molecular structure, including stereochemistry and conformation. Students will interpret experimental data to explain structure, properties relationships. Credit Hours: 3. General Education Requirements: SNT.

CHEM 150L is the first lab for students taking Chemistry at Emory. The lab focuses on experimental practices including experimental design, accuracy and precision, data collection and analysis, and the use of evidence to make conclusions. Experiments will connect structure to properties of matter. Credit Hours: 2. General Education Requirements: SNTL. Requisites: CHEM 150 as co-requisite.

Special topics freshman seminar. Variable content. Please contact the instructor of record for specifics. Credit Hours: 3. General Education Requirements: FSEM.

CHEM 202 provides a basic understanding of the kinetics and thermodynamics associated with reactions, how these are related to the structures of reactants and products and the pathways between them, and how reactivity can be controlled through choices of reacting molecules and conditions. Credit Hours: 3. General Education Requirements: SNT. Requisites: CHEM 141 or 150 as prereq..

CHEM 202L students will make qualitative determinations based on quantitative data. They will measure and analyze data including reaction rates, Rf values, etc. Lab will culminate in the development of the synthesis of an alcohol and the isolation of compounds, including a natural product. Credit Hours: 2. General Education Requirements: SNTL. Requisites: CHEM 150L prereq/CHEM 202 core.

CHEM 2022 will provide students with a basic understanding of covalent bonding models, the energetics of reactions, and the kinetics and thermodynamics associated with reactions. The course will emphasize how reactivity is related to molecular structure and how reactivity can be controlled. Credit Hours: 3. General Education Requirements: SNT. Requisites: AP score 4 or IB score 5.

CHEM 2022L students will use molecular modeling to build 3-D chemical structures. They will then prepare an ester derivative, perform a nucleophilic addition, and study elimination reactions. Products of these reactions will be analyzed using a variety of instruments (IR, NMR, HPLC, etc.). Credit Hours: 2. General Education Requirements: SNTL. Requisites: AP score 4 or IB score 5.

CHEM 203 will focus on the chemistry of organic and organometallic compounds; specifically how the molecular orbital theory can be used to predict structure and properties. This course covers kinetics, mechanisms, and catalysis. Credit Hours: 3. General Education Requirements: SNT. Requisites: CHEM 202 as prerequisite.

IN CHEM 203L students will be exposed to the practical aspects of working with small molecules, both organic and inorganic. Students will learn to analyze and synthesize compounds and analyze their characteristic properties such as structure, function, size distribution, and purity. Credit Hours: 2. General Education Requirements: SNTL. Requisites: CHEM 202L/2L prereq 203 coreq.
CHEM 203Z ADVANCED REACTIVITY
CHEM 203Z builds on themes of structure and reactivity established in CHEM 202Z. The course will blend biomolecular, inorganic, and organic elements of reactivity, using molecular orbital theory to predict structure and properties, and introducing modern examples of catalysis and catalytic cycles. Credit Hours: 3. General Education Requirements: SNT. Requisites: CHEM 202Z as prerequisite.

CHEM 203ZL ADVANCED REACTIVITY LAB
Chem 203ZL introduces more sophisticated methods for studying the reactivity of compounds. The preparation and structure elucidation of organic and organometallic compounds will be studied in the context of a research lab type setting. Credit Hours: 2. General Education Requirements: SNTL. Requisites: CHEM 202ZL pre/CHEM 203Z coreq.

CHEM 204 MACROMOLECULES
The relationship between sequence, structure, and function of macromolecules. The course will progress from exploring these themes in the context of synthesis, characterization, and utility of simple organic polymers to understanding the properties of complex, chemically diverse biomolecules. Credit Hours: 3. General Education Requirements: SNT. Requisites: CHEM 203 or 222 as prereq.

CHEM 204L MACROMOLECULES LAB
The relationship between sequence, structure, and function of macromolecules focusing on the practical aspects of macromolecular synthesis, structural and functional characterization, and degradation. Credit Hours: 2. General Education Requirements: SNTL. Requisites: CHEM 203L prereq./204 coreq.

CHEM 205 LIGHT AND MATTER
CHEM 205 will address the origins of electronic orbitals and the quantized energy states associated with molecular motions. How light causes transitions between energy levels will be central to our discussion, illuminating topics from spectroscopy to the Earth’s climate and solar energy conversion. Credit Hours: 3. General Education Requirements: SNTL. Requisites: CHEM 203/MATH 111 prereq.

CHEM 205L LIGHT AND MATTER LAB
CHEM 205L will connect your understanding of the interaction of light & matter to the determination of molecular structure through spectroscopic methods. Students will assign atomic/molecular spectra & analyze results to determine critical properties of the compound using rigorous math on real molecules. Credit Hours: 2. General Education Requirements: SNTL. Requisites: CHEM203L/MATH111CHEM205.

CHEM 221 ORGANIC CHEMISTRY I
Classes of organic compounds. Functional groups, bonding, stereochemistry, structure and reactivity, carbonyl chemistry, carboxylic acids. GER Note: When a student completes this course and associated lab course they will have satisfied the requirement for SNTL. Credit Hours: 3. General Education Requirements: SNT. Requisites: CHEM 142 as prerequisite.

CHEM 221L ORGANIC CHEMISTRY LABORATORY 1
This lab covers techniques for isolation, purification, preparation, and identification of organic compounds. Investigative experiments uncover relationships between molecular structure and function. Important skills are collecting and interpreting data, keeping a lab notebook, and working safely. Credit Hours: 2. General Education Requirements: SNTL. Requisites: Chem 221 as Pre/Co Req.

CHEM 222 ORGANIC CHEMISTRY II

CHEM 222L ORGANIC CHEMISTRY LABORATORY 2
This course introduces more sophisticated methods for the preparation and structure elucidation of organic compounds in the context of a research lab. Emphasis is placed on experimental design, evaluation of data, structure determination using NMR, and keeping a research-style lab notebook. Credit Hours: 2. General Education Requirements: SNTL. Requisites: CHEM 221L/226L/222 as Pre/Co.

CHEM 300L ANALYTICAL TOOLS & TECHNIQUES
This is a project-design based lab course. It will bring together materials from previous lab courses, as well as covering new techniques/methods. Credit Hours: 2. General Education Requirements: None. Requisites: CHEM 204L & CHEM 205L pre/co.

CHEM 301 BIOCHEMISTRY I
An integrated approach to the synthesis, structure, and function of macromolecular biomolecules, including proteins, carbohydrates, DNA, and RNA. First half of a two-semester biochemistry sequence. Credit Hours: 3. General Education Requirements: SNT. Requisites: CHEM 222/BIOIL 141 as prereq.

CHEM 302 BIOCHEMISTRY II
Prerequisites: Biology/Chemistry 301, Chemistry 222, Biology 141. Topics will include nitrogen and fatty acid metabolism, glycolysis, and respiration. The evolution of the pathways associated with these processes will be explored. Credit Hours: 3. General Education Requirements: SNT. Requisites: CHEM 301 or BIOL 301. Crosslisted Courses: BIOL 302: Biochemistry II.
CHEM 320  
**TOPIC IN BIO-ORGANIC CHEMISTRY**  
Chemistry of carbohydrates, fats, proteins, nucleic acids, vitamins and enzymes; emphasis on structure and reactions of compounds. **Credit Hours:** 1 - 4. **General Education Requirements:** SNT. **Requisites:** CHEM 222/172 as Prereq.

CHEM 327  
**ORGANOMETALLIC CHEMISTRY**  
Introduction to transition metal Organometallic chemistry. Structure of metal complexes, their reactivity, reaction mechanisms, catalysis and application in synthesis. **Credit Hours:** 3. **General Education Requirements:** None. **Requisites:** CHEM 203 or 203Z & CHEM 203L.

CHEM 327L  
**ORGANOMETALLIC CHEMISTRY LAB**  
The laboratory focuses on the preparation and applications of transition metal organometallic complexes. The course involves an independent research project envisioned by the student. **Credit Hours:** 2. **General Education Requirements:** None. **Requisites:** CHEM 203 or 203Z & CHEM 203L.

CHEM 328  
**INTRO.TO ATMOSPHERIC CHEMISTRY**  
This course will provide knowledge in atmospheric chemistry, focusing on the physical and chemical processes. Students will be able to: 1) explain important atmospheric phenomena from the local to global scale; and 2) critically assess public discussions and media coverage on air pollution. **Credit Hours:** 3. **General Education Requirements:** None. **Crosslisted Courses:** ENVS 328: Intro.to Atmospheric Chemistry.

CHEM 330  
**CHEM BIO & MOLECULAR MODELING**  
Examine the world including issues around natural and unnatural molecules, disease and society in the context of topics like drugs, molecules for Mars, aging, AIDS, bioterrorism, and crime in the courtroom using computer graphics, the molecular structure of small molecules and proteins, and energy. **Credit Hours:** 3. **General Education Requirements:** SNT. **Requisites:** CHEM 221/221z as Prereq. **Crosslisted Courses:** BIOL 330: Chem Bio & Molecular Modeling.

CHEM 333  
**BIOPHYSICAL CHEMISTRY**  
This course offers a rigorous treatment of the fundamental principles of thermodynamics and kinetics to show how they underlie complex biological processes: protein folding, membrane selfassembly, neuronal function, and enzyme catalysis. Examples are drawn from biomolecular research and medicine. **Credit Hours:** 3. **General Education Requirements:** SNT. **Requisites:** CHEM 204/204L & 205/205L prerequisite.

CHEM 335L  
**QUANTUM CHEMISTRY LAB**  
Introduction to the foundational and practical aspects of modeling chemical reactions with modern computational chemistry techniques. Students will learn how to run quantum chemistry computations to predict thermodynamic properties, simulate spectra, and model the mechanisms of simple reactions. **Credit Hours:** 2. **General Education Requirements:** SNL. **Requisites:** CHEM 205/205L prerequisite.

CHEM 335LW  
**QUANTUM CHEMISTRY LAB**  
Introduction to the foundational and practical aspects of modeling chemical reactions with modern computational chemistry techniques. Students will learn how to run quantum chemistry computations to predict thermodynamic properties, simulate spectra, and model the mechanisms of simple reactions. **Credit Hours:** 3. **General Education Requirements:** SNLW. **Requisites:** CHEM 205/205L prerequisite.

CHEM 340  
**BIOCHEMISTRY**  
This course focuses on the chemical principles underlying the processes that allow living systems to function: metabolism, bioenergetics, regulation, signaling and transport. Building on concepts from Chem 204, it emphasizes how chemical insights lead to the development of new drugs and diagnostics. **Credit Hours:** 3. **General Education Requirements:** SNT. **Requisites:** CHEM 204/204L & BIOL 141/no301.

CHEM 343  
**CHEMICAL BIOLOGY**  
Chemical Biology applies the tools of organic chemistry to manipulate and study biomolecules. This class explores foundational knowledge and breakthrough technologies enabling advances in nucleic acid engineering, high-throughput sequencing, biomolecular imaging, gene editing, and pharmacology. **Credit Hours:** 3. **General Education Requirements:** SNT. **Requisites:** CHEM 204&204L/BIOL 141 prerequisite.

CHEM 346L  
**BIOMOLECULAR CHEMISTRY**  
Experiments involve analysis and characterization of the major classes of biological compounds. **Credit Hours:** 2. **General Education Requirements:** None. **Requisites:** BIOL142/301,CHEM301 as prereq. **Crosslisted Courses:** BIOL 346L: Biomolecular Chemistry.

CHEM 347L  
**BIOANALYTICAL CHEMISTRY LAB**  
Topics in modern biological chemistry are studied using techniques that may include polymerase chain reaction, DNA cloning, electrophoresis, protein detection by immunoblot, and computer analysis of DNA and protein sequence data, and spectroscopy. **Credit Hours:** 1. **General Education Requirements:** None.

CHEM 350  
**INORGANIC CHEMISTRY**  
Intermediate-level course covering structures and reactivity of coordination compounds and solid state inorganic materials. GER Note: Completion of this course and associated lab satisfies the SNL requirement. Completion of this course and lab only completes half of the SNL requirement. **Credit Hours:** 3. **General Education Requirements:** SNT. **Requisites:** CHEM 203/203L and CHEM 205/205.
CHEM 355L
INORGANIC CHEMISTRY LABORATORY
Experimental techniques commonly used in synthetic inorganic research laboratories. GER Note: When this course and its associated lecture course are completed, students will satisfy the SNTL requirement. 
**Credit Hours:** 2.  
**General Education Requirements:** SNTL.  
**Requisites:** CHEM 350 as prereq.

CHEM 365L
ANALYSIS OF ANCIENT ART
Introduce a variety of instrumental techniques, including spectroscopy, chromatography, and x-ray methods applied in the context of cultural heritage studies and conservation research, with specific cases and laboratory exercises related to antiquities within the Michael C. Carlos Museum. 
**Credit Hours:** 3.  
**General Education Requirements:** None.  
**Requisites:** CHEM 222/222L/227L/260.

CHEM 370

CS 326
ANALYSIS OF ALGORITHMS
This course explores the formal underpinnings of computational complexity, and studies how to mathematically characterize the efficiency and running times of different computer algorithms. **Credit Hours:** 3. **General Education Requirements:** MQR. **Requisites:** CS 170/171/224/253 prereq..

CS 329
COMPUTATIONAL LINGUISTICS
This course will focus on the analysis of syntactic and semantic structures, ontologies and taxonomies, distributional semantics and discourse, as well as their applications in computational linguistics. Assignments will include advanced programming implementations. **Credit Hours:** 3. **General Education Requirements:** MQR. **Requisites:** CS 171 as a Prerequisite. **Crosslisted Courses:** LING 329: Computational Linguistics.

CS 334
MACHINE LEARNING
This course will cover the underpinnings, algorithms, and practices that enable a computer to learn. Emphasis will be on fundamental theory and algorithms in statistical machine learning, and approaches to applying machine learning in a variety of domains. **Credit Hours:** 3. **General Education Requirements:** MQR. **Requisites:** CS 224&253&MATH221or275or321.

CS 335
ADVANCED COMPUTER ARCHITECTURE
A second course in computer organization and architecture. Emphasis is on combinatorial and sequential circuits, advanced characteristics of CPU and memory, and micro programming. Multiprocessors, GPUs and selected parallel algorithms will be discussed. **Credit Hours:** 3. **General Education Requirements:** MQR. **Requisites:** CS 253 & CS 255 prerequisites.

CS 370
COMPUTER SCIENCE PRACTICUM
This course introduces basic concepts and techniques of software engineering, and applies these in the context of a semester-long group programming project. **Credit Hours:** 3. **General Education Requirements:** None. **Requisites:** CS 253 as prerequisite.

CS 375R
INDEPEND. SOFTWARE DEVELOPMENT
Prerequisite: permission of instructor. Credit, variable. An independent study course devoted to the development of software projects. Cannot be used to meet course requirements for a CS major. **Credit Hours:** 1 - 3. **General Education Requirements:** None.

CS 377
DATABASE SYSTEMS
Introduction to storage hierarchies, database models, consistency, reliability, and security issues. Query languages and their implementations, efficiency considerations, and compression and encoding techniques. **Credit Hours:** 3. **General Education Requirements:** MQR. **Requisites:** CS 253 sz prerequisite.

DANCE

**DANC 121R**
**BALLET DANCE I**
This course is designed for students with no or very minimal experience in ballet technique. Ballet I introduces students to the basic skills and terminology of ballet. The course includes barre exercises with an emphasis on alignment. Center work will include adagio, tendu, basic turns, petite allegro, and grande allegro in simple combinations. The course is designed to develop individual body awareness, strength, flexibility, and an appreciation of the art of ballet. May be taken up to three times for credit. Students are required to take this course at least two times before progressing to the next level and should secure the permission of the instructor before doing so. **Credit Hours:** 1. **General Education Requirements:** PED.

**DANC 123R**
**CONTEMPORARY MODERN DANCE I**
This course is designed for students with no or minimal dance experience. It introduces dance technique and contemporary modern dance vocabulary. Emphasis will be placed on dynamic alignment, sensing and activating weight, developing coordination, and discovering body connections. Movement explorations take place on the floor, standing, and in sequences locomoting through space. Creative expression and musicality are integrated into class content. May be taken up to three times for credit. Students are required to take this course three times before progressing to the next level and should secure the permission of the instructor before doing so. **Credit Hours:** 1. **General Education Requirements:** PED.

**DANC 124R**
**JAZZ DANCE I**
This course is designed for students with no or very minimal jazz dance experience. The course provides an introduction to articulating and expressing rhythms through stylized movement sequences, basic technical skills, and performance. Emphasis is on development of greater body awareness, strength, flexibility, coordination, musicality (especially syncopation), and improvisation. May be taken up to three times for credit. **Credit Hours:** 1. **General Education Requirements:** PED.

**DANC 150R**
**MOVEMENT IMPROVISATION**
An investigation of your body's potential to move without preconception. Explorations in a variety of improvisational forms emphasize group interplay, problem-solving, and inner listening in order to reveal new movement vocabularies and increase kinesthetic awareness. Required course for dance and movement studies majors and minors. **Credit Hours:** 1. **General Education Requirements:** PED.

**DANC 190**
**FRESHMAN SEMINAR**
An introductory seminar on a special topic in dance and movement studies. **Credit Hours:** 3. **General Education Requirements:** FSEM.

**DANC 207R**
**EMORY DANCE COMPANY**
Emory Dance Company is a professionally oriented performance company that exposes students to the diverse choreographic approaches of faculty, student and guest artist work, as well as historical reconstructions. Course admission is by audition. Students gain performance techniques, collaborative skills, and often contribute to the making of original choreography as they prepare for a fully produced dance concert. Simultaneous enrollment in a dance technique class is required. In addition, students gain experience in some of the technical aspects of dance concert production. Credit hours are assigned in accordance with the number of works in which a student participates. Evaluation procedures announced in class. **Credit Hours:** 1 - 2. **General Education Requirements:** PED.

**DANC 211**
**TANGO: ARGENTINA'S ART FORM**
This course for music and dance students to study Argentine tango in Buenos Aires will intersect scholarly studies of tango history and culture with performance practice. It will provide an authentic, holistic learning experience for students to understand how theory and practice inform each other. Music and dance majors and minors only, or by permission of instructor with letter of recommendation by a music or dance professor. **Credit Hours:** 3. **General Education Requirements:** HAP. **Crosslisted Courses:** MUS 211: Tango: Argentina's Art Form.

**DANC 212R**
**WORLD DANCE FORMS**
Students will study a non-western dance form, learning the basic techniques and style of the form. The material will be further explored through historical, cultural and political perspectives. This course culminates in a performance or lecture demonstration. **Credit Hours:** 1. **General Education Requirements:** PED.

**DANC 213R**
**AFRICAN DANCE**
This course will introduce a variety of African Dance styles and movement forms from the West and Central African countries. Students will understand the relationship of culture and tradition in
these regions, and study the technical components of each dance form. **Credit Hours:** 1. **General Education Requirements:** PED.

**DANC 214R**

**FLAMENCO**

Flamenco reflects a way of life through rhythmic footwork, fluid upper body movements, and music of guitar, singing, and percussion. This course emphasizes the Spanish Gypsy culture and its forms of group support and expression. Students analyze its origins and evolution. **Credit Hours:** 1. **General Education Requirements:** PED.

**DANC 215R**

**KUCHIPUDI**

This course introduces students to the basics of Kuchipudi, an Asian Indian classical dance form of South India based on dance dramas that tell a story. Students will gain familiarity with hand gestures, foot movements, rhythmic syllables, and how to use combinations of these to express themselves through dance. This course culminates in a performance or lecture demonstration. **Credit Hours:** 1. **General Education Requirements:** PED.

**DANC 220**

**HIST. OF WESTERN CONCERT DANCE**

This course traces the development of Western concert dance from 19th century Romantic Ballet to the present. Emphasis will be placed on the development of American modern dance, post modern dance, and current trends and dance artists. This course is required for all dance and movement studies majors and minors. Students wishing to enroll must be a declared dance and movement studies major or minor, or obtain permission of the instructor. **Credit Hours:** 4. **General Education Requirements:** HSC.

**DANC 221R**

**BALLET DANCE II**

This course is designed for students who can demonstrate an understanding of and familiarity with basic ballet vocabulary. Includes barre exercises with a continued emphasis on alignment. Center work will include adagio, tendu, turns, petite allegro, and grande allegro in simple combinations. The course is designed to develop individual body awareness, strength, flexibility, musicality, and an appreciation of the art of ballet. At least 2-3 semesters in Ballet I and consultation with the instructor are required before entry into this course. May be taken up to three times for credit. **Credit Hours:** 1. **General Education Requirements:** PED.

**DANC 222R**

**HIP-HOP BEGINNING/INTERMEDIATE**

Students learn the basic skills and techniques of street dance styles (such as breaking, popping, locking, house, new jack, and krumping) and examines hip-hop dance/culture as a social, concert, and commercial form. The course contextualizes the physical practice with lectures and discussions. **Credit Hours:** 1. **General Education Requirements:** PED.

**DANC 223R**

**CONTEMPORARY MODERN DANCE II**

This course builds on the technical skills introduced in Dance 123R. Emphasis is placed on centering, core support, breath support, full articulation of the body in three-dimensional space, fully integrating concepts of parallel and rotation, and the interplay of stability and mobility. At least three semesters in the Contemporary Modern Dance I and consultation with instructor is required before entry into this course. May be taken up to three times for credit. **Credit Hours:** 1. **General Education Requirements:** PED.

**DANC 224R**

**JAZZ DANCE II**

This course includes further development of skills introduced in Jazz Dance I with greater emphasis on style, performance, and technique. More technically challenging movement sequences will be introduced and students will be expected to individualize movement at a beginner/intermediate level. May be taken up to three times for credit. **Credit Hours:** 1. **General Education Requirements:** PED.

**DANC 225**

**FITNESS FOR DANCERS**

This course increases the students' physical capacities through study and implementation of principles of physical fitness with the objective of improving dance performance. Somatic practices and exercise systems are introduced through guest lectures. Students are introduced to anatomical and physiological issues that are common among dancers. **Credit Hours:** 1. **General Education Requirements:** PPF.

**DANC 226**

**TOPICS IN SOMATIC PRACTICES**

Somatic movement education builds a relationship between the body and mind by guiding the mover through a process of full body integration. A variety of somatic practices may be covered, including Bartenieff Fundamentals, Iyengar-based yoga, and Gyrokinesis movement training. Somatic practices can be applied to everyday activities and performance, affecting levels of confidence and encouraging authenticity. **Credit Hours:** 1 - 4. **General Education Requirements:** PED.
DANC 228
HIP-HOP DANCE AND IDENTITY

This course explores hip-hop dance/culture via lectures and movement sessions. It facilitates cultural self-awareness and tools for self-expression by considering race, sexuality, class, authenticity, and gender within hip-hop to delineate how it unifies people across racial and ethnic barriers. **Credit Hours:** 3. **General Education Requirements:** ETHN.

DANC 229
INTRODUCTION TO DANCE

Introduction to Dance is an overview of dance as an expressive art form, a symbolic language, and an integral aspect of world cultures. The course is designed to help students grasp a range of cultural, aesthetic, and bodily worlds from which dance is born. Course work enables students to develop intuitive and verbal skills which allow them to articulate about movement and its meaning. This is supported by direct physical experience in various dance forms, styles, genres, and through exploring the creative process. **Credit Hours:** 3. **General Education Requirements:** HAP.

DANC 230
PRINCIPLES OF DESIGN

A theoretical and practical understanding of the process involved in conceiving and executing a stage design and the interrelationship of the various design disciplines. **Credit Hours:** 4. **General Education Requirements:** HAP. **Crosslisted Courses:** THEA 230: Principles of Design.

DANC 240
DANCE LITERACY

This course will provide a framework for observing, analyzing, notating, and understanding movement as an expressive, communicative form. Movement literacy skills are demonstrated through the body by building relationships between Body, Space, Shape, and Effort. By utilizing Rudolph Laban’s Movement Analysis system (LMA), emphasis is placed on embodying movement intention and discovering context and meaning in stylistic patterns of movement. Required course for dance and movement studies majors. **Credit Hours:** 3. **General Education Requirements:** HAP.

DANC 250
CHOREOGRAPHY I

This is a dance composition course designed to allow the student to discover new ideas about movement in a nurturing and experimental environment. Students develop and perform solo studies with an emphasis placed on the development of personal movement vocabulary, phrase building, and the exploration of choreographic tools. Discussion, critiquing, and descriptive writing about their choreographic processes will supplement direct physical work. Required course for dance and movement studies majors and minors. Must be a declared dance and movement studies major or minor, or permission of instructor. **Credit Hours:** 3. **General Education Requirements:** HAP. **Requisites:** DANCE 150 as a Prerequisite.

DANC 251
LIGHTING DESIGN FOR DANCE

Students learn to balance the practical and theoretical aspects of lighting design—technical knowhow, artistic vision, communication skills (drafting, drawing, charting), collaboration, and organizational skills. Students are expected to have some knowledge of concert dance and theatrical methods. **Credit Hours:** 4. **General Education Requirements:** HAP.

DANC 321R
BALLET DANCE III

This course continues to reinforce and build upon the skills learned in Ballet II. More emphasis is placed on style and execution of movement at an intermediate level. Movement sequences become more intricate. A more extensive movement vocabulary is introduced. At least 2-3 semesters in Ballet II and consultation with the instructor are required before enrolling in this course. May be taken up to six times for credit. **Credit Hours:** 1. **General Education Requirements:** PED.

DANC 322R
HIP-HOP INTERMEDIATE/ADVANCED

This course develops techniques of street dance styles and examines hip-hop dance/culture. Students dive deeper into their artistry by engaging in the cultural laws of hip-hop--innovation, creativity, and individuality, to raze traditional hierarchical systems of power and promote respect for all. **Credit Hours:** 1. **General Education Requirements:** PED. **Requisites:** DANC 222R as prerequisite.

DANC 323R
CONTEMPORARY MODERN DANCE III

This course is designed for students who are ready to deepen technical practices. Emphasis is placed on the student’s technical proficiency and versatility. This course encourages intermediate students to become articulate performers by developing groundedness, musicality, sophisticated use of three-dimensional space, partnering, and ensemble work. Consultation with instructor is required before enrolling in this course. May be taken up to three times for credit. **Credit Hours:** 2. **General Education Requirements:** PED.

DANC 324R
JAZZ DANCE III

This course includes further development of skills introduced in Jazz Dance II with greater emphasis on style, performance and technique. More technically challenging movement sequences will be introduced and students will be expected to individualize movement at an advanced level. Course material may include components of Broadway, lyrical, hip hop and other entertainment-based...
DANC 329
ART AS WORK

This course explores the practical, aesthetic, and current issues of the performing arts as they relate to the development of individual artists and the communities that support their work. Focus areas include arts advocacy, grant writing, and the arts as a reflection of contemporary culture. **Credit Hours:** 4. **General Education Requirements:** HAP. **Crosslisted Courses:** THEA 329: Art as Work.

DANC 330
DANCE PEDAGOGY

This course develops communicative, leadership, and creative skills while preparing the student for his/her role as a dance educator. Movement is developed as a kinesthetic tool for learning. Content includes the history of dance education, educational theories, development of original lesson plans, and practical teaching experiences in the Atlanta community. **Credit Hours:** 3. **General Education Requirements:** HAP.

DANC 336
EXPERIENTIAL ANATOMY

This course is designed for dancers, movers, and aspiring movement practitioners to develop a deeper anatomical understanding of the body and to explore anatomical relationships through movement, somatic practices, and neuromuscular exercises. **Credit Hours:** 3. **General Education Requirements:** HAP. **Crosslisted Courses:** HLTH 369: Experiential Anatomy.

DANC 340
ARTS WRITING & CRITICISM

This course will be conducted as a professional workshop. During the semester students will be required to produce a series of critical articles covering a wide spectrum of fields from music to books, to dance, to theater and the visual arts. Class sessions and assignments will be devoted to nurturing the requisite skills needed to become a successful reviewer or critic. The seminar will include talks by faculty from Journalism, Dance, Music and Theater Studies, as well as visiting professional critics. **Credit Hours:** 3. **General Education Requirements:** HAP. **Crosslisted Courses:** THEA 340: Arts Writing & Criticism.

DANC 340W
ARTS WRITING & CRITICISM

This course will be conducted as a professional workshop. During the semester students will be required to produce a series of critical articles covering a wide spectrum of fields from music to books, to dance, to theater and the visual arts. Class sessions and assignments will be devoted to nurturing the requisite skills needed to become a successful reviewer or critic. The seminar will include talks by faculty from Journalism, Dance, Music and Theater Studies, as well as visiting professional critics. **Credit Hours:** 4. **General Education Requirements:** HAPW. **Crosslisted Courses:** THEA 340W: Arts Writing & Criticism.

DANC 350
CHOREOGRAPHY II

Students will utilize skills acquired in Choreography I. Choreography II emphasizes deeper exploration and understanding of the elements of space, time, and energy in group works. This course meets twice a week, with an additional evening lab for viewing and critiquing works in progress. Students participate in many aspects of the production process. **Credit Hours:** 5. **General Education Requirements:** HAP. **Requisites:** DANCE 250 as a Prerequisite.

DANC 360R
CHOREOGRAPHIC LABORATORY

This course supports students who are continuing to create original choreographic work for the Emory Dance Company after successfully completing Choreography I and II. The lab is designed to provide ongoing feedback during the creative process. **Credit Hours:** 2. **General Education Requirements:** None. **Requisites:** DANCE 350 as a Prerequisite.

DANC 385
SPEC TOPICS:DANCE&MVMNT STUDIE

Course based on selected topics in dance or movement studies. May be repeated for credit when topic varies. **Credit Hours:** 1 - 4. **General Education Requirements:** HAP / HSC.

DANC 385W
SPEC TOPICS:DANCE&MVMNT STUDIE

Course based on selected topics in dance or movement studies. May be repeated for credit when topic varies. **Credit Hours:** 1 - 5. **General Education Requirements:** HAPW / HSCW.

DANC 421R
BALLET DANCE IV

This course continues to reinforce and build upon the skills learned in Dance 321R. More emphasis is placed on style and execution. Combinations increase in intricacy and a larger dance movement vocabulary is introduced. Course work may include pointe work and variations. At least two semesters in Ballet III and consultation with the instructor are required before enrolling in this
course. May be taken up to nine times for credit. **Credit Hours:** 1. **General Education Requirements:** PED.

**DANC 423R**
**CONTEMPORARY MODERN DANCE IV**

Designed for advance dance students who can demonstrate a consistent repertoire of technical skill absent of fundamental body issues. Class material challenges the student's technical and performance range and develops a sophisticated understanding of movement concepts. **Credit Hours:** 2. **General Education Requirements:** PED.

**DANC 424R**
**JAZZ DANCE IV**

This course is designed for advanced dancers who demonstrate consistent technical knowledge within the jazz dance genre. Class material will range in style from broadway to contemporary. **Credit Hours:** 1. **General Education Requirements:** PED.

**DANC 491R**
**SPECIAL PROJECTS: PERFORMANCE**

Provides students with an opportunity to explore individually designed performance projects or perform in honors projects under faculty supervision and evaluation. May be repeated for credit when project varies. **Credit Hours:** 1 - 2. **General Education Requirements:** None.

**DANC 492R**
**SPEC PROJ:TECHNICAL PRODUCTION**

Provides students with an opportunity to explore individually designed technical production projects in dance under faculty supervision. May be repeated for credit when project varies. **Credit Hours:** 1 - 4. **General Education Requirements:** None.

ENGCW 375RW
CREATIVE WRITING: ADV DRAMA
Every semester. Intermediate level workshop in advanced writing for theater undergraduates, which also broaches various aspects of pre-production planning. Weekly screenings required. Credit Hours: 4. General Education Requirements: HAPW.

ENGCW 376RW
CREATIVE WRITING: NON-FICTION
Every semester. Intermediate level workshop in nonfiction genres that often use fictional techniques. ENGCW 270, 271, or 272 required as prerequisite. May be repeated for a maximum of eight hours credit. Credit Hours: 3. General Education Requirements: HAP.

ENGCW 376R
CREATIVE WRITING: NON-FICTION
Every semester. Intermediate level workshop in nonfiction genres that often use fictional techniques. ENGCW 270, 271, or 272 required as prerequisite. May be repeated for a maximum of eight hours credit. Credit Hours: 4. General Education Requirements: HAPW.

ENGCW 377R
CREATIVE WRITING: TRANSLATION
Every semester. Intermediate level workshop in the theory and practice of translation. ENGCW 270, 271, or 272 required as prerequisite. May be repeated for a maximum of eight hours credit. Credit Hours: 3. General Education Requirements: HAP.

ENGCW 377RW
CREATIVE WRITING: TRANSLATION
Every semester. Intermediate level workshop in the theory and practice of translation. ENGCW 270, 271, or 272 required as prerequisite. May be repeated for a maximum of eight hours credit. Credit Hours: 4. General Education Requirements: HAPW.

CREATIVE
WRT.:INDEPENDENT STUDY
Credit, variable; maybe be repeated for a maximum of eight hours credit. Project description and written permission of instructor required before registration. ENG 270, 271, or 272 required as prerequisite. 
**Credit Hours:** 1 - 8. 
**General Education Requirements:** None.

ENGCW 397RW
CREATIVE WRITING: INDEPENDENT STUDY
Credit, variable; maybe be repeated for a maximum of eight hours credit. Project description and written permission of instructor required before registration. ENG 270, 271, or 272 required as prerequisite. 
**Credit Hours:** 1 - 8. 
**General Education Requirements:** WRT.

ENGCW 495R
CREATIVE WRITING HONORS
Offered every semester. Credit variable; may be repeated for a maximum of eight hours credit. Prerequisite: academic eligibility and approval of honors project director. A tutorial designed primarily to assist honors candidates in preparing their projects. 
**Credit Hours:** 1 - 8. 
**General Education Requirements:** None.

**ENVIRONMENTAL STUDIES**

ENVS 120
LIVING IN THE ANTHROPOCENE
Introduction to environmental sciences through overarching hot-button research topics in earth science, ecology, resilience, and sustainability. Human impact on the environment will be discussed and debated through interdisciplinary analysis of case studies. Appropriate for majors and non-majors. 
**Credit Hours:** 3. 
**General Education Requirements:** SNT.

ENVS 130
ENVIRONMENTAL SCIENCES
This course is an introduction to the concepts and methods related to the study of environmental sciences. Students will be introduced to relevant theories from physical, ecological and social sciences. This course is intended for majors and minors in Environmental Sciences. 
**Credit Hours:** 3. 
**General Education Requirements:** SNT.

ENVS 131
INTRO.TO ENVNS FIELD STUDIES
Applies and integrates theories and concepts of environmental science through field study. Introduction to Piedmont geology, water, land and forest use, management and policy. Introduction to ENVS research and community engaged learning. This course is required for ENVS majors and minors. 
**Credit Hours:** 2. 
**General Education Requirements:** None.

ENVS 140
ENVIRONMENTAL CHANGE & HEALTH
Human and environmental health are incredibly intertwined. This course will introduce the relationships emerging between humans, animals and environmental change and examine health issues, scientific understanding of causes, and possible future approaches to global environmental and health problems. 
**Credit Hours:** 3. 
**General Education Requirements:** SNT.

ENVS 190
FRESH SEM:ENVIRONMENTAL STUDIES
The topics for freshman seminars are variable and change every semester. Past offerings include Climate Change, Global Earth Systems, Interpreting Behavior That You Can't See, Ecological Economics, Plants, People and Places and Ecological Restoration. 
**Credit Hours:** 3. 
**General Education Requirements:** FSEM.

ENVS 215
GREAT BOOKS OF THE GEOSCIENCES
Geology and paleontology are essential sciences for understanding how the earth, its life, and environments changed through time. This class explores their 18th and 19th century roots by reading, discussing, and writing about books of those times to learn appreciation for their scientific influence. 
**Credit Hours:** 3. 
**General Education Requirements:** None. 
**Requisites:** ENVS 130/ENVS 13/ENVS_OX 131.

ENVS 215W
GREAT BOOKS OF THE GEOSCIENCES
Geology and paleontology are essential sciences for understanding how the earth, its life, and environments changed through time. This class explores their 18th and 19th century roots by reading, discussing, and writing about books of those times to learn appreciation for their scientific influence. 
**Credit Hours:** 4. 
**General Education Requirements:** WRT. 
**Requisites:** ENVS 130/ENVS 13/ENVS_OX 131.

ENVS 222
EVOLUTN OF THE EARTH WITH LAB
History of earth in context of changing global environments. Emphasizes biological systems interacting with global processes: plate tectonics, climate change, sea level; lab exercises on
ENVS 224  
ECONOMY AND THE ENVIRONMENT

This course investigates the interactions between economic systems and the environment, focusing on the economic drivers of and solutions to environmental change. Topics include food and water security, economic valuation and externalities, market failures, and socioenvironmental inequality. **Credit Hours:** 3. **General Education Requirements:** None.

ENVS 225  
INSTITUTIONS & THE ENVIRONMENT

Introduces theories of human interaction with the environment. Focus is on holistically examining the factors social science research suggests drives human behavior towards natural resources. Focused on Ostrom’s IAD and SES Frameworks. **Credit Hours:** 3. **General Education Requirements:** None.

ENVS 227  
ENVIRONMENTAL POLICY

Introduction to basic concepts of American environmental policy. Topics include: history of federal environmental policymaking, environmental policy tools, controversies in environmental policy, and U.S. environmental policy in the age of globalization. Field trips required. **Credit Hours:** 3. **General Education Requirements:** HSC. **Requisites:** ENVS 131/BIOLOX111 as Prereq.

ENVS 227W  
ENVIRONMENTAL POLICY

**Crosslisted Courses:** POLS 227: Environmental Policy.

ENVS 228  
ENVIRONMENTAL POLICY WITH LAB

Prerequisite: ENVS 131, POLS 100 or permission. An introduction to basic concepts of American environmental policy in the age of globalization. Topics include the history of federal policymaking, policy tools and controversies in environmental policy. Field trips and weekly lab required. **Credit Hours:** 4. **General Education Requirements:** HSC. **Crosslisted Courses:** POLS 228: Environmental Policy with Lab.

ENVS 229  
ATMOSPHERIC SCIENCE WITH LAB

Meteorology is the science of the atmosphere and the weather it produces. It seeks to understand the dynamics of the system in terms of available energy and how those dynamics produce the daily weather and long-term climate of the globe. This course will include a weekly lab. **Credit Hours:** 4. **General Education Requirements:** None.

ENVS 230  
FUNDAMENTALS OF GEOLOGY W/LAB

Introduction to earth processes. Topics include minerals, the rock cycle, the hydrologic cycle, stream dynamics, glacial and coastal processes, energy resources, plate tectonics, earthquakes and volcanism. **Credit Hours:** 4. **General Education Requirements:** SNTL. **Requisites:** ENVS 131/BIOLOX111 as Prereq.

ENVS 232  
FUNDAMENTALS OF ECOLOGY W/LAB

Overview of ecology, including ecosystem structure and function, ecosystem dynamics, methods of ecosystem analysis, energy flow, nutrient dynamics, population and community ecology and human dominated ecosystems. **Credit Hours:** 4. **General Education Requirements:** SNTL. **Requisites:** ENVS 131 or ENVS_OX 131 Prereq.

ENVS 234  
BIOPHILIC AND GREEN DESIGN

Application of basic ecological concepts to the design of architectural structures. In addition, the course will explore the concept of ‘biophilia’ (inherent love of nature) and ‘biomimicry’ (using nature to inform design) in architectural design. **Credit Hours:** 3. **General Education Requirements:** None.

ENVS 235  
ENVIRONMENTAL GEOLOGY

This course focuses on interactions between human activities and geologic processes. Topics include floods, earthquakes, volcanism, risk and resilience, air and water pollution, mineral and energy resources and climate change. **Credit Hours:** 3. **General Education Requirements:** SNTL. **Requisites:** ENVS 131/BIOLOX111 as Prereq.
ENVS 239  
**PHYSICAL OCEANOGRAPHY**
Overview of ocean processes, including the causes and effects of waves and currents, geology of the sea floor, coastal erosion, and related environmental and economic effects. **Credit Hours:** 3.  
**General Education Requirements:** SNT.

ENVS 240  
**ECOSYSTEM ECOLOGY**
Overview of ecosystem ecology, including dynamics of large scale systems, landscape ecology, ecosystem structure, and function. Topics in the course will include: methods of ecosystem analysis, energy flow, nutrient cycling, community dynamics, issues of scale, models, and ecosystem properties. **Credit Hours:** 3.  
**General Education Requirements:** SNT.  
**Requisites:** ENVS 131/BIOL_OX 111 as Prereq.

ENVS 240L  
**ECOSYSTEM ECOLOGY LAB**
This is the laboratory portion of the ENVS 240 Ecosystem Ecology class. Field studies and laboratory exercises will be conducted in various ecosystems around north Georgia. **Credit Hours:** 1.  
**General Education Requirements:** None.

ENVS 241  
**MOD & ANC TROP ENVIRONMENTS**
Modern and ancient tropical environments of The Bahamas. Topics: sea level, island biogeography, reef ecology, geology, human effects on environments. Required weekend field trip to Georgia barrier island. Must be taken with ENVS 242 to fulfill ENVS field course. **Credit Hours:** 1.  
**General Education Requirements:** None.  
**Requisites:** ENVS 131/BIOL_OX 111 as Prereq.

ENVS 242  
**MOD & ANC TROP ENV FIELD CRS**
Field-based study of modern and ancient tropical environments on San Salvador Island, Bahamas. Topics: terrestrial, intertidal and subtidal environments; rocky and sandy shorelines; hypersaline lakes; caves; reefs; lagoons; biological and geological methods in the field. Fulfills ENVS field course. **Credit Hours:** 3.  
**General Education Requirements:** None.  
**Requisites:** ENVS 241.

ENVS 247  
**ECOLOGY**
This course provides an overview of the principles of ecology and the study of relationships between organisms and their environment. Processes and properties of individuals, populations, communities, and ecosystems will be emphasized. Lectures will emphasize active and collaborative learning. **Credit Hours:** 3.  
**General Education Requirements:** None.  
**Requisites:** BIOL 142/142L or BIOL_OX 142.  
**Crosslisted Courses:** BIOL 247: Ecology.

ENVS 247L  
**ECOLOGY LABORATORY**
This is the laboratory portion of the Ecology class. Field studies will be conducted in various natural areas in Georgia, including a weekend trip to the mountains. Pre- or corequisite: Biology/ENVS 247. (This course meets the upper-level laboratory requirement for the biology major.) **Credit Hours:** 2.  
**General Education Requirements:** None.  
**Requisites:** BIOL142 & 247 as a Prerequisite.  
**Crosslisted Courses:** BIOL 247L: Ecology Laboratory.

ENVS 247 LW  
**ECOLOGY LABORATORY**
This is the laboratory portion of the Ecology class. Field studies will be conducted in various natural areas in Georgia, including a weekend trip to the mountains. Pre- or corequisite: Biology/ENVS 247. (This course meets the upper-level laboratory requirement for the biology major and the WR GER.) **Credit Hours:** 3.  
**General Education Requirements:** WRT.  
**Requisites:** BIOL142 & 247 as a Prerequisite.  
**Crosslisted Courses:** BIOL 247LW: Ecology Laboratory.

ENVS 250  
**FUNDAM. OF CARTOGRAPHY & GIS**
Explores the study and design of maps and geographic information systems (GIS) as a problem-solving tool for geographic analysis with focus on applications of GIS, data collection and processing, cartographic design, and trends in geospatial technology. **Credit Hours:** 4.  
**General Education Requirements:** None.  
**Requisites:** QTM 100 or QTM_OX 100 prereq..

ENVS 255  
**ENVIRONMENTAL COMMUNICATION**
Environmental issues that are often misunderstood can be communicated with effective writing and presentation methods. This class provides tools for addressing environmental misconceptions while also developing communication skills for a variety of personal, public, or academic situations. **Credit Hours:** 3.  
**General Education Requirements:** None.

ENVS 255W  
**ENVIRONMENTAL COMMUNICATION**
Environmental issues that are often misunderstood can be communicated with effective writing and presentation methods. This class provides tools for addressing environmental misconceptions while also developing communication skills for a variety of personal, public, or academic situations. **Credit Hours:** 4.  
**General Education Requirements:** WRT.

ENVS 260  
**QUANT TECH IN ENVIRON STDY**
Quantitative methods in environmental studies, with a focus on statistical methods. **Credit Hours:** 3.  
**General Education Requirements:** None.  
**Requisites:** QTM 100 or QTM_OX 100 prereq.
ENVS 270
ENVIRONMENTAL DATA SCIENCE

Students will learn to summarize and explore patterns and relationships in social and environmental data, conduct independent research, effectively communicate results and implications, and critically assess data-driven assertions. Credit Hours: 3. General Education Requirements: None. Requisites: QTM 100 as prerequisite.

ENVS 275
NATURE AND CULTURE IN JAPAN

ENVS 285
SPECIAL TOPICS

A course designed for second year students on topics of interest in environmental sciences. This course may count as elective credit for the ENVS major and minor; relevant topics may count towards the ENVS Sustainability Sciences or Earth and Atmospheric Sciences minors. See current course atlas. Credit Hours: 1 - 4. General Education Requirements: None.

ENVS 285W
SPECIAL TOPICS

A course designed for second year students on topics of interest in environmental sciences. This course may count as elective credit for the ENVS major and minor; relevant topics may count towards the ENVS Sustainability Sciences or Earth and Atmospheric Sciences minors. See current course atlas. Credit Hours: 1 - 5. General Education Requirements: WRT.

ENVS 286
SPECIAL TOPICS W/LAB

A course designed for second year students on topics of interest in environmental sciences. Lecture with weekly lab sessions. This course may count as an upper level lab for the ENVS major; relevant topics may count as elective credit for ENVS minors. See current course atlas. Credit Hours: 1 - 4. General Education Requirements: None.

ENVS 286W
SPECIAL TOPICS W/LAB

A course designed for second year students on topics of interest in environmental sciences. Lecture with weekly lab sessions. This course may count as an upper level lab for the ENVS major; relevant topics may count as elective credit for ENVS minors. See current course atlas. Credit Hours: 1 - 5. General Education Requirements: WRT.

ENVS 287
SPECIAL TOPICS W/FIELD

A course designed for second year students on topics of interest in environmental sciences. Lecture with required field trips. This course may count as an upper level field course for the ENVS major; relevant topics may count as elective credit for ENVS minors. See current course atlas. Credit Hours: 1 - 4. General Education Requirements: None.

ENVS 287W
SPECIAL TOPICS W/FIELD

A course designed for second year students on topics of interest in environmental sciences. Lecture with required field trips. This course may count as an upper level field course for the ENVS major; relevant topics may count as elective credit for ENVS minors. See current course atlas. Credit Hours: 1 - 5. General Education Requirements: WRT.

ENVS 299R
FUNDAMENTALS OF ENVS RSRCH.

Variable credit. Permission of faculty supervisor required prior to enrollment. Designed primarily for sophomores, this course provides ENVS students with foundational skills for research under the supervision of a faculty member. A stepping stone to more advanced research work. Credit Hours: 1 - 8. General Education Requirements: None.

ENVS 318
NATURAL SCIENCE ILLUSTRATION

Credit Hours: 3. General Education Requirements: None.

ENVS 320
ENVIRON ASSESSMENT/MANAGEMENT

Introduction to Adaptive Natural Resource Management. The course will review existing theories, concepts and methods of adaptive assessment, management, and case histories of systems where adaptive management approaches have been applied. Credit Hours: 3. General Education Requirements: None. Requisites: ENVS131/240/247, BIOLOX111.

ENVS 321
GEOLOGY AND HUMAN HEALTH

Interdisciplinary course discussing the connections between Earth and human body processes. Examines intrinsic and extrinsic metabolic pathways controlling health, pathogens, disease, pollution, natural resources, and earth and human cycles. Credit Hours: 3. General Education Requirements: None. Requisites: ENVS 131/BIOL_OX 111 as Prereq.

ENVS 324
ENVIRONMENTAL ECONOMICS

This course introduces the fields of environmental and ecological economics. Our focus is on how economic thinking can be used to interpret and inform environmental policy and management of
ENVS 325
ENERGY AND CLIMATE CHANGE

Energy generation and consumption at the individual, regional, national and international level are used as a lens for understanding climate change. Particular attention is paid to the interaction between scientific uncertainty and global decision making. **Credit Hours:** 3. **General Education Requirements:** None. **Requisites:** ENVS 131 & ENVS 260 as prereq.

ENVS 326
CLIMATE CHANGE AND SOCIETY

This course draws upon the Conference of the Parties (COP) to the United Nations Framework on Climate Change (UNFCCC) as a way to explain issues related to the science, policy, and business of climate change from an interdisciplinary perspective. **Credit Hours:** 3. **General Education Requirements:** None.

ENVS 328
INTRO.TO ATMOSPHERIC CHEMISTRY

This course will provide knowledge in atmospheric chemistry, focusing on the physical and chemical processes. Students will be able to: 1) explain important atmospheric phenomena from the local to global scale; and 2) critically assess public discussions and media coverage on air pollution. **Credit Hours:** 3. **General Education Requirements:** None. **Requisites:** PHYS 141/2 or 151/2 PRERQ #726. **Crosslisted Courses:** CHEM 328: Intro to Atmospheric Chemistry.

ENVS 329
RELIGION AND ECOLOGY

Historical, philosophical, and ethical relationships between religion and ecology; other dimensions include Eastern thought, ecofeminism, animal rights, and literary nature writers. **Credit Hours:** 4. **General Education Requirements:** HAP / HSC. **Crosslisted Courses:** REL 329: Religion and Ecology.

ENVS 330
CLIMATOLOGY

Climatology studies the properties of the atmosphere and ocean and the resulting climates. We emphasize the energy cascade of the climate system and climate change. **Credit Hours:** 3. **General Education Requirements:** SNT. **Requisites:** ENVS 131/BIOL_OX 111 as Prereq.

ENVS 331
EARTH SYSTEMS SCIENCE

This course covers how the atmosphere, oceans and land work together to produce the characteristics of the planet, how this synergy has changed in the past, and how human activity affects the system. **Credit Hours:** 3. **General Education Requirements:** SNT. **Requisites:** ENVS 131/BIOL_OX 111 as Prereq.

ENVS 340
WETLAND ECOLOGY

This course introduces students to the ecology of wetlands. The course covers factors that influence the hydrology of wetlands, present the ecology of a diverse set of wetland systems and introduce a range of management issues that confront wetland managers. **Credit Hours:** 3. **General Education Requirements:** None. **Requisites:** ENVS 131/BIOL_OX 111 as Prereq.

ENVS 341
FIELD BOTANY

This course will focus on plant identification in the field. Students will learn sight identification and the use of taxonomic keys. We will also discuss the natural history of plants and plant communities. This course fulfills an ENVS lab requirement. Includes a required weekend field trip. **Credit Hours:** 4. **General Education Requirements:** None.

ENVS 342
BARRIER ISLAND

Overview of barrier islands, integrates geology and ecology to understand barrier islands as places denoted by dramatic and rapid change. Includes human-related factors related to barrier islands and effects of climate change. Weekend field trip to Georgia barrier islands. **Credit Hours:** 3. **General Education Requirements:** None. **Requisites:** ENVS 131/BIOL_OX 111 as Prereq.

ENVS 344
AMERICAN ENVIRONMENTAL HISTORY

History of the relationship between the American people, land, weather, and natural resources, with special attention to the environmental movement since 1960. **Credit Hours:** 3. **General Education Requirements:** HSC. **Crosslisted Courses:** HIST 344: American Environmental History.

ENVS 345
CONSERVATION BIOLOGY

This course focuses on the conservation of biodiversity and introduces students to ways that ecological and evolutionary principles can be used to conserve and protect species and ecosystems at risk. **Credit Hours:** 3. **General Education Requirements:** SNT. **Requisites:** ENVS 131, BIOLOX111, BIOL 142. **Crosslisted Courses:** BIOI 345: Conservation Biology.

ENVS 346
GEOL.ORIG. OF LANDSCAPES W/LAB

Introduction to Earth's surface landforms, produced by tectonic, stream, desert, coastal and glacial processes. Topics include the effects of catastrophic events such as volcanic eruptions, tsunami and landslides. Course includes lab and field experience. **Credit Hours:** 4. **General Education Requirements:** None. **Requisites:** ENVS 131/BIOL_OX 111 as Prereq.
ENVS 347
LANDSCAPES AND GEOMORPHOLOGY
This course examines cultural and physical landscapes and their temporal and spatial changes of natural and built environments and by incorporating the use of geospatial technologies and methods in their examination. **Credit Hours:** 3. **General Education Requirements:** None. **Requisites:** ENVS 131 as prerequisite.

ENVS 347L
GEOMORPHOLOGY LABORATORY
This lab/field experience is a supplement to ENVS 347 Landscapes and Geomorphology which examines cultural and physical landscapes and their temporal and spatial changes through the study of natural and built environments and by incorporating the use of geospatial technologies. **Credit Hours:** 1. **General Education Requirements:** None. **Requisites:** ENVS 347 as co-requisite.

ENVS 348
SUSTAINABLE WATER RES. WITH LAB
Topics include the hydrologic cycle, surface and groundwater hydrology, effects of human activity on water quality and supply, water management, water scarcity and conflict. Special emphasis on sustainable practices in water resource management. **Credit Hours:** 4. **General Education Requirements:** None. **Requisites:** ENVS 131/BIOL_OX 111 as Prereq.

ENVS 349
ECOLOGY OF INVASIONS
This course will familiarize students with principles of ecological invasions and methods for assessing the spread and impacts of invasive species on a global scale. Students will also become familiar with major sources of exotic species introductions and methods available for prevention and control. **Credit Hours:** 4. **General Education Requirements:** None. **Requisites:** ENVS 131, BIOLOX111, BIOL 142. **Crosslisted Courses:** BIOL 349: Ecology of Invasions.

ENVS 350
ENV THGT: ETHICS, PHIL. & ISSUES
This course exposes students to philosophical and ethical dimensions of human-nature relationships. Students will consider their own views toward nature. Philosophical and ethical concepts are examined through readings, discussions, and group activities. **Credit Hours:** 3. **General Education Requirements:** HSC. **Requisites:** ENVS 131/BIOL_OX 111 as Prereq.

ENVS 350W
ENV THGT: ETHICS, PHIL. & ISSUES
This course exposes students to philosophical and ethical dimensions of human-nature relationships. Students will consider their own views toward nature. Philosophical and ethical concepts are examined through readings, discussions, and group activities. **Credit Hours:** 4. **General Education Requirements:** HSCW. **Requisites:** ENVS 131/BIOL_OX 111 as Prereq.

ENVS 352
GREEN BUSINESS
Explores the role of business in "doing good" for society, how to develop a vision for sustainability within a company, what it means to work on environmental concerns in a major corporation, and compares the approaches of leading companies. Emphasis on readings, writing assignments and discussion. **Credit Hours:** 3. **General Education Requirements:** None. **Requisites:** ENVS 225 or 227 as prereq.

ENVS 352W
GREEN BUSINESS
Explores the role of business in "doing good" for society, how to develop a vision for sustainability within a company, what it means to work on environmental concerns in a major corporation, and compares the approaches of leading companies. Emphasis on readings, writing assignments and discussion. **Credit Hours:** 4. **General Education Requirements:** WRT. **Requisites:** ENVS 225 or 227 as prereq.

ENVS 359
ECOLOGY & EVOLUTION OF DISEASE
From prehistory to today, pathogens have played a central role in our existence. This course will provide insights into why we get sick and how we heal by examining human disease within the context of ecology and evolution. Required for ENVS BS/MPH students. **Credit Hours:** 3. **General Education Requirements:** None. **Requisites:** ENVS 131/BIOL_OX 111 as Prereq.

ENVS 361
ECOSYSTEMS THROUGH TIME
Introduction to paleoecology and paleoecological methods. Includes geological and paleontological evidence for marine, freshwater, and terrestrial ecosystems from past 600 million years; interpreting how ecosystems evolved; comparing ancient ecosystems with modern analogues. **Credit Hours:** 3. **General Education Requirements:** None. **Crosslisted Courses:** BIOL 361: Ecosystems Through Time.

ENVS 362
MINERALOGY AND PETROLOGY
Mineralogy is the study of mineral identification and classification using symmetry, physical and optical properties and the genesis of minerals, mining processes and mineral use in society. Petrology is the study of minerals and the petrogenesis of igneous, metamorphic and sedimentary rocks. **Credit Hours:** 4. **General Education Requirements:** None. **Requisites:** ENVS 131 as prerequisite.
ENVS 365
URBAN GEOGRAPHY

Using Global Cities and Atlanta as "laboratory" this course examines the urban environment and explores issues in urban planning and policy, sustainability, and environmental management while employing the use of geo-spatial computer applications. Credit Hours: 3. General Education Requirements: None.

ENVS 370A
COMMUNITY BLDG & SOC CHANGE I

Open only to undergraduate students by permission of the instructor. Additionally, this course is required for all students seeking to apply for the fellowship in Community Building and Social Change. Credit Hours: 3. General Education Requirements: HSC. Crosslisted Courses: POLS 370A: Community Bldg & Soc Change I, CBSC 370A: Community Bldg & Soc Change I, SOC 370A: Community Bldg & Soc Change I.

ENVS 370B
PLANNING COMMUNITY INITIATIVES

Open only to students admitted as fellows in the program in Community Building and Social Change. Credit Hours: 4. General Education Requirements: HSC. Crosslisted Courses: POLS 370B: Planning Community Initiatives, CBSC 370B: Planning Community Initiatives, SOC 370B: Planning Community Initiatives.

ENVS 370BW
PLANNING COMMUNITY INITIATIVES

Open only to students admitted as fellows in the program in Community Building and Social Change. Credit Hours: 5. General Education Requirements: HSCW. Crosslisted Courses: POLS 370BW: Planning Community Initiatives, CBSC 370BW: Planning Community Initiatives, SOC 370BW: Planning Community Initiatives.

ENVS 370L
PLANNING COMM. INITIATIVES-LAB

ENVS 371
ECOLOGY OF THE TROPICS

Explores the diverse biomes of the tropics. Focus will be on tropical forests and grasslands, with an emphasis on ecological processes, biodiversity, human impact in the tropics, indigenous peoples, and ethnobotany. Credit Hours: 2. General Education Requirements: None. Requisites: ENVS 131, BIOLOX111, BIOL 142. Crosslisted Courses: BIOL 371: Ecology of the Tropics.

ENVS 372
ECOLOGY OF THE TROPICS FIELD

Permission required. This is the field course to accompany the lecture course on tropical ecology. Field trip will take place during the spring recess. Credit Hours: 2. General Education Requirements: None. Requisites: ENVS 371, BIOL 371. Crosslisted Courses: BIOL 372: Ecology of the Tropics Field.

ENVS 373
MARINE ECOLOGY

Lectures and readings focus on the diversity, structure, and conservation of marine ecosystems, including experimental and analytic approaches to their study. Discussions of primary literature cover current topics such as biological invasions, disease, climate change, and marine protected areas. Credit Hours: 3. General Education Requirements: None. Requisites: ENVS 232 or 240 or 247 prereq. Crosslisted Courses: BIOL 373: Marine Ecology.

ENVS 375
TROPICAL MARINE ECOSYSTEMS

This course will explore coastal and near-shore tropical marine ecosystems including mangroves and coral reefs. Readings will review key concepts of marine ecology with a focus on local ecosystems. Field excursions to local sites will provide opportunities to learn from researchers and managers. Credit Hours: 4. General Education Requirements: None. Requisites: ENVS 131 or BIOL 141 or 142. Crosslisted Courses: BIOL 375: Tropical Marine Ecosystems.

ENVS 377
INT’L ENVIRONMENTAL POLICY

Seminar or lecture series on topics of interest in human health at an introductory level. May be repeated for credit when topic varies. Credit Hours: 1 - 4. General Education Requirements: None.

HLTH 190
FRESHMAN SEMINAR HUMAN HEALTH

Seminar on various human health topics. Credit Hours: 3. General Education Requirements: FSEM.

HLTH 200
PEER HEALTH TRAINING

A course training students to be peer health partners for the HLTH 100 course. Strong focus on health education and working as a peer partner. Credit Hours: 3. General Education Requirements: None.

HLTH 207
FUNDAMENTALS OF EPIDEMIOLOGY

Epidemiology is the study of disease patterns, and determinants, within a population and the application of this information to mitigate public health problems. Students will learn to apply basic principles of epidemiology and biostatistics to identification and analysis of public health problems. Credit Hours: 3. General Education Requirements: None.

HLTH 210
PREDICTIVE HEALTH AND SOCIETY

This course introduces the evidence base for the science of health and emphasizes STEM educational translations to the population, clinic and individual levels. Innovative efforts are needed to drive changes in health care from a reactive, disease-focused system to a proactive health-focused one. Credit Hours: 3. General Education Requirements: HSC. Crosslisted Courses: ANT 231: Predictive Health and Society.

HLTH 220
INTRO. TO NUTRITION SCIENCE

This class focuses on the science of nutrition, with emphases on functions and interactions of micronutrients and how they affect human physiology, how dietary requirements for individuals and specific populations are developed, issues of food safety and policy are considered. Credit Hours: 3. General Education Requirements: None. Requisites: BIOL 141 or CHEM 141 or CHEM 150.

HLTH 221
CONTEMPORARY NUTRITION

The science of nutrition will be explored as it relates to individual food choice and overall health. Application topics include digestion, obesity, metabolism, sports nutrition, nutritional genomics, and predictive health. Nutritional needs will be addressed using a functional approach. Credit Hours: 3. General Education Requirements: None.

HLTH 230
HEALTH AND HUMANITIES

Health is a fundamental human experience with multifaceted intersections in areas of humanistic inquiry. Credit Hours: 3. General Education Requirements: None.

HLTH 240
INTEGRATIVE HEALTH

Health is personal, encompassing a range of physical, emotional, mental, social, spiritual and environmental influences, influenced by culture. This seminar will consider the evidentiary base for alternative and complementary approaches to health and well-being. Credit Hours: 3. General Education Requirements: None.

HLTH 250
FOUNDATIONS OF GLOBAL HEALTH

An introduction to the overall field of global health, its history, methods, and key principles, with case studies illustrating the burden of disease in nations with strikingly different political-economic contexts. Credit Hours: 3. General Education Requirements: HSC. Crosslisted Courses: ANT 205: Foundations of Global Health.

HLTH 279
CRITIQUING HEALTH NEWS

We will examine how health research is covered in the news and learn to distinguish accurate reports from exaggerations. The course aims to encourage curiosity, to increase scientific perceptiveness, to raise communication awareness, and to build critical evaluation skills. Credit Hours: 2. General Education Requirements: None.
HLTH 285
TOPICS IN HUMAN HEALTH
Special Topics course. Credit Hours: 1 - 4. General Education Requirements: None.

HLTH 285W
TOPICS IN HUMAN HEALTH
Special Topics course. Credit Hours: 1 - 5. General Education Requirements: WRT.

HLTH 290
SPECIAL TOPICS TAKEN ABROAD
Variable topics course in the study abroad program. Credit Hours: 1 - 8. General Education Requirements: None.

HLTH 300R
PEER HEALTH PARTNERS
This course provides students the opportunity to become involved in a personalized approach to health and well-being by sharing with peers strategic approaches for the implementation of a healthy lifestyle. Offered Yearly. Repeatable for up to Twelve Semester Hours. Credit Hours: 1 - 4. General Education Requirements: None. Requisites: HLTH 200 as prerequisite.

HLTH 306
DESIGNING HEALTH RESEARCH
This course explores qualitative and quantitative methodologies used in health research, as well as principles for responsible conduct of research. Through hands-on development of a research proposal, students build skills for reviewing literature, evaluating evidence, and scientific communication. Credit Hours: 3. General Education Requirements: None. Requisites: HLTH 207 as prerequisite.

HLTH 307
EPIDEMIOLOGICAL METHODS
This course covers basic epidemiologic methods used in public health research. Topics to be covered include basic study design, measures of disease frequency, measures of effect, types of bias, and options for control of co-variates with an introduction to modeling. Credit Hours: 1. General Education Requirements: None.

HLTH 308
PRACTICING EPIDEMIOLOGY
This course covers basic epidemiologic methods used in public health research. Topics to be covered include basic study design, measures of disease frequency, measures of effect, types of bias, and options for control of covariates with an introduction to modeling. Credit Hours: 3. General Education Requirements: None.

HLTH 310
DEFINING HEALTH: BIOCULT.PERSP
Evolutionary perspectives provide a background for understanding the limitations imposed by biomedical frameworks in our understanding of human biological variability. Flexibility in gene expression and human phenotypes reflect the importance of biocultural influences on health. Credit Hours: 3. General Education Requirements: None. Crosslisted Courses: ANT 339: Defining Health: Biocult.Persp.

HLTH 312
DEVLP ORIGINS: HLTH+WELL-BEING
This is a research seminar exploring the intersection of genomics, the environment, and lifestyle/behavior as it pertains to human health from a developmental perspective with the aim of understanding human health over the lifespan. Credit Hours: 3. General Education Requirements: None. Crosslisted Courses: ANT 318: Devlp Origins: HLTH+Well-Being.

HLTH 314
THE SCIENCE OF SLEEP
Getting a good night’s sleep is critical in promoting health and well-being. To better understand this link, we will examine how inadequate sleep may contribute to a range of disorders and examine current research efforts to understand why we need sleep and how the body regulates sleep. Credit Hours: 3. General Education Requirements: None. Requisites: BIOL 141 and 142 as Pre-Req.

HLTH 317
MICROBIOME IN HEALTH & DISEASE
Trillions of symbiotic microbes composing the human microbiota are crucial for our health. We will examine the vital functions provided by the human microbiome, as well as its association with disease states, including obesity, insulin resistance, inflammatory bowel disease, asthma, and more. Credit Hours: 3. General Education Requirements: None. Requisites: BIOL 142 as prerequisite.

HLTH 320
NUTRITION AND CHRONIC DISEASE
Nutrition and Chronic Disease provides an overview of the role of nutrition in chronic disease prevention, development and treatment. Credit Hours: 3. General Education Requirements: None. Requisites: HLTH 220 as prerequisite.

HLTH 321
NUTRITION ACROSS LIFE CYCLE
This course examines the physiological basis for changing nutrient needs throughout the life cycle. Topics may include growth and development, nutrition assessment, age-specific dietary recommendations for optimal health and disease prevention, and sociocultural influences on
This course addresses how nutrition helps individuals meet exercise goals, promote health, and achieve optimal performance through examination of the physiological roles of nutrients and dietary components, basic principles of exercise science, and conventional and contemporary fueling strategies. **Credit Hours:** 3. **General Education Requirements:** None. **Requisites:** HLTH 220 or HLTH 221 as prereq.

**HLTH 324**
**NUTRITION AND PERFORMING ARTS**
Performing artists are subject to nutrition myths, making it difficult for them to manage the interaction between nutrient utilization and provision to assure a successful career. This course covers nutritional factors for helping performing artists achieve the desired performance outcomes. **Credit Hours:** 3. **General Education Requirements:** None. **Requisites:** HLTH 220 as prerequisite.

**HLTH 325**
**DOUBLE BURDEN OF MALNUTRITION**
We will cover the history, evolution, and prevalence of obesity and under-nutrition problems in high-, middle- and low-income countries. We will critique interventions designed to improve each type of malnutrition and will examine options for reducing both simultaneously. **Credit Hours:** 3. **General Education Requirements:** None.

**HLTH 326**
**NUTRITION ASSESSMENT**
We will explore the scientific basis and potential application for the five domains of nutrition assessment with particular focus on the anthropometric, biochemical, and dietary markers and methodologies used in the determination of nutrition status in individuals and populations. **Credit Hours:** 3. **General Education Requirements:** None. **Requisites:** HLTH 220 as prerequisite.

**HLTH 328**
**TEXTBOOK TO TABLE**
We will examine the evidence for potential benefits of a plant-based diet and apply the findings through hands-on cooking experiences, group projects and community engagement. We will consider the potential influence of science, culture, sociology, economics, and sustainability on dietary choices. **Credit Hours:** 3. **General Education Requirements:** None.

**HLTH 329**
**MOTOR PHYSIOLOGY**
We will explore the integrated functions of the neuromuscular, musculoskeletal, cardiorespiratory, and other body systems in regulating and supporting human movement. This includes how the body behaves at rest and in response to challenges, such as routine physical activity and disease. **Credit Hours:** 3. **General Education Requirements:** None.

**HLTH 330**
**HEALTH BEHIND LOCKED DOORS**
In this class, we will focus on health concerns associated with two types of institutions: disability related residential institutions and prisons and jails. We will look at health concerns that both lead to institutionalization/incarceration and those that emerge because of this experience. **Credit Hours:** 3. **General Education Requirements:** None.

**HLTH 331**
**DISABILITY & BIOETHICS**
This course explores bioethical issues related to disability. Focuses on foundational theories of bioethics, disability, and disability studies and apply these to contemporary concerns. Examines traditional biomedical and bioethical perspectives, as well as those from disability studies literature. **Credit Hours:** 3. **General Education Requirements:** None.

**HLTH 332**
**HEALTH & HUMAN RIGHTS**
This course will examine various human rights theories and apply them to issues related to population and individual health. The course will focus on human health as a human rights issue and relationships between health and other human rights issues, and environmental impacts on health/health care. **Credit Hours:** 3. **General Education Requirements:** None.

**HLTH 333**
**AMERICAN HEALTHCARE ETHICS**
The goal of this course is to better understand and articulate our ethical views on the American healthcare system. The class includes an overview of classic ethical theories and principles, but focuses on the application of these theories and principles to a variety of healthcare contexts. **Credit Hours:** 3. **General Education Requirements:** None.

**HLTH 334**
**WAR AND TRAUMA**
We will cover cultural and clinical ideas about war and trauma from WWI to the present, including health conditions caused by combat, sexual violence, and traumatic injury. Discussions will include the expanding sense of trauma today through popular notions of triggeredness and microaggressions. **Credit Hours:** 3. **General Education Requirements:** None.

**HLTH 340**
**FOOD, HEALTH, AND SOCIETY**
Human health is intrinsically linked to dietary practices. The pharmacological properties of foods will be examined and case studies of dietary complexes will be examined in order to better understand the food-medicine continuum as a determinant of health and well-being. **Credit Hours:** 3. **General Education Requirements:** None.
**HLTH 350R**  
CORE ISSUES IN GLOBAL HEALTH  

This course emphasizes core issues in global health, explores the identification of global health priorities, the nature of global health organizations and the challenges to finding and implementing solutions. The focus changes with the instructor. **Credit Hours:** 3. **General Education Requirements:** HSC. **Requisites:** ANT205/HLTH250 prerequisite.

**HLTH 350RW**  
CORE ISSUES IN GLOBAL HEALTH  

This course emphasizes core issues in global health, explores the identification of global health priorities, the nature of global health organizations and the challenges to finding and implementing solutions. The focus changes with the instructor. **Credit Hours:** 4. **General Education Requirements:** HSCW. **Requisites:** ANT205/HLTH250 prerequisite.

**HLTH 351**  
EXPORTING MENTAL HEALTH  

This course aims to explore the issues that arise when placing Western concepts of mental health and disorder in non-Western cultures, psychiatric diagnoses as they are represented in various cultural environments and how people experience and interact within various psychiatric healing systems. **Credit Hours:** 3. **General Education Requirements:** None.

**HLTH 360**  
SANT?? ET BIEN-??TRE  

Not only is France pivotal in the scientific history of public health and modern medicine, but concepts of health are embodied in French life styles that are only now seeking articulation in modern health discourse. The class explores these cultural influences on health and health policy. **Credit Hours:** 4. **General Education Requirements:** None.

**HLTH 363R**  
DIRECTED STUDY ABROAD  

France is the site of historically significant issues and discoveries in health. Students are offered the opportunity to focus on a topic of their choice to pursue under faculty guidance while taking benefit of the environment that Paris offers for hands-on experiences. **Credit Hours:** 2. **General Education Requirements:** None.

**HLTH 369**  
EXPERIENTIAL ANATOMY  

This course is designed for dancers, movers, and aspiring movement practitioners to develop a deeper anatomical understanding of the body and to explore anatomical relationships through movement, somatic practices, and neuromuscular exercises. **Credit Hours:** 3. **General Education Requirements:** HAP. **Crosslisted Courses:** DANC 336: Experiential Anatomy.

**HLTH 370**  
HEALTH POLICY  

The course covers the US health care system, including the factors responsible for increasing health care spending, the purpose of regulation in the individual insurance market, the role of Medicare and Medicaid, and pros and cons of horizontal and vertical integration among providers and hospitals. **Credit Hours:** 2. **General Education Requirements:** None.

**HLTH 373**  
DELIVERING HEALTH  

This course employs multiple perspectives, including organizational theory, business, and economics, to examine the structure, financing, and performance of the US health care system and its ability to deliver health. Mental health, long-term care, and public health sectors are explored in depth. **Credit Hours:** 2. **General Education Requirements:** None.

**HLTH 379**  
HEALTH COMMUNICATION  

We examine the language around health and health care as a type of intercultural discourse, including communication between doctors and patients, between health care providers, and discussions of health in the media. We also examine language as a diagnostic tool. **Credit Hours:** 3. **General Education Requirements:** HSC. **Crosslisted Courses:** LING 350: Health Communication.

**HLTH 385**  
SPECIAL TOPICS: HUMAN HEALTH  

Seminar of lecture series of topics in human health. May be repeated for credit when topic varies. Credit varies from one to four hours. **Credit Hours:** 1 - 4. **General Education Requirements:** None.

**HLTH 385W**  
SPECIAL TOPICS: HUMAN HEALTH  

Seminar of lecture series of topics in human health. May be repeated for credit when topic varies. Credit varies from one to five hours. **Credit Hours:** 1 - 5. **General Education Requirements:** WRT.

**HLTH 390**  
SPECIAL TOPICS TAKEN ABROAD  

Variable topics course in the study abroad program. **Credit Hours:** 1 - 8. **General Education Requirements:** None.
HLTH 397R
DIRECTED READING
Variable Credit. Registration by permission of faculty supervisor and health program educational director. Credit Hours: 1 - 12. General Education Requirements: None. Requisites: HLTH 210 as prerequisite.

HLTH 399R
DIRECTED RESEARCH
Variable Credit. Registration by permission of faculty supervisor and health program educational director. Credit Hours: 1 - 12. General Education Requirements: None. Requisites: HLTH 210 as prerequisite.

HLTH 405R
TRANS PROJECTS IN HUMAN HEALTH
Students who complete Health 300 initiate science-based health projects while further developing mentoring skills. Projects are selected by faculty from proposals submitted in prior semester. Project teams may include students who successfully complete Health 100 with faculty guidance. Credit Hours: 2 - 4. General Education Requirements: HAP. Requisites: HLTH 210 as prerequisite.

HLTH 406
PSYCHONEUROIMMUNOLOGY
Stress is an interface between health and disease/ Psychoneuroimmunology (PNI) is the study of the interface between the brain, behavior, and immunity. This course will provide an overview of current theories, empirical findings, and "hot topics" in the growing field of PNI Credit Hours: 2. General Education Requirements: None. Requisites: BIOL 141 and 142 as Pre-Req.

HLTH 407
THE SCIENCE OF STRESS
Acute stress can have protective properties while chronic stress can have detrimental effects on our health. This course will explore the physiological response to real and perceived stress to understand the mechanisms underlying these responses. Credit Hours: 3. General Education Requirements: None.

HLTH 408
EPIDEMIOLOGY IN ACTION
Health problems have many complex causes. After mapping the causes of a problem from a specific context (with research, theory & epidemiology), learners will create a proposal with real-world solutions. The proposal will be converted into a persuasive presentation to request funding for the work. Credit Hours: 3. General Education Requirements: None. Requisites: HLTH 207 & HLTH 306 prereq..

HLTH 409
CO-DESIGN FOR HEALTH TECH.
This interdisciplinary course provides an overview of the key issues involved in the introduction of low-cost, sustainable healthcare technology in resource-constrained settings. Working with partner organizations, student teams develop low-cost solutions to a real-world health problem. Credit Hours: 3. General Education Requirements: None.

HLTH 410
CONTEMPORARY HEALTH CHALLENGES
Predictive health is a paradigm change in the science of health. This class focuses on the challenges posed by this changing perspective, and involves critical analysis and consideration of solutions to present day health issues Credit Hours: 3. General Education Requirements: None. Requisites: ANT 231 or HLTH 210 as prereq.

HLTH 411
MANY DISEASES, FEW CAUSES
A new science of health is emerging. The evolutionary background for generic processes will be discussed and the challenges posed by modern lifestyles will be the focus of this class. Credit Hours: 3. General Education Requirements: None. Requisites: ANT 231/HLTH 210+BIOL 141/142. Crosslisted Courses: ANT 431: Many Diseases, Few Causes.

HLTH 412R
PREDICTIVE HEALTH INTERNSHIP

HLTH 414
ORIGINS OF HEALTH
This seminar presents data supporting developmental processes as an important basis for health and well being and addresses a way forward with which to confront the challenge of chronic diseases increasing globally. Credit Hours: 3. General Education Requirements: None. Requisites: Add HLTH 312 or HLTH 411 prer.

HLTH 415
FUTURE HEALTH
This is the required capstone course for the Human Health major, to be taken in the final year. Students will be expected to undertake a focused project that will demonstrate proficiency from problem solving approaches to multidisciplinary aspects of health. Credit Hours: 3. General Education Requirements: None. Requisites: HLTH 210 & HLTH 230 & HLTH 250.

HLTH 416
GENOME, EXPOSOME, & HEALTH
This course aims to introduce students to emerging concepts and approaches for understanding human health and disease in terms of interactions between the genome and the exposome.
Methodological aspects will be emphasized and a systems biology view will be presented. **Credit Hours:** 2. **General Education Requirements:** None.

**HLTH 417**  
**CONCEPTS OF RISK IN HEALTH**  
This course considers the meaning and nature of risk in health from the viewpoints of epidemiology, society, and culture, in historical perspective. Discussion will focus on the definitions of risk, disease, and health and how the categorization of a behavior as a risk factor is determined. **Credit Hours:** 3. **General Education Requirements:** None. **Requisites:** HLTH210/ANT231+HLTH230+QTM100.

Nutrition is at the center of a cultural dialogue about health. The line between scientific knowledge and cultural ideology is increasingly unclear. This course will systematically cover many misnomers, myths and fads in our society in contrast to the science of nutrition. **Credit Hours:** 3. **General Education Requirements:** None. **Requisites:** HLTH220 & BIOL141/CHEM141/150.

**HLTH 430**  
**THE NATURE OF EVIDENCE IN MH**  
The nature of evidence, cases studies for clinical trials, informs classification and determination of mental health and mental illness. Psychological, neurological, historical, and cultural perspectives are considered in the context of an increasing public health concern with mental health. **Credit Hours:** 3. **General Education Requirements:** None. **Requisites:** HLTH210/ANT231+HLTH230+HLTH310.

Mankind has long recognized that plants are extremely useful as source of medicine. Medical traditions based on botanical sources are found in all human cultures and date back to prehistory. In this course both ancient and modern day botanical traditions across many cultures will be examined. **Credit Hours:** 3. **General Education Requirements:** None. **Crosslisted Courses:** BIOL 442: Botanical Medicine & Health, ANT 440: Botanical Medicine & Health.

We examine issues affecting population health across time and place with tools from public and predictive health, and identify the influence of economics, politics, culture, and society on biomedical and epidemiological criteria of disease causality. **Credit Hours:** 3. **General Education Requirements:** None. **Requisites:** HLTH210/ANT231+HLTH230+HLTH310.

This course explores a range of topics and texts related to the theory, practice and experience of medical matters in the Hispanic world of colonial-imperial medicine. Topics may include epidemics; gender and medicine; indigenous medical knowledge; diet and food; and doctors and curander@s. **Credit Hours:** 3. **General Education Requirements:** None. **Crosslisted Courses:** SPAN 425: Colonial Medicine and Empire, LACS 425: Colonial Medicine and Empire.

This course explores a range of topics and texts related to the theory, practice and experience of medical matters in the Hispanic world of colonial-imperial medicine. Topics may include epidemics; gender and medicine; indigenous medical knowledge; diet and food; and doctors and curander@s. **Credit Hours:** 4. **General Education Requirements:** WRT. **Crosslisted Courses:** SPAN 425W: Colonial Medicine and Empire, LACS 425W: Colonial Medicine and Empire.

This course examines how narratives about the body, health, medicine, and well-being are constructed, naturalized, and circulated in Latin America. **Credit Hours:** 3. **General Education Requirements:** None. **Crosslisted Courses:** LACS 409: Medical Discourse in Latin Am., SPAN 409: Medical Discourse in Latin Am., LING 409: Medical Discourse in Latin Am..

This is a capstone course that combines health economics and human health content with data science. You will complete an empirical research project using raw data and employ econometric methods to analyze a research question relevant to contemporary health care issues and/or health. **Credit Hours:** 3. **General Education Requirements:** None. **Requisites:** ECON 320 & 371/372/HLth370. **Crosslisted Courses:** ECON 470: Research in Health Economics.

Seminar or lecture in various topics on human health. May be repeated for credit (up to 9 hours) when topic varies. **Credit Hours:** 1 - 4. **General Education Requirements:** None.
### HLTH 485W
**VARIABLE TOPICS HUMAN HEALTH**
An advanced seminar or lecture course on selected topics in health. May be repeated for credit when topic varies. **Credit Hours:** 1 - 5. **General Education Requirements:** WRT.

### HLTH 495A
**HONORS RESEARCH**
This class is a requirement for students invited into the honors program during which they focus on their independent honors' research under the guidance of faculty. **Credit Hours:** 3 - 4. **General Education Requirements:** None. **Requisites:** HLTH 210 & HLTH 230 & HLTH 250.

### HLTH 495BW
**HONORS RESEARCH**
This class is a requirement for students invited into the honors program during which they focus on their independent honors' research under the guidance of faculty. **Credit Hours:** 3 - 6. **General Education Requirements:** WRT. **Requisites:** HLTH 210 & HLTH 230 & HLTH 250.

### HLTH 497R
**INDEPENDENT READING**
Under faculty mentorship, students propose a focused research question and design a reading plan to explore the available evidence in depth through independent study. Students will write a semester paper which describes our current understanding of the topic and critiques the available evidence. **Credit Hours:** 1 - 12. **General Education Requirements:** None. **Requisites:** HLTH 210 as prerequisite.

### HLTH 499R
**INDEPENDENT RESEARCH**
Variable Credit. Registration by permission of faculty supervisor and health program educational director **Credit Hours:** 1 - 12. **General Education Requirements:** None. **Requisites:** HLTH 210 as prerequisite.

### HLTH 999XFR
**NON-EQUIVALENT TRANSFER COURSE**
Non-Equivalent Transfer Course in Human Health **Credit Hours:** 1 - 99. **General Education Requirements:** None.

### HINDI

#### HNDI 101
**ELEMENTARY HINDI I**
First in a series of courses that seek to develop listening, reading, speaking, writing, and cultural skills in Hindi. Primarily for students with no previous knowledge of Hindi. **Credit Hours:** 5. **General Education Requirements:** HAL.

#### HNDI 102
**ELEMENTARY HINDI II**
Prerequisites: Hindi 101 or permission of instructor. Second in a series of courses that seek to develop listening, reading, speaking, writing, and cultural skills in Hindi. **Credit Hours:** 5. **General Education Requirements:** HAL.

#### HNDI 201
**INTERMEDIATE HINDI I**
Prerequisites: Hindi 102 or permission of instructor. Third in a series of courses that seek to develop listening, reading, speaking, writing, and cultural skills in Hindi. **Credit Hours:** 4. **General Education Requirements:** HAL.

#### HNDI 202
**INTERMEDIATE HINDI II**
Prerequisites: Hindi 201 or permission of instructor. Fourth in a series of courses that seek to develop listening, reading, speaking, and writing skills in Hindi. **Credit Hours:** 4. **General Education Requirements:** HAL.

#### HNDI 301
**ADVANCED HINDI**
Prerequisites: Hindi 202 or permission of instructor. Fifth in a series of courses that seek to develop listening, reading, speaking, and writing skills in Hindi. **Credit Hours:** 3. **General Education Requirements:** HAL.

#### HNDI 302
**ADVANCED HINDI II**
Prerequisites: Hindi 301 or permission of instructor. Sixth in a series of courses that seek to develop listening, reading, speaking, and writing skills in Hindi. **Credit Hours:** 3. **General Education Requirements:** HAL.

#### HNDI 410R
**ADVANCED LANGUAGE AND CULTURE**
Study and discussion of written and audio-visual texts dealing with Hindi literature and literary traditions, as well as various aspects of Indian culture and society. **Credit Hours:** 3. **General Education Requirements:** HAL.

#### HNDI 497R
**DIRECTED STUDY**
Prerequisites: Hindi 302 or equivalent and approval of MESAS curriculum committee. Can be used for directed study of Hindi literature in the original or for other interdisciplinary research in Hindi. **Credit Hours:** 1 - 12. **General Education Requirements:** None.
Non-Equivalent Transfer Course in History Credit Hours: 1 - 99. General Education Requirements: None.

INTERDISCIPLINARY STUDIES

IDS 190
FRESH SEM: IDS

Variable topics using interdisciplinary approaches from the humanities and social sciences. Topics represent current interests of the instructor. Credit Hours: 3. General Education Requirements: FSEM.

IDS 200
INTERDISCIPLINARY FOUNDATIONS

IDS 200 examines the origins and development of distinct disciplines in contemporary universities through the lens of what counts as evidence in different fields of human knowledge. Credit Hours: 3. General Education Requirements: HAP.

IDS 206
FOUNDATIONS OF SUSTAINABILITY

Through readings, and discussions led by faculty from the social sciences, natural sciences, and humanities, this course provides a panoramic survey of sustainability; critical integration of these interdisciplinary approaches yields a strong foundational understanding of sustainability. Credit Hours: 3. General Education Requirements: None.

IDS 207
FOUNDATION DEVELOPMENT STUDIES

Introduces students to the growing field of development studies and provides a solid foundation for subsequent course work in the Minor. Key topics include human rights, gender, environment, poverty and inequality, democratic reforms and governance, market reforms, rural development, and conflict. Credit Hours: 3. General Education Requirements: None. Crosslisted Courses: ANT 207: Foundation Development Studies.

IDS 210
THE CULTURE OF THE UNIVERSITY

Introduces a wide range of approaches to cultural inquiry and an array of research techniques through the close examination of the university as an intellectual, political, historical, economic, educational, and social institution. Credit Hours: 3. General Education Requirements: HAP.

IDS 216
VISUAL CULTURE

History of the use of visual images in Western culture. Study of tools necessary to read images, including still and moving images, performance, and display. Credit Hours: 3. General Education Requirements: HAP.

ORDER SEMINAR

On Recent Discoveries by Emory Researchers (ORDER) engages graduate and postdoctoral students to teach their research to undergraduates. Recommended for sophomores; open to others. Refer to Course Atlas for specific topics of a given semester, articulated by the teacher-scholar team. Credit Hours: 4. General Education Requirements: WRT.

IDS 250
ETHICS OF LEADERSHIP

Introduction to the African humanities and social sciences through in-depth study of three African regions. Explores major historical trends and their impact on culture, including the slave trade, colonialism, and postcolonial international contacts. Content is drawn from literature (both written literature and oral traditions), film, history, religion, anthropology, sociology, and art. Credit Hours: 3. General Education Requirements: HAP. Crosslisted Courses: AFS 263: Intro to African Studies.

IDS 263
INTRO TO AFRICAN STUDIES

An introduction to interdisciplinary analysis through topics that are best understood through multiple methodologies and forms of evidence. The ILA and IDS program support interdisciplinary inquiry across Emory College; this course will frequently be cross-listed with other departments. Credit Hours: 1 - 4. General Education Requirements: None.

IDS 285
INTRO.INTERDISCIPLINARY TOPICS

A side-car course brings together a subset of students from two courses that overlap in methodologies, topics, etc., to create a short interdisciplinary course that runs simultaneously with its two sponsoring courses. We examine the language around health and health care as a type of intercultural discourse, including communication between doctors and patients, between health care providers, and discussions of health in the media. We also examine language as a diagnostic tool. **Credit Hours:** 3. **General Education Requirements:** HSC. **Crosslisted Courses:** HLTH 379: Health Communication.

LING 360
THE ENGLISH LANGUAGE
Structure and history of the English language. **Credit Hours:** 3. **General Education Requirements:** HSC. **Crosslisted Courses:** ENG 360: The English Language.

LING 360W
THE ENGLISH LANGUAGE

LING 361
AMERICAN ENGLISH
American English from the colonial period to the present; the sources of its vocabulary, the characteristics of its dialects, and the linguistic distinctiveness of its literature. **Credit Hours:** 3. **General Education Requirements:** HSC.

LING 363
OLD ENG LANGUAGE & LITERATURE
Introduction to the Old English language and readings of representative prose and poetry. **Credit Hours:** 3. **General Education Requirements:** HAP. **Crosslisted Courses:** ENG 300: Old Eng Language & Literature.

LING 363W
OLD ENG LANGUAGE & LITERATURE
Introduction to the Old English language and readings of representative prose and poetry. **Credit Hours:** 4. **General Education Requirements:** HAPW. **Crosslisted Courses:** ENG 300W: Old Eng Language & Literature.

LING 383
ADVERTISING: WORDS AND IMAGES
An exploration of advertising, including its historical development, its role in consumer society, and its rhetorical and linguistic aspects. **Credit Hours:** 3. **General Education Requirements:** HSC. **Crosslisted Courses:** SOC 383: Advertising: Words and Images.

LING 385
SPECIAL TOPICS IN LINGUISTICS

LING 385W
SPECIAL TOPICS IN LINGUISTICS

Investigation of a particular issue or topic in the study of language, linguistics, and communication. May be repeated when topic varies. Topics may include: the Romance languages; intercultural communication; words and the world; language and human nature. Credit Hours: 1 - 4. General Education Requirements: HSC.

LING 401
LANGUAGE, MIND & SOCIETY

In this course, students think critically about fundamental questions in linguistics, including: Is language a product of how the mind works or a product of social interaction? What are the sources of linguistic structure? Is language innate in humans? Various perspectives are compared & contrasted. Credit Hours: 3. General Education Requirements: HAP.

LANGUAGE, MIND & SOCIETY

In this course, students think critically about fundamental questions in linguistics, including: Is language a product of how the mind works or a product of social interaction? What are the sources of linguistic structure? Is language innate in humans? Various perspectives are compared & contrasted. Credit Hours: 4. General Education Requirements: HAPW.

LING 405
LANGUAGE & DISCOURSE ON THE WEB

This course incorporates a general theoretical frame in linguistics, with a specific focus in discourse analysis and pragmatics, and applies it to electronic communications. Students will develop an intercultural research project by analyzing digital texts in a systematic way. Credit Hours: 3. General Education Requirements: None. Crosslisted Courses: SPAN 405: Language & Discourse on the Web.

LING 405W
LANGUAGE & DISCOURSE ON THE WEB

This course incorporates a general theoretical frame in linguistics, with a specific focus in discourse analysis and pragmatics, and applies it to electronic communications. Students will develop an intercultural research project by analyzing digital texts in a systematic way. Credit Hours: 4. General Education Requirements: WRT. Crosslisted Courses: SPAN 405W: Language & Discourse on the Web.

LING 406
HISTORY OF SPANISH

This course examines the history of the Spanish language in terms of both its structural and sociocultural/political development. Students develop research projects based on questions arising in the course. Credit Hours: 3. General Education Requirements: None. Crosslisted Courses: SPAN 406: History of Spanish.

LING 407
HISPANIC SOCIOLINGUISTICS

This course focuses on the dynamic interaction between language, society, and identity in the contemporary Spanish-speaking word. Students develop research projects based on questions arising in the course. Credit Hours: 3. General Education Requirements: None. Crosslisted Courses: SPAN 407: Hispanic Sociolinguistics.

LING 408
LANGUAGE AND IDENTITY IN SPAN

Part of the Iberian Studies Summer Program, this course explores how and why language varies in Spain and how variation and multilingualism relate to competing identities and ideologies. Students conduct surveys, interviews, conversation analyses, and work collaboratively on research projects. Credit Hours: 3. General Education Requirements: None. Crosslisted Courses: SPAN 408: Language and Identity in Span.

LING 409
MEDICAL DISCOURSE IN LATIN AM.

This course examines how narratives about the body, health, medicine, and well-being are constructed, naturalized, and circulated in Latin America. Credit Hours: 3. General Education Requirements: None. Crosslisted Courses: HLTH 469: Medical Discourse in Latin Am., SPAN 409: Medical Discourse in Latin Am., LACS 409: Medical Discourse in Latin Am.

LING 410
TOPICS IN SPANISH LINGUISTICS

Upper-level research seminar on topics of Hispanic linguistics and communication, such as history of the language, bilingualism, or translation. Students may take multiple SPAN 410 courses provided that they focus on different topics. Credit Hours: 1 - 4. General Education Requirements: None. Crosslisted Courses: SPAN 410: Topics in Spanish Linguistics.

LING 410W
TOPICS IN SPANISH LINGUISTICS

Upper-level research seminar with a strong writing component on topics of Hispanic linguistics and communication, such as history of the language, bilingualism, or translation. Students may take multiple SPAN 410W courses provided that they focus on different topics. Credit Hours: 1 - 5. General Education Requirements: WRT. Crosslisted Courses: SPAN 410W: Topics in Spanish Linguistics.
LING 411
TRANSLATION THEORY & PRACTICE
This course presents the history and multiple theories of translation, as well as basic methods/techniques and problems of translating between English and Spanish. A portion of class time will be devoted to translation practice and the comparison of multiple translations of a single text. Credit Hours: 3. General Education Requirements: None. Crosslisted Courses: SPAN 411: Translation Theory & Practice.

LING 411W
TRANSLATION THEORY & PRACTICE
This course presents the history and multiple theories of translation, as well as basic methods/techniques and problems of translating between English and Spanish. A portion of class time will be devoted to translation practice and the comparison of multiple translations of a single text. Credit Hours: 4. General Education Requirements: WRT. Crosslisted Courses: SPAN 411W: Translation Theory & Practice.

LING 413
SPANISH IN THE US
This course provides a descriptive and critical overview of the linguistic practices of different Spanish-speaking communities in the United States, as well as a methodology for the study of these practices. Special attention is given to the relationship between language and society. Credit Hours: 3. General Education Requirements: None. Crosslisted Courses: SPAN 413: Spanish in the US.

LING 425R
ARABIC DIALECTOLOGY
Arabic dialects have been spoken continuously from Mauritania in the west to Iraq in the east. This course combines a broad introduction to the field with concrete experience working with Arabic dialects, exploring the historical development of the dialects and their relationship to Literary Arabic. Credit Hours: 3. General Education Requirements: HSC. Crosslisted Courses: ARAB 425R: Arabic Dialectology.

LING 446
BIG/SMALL DATA & VISUALIZATION
An interdisciplinary exploration of digital tools for analyzing and visualizing data in the humanities and social sciences. Credit Hours: 3. General Education Requirements: HSC. Crosslisted Courses: SOC 446: Big/Small Data & Visualization, QTM 446: Big/Small Data & Visualization.

LING 446W
BIG/SMALL DATA & VISUALIZATION
An interdisciplinary exploration of digital tools for analyzing and visualizing data in the humanities and social sciences. Credit Hours: 4. General Education Requirements: HSCW. Crosslisted Courses: SOC 446W: Big/Small Data & Visualization, QTM 446W: Big/Small Data & Visualization.

LING 485
ADVANCED TOPICS IN LINGUISTICS
Investigation of a particular issue or topic in the study of language, linguistics, and communication on an advanced level. May be repeated when topic varies. Credit Hours: 1 - 4. General Education Requirements: None.

LING 485W
ADVANCED TOPICS IN LINGUISTICS
Investigation of a particular issue or topic in the study of language, linguistics, and communication on an advanced level. May be repeated when topic varies. Credit Hours: 1 - 5. General Education Requirements: WRT.

LING 495A
HONORS DIRECTED RESEARCH
Enrollment limited to linguistics majors invited to participate in the Linguistics Honors Program. Credit Hours: 4. General Education Requirements: None.

LING 495BW
HONORS DIRECTED RESEARCH
Enrollment limited to linguistics majors invited to participate in the Linguistics Honors Program. Credit Hours: 1 - 8. General Education Requirements: WRT.

LING 497R
DIRECTED RESEARCH
Students conduct directed or supervised research in support of a faculty member’s research project or agenda. Permission of the department and a supervising faculty member is required. Credit Hours: 1 - 4. General Education Requirements: None.

LING 498R
DIRECTED READING
Students study, read, and write on a topic under the direction or supervision of a faculty member. Permission of the department and a supervising faculty member is required. Credit Hours: 1 - 4. General Education Requirements: None.

LING 499R
INDEPENDENT RESEARCH
Students conduct independent research in support of their own research agenda or question with guidance from a faculty member. Permission of the department and a supervising faculty member is required. Credit Hours: 1 - 4. General Education Requirements: None.

LING 999XFR

MATHEMATICS

MATH 109
GAME THEORY, GRAPHS & MATH MODELS
Convex sets, linear inequalities, linear programming, two-person games, finite graphs. Applications in management, economics, and behavioral sciences.
Credit Hours: 3.
General Education Requirements: MQR.

MATH 110
TRANSITION TO CALCULUS
Pre-calculus topics practiced in the context of elementary calculus concepts (limits, derivatives, and antiderivatives). For students who need a review of transcendental functions while learning calculus.
Provides a solid foundation for subsequent calculus courses.
Credit Hours: 3.
General Education Requirements: MQR.

MATH 111
CALCULUS I
Limits, continuity, derivatives, antiderivatives, the definite integral.
Credit Hours: 3.
General Education Requirements: MQR.
Prerequisites: PROHIBITS: MATH 111.

MATH 112
CALCULUS II
Techniques of integration, exponential and logarithm functions, sequences and series, polar coordinates.
Credit Hours: 3.
General Education Requirements: MQR.
Prerequisites: MATH 111/119 as a Prerequisite.

MATH 112Z
CALCULUS II
This class is for freshmen who have earned a 4 or 5 on the AP AB exam, or a 5 on the IB HL exam.
Topics include: techniques of integration, exponential and logarithm functions, sequences and series, and polar coordinates.
Credit Hours: 3.
General Education Requirements: MQR.
Prerequisites: MATH AP/AB or IB as prereq..

MATH 116
LIFE SCIENCES CALCULUS II
Integration, differential equations, multivariable calculus, and discrete probability and statistics, with an emphasis on applications to biology.
Credit Hours: 4.
General Education Requirements: MQR.
Prerequisites: MATH 111 or 111L as prereq.

MATH 185
TOPICS IN MATHEMATICS
Rotating topics in math. May be repeated for credit when the topic varies.
Prerequisites and co-requisites depend on the topic offered.
Credit Hours: 1 - 4.
General Education Requirements: None.

MATH 190
FRESH SEM: MATH
Topics will be announced each semester when class is scheduled.
Credit Hours: 3.
General Education Requirements: FSEM.

MATH 207
PROBABILITY & STATS W/APPLICTN
Development and use of mathematical models from probability and statistics with applications.
Credit Hours: 3.
General Education Requirements: MQR.
Prerequisites: MATH 112/112Z/119 as a Prerequisite.

MATH 210
ADV.CALCULUS FOR DATA SCIENCES
This course is a short treatment of MATH 112 and 211 with a lab component. It is not appropriate for students who have taken MATH 211. Topics include: advanced integration, Taylor series; and multivariable differentiation, optimization and integration; and applications to statistics and science.
Credit Hours: 4.
General Education Requirements: MQR.
Prerequisites: MATH 111 as prerequisite.

MATH 211
ADV CALCULUS (MULTIVARIABLE)
Vectors; multivariable functions; partial derivatives; multiple integrals; vector and scalar fields; Green’s and Stokes’ theorems; divergence theorem.
Credit Hours: 3.
General Education Requirements: MQR.
Prerequisites: MATH 112/112-MATH_OX 112/112Z.

MATH 211
DIFFERENTIAL EQUATIONS
This is a standard first semester Differential Equations course which covers first and second-order differential equations and systems of differential equations, with an emphasis placed on developing techniques for solving differential equations.
Credit Hours: 3.
General Education Requirements: MQR.
Prerequisites: MATH 112 or MATH 112Z as prerequisite.

MATH 221
LINEAR ALGEBRA
Systems of linear equations, matrices, determinants, linear transformations, eigenvalues and eigenvectors, least-squares.
Credit Hours: 4.
General Education Requirements: MQR.
Prerequisites: MATH 111 or 112 or 112Z prereq.

### MIDDLE EASTERN AND SOUTH ASIAN

#### MESAS 100
**INTRO TO MIDDLE EASTERN CIVS.**
Introduction to the history, geography, and religions of the Middle East from ancient to modern times, focusing on how this history helped shape the Middle East of today. Required of all Middle East studies majors. **Credit Hours:** 3. **General Education Requirements:** HSC.

#### MESAS 102
**INTRO TO S. ASIAN CIVILIZATNS**
This course is a multidisciplinary introduction to the civilizations of South Asia, including an overview of the history and historiography of the region from its prehistory to the present. **Credit Hours:** 3. **General Education Requirements:** HSC.

#### MESAS 120
**ISRAEL: CULTURAL AND SOCIETY**
This course is an introduction to the institutions and folklore of the ethnic communities in modern Israeli society and culture. In English; no knowledge of Hebrew required. **Credit Hours:** 3. **General Education Requirements:** HSC. **Crosslisted Courses:** JS 120: Israel: Cultural And Society.

#### MESAS 125
**INTRO TO JEWISH LITERATURE**
Readings (in English) of major works from Biblical narrative to modern Hebrew, Yiddish, and Jewish fiction. Class discussions deal with topics such as Jewish identity, exile, humor, and satire. Satisfies GER IV.A. **Credit Hours:** 3. **General Education Requirements:** HAP. **Crosslisted Courses:** JS 125: Intro To Jewish Literature.
MESAS 130
HAREM TALES
This course traces the place of women, men, and children in Islamic societies and examines gender perspectives in the writing of Islamic history via the site of the harem. **Credit Hours:** 3. **General Education Requirements:** HSC.

MESAS 150
DISCOVERING ANCIENT EGYPT
This course examines the culture of Ancient Egypt and the process by which European societies developed. **Credit Hours:** 3. **General Education Requirements:** HSC.

MESAS 152

Explores skills to effectively and successfully combine singing, facial expression, gestures, interpretation, movement, and interaction with other performers without tension and self-judgment. Repeatable without music major credit. Instructor approval required. Credit Hours: 2. General Education Requirements: None. Crosslisted Courses: THEA 443R: Performance Techniques.

MUS 444
COUNTERPOINT
Analysis and writing in both the Renaissance-modal and eighteenth-century tonal styles. A composition project demonstrating contrapuntal skills will be required for each of the two style periods. Credit Hours: 3. General Education Requirements: None.

MUS 445
ARRANGING & ORCHESTRATION
Prerequisite: Music 122 or permission of instructor. Addresses the styles of orchestration in the Baroque, Classic, Romantic, and modern eras. In addition to readings and brief written assignments, an orchestral reduction project and a piano orchestration project will be required in the style of each era. Other media, such as vocal or wind ensembles and jazz bands, will be discussed. Credit Hours: 3. General Education Requirements: None.

**NEUROSCIENCE AND BEHAVIORAL SCIENCE**

*Emory College 2021 – 2022 Catalog*
Using active-learning methods and real-world examples, this course is designed to provide a fuller understanding of how the brain works and how neuronal activity underlies complex human behaviors. We will explore topics like: drug overdoses, Botox injections, sensory systems, emotions and memories. **Credit Hours:** 4. **General Education Requirements:** SNTL.

Variable topics of special interest in the field of Neuroscience and Behavioral Biology. Any of these NBB 190 courses will satisfy the new General Education freshman seminar requirement but will not count as an NBB elective. **Credit Hours:** 3. **General Education Requirements:** FSEM.

This course presents an introduction to evolutionary processes and biological bases of behavior. Lectures and readings will be organized around a developmental and life history perspective and will emphasize the importance of context in biological mechanisms and the interaction of social life, behavior, and cognition. Examples drawn especially from humans and nonhuman primates will be used to place human behavior in the Context of other species and to illustrate the dual inheritance of biology and culture in our species. Topics covered will include evolutionary mechanisms, adaptation, phylogenetic constraints, neural and neuroendocrine mechanisms of behavior, life history theory, developmental programs, principles of allometry, sexual selection and alternative reproductive strategies, social bonds and socialization, and the cognitive bases of social interaction in humans and nonhumans. **Credit Hours:** 3. **General Education Requirements:** SNT. Crosslisted Courses: ANT 200: Foundations of Behavior.

The focus will be to educate students in the scientific method: generating testable hypotheses, sampling randomization and control techniques. Students will learn the basic statistical vocabulary and tests necessary to read and interpret scientific articles in the field. **Credit Hours:** 3. **General Education Requirements:** SNT.

The focus will be to extend basic understandings of the scientific method as a process that actually produces a product. The elements of scientific writing, publication, and presentation are introduced in the classroom. **Credit Hours:** 3. **General Education Requirements:** None.

The focus will be to extend basic understandings of the scientific method as a process that actually produces a product. The elements of scientific writing, publication, and presentation are introduced in the classroom. **Credit Hours:** 4. **General Education Requirements:** WRT.

Study of variable topics of special interest in neuroscience and behavioral biology. May be repeated for credit when topics vary. **Credit Hours:** 3. **General Education Requirements:** SNT.

This course provides historical context and examines the competing identities of neuroethics; the ethics of neuroscience and the neuroscience of ethics. Students will explore ethical, legal & social implications and identify promise or limitations of neuroscientific advancements. **Credit Hours:** 3. **General Education Requirements:** None.

NBB encompass a large and diverse range of research questions, approaches and methods, and so we will explore cutting-edge research at Emory ranging from intracellular molecular studies, to animal behavior manipulations, to clinical studies, to medical humanities and neuroethics. **Credit Hours:** 3. **General Education Requirements:** None.

Includes electrochemical and biophysical mechanisms for neuronal signaling, synaptic transmission, and neural bases of behavior and perception. GER Note: This course and BIOL360L satisfies half of SNTL requirement. This course w/o BIOL360L will award half of SNT only. **Credit Hours:** 3. **General Education Requirements:** SNT. **Requisites:** BIOL 142/CHEM 142 as prereq.. **Crosslisted Courses:** BIOL 360: Introduction To Neurobiology.

This course will explore topics in cellular and small network neuroscience by performing virtual electrophysiology experiments on the computer. The content matches the material covered in Biology 360/NBB 301 and will help students understand neurons and neuronal networks in greater depth. **Credit Hours:** 2. **General Education Requirements:** SNTL. **Requisites:** BIOL 142/360 as Prerequisite. **Crosslisted Courses:** BIOL 360L: Neurobiology Simulation Lab.
NBB 302
BEHAVIORAL NEUROSCIENCE
This course presents an integrated coverage of work at the intersection of animal behavior, evolution, and cellular/systems neuroscience. The course surveys the major areas of behavioral neuroscience. 
**Credit Hours:** 3. 
**General Education Requirements:** SNT. 
**Crosslisted Courses:** PSYC 353: Behavioral Neuroscience.

NBB 317
HUMAN SOCIAL NEUROSCIENCE
Neurobiological substrates supporting human social cognition and behavior. Review and synthesis of relevant research in neuropsychology, psychiatry, neuroimaging, and experimental animal research. 
**Credit Hours:** 3. 
**General Education Requirements:** SNT. 
**Crosslisted Courses:** ANT 317: Human Social Neuroscience.

NBB 319
ANTHROPOLOGY OF FATHERHOOD
This course will describe and explain variation in male parental care across species, across cultures and across individuals within a culture. Emphasis will be placed on hormonal and neurobiological foundations of paternal care, evolutionary theory, ethnography and developmental psychology. 
**Credit Hours:** 3. 
**General Education Requirements:** None. 
**Crosslisted Courses:** ANT 319: Anthropology of Fatherhood.

NBB 321
BEHAVIORAL NEUROENDOCRINOLOGY:SEX
Explores hormonal contributions to the development and expression of gender and sexual behavior in animals and humans. 
**Credit Hours:** 3. 
**General Education Requirements:** None. 
**Crosslisted Courses:** PSYC 321: Behavioral Neuroendocrinology: Sex.

NBB 361
NEUROPHYSIOLOGY LABORATORY
Record intracellularly and extracellularly from invertebrates to examine sensory and motor circuits, synaptic plasticity, and ionic bases of potentials. Part of the semester is devoted to student-designed projects. Special attention is given to scientific writing and presentation of data. 
**Credit Hours:** 3. 
**General Education Requirements:** SNL. 
**Requisites:** BIOL 360/NBB301 prerequisite.

NBB 361W

NBB 380
ADVANCED NEUROETHICS
Advanced Neuroethics explores 2 special themes in Neuroethics. One from Ethics of Neuroscience and Neuroscience of Ethics. Approaching from different disciplinary perspectives, students in this discussion seminar read primary literature & popular media to produce short analysis and position papers. 
**Credit Hours:** 3. 
**General Education Requirements:** None. 
**Requisites:** NBB 280 as prerequisite.

NBB 399R
INTRO. TO MENTORED RESEARCH
This introduction to mentored undergraduate research is designed for students just beginning their work with a faculty member. 
**Credit Hours:** 1 - 4. 
**General Education Requirements:** None.

NBB 401
PERSPECT. IN NEURO. & BEHAVIOR
Prerequisites: NBB 201, 301, and 302; or permission of instructor. A senior seminar utilizing the primary literature to examine current issues, trends, and controversies in the field of neuroscience and behavioral biology. 
**Credit Hours:** 3. 
**General Education Requirements:** SNT.

NBB 401W
PERSPECT. IN NEURO. & BEHAVIOR
Fall. Prerequisites: NBB 201, 301, and 302; or permission of instructor. A writing intensive senior seminar utilizing the primary literature to examine current issues, trends, and controversies in the field of neuroscience and behavioral biology. 
**Credit Hours:** 4. 
**General Education Requirements:** SNTW.

NBB 402
GLOBAL NEURO & BEHAVIOR
A senior seminar utilizing the primary literature to examine current issues, trends, and controversies in the field of neuroscience and behavioral biology, with a special focus on contemporary European work. This course is limited to those enrolled in Emory study abroad. 
**Credit Hours:** 4. 
**General Education Requirements:** SNT.
NBB 402W
GLOBAL NEURO & BEHAVIOR

A writing intensive senior seminar utilizing the primary literature to examine current issues, trends, and controversies in the field of neuroscience and behavioral biology, with a special focus on contemporary European work. This course is limited to those enrolled in Emory study abroad. 

Credit Hours: 5. General Education Requirements: SNTW.

NBB 404
ROOTS OF MODERN NEUROSCIENCE

This course will trace contemporary issues in neuroscience from their origins in classical times through the 19th century and on to new frontiers with emphasis on primary works by the creators of neuroanatomy and neurophysiology. 

Credit Hours: 3. General Education Requirements: SNT.

NBB 404W
ROOTS OF MODERN NEUROSCIENCE

This course will trace contemporary issues in neuroscience from their origins in classical times through the 19th century and on to new frontiers with emphasis on primary works by the creators of neuroanatomy and neurophysiology. 

Credit Hours: 4. General Education Requirements: SNTW.

NBB 410
PERCEPTION AND CONSCIOUSNESS

This course will focus on the neurobiology supporting subjective experience, but also consider concepts from cognitive science and philosophy of mind. Students will study high-density scans of the human brain to analyze the neural architecture believed to yield visual experiences. 

NBB 414
BRAIN & COGNITIVE DEVELOPMENT

The course examines developmental changes in brain function and organization linked to different aspects of sensory, language, and non-language cognitive processes during the first three years of life. 

Credit Hours: 3. General Education Requirements: None. Crosslisted Courses: PSYC 414: Brain & Cognitive Development.

NBB 424
MEDICAL NEUROPATHOLOGY

The primary focus of this course will be to provide an overview of the neuroanatomical foundations of selected neurological disorders. The first part of the course will be an introduction to the functional neuroanatomy of the brain, followed by clinical topics. 

Credit Hours: 3. General Education Requirements: SNT.

NBB 425
BRAIN IMAGING

Application of imaging technology to the study of brain function and anatomy. 

Credit Hours: 3. General Education Requirements: None. Crosslisted Courses: PSYC 425: Brain Imaging.

NBB 426
NEUROPHARMACOLOGY & PLACEBO

Students will learn about pharmacology and the randomized clinical trials process for psychoactive drugs. The neuroscience of and impact of placebo effects on new psychotherapeutic drug approvals will be studied by reading and writing about the relevant primary literature. 

NBB 460
BUILDING BRAINS

Explores our current understanding of the mechanisms that regulate development of the nervous system. Topics covered include neurogenesis, axon guidance, programmed cell death, and synapse formation. 

Credit Hours: 3. General Education Requirements: None. Requisites: BIOL 142/142L or 152 prereq.. Crosslisted Courses: BIOL 460: Building Brains.

NBB 470

Study of variable topics in neuroscience and behavioral biology in a context outside the US. May be repeated when topics vary. 

Credit Hours: 1 - 4. General Education Requirements: SNT.

NBB 471W
GLOBAL TOPICS IN NBB

Study of variable topics in neuroscience and behavioral biology in a context outside the US. May be repeated when topics vary. 

Credit Hours: 1 - 5. General Education Requirements: SNTW.

NBB 480
APPLIED NEUROETHICS

Students will gain currency and relevance in the field of applied neuroethics. Class discussions will supplement assignments which will include a peer commentary of a target article in AJOB Neuroscience and a statement paper that addresses content from an upper level neuroethics elective. 

Credit Hours: 3. General Education Requirements: None. Requisites: NBB 380 as co-requisite.
NBB 481
NEUROECONOMICS
This course is designed to provide students with an introduction to the field of neuroeconomics. Upon completion of the course, students will have a basic understanding of the tools used to study the neurobiology of decision making. **Credit Hours:** 3. **General Education Requirements:** SNT. **Crosslisted Courses:** ECON 481: Neuroeconomics.

NBB 482R
FRONTIERS IN NEUROSCIENCE
These lectures expose neuroscience students to recent and cutting-edge topics and methods in neuroscience. Students interact with graduate students and speakers and engage in question and answer sessions. This course will not fulfill an NBB elective requirement. **Credit Hours:** 1. **General Education Requirements:** None.

NBB 490
CLINICAL NEUROLOGY STUDY
Much more than a shadowing program, NBB 490 offers a genuine clinical neurology experience, classroom guidance and a look at current practices in medicine. Each student will be assigned a Clinical Neurology faculty mentor and will be required to attend a minimum of one half-day clinic per week. **Credit Hours:** 4. **General Education Requirements:** None.

NBB 495A
HONORS RESEARCH
For senior NBB majors eligible for the College Honors Program. Must have permission of NBB honors coordinator and faculty research mentor. Cannot be taken concurrently with NBB 497WR, 498R, or 499R. Students attend regular meetings to integrate the project into their major. **Credit Hours:** 4. **General Education Requirements:** None.

NBB 495BW
HONORS RESEARCH
Must have completed NBB495A, permission of NBB honors coordinator and faculty research mentor. Cannot be taken concurrently with NBB 497WR, 498R, or 499R. Students attend regular meetings. WR is satisfied by written thesis on the honors research project. **Credit Hours:** 1 - 8. **General Education Requirements:** WRT.

NBB 497
SUPERVISED WRITING
Independent, faculty-mentored research and writing, with major writing assignment(s) accounting for at least 60% of the grade. Prerequisite: permission of instructor; may not receive credit for NBB 497WR and 495BW under the direction of the same faculty mentor. **Credit Hours:** 3. **General Education Requirements:** None.

NBB 497W
SUPERVISED WRITING
Independent, faculty-mentored research and writing, with major writing assignment(s) accounting for at least 60% of the grade. Prerequisite: permission of instructor; may not receive credit for NBB 497WR and 495BW under the direction of the same faculty mentor. **Credit Hours:** 4. **General Education Requirements:** WRT.

NBB 498R
SUPERVISED READING
Independent, faculty-mentored research; designed as a prelude to conducting laboratory research under the same mentor. Prerequisite: permission of instructor; cannot be taken concurrently with NBB 497WR. **Credit Hours:** 1 - 4. **General Education Requirements:** None.

NBB 499R
UNDERGRADUATE RESEARCH
Mentored research. Must have permission of instructor and faculty research mentor. Cannot be taken concurrently with NBB 497WR, 498R, 495A or 495BW. Students attend regular meetings to share research progress, discuss research ethics and integrate research into their major. **Credit Hours:** 1 - 4. **General Education Requirements:** None.

**TOPICS: PHILOSOPHY**  
Writing-intensive study of particular subjects pertaining to Philosophy. May be repeated for credit when topic varies.  
**Credit Hours:** 1 - 4.  
**General Education Requirements:** HAPW.  
**Requisites:** Two PHIL courses as prereq..

**PHIL 485**  
**SEMINAR FOR PHILOSOPHY MAJORS**  
An opportunity for students to discuss philosophy in a small group setting where they will be responsible for directing a seminar meeting and preparing substantial contributions throughout the course of the term.  
**Credit Hours:** 3.  
**General Education Requirements:** None.  
**Requisites:** Two PHIL courses as prereq..

**PHIL 488**  
**CAPSTONE SEMINAR**  
A seminar reserved for senior PPL majors. It integrates each of the majors areas: the politics, law, and some subfield of philosophy such as ethics, epistemology, metaphysics, etc.  
**Credit Hours:** 3.  
**General Education Requirements:** None.  
**Requisites:** Two PHIL courses as prereq..

**PHIL 488W**  
**CAPSTONE SEMINAR**  
A seminar reserved for senior PPL majors. It integrates each of the majors areas: the politics, law, and some subfield of philosophy such as ethics, epistemology, metaphysics, etc. The course is writing intensive and culminates in a final paper.  
**Credit Hours:** 4.  
**General Education Requirements:** WRT.  
**Requisites:** Two PHIL courses as prereq..

**PHIL 490R**  
**SENIOR SEMINAR**  
Study of the nature of philosophy, relationships among the various fields of philosophy, and connections among various fundamental problems in philosophy, approached from the perspective of each student's own course of undergraduate study in philosophy. Required of all philosophy majors.  
**Credit Hours:** 3.  
**General Education Requirements:** HAP.  
**Requisites:** Two PHIL courses as prereq..

**PHIL 490RW**  
**SENIOR SEMINAR**  
Study of the nature of philosophy, relationships among the various fields of philosophy, and connections among various fundamental problems in philosophy, approached from the perspective of each student's own course of undergraduate study in philosophy. Required of all philosophy majors.  
**Credit Hours:** 4.  
**General Education Requirements:** HAPW.  
**Requisites:** Two PHIL courses as prereq..

**PHIL 495A**  
**HONORS (DIRECTED READING)**  
Open to students approved by the department to write an honors thesis.  
**Credit Hours:** 1 - 8.  
**General Education Requirements:** None.  
**Requisites:** Two PHIL courses as prereq..

**PHIL 495B**  
**HONORS (DIRECTED READING)**

**PHYSICS**
PHYS 115
INTRO ASTRONOMY
Students having taken Physics 116 for credit may not take this course. A descriptive overview of astronomy. The celestial coordinate system, time keeping, the planetary system, ancient astronomy, the sun, stellar evolution, galactic astronomy, cosmology, and the origin of the universe. **Credit Hours:** 3. **General Education Requirements:** SNT.

PHYS 116
INTRO ASTRONOMY W/LAB
Students having taken Physics 115 for credit may not take this course. A descriptive astronomy course with laboratory. The celestial coordinate system, ancient astronomy, light and telescopes, the solar system, the sun, stellar evolution, galactic astronomy, and cosmology. **Credit Hours:** 4. **General Education Requirements:** SNTL.

PHYS 117
INTR. ASTRONOMY 2: ADV.TOPICS
For non-majors who have successfully completed PHYS 115 or 116. Topics of contemporary astrophysical research including exoplanets and habitability, the first stars, Galactic and extragalactic astronomy, black holes, quasars, large-scale structure, dark matter, dark energy, and cosmology. **Credit Hours:** 3. **General Education Requirements:** SNT. **Requisites:** PHYS 115 or 116 prerequisite.

PHYS 121
HOW THINGS WORK
Bicycles, rockets, CDs, jet airplanes, cars, Frisbees, kayaks, TV, lasers, microwave ovens, cell phones' the mysteries of these and other objects are explored, introducing the physics and science in everyday life. **Credit Hours:** 3. **General Education Requirements:** SNT.

PHYS 122
HOW THINGS WORK II
DVDs, cell phones, computers, TV, microwave ovens, lasers, cameras' the mysteries of these and other everyday objects are explored, introducing the physics and science of everyday life. **Credit Hours:** 3. **General Education Requirements:** SNT.

PHYS 125
THE SCIENCE OF CLIMATE CHANGE
This course will introduce students to the basic science of climate change, possibly the greatest challenge of our time, and discuss the climate history of the Earth and the role of energy in our modern society and economy. No prerequisites are necessary. **Credit Hours:** 3. **General Education Requirements:** SNT.

PHYS 131
MAJOR ADVANCES IN MODERN PHYS.
A survey of the major advances in fundamental physics in the 20th century suitable for non-science majors. Subjects in atomic and nuclear physics in the context of their original discoveries, with close attention paid to original writings by the authors of these discoveries. **Credit Hours:** 4. **General Education Requirements:** SNTL.

PHYS 141
INTRO PHYSICS I W/LAB
Introductory classical mechanics and thermodynamics. The student is expected to be competent in algebra, trigonometry, and plane geometry. Physics 141 and 142 are appropriate courses to satisfy a one-year physics requirement for professional schools. **Credit Hours:** 4. **General Education Requirements:** SNTL. **Requisites:** PHYS 141OR151 as Prerequisite.

PHYS 142
INTRO PHYSICS II W/LAB
Introduction to electricity, magnetism, optics, and the essentials of quantum mechanics, atomic and nuclear physics, and special relativity. **Credit Hours:** 4. **General Education Requirements:** SNTL. **Requisites:** PHYS 141OR151 as Prerequisite.

PHYS 151
PHYS FOR SCI & ENGIN I W/LAB
Introductory classical mechanics and thermodynamics. Physics 151 and 152 are primarily for students who are strongly motivated in science and mathematics. **Credit Hours:** 4. **General Education Requirements:** SNTL. **Requisites:** MATH 111 pre/MATH 112or210 cor.

PHYS 152
PHYS FOR SCI & ENGIN II W/LAB
Electric and magnetic fields and forces, Gauss's law, electrical properties of materials, electromagnetic induction, electromagnetic waves, and optical phenomena. **Credit Hours:** 4. **General Education Requirements:** SNTL. **Requisites:** PHYS 141/151&MATH 112/116/210.

PHYS 190
FRESH SEM: PHYSICS
Freshman seminar, for first year students only. Variable topics. **Credit Hours:** 3. **General Education Requirements:** FSEM.

PHYS 212
COMP.MODEL.SCIENT.& ENGINEERS
Computation is one of the pillars of modern science, in addition to experiment and theory. In this course, various computational modeling methods will be introduced to study specific examples derived from physical, biological, chemical and social systems. **Credit Hours:** 4. **General Education Requirements:** SNT. **Requisites:** PHYS 151 or (PHYS 141 & MATH 1. **Crosslisted Courses:** BIOL 212: Comp.Model.Scient.& Engineers.

PHYS 220
MATH METHODS FOR SCI & ENGIN
Linear algebra, determinants, linear vector spaces, eigenvalues and eigenfunctions, the div grad and curl operators, Gauss and Stokes theorems, orthogonal coordinate systems, infinite power series,
complex number and variables, Fourier analysis, Laplace transforms, ODEs and PDEs. **Credit Hours:** 3.

**General Education Requirements:** SNT. **Requisites:** PHYS 142/152 & MATH 211.

PHYS 222
FUND. OF ENGINEERING DESIGN

This course builds on the basics of the introductory science courses, including the basics of quantum mechanics in PHYS 253 Modern Physics (or its equivalent Physical Chemistry course), to understand the fundamental principles of how various engineering applications and devices work. **Credit Hours:** 3. **General Education Requirements:** SNT. **Requisites:** PHYS 142/152, MATH 112/116, CHE.

PHYS 227
SEMINAR IN MODERN MED PHYSICS

Explores some of the ways in which principles and methods used in physics are applied to problems in modern medicine. Includes a study of the physics of modern imaging systems such as MRI, CT, and PET as well as more traditional areas (x-ray, radiation, and nuclear medicine physics). Mathematical and statistical ideas will be developed as needed. For pre-med students, students in health or biological sciences, or physics majors who are curious about medical physics. **Credit Hours:** 3. **General Education Requirements:** SNT. **Requisites:** PHYS 142/152 as a Prerequisite.

PHYS 234
DIGITAL ELEC/MICROPROCESSORS

Introduction to combinational and sequential logic circuits, and microprocessor hardware. Topics include transistors, gates, flipflops, counters, clocks, decoders, displays, microprocessors, memory, input/output circuits, and device interfacing. **Credit Hours:** 3. **General Education Requirements:** SNT. **Requisites:** PHYS 142/152 as a Prerequisite.

PHYS 253
MODERN PHYSICS WITH LABORATORY

Special theory of relativity, wave and particle properties of electromagnetic radiation and matter, introduction to quantum mechanics, Schrodinger equation, atomic models, and simple molecules. **Credit Hours:** 4. **General Education Requirements:** SNTL. **Requisites:** PHYS 142/152 AND MATH 112.

PHYS 290
SPECIAL TOPICS

Offered as required. Prerequisite: consent of instructor. Selected topics and problems of special or current interest in physics. May be repeated for credit when topic varies. **Credit Hours:** 1 - 4. **General Education Requirements:** None.

PHYS 290W
SPECIAL TOPICS

Offered as required. Prerequisite: consent of instructor. Selected topics and problems of special or current interest in physics. May be repeated for credit when topic varies. **Credit Hours:** 1 - 5. **General Education Requirements:** None.

PHYS 291
DIRECTED STUDY

Prerequisite: consent of instructor. Adapted to particular needs of individual student with instructor acting as adviser. **Credit Hours:** 1 - 12. **General Education Requirements:** None.

PHYS 311
ASTROPHYSICS I WITH LABORATORY

Covers astronomical coordinates, celestial mechanics, Kepler’s Laws, gravitation, planetary analysis techniques, planetary and interplanetary debris composition and structure, ring system formation, extrasolar planetary systems, with laboratory sessions in the Emory observatory. **Credit Hours:** 4. **General Education Requirements:** SNTL. **Requisites:** PHYS 253 as a Prerequisite.

PHYS 312
ASTROPHYSICS II WITH LAB

Prerequisite: Physics 253. Covers stellar analysis techniques, binary stars, stellar structure, the sun, stellar evolution, stellar variability, stellar death, the Milky Way, galactic structure, structure of the universe, cosmology, with laboratory sessions in the Emory observatory. **Credit Hours:** 4. **General Education Requirements:** SNTL.

PHYS 320
MATH METHODS FOR SCIENTISTS

Practical introduction to advanced mathematical methods: partial differential equations, boundary value problems, special functions, integral transforms, functions of complex variables, contour integrals, the residue theorem, Hermitian and unitary matrices. **Credit Hours:** 3. **General Education Requirements:** None. **Requisites:** PHYS 142/152 & MATH 212.

PHYS 333
PHYSICS FOR LIFE SCIENCES

Designed to provide students with career goals in the life sciences and medicine knowledge of basic physical principles and their applications to the understanding of living systems and biological processes. Motion, sound, energy, metabolism, fluids, electricity, optics and medical diagnostics. **Credit Hours:** 3. **General Education Requirements:** SNT. **Requisites:** PHYS 142/152 & MATH 112/116.

PHYS 361
CLASSICAL MECHANICS

Newton’s laws, energy, momentum, angular momentum, conservation laws, many-particle systems, oscillations, planetary motion and Kepler’s laws, Lagrange’s and Hamiltonian formalisms, non-inertial reference frames, rotation and tensor of inertia, non-linear dynamics and chaos. **Credit Hours:** 3. **General Education Requirements:** SNT. **Requisites:** PHYS 142/152 & PHYS 220/MATH21.
Electrostatics, Poisson and Laplace equations, steady currents and electromagnetic induction, magnetostatics, integral and differential forms of Maxwell equations, propagation of electromagnetic waves, fundamental laws of optics, basic laws of radiation  

**General Education Requirements:** SNT. **Requisites:** PHYS 220 as prerequisite.

## PHYS 380W
**SPECIAL TOPICS IN PHYSICS**

Offered as required. Credit, two to four hours. Prerequisite: consent of instructor. Selected topics and problems of special or current interest in physics. May be repeated for credit when topic varies. 

**Credit Hours:** 1 - 4. **General Education Requirements:** None.

## PHYS 381
**DYNAMICS OF LIVING SYSTEMS**

Maymester Course. This course will focus on proteins, DNA and their interactions emphasizing the role that dynamics play in these macromolecules function. The structure and conformation of biological molecules are, actually, dynamic and this feature is underlying their function in living systems.  

**Credit Hours:** 3. **General Education Requirements:** None.

## PHYS 397R
**DIRECTED STUDY**

Credit, two to four hours. Prerequisite: consent of instructor. Adapted to particular needs of individual student with instructor acting as adviser.  

**Credit Hours:** 1 - 12. **General Education Requirements:** None.

## PHYS 421
**THERMODYNAMICS & STAT PHYS**

Laws of thermodynamics, entropy, Carnot engine, thermodynamic potentials, Gibbs ensembles, classical and quantum statistics, photon gas, phonons, Debye theory, electron gas, Bose-Einstein condensation, chemical kinetics, phase transitions, and critical phenomena.  

**Credit Hours:** 3. **General Education Requirements:** SNT. **Requisites:** PHYS 220 & PHYS 253 prereq..

## PHYS 422
**MODERN MATERIALS**

The physics behind modern materials used in nanotechnology, information storage and processing, and energy generation such as semiconductor transistors, LEDs, solar cells, photodiodes, lasers, etc. Electronic, optical, magnetic and thermal properties of materials which have enabled the internet age.  

**Credit Hours:** 3. **General Education Requirements:** SNT. **Requisites:** PHYS 253 or CHEM 205/205L or C.

## PHYS 431
**PRINCIPLES OF OPTICS**

The wave equation, electromagnetic theory of light, aberrations, matrix methods, polarization, interference, diffraction, quantum aspects of light, lasers, holography, and fiber optics.  

**Credit Hours:** 3. **General Education Requirements:** SNT. **Requisites:** PHYS 253 & PHYS 365 & MATH 212.

## PHYS 432
**PRINCIPLES OF OPTICS WITH LAB**

The wave equation, electromagnetic theory of light, aberrations, matrix methods, polarization, interference, diffraction, quantum aspects of light, lasers, holography, and fiber optics.  

**Credit Hours:** 4. **General Education Requirements:** SNTL. **Requisites:** PHYS 253/365 & MATH 212.

## PHYS 434
**PHYSICAL BIOLOGY**

The course explores physical and statistical constraints on strategies used by biological systems, from bacteria, to large organisms, and to entire populations, to sense external environmental signals, process them, and shape a response.  

**Credit Hours:** 3. **General Education Requirements:** None. **Requisites:** BIOL PHYS 212 & PHYS 220. **Crosslisted Courses:** BIOL 434: Physical Biology.

## PHYS 436
**COMPUTATIONAL PHYSICS**

Computational techniques for solving equations as well as for simulating, analyzing, and graphically visualizing physical systems and processes. Projects will be selected from different areas of physics according to student interest and background.  

**Credit Hours:** 3. **General Education Requirements:** SNT. **Requisites:** PHYS 142/152 AND CS 150/170.

## PHYS 444
**ADV. UNDERGRADUATE LABORATORY**

Introduces modern experimental techniques and methods; the experiments include analog electronics, instrumentation and computer interfacing, cryogenics, and electro-optics.  

**Credit Hours:** 4. **General Education Requirements:** SNTL. **Requisites:** PHYS 253 as a Prerequisite.

## PHYS 444W
**ADV UNDERGRADUATE LABORATORY**

Introduces modern experimental techniques and methods; the experiments include analog electronics, instrumentation and computer interfacing, cryogenics, and electro-optics.  

**Credit Hours:** 5. **General Education Requirements:** SNLW. **Requisites:** PHYS 253 as a Prerequisite.

## PHYS 454
**MOLECULAR BIOPHYSICS**

The physical view of molecular structure and dynamics and their relation to protein function is addressed in selected exemplary systems. Physical techniques used to molecular information are examined.  

**Credit Hours:** 3. **General Education Requirements:** SNT.
PHYS 461
QUANTUM MECHANICS

PHYS 462
QUANTUM MECHANICS II
Applications of quantum mechanics to atomic, molecular, nuclear, particle, and solid state physics. Credit Hours: 3. General Education Requirements: SNT. Requisites: PHYS 461 as a Prerequisite.

PHYS 495R
HONORS RESEARCH
Independent research for students eligible to participate in the physics department Honors Program. Credit Hours: 1 - 4. General Education Requirements: None.

PHYS 499RW
HONORS RESEARCH
Prerequisite: consent of the undergraduate physics adviser. Independent research for students invited to participate in the physics department Honors Program. Credit Hours: 1 - 8. General Education Requirements: WRT.

PHYS 999XFR
NON-EQUIVALENT TRANSFER COURSE
Non-Equivalent Transfer Course in Physics Credit Hours: 1 - 99. General Education Requirements: None.

POLITICAL SCIENCE

POLS 100
NATL POLITICS/UNITED STATES

POLS 102
INTRO TO POLITICAL THEORY
Introduction to select perennial themes in the history of political philosophy. Credit Hours: 3. General Education Requirements: HAP.

POLS 110
INTR. TO INTERNATIONAL POLITICS
Introduction to analytical concepts, nature of the interstate system, the assumptions and ideas of diplomacy, the determinants of foreign policy. Credit Hours: 3. General Education Requirements: HSC.

POLS 111
PRINCIPLES OF POL.SCIENCE
The course is organized around the following questions: What is politics, and what is political science? How do political groups form? How do groups make decisions? How are group decisions implemented? We approach these questions using ideas that are found across the sub-fields of political science. Credit Hours: 3. General Education Requirements: HSC.

POLS 120
INTRO.TO COMPARATIVE POLITICS
Political systems of major nations in comparative perspective. Credit Hours: 3. General Education Requirements: HSC.

POLS 150
FOUNDATIONS OF AMER. DEMOCRACY
Discussion based course on the foundational ideas that underlie American democracy and other major American political debates from the revolutionary era to the present. Readings drawn from classic texts and original documents, speeches and writings of leading American political figures. This course is part of Emory’s Voluntary Core Curriculum program. Credit Hours: 4. General Education Requirements: HSC.

POLS 190
FRESH SEM: POLI SCI
For first-year students only. Entry level seminar focusing on a specific topic. May be repeated for credit when topic varies. Credit Hours: 3. General Education Requirements: FSEM.

POLS 200
INTERMED NATL POLITICS OF U.S.
This intermediate course in American politics examines how the public, elected officials and political institutions interact to govern and make public policy. Credit Hours: 3. General Education Requirements: None.

POLS 201
CLASSICAL POLITICAL THOUGHT
Beginnings of the Western political heritage as shaped by such great political thinkers as Plato, Aristotle, Thucydides, and Xenophon. Credit Hours: 3. General Education Requirements: HAP.

POLS 300
SOCIAL CHOICE AND ELECTIONS
This course takes a mathematical approach to the study of voting procedures by considering the axiomatic properties procedures satisfy. Topics include apportionment, how agendas are optimally constructed, and how systems can (or can't!) reconcile individual liberty with the collective good. 
Credit Hours: 3. General Education Requirements: None.

POLS 303
POLICING & POLITICS
The course examines the intersection of policing and politics. It addresses how politics influences the police and policing (e.g., stop-and-frisk) and how the police and policing influence politics (e.g., rhetoric of political campaigns, protests in response to killings of civilians, etc.). Credit Hours: 3. General Education Requirements: HSC.

POLS 304
MAJ TEXTS IN POLITICAL THEORY
Intensive analysis of one or more texts of political philosophy or political science, with an emphasis on developing skills of close reading, textual analysis, and independent interpretation. Credit Hours: 3. General Education Requirements: HAP.

POLS 305
20TH CENT. POLITICAL IDEOLOGIES
Examination of contemporary political ideologies, focusing primarily on fascism, communism, and democracy. Some attention to Marxist humanism and the neoconservative revival. Credit Hours: 3. General Education Requirements: HAP.

POLS 306
CONTEMPORARY DEMOCRATIC THEORY
An introduction to classical and contemporary political theories of justice, with application to several specific contemporary questions of public policy. Credit Hours: 3. General Education Requirements: HAP.

POLS 307
POLITICAL THOUGHT OF LINCOLN
A deep examination of Abraham Lincoln's political thought, focused on his responses to problems that confronted him as president (e.g., slavery and the Civil War). Credit Hours: 3. General Education Requirements: HSC.

POLS 309
SURVEY RSrch/Politicl Analysis
Suggested prerequisite: Political Science 308. Use of SPSS, multivariate analysis, and other computer routines to analyze survey and aggregate data. Special attention to political science data archives. Credit Hours: 3. General Education Requirements: MQR.

POLS 310
RESEARCH: STATISTICAL MODELING
An introduction to the various approaches to using statistics to study social phenomena. Credit Hours: 3. General Education Requirements: MQR.

POLS 311
INTL CONFLICT RESOLUTION
Suggested prerequisite: Political Science 308. Examine general principles and problems of international conflict resolution, including strategic bargaining, issue linkage, third party involvement, and coalition formation. Credit Hours: 3. General Education Requirements: HSC.

POLS 312
INTERNATIONAL LAW
Suggested prerequisite: Political Science 310. Procedures and practices regarded by states as constituting international law, with major emphasis on contemporary problems and probable trends. Credit Hours: 3. General Education Requirements: HSC.

POLS 313
RCH: INTL.ORGANIZATIONS
Suggested prerequisite: Political Science 310. Nature and development of international organization, with emphasis on the interaction between international systems and organizations. Credit Hours: 3. General Education Requirements: HSC. Requisites: QTM 100 or 220 or ECON 220.

POLS 314
U.S. NATIONAL SECURITY POLICY
Suggested prerequisite: Political Science 310. Organizations and processes involved in the formulation and execution of United States national security policy. Topics include nuclear strategy, bureaucratic politics, and the programming and budgeting process. Credit Hours: 3. General Education Requirements: HSC.

POLS 315
FOREIGN POLICIES OF MAJOR POWERS
Comparison of post-World War II foreign policies of selected states. Primary focus on developing an understanding of the impact of internal influences on external behavior. Credit Hours: 3. General Education Requirements: HSC.
POLS 316  
FOREIGN POLICY/THE UNITED STATES  
Traditions and assumptions of American foreign policy; analysis of post-World War II policy, including nuclear deterrence, foreign aid, and alliance policies. **Credit Hours:** 3. **General Education Requirements:** HSC.

Suggested prerequisite: Political Science 110. This course delves into the philosophical and contextual underpinnings of human rights in order to create a framework for understanding the increasing importance of human rights in the international system. **Credit Hours:** 3. **General Education Requirements:** HSC.

POLS 318  
US POLICY TOWARD LATIN AMERICA  
Examination of United States foreign policy toward Latin America and the Caribbean from the Monroe Doctrine to the Reagan Doctrine. Emphasis on the evolution and formulation of United States policy, national security, and foreign economic policy. **Credit Hours:** 3. **General Education Requirements:** HSC.

POLS 319  
INT’L POLITICAL ECONOMY  
Examines interactions between economic developments (domestic and external) and political changes (domestic and external). Begins with general views and then examines particular issues (e.g., trade, monetary, development, environmental). **Credit Hours:** 3. **General Education Requirements:** HSC.

Suggested prerequisite: Political Science 110 or 120. Reviews several theories of the causes and dynamics of political violence. Includes an exploration of the ethical and moral issues concerning the proper role of government, the question of ends versus means, and the value of human existence. **Credit Hours:** 3. **General Education Requirements:** HSC.

Suggested prerequisite: Political Science 120. Examination of the theoretical and substantive relationships between politics and economics from a comparative perspective, including macroeconomic policy, economic influence on the vote, and political control of economic behavior. **Credit Hours:** 3. **General Education Requirements:** HSC.

Suggested prerequisite: POLS 110 or 120. Intro to the contemporary politics of SE Asia. Focus on capitalist developing countries of the region - Indonesia, Thailand, Malaysia, Philippines, Singapore. Approach is comparative, with focus on democratization, economic growth, and environmental issues. **Credit Hours:** 3. **General Education Requirements:** HSC. **Crosslisted Courses:** EAS 322: Politics of Southeast Asia.

Suggested prerequisite: Political Science 120. This course looks at the role of political parties for democracies and at ways parties represent interests in democracies. It combines general literature on parties and detailed study of a few countries. **Credit Hours:** 3. **General Education Requirements:** HSC.

Examines the contemporary political systems of Portugal, Spain, Italy, and Greece, including the topics of authoritarian rule, transition to democracy, reform of government institutions, and other issues. **Credit Hours:** 3. **General Education Requirements:** HSC.

Suggested prerequisite: Political Science 110 or 120. An introduction to the politics and governments of Eastern Europe from World War I to the present. **Credit Hours:** 3. **General Education Requirements:** HSC.

Suggested prerequisite: Political Science 120. Comparative examination of the contemporary political systems of democratic Europe. **Credit Hours:** 3. **General Education Requirements:** HSC.

Suggested prerequisite: Political Science 120. Focuses on the breakdown of the postwar consensus and its replacement by Thatcherism in 1979. Three topics receive detailed attention: race relations, territorial politics, and radical critiques of British democracy. **Credit Hours:** 3. **General Education Requirements:** HSC.

Suggested prerequisite: Political Science 110 or 120. Examines politics of contemporary Japan, with stress on political bases of Japanese economic growth and in comparison with other East Asian economic successes (e.g., Taiwan, South Korea). **Credit Hours:** 3. **General Education Requirements:** HSC. **Crosslisted Courses:** EAS 328: Politics of Japan & East Asia.
**POLS 329**  
**DEMENTIC TRANSITIONS**  
Suggested prerequisite: Political Science 120. Provides a survey and analysis of ways states undergo transitions from authoritarian to democratic regimes. Emphasizes interplay of elite and social factors, and addresses relationship between political and economic reform. **Credit Hours:** 3. **General Education Requirements:** HSC.

**POLS 330**  
**DEVELOPMENTAL DEMOCRACY**  
Examines those political, social, and economic conditions necessary for the successful implementation of a democratic form of governance. **Credit Hours:** 3. **General Education Requirements:** HSC.

PSYCHOBIO OF VISUAL PERCEPTION
Theories and research about how the brain interacts with mind in generating perceptions. Credit Hours: 4. General Education Requirements: WRT.

PSYC 424
ADV. NEUROIMAGING PRACTICUM
Students will design and conduct their own fMRI study. Students will learn and apply the basic physics underlying MRI, the biological principles of fMRI, the principles of experimental design, the processing steps associated with data analysis, and the use of available software packages. Credit Hours: 3. General Education Requirements: SNT.

PSYC 425
BRAIN IMAGING

PSYC 426
NEUROPHARMACOLOGY & PLACEBO
Students will learn about pharmacology and the randomized clinical trials process for psychoactive drugs. The neuroscience of and impact of placebo effects on new psychotherapeutic drug approvals will be studied by reading and writing about the relevant primary literature. Credit Hours: 3. General Education Requirements: SNT. Crosslisted Courses: NBB 426: Neuropharmacology & Placebo.

PSYC 427
HORMONES, BRAIN AND BEHAVIOR
The goal of this course is to explore the hormonal mechanisms underlying behavior in a peer-oriented environment. We will read and discuss classic and current primary literature. Credit Hours: 3. General Education Requirements: SNT.

PSYC 427W
HORMONES, BRAIN AND BEHAVIOR
The goal of this course is to explore the hormonal mechanisms underlying behavior in a writing-intensive, peer-oriented environment. We will read and discuss classic and current primary literature, and practice writing in style characteristic of scientific discussion. Credit Hours: 4. General Education Requirements: SNTW.

QUANTITATIVE THEORY AND METHODS

QTM 100  
INTRO TO STAT INFERENCE  
Intro to descriptive and inferential stats with emphasis on practice and implementation. Introduces basic statistical concepts and encourages critical thinking about data. A primary focus of the course is on implementation of appropriate statistical analysis and interpretation of results. Credit Hours: 4. General Education Requirements: MQR.

QTM 101  
RSCH.METH. & APP.IN STAT.INFER.  
Overview of statistical methodology in context of real world applications; demonstrates how stats methods are used in a career or academic discipline. Students choose academic focus (e.g., Poli Sci), work with a TA trained in that field, conduct research and present results in written/oral format. Credit Hours: 4. General Education Requirements: None.

QTM 110  
INTRO.TO SCIENTIFIC METHODS  
Introduces students to the style of analytic thinking required for research and concepts and procedures used in the conduct of empirical research: sampling, hypothesis testing, Bayesian inference, regression, experiments, instrumental variables, differences indifferences, regression discontinuity. Credit Hours: 3. General Education Requirements: None.

QTM 120  
MATH.FOR QUANTITATIVE SCIENCES  
Teaching the necessary mathematical background for students to properly derive and implement common statistical modeling techniques employed in the social sciences. Covers core concepts of linear algebra and multivariable calculus, which are necessary skills for social science research. Credit Hours: 4. General Education Requirements: MQR. Requisites: MATH 111.

QTM 150  
INTRO.TO STAT.COMPUTING I  
This course provides an introduction to statistical computational tools for analyzing data. The material is selected to enable you to become proficient enough to actively implement the methods and tools in your scientific research. Credit Hours: 1. General Education Requirements: None.

QTM 151  
INTRO.TO STAT.COMPUTING II  
This course provides a practicum of skills for data science and an introduction to how to do data science with R. Material is selected to enable you to get data into the most useful structure, transform it, visualize it, and model it. This will require you to practice the material outside of class. Credit Hours: 1. General Education Requirements: None. Requisites: QTM 150 as prerequisite.

QTM 190  
FIRST-YEAR SEMINAR IN QTM  
Variable first-year seminar topics within QTM which may aim to provide an introduction to quantitative theory, practical applications of quantitative methods, introductory coding or statistics, or introduce other topics pertinent to quantitative fields. Credit Hours: 3. General Education Requirements: FSEM.

QTM 200  
APPLIED REGRESSION ANALYSIS  
Students will apply concepts and skills learned in QTM 100 to a broader field of statistical analysis: multivariable analysis and model building. Implementation of appropriate statistical methods, hands-on data analysis with statistical software, interpretation of analysis results. Credit Hours: 3. General Education Requirements: MQR.

QTM 210  
PROBABILITY AND STATISTICS  
Covers the structure of probability theory. Discusses the commonly encountered probability distributions, both discrete and continuous. Considers random sampling from the population, and the distribution of some sample statistics. Discusses the problem of estimation, and hypothesis testing. Credit Hours: 4. General Education Requirements: MQR. Requisites: QTM 120 or MATH 210 or MATH 221.

QTM 220  
REGRESSION ANALYSIS  
Introduces students to widely used procedures for regression analysis, and provides intuitive, applied, and formal foundations for regression and more advanced methods treated later in the major course sequence. Credit Hours: 4. General Education Requirements: MQR. Requisites: QTM 110 & 150 or MATH 361/362 & MATH 212.

QTM 250  
APPLIED COMPUTING  
This course teaches students how to think like data scientists. In combination with tools such as spreadsheets, SQL, and Python, students learn data analysis and applications of machine learning using real-world datasets. Credit Hours: 3. General Education Requirements: None. Requisites: QTM 100 or QTM_OX 100 prereq.
QTM 285
TOPICS IN QUANTITATIVE SCIENCE
Includes topics related to statistical computing. Credit Hours: 1 - 4. General Education Requirements: None.

QTM 302
TECHNICAL WRITING
This writing-intensive course provides students with practice developing rhetorically effective and ethically sensitive communication in genres that characterize professional activity across and outside the university. No prior technical knowledge required. Credit Hours: 3. General Education Requirements: None. Crosslisted Courses: ENGRD 302: Technical Writing.

QTM 302W
TECHNICAL WRITING
This writing-intensive course provides students with practice developing rhetorically effective and ethically sensitive communication in genres that characterize professional activity across and outside the university. No prior technical knowledge required. Credit Hours: 4. General Education Requirements: WRT. Crosslisted Courses: ENGRD 302W: Technical Writing.

QTM 310
INTRODUCTION TO DATA JUSTICE
Upon completing this course, students will be able to define and discuss the concepts of bias, fairness, discrimination, ethics, and justice, with respect to data science, and will gain familiarity, via case studies and practical excercises, with how these concepts play out in data-driven inquiry. Credit Hours: 3. General Education Requirements: None.

QTM 315
GAME THEORY I
Introduction to game theory and strategic thinking. Foundational building blocks of non-cooperative games including normal and strategic form games, Nash equilibrium concept, various equilibrium concept refinements including backwards induction, sub-game perfection, and perfect Bayesian equilibrium. Credit Hours: 3. General Education Requirements: None.

QTM 325
EVOLUTIONARY GAME THEORY
Evolutionary Game Theory draws on ideas from classic Game Theory to explain these biological phenomena. The course will introduce basic concepts from Evolutionary Biology and from Game Theory, and combine them together to find evolutionarily stable strategies everywhere around us. Credit Hours: 3. General Education Requirements: None.

QTM 329
COMPUTATIONAL LINGUISTICS
This course will focus on the analysis of syntactic and semantic structures, ontologies and taxonomies, distributional semantics and discourse, as well as their applications in computational linguistics. Assignments will include advanced statistical analyses. Credit Hours: 3. General Education Requirements: MQR. Requisites: QTM 220 as prerequisite..

QTM 340
APPROACHES TO DATA SCI.W/TEXT
Teaches common theories & techniques in data science using Python. Focus is text analysis (e.g., text parsing, language models, sequence estimation, vector space models & distributional semantics, cluster analysis, supervised learning). Cloud computing, big data, & data visualization are discussed. Credit Hours: 3. General Education Requirements: None. Requisites: QTM 210 or CS 171 as prereq..

QTM 345
ADVANCED STATISTICS
Introduces students to multivariate linear regression model and method for dealing with non-experimental data. It will equip students with understanding of the workhorse in econometrics and statistics. Credit Hours: 3. General Education Requirements: None. Requisites: QTM 220 as prerequisite..

QTM 350
DATA SCIENCE COMPUTING
This course emphasizes programming for data science, rather than programming for the sake of programming. Students learn essential computer literacy (e.g. shell commands), computing concepts & workflow for reproducible research. Students primarily write Python code and use cloud computing resources. Credit Hours: 3. General Education Requirements: None. Requisites: QTM 220 as prerequisite.

QTM 355
INTR. TO TIME SERIES ANALYSIS
This course covers the fundamentals of time series analysis in both the natural and social sciences, utilizing analytical, statistical, and numerical approaches. We will focus on the application of these methods to complex, real world data from medicine, economics, geology, and other fields. Credit Hours: 3. General Education Requirements: None. Requisites: QTM 220 as prerequisite.. Crosslisted Courses: BIOL 355: Intr. to Time Series Analysis.

QTM 360
GENERALIZED LINEAR MODELS
Covers models for qualitative (count, binary, ordinal, or nominal) data, testing for goodness-of-fit, analyzing contingency tables, regression models for count, binary, and multiple categorical response data, etc. The Generalized Linear Models provide a unifying framework for the course. Credit Hours: 3. General Education Requirements: None. Requisites: QTM 220 as prerequisite.

QTM 385
SPECIAL TOPICS: QTM
Special Topics Courses. Includes Game Theory I/II, Maximum Likelihood Estimation, Longitudinal Data Analysis, Experimental Methods, Survey Research Methods, Computational Modeling, and Advanced
QTM 385W
SPECIAL TOPICS: QTM Topics: Bayesian Statistics. **Credit Hours:** 1 - 4. **General Education Requirements:** None. **Requisites:** QTM 110,120,210 prerequisite.

QTM 390
SPECIAL TOPICS TAKEN ABROAD
Study Abroad **Credit Hours:** 1 - 12. **General Education Requirements:** None.

QTM 398R
PEER MENTORING IN STATISTICS
Engage in statistical study and mentor peers in statistics; attend an orientation, develop mentoring skills, have weekly meetings with lecturer, attend one QTM 100 section per week, and hold mentoring sessions for current students. (2 credits) OR Aid TA in QTM 100 Lab (1 credit) **Credit Hours:** 1 - 2. **General Education Requirements:** None.

QTM 396
BIG/SMALL DATA & VISUALIZATION
An interdisciplinary exploration of digital tools for analyzing and visualizing data in the humanities and social sciences. **Credit Hours:** 3. **General Education Requirements:** HSC. **Crosslisted Courses:** SOC 446: Big/Small Data & Visualization, LING 446: Big/Small Data & Visualization.

QTM 396W
BIG/SMALL DATA & VISUALIZATION
An interdisciplinary exploration of digital tools for analyzing and visualizing data in the humanities and social sciences. **Credit Hours:** 4. **General Education Requirements:** HSCW. **Crosslisted Courses:** LING 446W: Big/Small Data & Visualization, SOC 446W: Big/Small Data & Visualization.

QTM 490R
ADVANCED SEMINAR
Selected advanced topics in quantitative sciences. Open only to junior and senior majors; others by permission of instructor. **Credit Hours:** 3. **General Education Requirements:** None.

QTM 490RW
ADVANCED SEMINAR
Selected advanced topics in quantitative sciences. Open only to junior and senior majors; others by permission of instructor. **Credit Hours:** 4. **General Education Requirements:** WRT.

QTM 491
DESIGN / ANALYSIS EXPERIMENTS
The first part of the course introduces the logic of experimentation and discusses various methodological issues in the design and analysis of experiments. The second part builds on this foundation to discuss some practical issues and ethical considerations in designing and implementing experiments. **Credit Hours:** 3. **General Education Requirements:** None.

QTM 495A
HONORS RESEARCH
For students participating in the Quantitative Sciences honors program. Student is expected to pursue an honors committee approved project. Course objectives include support for research, analysis of data, synthesis and presentation of results/observations, and initiation of writing the thesis. **Credit Hours:** 4. **General Education Requirements:** None.

QTM 495BW
HONORS RESEARCH
QTM 495BW is for students participating in the Quantitative Sciences honors program. Students will focus on data analysis and writing the thesis. Students will also be mentored in oral presentation skills and preparation of their work for publication. This class is an independent study format. **Credit Hours:** 1 - 8. **General Education Requirements:** WRT.

QTM 496R
QUANTITATIVE SCI. INTERNSHIP
Pre-reqs: QTM 110, 120, 210. Open to QSS majors only. Permission required by Internship Director. Supervised participation in a quantitatively focused internship approved by the Institute. No more than 4 credit hours may count toward QSS major elective credit. 3.0 minimum GPA required. **Credit Hours:** 1 - 12. **General Education Requirements:** None.

QTM 496RW
QUANTITATIVE SCI. INTERNSHIP
Pre-reqs: QTM 110, 120, 210. Open to QSS majors only. Permission required by Internship Director. Supervised participation in a quantitatively focused internship approved by the Institute. No more than 4 credit hours may count toward QSS major elective credit. 3.0 minimum GPA required. **Credit Hours:** 1 - 12. **General Education Requirements:** None.

QTM 497R
DIRECTED STUDY
Permission required by instructor. Independent reading and research under the direction of a faculty member. No more than 4 credit hours may count toward QSS major elective credit. **Credit Hours:** 1 - 12. **General Education Requirements:** None.

QTM 498R  
QUANTITATIVE SCIENCE CAPSTONE

The capstone course provides an opportunity for students to apply their knowledge of the foundations, theory and methods of data science, along with their substantive expertise to address data driven practical problems in industry, government, and the non-profit sector. **Credit Hours:** 1 - 4. **General Education Requirements:** None. **Requisites:** QTM 220 as prerequisite.

QTM 499R  
DIRECTED RESEARCH

Designed for majors (QSS, AMS, PPA, and BBA + QSS, etc.) working on independent research under the direction of faculty. Students expected to be familiar with the project, and involvement must include the employment of their statistical, computational, mathematical, and/or theoretical knowledge. **Credit Hours:** 1 - 12. **General Education Requirements:** None.

QTM 999XFR  
NON-EQUIVALENT TRANSFER COURSE

Non-equivalent transfer course in Quantitative Theory & Methods **Credit Hours:** 1 - 99. **General Education Requirements:** None.

RUSSIAN AND EAST ASIAN LANGUAGES AND CULTURES

REALC 375  
SPECTOP:RUSS/ E ASIAN CULTURES

An introduction to the history and culture of Russia and East Asia. Topics to be announced in advance. **Credit Hours:** 1 - 4. **General Education Requirements:** None.

RUSSIAN, E EUROPEAN, EURASIAN

REES 190  
FRESH SEM: REES

Fulfills GER freshman seminar requirement. Seminar will introduce students to special topics in Russian and East European studies with a cross-disciplinary approach. **Credit Hours:** 3. **General Education Requirements:** FSEM.

REES 200  
INTRO TO RUSSIAN AREA STUDIES

An introduction to Russian, this course takes an interdisciplinary approach to the questions that have animated Russians for centuries: What is Russia? Where is Russia going? These issues are approached from a number of perspectives: historical, cultural, political, legal, & artistic. **Credit Hours:** 3. **General Education Requirements:** HAP.

REES 285  
SPECIAL TOPICS IN RUSSIAN

Study of Russian, Eastern European, or Eurasian languages, literature, society, thought, or culture, alone or in conjunction with other literary or cultural trends. Topics to be announced in advance. **Credit Hours:** 1 - 4. **General Education Requirements:** None.

REES 285W  
SPECIAL TOPICS IN RUSSIAN

Study of Russian, Eastern European, or Eurasian languages, literature, society, thought, or culture, alone or in conjunction with other literary or cultural trends. Topics to be announced in advance. **Credit Hours:** 1 - 5. **General Education Requirements:** WRT.

REES 328  
CENTRAL ASIA AND RUSSIA

This class will examine the transformation of Central Asia's ancient cultures by Russian imperialism, Soviet domination and post-Soviet globalization. Topics include settler colonialism, revolution, the eradication of nomadism, the attack on Islam, and the rise of urban, industrialism. **Credit Hours:** 3. **General Education Requirements:** HSC. **Crosslisted Courses:** HIST 328: Central Asia and Russia.

Jr/Sr Colloquium. This class will study not simply the rise and rule of Iosef Stalin-one of the Twentieth Century's most sanguinary rulers-but also the deep social, political and cultural revolutions he wrought that still shape post-Soviet Russia and the world. **Credit Hours:** 4. **General Education Requirements:** WRT. **Crosslisted Courses:** HIST 420W: Stalin & Stalinism.

Jr/Sr Colloquium. Investigates his most infamous symbol of Soviet Communism, the forced-labor camps-the Gulags. From the intake of millions of "dekulakized" peasants to the killing fields of wartime Gulag to the Party's "purged," the Gulag evolved and had a history. Here, we focus on that history. **Credit Hours:** 4. **General Education Requirements:** WRT. **Crosslisted Courses:** HIST 421W: The Soviet Gulag.

Jr/Sr Colloquium. Concentrate on the experience of women across the broad scope of Russian history. Will investigate women's roles in the Russian aristocracy, serfdom, revolutionary movement, Communist state and post-Soviet embrace of capitalism and gender subordination. **Credit Hours:** 4. **General Education Requirements:** WRT. **Crosslisted Courses:** HIST 422W: Women in Russia.

Jr/Sr Colloquium. This course will examine Russia and its Muslims over a long chronological span (with particular emphasis on the 19th, 20th and 21st centuries) and broad geographical focus (the Volga, the Caucasus and Central Asia, as well as the Russian heartland). **Credit Hours:** 4. **General Education Requirements:** WRT. **Crosslisted Courses:** HIST 423W: Islam in Russia.

Required of Russian area studies majors. The interdisciplinary thesis must be approved by the Russian and East European Studies Committee and will be directed by a member of the faculty whose specialty lies in the field emphasized by the student's course of study. **Credit Hours:** 1 - 4. **General Education Requirements:** None.

GENERAL EDUCATION REQUIREMENTS

The general education component of an Emory undergraduate education is organized to present an array of intellectual approaches and perspectives as ways of learning rather than a prescribed body of content. Its purposes are to develop students’ competencies in the skills and methods of writing, quantitative methods, a second language, and physical education; to acquaint students with methodologies that characterize the humanities, the social sciences, and the natural sciences as the three broad divisions of learning in the arts and sciences; to deepen students’ perspectives on national, regional, and global history and culture, and to give every student some exposure to an interactive seminar experience. These purposes are met by a student’s choosing from a range of individual courses within a clearly defined framework.

Only courses taken for 3 credits or above will satisfy the General Education Requirement with the following exceptions: Health, PE, the lab portion of SNTL courses, and the second semester of the honors thesis course (which may carry CWRT credit) may fulfill GERs when taken for fewer than three credits.

The list of courses satisfying General Education Requirements is constantly under review. For the latest version of the list, please see below.
First-Year Seminars, offered in a wide range of fields, are designed to engage students in various aspects of inquiry and research with close guidance of a faculty member. Requirements: One course. Must be completed in first two semesters. Any course that satisfies the First-Year Seminar Class requirement may not satisfy another general education requirement with the exception of the Race & Ethnicity (ETHN) requirement. The FSEM requirement is exempted for Oxford Continuees.

FIRST-YEAR WRITING REQUIREMENT (FWRT) COURSES - AREA II

These courses work at refining a student’s fundamental writing skills through practice either in expository prose discourse or written analysis and interpretation of works of literature. Requirement: One course. Must be completed in first two semesters.

• CPLT 101: Rhetorical Comp./Crit.Reading
• ENGRD 101: Rhetorical Comp/Crit.Reading

CONTINUING WRITING (WRT) COURSES - AREA III

The goal of writing-intensive courses is to improve writing skills through writing regularly in a context where mentors in the various communities of discourse encourage, guide, and communicate to students high standards of writing through instruction and example. Writing intensive classes focus not only on the product, but also on the process of writing. Writing is not an elective option but a central focus of the course. Requirement: Three courses. Must be taken at Emory College of Arts and Sciences or Oxford College of Emory University. Must earn a grade of C or better.

RACE AND ETHNICITY (ETHN) COURSES - AREA X

The Race and Ethnicity requirement provides students with opportunities to consider racial, ethnic, and cultural dynamics; political, economic and social exclusions; and social difference, inequality and identity more generally, to gain an awareness of how these affect structural inequality amongst individuals and communities. While courses fulfilling this requirement may originate in any discipline or department, they share a common commitment to exploring the many ways that race and ethnicity shape our world and affect our understanding of it.

1 APPROVED COURSE IS REQUIRED WHICH MAY BE COMBINED WITH OTHER REQUIREMENTS. MUST BE TAKEN AT EMORY COLLEGE OF ARTS AND SCIENCES OR OXFORD COLLEGE OF EMORY UNIVERSITY. MUST EARN A GRADE OF C OR BETTER.

ACADEMIC POLICIES & REGULATIONS

DEGREE REQUIREMENTS

Both the Bachelor of Arts degree and the Bachelor of Science degree combine liberal studies with advanced studies. To earn the BA or BS degree, a student must successfully complete at least one hundred and twenty-four credit hours in approved academic courses plus two credit hours in physical education and a one credit hour personal health course.

The undergraduate education in Emory College comprises three overlapping components:

• general education requirements that provide a common core of substance and methodology;
• more intensive and advanced study in a major field; and
• free-ranging exploration by means of elective courses.

GENERAL EDUCATION REQUIREMENTS

These courses provide for a common core of academic experience for Emory College students. Faculty and advisors work closely with students, especially in the first two years, in choosing the specific courses used to fulfill these requirements. The faculty's principal objective in establishing these requirements is to encourage students to familiarize themselves with the knowledge and the methodologies that characterize the arts and humanities, the social sciences, and the natural sciences and mathematics; to increase their ability to express ideas effectively in English and in another language; to extend their capacities for making informed judgments of value; to expand their knowledge and understanding of themselves, of their own and other cultures, and of the natural world; and
to develop their awareness of the ways in which the various academic disciplines may complement one another in solving the world’s problems.

For the most current list of courses satisfying the General Education Requirements, please see the GER website.

MAJOR REQUIREMENTS

Students must complete requirements for a major in a particular academic field. In order to complete a major, students must formally designate a program no earlier than the second semester of their freshman year and no later than the end of the sophomore year (see "Declaration of Plan [Major/Minor] form" available online). Students will normally be required to complete the major or minor requirements that are in place at the time they declare the program. When the requirements for a major or minor have changed, students may petition to complete the program under the old or new requirements, and departments have the discretion to approve or reject these requests.

The departments and the deans reserve the right to judge the advisability of an applicant's admission to any particular concentration. Each student's major program must be arranged under the direction and with the approval of a faculty advisor in the major with a view to obtaining reasonable mastery of a chosen field and with due provision for work outside that field. If they choose, students may be certified in two, but not more than two, areas of concentration. Minors are available in certain fields for students who wish to complete a minor in addition to a major. (A student may thus have two majors or one major and a minor.) Students must maintain at least a C (2.0) average in any major or minor they complete.

PROGRAMS OF STUDY

Students may earn one, and only one, of the following undergraduate degrees from Emory University. In completing the following degrees, Emory College officially recognizes no more than two concentrations—either two majors or a major and minor. Such recognition does not appear on Emory diplomas but is shown on students’ transcripts.

BACHELOR OF ARTS OR BACHELOR OF SCIENCE

Emory College offers a number of majors that can result in a BA or BS. Students must maintain at least a C (2.0) average in any major they complete.

MINORS

Minors are available in certain fields for students who wish to complete a minor in addition to a major. Students must maintain at least a C (2.0) average in any minor they complete.

BACHELOR OF BUSINESS ADMINISTRATION

Students applying to the BBA Program for spring/early admission must complete 56 credit hours by the end of the third regular semester in order to be eligible to matriculate. Students applying to the BBA Program for fall/regular admission must complete 60 credit hours by the end of spring of sophomore year. These credit hours include credits from AP, IB, and other internationally recognized tests but do not include PACE, Personal Health, or PE credits.

BACHELOR OF SCIENCE IN NURSING

The BSN degree is awarded after students complete 60 credit hours in Emory College and two years in the Nell Hodgson Woodruff School of Nursing. These sixty credit hours may include up to 12 AP, IB, or internationally recognized test credits toward prerequisite requirements as long as the credit hours and coursework are displayed on the Emory transcript.

Some courses required prior to entering the nursing program are not available at Emory College. Interested students should consult with the School of Nursing and the Office for Undergraduate Education about requirements.
A dual degree program between Emory College and the School of Nursing is also available as described below.

**STUDENTS CONTINUING TO EMORY COLLEGE OF ARTS AND SCIENCES FROM OXFORD COLLEGE**

Students who meet the requirements from Oxford College and receive an associate degree may continue to Emory College of Arts and Sciences to receive a bachelor’s degree.

Oxford College Continuees must earn a total of 127 credit hours (124 academic credit hours, a minimum of 2 PE credit hours, and a third academic or PE credit hour) to graduate from Emory College; of these credit hours, a minimum of fifty-four credit hours must be earned in Emory College with a minimum of three semesters of residence in Emory College (twelve credit hours or more per semester); a semester of fewer than twelve credit hours can be combined with another semester of fewer than twelve credit hours to make up one semester of residence; however, a partial semester may not be combined with a semester of more than twelve credit hours to form two semesters of residence.

**DUAL AND EXTENDED DEGREE PROGRAMS**

Students who enter dual or extended degree programs may earn the Bachelor of Arts or the Bachelor of Science degree from Emory College and a second bachelor, professional, or advanced degree from another division of the University or institution with a dual degree agreement with Emory College. These programs include:

**4+1 Programs**

Students may earn a bachelor’s degree in four years of study and a master’s degree with an additional year of study in the following subjects:

- BA/MA or BS/MA in Bioethics
- BA/MSPH Biostatistics
- BS/MS Cancer Biology and Translational Oncology
- BA/MS or BS/MS Computer Science
- BS/MS Environmental Sciences
- BS/MPH Environmental Sciences and Environmental Health
- BA/MA English
- BA/MA Film Studies [program is currently suspended]
- Juris Master (JM) Program

**Dual Degree in Engineering with the Georgia Institute of Technology**

The Dual Degree Program in Engineering is not an official major at Emory College. Rather it is an academic opportunity for undergraduate students, with an interest in engineering, to pursue bachelor’s degrees at both Emory College and the Georgia Institute of Technology (Georgia Tech).

The minimum amount of time to complete both degrees is 5 years; however, the program may take longer depending on the student's academic interests and studies. The program is sequential and students will receive a degree from each institution upon completion of the full program.

Planning for this program is very important as the academic requirements are intense and rigorous. Students should consult with the Dual Degree advisor to find out about the prerequisite courses needed for transfer (subject to change based on the year students apply to Georgia Tech) and the requirements needed to complete a degree with Emory College.

**Dual Degree in Computer Science with Agnes Scott College**
Students who initially enroll at Agnes Scott College in Decatur, GA may participate in a dual degree program with Emory in the field of Computer Science. Click here for the pre-application. Students will study a computer science curriculum in the Department of Computer Science plus one additional course outside the department to meet Emory’s general education requirements. Students will work towards a Bachelor of Arts or a Bachelor of Science degree.

ADVANCED PLACEMENT & EXEMPTION

Information for Incoming First Year College Students

Emory College recognizes that entering students differ in preparation and proficiency in various subjects. The College provides a variety of ways in which students may qualify for advanced courses or accelerate their progress toward both bachelor’s and master’s degrees.

Advanced Placement Policy

Undergraduate students admitted to Emory University as students in Emory College of Arts and Sciences (ECAS) or Oxford College may receive up to 12 credit hours towards hours required for graduation through acceptable Advanced Placement (AP) scores, International Baccalaureate (IB) scores, or other internationally recognized testing schemes (e.g. A-levels, French Baccalaureate), herein referred to as “recognized test scores.” Students with more than four acceptable test scores may receive a non-credit-bearing course waiver for each additional test.

1. Faculty in ECAS and Oxford College will jointly determine the scores for specific tests that will be accepted, and the equivalent courses at Emory that tests can replace. AP scores below 4 and IB Higher Level scores below 5 will not be accepted as fulfilling Emory requirements. For example, the ECAS Mathematics department and Oxford Mathematics faculty will jointly review the Calculus AP tests to determine whether Emory will accept scores of 4 and 5, or only scores of 5 for each test. The faculty will further evaluate whether the AP test credit can be used as a pre-requisite for courses that require MATH 111 or MATH_OX 111 as a pre-requisite.

2. Students will receive 3 credit hours for each accepted test scores, up to 12 total credit hours. Where two exams are offered in one field, for example English Literature and English Language, languages, or computer science, credit will be offered for one but not both exams. Students who take both the AP and IB tests for the same course are eligible to have only one test posted for the course.

3. Students may fulfill GER requirements with recognized test scores if the equivalent Emory courses fulfill GER requirements and the credits are posted on the Emory transcript. For recognized tests that offer only elective credit, students receive credit hours but may not use the test scores to fulfill GER requirements or as pre-requisites for more advanced courses. Waivers (acceptable scores beyond 12 credits) will not fulfill GER requirements.

4. Students may use recognized test credit to allow them to begin with more advanced courses. For example, a student with appropriate recognized test scores for Economics may begin with ECON 112 if the Economics faculty determine that recognized test courses cover the curriculum of ECON 101.

5. All recognized tests with appropriate scores for credit hours or waivers will be posted to the Emory transcript. This will allow a student to use these test scores as pre-requisites, and allow advisors to understand students’ preparation for more advanced courses. While waivers will fulfill pre-requisites and allow for placement in higher level courses, they will not fulfill GER requirements.

6. Test score information must be sent to Emory directly from the organization issuing test scores and must be received by the end of a student’s first semester at Emory. Scores received after the student’s first semester will not be reviewed nor accepted.

Transient study policies, for courses completed at another accredited college or university before or during matriculation at Emory, are set separately from these policies. For entering first-year students, a combined 18 credit hours (of which 12 may be awarded from recognized test credits) may be granted (see Transient Study).

Language Placement
Language placement is handled variously by the different language departments. No credit is awarded for courses a student exempts as a result of placement.

**College-Level Examination Program (CLEP)**

No credit is awarded for the College-Level Examination Program.

**Additional Information for Incoming Transfer Students**

The Office of Admission evaluates all credit hours earned from previous institutions, including recognized test scores, upon acceptance to Emory College of Arts and Sciences. Students may transfer a maximum of 62 credit hours.

- The first-year seminar is waived for all transfer students.
- The first-year writing requirement may be fulfilled by recognized test scores or previous college credits. This requirement will be waived for incoming transfer students with 30+ hours at matriculation.
- One continuing writing requirement will be waived for incoming transfer students with 60+ hours at matriculation.
- The Personal Health Requirement (Health 100) is waived for all transfer students.
- The PED (PE elective) will be waived for incoming transfer students with 60+ hours at matriculation.
- Transfer students must complete their final 64 academic hours at Emory.

**Additional Information for Incoming Oxford Continuee Students**

Students starting at Oxford College of Emory University must have all previous transfer credits, including test credits, and transient credits finalized before graduating from Oxford. Oxford Continuees may not add/drop/swap previous credits after the associate degree is awarded. A student’s academic record is sealed when the degree has been granted, and no changes to the record will be made.

**Recognized Tests, Previous College, and Transient Study Credit Drops and Swaps**

Undergraduate students must submit all recognized test scores or official transcripts from previous institutions by the end of their first semester of Emory (applies to new first-year and transfer students). If a final transcript for summer coursework is not available by the first day of classes, it must be submitted by October 1, immediately following the summer in which the coursework was completed. All credits completed before matriculation at Emory are reviewed and posted by the Office of Admission. Failure to submit all official transcripts may result in a hold on your registration.

Students will be allowed to swap or drop credits earned through test credits or from other institutions posted on the transcript until they have earned 64 credit hours. In order for students to be eligible to drop or swap credits, the credit bearing and/or the non-credit-bearing course waiver(s) must already be posted on the Emory transcript. Credits or non-credit bearing course waivers eligible for swap/drop can include: AP/IB or International test credits, previous college credit (courses taken before matriculation at Emory), or transient credits.

**CHANGING & REPEATING COURSES**

**Changing & Repeating Courses**

**Repetition of Courses**

When a course that was previously passed is repeated, the new course credit hours do not count towards a degree. A student who wishes to re-take a course previously passed and not receive additional degree credit will be permitted to do so only if deemed advisable by the faculty advisor and a dean in the Office for Undergraduate Education.
All courses repeated, whether passed or not, including the original course, will be calculated in the student’s grade-point average, and the original course grade will remain on the student’s transcript.

A student will be permitted to retake a course if they fail to successfully complete a course. A student may not attempt to pass a course any more than three times.

**Changing Courses**

A student may change courses until the end of the Add/Drop/Swap period, which occurs on the eighth calendar day after the first day of classes each semester. A change may be made in the grading basis of a course (letter grade or S/U) until 4pm on the Friday of the sixth full week of class after the Add/Drop/Swap period. (See Academic Calendar for specific dates.)

**UNDERGRADUATE CODE OF CONDUCT**

The Undergraduate Code of Conduct outlines the expectations of the University for undergraduate student and student organization behavior and details the process for resolution of alleged violations of non-academic misconduct. Through the Code, administered by the Office of Student Conduct in Emory Campus Life, the University promotes the values of personal responsibility, active citizenship, and consideration for others. All students are expected to know and abide by the Code, available online at [http://conduct.emory.edu](http://conduct.emory.edu).

Instances of academic misconduct are adjudicated under the provisions of the Emory College Honor Code, which is administered through the Office for Undergraduate Education.

APPROVED: CURRICULUM, ASSESSMENT, AND EDUCATIONAL POLICY COMMITTEE, FEBRUARY 19, 2020

**ACADEMIC STANDING POLICIES: CONTINUATION, PROBATION & EXCLUSION**

**Academic Standing Policies: Continuation, Probation & Exclusion**

Students are expected to make progress toward completion of their degree as outlined in “Continuation Requirements.” Emory College of Arts and Sciences wants to give all students the opportunity to demonstrate their scholastic ability. However, it is not in the best interest of either the students or the College to permit students to continue indefinitely in educational programs in which they are not producing satisfactory results.

**Continuation Requirements**

To graduate from the College, a student must accumulate 127 total credit hours. For students who start as first year students or transfer students in Emory College of Arts and Sciences, this includes a minimum of 124 academic credit hours plus the required 2 credit hours of physical education and 1 credit hour of personal health. For students who begin in Oxford College, this includes 124 academic credit hours, 2 credit hours of physical education credits, and one credit hour of either academic or physical education credit. Additional hours of physical education do not count toward the degree. A grade-point average of at least 2.0 for all work attempted for a letter grade is required of all students.

Minimum requirements for continuation from year to year are as follows:

- First Year: a minimum of 30 credit hours passed after two semesters on first-year standing and a 1.5 grade-point average on all work attempted;
- Second Year: a minimum of 60 credit hours passed after two semesters on sophomore standing and a 1.67 grade-point average on all work attempted;
- Third Year: a minimum of 90 credit hours passed after two semesters on junior standing and a 1.75 grade-point average on all work attempted.
- During the fourth year, a student must make satisfactory progress toward fulfilling requirements for a degree.
A year is normally interpreted as two full semesters or the equivalent. A full semester is one in which a student enrolls for 12 or more credit hours; two or more partial semesters in which a student enrolls for less than 12 credit hours, but which taken together total at least 12 credit hours, count as one full semester. Usually students will be promoted at the end of a year of work in a given class. Students needing an additional semester to attain minimum standards for continuation or graduation must be granted permission to enroll by Emory College of Arts and Sciences and must take all required work at Emory. In such cases, the additional semester will normally be the next consecutive one except for first-year students (see “Exclusion”).

**Academic Warning and Probation**

Students on academic warning or probation will be expected to focus their time and energy on their studies in order to bring their work to the required standard.

- A dean in the Office for Undergraduate Education or the Committee on Academic Standards may, at their discretion and irrespective of grades, declare probationary status for any student who, in their opinion, is not properly using their time and talents.
- Any student whose cumulative or term grade-point average is less than 2.0 will be placed on academic probation.
- Any student who attains less than 1.5 grade-point average in a term, fails to pass two-thirds of their courses in a term, or needs a third term to promote will be placed on academic probation and will be informed that they are at risk for academic exclusion (see “Academic Exclusion”). These students will also be required to work with an advisor in the Office for Undergraduate Education to create a plan of action (POA) for the probationary period. The POA may require that students complete an educational program that reviews academic policies and resources. A dean may also at their discretion require any student on academic warning or probation to work with an advisor on a POA.
- Any student who has three or more Incomplete (I) grades on their transcript will receive an academic warning.
- Students with a 3.3 grade-point average or higher who are more than three credits short of promoting after two terms in a class will receive an academic warning.

**Academic Advisory and Academic Watch**

Students in these categories are not on probation but are at academic risk. The Office for Undergraduate Education will notify and work with students who are at academic risk. The goal is to help students achieve academic success, and avoid academic probation or exclusion.

**Academic Exclusion**

**One-Semester Exclusion:**

- Any student after the first year who fails for two successive semesters of full-time work to pass two-thirds of the hours taken, or fails to attain at least a 1.5 grade-point average, will be automatically excluded for one regular semester regardless of any previous average. A student who is excluded under this rule will not be eligible to apply for readmission for the next regular (not summer) semester. For students excluded at the end of the spring term, the period of exclusion begins at the conclusion of the spring term and ends at the end of the next fall term. A petition for readmission for any subsequent term will be reviewed by a dean in the Office for Undergraduate Education. A student who is readmitted and fails to meet the requirements set by the committee will be permanently excluded.
- A dean in the Office for Undergraduate Education reserves the right to exclude students prior to or at the end of the first year if their progress is not satisfactory. First-year students who, after two semesters, do not meet the 1.5 grade-point average required for continuation to sophomore standing (see “Continuation Requirements”) may be excluded for one regular semester before being permitted to enroll for a third semester of academic work.

**Permanent Exclusion:**

- A student who fails to meet minimum requirements for continuation from one class to the next after two semesters may continue for one additional semester of residence only with the approval of the Committee on Academic Standards or the Office for Undergraduate Education (see “Continuation Requirements”). Should a student, at the end of the third semester, fail to meet minimum requirements for continuation, the student will be permanently excluded.
A student who, after a semester-exclusion, is readmitted and fails to meet the readmission requirements set by a dean in the Office for Undergraduate Education will be permanently excluded.

**COURSE LOAD REQUIREMENTS**

To complete a degree within 8 full time semesters, a normal course load is 15 to 16 credit hours per semester. Students must enroll in 12 to 19 credit hours in any one semester with the following exceptions.

Students with a cumulative grade-point average of 3.0 or higher are permitted to take up to twenty-two credit hours (excluding physical education and applied music). Permission for additional physical education or music credit hours (up to twenty-four credit hours total) must be granted by the Office for Undergraduate Education.

Students may not take fewer than 12 credit hours in any one semester. Exceptions for medical or other circumstances may be granted by the Office for Undergraduate Education in consultation with the Office for Accessibility Services. (See the partial withdrawal policy for underloads occurring after Add/Drop/Swap.)

Seniors in their final semester of study may underload (enroll in fewer than 12 credits) or overload (enroll in more than 19 credits). Both of these require permission from the Office for Undergraduate Education before the end of the Add/Drop/Swap period. Seniors may underload in their final semester of study because they are not required to enroll for more credits than are needed to complete the degree. Seniors in their final semester of study with less than a 3.0 cumulative grade-point average may take up to 22 credit hours excluding physical education and music (and no more than 24 credit hours total).

Students with outstanding incomplete course grades may not overload in credit hours in subsequent semesters.

All credit for academic work must be awarded in the semester in which the work is undertaken, including summer sessions, directed readings, and internships.

**CROSS-REGISTRATION**

With permission of the Office for Undergraduate Education and the faculty advisor, fulltime students in good standing may enroll in courses offered by any of the member institutions of the Atlanta Regional Consortium for Higher Education (ARCHE), if the courses are not offered at Emory.

Students receive credit only, not grades, for these courses as part of their academic record at Emory. For courses taken under the quarter system, the credit hours are converted to semester credit hours at Emory. Courses taken through the ARCHE program count towards the limit of 20 credit hours of satisfactory/unsatisfactory courses that may be used towards the degree requirements.

Information and applications are available at the Registrar’s website: [www.emory.edu/Registrar](http://www.emory.edu/Registrar).

Further information about cross-registration policies, procedures, and regulations may be obtained from the Office for Undergraduate Education, White Hall 300, 404.727.6069. Students from other colleges seeking to cross-register in an Emory course should contact the Registrar at 404.727.6042.

ARCHE Institutions Include:

- Agnes Scott College
- Brenau University
DEGREE AUDIT

The Emory Degree Tracker is an OPUS tool that allows undergraduate students, advisors, and administrators the ability to audit student progress towards the fulfillment of general education, major, and minor requirements. Students are encouraged to review their progress towards graduation regularly and carefully. Students may access the online Academic Advisement Report via OPUS.

To view a report, use the following path:

OPUS > Academic Progress Tile > Degree Audit/Degree Tracker

It is the responsibility of all students to ensure that they meet the requirements for graduation as noted in the Emory College Catalog. Departments and programs provide final approval of any major or minor requirements.

Reporting Questions

Questions about the Degree Tracker may be submitted to the Degree Tracker team managed by the Office of the University Registrar. Questions related to individual requirements or advisement may be forwarded to a school administrator or advisor for further assistance.

EXCEPTIONS TO ACADEMIC REGULATIONS

Students may appeal to the Committee on Academic Standards for exceptions to or waivers of existing academic regulations and requirements in individual cases. For issues involving courses taken through study abroad, students may appeal to the Education Abroad Committee.

FINAL EXAMS AND THE EXAM PERIOD
Emory College’s policies for final exams and the examination period have been established to ensure students can adequately plan and study for their examinations and other final assignments. All faculty are expected to adhere to the policies below. Final exams are defined as any exam (or significant final assignment) given after the penultimate week of class.

1. Faculty members who give in-person final exams must give their exams during the final exam time scheduled by the Registrar’s office. Faculty may not reschedule their exams. The deadline for any take home exams should correspond to the scheduled final exam time.
2. The deadline for final papers, projects, performances, and presentations may fall during the last week of class, at the scheduled exam time, or at the very end of the exam period. Faculty may not set deadlines for these projects at other points during the exam period or on reading days.
3. Reading days fall between the final day of class and the start of the exam period; they provide students time to prepare for final exams. Faculty may not assign deadlines for papers or other assignments during the reading days. Faculty may not reschedule final exams during the reading days.
4. Faculty may not give tests and exams during the last week of classes (i.e. the final five days when classes meet). Faculty should instead give those exams during the final exam period or during the penultimate week of class. Faculty may continue to give small quizzes, such as weekly vocabulary or chapter quizzes, during the final week of classes when those assessments are given periodically throughout the semester. Faculty may also give lab exams during the final week of class.
5. Faculty may use the entire 2.5 hour time slot scheduled for their final exam or some portion of that time according to their needs. If faculty plan to use less than 2.5 hours for the final examination, it is suggested that this is communicated with students in advance.
6. Exemptions to this policy must be approved at least one semester in advance by the Curriculum, Assessment, and Educational Policy Committee.

APPROVED: CURRICULUM, ASSESSMENT, AND EDUCATIONAL POLICY COMMITTEE, FEBRUARY 22, 2019

GRADING SYSTEM

GRADES

A, A-, B+, B, B-, C+, C, C-, D+, D, and S are passing grades for which credit is awarded; F and U indicate failure or unsatisfactory and carry no credit; I (Incomplete) indicates that the student has not completed all the work for a course; IF and IU indicate failure to finish an Incomplete; IP indicates work in progress; W indicates withdrawal without penalty; WF indicates withdrawal failing; and WU indicates unsatisfactory withdrawal.

QUALITY POINTS

For each semester hour of credit, quality points are computed as follows:

A = 4.0
A- = 3.7
B+ = 3.3
B = 3.0
B- = 2.7
C+ = 2.3
C = 2.0
C- = 1.7
D+ = 1.3
D = 1.0
F = 0.0

The grades of S, U, IU, and WU are given only for courses taken on a satisfactory/unsatisfactory basis (see Satisfactory/Unsatisfactory Option). S carries academic credit but no quality points; U or IU carries neither academic credit nor quality points. Neither W, WU, S, nor U grades count in computing a student’s grade-point average. The grades of IF and WF are counted as F in computing a student’s grade-point average.

The course instructor determines the scale and criteria for grading in individual courses. Students should not assume that all professors use identical grading scales or standards. Instructors should communicate their standards and systems as clearly as
possible in their course syllabi. Students should request clarification when necessary. The ultimate arbitrator of a grade is the relevant academic department or program.

When appropriate, faculty may correct a grade within one year of assigning it. After one year has passed, grade changes require the approval of the Senior Associate Dean for Undergraduate Education who may confer with the Committee on Academic Standards as needed.

APPROVED: CURRICULUM, ASSESSMENT, AND EDUCATIONAL POLICY COMMITTEE, FEBRUARY 19, 2020

GRADUATION REQUIREMENTS

Subject to the limitations and qualifications stated elsewhere in this catalog, requirements for Bachelor of Arts and Bachelor of Science degrees are as follows:

- The four semesters of residence immediately prior to graduation must be taken in Emory College.
  1. For students who begin at Emory College of Arts and Sciences or transfer students this means their last 64 hours.
  2. For Oxford Continuees this means 54 hours with a minimum of three semesters of residence.
- A minimum of 127 credit hours, of which 124 credits hours must be in academic courses, not physical education. No more than 16 credit hours of applied music or 17 one-credit hour dance courses may be counted toward the 124 academic hours.
  1. For transfer students this could be 125 or 126 credit hours depending on PE Waivers based on credits.
  2. For Oxford Continuees, the total is still 127 credit hours, including a minimum of 2 PE credits and a third academic or PE credit.
- A grade-point average of at least 2.0 for all work attempted for a letter grade.
- Fulfillment of the course requirements for a major, as determined by the major department or program, with a minimum 2.0 average.
- Fulfillment of the General Education Requirements.
- Satisfaction of all financial obligations to the College and Emory University.
- No degree may be conferred to a student while he or she is suspended from Emory College under the provisions of the College Honor Code or University’s Conduct Code.

Application for Degree

In order to be a degree candidate for any given term, students must file an application for the bachelor’s degree with the College’s Office for Undergraduate Education at the beginning of the semester they expect the degree to be conferred. The application deadlines are indicated in the academic calendar. Forms for this purpose are available online. Students who file an application after the deadline specified in the academic calendar must pay a special processing charge of twenty-five dollars and cannot be assured that their names will appear in the commencement program or that their diplomas will be available at commencement.

Commencement exercises are held annually in May for all students who completed all graduation requirements in the previous summer term, the previous fall term, or the current spring term.

Financial Requirements for Graduation

It is a requirement for graduation that all financial obligations to the University shall have been satisfied. In the case of outstanding loans not then due and payable, loan documents satisfactory to the University must have been executed and delivered to it, and all payments must be current.

EFFECTIVE SEMESTER: FALL 2020

APPROVED: BY VOTE OF THE EMORY COLLEGE FACULTY ON MAY 5, 2020

NOTE: FOR STUDENTS WHO MATRICULATED TO EMORY COLLEGE OR OXFORD COLLEGE PRIOR TO FALL 2020, A 1.9 CUMULATIVE GRADE-POINT AVERAGE IS REQUIRED TO GRADUATE. TRANSFER STUDENTS WHO MATRICULATED PRIOR TO FALL 2020 ARE STILL REQUIRED TO ACHIEVE A 2.0 CUMULATIVE GRADE-POINT AVERAGE TO GRADUATE.
HONOR CODE

OVERVIEW

For nearly a century, academic integrity has been maintained on the Emory campus through the student initiated and regulated Honor Code.

All students who apply to and are accepted by Emory College, as a condition of acceptance, agree to abide by the provisions of the Honor Code so long as they remain students at Emory College. By their continued attendance at Emory College, students reaffirm their pledge to adhere to the provisions of the Honor Code.

The Undergraduate Code of Conduct provides information about the behavioral expectations relating to non-academic conduct.

The Emory College Honor Council website provides additional information about the Honor System at Emory.

For questions about the Honor Code, or to report a possible violation, please contact:

Ms. Blaire Wilson, Associate Director of the Honor Council, at 404-727-8928, or blaire.wilson@emory.edu.

PREAMBLE

Emory College of Arts and Sciences is a community of students and scholars that is steadfast in its commitment to academic integrity. All members of this community are bound by a shared duty to uphold the highest level of academic honesty. While the College is committed to establishing and maintaining an Honor Code that protects us from all forms of academic misconduct, this community of integrity cannot thrive unless we embody, in all academic pursuits, the core principles of honesty and fairness. Emory’s mission—to create and apply knowledge in the service of humanity—can only be fulfilled when we, as its members, value the great responsibility we have been entrusted and conduct our lives to the dictates of the highest integrity.

ARTICLE 1: HONOR COUNCIL

There shall be a body to be known as the Honor Council, charged with the duties of presenting the honor system to all freshmen and new students and acting as a fact-finding body for the determination of Honor Code violations. The Honor Council shall recommend the consequences for dishonesty in academic work.

ARTICLE 2: MEMBERSHIP OF THE HONOR COUNCIL

Section 1. The Honor Council shall consist of no fewer than fifteen (15) and no more than twenty-five (25) student members and six (6) students eligible to serve on the Appeal Panel. Only students enrolled in the College whose primary program of study is offered by the College shall be eligible for membership. Students shall not become eligible for membership until the second semester of their sophomore year in the College. Membership shall be announced by May 1. Each member of the Honor Council and Appeal Panel shall normally be eligible to serve until graduation. In the case of a member or eligible student who does not register for any semester (exclusive of any summer enrollment period), the Dean of the College shall name a replacement until the next regular selection of members under Section 3 of this article.

Section 2. The executive head of the Honor Council shall be a Chairperson who shall be nominated by the Dean of the College and approved by a majority vote of the members of the Council. The Chairperson shall serve not more than twelve (12) months. The Dean of the College may create other officer positions to assist the Chairperson. The Dean shall nominate members to fulfill these roles, and their appointment shall be approved by a majority of the members of the Honor Council. The Chairperson and any other officers shall be privileged to vote on all questions.
Section 3. A selection committee drawn from student members and faculty advisors of the Honor Council shall be appointed by the Dean of the College and the Chairperson of the Honor Council. It shall also include at least one (1) representative of the College Council chosen in consultation with the President of the College Council. The selection committee will reduce the list of applicants to two (2) times the number of vacant seats. The Honor Council shall then make the final selection of members and of the pool of students eligible to serve on the Appeal Panel.

Section 4. A quorum of the Honor Council shall be four (4) of the student members. No member of the Honor Council may hear a case when he or she is a reporting party or witness or otherwise has a conflict of interest. If a quorum cannot be assembled for a hearing, the Dean of the College may appoint student members of the Appeal Panel as temporary members in order to reach a quorum. If a quorum is still not achieved, the Dean may appoint sufficient temporary members from the pool of students who would be eligible to serve on the Honor Council as defined in Section 1 of this article. The Dean shall train any temporary members before they may hear a case.

Section 5. The Dean shall annually appoint no fewer than ten (10) faculty advisors to the Honor Council. These advisors shall assist the Honor Council members in investigations and participate as voting members in hearings of the Honor Council.

Section 6. The Dean may convene a Summer Honor Council to adjudicate cases reported at the conclusion of the spring semester or during the summer session. The Summer Honor Council shall consist of no fewer than five (5) members. All current members of the Honor Council are eligible to serve. If there is not a sufficient number of members to adjudicate cases, the Dean may extend the term of members of the Honor Council who graduated in the preceding spring semester or appoint a sufficient number of temporary members, who shall serve on the Honor Council until the start of the fall semester.

Section 7. The Dean may temporarily or permanently remove from the Honor Council any member who compromises the integrity of the Honor Code process, fails to meet the duties of the position, is unable to participate objectively and without bias, or is reported for an Honor Code violation. Should the Honor Council member wish to contest this temporary or permanent removal, a written appeal of the decision may be submitted to the Appeal Panel within seven days of receiving the Dean’s decision. The Appeal Panel shall review the circumstances that led to the removal and make a final, non-appealable recommendation that the Dean’s decision be upheld, modified, or overturned.

ARTICLE 3: JURISDICTION

All students enrolled in any course or program at Emory College of Arts and Sciences are expected to abide by the Emory College Honor Code. The Emory College Honor Council shall have jurisdiction over cases of academic misconduct that occur in any course within Emory College, regardless of the degree program in which the student is enrolled. The Emory College Honor Council will report all decisions, including verdicts and recommended sanctions, to the dean of the school in which the reported student is enrolled. The dean of the respective school may accept or modify the recommended sanction before reporting it to the student. The student may appeal the decision, according to the procedures listed in Article 7 below.

An Emory College student who enrolls in a course or program in another school of Emory University must abide by the Honor Code of that school. Cases of alleged academic misconduct will be decided by the Honor Council of the school where the violation occurred. Upon the conclusion of any such case, the verdict and recommended sanction will be reported to the Dean of Emory College, who may accept or modify the recommended sanction. The student may appeal the decision, according to the procedures set forth in the Honor Code of the school where the violation occurred.

In cases when the Honor Council has appropriate jurisdiction that may overlap with another school, the Dean of the College has discretion to recommend that a case be remanded to the school in which the student is enrolled. Moreover, the Emory College Honor Council may hear cases that originate in other schools upon the request of the dean of the school in which the student is enrolled.

In cases when an Honor Code violation is reported after a student has graduated and the violation relates to a course that was required for the conferral of the degree, the Dean has discretion to refer the allegation to the Honor Council for adjudication. The Honor Council may recommend and the Dean may enforce any outcome enumerated in the Honor Code in Article 6, Section 1.i, including revocation of the degree.
ARTICLE 4: ACADEMIC MISCONDUCT

Section 1. Academic misconduct is generally defined as any action or inaction which is offensive to the integrity and honesty of the members of the academic community. In addition to the violations enumerated in this article, instructors within Emory College of Arts and Sciences have reasonable discretion to establish specific standards and policies as related to their courses and assignments. Such additional standards and policies should be clearly articulated in the syllabus, in an assignment, or otherwise conveyed as an expectation by the instructor. It is the responsibility of each student to understand the policies established in the Honor Code, syllabi, and assignments, and act accordingly.

The Honor Code shall include an appendix that provides information about common forms of academic misconduct. The Emory College Honor Council will update the appendix on a regular basis. As the purpose of the appendix is to provide information and instruction about academic integrity, it may be revised without amendment.

Section 2. Academic misconduct includes, but is not limited to, the following actions:

(a) Seeking, acquiring, receiving, or giving information about the content or conduct of an examination, knowing that the release of such information has not been authorized;

(b) Plagiarizing, whether intentionally or unintentionally, in any assignment;

(c) Seeking, using, giving, or obtaining unauthorized assistance or information in any academic assignment or examination;

(d) Intentionally giving false information to professors, instructors, or university officials for the purpose of gaining academic advantage;

(e) Seeking to gain or to provide an unfair advantage during course registration;

(f) Falsifying, altering, or fabricating academic records, forms, or correspondence, including, but not limited to, transcripts, withdrawal forms, degree applications, or letters of recommendation, whether the documents/information are submitted within Emory University or to a third party;

(g) Intentionally sabotaging the academic work of another student;

(h) Intentionally giving false testimony or evidence in any Honor Council hearing or refusing to give evidence when requested by the Honor Council;

(i) Harassing, threatening, coercing, or bribing witnesses involved in any Honor Code case;

(j) Violating the Electronic Device Policy as described in Section 3 of this article;

(k) Violating the Testing Policy as described in Section 4 of this article; and

(l) Breaching any duties prescribed by this code.

Section 3. Electronic Device Policy: The use of a cell phone, smartphone, tablet, laptop, or similar device for any reason during times of examination or evaluation, including quizzes, tests, midterm and final exams, or similar assignments, shall be prohibited. Instructors are entitled to make exceptions to allow the use of an electronic device for any exam. In the absence of explicit permission to use such a device, it is assumed that such devices are not permitted.

If a student is found using an electronic device during an exam or similar assignment, the instructor should inform the student of the issue and may ask the student to store the device until the completion of the exam. The instructor should allow the student to complete the exam before reporting the incident to the Honor Council.

Section 4. Testing Policy: Instructors are entitled to establish reasonable policies to protect the security and integrity of their examinations, including quizzes, tests, midterm and final exams, and similar assignments. These policies may include, but are not
limited, to: prohibitions against large bags, coats, hats, notebooks, electronic devices, or course materials; requirements to place materials unrelated to the examination outside or at the front of the classroom; assigning seats to students; moving students during an examination; requiring a student to stop writing when time is called; and prohibiting the replication of exam materials or their removal from the testing environment. Any additional policies should be outlined in the syllabus and/or written instructions for the exam.

If a student fails to comply with the stated policies of the exam prior to the start of the exam, the instructor may withhold the exam until the student complies with the testing policies (the instructor shall not be compelled to provide additional time for the completion of the exam). If a student fails to comply with or violates the stated policies of the exam after the exam has begun, the instructor may take reasonable steps to secure the integrity of the exam, but should allow the student to complete the exam before reporting the incident to the Honor Council.

**ARTICLE 5: REPORTING CASES**

It is the responsibility of every member of the faculty, staff, and student body to cooperate in supporting the honor system. In accordance with this responsibility, when an individual suspects that an offense of academic misconduct has occurred, the individual shall report the suspected breach to the course instructor, a member of the Honor Council, a faculty advisor to the Honor Council, the Honor Council administration, or the Dean of the College. The Dean may dismiss the allegation without referring it for a further investigation, if upon preliminary review, the conduct does not appear to constitute academic misconduct, if there is insufficient evidence to pursue an investigation, or if the Dean deems the suspected offense trivial in nature.

**ARTICLE 6: PROCEDURE**

Section 1. (a) On receipt of a report of a suspected violation, the Dean shall inform the reported student in writing of the course and work involved in the allegation and shall refer the student to the Emory College Honor Code website. If the report is referred by the Dean for an investigation, the Chairperson of the Honor Council shall designate one (1) member of the Honor Council and one (1) faculty advisor to investigate the charge. The investigators shall meet with the reporting party and separately with the reported student, may interview other potential witnesses, and shall review any documentary and physical evidence deemed relevant by the Council. The reported student may suggest the names of witnesses who can provide information and additional documentary or physical evidence not previously brought to the attention of the investigators. If the investigators determine that there is no reasonable suspicion that an Honor Code violation occurred, they shall recommend to the Dean that the case be dismissed. If, instead, the investigators determine there is a reasonable suspicion of an Honor Code violation, they shall refer the case to a hearing.

(b) If the investigators recommend the case be dismissed, they shall promptly prepare and submit a report of the investigation to the Dean. If the Dean accepts the recommendation, the Dean shall notify the student in writing of the decision as quickly as possible and normally within seven days. If the Dean does not accept the recommendation, the student shall be referred to a hearing according to the procedures outlined below.

(c) If a decision is made to refer the case for a full hearing, the Honor Council student investigator shall schedule the full hearing as promptly as possible and shall notify the reported student of the date and time.

(d) Full hearings shall be fair and impartial. Formal rules of evidence do not apply to Honor Council proceedings. On a case-by-case basis, the Honor Council has broad discretion in considering and weighing information it deems relevant, in the form of documents, witness testimony/accounts, and other forms of information, in its proceedings. Witnesses will testify without oath, but with the understanding of university policies applicable to their participation, and written statements may be submitted from unavailable witnesses. With the exception of testifying witnesses, only the members of the Honor Council, the faculty advisors to the Honor Council, the reported student, and the student’s advisor, may be present during the hearing. The student members of the Honor Council and the faculty advisors to the Honor Council may attend the hearing either as deliberating members or as silent observers for the purposes of training. The reported student shall have the right to testify and to make a closing statement. The reported student may be accompanied by a student or faculty member of the College as an advisor for purposes of consultation, but neither the reported student nor the advisor shall have the right to directly question witnesses. Rather, the reported student may request
that the members of the Honor Council ask specific questions of the reporting party and any witness, and the Honor Council has discretion to determine whether the question is relevant and should be asked, to reframe the question as deemed appropriate, or to decline to ask the question based on irrelevance. The Chairperson may suspend the hearing at any point in order to provide additional time to collect evidence, to resolve questions related to the case, to clarify answers to procedural questions, or to provide sufficient additional time for the testimony and deliberation. If the hearing is suspended, the Chairperson shall reconvene the meeting at the earliest possible date, but within seven days, absent extenuating circumstances.

(e) For cases in which multiple students are suspected of the same violation or a related violation, the Dean shall decide whether a single collective hearing for all reported students or an individual hearing for each reported student is appropriate. In either case, any of the reported students may be accompanied by a student or faculty member of the College as an advisor, so long as that advisor is not involved as a reported student or witness in the case or otherwise has a conflict of interest. Should the Honor Council hold a single hearing for all students involved, each student shall have the right to hear the testimony of any witness other than those students reported as part of the same case. Should the Honor Council hold individual hearings for each student involved, the Honor Council may require the reported students to appear as witnesses at the individual hearings.

(f) For cases in which one student is suspected of multiple violations in a single class, the Honor Council may hold a single hearing to consider all charges. For cases in which one student is suspected of violations in multiple classes, the Honor Council shall normally hold separate hearings to consider charges in each class; however, the reported student may make a request to the Dean that all charges be resolved at a single hearing. The Dean has the discretion to grant or deny the request.

(g) Should there be a suspicion that a reported student has deliberately misrepresented information while testifying or has provided false evidence, the Honor Council may consider additional charges at the hearing provided that the reported student has an opportunity to respond to those charges. In addition, the Honor Council may appropriately refer matters to the student conduct office that has jurisdiction over the student’s actions.

(h) At the conclusion of the evidence, the investigator shall make a brief report about the findings of the investigation and may discuss the strength or weakness of any evidence involved. The Honor Council and faculty advisors may ask additional questions of any party before retiring to deliberate in private. Only evidence presented at the hearing will be considered in reaching a decision. For a finding of an Honor Code violation, the Honor Council must determine by a unanimous vote of four (4) Honor Council members and one (1) faculty advisor that there is clear and convincing evidence of a violation. “Clear and convincing” evidence means that a particular fact(s) is substantially more likely to be true than not to be true. If the reported student is found responsible, the Honor Council shall recommend any consequence(s) by majority vote.

(i) The following consequences may be imposed after a finding of academic misconduct:

1. An educational program;

2. A verbal reprimand without an entry on the student’s Personal Performance Record;

3. A written reprimand with an entry on the student’s Personal Performance Record;

4. A zero on the assignment or other penalty to the student’s grade on the assignment or the course;

5. A failing grade in the course, which will appear on the student’s permanent transcript;

6. Suspension (specifying the period of suspension);

7. Permanent exclusion from Emory University;

8. Revocation of an Emory College degree that has been previously awarded;

9. Such combination of sanctions or other sanction as may appear appropriate.

(j) After the hearing, the Honor Council shall promptly prepare a summary report of information that was considered in reaching its findings, which shall be transmitted to the Dean of the College with the accompanying recommendation and all documentary and
physical evidence before the Honor Council. The Dean may impose the recommended consequences or consequences of greater or lesser severity. Absent extenuating circumstances, the Dean shall notify the student in writing of the Dean’s decision and the consequences imposed within ten days.

Section 2. (a) A reported student may, in an appropriate case, request an expedited hearing in writing to the Dean. Use of the expedited hearing procedure is appropriate in cases where there is evidence that the reported student has committed some violation of the Honor Code, the student admits to violating the Honor Code, and formally requests an expedited hearing before a special three-person panel rather than a full hearing before the Honor Council. Prior to the expedited hearing, the reported student must waive the right to appeal the decision and must acknowledge that use of the expedited hearing procedure does not in any way imply a recommendation for a lesser penalty.

(b) In each expedited hearing the special three-person hearing panel shall normally consist of:

(1) The Dean of the College;

(2) The Chairperson (or another voting student member of the Honor Council); and

(3) A faculty advisor of the Honor Council.

(c) The panel will hear an admission of violating the Honor Code directly from the reported student, receive all evidence previously gathered by the investigating team, and may receive any additional statements from the reported student and ask questions as the panel deems useful. After the reported student and the student’s advisor leave the hearing room, the members of the panel shall review the evidence and the reported student’s admission of violating the Honor Code to decide if an independent finding of the alleged Honor Code violation is warranted. If the panel unanimously determines that the admission of violating the Honor Code is acceptable in light of all the evidence, then the panel members upon reviewing all relevant factors shall determine by majority vote an appropriate consequence. Absent extenuating circumstances, the Dean shall notify the student in writing of the outcome of the hearing within seven days.

Section 3. (a) For cases reported in the same term that a student is scheduled to graduate or cases in which the student will not be enrolled in classes on Emory’s campus during the next regular term, the Dean has discretion to offer the student an administrative hearing, which will be held before a special three-person panel. The student in question holds the right to accept the administrative hearing or have his or her case heard in the next regular term according to the procedures outlined in Article 6, Section 1. Unlike an expedited hearing, the use of an administrative hearing does not require the student to admit to a violation, and the reported student retains the right to appeal the verdict and sanction. In pursuing an administrative hearing, the student waives the right to a full investigation of the case and will appear before a small panel, which will render a decision about the case.

(b) Should the reported student accept the opportunity for an administrative hearing, the Dean shall collect any evidence and a written statement from the reporting party and present these to the reported student at least twenty-four (24) hours prior to the hearing.

(c) The administrative hearing panel shall consist of:

(1) The Dean of the College;

(2) The Chairperson (or another voting student member of the Honor Council); and

(3) A faculty advisor of the Honor Council.

(d) Administrative hearings shall be fair and impartial. Formal rules of evidence do not apply to Honor Council proceedings. On a case-by-case basis, the Honor Council has broad discretion in considering and weighing information it deems relevant, in the form of documents, witness testimony/accounts, and other forms of information, in its proceedings. Witnesses will testify without oath, but with the understanding of university policies applicable to their participation, and written statements may be submitted from unavailable witnesses. With the exception of testifying witnesses, only the members of the administrative hearing panel, the reported student, and the student’s advisor, may be present during the hearing. The reported student shall have the right to testify and to make a closing statement. The reported student may be accompanied by a student or faculty member of the College as an
advisor for purposes of consultation, but neither the reported student nor the advisor shall have the right to directly question witnesses. Rather, the reported student may request that the members of the administrative hearing panel ask specific questions of the reporting party and any witness, and the administrative hearing panel has discretion to determine whether the question is relevant and should be asked, to reframe the question as deemed appropriate, or to decline to ask the question based on irrelevance. The Dean may suspend the hearing at any point in order to provide additional time to collect evidence, to resolve questions related to the case, to clarify answers to procedural questions, or to provide sufficient additional time for the testimony and deliberation. If the hearing is suspended, the Dean shall reconvene the meeting at the earliest possible date, but within seven days, absent extenuating circumstances.

(e) For a finding of an Honor Code violation, the panel must determine by a unanimous vote that there is clear and convincing evidence of a violation. “Clear and convincing” evidence means that a particular fact(s) is substantially more likely to be true than not to be true. An appropriate consequence will be sanctioned by majority vote. Absent extenuating circumstances, the Dean shall notify the student in writing of the Dean’s decision and the consequences imposed within seven days. The student will have the right to appeal the decision according to the procedures set forth in Article 7.

Section 4. (a) If a reported student fails to respond to messages of the Honor Council in a timely manner or is absent from any investigative meetings or hearings without good cause, the Honor Council may investigate and/or hear the case in the student’s absence.

(b) A student may not withdraw from a course in which an Honor Council investigation is pending. Should a student withdraw from a course, and it is later determined that the student’s work was in violation of the Honor Code, the Dean may impose a grade of F or WF upon the recommendation of the Honor Council.

(c) The procedures for investigations and hearings may be modified at the discretion of the Dean in response to any exigencies. These changes shall normally be limited to modifications of the size or composition of investigation teams and hearing panels. The reported student shall have the right to accept any modifications or to reject the modifications and resolve the case according to the procedures outlined in Article 6.

ARTICLE 7: APPEAL

(a) A decision by the Honor Council and/or the sanction(s) imposed may be appealed to the Dean of the College. Such appeal must be submitted to the Dean within seven (7) days after the student has been given written notification of the Honor Council decision and sanction from the Dean. As part of the appeal, the student must present to the Dean a written statement of the basis for the appeal. If the Dean has not received such a written statement within the specified time, the decision of the Honor Council will stand.

(b) Upon receipt of an appeal, the Dean shall appoint an Appeal Panel of four (4) persons to advise the Dean concerning the outcome of the case. The Appeal Panel shall consist of two (2) Emory College faculty members and two (2) students, who have had no prior involvement in the case.

(c) The panel shall review the records in the case and make a recommendation to the Dean. The Appeal Panel may consult with members of the Honor Council. The Dean may then deny the appeal and affirm the finding(s) and sanction(s), modify the sanction(s), or request that the case be remanded to the Honor Council for a rehearing that will adhere to the process and rules outlined in Article 7 section d.

(d) If the panel determines that the case should be remanded to the Honor Council for a rehearing, the Chairperson of the Honor Council shall schedule a hearing that includes only Honor Council members who have had no prior involvement in the case. A total of four (4) members and one (1) faculty advisor shall be appointed for the rehearing. If four Honor Council members are not available, then students on the Appeal Panel who have had no prior involvement in the case may complete the quorum of four student members. The Dean shall also ask one member of the Appeal Panel to attend the hearing as a non-voting member. The Appeal Panel member will ensure that the concerns of the Appeal Panel are addressed at the hearing and may participate in the deliberation but may not vote on the question of whether the Honor Code was violated. In general, any and all evidence available at the first hearing shall be available to the Honor Council at the rehearing, including reporting parties and witnesses, unless the basis for the rehearing was related to reliance on problematic information or evidence. Should reporting parties or witnesses be deemed unavailable by the
Dean, a written statement should be provided if possible. The rehearing shall conform to the procedures outlined in Article 6, Section 1 d-j, from this point forward.

(e) When the proceedings of the Appeal Panel are concluded, the Appeal Panel shall confer with the Dean who shall render a final decision on the appeal and inform the student of the decision in writing.

ARTICLE 8: HONOR PLEDGE

Each student in the College assumes the Honor Pledge, and has a duty to know the Honor Code and its provisions. If a professor has special or additional requirements beyond the standards articulated in the Honor Code, the professor must explain the additional course requirements at the beginning of the semester or before any assignment to which these requirements apply.

ARTICLE 9: MISCELLANEOUS

(a) All proceedings under the Honor Code are confidential and those participating in the proceedings have a duty to keep information related to it confidential. Breaches of the requirement for confidentiality are addressed through this Code, any applicable conduct codes, or employee action for breaches of university policy. Nothing in this paragraph shall restrict communication to officials of the University where knowledge is necessary in the performance of the officials' duties, nor shall it restrict disclosure required by law.

(b) Wherever "Dean" or "Dean of the College" appears in this Code, each shall include any person designated by the Dean of Emory College to act for the Dean.

(c) Wherever "Chair, Chairperson, or Chairperson of the Honor Council" appears in this Code, each shall include any member of the Honor Council designated by the Chairperson of the Honor Council to act in the Chair's stead.

(d) Amendment of this Code shall be by two thirds (2/3) vote of the student members of the Honor Council, with the consent of the Dean, subject to ratification by a majority of those Emory College students voting in an election for that purpose.

(e) There shall be an Emory College Committee for Academic Integrity formed for the purpose of striving to prevent academic dishonesty and misconduct through educational programs and endorsing the positive promotion of academic integrity on campus. It will seek to cultivate students with an enhanced understanding of, and appreciation for, academic and individual honesty.

APPENDIX 1: THE USE OF SOURCES IN WRITING PAPERS IN EMORY COLLEGE

A writer's facts, ideas, and phraseology should be regarded as his or her property. Any person who uses a writer's ideas or phraseology without giving due credit is responsible for plagiarism.

Information may be put into a paper without a footnote or some kind of documentation only if it meets all of the following conditions:

It may be found in several books on the subject. It is written entirely in the words of the student. It is not paraphrased from any particular source. It therefore belongs to common knowledge.

Generally, if a student writes while looking at a source or while looking at notes taken from a source, a footnote should be given.

Whenever any idea is taken from a specific work, even when the student writes the idea entirely in his or her own words, there must be a footnote giving credit to the author responsible for the idea. Of course methods of documentation vary, and it is possible to cite
in the text itself rather than a footnote. The point is that the student should give credit when credit is due and that he or she should give the credit in a manner specified by the instructor of the course or the department.

The student is entirely responsible for knowing and following the principles of paraphrasing. "In paraphrasing you are expressing the ideas of another writer in your own words. A good paraphrase preserves the sense of the original, but not the form. It does not retain the sentence patterns and merely substitute synonyms for the original words, nor does it retain the original words and merely alter the sentence patterns. It is a genuine restatement. Invariably it should be briefer than the source."*

Any direct quotation should be footnoted (or documented in any acceptable fashion). Even when a student uses only one unusual or key word from a passage, that word should be quoted. If a brief phrase that is common is used as it occurs in a source, the words should be in quotation marks. The source of every quotation should be given in a footnote or in the prescribed manner.

It is of course the prerogative of the instructor to prescribe that no secondary sources may be used for particular papers.

A student who uses a secondary source must remember that the very act of looking up a book or an article should be considered as a pledge that the student will use the material according to the principles stated above.

APPENDIX 2: Common Forms of Academic Misconduct

Article 4 of the Honor Code gives some of the general types of violations. This webpage clarifies the Honor Code by providing typical examples of academic dishonesty. This list is not intended to be exhaustive. If you are in doubt about any action, contact your professor for clarification.

Exams

Any attempt to gain or give an unfair advantage during an exam is considered a violation of the Honor Code. Such violations include:

- Attempting to look at or copy another student’s exam
- Attempting to provide answers to another student
- Programming a calculator with answers or other information
- Accessing information on a smart device
- Using notes or other unauthorized information during an exam
- Looking at an older version of the exam without the professor’s permission
- Using a test bank or fraternity tub file without the professor’s permission
- Taking an exam for someone else or having someone take an exam for you
- Submitting someone else’s name on an exam

Because study partners often have similar answers on an exam, the Honor Council recommends that students not sit near their study partners during a quiz or test.

The use of an electronic device for any reason during an exam or testing situation is strictly prohibited and violates the Honor Code.

Written Assignments

Plagiarism is the use of someone else’s words, ideas, or work without providing proper credit. Whether the act is intentional or not, the Honor Council considers any form of plagiarism to be a violation of the Honor Code. Some examples of plagiarism and other academic misconduct in written work include:

- Using someone else’s words without quotation marks and proper attribution
- Using information or ideas without acknowledging the source
• Paraphrasing a text without acknowledging the source
• Improperly paraphrasing a passage by using language or structure that is too similar to the original source
• Purchasing a paper or using an online paper assistance website
• Having any one than yourself write any part of your paper
• Using false page numbers or creating false citations

**Group Work and Collaboration**

Collaboration on a paper, test, lab, homework, or any other assignment is only allowed with the express permission of the professor. Do not assume that because you are allowed to collaborate on one type of assignment or in one class that you are allowed to do the same with other assignments or other classes. When in doubt, always ask your professor. Violations involving multiple students and group work include:

• Copying any part of an assignment, including answers, graphs, figures, and data
• Sharing your paper or assignment with another student without the professor’s permission
• Including someone’s name on a project for credit when s/he didn’t contribute to the work

The Honor Council advises students to refrain from sending or providing copies of their work to other students to prevent this work from being stolen or copied.

**Other Issues**

There are a number of others actions that constitute academic misconduct. These include, but are not limited to:

• Submitting the same or similar work for more than one class without the approval of both professors (double submission)
• Providing false information to a professor (e.g. falsely claiming sickness or a family death)
• Creating false data for an assignment
• Signing someone else into class
• Using a clicker other than your own during class
• Forging a signature on an academic document
• Falsifying a transcript or other university document
• Seeking to gain or provide an unfair advantage during registration
• Resubmitting altered work for a higher grade
• Intentionally sabotaging the academic work of another student
• Intentionally disrupting the conduct of an exam to gain or provide an academic advantage
• Intentionally preventing other students from accessing resources for an assignment
• Offering a professor a bribe for a higher grade
• Lying or creating false evidence at any point during an Honor Code investigation
• Violating confidentiality in an Honor Code case
• Refusing to submit evidence in an Honor Code case

---

**APPENDIX 3: Academic Misconduct in the Remote Learning Environment**

As members of Emory University’s academic community, you are expected to adhere to the standards set forth in the Honor Code regardless of whether you are completing course work in person or remotely. Accordingly, be aware that the Honor Code can be implicated in certain instances when you interact and collaborate with others, or when you consult, discuss, use, or share your own work or the work of others, especially in the remote learning environment. In addition, there are other forms of misconduct that may be specific to remote or online formats. The list below is not intended to be exhaustive. **If you are in doubt about whether actions you are contemplating taking are problematic, you should contact your professor directly for clarification.**

**Exams Administered in Synchronous & Asynchronous Sessions**
Any attempt to provide or gain an unfair advantage may be considered a violation of the Honor Code. Such violations include:

- Asking another individual to complete an exam on your behalf
- Attempting to access another student's exam
- Attempting to provide answers to another student through any form of communication. This may include: email, text message, phone call, instant messaging applications or programs, file sharing, screen sharing, or screen mirroring of any kind
- Disseminating information about the contents of an exam to one or more students
- Attempting to screen capture, copy, or retain exam questions for yourself or others without the permission of the instructor
- Sharing your login credentials with others for the purpose of providing or seeking unauthorized assistance
- Accessing course content or materials related to the course during an exam (except when permission has been given for an open-book or open-resource exam)
- Plagiarizing content in an open-book or open-resource exam
- Accessing the internet beyond the exam administration platform (i.e. Canvas, Examity)
- Failing to share your screen with the instructor when requested
- Failing to cooperate with the exam proctor. This may include: failing to keep your webcam on as instructed, leaving the view of your webcam, or failing to use the webcam to demonstrate that your exam space is clear
- Failing to follow any instructions related to the Honor Code or academic integrity

Electronic Device Policy: The remote teaching environment often requires the use of a computer to complete your work. Be advised that the use of other electronic devices for any reason during an exam or testing situation without explicit permission from your professor is strictly prohibited and violates the Honor Code. This includes but is not limited to calculators, mobile phones, tablets, smartwatches, or any other device.

Written Assignments Submitted in the Remote Teaching Environment

Plagiarism is the use of someone else's words, ideas, or work without providing proper credit. Whether the act is intentional or not, the Honor Council considers any form of plagiarism to be a violation of the Honor Code. Some examples of plagiarism and other academic misconduct in written work submitted to courses through remote instruction include:

- Collaborating with others when the work is expected to be individual (this could be as broad as sharing ideas)
- Seeking editing assistance from unauthorized individuals such as paid tutors or editors
- Seeking assistance of any kind from a native speaker in language courses
- Soliciting others to complete your academic work (whether for pay or not)
- Completing academic work for other students (whether for pay or not)

Dissemination of Content Related to the Course

Lectures and other classroom presentations presented through video conferencing and other materials posted on Canvas are for the sole purpose of educating the students enrolled in the course. The release of such information (including but not limited to directly sharing, screen capturing, or recording content) is strictly prohibited unless the instructor clearly states otherwise. Doing so without the permission of the instructor will be considered an Honor Code violation, and may also be a violation of state or federal law, such as the Copyright Act. All other University policies remain in effect for students participating in remote education.

---

EFFECTIVE JANUARY 10, 2017. THIS VERSION OF THE HONOR CODE SUPERSEDES ALL PREVIOUS VERSIONS.
A student may be granted formal permission by the Office for Undergraduate Education, in consultation with the course instructor, to defer the final examination or other parts of a course. The student must have completed at least 50 percent of the course work, be able to pass the course upon completion of the remaining work, and be able to complete the remaining work independently (apart from the administration of any missed quizzes or exams).

Approval of incompletes is based on information provided by the instructor as well as documentation provided to the Office for Undergraduate Education by the student of the specific health or personal circumstances. When permission is granted, the notation “I” is recorded for the course in OPUS by the instructor.

All incomplete work must be completed during the student’s next semester of residence no later than the deadline as printed in the Registrar’s academic calendar, or within twelve months if the student does not re-enroll in the College during that year. In some circumstances related to documented health or hardship issues, an instructor may agree to an extension of the deadline. This extension will be reported to the Office for Undergraduate Education, and the reasons for the extension will be documented.

Students are strongly encouraged to resolve all incompletes before studying abroad, and a significant amount of incomplete work may prevent a student from studying abroad. All incomplete work must be resolved and a grade posted prior to certification of an Emory degree.

Failure to complete the course by the appropriate deadline will result in a grade of IF or IU unless the student provides to the Office for Undergraduate Education documentation of extenuating circumstances that will allow the “I” to be changed to a “W” (withdrawal). This change is granted only in cases of significant hardship or health issues or when an instructor is no longer available to receive the outstanding work.

Students may also receive an “I” for any class in which an Honor Code suspicion has been reported. The incomplete is not subject to the regular incomplete deadline, and a final grade will be posted for the course once the Honor Code matter has been resolved.

### ABSENCES

Students are expected to attend classes regularly. Although the College does not impose any automatic administrative penalties for a reasonable number of absences from class or laboratory, instructors may impose such penalties for their individual courses or set other specific policies about attendance and punctuality. Students should understand that they are responsible for the academic consequences of absence.

### ABSENCES FROM EXAMINATIONS

A student who fails to take any required midterm or final examination at the scheduled time may not make up the examination without written permission from a dean in the Office for Undergraduate Education. Permission will be granted only for illness or other compelling reasons, such as participation in scheduled events off-campus as an official representative of the University. Deferred examinations must be taken during the student’s next semester of residence by the last date for deferred examinations in the academic calendar or within twelve months if the student does not re-enroll in the college. Failure to take a deferred examination by the appropriate deadline will result automatically in the grade IF or IU. A student who takes any part of a final examination will not be allowed to defer or retake that final.

**APPROVED: CURRICULUM, ASSESSMENT, AND EDUCATIONAL POLICY COMMITTEE, FEBRUARY 19, 2019**

### INDEPENDENT STUDY

In most degree programs, students are given an opportunity to do independent research in close cooperation with members of the College faculty. These opportunities range across all divisions of the College, from independent laboratory research in the natural sciences to individual directed research in the social sciences and humanities. All credit must be awarded in the semester in which the work is undertaken. For further information, see listings under the various departments and programs.

**APPROVED: CURRICULUM, ASSESSMENT, AND EDUCATIONAL POLICY COMMITTEE, FEBRUARY 19, 2020**
PE WAIVER FOR ROTC PARTICIPANTS, MILITARY SERVICE MEMBERS, AND VETERANS

Students who participate in the Reserve Officer Training Corps program or who are military service members or veterans (either of the United States or other nations) honorably discharged (or its equivalent) may receive a waiver from the Physical Education General Education Requirement for Emory College. The purpose of the waiver is to assist military and veteran students in completing their degrees without requiring them to duplicate their efforts, given the significant focus the military places on physical preparation.

This waiver applies both to the PED requirement and to the PPF requirement, which are each a single non-academic credit. Students with these waivers will be required to complete 125 total credit hours (124 academic credits plus 1 non-academic credit for Health 101) required for graduation.

ROTC students may request a waiver from the PE requirements after completing their first year in the ROTC program. Military service members and veterans may request a waiver from the PE requirements once they enroll in Emory College. ROTC students, service members or veterans should request this waiver from their OUE advisor, who will collect any necessary documentation. OUE will then enter an exception in the Degree Tracker and create a note in the student’s record that the PE waiver was granted.

APPROVED: CURRICULUM, ASSESSMENT, AND EDUCATIONAL POLICY COMMITTEE, OCTOBER 1, 2020

READMISSION

After withdrawal or absence for one or more semesters, except summer, any student who was in good academic standing at the end of his or her last prior semester of enrollment is eligible for readmission within five years from the initial term of withdrawal or absence.

Special conditions apply for students who were on academic probation when they left or who withdrew for health reasons (see Cancellation and Withdrawal).

To initiate readmission a student must submit a readmission form, which may be obtained online here: http://college.emory.edu/oue/resources-a-z.html. Students will be permitted to pre-register for the semester for which they are readmitted, provided the request for readmission is received by the deadlines established by the Office for Undergraduate Education. Students who would like a preregistration enrollment appointment must submit the readmission form one month prior to the preregistration enrollment period.

Readmission does not carry with it the awarding of transfer credit for work done at another college or university while a student is away from Emory. To receive credit for such work, the student must reapply to Emory as a transfer student.

For readmission after withdrawal for medical reasons, the Office for Undergraduate Education may consult with any relevant university offices including but not limited to Student Health Services, Counseling and Psychological Services, and Student Intervention Services. Typically, students who withdraw for medical reasons and are in good academic standing are eligible for readmission after an additional semester on leave from Emory. A physician statement is required for all students returning after a medical leave of absence. The form must be provided by the health care provider(s).

For readmission after a five-year period of absence, students must petition the Committee on Academic Standards (CAS) for approval of the readmission request. The requirement to petition for readmission also applies to students who complete an Oxford Associate of Arts degree but who do not enroll within five years at Emory College. Students readmitted after a five-year period of absence will be subject to the current degree requirements of Emory College of Arts and Sciences as well as the current requirements of any major or minor program that the student declares. Furthermore, the Committee on Academic Standards in consultation with the Office for Undergraduate Education and any relevant departments may determine that individual courses taken prior to the absence may not be used to satisfy degree and/or major or minor requirements.

APPROVED: CURRICULUM, ASSESSMENT, AND EDUCATIONAL POLICY COMMITTEE, FEBRUARY 19, 2020

RESIDENCE REQUIREMENTS
Students who start in Emory College, as well as students who transfer to the College from outside the University, must complete their last sixty-four credit hours in residence at Emory College. Oxford Continuees must complete their last fifty-four credit hours in Emory College. This policy does not apply to special nonresident departmental programs, dual degree programs, and those programs approved by the faculty and administered by the Office of International and Summer Programs.

APPROVED: CURRICULUM, ASSESSMENT, AND EDUCATIONAL POLICY COMMITTEE, FEBRUARY 19, 2020

**RETROACTIVE ACADEMIC RELIEF POLICY**

Students who have compelling reasons, namely medical need, family emergency, death in the immediate family, or other significant circumstances resulting in unforeseen hardship for the student (see Withdrawal Policy) and who provide appropriate support documentation that would have led to approval of a total withdrawal without academic penalty in the course of the semester, but who did not come forward to obtain a total withdrawal during the semester, may petition the Committee on Academic Standards for retroactive academic relief. Normally, students may apply for and receive retroactive academic relief for one semester only during their career in Emory College of Arts and Sciences.

If the Committee on Academic Standards grants the petition, the student’s letter grades for the relevant term will be converted to Satisfactory/Unsatisfactory grades. The term will not count towards the grade-point average. A notation will be made on the official student transcript indicating the student was granted academic relief for that term due to extenuating circumstances. In addition, the term will not count towards the College’s continuation/promotion requirements. Courses in which the student receives a “Satisfactory” grade will count as elective credit toward the overall credit hours requirement for graduation. Students who receive academic relief from any term are prohibited from petitioning the Committee on Academic Standards to have any of the courses with a “Satisfactory” grade count in the General Education Requirements (GERs) of the College. In no instance may these “Satisfactory” grades fulfill a GER, except as specified in the general stipulations regarding Area IX: Physical Education.

Grades assigned as part of a sanction for an Honor Code violation cannot be changed through the academic relief process, but only through the Honor Code process.

**Transcript Note:**

Student approved for academic relief during this term based on extenuating circumstances.

APPROVED: CURRICULUM, ASSESSMENT, AND EDUCATIONAL POLICY COMMITTEE, FEBRUARY 19, 2020

**SATISFACTORY & AUDIT GRADING**

**SATISFACTORY/UNSATISFACTORY OPTION**

A student may elect to take up to twenty of the total credit hours required for graduation from any department or program in the College with the stipulation that grades for courses so elected will be recorded as Satisfactory or Unsatisfactory only and shall not be counted in computing the grade-point average. The grade of Satisfactory carries full academic credit; the grade of Unsatisfactory carries no academic credit. No course used to satisfy general education requirements may be taken on an S/U basis, except for physical education courses. ECS 101: The Emory Edge, MLP_OX 101: Milestone Project, Washington Semester, and Bard Semester, which are graded only Satisfactory or Unsatisfactory, as well as transfer and transient credit, do not count toward the twenty hours. All other courses that offered as Satisfactory/Unsatisfactory only, and courses taken through the ARCHE program, including ROTC, do count toward the twenty-hour limit toward the graduation requirement. A grade of D or better shall be considered as meeting the Satisfactory requirement.

The grading basis of a course may not be changed after 4pm on the Friday of the sixth full week of class after the Add/Drop/Swap period. One course required for concentration in a given field may be taken on an S/U basis with the approval of the Director of Undergraduate Studies and the department. (Students should refer to the College’s online calendar and syllabi for courses taught during the Summer Semester or Maymester for the comparable deadline.)

The Satisfactory/Unsatisfactory option is not applicable to any courses offered by the Goizueta Business School.
AUDIT COURSES

Emory College does not officially recognize audits. Students may therefore not register to audit any College course. With the permission of the instructor, students may unofficially visit any course for which they are eligible to register, but no record is kept of courses so visited.

STUDENT COMPLAINTS PROCEDURE

Emory College of Arts and Sciences Complaints Process

Student complaints can be categorized into four major areas: academic, non-academic, discrimination/harassment, or appeals of any of the previously mentioned areas.

Emory encourages each student to handle complaints as close to the source as possible. Each school has their own procedures usually explained at orientation or in their respective catalogs. Academic or other concerns usually begin with student service personnel in each school who route their concerns to the appropriate school authority. Student concerns can have many facets; even when escalated, they may require a review of issues with school personnel who are closest to the situation. This practice generally results in greater student satisfaction as issues can typically be resolved more quickly. Judgments on the appropriateness of decisions regarding complaints made within a college are most appropriately made by individuals with expertise in the particular area.

What documentation is required to constitute a formal complaint?

Student complaints must be submitted in writing and accompanied by relevant documentation describing

1. the specific action, practice or decision that is being challenged
2. the impact of the decision
3. what resolution is desired
4. why it should be granted.

To expedite a prompt resolution, complaints should include current contact information of the individual filing the complaint. Responses to the complaint including the final decision will be provided in writing within 90 business days of receipt of the complaint. Complaints can be submitted either in hard copy or via e-mail to the relevant University Officer or Committee.

Where should I submit my formal complaint?

Request for an Exception to an Academic Policy

Requests for exceptions to standing academic policy are handled by the Committee on Academic Standards. Students wishing to file for an academic exception should, in the first instance, follow the procedures outlined on the Committee on Academic Standards website.

Grade Disputes

Students who wish to dispute a grade in a course or assignment should submit their complaint in writing to the Director of Undergraduate Studies in the relevant department. Departments may have specific requirements and procedures for grade appeals,
and students should consult with the departments and Directors of Undergraduate Studies for details. A full list of Directors of Undergraduate Studies can be found here.

General Complaints

Students who wish to make a general complaint not covered by the processes for academic exceptions or grade disputes should submit those to the Office for Undergraduate Education, White Hall 300, 301 Dowman Drive, Atlanta, 30322 or by e-mailing oue.advising@emory.edu.

State of Georgia Complaints Process

Federal financial aid laws and regulations require that each state have a process to review and act on complaints concerning educational institutions in the state. Individuals who have a complaint may file a complaint with Emory’s financial aid office, call the Trust Line at 1-888-550-8850, or file a report online at www.mycompliancereport.com/EmoryTrustLineOnline. Individuals may also file a complaint about Emory University with the State of Georgia Office of Inspector General by following the directions at the Office of Inspector General (OIG) website. In the event that OIG receives a student complaint relating to financial aid, it will be forwarded to the Office of Inspector General of the U.S. Department of Education.

OFFICIAL TRANSCRIPTS

Students may order official academic transcripts online through OPUS. Electronic transcripts are delivered electronically to the receiving institution. Paper transcripts are also available. Although there is no per-transcript fee assessed for transcripts, a fee is charged for express delivery of paper transcripts. Transcripts will not be issued if a student’s record shows financial indebtedness to Emory University or in cases in which a student’s transcript is on hold as part of a disciplinary sanction.

All transcripts include a student’s entire academic record; no partial or incomplete statements of a student’s record will be issued as transcripts.

To ensure prompt receipt of transcripts, students should make requests at a reasonable time prior to need. Delays in issuance may occur immediately before or after a term break. More information about ordering transcripts is available on the University Registrar’s website.

TRANSIENT STUDY (STUDY AT OTHER COLLEGES)

For entering first-year students, a combined 18 credit hours of the following types of credit may be granted (transfer students may transfer a maximum of 62 credit hours. See Advanced Placement and Exemption – Information for Incoming Transfer Students). Credit hours may count towards the General Education Requirements (GERs), or towards major or minor requirements with departmental approval. Emory and Oxford Colleges will grant acceleration placement for courses beyond the allowed 18 hours, but no additional credit hours or GER waivers will be given.

1. AP/IB or other test credits (maximum of 12 credit hours). Departments have specified equivalent courses that these test credits replace for the purpose of GERs and major requirements. http://catalog.college.emory.edu/academic/policies-regulations/advanced-placement-exemption.html
2. Other college credits earned prior to matriculation that do not count towards the secondary school diploma. Newly admitted first year students who wish to receive credit for work taken at another college after acceptance and before enrollment should secure permission/approval from the dean of admission. Please review the Office of Undergraduate Admission AP/IB/Other credit policies: http://apply.emory.edu/apply/apib.php

3. Transient study credits earned after matriculation through coursework at accredited colleges or universities. Transient study may be earned domestically or internationally.

Domestic transient study (permission to take work at another institution in the United States and US Territories) is normally granted only for summer enrollment. Students who wish to take summer work elsewhere in the United States after their first year, or before a student has earned 64 credit hours, at Emory must secure written permission from the Office for Undergraduate Education before the end of the preceding spring semester and must not be on academic probation after the completion of spring semester. In order to earn credit through Domestic Transient Study, students must earn a grade of C or above. The course credits, but not the grades, are posted on the official Emory transcript. For more information, please go to the DTS website.

International students (on J-1 or F-1 visa status) who wish to take summer coursework in their home countries after their first year at Emory must meet the requirements for International Transient Study and complete the Office of International and Summer Programs (OISP) International Transient Study application. For more information, please go to OISP’s website.

Credit earned at other institutions may not comprise part of the last 64 semester hours or four semesters of work toward a degree in Emory College of Arts and Sciences, except as described under approved off-campus programs such as the Washington Semester and Education Abroad programs or as described immediately below. A final transcript for any summer coursework must be submitted by October 1, immediately following the summer in which the coursework was completed. All credits for non-Emory courses must officially appear on the student’s transcript by the end of their first semester upon return to Emory.

This policy applies to students who enter in the fall 2018 semester or later. Students who began before fall 2018 should refer to the Transient Study website for the current policy arrangement

Transient Study after 64 Credit Hours

Students who have completed 64 credit hours of course work in Emory College of Arts and Sciences and are in good standing may receive up to 16 semester hours and one semester of residence credit toward their Emory degree for advanced-level courses taken at another college or university in the USA. Approval is required in advance by the Office for Undergraduate Education and by the chairs of the appropriate departments at Emory, who must

1. Certify the advanced level of the proposed courses, and
2. Provide a compelling reason why these courses cannot be taken at Emory.

Students who wish to take courses abroad at an international institution must either do so through an approved Emory College Education Abroad programs or the non-Emory program petition process, please visit the Office of International and Summer Programs website.

APPROVED: CURRICULUM, ASSESSMENT, AND EDUCATIONAL POLICY COMMITTEE, OCTOBER 30, 2019

WITHDRAWALS

Cancellations and Withdrawals

Cancellation

Enrollment may be cancelled prior to the beginning of the semester or through the end of the Add/Drop/Swap period with no entry made on the student’s record. To cancel enrollment, a student must secure permission from the Office for Undergraduate Education.

Partial Course Withdrawals
Emory students may withdraw from one or more courses until 4pm on the Friday of the sixth full week of class after the Add/Drop/Swap period providing that the student continues to carry a load of 12 credit hours or is in their final semester of residence as a graduating senior. In order for a partial withdrawal to be processed, a student must complete a withdrawal form through the Office for Undergraduate Education, consult with their course instructor and OUE advisor, and receive signatures from both. These signatures indicate only that consultation has occurred, not that the course instructor and advisor necessarily approve of the student’s decision. Completed forms must be returned to the Office for Undergraduate Education for a dean’s consideration.

In addition, students will be allowed one voluntary withdrawal from a course after the sixth week withdrawal deadline and until the Friday of the tenth week of classes during one of their first two semesters of full-time residency at Emory College provided that they maintain a 12 credit hour course load. Only one late withdrawal is allowed in that first year. An eligible student must complete a withdrawal form and follow the appropriate procedures as outlined above. This voluntary withdrawal policy applies to first-year students, transfer students and Oxford Continuees. This policy does not apply to students who are on study abroad programs.

One additional withdrawal provision is available. After the sixth full week of class after the Add/Drop/Swap period of the semester, a student may petition for a withdrawal from a class based on medical need, family emergency, death in the immediate family, or other significant circumstance resulting in unforeseen hardship for the student. Petitions will be reviewed by academic advisors in the Office for Undergraduate Education, who, with the student’s permission, will consult with medical personnel where appropriate. Consultation with instructors, the student’s advisor and/or others will be part of the decision process. Petitions will be considered for approval by a dean in the Office for Undergraduate Education.

Semester Withdrawals

A student may completely withdraw from a semester in Emory College with permission from the Office for Undergraduate Education. A student who withdraws voluntarily before the end of the twenty-third calendar day following the beginning of classes will receive grades of W in all the courses for which they are registered that term. Thereafter, a student who withdraws will normally receive grades of WF in all courses, except under the provision below.

For reasons of illness or other compelling circumstances, a student may withdraw during the semester from all classes with the approval of a dean in the Office for Undergraduate Education. Students must provide documentation from a treating health provider or other appropriate documentation relevant to their circumstances. If a dean grants the semester withdrawal, the student will receive grades of W in all courses for that term. The Office for Undergraduate Education, in consultation with the Student Health Services, Counseling and Psychological Services, and Student Intervention Services, will officially inform the student in writing as to the terms and timing for readmission. Typically, students who withdraw for medical reasons and are in good academic standing are eligible for readmission after an additional semester away from Emory. A physician statement is required for all students returning after a medical leave of absence. The form must be provided by the student’s health care provider(s).

Unofficial withdrawal from the University results in 100 percent forfeiture of tuition. When officially withdrawing, students may be eligible for a refund of payments depending upon the date of withdrawal. Refunds are only processed for complete semester withdrawals; partial withdrawals from individual courses are not eligible for refunds. Financial aid awards that pay part or all of the student charges are prorated accordingly. Refunds for federal (Title IV) aid recipients will be prorated in accordance with federal regulations. No refunds are issued until all semester charges are paid in full. See the Deadlines page on the Student Financial Services website for the Emory Tuition Adjustment Schedule.

Involuntary Withdrawal

Emory University considers the safety and welfare of its students, faculty and staff a top priority. When a student engages in behavior that violates Emory’s rules of conduct, the behavior will be addressed as a disciplinary matter under the applicable Student Conduct Code. The Student Conduct Code defines prohibited conduct and outlines a process for conducting disciplinary proceedings.

This Involuntary Withdrawal Policy and Procedure is not a disciplinary code, policy or process. It is not intended to apply to situations in which a student engages in behavior that violates the University’s rules of conduct. It is intended to apply when a student’s observed conduct, actions and/or statements indicate a direct threat to the student’s own health and/or safety, or a direct threat to the health and/or safety of others. There may be situations in which both this Involuntary Withdrawal Policy and the Student
Conduct Code may apply. In all cases, the Dean of Emory College shall have final authority regarding the decision, enactment, enforcement and management of the involuntary withdrawal of a student.

Criteria

A student may be withdrawn involuntarily from Emory if the University determines that the student represents a direct threat to the health and safety of himself/herself or others by (1) engaging or threatening to engage in behavior which poses a high probability of substantial harm to himself/herself or others; or (2) engaging or threatening to engage in behavior which would cause significant property damage, would directly and substantially impede the lawful activities of others, or would interfere with the educational process and the orderly operation of the University.

Procedure

When the Senior Associate Dean for Undergraduate Education, or his/her designee, based on a student’s conduct, actions or statements, has reasonable cause to believe that the student meets one or more of the criteria for involuntary withdrawal, he or she may initiate an assessment of the student’s ability safely to participate in the University’s program.

The Senior Associate Dean for Undergraduate Education initiates this assessment by first meeting with the student to:

1. review available information concerning the behavior and/or incidents which have caused concern,
2. provide the student with a copy of this Involuntary Withdrawal Policy and Procedure and discuss its contents with the student,
3. provide the student an opportunity to explain his/her behavior, and
4. discuss options available to the student, including counseling, voluntary withdrawal and evaluation for involuntary withdrawal.

If the student agrees to withdraw voluntarily from the University and waives any right to any further procedures available under this policy, the student will be given a grade of W for all courses, will be advised in writing of any conditions that must be satisfied prior to re-enrollment, and may be referred for appropriate mental health or other health services. If the student refuses to withdraw voluntarily from the University, and the Senior Associate Dean continues to have reasonable cause to believe the student meets one or more of the criteria for involuntary withdrawal, the Senior Associate Dean may require the student to be evaluated by an appropriate mental health professional.

Evaluation

The Senior Associate Dean may refer the student for a mandatory evaluation by an appropriate mental health professional or other appropriate professional. The professional may be selected by the University, so long as there is no cost to the student for the evaluation. A written copy of the involuntary referral shall be provided to the student.

The evaluation must be completed within five school days after the date the referral letter is provided to the student. Prior to the evaluation, the student will be required to sign a written authorization authorizing the exchange of relevant information among the mental health professional(s) (or other professional) and the University. Upon completion of the evaluation, copies of the evaluation report will be provided to the Senior Associate Dean and the student.

The professional making the evaluation shall make an individualized and objective assessment of the student’s ability to participate safely in Emory’s program, based on a reasonable professional judgment relying on the most current professional knowledge and/or the best available objective evidence. This assessment shall include a determination of the nature, duration and severity of the risk posed by the student to the health or safety of himself/herself or others, the probability that the potentially threatening injury will actually occur, and whether reasonable modifications of policies, practices or procedures will sufficiently mitigate the risk. The professional will, with appropriate authorization, share his/her recommendation with the Senior Associate Dean, who will take this recommendation into consideration in determining whether the student should be involuntarily withdrawn from Emory. A copy of the professional’s recommendation will be provided to the student, unless, in the opinion of the professional, it would be damaging to the student to do so.
If the evaluation results in a determination that the student’s continued attendance presents no significant risk to the health or safety of the student or others, and no significant threat to property, to the lawful activities of others, or to the educational processes and orderly operations of the University, no further action shall be taken to withdraw the student from the University.

If the evaluation results in a determination that the continued attendance of the student presents a significant risk to the health or safety of the student or others, such that there is a high probability of substantial harm, or a significant threat to property, to the lawful activities of others, or to the educational processes and orderly operations of the University, the student may be involuntarily withdrawn from the University. In such an event, the student shall be informed in writing by the Senior Associate Dean of the involuntary withdrawal, of his/her right to an informal hearing, of his/her right to appeal the decision of the hearing officer, and of any conditions necessary for re-enrollment. In most cases, a student who is involuntarily withdrawn will be given a grade of W in all courses in which the student is currently enrolled.

**Informal Hearing**

A student who has been involuntarily withdrawn may request an informal hearing before a hearing officer appointed by the Senior Associate Dean by submitting a written request to be heard within two business days from receipt of the notice of involuntary withdrawal. A hearing will be set as soon as possible. The student shall remain involuntarily suspended pending completion of the hearing.

The hearing shall be informal and non-adversarial. During the hearing, the student may present relevant information and may be advised by an Emory faculty or staff member or a health professional of his/her choice. The role of the advisor is limited to providing advice to the student.

At the conclusion of the hearing, the hearing officer shall decide whether to uphold the involuntary withdrawal or whether to reconsider, and the student shall be provided written notice of the hearing officer’s decision as soon as possible.

**Appeal to the Dean**

The student may appeal the hearing officer’s decision to the Dean, who shall review all information presented and make a final decision as to whether or not to uphold the involuntary withdrawal.

**Emergency Suspension**

The University may take emergency action to suspend a student pending a final decision on whether the student will be involuntarily withdrawn, in situations in which:

- there is imminent danger of serious physical harm to the student or others,
- there is imminent danger of significant property damage,
- the student is unable or unwilling to meet with the Senior Associate Dean,
- the student refuses to complete the mandatory evaluation, or
- the Senior Associate Dean determines such other exceptional circumstances exist that suspension is warranted.

In the event emergency action is taken to suspend the student on an interim basis, the student shall be given notice of the emergency suspension and an initial opportunity to address the circumstances on which the emergency suspension is based.

**Conditions for Re-enrollment**

Because this Involuntary Withdrawal Policy applies to cases in which there is a concern about the safety of the student or others, the Dean or his/her designee may require a student who has been involuntarily withdrawn under this Policy to be reevaluated before he/she is readmitted in order to assure that he/she presents no direct threat to himself/herself or others.

APPROVED: CURRICULUM, ASSESSMENT, AND EDUCATIONAL POLICY COMMITTEE, FEBRUARY 19, 2020

ACADEMIC ADVISING AND SUPPORT
Academic Advising and Support Programs in the Office for Undergraduate Education (OUE) provides a range of academic advising and support services. The services and programs are designed as a supplement to faculty and departmental advising.

OUE academic advisers work closely with students, faculty and staff to provide group and individual academic advising, explain and interpret academic policies, and connect students to resources and support services on campus. In addition, students who experience medical, personal or other concerns that affect their academic progress may seek the assistance of an academic adviser to determine appropriate options.

Many students have questions about graduation requirements, course selection and programs of study. OUE academic advisers will work with students to answer academic policy questions and assist students with making academic decisions. While faculty advisers and departments provide general advising for all students upon their entrance to the College and are responsible for major/minor advising, the OUE academic advisers supplement departmental advising and provide individual consultations for students experiencing special circumstances.

Students can call (404) 727-6069, log-in to College Connect, or e-mail oue.advising@emory.edu to schedule an appointment.

Academic support is available through a variety of programs ranging from individual consultations, peer tutoring and mentoring, workshops and other programming for specific populations. Students or faculty who would like more information about specific services and programs should visit Academic Support Programs.

### ECS 101: THE EMORY EDGE

This course is a continuation of the Orientation Experience so all first-year students are set up for success over their 4 years at Emory. Weekly sessions and assignments will encourage students to reflect on their past and current experiences, explore Emory resources and opportunities, connect with peers, faculty and staff, and create plans for the next 4 years. All first-year students enroll in this course during their first fall semester at Emory. This is a one credit, satisfactory/unsatisfactory course.

### AWARDS & HONORS

#### BRITTAIN

Each year one graduate of Emory University receives an award, named for Marion Luther Brittain, that is intended to give public and permanent expression of gratitude for service to the University, rendered without expectation of reward or recognition.

#### CHARLES AND ANNE DUNCAN

Charles William Duncan Jr. of Houston, Texas, established this scholarship for gifted students from west of the Mississippi. At least one Duncan Scholarship is awarded each year, with priority given to residents of Texas and the Southwest.

#### CHRIS A. YANNOPOULOS

Endowed by Mr. and Mrs. Michael Carlos in memory of her son, the Chris A. Yannopoulos Scholarship is awarded to students who have demonstrated an interest in classical studies or who represent the strengths brought to the United States by immigrants from other lands.

#### D. ABBOTT TURNER

The D. Abbott Turner Scholarship is awarded each year to a distinguished graduate of a Georgia high school. Preference is first given to graduates of the Brookstone School in Columbus and then to natives of the Chattahoochee Valley. Turner Scholarships are awarded on the basis of character, achievement, and service.

### DEAN'S LIST
The Dean's List recognizes the top 20 percent, by semester grade point average, of all college students enrolled for Fall or Spring semester in campus courses. Besides having the requisite grade point average, a student must have been enrolled for twelve or more hours, completed all course work, and earned no grades of U (unsatisfactory).

These scholarships bear the name of the 1911 Emory graduate who became known as the most distinguished American scholar in his generation focusing on Old English language and literature.

**KEVIN C. LIMP**

**LIBERAL ARTS**

Liberal Arts Scholarships, which are partial tuition scholarships, are awarded to Emory Scholar Semi-finalists in recognition of their academic excellence. Recipients of Liberal Arts Scholarships are not admitted into the Emory Scholars Program. After their first and/or second year in Emory College of Arts and Sciences Liberal Arts Scholarship recipients may compete for a Dean’s Achievement Scholarship. If successful, they become Emory Scholars and are permitted financially to combine the two awards.

**LUCIUS L. MCMULLAN**

**OXFORD**

These scholarships are awarded to students who chose to pursue the first two years of Emory University’s liberal arts curriculum at Oxford College and then transition to Emory College of Arts and Sciences to complete the curriculum. Each year Oxford College designates a number of its outstanding incoming freshmen as Oxford Scholars. Oxford Scholars include Robert W. Woodruff Scholars, Dean’s Scholars, and Faculty Scholars, all of whom are selected on the basis of their grades, curriculum test scores, essays, extracurricular activities, and demonstrated interest in the Scholars Program. While enrolled at Oxford, these scholars participate in the Oxford Scholars Program, and they participate in the Emory Scholars Program once they transition to the Atlanta campus.

**POLLARD TURMAN**

J. Pollard Turman, a native of Atlanta, was a member of Emory’s family and a guiding force at the University for more than fifty years. Throughout his life, Mr. Turman was an influential humanitarian. His understanding and support of higher education, combined with his personal commitment, have benefited institutions throughout Georgia. The J. Pollard Turman Leadership Scholarship is awarded to incoming first-year students who show special leadership potential, as demonstrated by their personal commitment to service and excellence in school, civic, and other activities combined with sound academic achievement. Residents of the Southeast receive special consideration.

**ROBERT W. WOODRUFF**

The Robert W. Woodruff Scholarships bear the name of the renowned businessman and philanthropist who was head of The Coca-Cola Company for many years and was a peerless benefactor of Emory University. The scholarships are awarded to young men and women who have demonstrated qualities of forceful and unselfish character, intellectual and personal vigor, outstanding academic achievement, impressive skills in communication, significant leadership and creativity in school or community, and clear potential for enriching the lives of their contemporaries at Emory University. Recipients of the Robert W. Woodruff Scholarships are awarded a stipend equal to the cost of full tuition, fees, and University room and board.

**STIPE SOCIETY**

The Stipe Society is designed to foster original, independent scholarship and creative endeavors in the arts among Emory College students and to encourage communication between undergraduate students and faculty members engaged in scholarly research. Twenty currently enrolled students are selected as associate scholars each year on the basis of proven ability in a field of scholarship and recommendations by teachers in that field. Election is for one year only, and students must apply for re-election. Those Stipe Scholars who are not already receiving faculty/staff courtesy scholarships or other scholarships that include full tuition receive an honorarium of one thousand dollars; for those receiving need-based financial aid, this honorarium replaces the college grant portion of their aid up to the amount of one thousand dollars. For further information, contact the Office for Undergraduate Education, 300 White Hall, Emory University, Atlanta, Georgia 30322.

**UNCF-MERCK**
Apply fall of junior year. The United Negro College Fund and The Merck Undergraduate Science Research Scholarship Fellowship is intended to encourage African American undergraduate students in furthering their science education and pursuing biomedical science careers by providing tuition support and opportunities for research experience in a state-of-the-art industrial laboratory. The fellowship consists of a summer internship prior to your senior year and a second summer internship upon graduation. The award is up to a maximum of $35,000 that consists of a scholarship of up to $25,000 and two summer research internship stipends totaling at least $10,000. Additional information may be found at UNCF-Merk Science Initiative.

WILLIAM E. SIMON

Apply Fall term of Senior year. The William E. Simon Fellowship was created to encourage the pursuit of endeavors that are of benefit to yourself and your fellow man. Unrestricted cash grants will be awarded to those that have demonstrated self-direction, dedication and originality in the pursuit of a goal that can make a positive contribution to society. The Intercollegiate Studies Institute will award three fellowships with the first award being $40,000 and the second and third awards being $5,000 each. Please note that the Intercollegiate Studies Institute offers additional opportunities as you continue your graduate studies. Additional information can be found at Intercollegiate Studies Institute.

EMORY SCHOLARS PROGRAM

Emory College of Arts and Sciences offers membership in the Emory Scholars Program to incoming first-year students and to outstanding rising sophomores and rising juniors.

Individuals are selected based on outstanding academic success, evidence of the Emory Scholar qualities (intellectual curiosity, creative thinking, communications skills, servant leadership, and commitment to community), a sincere interest in personal growth, and a desire to invest their time, energy and talents to improve the lives of others.

In addition to receiving a merit scholarship, most notably the Robert W. Woodruff scholarship, Emory Scholars have access to both programming and opportunities and that allow them to thrive as individuals, members of the Emory community, and beyond as alumni.

HONORS PROGRAM

Honors Programs are available to outstanding students in most, but not all, areas of concentration. Administered by a faculty Honors Committee, these programs enable students to do intensive work in a chosen area and therefore involve work that extends beyond ordinary course requirements and ordinary standards of performance.

REQUIREMENTS

Although all students with a cumulative average of 3.50 at the end of their first three years are eligible for these programs, final selection of participants rests with the department concerned.

Exceptions to the 3.50 average requirement may be made by the Honors Committee in individual cases upon recommendation by the department concerned. Students who wish to petition must have at least a 3.45 cumulative GPA. See department or Carlee Beard (ec.honorsprogram@emory.edu) for more information on the GPA waiver petition process and requirements. All Emory grades are considered in the calculation of the cumulative GPA. For example, all Emory College of Arts and Sciences and Business School grades are considered in the calculation of the cumulative GPA for Business School students who pursue honors in a major in the College. In order to graduate with honors, students must meet the requirements as outlined below over two consecutive semesters (not including summer).

Students may pursue honors in only one major or joint major.

Requirements vary slightly from department to department. They generally include enrollment in a graduate seminar or graduate course, completion of a research project or paper that is the equivalent of a BA or BS thesis, and additional supervised reading or enrollment in a special honors course. Departments that accept projects outside of a traditional honors thesis must receive
permission from the Honors Committee. Since credit for the graduate work and the reading program count toward the hours required for the major, the Honors Program usually entails an increase of about four hours of credit in the major requirement.

An examination, written and/or oral, covering the honors work, including the thesis and allied fields, is given upon completion of the program. Examiners recommend the degree of honors (honors, high honors, highest honors) to the Honors Committee, which certifies the list to the registrar for printing in the commencement program and on the students' diplomas. Fourragères indicating the degree of honors are presented to successful candidates by the college and are worn at commencement.

**LEVELS OF HONORS**

- **Honors** *(cum laude)* represents satisfactory completion of the program, with an overall average of 3.50.

- **High Honors** *(magna cum laude)* represents completion of the program with outstanding performance, including an overall average of 3.50 and a thesis of quality sufficient for oral presentation to scholars in the candidate’s field.

- **Highest Honors** *(summa cum laude)* represents completion of the program with exceptional performance, including an overall average of 3.50 and a thesis of a quality suitable for publication.

**THESIS GUIDELINES**

Guidelines and deadlines for submission of theses will be available to students who are currently enrolled in the Honors Program.

HONORS PROGRAM FAQS

WHAT ARE THE REQUIREMENTS FOR COMPLETING THE HONORS PROGRAM?
Students are required to maintain a cumulative GPA of at least 3.5, to be enrolled at Emory for both semesters in which they are pursuing honors, to be in residence and enrolled in at least one hour of honors research during the final semester of their participation in the Honors Program, to complete the mandatory orientation in Canvas and any other required trainings, to write and defend an honors thesis, and to submit all required honors forms and complete the ETD submission process. Additionally, many departments have their own requirements for honors students; be sure to check with your Departmental Honors Coordinator to find out what, if any, additional requirements you must meet. To find your Departmental Honors Coordinator, visit: http://catalog.college.emory.edu/academic/honors-program/contact.html.

MAY I DO STUDY ABROAD WHILE I AM PARTICIPATING IN THE HONORS PROGRAM?
With special permission in cases of academic relevance, students may study abroad during the first semester of their participation in the Honors Program. All students are required to be in residence during the final semester of participation in the Honors Program.

HOW IS GPA CALCULATED FOR HONORS PURPOSES?
Admission to the Emory College Honors Program requires a cumulative GPA of 3.5 or above, and students must maintain a cumulative 3.5 GPA through graduation to be eligible to graduate with Honors. Only Emory grades (including Emory sponsored study abroad programs and courses offered at Emory but outside the College, such as those offered by the Goizueta Business School) are calculated as part of a student’s Emory GPA.

MY GPA IS BELOW 3.5. MAY I PARTICIPATE IN THE HONORS PROGRAM?
In May and August, the Honors Committee considers petitions to be admitted to Honors from students who do not meet the 3.5 cumulative GPA requirement. Students who have a GPA of at least 3.45, and the support of their departmental honors coordinator and potential thesis advisor are eligible to petition. Students who are admitted by petition must earn at least a 3.5 semester GPA in every subsequent semester to be eligible to continue in the Honors Program.
WHAT COURSE(S) MUST I BE ENROLLED IN TO PARTICIPATE IN THE HONORS PROGRAM?

The College requires honors students to be in residence and enrolled in at least one hour of honors credit during the semester in which they are completing the Honors Program. However, many departments have additional requirements for honors coursework, which typically includes two semesters of honors research/writing and sometimes an additional graduate course or seminar; be sure to check with your Departmental Honors Coordinator for more information.

WHO MAY SERVE ON MY THESIS COMMITTEE?

Committees must consist of at least three core members. Core committee members must be regular Emory University faculty members from any school or unit. One member must be from the student’s honors major and at least one member must be from Emory College. You may have additional committee members, including faculty from other universities, beyond the required three core members. Only core members vote on level of honors. Your advisor counts as one of the three core members.

DO MY COMMITTEE MEMBERS NEED TO HOLD A SPECIFIC ACADEMIC RANK?

Regular faculty titles typically include professor, associate professor, assistant professor, professor of pedagogy, senior lecturer, lecturer, but might also include titles such as Instructor or Research Associate.

Adjunct, visiting, emeritus, and post-doctoral fellows must petition to the Honors Committee to be permitted to serve on committees.

Members of the staff are not eligible to serve on committees.

If you have questions about someone’s eligibility or about the petition process, contact ec.honorsprogram@emory.edu.

WHEN IS THE HONORS CEREMONY HELD?

The Honors Ceremony is held on the afternoon of the Sunday before Commencement.

I HAVE SUBMITTED MY THESIS, BUT AM NOT GRADUATING IN THE SPRING. MAY I PARTICIPATE IN THE HONORS CEREMONY?

Students who are graduating in the fall may participate in the Honors Ceremony that follows their graduation. Contact the Honors Program Administrator for more information.

WHO SCHEDULES MY THESIS DEFENSE?

The student is responsible for scheduling their thesis defense.

I WANT TO DO HONORS IN MORE THAN ONE MAJOR. IS THIS POSSIBLE?

No. Students may pursue honors in only one major or joint major, though students who are double majoring may design an interdisciplinary project that draws on both majors.

I WANT TO DO HONORS IN MY MINOR. IS THIS POSSIBLE?

No. Honors may only be pursued in the student’s declared major.

HOW DO I DROP THE HONORS PROGRAM?
If you have decided to drop the Honors Program, you must notify both the College Honors Program Administrator (ec.honorsprogram@emory.edu) and your Departmental Honors Coordinator by email. If dropping after College withdrawal deadlines, you must work with your advisor and/or honors coordinator to finish the honors course in which you are enrolled.

I AM GRADUATING A SEMESTER EARLY OR A SEMESTER LATE. MAY I STILL PURSUE HONORS?

Yes. Students may pursue Honors on an alternative timeline, with permission from their department and in coordination with the College Honors Program Administrator, but must pursue honors for two consecutive semesters (not including summer semester).

ARE THERE ANY SPECIAL CIRCUMSTANCES THAT I SHOULD LET THE HONORS PROGRAM KNOW ABOUT?

If you are struggling academically, have petitioned a college standing committee for special circumstances, or there is an extraordinary experience that is affecting your academic path, please get in touch with the honors coordinator in your department and the honors program immediately so your best options for honors can be determined.

INTERNSHIPS

SUMMER INTERNSHIPS

The academic internships initiative within the Office of International and Summer Programs (OISP) seeks to:

- Connect students with meaningful academic internships that align with their liberal arts majors
- Create structured credit-bearing opportunities to translate liberal arts skills into real world experiences
- Prepare students for the global workforce through enhanced cross-cultural competencies

Pathways to pursue academic internships:

- OISP Comprehensive Program option: GLOBAL INTERNSHIPS IN SUMMER
- OISP Independent Internship option: 1-CREDIT INTERN 496 IN SUMMER
- Academic Departments: INTERNSHIPS IN YOUR MAJOR AREA

SEMESTER INTERNSHIPS

Internships during the regular (fall or spring) semester is managed by individual departments. Students should contact the Director of Undergraduate Studies or Internship coordinator in their major department.

ART HISTORY INTERNSHIP

During the summer terms, art history majors and qualified non-majors are eligible to apply for an internship with the Michael C. Carlos Museum, the High Museum of Art, commercial art galleries, architectural firms, and other art- and architecture-related organizations. Students must consult with an internship adviser. Internships may carry academic credit. The students' work is supervised by personnel of the cooperating institutions and agencies. The department will attempt to facilitate any reasonable internship in Atlanta and, if plausible, in other places as well. For questions about the Art History Internship Program, contact Professor Judith Rohrer at jcrohre@emory.edu.

POLITICAL SCIENCE INTERNSHIP

The political science internship program provides students with an opportunity to combine academic training with field experience. The program stresses the interdependence of the University and the community. Students engage in service/learning experiences.
designed to supplement and enrich their educational programs through active participation in the governmental process. Currently, the Department of Political Science awards credit to student interns in a wide variety of agencies and offices in state and local government. The students usually serve in a research capacity for the assigned agency. Every attempt is made to match students' interests with agency needs. Students attend seminars to discuss the work they are doing and to relate it to academic studies and findings. Depending upon the nature of the internship, students may earn four to twelve credits in Political Science 496 for a departmentally approved internship. For more details, see the Department of Political Science website.

NEW STUDENT ORIENTATION

New Student Orientation is a collaboration between Emory College of Arts and Sciences and the Division of Campus Life that strives to acclimate successfully and holistically all new students – first year students, transfer students, and Oxford Continuees – into the academic and social fabric of Emory College. The New Student Orientation program provides opportunities for students to begin building relationships with faculty, staff, current students and their new classmates as they prepare for their future in the Emory University learning community. In addition, the program provides opportunities for current students to develop their own leadership skills by serving as an Orientation Leader or Captain. For more information, please visit www.college.emory.edu/orientation.

PREHEALTH ADVISING

Emory University Pre-Health Advising provides academic advising and support for students interested in pursuing one of many health professions. Pre-Health advisors encourage students to explore healthcare professions, assist students in developing meaningful academic and extracurricular plans, provide resources and opportunities related to healthcare professions and prepare students to apply to healthcare professional programs.

Pre-health is not a major or minor in the College, but rather indicates that a student is interested in pursuing a career in healthcare, including but not limited to: medicine, dentistry, nursing, physician assistant, public health, veterinary medicine and many others. In addition to completing any major in the College and completing Emory’s General Education Requirements, pre-health students complete prerequisite courses determined by the healthcare professional program(s) to which they apply. Most of these courses are offered by the College and can be worked into schedules over four years. Prerequisites generally need to be completed before matriculation in a healthcare program.

The pre-health staff holds advising appointments (walk-in and scheduled) as well as programs throughout the year. Pre-Health Advising also provides Composite Letters for students applying to particular allied health programs. Students should register with Pre-Health Advising online to receive weekly newsletters and other important information related to healthcare professional school goals. Visit www.prehealth.emory.edu for information about appointment types, availability, Composite Letters and pre-health resources.

STUDY ABROAD

EMORY COLLEGE STUDY ABROAD

Emory College Study Abroad within the Office of International and Summer Programs (OISP) is dedicated to fulfilling Emory College’s commitment to internationalization through study abroad. In collaboration with Emory faculty, OISP develops, promotes, and administers programming for undergraduate students that encourages both intellectual and personal growth through challenging scholarship and cultural immersion. Its services support students and faculty before, during, and after the study abroad experience in order to ensure that study abroad is an essential part of an Emory College education. Approximately 50% of College students have some sort of international educational experience by the time they graduate. OISP offers over 130 approved study abroad programs in over 40 countries around the world; students can spend a summer, a semester, or a full academic year abroad in another country. Students earn Emory credits and grades while abroad, retain semester financial aid packages (some summer aid is available as well),
and fulfill academic requirements towards majors, minors, and GERs. Emory College Study Abroad also coordinates various international service learning and research options. Please visit http://studyabroad.emory.edu for more information.

**TIBET PARTNERSHIP**

In recent years the study of Tibetan civilization has gained strength at Emory. During a visit to Emory in 1998, His Holiness the Dalai Lama signed an agreement with then-Emory President William M. Chace to work toward furthering educational links between the University and institutions of higher learning operated by the Tibetan government in exile in India. The program includes study abroad in Dharamsala, a student exchange, ongoing courses and research in Tibetan culture and philosophy, and an exchange between students and faculty.

**VETERANS**

We welcome men and women who have served in the U.S. Military to Emory. College is a big investment of time, of money, of effort and it’s important that you are happy with your choice. We’re happy you’re considering Emory as your college choice.

Emory works with the Veteran’s Administration to offer veterans financial aid through the Yellow Ribbon GI Education Enhancement Program.

**OVERVIEW**

The Yellow Ribbon GI Education Enhancement Program is a provision of the Post 9/11 Veterans Educational Assistance Act of 2008. Emory College of Arts and Sciences offers a Yellow Ribbon Award of $7000.00 per academic year to four students in the College of Arts and Sciences for as long as they are enrolled in Emory College of Arts and Sciences. Please see the Veterans Administration website at https://www.gibill.va.gov/GI_Bill_Info/CH33/Yellow_ribbon.htm for additional information on eligibility. Your Certificate of Eligibility (COE) from the Veteran’s Administration and the Veteran’s Data Enrollment Sheet at http://registrar.emory.edu/_includes/documents/sections/records-transcripts/VeteransEnrollmentDataInformation.pdf are the student’s application for this award.

**GUIDELINES FOR APPLICATION**

Emory College of Arts and Sciences (ECAS) will accept Yellow Ribbon (YR) applications by email attachment or by paper applications mailed or hand delivered to Emory College of Arts and Sciences, 300 White Hall, Atlanta, GA, 30322. YR applications should be sent to the attention of Emily Tallant, Senior Associate Director of Student Records, Office for Undergraduate Education or by e-mail to emily.tallant@emory.edu. We will begin receiving applications from eligible students at 8:00am EST on June 1 each year. Please note that faxes will not be accepted. (Please note-- when June 1 falls on a weekend (Saturday or Sunday) applications will be accepted from 8am EST on the Monday immediately following June 1.)

- Email attachments will be opened, printed and date stamped, and filed in the YR folder.
- Paper applications will be date stamped and filed in the same folder.
- A daily log will be used to record the order in which applications are "received."

A YR application consists of a completed Veterans Enrollment Data Sheet which is available on the Registrar’s website at this link: http://registrar.emory.edu/_includes/documents/sections/records-transcripts/VeteransEnrollmentDataInformation.pdf and a copy of the Certificate of Eligibility. Please note that only students applying for Yellow Ribbon benefits should turn in the Veterans Enrollment Data Sheet to ECAS. Students claiming VA benefits other than YR should return the form to the Registrar’s office at the address printed at the top of the form.

For additional information, please refer to:

http://www.registrar.emory.edu/Students/VA/index.html
Applications from eligible students will be accepted each year beginning June 1.

(Please note-- when June 1 falls on a weekend (Saturday or Sunday) applications will be accepted from 8am EST on the Monday immediately following June 1.)

DEPARTMENTS AND PROGRAMS

AFRICAN AMERICAN STUDIES DEPARTMENT

Dedicated to the histories, cultures, and political movements of black communities across the United States and the wider African Diaspora, African American Studies at Emory University pursues academic excellence and social responsibility through interdisciplinary scholarship, transformational pedagogy, and engagement with local, national, and international communities of African descent. In keeping with these dual commitments, the department changes the focus and broadens the vision of students in their explorations of human experience, history, literature, culture, and politics. The department prepares students for work, life, and the realities and responsibilities of twenty-first century global citizenship through an interdisciplinary approach to liberal arts education. AAS creates learning communities characterized by introductory, advanced, and integrative forms of learning. Students have numerous opportunities to participate in first-year seminars, lectures, writing-intensive courses, undergraduate research experiences, diversity curriculum, and capstone courses and projects. Here, faculty and students work collaboratively in the democratic pursuit of greater understandings of politics, culture, social movements, and society; of knowledge, ethics, evidence, and interpretation; and of the past and present as both means and ends.

Language Study
All majors are encouraged to fulfill the degree requirements of Emory College by studying one of the following foreign languages: French, Spanish, and Arabic.

INSTITUTE OF AFRICAN STUDIES PROGRAM

The Institute of African Studies offers an interdisciplinary major and minor focusing on the histories, societies, and cultures of the peoples of Africa. Both major and minor emphasize mastering empirical knowledge about Africa as well as theories and methods central to its study.

AMERICAN STUDIES PROGRAM

American Studies will teach you how to think expansively and critically about American culture. Our courses will allow you to understand the patterns of American culture as they have changed over time, and as they are reflected in the particular experiences of Americans from different regions, social classes, races, ethnicities, genders and national backgrounds. The major will immerse you in the subject of American culture, as well as in the interdisciplinary methods of American Studies, which seek insight through multiple perspectives on phenomena, events, or currents in American culture. You will be exposed to several disciplinary perspectives through the Contributing Courses and also to models for integrating such perspectives in the Core Course, the Introduction, and the Senior Symposium. Our major is designed to help you explore the borders of American nationality as well as the contexts in which the American experience has unfolded. Our faculty have a wide range of scholarly interests and are affiliated with the English, Women’s Studies, Sociology, Religion and History Departments at Emory.

The major will emphasize the interdisciplinary study of cultural forms, practices, institutions, technologies, and social movements in American history and culture. Both individual courses and the program as a whole will give special attention to the interactions of gender, place and region, race and ethnicity, and social class as cultural patterns. While we take the United States as our primary field of reference, we do so understanding that the internal borders of region and the external borders of nation have changed over time. We thus encourage work that explores America as a place, a population, and a set of historical events, and we will encourage each major to include courses with a comparative dimension or ones that offer an international context for the development of American culture.

We seek to give students a broad base in the sweep of American history (in our introductory course and in the requirement of one other course in American History) and exposure to the way that different disciplines offer insight into American history (hence the requirement to take one contributing course in social science and one in humanities). In the core courses, students will choose from a range of deeply interdisciplinary courses as they learn to apply the basic models of the introductory course to a variety of events and social phenomena in American history. The senior symposium will function as a capstone seminar, one that will bring students to a certain level of sophistication about American Studies as a scholarly field. In that seminar, students will learn about the history of American Studies and participate in a research seminar around a common theme (such as the legacy of slavery or the Vietnam War).

American Studies began as an intellectual movement in universities and colleges and there are over two hundred American Studies
programs in the United States (and even more abroad). It is therefore a degree that is recognizable to professional schools, graduate programs, and employers. It can prepare students for a wide range of careers: in law, business, teaching, journalism, the arts, philanthropy and museums. Our majors will be taught how to think critically about the complex social system in which they live, which is an exemplary way to combine a liberal arts education with vocational interests.

ANCIENT MEDITERRANEAN STUDIES PROGRAM

The Program in Ancient Mediterranean Studies (AMS) is an interdisciplinary program that is a collaborative attempt to make the world of the ancient Mediterranean and its Greek, Roman, Egyptian, and Near Eastern cultures and their legacies and traditions an integral part of the humanities at Emory. To this end, AMS provides an interdisciplinary major among the fields of art history, classics, history, Middle Eastern studies, philosophy, and religion, presents colloquia and conferences, and offers opportunities for independent study and study abroad.

Honors Program
If the student qualifies for and chooses to do honors, an honors thesis of substantially greater length (consult the director for full requirements) will substitute for the Senior Research Project. The student who qualifies for
and chooses to pursue honors will take AMS 495R, Honors Independent Writing, for the two terms preceding the degree, and the honors thesis will be submitted according to the requirements. (In some circumstances, AMS 498R may substitute for the first of the two terms.) If the student fails to complete the honors project, the student will still be required to submit a paper of not less than 20 pages in length which will count as the student's senior research project.

ANTHROPOLOGY DEPARTMENT

Anthropology is the scientific and interpretive study of humankind, from its beginnings millions of years ago to the present day. The discipline of anthropology begins with a simple but enormously powerful idea: that any particular aspect of human biology and behavior can be fully understood only when it is placed against a background provided by the full range of variability found in human biology and behavior worldwide. This is the comparative perspective, the attempt to explain both the similarities and differences among people in the context of humanity as a whole. Anthropology is therefore composed of multiple subfields. We offer courses in cultural, biological, linguistic, medical, and psychological anthropology. Anthropology majors receive a sound liberal arts education, which provides a needed edge in today's competitive world of careers. Anthropology's scope and intellectual roominess can prepare students to make objective, far-sighted decisions at the professional level in any career field. Anthropology graduates go on to careers in professional anthropology, medicine, law, social work, public health, environmental studies, teaching, translation, laboratory research, international business, and government. Emory students benefit from a variety of excellent resources for studying anthropology. Students of Anthropology have access to the following laboratories: the Laboratory for Comparative Human Biology; Laboratory for Darwinian Neuroscience; Human Health Laboratory; Media Publics and Critical Discourse Laboratory; Paleolithic Technology Laboratory; Quantitative Computational Anthropology Laboratory (QCAL). Students also have opportunities to be involved with ongoing research at the Sloan Foundation's MARIAL Center (Myth and Ritual in American Life), the Yerkes National Primate Research Center, the Center for Behavioral Neuroscience, the Michael C. Carlos Museum and The Carter Center. For those students interested in medical anthropology, Emory is affiliated with the United States Centers for Disease Control and Prevention (CDC), and the Rollins School of Public Health. The department sponsors the Beta chapter of the Lambda Alpha National Anthropology Honors Society; graduates numerous Anthropology honors students each year; and invites all Emory students of Anthropology to participate in the Emory Anthropology Student Society, which organizes exciting events and activities that foster a strong sense of community in the Anthropology department. Please visit the Anthropology Department's website for information about courses, research opportunities, and more: http://anthropology.emory.edu/home/index.html

Juniors who have a minimum cumulative GPA and major GPA of 3.5 are invited by the department to apply to join the Honors Program as they preregister for their senior year. The Honors Program entails directed, original research (Anthropology 495A and 495B), a thesis, an oral defense, and successful completion of a graduate course.

The Department of Anthropology strongly encourages its students to pursue study abroad. Study abroad is a rich and invaluable educational opportunity, and is particularly desirable for the serious anthropology student. Students who are interested in study abroad should contact Emory College Study Abroad. This office has information about programs around the world and the types of classes available in these programs.

In order to ensure that majors receive the necessary breadth and specific vision that Emory’s Department of Anthropology offers, students may apply no more than twelve credit hours (three classes) of off-campus credit toward any anthropology major. (This includes transfer credit from American schools, as well as study abroad.)

In order to obtain Emory credit for courses taken at another institution, students are strongly urged to seek course credit equivalency approval before leaving Emory. Although students may submit courses for Emory credit post facto, there is no guarantee that the courses taken will be approved by the department.

Finally, all approved credit is pending satisfactory completion of the course. To obtain Emory equivalency credit, students should bring the appropriate Emory College Study Abroad form, along with syllabi or official course descriptions to the Department of Anthropology Office (207 Anthropology Building). The more detailed the information you can provide about the course, the better our ability to evaluate the course for credit. These materials will be reviewed by the director of undergraduate studies in Anthropology, and credit will be approved or denied. Petitions for course substitutions and waivers will be considered by the Anthropology Undergraduate Concerns Committee. Applications are available in the Department of Anthropology office.

Anthropology students are encouraged to become engaged in research under the direction of a faculty member. They may receive academic credit for research participation.

**ART HISTORY DEPARTMENT**

The Art History Department studies the forms, functions, meanings, and theoretical underpinnings of the visual arts, broadly construed to encompass such activities as performance, construction, and installation as well as painting, sculpture, photography, and architecture. Our department considers works of art in historically and culturally specific ways, situating them within systems of belief, habits of visual literacy, practices of self-formation, social and political ideologies, patterns of sacred and secular discourse, assumptions about intentionality and authority, and currencies of global and transnational exchange. We comprise four collaborative faculty clusters: Ancient Mediterranean and American; Medieval/Renaissance/Baroque; Modern/Contemporary European, American, and African; and Architectural Studies. As a department we strive to introduce students to a rich variety of approaches to art and its study, to model for them analytical and critical thinking, and to encourage lucid writing and thoughtful response. At the graduate level, it is our mission to train students in the methods and practices of the field and to prepare them for advanced, artwork-based, interdisciplinary research with a respect for primary evidence and cultural contexts, past and present, so that they can successfully pursue careers in academic or museum work with benefit for the broader community.

ATHLETICS AND RECREATION DEPARTMENT

The Department of Health and Physical Education closed Summer 2013. Courses previously offered by the Department are now offered, and managed, by Athletics and Recreation, a Division of Campus Life, under the banner of "Play Emory." Within this catalog you can see a listing of all currently approved PE courses that may be offered by "Play Emory." For more information on the Play Emory website here: [http://play.emory.edu/play_4_life/index.html](http://play.emory.edu/play_4_life/index.html)

Students in Emory College of Arts and Sciences are required to complete two (2) one-credit-hour courses with either the prefix PE or DANC as part of the General Education Requirements. One course from the area of Principles of Physical Fitness (PPF) and one additional non-PPF elective course must be taken prior to graduation. Students may receive a letter grade or S/U for all courses. Students should register for classes comparable to their skill level. Beginning and intermediate skill levels are offered in a variety of activities. A course may not be repeated for credit unless the course number is followed with the letter R.

To view courses available as part of the Dance Program, please visit their webpage.

Study Abroad

Students may receive credit for physical education courses while they are studying abroad. These courses follow the same criteria as other study abroad courses, i.e., they must be approved in advance by the HPE Department, they must be courses taught for credit at the host institution, they must meet contact hour requirements. All approved courses will earn one semester hour of credit.

BIOLOGY DEPARTMENT

The discipline of biology allows us to understand ourselves and the world around us. This powerful science is discovering the basic mysteries of life and has given us the practical tools to treat diseases, to increase the amount of food that we produce, and to preserve our natural ecosystems. An education in biology offers an excellent preparation for careers in medicine or health care, biological research, ecology, biotechnology, forensic science, as well as many other possibilities. The Department of Biology occupies state-of-the-art laboratories in the O. Wayne Rollins Research Center. Faculty specializations include cell and developmental biology, genetics and molecular biology, ecology and evolutionary biology, and neurobiology and behavior. As part of its primary commitment to undergraduate education, the biology department actively fosters student participation in research with its faculty as well as through cooperative arrangements with scientists at Emory University School of Medicine, the United States Centers for Disease Control and Prevention, and Yerkes National Primate Research Center. Biology department faculty are also heavily involved in programs leading to a PhD. These programs are housed in the Graduate Division of Biological and Biomedical Sciences, and they include faculty from several departments of Emory College and the School of Medicine.

Honors Program

Students who maintain a grade average of 3.5 or higher may qualify for a degree with honors. Honors students must take Biology 495A and 495B, complete a research project, and write and defend an honors thesis based on this research. They must also take one graduate course. See "Honors Program" under the College Curriculum section.

See "Honors Program" under the curriculum section of the catalog and consult the department for further details.

CATHOLIC STUDIES PROGRAM

The Catholic Studies Minor is for students who want to learn about the rich intellectual and cultural traditions of the Roman Catholic Church during the past two millennia and study their impact on western thought.
The CS minor is an academic program, without confessional stance or episcopal oversight, driven throughout by the same spirit of independent scholarly inquiry Emory faculty have brought to the study of other religions and faith traditions.

CHEMISTRY DEPARTMENT

The Department of Chemistry offers excellent educational programs and physical facilities. There are opportunities for a close working relationship with faculty and more advanced students. Students may become involved in research as first-year students. The chemistry building contains well-designed undergraduate laboratories and classrooms plus research facilities that allow more than 150 students, postdoctoral fellows, and faculty to investigate the frontiers of chemistry. The most modern instruments are found in our laboratories, and undergraduates use these facilities on the same basis as other researchers. The chemistry holdings of the Emory University Library are housed in the Chemistry Building so that they are readily accessible to students and faculty working in their laboratories. Master of science and doctor of philosophy degree programs are offered in a variety of fields of chemistry.

Honors Program

Students who have grade point averages of 3.5 or greater are eligible to enroll in the Honors Program. This requires that the student take one graduate chemistry course in addition to the normal degree requirements,
complete a research project supervised or sponsored by a member of the chemistry faculty, and write and defend an honors thesis based on this research. A student must enroll in Chem 495WR for the thesis to satisfy the general education writing requirement.

See "Honors Program" under the curriculum section of the catalog and consult the department for further details.

The chemistry department conducts a six-week summer study abroad program in Siena, Italy. Students receive credit for Chem 260 and 468 taught by Emory faculty and cover the topics of analytical chemistry in the context of wine, art restoration and conservation, forensics, olive oil, and food. Laboratory experience is included as well as guest lectures by the faculty at the University of Siena. For more information, please see Emory College Study Abroad.

Students wishing to declare a Chemistry Major should visit the Chemistry Main Office (Atwood 324) and speak with the Undergraduate Coordinator.

CLASSICS DEPARTMENT (GREEK, LATIN)

The civilization and cultural achievements of ancient Greece and Rome continue to influence our values, the way we think, and the questions we ask. They represent some of our deepest cultural roots and stand at the core of a liberal arts education. The Department of Classics offers students an opportunity to study the languages, literature, culture, and influence of classical antiquity. General courses include such topics as classical mythology, law, religion, women in antiquity, and Greek and Roman literature in translation. Most of these courses have no prerequisites, and several fulfill Emory College General Education Requirements. For students interested in Greek or Latin, language instruction is offered at all levels, from elementary to advanced, both in a classroom setting and in individualized instruction. The department offers several majors and two minors as well as joint majors with other departments. Students interested in integrating the study of Greece and Rome with other Mediterranean Civilizations are encouraged to consult the Program in Ancient Mediterranean Studies in which the Department of Classics is an active participant.

Honors Program

Graduates of Emory may attend the American School of Classical Studies in Athens, Greece, and are eligible to compete for the fellowships offered annually by the school. A similar connection exists with the American Academy in Rome.

Students eligible for the Emory College Honors Program should consult the departmental honors coordinator.

Study Abroad

The department encourages its students to study abroad through the numerous Emory programs that include a strong Classics component.
Advising

Upon declaration of a major or minor all students are assigned an advisor in the department. Students who have not yet declared a major or minor are welcome to consult the Director of Undergraduate Studies or any other member of the department.

Language Study

Language study required for majors and minors in the department varies and can be found under the descriptions for individual majors and minors.

Award

The department awards prizes annually to its top students in the ancient languages.

COMPARATIVE LITERATURE DEPARTMENT

Comparative Literature (commonly abbreviated as "Comp. Lit.") offers students the opportunity to pursue their love of literature beyond national and disciplinary boundaries. It situates the study of literature in a 21st century global context that takes account of cultural and linguistic diversity as well as changing technologies and new media. Majors study literary texts in at least one language other than English, delving into works from the ancient as well as the modern world, and exploring cultural productions from non-Western traditions as well as the so-called "great books" of the West. Students study literature's intersections with other media and disciplines such as philosophy, religion, history, law, film studies, and psychoanalysis, and take courses in areas as varied as Exemplary Novels, French poetry, Russian Film, Literature, Justice, Postcolonial Popular Culture, Disaster Literature or Latin American Magical Realism. Comp. Lit. students also explore important theoretical questions: How do we define the human? How does language function in society? What is the relationship between ethics and religion? How do new technologies require us to rethink social, political, and ethical issues? How do we understand the relationship between history (events that happened) and memory (how we remember those events)?

Honors Program

To receive honors in comparative literature, eligible students select a CPLT Core Faculty adviser, based on the student’s interest and the director’s expertise. Honors candidates are expected to enroll in an appropriate course of directed study (Comparative Literature 495R, offered during both semesters of the senior year) for methodological guidance while writing the thesis. In the fall semester, the student must take Comparative Literature 490R, designed as a graduate-level course for seniors in the Department of Comparative Literature, or (with the thesis director’s and the instructor’s approval) a graduate course relevant to the student’s thesis. Honors students must complete an honors thesis and defend the thesis in an oral examination. In addition to
the adviser, the committee members will include one other member from the comparative literature department and one other examiner who is not a member of the program.

See "Honors Program" under the curriculum section of the catalog and consult the department for further details.

Majors in comparative literature are encouraged to pursue a course of study in any of the Emory Study Abroad Programs (summer, semester, or yearlong). The department gives credit toward the major for two courses under the foreign language requirement and three courses in literature in the original language.

**COMPUTER SCIENCE DEPARTMENT**

Computer Science is central to all aspects of modern life. CS encompasses intrinsic issues of algorithms, data, and systems, as well as applications to society, health, science, and humanity. The Emory CS department conducts innovative research in these areas and offers bachelors, masters, and doctoral degrees in CS and several interdisciplinary areas. Undergraduate CS majors may pursue either a bachelor of arts or bachelor of science degree. The department also offers a joint BS in Math and Computer Science, as well as minors in CS and in Informatics. Although the BA and BS programs have different objectives, both emphasize the principles of computer science and underlying quantitative foundations. The department is home to a wide range of modern computing equipment and student laboratories, and all undergraduate programs include intensive immersive experiences in computer programming, system building, and contemporary topics in big data and artificial intelligence.

**CREATIVE WRITING PROGRAM**

In the Creative Writing Program at Emory students study both art and craft: the literary traditions in which they write and the elements of craft in poetry, fiction, playwriting, screenwriting, and creative nonfiction. The program fosters their development as writers, through an emphasis on reading as a writer, generating material, and revision.
DANCE PROGRAM

The Emory Dance Program provides a range of opportunities for students to experience dance, from performance and production to technique and theory. The mission of the Emory Dance Program is to provide a curriculum that interweaves both the practical and theoretical to foster students' creative, intellectual, and communicative powers in the field of dance. The Emory Dance Program emphasizes performance and choreography, based on the primary tenets of modern dance, which value individualism, innovation, and interdisciplinary approaches to the arts.

The study of dance is perhaps the most unique and all-encompassing pursuit in the fine arts. It involves the total exploration of the self-emotional, intellectual, and kinesthetic. The program develops students' awareness and appreciation of movement in all its diverse forms and their ability to communicate through non-verbal expression. Dance develops insights into a broad range of studies; therefore it plays a viable role in the liberal arts education. Since dance is so multi-faceted, it enhances the student's preparation for a variety of careers.

The Dance Program is housed within the Theater and Dance Department.

Study Abroad
Consult with the Dance Program faculty for information about study abroad opportunities.

Advising
Each dance major and minor is assigned a faculty advisor who will assist them in planning their course of study. Advisors also facilitate research projects, internships, and off-campus study opportunities.

Internship
Students may receive credit for internships with local dance organizations. Dance faculty can help students find an appropriate internship for their skills and interests.
The Sally A. Radell Friends of Dance Summer Scholarship Program was established in 1996 to make summer dance study more accessible to Emory students. It enables dance majors and minors to study either in the United States or abroad with notable practicing artists, dance programs, and dance companies of their choice.

Established in 2014, the Friends of Dance mini grants support dance majors or minors doing research in movement, dance writing or health sciences. These grants specifically support short-term workshops and conferences. (3-4 days-up to one week)

Nominated and selected by Emory Dance Faculty and awarded to a senior who is "breaking new ground," the Pioneer Award recognizes creative application and creative potential in the field of dance. It is defined by an in-depth investigation in technique, performance, choreography, or movement studies.

Independent study projects in dance can be arranged in the areas of technical production, choreography, historical or theoretical research, performance, directing, or choreography. Scholarly Inquiry and Research at Emory (SIRE) awards grants for independent research and honors projects. Dance faculty are available to assist students in the application process.

EAST ASIAN STUDIES

The East Asian Studies Program of Emory University is administered under the Department of Russian and East Asian Languages and Cultures to promote and coordinate events and activities related to China, Japan, Korea and broader East Asia. Associated faculty include specialists in anthropology, literature, philosophy, politics, religion, history, and music.

The East Asian Studies Program supports an undergraduate degree (major or minor) in East Asian Studies. Students may also major and minor in Chinese or Japanese through REALC.

ECONOMICS DEPARTMENT

Economics seeks to understand and predict human action and choice. Economic theory rests on the idea that human action is purposeful and best understood from the vantage point of a person choosing among explicitly defined alternatives. Economic theory applies principles developed from the logic of choice to the resolution of interpersonal conflicts of interest and the coordination of productive activity in a world of scarce resources. The study of economics equips students to analyze a broad range of social, political, legal, and economic phenomena and public policy. The study of market regulation, environmental protection, economic growth and development, financial markets, international trade and finance, the distribution of income, inflation, and the level of employment are the stock in trade of economics. But economists also analyze a far broader set of issues, including the nature of the family, the origins of civilizations, discrimination, crime, and the structures of law and politics. Economics provides a versatile background for postgraduate professional or academic training. Economics offers a framework for the analysis of rules of liability and property rights and thus undergirds much of the modern study of law and legal institutions. A growing number of law students find it useful to prepare for this training by majoring in economics during their tenure as undergraduates. Economics also contains the theoretical core for business, finance, accounting, and marketing and thus provides a solid foundation for postgraduate work in business administration. Many private sector job opportunities are available for economics majors in the banking industry, brokerage houses, investment banks, insurance companies, and law firms. Economics majors can work as financial analysts, risk management analysts, forecasters, or analyst staff members in litigation or merger and acquisition departments. Economics majors can also work as policy analysts for one of the Federal Reserve Banks as well as various government agencies at the federal, state, or local level.

Emory College 2021 – 2022 Catalog
The Honors Program is available to outstanding students in Economics, Economics/Mathematics, and Economics/History. Students with a cumulative average of 3.50 (for all courses taken at Emory) at the end of their third year may be invited to participate. The number of students admitted to the Honors Program is determined by the Economics Department's capacity for advising honors theses, so a 3.5+ GPA does not automatically lead to admission into the program. (Note that in recent years, typical GPA of invitees has exceeded 3.75.)

Administered by the Emory College Honors Committee, this program enables students to do intensive work in a chosen area and, therefore, involves work that extends beyond ordinary course requirements and standards of performance. Students must complete Economics 201, 212, and 220 previous to entering the Honors program (i.e., previous to the Fall Semester of their senior year). Students enrolled in the Honors program must complete either Economics 420 or Economics 422 by the end of the Fall semester of their senior year. Preference will be given to students who have completed Economics 420 or 422 by the end of their third year. Students enrolled in the Honors program must complete Economics 495A during the Fall Semester of their senior year and may enroll in Economics 495B during the Spring Semester of their senior year.

An examination covering the honors work, including the thesis and allied fields, is given upon completion of the program. One examiner must be chosen from outside the department. Examiners recommend the degree of honors (honors, high honors, highest honors) to the Honors Committee. Honors (cum laude) represents satisfactory completion of the program, together with an overall average of 3.50. High Honors (magna cum laude) represents completion of the program with outstanding performance, including an overall average of 3.50 and a thesis of quality sufficient for oral presentation to scholars in the candidate's field. Highest Honors (summa cum laude) represents completion of the program with exceptional performance, including an overall average of 3.50 and a thesis of a quality suitable for submission for publication.
A student may complete Honors in the joint Mathematics/Economics major by completing the requirements for Honors either in the Mathematics Department or in the Economics Department. Participation in the Honors Program in both departments is by invitation only. The student's Honors committee must include at least one faculty member from the Economics Department, one faculty member from the Mathematics Department, and one faculty department from a department other than either the Economics or the Mathematics Departments.

Students interested in a study abroad program are encouraged to contact Emory College Study Abroad and review the Economics Department Rules on Study Abroad.

The Economics Department offers an internship course, ECONOMICS 449, which is open only to economics majors and minors. Students are enrolled by permission only and they must have already completed ECONOMICS 201, 212, and 220. The course carries two credit hours taken on an S/U basis and it will not count toward the 10 courses you need to satisfy the majors requirements. The Economics department internship can be taken during the fall, spring or summer semester.

To register for the course, which is by permission only, the students are required to download the registration form (click here to download the form) and talk to their faculty advisors about the internship opportunity when they schedule courses during pre-registration. The advisor checks the prerequisites and approves the internship provided that it is compatible with the student's course of study. In a similar fashion, minors secure permission from the Director of Undergraduate Studies. The completed internship form must be turned into the Undergraduate Program Coordinator to register. Once registered the student reports to the faculty in charge of the internship course.

A report discussing how the internship experience related to your economic training and in what ways it helped your professional development is to be turned in to the course faculty or the Undergraduate Program Coordinator on the last day of classes for the semester enrolled. See the Undergraduate Program Coordinator for further details.

Students who would like to get internship credit over the summer at reduced cost should see Emory College's Summer Internship Program at: http://college.emory.edu/oue/academic-programs/internships/index.html. Here the students earn college credit (rather than economics credit) but at a much lower tuition cost.

Three prizes are awarded by the Department annually: (1) the Jack and Lewis Greenhut Award for excellence in economics and promise for graduate studies; (2) the Tate Whitman Award in Economics for analytic clarity, personal integrity, and leadership; and (3) the George Benston and Richard F. Muth Award for intellectual curiosity, passion, and skill in economic analysis.

Emory College 2021 – 2022 Catalog
in the techniques of analysis, research, and writing. It provides an educational foundation of critical thinking, sound judgment, and clear writing valuable to students planning careers in business, teaching, law, medicine, or other fields.

ENVIRONMENTAL SCIENCES DEPARTMENT

The Department of Environmental Sciences' interdisciplinary and integrative curriculum is designed to equip students with key skills and knowledge to understand and confront complex environmental issues. The curriculum is rooted in the basic disciplines of ecology and conservation, earth science, and social science and policy. Field and integrative courses compel students to synthesize
concepts, methods and practice from these essential disciplines. Undergraduate research opportunities and internships are emphasized. The department offers a BA, BS, three minor options, a concentration in Environment and Sustainability Management with the Goizueta Business School, and two 4+1 programs: one BS/MPH with Rollins and a BS/MS program housed within our department.

FILM AND MEDIA DEPARTMENT

We are surrounded by moving images-on television, in movie theaters, on our computers, and even in electronic billboards. If you can understand the ways in which media communicate visually and with sound, you can become a more media literate, perceptive, discerning and skeptical citizen in the globalized 21st century.

The mission of the Film and Media Studies Department is to teach students how to make this kind of media literacy a part of their everyday lives by always thinking critically about the ways in which images and sounds create ideas. We train undergraduate and graduate students to be discerning consumers, scholars and producers of our most influential cultural forms, by grounding them in a thorough knowledge of American and international film and television history, the practices of media theory and criticism, as well as familiarizing them with the tools and methodologies of fiction and documentary filmmaking.

Our medium-sized department provides students with close mentoring and an individually tailored course of study. Our majors and minors are highly motivated, passionately enthusiastic and thoroughly trained in the perception and interpretation of moving images, and as well as the skills necessary to communicate their ideas orally and in writing.

Our majors and minors go on to careers in medicine, the law, business, publishing, the media entertainment industry (television networks, talent agencies, production companies) and academia, armed with the critical thinking skills that are the hallmark of an interdisciplinary liberal arts education. They are well prepared for whatever career they choose to pursue. In short, the Film and Media Studies Department plays a crucial role in the mission of Emory's College: to prepare students "to be responsible and well-informed citizens of the world.

FRENCH AND ITALIAN STUDIES DEPARTMENT

The Department of French and Italian Studies offers a wide range of courses in both languages as well as some courses in English, many of which are cross-listed with other departments. A student can major or minor in both French Studies and Italian Studies.

The [Italian Studies webpage](#) provides more detail about that particular program.

**Study Abroad**

 Majors in French are strongly encouraged to spend at least one semester, usually during their junior year, abroad in one of the department’s approved programs. The department conducts its own summer program in Paris and sponsors a semester/year program in Paris with Duke and Cornell, EDUCO. Students enrolled in the latter program may choose from a wide variety of classes offered both at the EDUCO center and at several French institutions, including three branches of the University of Paris, I, IV, and VII. Selected students also may study at the prestigious Institut des Sciences Politiques (year program only). The department gives credit
toward the French studies major or minor only for classes taken through an Emory program. However, in specific cases, and upon preapproval by the French director of undergraduate studies and the Emory College Study Abroad office, some credit may be earned overseas in programs sponsored by other institutions that offer courses or career opportunities not available through Emory.

The Mrs. B.R. Bray Prize is offered annually for the year's best work in French. Sigma chapter of Phi Sigma Iota, the national Foreign language honor society, was installed at Emory in 1930.

GERMAN STUDIES DEPARTMENT

The German Studies Department offers a major and minor degree in German Studies. Courses range from introductory level instruction to advanced studies seminars. Students may choose from courses in literature, culture, German film, history, music, business, and Yiddish studies.

Honors Program
Qualified German Studies majors are encouraged to consider writing an honors thesis their senior year. Preparation for the thesis should already begin during the fall semester of the junior year when possible directions and topics for the thesis should be discussed with departmental faculty and a research timeline can be established to complete the thesis by mid-March of their senior year. Interested students should also be aware of the funding opportunities in Emory College through the SIRE program or the Fox Center for Humanistic Inquiry to support honor’s thesis work. Students writing an honor’s thesis are encouraged to present their research at the annual Undergraduate Research Symposium in April of their senior year.

Study Abroad
All undergraduate students at Emory are invited and all students in German are encouraged to participate in the department's summer program in Vienna, Austria (see German 370A/B), which provides cultural immersion as well intensive language instruction. Students majoring in German studies are strongly urged to spend a regular semester or the junior year with an approved program of study in a German-speaking country. Programs are currently available in Freiburg, Berlin, and Vienna; for details contact the Emory College Study Abroad Office or the Department of German Studies.

Advising
For further assistance regarding studying German at Emory, contact the Director of Undergraduate Studies in the department. The Director of Undergraduate Studies also serves as the advisor to all majors and minors.

US-GERMAN INTERNSHIP PROGRAM

In conjunction with the American Chamber of Commerce in Germany, the department is pleased to offer its own summer internship program that arranges summer positions in Germany for up to five students each year. Contact the Director of Undergraduate Studies in the department for more information.

Each year the Department of German Studies recognizes outstanding achievement in German by awarding DER SPRACHPREIS FOR GERMAN LANGUAGE ACQUISITION, the GERMAN STUDIES AWARD FOR EXCELLENCE, and the PRIZE FOR YIDDISH LANGUAGE ACQUISITION. In addition, the Emory College Language Center awards a prize each year for excellence in the study of German.

HISTORY DEPARTMENT
At Emory, history is a discipline belonging to both the humanities and the social sciences. On the undergraduate level, its study is aimed not so much at training future historians as at training students to think historically. This involves the mastery of a certain amount of factual information, but never as an end in itself. Thinking historically means learning how to deal critically with evidence and to recognize relationships in order to understand that our own times are what they are because of the past. The history department offers a large number of individual courses in American and European history plus coverage of Latin America, Africa, East Asia (China and Japan), and the Near East (including Israel).

History majors and joint majors with a 3.50 cumulative average and a 3.50 major average in their junior year are eligible to apply to participate in the History honors program. Eligible students will be expected to complete a short application for admission into the History honors program in the first semester of their junior year. Exceptions to the 3.50 cumulative-average requirement require a formal petition, in conjunction with the Department Honors Coordinator, to the College Honors Committee.

### Honors Program
Though normally beginning in the JUNIOR year for majors, the honors program is a SENIOR-year (two semester) program within the College; therefore, students will not be OFFICIALLY admitted to the honors program until the fall of their senior year (with the exception of second-semester juniors who expect to graduate the following fall). The Department, however, will expect its honors students to begin their honors...
studies in the spring of their JUNIOR year, barring extraordinary circumstances. Requests for late admission (in the spring semester of the junior year) require a petition to the Department Honors Coordinator explaining the special circumstances for the late admission (study abroad, late declaration of major, etc.). The History Department is flexible on sequencing but we wish to stress the importance of beginning the program in the student’s junior year.

PROGRAM REQUIREMENTS

A MINIMUM OF 12 HISTORY COURSES

Including at least 8 courses at or above the 300 level and at least 2 courses outside the student's major concentration field (European, World or U.S. history).

No history courses may be taken S/U to be credited to the honors requirements.

3 COURSES OF REQUIRED HONORS-PROGRAM COURSES (included in the 12 courses required for the history major) Hist.495A, a 500-level graduate seminar, and Hist.495BW.

HISTORY 495A, "INTRODUCTION TO HISTORICAL INTERPRETATION," is a required course of the History honors program. Although offered in both Fall and Spring semesters, History 495A is normally taken in the Spring semester of the junior year and must be taken by the end of the Fall semester of the senior year. The course addresses historiographical and methodological issues and offers practical guidance in thesis design and research.

A 500-LEVEL GRADUATE SEMINAR is normally taken in the Spring semester of the junior year or the Fall semester of the senior year. Students who wish to take their graduate seminar in another semester due to its greater suitability to their thesis topic may petition the Department Honors Coordinator for an exception. If no appropriate graduate seminar is being offered at any time in the year, candidates may petition to substitute an undergraduate colloquium to be taken as History 596R "Special Studies." Honors students may use graduate seminar courses (500-level) to fulfill the history major colloquia requirement; however, graduate seminars do not meet the College continuing writing requirement.

HISTORY 495BW is the thesis-writing section of History 495. Normally, this course is taken in the spring semester of the senior year (i.e., in the student’s last undergraduate semester) and is organized around the writing of the honors thesis.

PROJECT PROPOSAL

Students will submit an honors project proposal (normally completed in the honors seminar, Hist.495A) to the Department and their thesis advisor, ON OR BEFORE THE LAST MONDAY IN APRIL of the junior year (or the LAST MONDAY OF NOVEMBER of the senior year for late admissions to the Department honors program).

HONORS THESIS

An honors thesis, usually BETWEEN 40 AND 60 PAGES, based on original research (as per the College honors program specifications) must be completed in conjunction with the College honors program deadlines.

Note on Joint Major Requirements

Please note that JOINT MAJORS (History/Art History, Classics/History, English/History, Religion/History) must choose to follow the honors program requirements of ONE OF THE JOINT MAJORS and adhere to the joint-major honors examination procedures (below).

THESIS EXAMINATION COMMITTEE
FOR HISTORY MAJORS

The thesis examining committee will be composed of three faculty members, one of whom must be from a department other than history. The examination will be oral and will cover the thesis.

FOR JOINT MAJORS

The thesis examining committee will be composed of three faculty members: one from the history department, one from the joint-major department, and one from outside both of the joint-major departments. The examination will be oral and will cover the thesis.

Study abroad course approval and evaluation of credit: The history department does not pre-approve study abroad courses. To receive Emory history credit for study abroad courses, the student must: 1) take a history course in a history department in an approved study abroad university; and, 2) submit written work following dept. guidelines for approval of credit. Written work guidelines: To be considered for upper-level (Hist.385) credit, students must complete a 3,000 word research paper with proper use and citation of sources. To be considered for lower-level (Hist.285) credit, students must complete 2,000 words of written, graded work in the form of one or more short essays, or some other appropriate form (not in-class exams or journals). Upon returning to Emory, students should submit all written work and course syllabus to Becky Herring, Undergraduate Program Coordinator, who will forward these materials to the Director of Undergraduate Studies for approval and evaluation of credit.

To ensure that history majors make steady progress toward timely graduation, the history department has a mandatory advising policy. Students must meet with a history advisor and obtain her/his signature during the pre-registration advising periods.

HISTORY 494

The history department's internship program provides students with the opportunity to apply their academic knowledge to practical experience. The internship must engage historical issues and materials. The student is responsible for identifying and securing acceptance to an internship position. All student internship projects must be approved by the history department's director of undergraduate studies, who can supply suggestions and information on possible internships.

ELIGIBILITY

To be eligible a student must:

1) be a history major
2) be a junior or a senior
3) have a minimum 3.0 cumulative GPA
4) offer an internship project relevant to the study of history

APPLICATION

Students interested in enrolling in the history department’s internship program must:

1) contact the sponsoring institution and make all arrangements of the internship
2) complete an application (available from the history department)
3) provide a brief proposal specifying the nature and scope of the internship and research paper with particular attention to the historical relevance of this work

4) obtain the approval of the history department's director of undergraduate studies

COURSE REQUIREMENTS

1) a prescribed number of hours working at the sponsoring institution, validated by a time sheet signed by the supervisor

2) a research paper of a prescribed length on an historical topic

3) a one-page evaluation by the student of the internship experience

4) a letter of evaluation from the student's supervisor at the sponsoring institution

COURSE CREDITS

All internships are expected to last fourteen weeks, earning four credit hours for ten to twelve hours of work per week, and conclude with a fifteen-page research paper. The paper must be submitted to the director of undergraduate studies by the last day of classes.

GRADES

The course grade is based on the supervisor's written evaluation of the intern's performance (50%), and on the quality of the research paper (50%) as evaluated by the history department’s director of undergraduate studies.

Established in 2006, the Clio Prizes are awarded annually to the best research paper written in a junior/senior history colloquium and to the best paper written in a freshman history seminar.

The George P. Cuttino Scholarship, established in 1984, is awarded to a junior for travel and research in Europe during the summer before the senior year. The George P. Cuttino Summer Study Fellowships are awarded to juniors for study outside the United States in a summer study program. Scholarship and fellowship applications are requested in early spring semester.

The Theodore H. Jack Award, established in 1992, is awarded to a history major or joint major with senior status (75+ credit hours) during the summer before the senior year for travel and research in the United States.

The James Z. Rabun Prize, established in 1981, is awarded annually to the graduating senior who has achieved the most outstanding student in the field of American history.

The George P. Cuttino Prize, established in 1984, is awarded annually to the graduating senior who has achieved the most outstanding student in European history.

The Latin America and Non-Western World Prize, established in 2015, is awarded annually to the senior who has achieved the best overall record in Latin American and Non-Western World history.

The Matthew A. Carter Citizen-Scholar Award, established in September 2000 in memory of a former student, is given annually to the graduating senior who exemplifies the qualities that made Matt Carter such an outstanding individual: high academic achievement and good works in the community.
Phi Alpha Theta is the international history honorary society. Local membership is determined by grade average and course hour requirements as set forth by the international council. Invitations to join are sent to eligible majors in early spring semester.

### HUMAN HEALTH

The Center for the Study of Human Health is the nexus for cross-disciplinary, cross-institutional collaboration on health and provides the organizational structure to accomplish horizontal integration of Emory’s extraordinary and diverse assets. The Center achieves connections and synergies in health education, research and practice fostering intellectual exchange among a community of scholars whose interests span the science of health and the social and cultural dimensions of health and humanity.

### INSTITUTE OF THE LIBERAL ARTS DEPARTMENT

This major is for independently minded, motivated students, who have a desire to study an individualized topic that draws on two or more disciplinary methodologies.

The history of Emory’s ILA, which dates back to the 1950s, has included various programs in innovative interdisciplinary education and research, at both the undergraduate and graduate levels. The ILA has always had a strong commitment to faculty collaborations that cross disciplinary boundaries, and to public and experimental forms of scholarship. As an institute committed to the exploration of forms of knowledge that are enriched by dialogue across disciplines and departments, the ILA seeks to be a catalyst for intellectual conversations aimed at understanding the cohesion and potential of the liberal arts, and the significance and social responsibilities of science and scholarship in the 21st century.

Recent students in the ILA have used the Interdisciplinary Studies (IDS) and American Studies (AMST) Majors to focus on an array of student-designed topics, from art history and politics, to biases in the treatment in U.S. high school history texts of the WWII internment of Japanese Americans.

When they declare, majors are assigned faculty co-advisors, generally including the DUS or one of the core IDS faculty, and a faculty member from any department with specific expertise in the student's area of interdisciplinary research. The co-advisors will work closely with each student to complete an IDS or AMST proposal that specifies relevant courses as major requirements, subject to revisions to be approved by both co-advisors.

Undergraduate interdisciplinary study proceeds on the hypothesis that some, if not all, subjects require methodologies, evidence, or texts drawn from more than one discipline, if they are to be understood deeply. Three pillars structure each student’s experience in the undergraduate programs of the ILA:

- a critical perspective on the history, inter-relationship, and contested nature of disciplinary boundaries, specifically with reference to social structures of education and higher education
- a focus on writing as a crucial dimension of fully engaged reading, understanding, and public scholarship

- vibrant co-teaching as a model and embodiment of interdisciplinary inquiry and learning at the undergraduate level

**Honors Program**
Honors students, identified in their Junior year in their work in IDS 390 will take a minimum of one, and will be encouraged to take two semesters of IDS 495R or AMST 495R Honors Research. During the fall term the students will meet in a seminar-like setting on a weekly basis with the aim of producing a significant first draft of their future Honors project. This project will be further researched and revised during an (optional) spring semester of 495R.

**Study Abroad**
The IDS and AMST programs encourage study abroad and understanding of other cultures. In consultation with the director of undergraduate studies, study-abroad courses can be counted toward the IDS or AMST major concentration course requirements.

**Internship**
The IDS and AMST programs recognize that there can be real value to integrating the theory of academic studies with the practice of real-world experience, or in learning more about a prospective vocation through an internship. We therefore offer IDS 485R and AMST 496 as a permission-only variable credit courses every semester (including summer). Please contact for details.

**ITALIAN STUDIES PROGRAM**

The Italian Studies program is an interdisciplinary program based in the Department of French and Italian, with academic links to several other Emory College of Arts and Sciences departments. The program takes pride in the close faculty/student teaching and mentoring relationships fostered. We offer a wide range of excellent study abroad programs in Italy, both during the summer as well as during the Fall and Spring semesters.

**JEWISH STUDIES PROGRAM**

The Jewish studies program examines Jews and Judaism from the perspective of different disciplines in the humanities and social sciences, such as history, religious studies, language and linguistics, literature, theology, political science, and anthropology. This interdisciplinary approach has two objectives: first, to train students in understanding various aspects of Jews and Judaism; and second, to expose students to the serious investigation of topics with different disciplines and methodologies. The program offers a unique opportunity to pursue a high-quality liberal arts education while providing an excellent foundation for students who would like to pursue Jewish studies in graduate school, enroll in a rabbinical program, or work in Jewish organizations and communities. Students who major in Jewish studies will take nine courses and also will gain advanced language proficiency in Hebrew or another Judaic language.

Honors Program
Students may write an Honors Thesis in accordance with the requirements of the College. In this case they may be required to take one Graduate course which will replace one of the elective courses.

As part of its undergraduate program, the Institute for Jewish Studies participates in several study abroad programs. For more information on programs at Hebrew University, Tel Aviv University, CET Prague, and CIEE Prague, please visit the Office of International and Summer Programs website.

Study Abroad
Additionally, TIJS will in many cases also accept transfer credit from other study abroad programs for courses in Jewish studies, with prior approval of the undergraduate director.

Language Study
Hebrew language and Arabic courses are offered through the Department of Middle Eastern and South Asian Studies (MESAS) and will count towards fulfillment of the Jewish Studies major. These languages are an integral part of the Jewish Studies program.

The Tam Institute for Jewish Studies offers grants to support students’ academic endeavors in Jewish Studies beyond regular coursework and classroom activities, including year-long, semester-long, or summer study abroad programs (primarily for undergraduates), off-campus language study (for training beyond what is offered at Emory), research (primarily for theses or Ph.D. dissertations), and travel to attend or present papers at scholarly conferences (primarily for graduate students). TIJS will accept grant applications twice every year: In the Fall for academic-year grants and in the Spring for Summer grants. Typically, academic-year support is reserved for graduate students who need assistance with travel and research, but applications from undergraduates will be considered under extraordinary circumstances. Summer grants are regularly awarded to both undergraduates and graduate students. For more information, please visit http://www.js.emory.edu/grants/index.html

LATIN AMERICAN AND CARIBBEAN STUDIES PROGRAM

The Program in Latin American and Caribbean Studies promotes a multidisciplinary understanding of culture, history, and contemporary issues in the region. Students take courses that examine the region from a wide array of disciplinary perspectives, while simultaneously deepening their knowledge of Latin America and the Caribbean within a disciplinary concentration. A student who completes this program receives a degree in Latin American and Caribbean Studies with a concentration in a single discipline. Students are encouraged to pursue part of their education studying abroad in Latin America or the Caribbean. A maximum of sixteen credit hours of foreign study can be applied towards the major, with the approval of the program’s Director of Undergraduate
Studies. In addition to its course offerings, the Program in Latin American and Caribbean Studies regularly sponsors lectures, seminars, exhibitions, and films. It also hosts visiting scholars and encourages student internships.

**LINGUISTICS PROGRAM**

Linguistics, the systematic scientific study of human language and communication, is a broad field that investigates a range of questions regarding the remarkable fact that humans produce and use language. At Emory University we take an interdisciplinary approach, looking at language in relation to cognition, culture, social identity, history, philosophy, and aesthetics. Our questions include: What enables humans to produce and understand sentences that they have never heard before? What are the basic building blocks of human languages? How do children learn language? How do people use language in multilingual contexts? How are patterns of thinking shaped by language? Why do languages change over time? How do meanings get attached to words? The Program in Linguistics faculty are based in numerous departments across the college, representing the contemporary field of linguistics, as it is situated at the intersection of the social sciences and the humanities. The program directs a minor in linguistics, a major in linguistics, and a joint major in psychology and linguistics and coordinates a Linguistics Study Abroad Program in Amsterdam. The program facilitates academic discussion on language and linguistics on campus and sponsors events connected to linguistics. The program also sponsors an annual Linguistics Student Research Symposium. Students are encouraged to check the program webpage at www.linguistics.emory.edu for updates on programs of study (majors and minor), courses, and events.

Honors Program

The Honors Program in Linguistics is intended to provide a select group of students with experience in conducting research focused on the study of human language. Generally, this research will fall primarily within one or more of the three orientations identified in the Major in Linguistics: cognitive, structural or sociocultural (contextual) approaches to the study of language. Students with an overall grade point average of at least 3.5 in the first three years and with at least a 3.5 GPA in their major courses will be notified by the Program in Linguistics in the Spring of their junior year that they are eligible to participate in the Linguistics Honors Program, and will be invited to an orientation meeting which will fully explain the program. Students will be responsible for defining a project and finding a faculty member who is willing to serve as advisor.

Study Abroad

The Amsterdam exchange program offers students the opportunity to take a range of courses taught in English while exploring Dutch culture and one of the world's great multicultural and multilingual cities. Students who are majors in linguistics are encouraged to take coursework abroad as part of their Emory academic degree program. Emory students can choose to study at Vrije Universiteit Amsterdam (VU) or Universiteit van Amsterdam (UvA). Please contact Emory College Study Abroad or the Program in Linguistics for more information.

Advising

Majors are assigned an academic advisor and should meet with that advisor on a regular basis to discuss courses to take to meet the requirements for the major. In addition, students should talk to their advisors about future career plans if they include graduate training, as there may be additional courses they should take for entrance to graduate school. Advisors will be available during Pre-registration. Sign-up sheets are placed outside each advisor's office in the weeks before Pre-registration. It is strongly advised that students sign up as early as possible for advising. However, advisors often have more time to spend with students at times other than Pre-registration. Please take advantage of these times when scheduling appointments.

Language Study

Linguistics majors and minors are required to take two foreign language courses.

1. Two courses in one foreign language at the 200-level or above or

2. Two courses in two different foreign languages at any level, with approval from the Director of Undergraduate Studies.

Award

Phi Sigma Iota, the International Foreign Language Honor Society, is open to outstanding students of linguistics and foreign languages. Minimum qualifications for students applying for membership based on achievement in linguistics are: (1) overall GPA of 3.3 or higher, and (2) completion of at least 20 credit hours in Linguistics with an "A-" (3.67) average in linguistics courses.

MATHEMATICS DEPARTMENT
Mathematics is a discipline central to the liberal arts curriculum and to scholarly endeavors in all domains to prepare students for careers requiring strong analytical skills. The department at Emory offers educational programs and conducts research in mathematics, as well as several interdisciplinary areas.

MEDIEVAL STUDIES PROGRAM

The Program in Medieval Studies at Emory University promotes interdisciplinary and cross-cultural studies of medieval societies and cultures from Late Antiquity to the seventeenth century by offering an Undergraduate Major in Medieval-Renaissance Studies in Emory College and a Graduate Certificate Program in Medieval Studies for graduate students working in departmental doctoral programs. (Note: The Undergraduate Major in Medieval-Renaissance Studies has been suspended)

The Medieval Studies Program also sponsors lectures, symposia, monthly roundtables, and other gatherings for the presentation and discussion of scholarly work by faculty and students on Medieval Studies and on the different areas of study that constitute it.

Organized as a program of Emory's Graduate Institute of Liberal Arts, the Medieval Studies Program is administered by a Director, a Steering Committee, and a Committee on Medieval Studies. Faculty associated with the Medieval Studies Program hold appointments in Art History, Classics, Comparative Literature, English, French and Italian, German Studies, History, Jewish Studies, Middle Eastern Studies, Music, Philosophy, Religion, and Spanish and Portuguese; in the Candler School of Theology; and at the Beck Center at Woodruff Library.

MIDDLE EASTERN AND SOUTH ASIAN STUDIES DEPARTMENT (ARABIC, HEBREW, HINDI, PERSIAN, TIBETAN)

The Department of Middle Eastern and South Asian Studies offers a wide range of courses on the languages, literatures, cultures, history, and archaeology of the region. A major in Middle Eastern and South Asian studies combines the study of one or more of the languages of the region with the cultural, literary, historical, archaeological, and religious aspects of the area. This major prepares students for careers in government service, international affairs, and graduate studies. Majors in Middle Eastern and South Asian studies may elect to concentrate in specific subareas of the Middle East, such as Judaic studies, Islamic studies, South Asian studies, or archaeology. The Department of Middle Eastern and South Asian Studies also offers minors in Arabic, Hebrew, Hindi, Persian, Tibetan and Mediterranean archaeology.

Honors Program
To receive honors in Middle Eastern and South Asian Studies, eligible students select an adviser from among the faculty of the department. The adviser should be chosen on the basis of his or her expertise in the topic to be examined in the thesis. During the senior year, honors students enroll in Middle Eastern Studies 495RWR in the fall and spring semesters. Honors students must complete an honors thesis and defend it in an oral
hearing. In addition to the adviser, the committee of examiners will include one other faculty member of the department and one faculty member from outside the department.

The Middle Eastern and South Asian Studies Department sponsors two summer study abroad programs: Emory Experience in Israel and Archaeology. In addition, the department sponsors two Junior Semester Abroad Programs: one at the American University in Cairo and one at Tel Aviv University. These two programs are administered by Emory College Study Abroad. For further information on these programs contact the Middle Eastern and South Asian Studies Department or Emory College Study Abroad. Majors in Middle Eastern Studies have also studied abroad at other Emory College Study Abroad approved programs, including the University of London’s School of Oriental and African Studies.

### Music Department

The Department of Music at Emory University offers a wide range of musical experiences in the classroom, performance hall, and studio. Students can receive individualized instruction from Atlanta’s finest professional artists and performers, including members of the Atlanta Symphony Orchestra, and take courses in music theory, music history and literature, world music and culture, composition, and performance practices. Ensembles for chorus, symphonic winds, orchestra, jazz, and chamber music are a regular part of the music program and are open to music majors and to students pursuing other fields of primary study. Students who major in music work toward a bachelor of arts degree, which provides development as a performer through private instruction and ensemble participation, a solid grounding in theory and musicianship, and a comprehensive background in the history and literature of music. Emory offers private lessons in piano, voice, strings, winds, guitar, percussion, jazz studies, and nonwestern instruments to all students who pass an audition. Students have the opportunity to perform in recitals that are open to the public. The department sponsors a variety of ensembles, including the University Chorus, Symphony Orchestra, Concert Choir, Wind Ensemble, Jazz Ensembles, World Music Ensembles, and Chamber Ensembles. All students are encouraged to participate; auditions for ensembles are held at the beginning of each semester. Emory presents a full calendar of musical events throughout the school year. The Music at Emory Series and the Flora Glenn Candler Artists Series bring musicians of national and international stature to campus. The Emory Chamber Music Society of Atlanta and the VEGA String Quartet, in residence at Emory, present the finest in chamber literature, and their members teach and coach Emory students on a regular basis. In addition, the metropolitan Atlanta area offers a wide array of music opportunities to Emory students.

Students may complete an honors project in music in several different areas or combinations thereof: composition, culminating in a recital of original compositions; performance, culminating in a solo recital accompanied by program notes; research, culminating in a written thesis. Students may also propose a combination, or hybrid, honors project that combines research with either performance or composition.

All Music majors are assigned a faculty-student advisor pair to assist them collaboratively in planning a course of study. Since many Emory music majors are double majors, this approach provides enhanced academic support through TWO mentorship outlets. It provides guidance on how to balance the requirements of both of their majors, and it encourages students to explore interdisciplinary study in accordance with Emory's commitment to a well-rounded, liberal arts education.

MUSIC SCHOLARSHIPS

The Dean's Music Scholarships

The Department of Music offers a number of Dean's Music Scholarships for instrumental and vocal students. These scholarships are available for incoming Freshmen only and can be half, two-thirds or full tuition, tenable for four years. Candidates for this scholarship must show exceptional promise.

Music Department Scholarships for Private Lessons

Several partial scholarships are available to deserving students who are enrolled in private lessons and participate in music performance. Students who receive an award must enroll in MUS 310 or 320 and fulfill all requirements of the course. SEE THE DEPARTMENT OF MUSIC WEBSITE FOR DETAILS.

Music Department Grants and Awards

Atlanta Symphony Chorus Robert Shaw Memorial: Outstanding Singer Award
Blumenthal Award
Friends of Music Junior and Senior Awards
Friends of Music Research Grant

AUDITIONS
Most performing ensembles and private lessons require an audition. Auditions are held in August during the first week of classes. Students must audition before declaring a music major.

NEUROSCIENCE AND BEHAVIORAL BIOLOGY PROGRAM

The Neuroscience and Behavioral Biology (NBB) major is an interdisciplinary program that provides a unique science background and an excellent foundation for advanced studies in biological and behavioral research as well as medicine. NBB has become one of the "signature" programs of Emory College and has over 500 majors and approximately 140 students each year graduate with a Bachelor of Science degree. The program draws upon the resources, expertise, enthusiasm, and commitment of a diverse faculty, including representatives from biology, psychology, anthropology, chemistry, philosophy, and the School of Medicine. The NBB faculty includes 25 members who have been designated Emory Distinguished Professors by the Office of the Provost and 14 winners of the Emory Williams Teaching Award, Emory University's highest award for excellence in teaching.

In the NBB program, students can undertake independent laboratory research with Emory faculty, engage in challenging faculty-student interactions, and participate in seminars and special events that often present distinguished guest speakers. Qualified senior NBB majors can participate in the NBB Honors Program and become members of Nu Rho Psi, Emory's neuroscience honor society. NBB majors also have the unique opportunity to study with researchers affiliated with the Yerkes National Primate Research Center, the Centers for Disease Control and Prevention, the American Cancer Society, and the Neuroscience Initiative. NBB majors also have the opportunity to be involved in study abroad programs with St Andrews in Scotland, Melbourne University in Australia, and summer study in Paris, France where students are able to complete an NBB core class and an elective.

Seniors who meet the College Honors Program requirements are encouraged to apply for Honors in the NBB major. Interested students should begin preparing in their junior year (or earlier) by finding a Faculty research mentor to support their honors research project. Once a Faculty mentor is established, students must apply to participate in the NBB honors program including two semesters of NBB Honors research courses (495A and 495BW), biweekly meetings, and successful completion of a graduate-level course.

UNIVERSITY OF ST. ANDREWS, SCOTLAND

BRAIN STEM (SPRING AND FALL COURSES)

The Emory Neuroscience and Behavioral Biology Program (NBB) and the University of St. Andrews Schools of Biology and Psychology have established a unique type of study abroad exchange program. The "Brain StEm" Program, represents the creation of a true "sister school" relationship between the extremely strong...
neuroscience and behavioral sciences programs at the two institutions. Emory’s NBB Program is one of the largest undergraduate programs in North America with over 300 majors and seventy-five faculty members. The neuroscience program at University of St Andrews is a joint undertaking of the Schools of Biology and Psychology which both recently received top ratings from RAE, the national audit of research quality in UK university departments. What does all this mean for the students? By implementing "The Institute of Behavioral and Neural Sciences", rather than an a la carte approach to selecting courses, a coherent program of pre-approved courses has been put into place. Overall curriculum and appropriate courses have been evaluated and selected by the faculty of each institution and faculty advisors are in place at Emory and St. Andrews to assist the students participating in "Brain StEm". Here at Emory this translates into a study abroad program that provides pre-approved equivalents for: NBB 301 and 401, required core courses; NBB 221, the statistics and experimental design course which is a prerequisite for undergraduate research; and twenty-five University of St. Andrew courses which can serve as electives for the NBB major!

**MPHIL IN NBB (MASTERS IN PHILOSOPHY - 1 YEAR)**

Building upon the successful Brain StEm program, Emory and St. Andrews are offering a 4+1 BS (Emory) MPhil (St. Andrews) research-based NBB degree combination. To qualify, Emory NBB majors must have a 3.5 GPA and have an invitation from one of the St. Andrews participating professors, or graduate from Emory with honors in NBB. The first year of the normally two-year MPhil program will be waived, allowing qualifying NBB BS graduates to complete their Masters degree in one year. Contact the NBB office for further information.

**EMORY MELBOURNE UNIVERSITY SCIENCE EXPERIENCE (E.M.U.S.E)**

A program that has been designed specifically for Emory Biology, Chemistry, and NBB students in their junior and senior year who are interested in spending a semester abroad in Melbourne, Australia. As a student program, you will undertake a research-focused study abroad experience while also taking biology, neuroscience, or chemistry courses offered Fall and Spring semesters: Semester 1 runs from early February to mid June; Semester 2 runs from early July to Mid November. This program is ran in conjunction with the Department of Anatomy and Cell Biology and the Department of Chemistry at the University of Melbourne. For more information please contact the NBB office.

**NBB STUDY ABROAD IN FRANCE (SUMMER)**

Neuroscience and Behavioral Biology program is offering a unique opportunity to study in Paris for a 5-week program that will connect the rich history of French neurology with contemporary neuroscience research. Students will couple in-class discussions with a variety of extracurricular outings to locations that illustrate France’s role in early Neurology (e.g. Hopital de la Salpetriere) and its current research interests (e.g. Institut Curie or La Cite des Sciences). This program allows for completion of one NBB core course and one NBB elective. **Please note: No French language proficiency is required.**

Students are encouraged to have a GPA minimum of 3.0 for the above study abroad programs. Each NBB major is assigned an academic advisor. It is imperative that students meet with their advisers at least once a semester to discuss courses that meet the requirements of the major. In addition, students should talk to their advisors about future career plans; i.e., graduate school, medical school, etc., as there may be additional courses they should take for entrance to graduate school. Advisors will be available during pre-registration as well as by appointment. However, advisors will often have more time to spend with students at times other than pre-registration. Students should take advantage of these times in scheduling appointments with their advisors.

The NBB office has an open-door policy to assist students in receiving information needed to further their undergraduate academic education.

**PHILOSOPHY DEPARTMENT**
Philosophy is the study of fundamental questions concerning the nature of what is and what ought to be. The basis of the study of philosophy is the ancient search for self-knowledge and the love of wisdom. In Plato’s Dialogues, Socrates says, “Wonder is the feeling of a philosopher, and philosophy begins in wonder.” The study of philosophy employs the human capacity to reflect, reason, and make critical judgments in order to consider questions such as: What is the good? What is justice? What is the nature of reality? What if anything can be known for certain? What is the nature of beauty? What is the meaning of human history and human life? Philosophy also examines the principles of logical, scientific, and religious thought, and the great systems of nature and culture employed in the search for truth. Students majoring in philosophy often enter the fields of law, medicine, or business. For these fields a background in logic, ethics, and critical thinking is particularly important. Some students who major in philosophy pursue graduate study in philosophy leading to positions in university teaching. On the graduate level, the department offers programs leading to master of arts and doctor of philosophy degrees.

Honors Program
See "Honors Program" under the curriculum section of the catalog and consult the department for further details.

(1) Students who achieve the requisite cumulative grade point averages both in five philosophy courses and in the college are eligible for election to Phi Sigma Tau, the national honor society in philosophy. The Emory chapter of Phi Sigma Tau, Beta of Georgia, has been active since 1979, and sponsors various intellectual and scholarly activities throughout the academic year.

(2) The Paul Kuntz Prize, established in 1989, is awarded annually to a philosophy major for excellence in undergraduate philosophy. It carries a monetary award of one hundred dollars.

(3) The Charles Hartshorne Philosophy Essay Prize, open to all students of Emory College, is awarded annually. It carries a monetary award of one hundred dollars.

(4) The William F. Edwards Undergraduate Lecture, established in 1988, is given annually on a topic of broad philosophical interest to all undergraduates.
Undergraduate physics majors and physics/astronomy majors may pursue either a bachelor of arts or bachelor of science degree. Although the BA and BS programs have different objectives, both emphasize the basic principles of physics and their applications, an analytical approach to problem solving including the use of mathematical methods, and direct experience with physics laboratory and research techniques. The instructional facilities of the Department of Physics, housed in the new Mathematics and Science Center, include general and advanced physics laboratories; optics, analog and digital electronics, and microprocessor laboratories; and two observational astronomy facilities. One facility is a ten-station rooftop observing deck with small reflecting telescopes used for introductory astronomy. The other primary facility is the Emory observatory, which houses a research-grade, twenty-four-inch Cassegrain telescope for use in advanced astrophysics and astronomy courses. Faculty research laboratories and computer equipment are available to students engaged in research projects in condensed matter physics, biophysics, and nonlinear dynamics. Other specialized teaching facilities for physics and astronomy include a one-hundred-and-eighty seat lecture demonstration theater, a sixty-seat Zeiss Planetarium classroom, and a sixteen-station computational physics classroom/laboratory. The graduate school offers the master of science and doctor of philosophy degrees in physics.

Honors Program
- Chapters of Sigma Pi Sigma, the national physics honor society, and the Society of Physics Students offer recognition and sponsored activities.

Study Abroad
Several students each year participate in study abroad programs, typically for one semester. The Director of Undergraduate Studies works with students to fit such programs into their four-year-plan.

Advising
For advising, set up an appointment with the Director of Undergraduate Studies. You do not need to be majoring or minoring in physics to meet with the DUS.

Independent Study or Research
- Many physics majors participate in research, although this is not a requirement. Research can be done for academic credit (Phys 499R). This class can be repeated multiple times, and can count as an elective toward the major or minor (although only as one elective, even if taken multiple times). Research can also be done for pay; this is typically arranged between the supervising faculty member and the student. The most typical case is to do research for credit during the academic year and for pay during the summer. Students who meet the
appropriate GPA requirements can opt to do a research honors thesis during their senior year. For more information about participating in research or doing an honors thesis, consult with the Director of Undergraduate Studies.

**POLITICAL SCIENCE DEPARTMENT**

The Department offers two distinct majors: Political Science and International Studies. Political Science fields of study include American government and politics, international relations, political philosophy, and comparative politics. The interdisciplinary concentration that is International Studies provides a broad background in foreign language and culture, politics, history, and economics and may appeal to students interested in journalism, teaching, international business, or government service. For information on preparation for law school, consult the [Studying Law at Emory page](#).

Honors Program
See "Honors Program" under the curriculum section of the catalog and consult the department for further details.
Outstanding students majoring in political science or international studies are invited by the department in the spring semester of their junior year to submit materials for consideration for the political science honors program the following year. Invitations are extended to students selected from this group. The program is a yearlong curriculum in which students successfully complete a political science graduate or senior seminar, conduct original research on a topic of their own choosing, and write an honors thesis under the direction of a political science faculty member. Honors students also must enroll in the honors tutorial seminar in the fall semester. Consult the department or director of undergraduate studies for more details.

Study Abroad

The Department strongly encourages its majors to consider studying abroad at some point in their studies. For specifics, consult Emory College Study Abroad and the director of undergraduate studies.

Advising

Students who declare a major are assigned a faculty advisor in the department who may be consulted on any matter pertaining to a student’s progress. It is the student’s responsibility to seek out his or her advisor as needed in the course of the academic year.

Language Study

The International Studies major requires two years of college-level study of a modern foreign language, or the equivalent.

Internship

Students who have sufficient background in political science courses are eligible to apply for government/political internships approved by the Department of Political Science. Students have served as interns in the White House; the offices of members of Congress, governors, and lieutenant-governors; in state legislatures; and in other state, county, and city offices. Students also may serve as interns in programs at The Carter Center. Students may earn up to twelve semester hours of political science internship credit, but a maximum of four semester hours may be used to satisfy the requirements of the political science major and a maximum of four semester hours may be used to satisfy the requirements of the international studies major.

Award

Outstanding students majoring in political science and international studies are invited by the department to join Pi Sigma Alpha, the national political science honor society. In addition, the Elliott Levitas Award for outstanding accomplishment in political science is presented annually to a senior major who exemplifies excellence in political science or international studies.

Independent Study or Research

Independent research with faculty is available through the department’s Directed Study course, and from time to time other research opportunities with faculty are available.

PSYCHOLOGY DEPARTMENT

The Department of Psychology emphasizes the scientific study of behavior. The major offers students a balanced curriculum in experimental, social/personality/clinical, neuroscience/animal behavior, and cognitive/developmental areas. Faculty members are actively engaged in teaching, and they conduct research that addresses important questions with state-of-the-art methods. Opportunities for independent study and research projects under faculty guidance are readily available.

The Honors Program is an Emory College program intended to give a highly qualified group of students more extensive experience in conducting behavioral research. Students with an overall average of at least 3.5 in the first three years and with at least a 3.5 in the major subject will automatically be notified in the Spring of their junior year that they are eligible to participate, and will be invited to a meeting which will fully explain the program.

During the senior year, each Honors student in Psychology conducts an independent research project. In concert with a faculty advisor from the Psychology Department, the student collects and analyzes data, prepares an Honors thesis based on the data, and defends the thesis in front of a committee of three faculty members. This committee recommends Honors, High Honors, or Highest Honors to be granted to the student's degree. During Commencement weekend, Honors students will participate in a college-wide Honors ceremony.

Students must arrange to work with a faculty advisor before the beginning of their senior year. Normally, an arrangement should be reached before the end of the student's junior year. Faculty members almost always give preference to students whom they know - either from volunteer work in their laboratory or from a small class. Students who think they may be eligible and interested in the Honors Program are therefore encouraged to get to know a faculty member during their sophomore and junior years. Volunteering in a professor's laboratory also assists students in making more informed decisions about whether or not to participate in Honors.

Honors students must have completed the Statistics and Laboratory Methods classes by the end of their junior year. In the fall of their senior year, Honors students enroll in PSYC 495A, and receive 3 hours of credit for participating in this weekly class. In the spring, they may receive variable credit under PSYC 495BWR for continuing work on their Honors project. Honors students are also required to take a graduate level course in Psychology during their senior year.
Study Abroad

Emory students may choose to take a semester abroad through programs approved by Emory College Study Abroad. Students considering studying abroad should contact the Study Abroad office (7-2240) for a list of Emory and non-Emory programs. In some cases, it may be possible for psychology courses taken through one of these programs to be included in the ten courses required for the major. Students should understand that it may not be possible to take courses toward the major while abroad depending on the courses that are offered by the host institution. Acceptance by Emory College Study Abroad into a study abroad program does not guarantee that appropriate courses will be available in the major. Courses taken abroad will not automatically count toward the major. Courses must be approved in writing before the student goes abroad and returning students must bring back a syllabus for the course as well as additional supporting evidence, including textbooks or readings used, papers written or copies of exams.

A/P Credit:

Students who received a score of 5 on the AP Examination in Psychology will be granted an exemption from PSYC 111. The student will still be required to complete 12 additional courses in the major, including the first half of the Introductory Requirement, PSYC 110.

Transfer Credit:

Students who took a one-semester Intro course at another college will probably receive credit for PSYC 111. The student will be required to take 11 additional courses in the major, including the first half of the Introductory Requirement, PSYC 110. Students may transfer no more than four (4) psychology courses to the Emory undergraduate major.

Course Time Table:

Both PSYC 110 and 111 must be completed by the end of the junior year.

QTM 100 must be completed by the end of the first semester of the junior year.

PSYC 200 must be completed by the end of the junior year; this course may not be taken in the semester the student plans to graduate.

The Psychology Department does not offer internships, nor does it give academic credit for internships completed elsewhere.

Membership in Psi Chi, the National Honor Society in Psychology, is open to students studying psychology who meet the minimum qualifications. Emory’s chapter of Psi Chi is operated by student officers and a faculty advisor. Eligible students are invited to membership during the fall and spring semesters. Throughout the year, Psi Chi offers programs, speakers and workshops on topics of interest to Psychology majors which are open to all interested students.

We encourage majors to enroll in Directed Research (PSYC 499R/494R) and Directed Reading (PSYC 498R). One enrollment in PSYC 499R or PSYC 494R for 3 or more credit hours may be counted as an elective towards the twelve courses required for the major. Directed research (working in a psychology laboratory under the supervision of a faculty member) and reading (writing a literature review of a special topic) courses must be directed by approved Psychology department faculty. A list of regular faculty members of the Psychology Department who are eligible to supervise PSYC 498R and PSYC 499R may be found on the back of the 498/499 form. Only faculty members whose names are on this list may supervise 498R/499R work. Permission is required for enrollment in 498R or 499R. Contracts are available in Suite 270, and must be completed prior to enrollment. Enrollment must be completed before the end of the drop/add/swap period. Students must register for these courses prior to the close of the schedule change period each term.

INSTITUTE FOR QUANTITATIVE THEORY AND METHODS

The Institute for Quantitative Theory and Methods promotes the teaching, learning, and use of quantitative analysis across all disciplines.
Quantitative skills—statistical, mathematical and computational techniques—are increasingly important and essential in a wide variety of disciplines and careers. As a result, the demand for applied quantitative training with a substantive focus is strong and growing. While most quantitative training at the undergraduate level remains concentrated in math and statistics departments, QuanTM’s interdisciplinary and applied focus is designed to broaden access to those skills.

Along with the Quantitative Sciences major and new joint major, Applied Math and Statistics, QuanTM runs a college-wide statistics course; offers fellowships for undergraduates, pre-doctoral students, and visiting faculty; leads a faculty skill-building program; oversees a student-run statistical consulting service; and hosts a number of themed speaker and workshop series.

**RELIGION DEPARTMENT**

The study of religion is among the oldest pursuits in human intellectual history. Each of the world’s living religions has a long and rich history of scholarship on its sacred texts and interpretive traditions. The curriculum in the Department of Religion involves a dynamic combination of traditional textual study, ethnographic engagement, historical reflection, and theory-practice learning. Courses are designed to introduce students to the origins and historical developments of ancient religious systems as well as the living religions of the world. Equally important, courses in the department and related programs provide a context for stepping back from the “inside” of a particular religion in order to study aspects of religion comparatively and thematically across traditions (e.g., religion in public life, religion and gender, religion and culture, religion and conflict). Religion majors and minors include students seeking careers in medicine, law, and the sciences, as well as those whose interests lie more in the humanities and liberal arts. Faculty in the Department of Religion are deeply committed to interdisciplinary work and thinking, and expect the same of their students. Many of our faculty members co-teach their courses with faculty in other disciplines in order to enliven their thinking about a particular topic. Faculty are also engaged in the Emory community, working on educational and scholarly projects with student groups. Faculty have designed student internships with the religious communities of Atlanta, and field trips and site visits are a regular component of many Emory religion classes. We are also an intentionally pluralist community—with no single “majority” of scholars studying one particular religious tradition or using one particular method of study. Faculty numbers are equally strong in Christianity, Judaism, Islam, Hinduism, Buddhism, and American studies. There is growing strength in African American religions, as well as ethnography of religions and the study of comparative sacred texts. Thanks to the high engagement of faculty in interdisciplinary work, the department now is participating in several University initiatives in contemplative studies; religion and conflict; religion and health; religion and sexuality; and religion and the arts. Students are highly encouraged to take part in these initiatives. More than half the faculty members have been recognized for excellence in teaching. The department also hosts fifteen associated faculty from other departments, including History, Classics, Political Science, Art History, Philosophy, Women’s, Gender, and Sexuality Studies, and Middle Eastern and South Asian Studies. The Graduate Division of Religion, the Institute of the Liberal Arts, Candler School of Theology, the Marial Center (Myth and Ritual in American Life), The Carter Center, The Center for Law and Religion, and the American Academy of Religion at Emory University enrich the academic environment and provide additional faculty resources for
undergraduate students of religion. The department also has important connections with centers of learning from within the religious traditions, such as the Aquinas Center for Catholic Studies, the Drepung Loseling Institute for Buddhist Studies, and the Jewish Community Center of Atlanta.

Honors Program
See "Honors Program" under the curriculum section of the catalog and consult the department for further details.

The Honors Program affords students the opportunity for long-term, in-depth research on a topic of their interest. Together with a faculty adviser, students plan a rigorous program of scholarly reading and writing. Topics have ranged from historical analysis and textual exegesis to theological treatises and ethnographic studies. Students with a cumulative average of 3.50 at the end of their first three years of study are eligible and may be invited by the Department of Religion to participate in the Honors Program. In consultation with a departmental faculty director, students will choose two additional faculty members to serve on their honors committee. The honors committee must include one member from outside the Department of Religion and, in the case of joint majors, the committee must include one faculty member from outside both departments. A minimum of two successive semesters of Honors Directed Reading (REL 495R) is required for the honors degree. The department strongly encourages the student to find and take a graduate seminar related to the honors topic. Successful honors candidates are awarded the degree with honors, high honors, or highest honors. The Department of Religion hosts a chapter of Theta Alpha Kappa, the national religious studies honor society. Local membership is determined by grade average and class standing as set forth by the national council.

Award
The department’s prizes and awards include the William A. Beardslee Prize in Religious Literature for the best paper on religion submitted in a course offered by Emory College; the Vaddadi R. Rao Prize for overall excellence in the field of religion, limited to department majors; and the John Fenton Prizes in the Comparative Study of Religion for undergraduate and graduate student scholarship in the comparative study of religion.

RUSSIAN AND EAST ASIAN LANGUAGES AND CULTURES (CHINESE, JAPANESE, KOREAN, RUSSIAN)

The Department of Russian and East Asian Languages and Cultures (REALC) is an interdisciplinary department dedicated to the study of languages and cultures in the geographic continuum from Eastern Europe through Eastern Asia. Our four concentrations are on the Russian Federation, the largest country spatially on the globe; China, the most populous country; Japan, the world’s second-
largest economy; and Korea, one of the world's fastest growing economies. The region covered by REALC plays an increasingly critical role in global dynamics, and the department's goal is to prepare students for the complex realities of the twenty-first century. Departmental offerings bridge East and West, and include the study of the languages, linguistics, and cultures of the region; and the interrelationship of its literatures to the other arts, philosophy, religion, and the social sciences. We offer introductory through advanced classes in Russian, Chinese, Japanese, and Korean language as well as an array of courses taught in English to address the interests of a broader student audience. While REALC courses focus on some of the oldest civilizations in the world, the department houses classroom facilities that are equipped with the latest technology. Instructors make use of a range of media such as real-time television broadcasts from abroad, the Internet, and videoconferencing. This enables REALC to host interactive exchange with students and scholars in Russia and East Asia. The department sponsors various exciting and challenging study abroad programs, and special internship opportunities both overseas and in the Atlanta area. A wide variety of films, guest speakers, and special cultural events accompany our course work. REALC participates in the interdepartmental Center for Russian and East European Studies (REES) and the East Asian Studies Program (EASP), and also collaborates extensively with other departments and programs, including Linguistics, Comparative Literature, Art History, Film Studies, the Institute of Liberal Arts, Women's Studies, Theater, Music, History, and Religion. REALC courses are recommended for majors in the humanities as well as for students interested in developing a base upon which to understand international and global issues, Pacific Rim studies, and East-West relations. As dynamics become more internationalized and globalized, employers increasingly consider foreign language and experience of other cultures to be distinctive assets. REALC courses and programs offer structured, supportive opportunities for students to acquire such skills. Students with a background in Russian and East Asian languages and cultures go on to international careers, to graduate studies, or to programs in law, business, public health, or medicine. Because new courses continually are being added, please check the departmental website (www.realc.emory.edu) or call the department at 404.727.6427 for updated offerings. Also, students should contact the department for updated information about major and minor requirements and study abroad opportunities.

Honors Program

In addition to the College requirements for eligibility, students must maintain a 3.5 grade point average in course work in REALC and demonstrate linguistic ability (to be determined by a reading exam) to conduct research in primary sources. Eligible students will select a thesis adviser approved by the department's honor adviser. To complete the Honors program in Chinese the student will enroll in a two-semester Honors course, CHN 495A and CHN 495B/WR, for eight credits. The fall semester will be spent exploring issues and research materials for the Honors thesis. In spring, upon approval of the thesis advisor, students will be expected to write the thesis. With the approval of the Honors advisor students are expected to enroll in a senior seminar
course in either REALC or another appropriate department that would complement and support the thesis. Each thesis must be completed in the spring and defended before a committee consisting of the student’s advisor, faculty member(s) from REALC and one faculty member from outside the department and approved by the Honors advisor.

Outstanding students majoring in Japanese may apply to participate in the Honors Program. To be eligible, students must maintain a 3.5 grade point average in their REALC course work. Eligible students will select a thesis advisor approved by the program’s honors adviser. Honors students are required to enroll in a two-semester honors course, JPN 495A and JPN 495B/WR for eight credits. The fall semester course helps students prepare to write their theses, which they complete in the spring semester. The thesis must be defended before a committee consisting of the student’s advisor, faculty member(s) from REALC and one faculty member from outside the department as approved by the Honors Advisor.

Outstanding students majoring in Russian may apply to participate in the Honors Program. To be eligible, students must maintain a 3.5 grade point average in their REALC course work. Eligible students will select a thesis adviser approved by the program’s honors adviser. Honors students are required to enroll in a two-semester honors course, RUSS 495A and RUSS 495B/WR for eight credits. The fall semester course helps students prepare to write their theses, which they complete in the spring semester. The thesis must be defended before a committee consisting of the student’s adviser, faculty member(s) from REALC and one faculty member from outside the department as approved by the honors adviser.

Emory-approved semester study abroad programs are available in Beijing, Shanghai, and Harbin, the People’s Republic of China; and in Taipei, Taiwan, at Kansai Gaidai University, Kwansei Gakuin University, and the Kyoto Center for Japanese Studies in Japan; in Moscow, Voronezh, Yaroslavl’, and Irkutsk, the Russian Federation; and at Charles University in Prague, Czech Republic. Summer programs are available in Beijing, China; Tokyo, Hakodate and Osaka, Japan; and in Moscow and St. Petersburg, Russia. Other study abroad options, including academic year programs, also are available. For updated information about study abroad, contact the department at 404.727.6427 or Emory College Study Abroad at 404.727.2711.

RUSSIAN AND EAST EUROPEAN STUDIES

The Center for Russian and East European Studies (REES) seeks to broaden knowledge about the former USSR and Eastern Europe through multi- and inter-disciplinary programming for the Emory academic community, teachers and faculty at other educational institutions, and the general public.

SOCIOMETRY DEPARTMENT

Students of sociology learn to evaluate and explain the complex interactions among people and societies; thus, sociology is an integral part of a liberal arts education. At Emory, the study of sociology covers a wide range of topics, including the study of small group interaction; the study of institutions (education, media industries, the criminal justice system, health care systems); the study of social inequality; the relationship between culture and society; and the comparative study of different societies. Students also are
trained in the social research process (different methods of data gathering and analysis) to further their examination of social problems. Emory sociology majors have the opportunity to learn by doing as well as by studying, and several courses offer the opportunity for hands on research.

To be eligible to apply for the honors program the following qualifications need to be met:

1. An overall GPA of at least 3.5 after fall semester of junior year.
2. A sociology major GPA of at least 3.7 after fall semester of junior year.
3. Maintain these GPA minimums spring semester of junior year; any acceptance to the program will be contingent on spring grades.

At the beginning of the spring semester of the junior year, eligible students (i.e., those with sufficiently high GPAs overall and within the major) are contacted and informed about the application process for the honors program.

Honors Program

The application process includes:

- Prior to submitting an application, students must meet with the Director of Undergraduate Studies (Dr. Jeff Mullis). Please set up an appointment early spring semester if you are interested in applying.
- The Application materials include:

1. Statement of Research Interest (1-2 pages): Students should describe their potential topic area for the honors thesis. Students should discuss potential research questions, ideas about methods, and the empirical data they might use for their research.
2. Proof of at least one class taken in the thesis topic area of interest (e.g., gender; race/ethnicity; culture; globalization).
3. The names of 2 or 3 potential faculty honors advisors who know the student's work, and/or who teach/conduct research in the student's area of interest. The student SHOULD NOT submit letters of recommendation.

The Sociology Department faculty will review the applications and select the participants for the Honors Program. Only students who submit these application materials will be eligible for consideration.

See "Honors Program" under the curriculum section of the catalog and consult the Director of Undergraduate Studies in Sociology (Dr. Jeff Mullis) for further details.

**SOC 390: Health Care/Society Seminar.** The Department of Sociology offers a six-week program in London focusing on issues and problems in health care delivery in Great Britain and the United States. Emphasis is on the comparative social organization of the two systems, contrasting the evolution and current state of the two health care systems. The program includes seminars with British professors; a short internship experience in a healthcare setting; and a survey research project.

To declare a major or minor in sociology, please see Neema Oliver in the Sociology Department Office, 225 Tarbutton Hall, to complete paperwork.

**Study Abroad**

**Advising**

Neema Oliver will review the sociology requirements, sociology opportunities, and assign students to a regular faculty adviser. Faculty advisers will be your main source of information about the program, course planning, and career options.

All minors are advised by Dr. Jeff Mullis, the Director of Undergraduate Studies in Sociology.

**Internship**

An internship in sociology consists of supervised work in a social service agency or other type of organization. Students are responsible for locating and securing their own internship (please email the Sociology Internship Coordinator for a list of past sites if you are having trouble locating an appropriate internship). Your internship must be unpaid. Interns take part in a special seminar and receive academic credit (four to twelve hours for SOC 494R).

Sociology majors can become members of Alpha Kappa Delta, the international sociology honors society. Eligible students are invited at the beginning of the spring term and are inducted in April. The eligibility requirements are:

- junior (or 3rd year) student majoring in sociology
- completion of at least 5 courses (20 hours) in sociology
- at least a 3.4 GPA overall
- at least a 3.6 GPA in sociology

In addition, the Department of Sociology annually recognizes an outstanding senior for distinguished undergraduate scholarship in sociology. This award is made possible by a gift from the Sara Smith Sutker and Solomon Sutker Fund.

Students may have opportunities to assist faculty members on their research projects. These opportunities are dependent on the current research needs of the faculty. The best way to pursue research is to get to know the faculty with whom you take classes, and then talk with them about research opportunities. Remember that doing well in a class is the best way to show you would be a good research assistant. Students who do find a research assistant opportunity will be enrolled in SOC 497R: Directed Research. In the recent past, students have assisted on projects focused on the experimental analysis of interaction in small groups, the causes of delinquency, and the trends in transnational corporations.

Please see Dr. Jeff Mullis if you would like to talk more about how to pursue research opportunities in the Department of Sociology.

**Spanish and Portuguese Department**

The Department of Spanish and Portuguese offers instruction in the Spanish and Portuguese languages and in Luso-Hispanic cultures and literatures. The department offers a major and minor in Spanish and a minor in Portuguese. Courses are taught in Spanish or...
Portuguese, and classes are small so that students at all levels are given maximum opportunity to practice the language. Other opportunities to study Luso-Hispanic language and culture are also available through the department’s study abroad programs and the Casa Hispana. Refer to the department website for more information.

Honors Program

Advanced majors with a 3.5 GPA may apply to the Honors Program in Spanish during their junior year. If accepted by the Department, they spend their senior year enrolled in Spanish 495A in the fall and in Spanish 495B WR in the spring.

The department strongly encourages students to live and study in Spanish- or Portuguese-speaking countries. Students may receive credit toward the major in Spanish for up to twelve credit hours (or six credit hours in the case of the Spanish minor) taken in an approved program of study abroad, and credit toward the Portuguese minor for up to eight credit hours (two courses) taken in approved study abroad programs. These credit limits do not apply to Emory courses taught abroad or courses taught by Emory faculty. Emory University administers its own fall and spring semester programs in Salamanca, Spain, and participates in a consortium of universities to offer additional semester study programs in Latin America (Chile, Argentina, Bolivia, Ecuador, Costa Rica, and Mexico). Emory also administers summer programs in Salamanca, Buenos Aires, and Rio de Janeiro. The summer program in Salamanca includes course components taught on a rotating basis in a number of cities around the Iberian peninsula, including Valencia, Seville, and Barcelona.

Once students declare a major in Spanish, they are assigned an adviser in the department.

Study Abroad

Minors in Spanish are advised by the DUS.

Advising

Minors in Portuguese are advised by the Director of the Portuguese program.

Language Study

The department works to ensure that students enter the program at the appropriate level. Initial placement is based on the department's assessment of various factors: results of the online Spanish Placement Exam, results of the Spanish AP exams (if applicable), number of years of study in high school, amount of time since last studies were completed, study abroad experience, and previous contact with Spanish speakers. All students who wish to study Spanish at Emory, including native speakers as well as speakers with no previous experience, are required to take the online Spanish Placement Exam (accessible at http://www.spanish.emory.edu/) and to complete the accompanying questionnaire before enrolling in the first Spanish course in the department. After
reviewing this and other information, the department emails an official placement to each student at their Learnlink account. Students should not enroll until receiving an official placement. During the first week of classes, instructors confirm that students are accurately placed, or recommend that they be transferred to a more appropriate class.

Internship

The department offers Span 314, Internship in Spanish, for variable credit. The internship is an opportunity for applied learning in a supervised Spanish-speaking work or volunteer environment.

Sigma chapter of Phi Sigma Iota, the national Romance language honor society, was installed at Emory in 1930. This society recognizes those students who have completed work in foreign language courses with a 3.7 GPA.

Award

The department also offers awards for writing (Carlos Rojas Award for Excellence in Writing), service (Award for Excellence in Community Engagement) and overall excellence (Emilia Navarro Award for Excellence in Spanish).

Additionally, the department nominates students for the Emory College Language Center’s Awards in Spanish and Portuguese.

THEATER AND DANCE DEPARTMENT

Theater and Dance are among the richest and most rewarding of educational disciplines. They combine interests in creative arts, humanities, and social sciences. Through their integration of thinking and doing, of analysis and creative problem solving, they develop the mind, body, sensibility, and imagination. We offer a Theater Studies major and minor, a Dance major and minor, and a joint major in Playwriting with the Creative Writing Program. Each area has its own focus and requirements.

Theater Studies

Our course of study offers a broad-based liberal arts education that not only challenges and develops the student in our discipline, but also offers practical preparation for a variety of careers, including law, business, medicine, education, and communications. Excellent teaching and mentoring are high priorities for the faculty and interactions occur in a variety of settings: small classes, individual consultations, master classes, rehearsals, and performances.

The major and minor require a study of the various subfields of theater, with a strong core of dramatic literature. Advanced courses in all areas are available. Theater Emory offers an opportunity unique in undergraduate theater education: the opportunity to work with professionals in an Equity company, where all casting is age appropriate and where students may play central and substantial supporting roles. Four student theater groups offer other opportunities to act, direct, design, produce, and stage manage. Emory’s unique combination of a liberal arts undergraduate program and a professional theater provide a strong and flexible training ground.

The Dance Program

The Emory Dance Program provides a range of opportunities for students to experience dance, from performance and production to technique and theory. The mission of the Emory Dance Program is to provide a curriculum that interweaves both the practical and theoretical to foster students’ creative, intellectual, and communicative powers in the field of dance. The Emory Dance Program emphasizes performance and choreography based on the primary tenets of modern dance, which value individualism, innovation, and interdisciplinary approaches to the arts.

The study of dance is perhaps the most unique and all-encompassing pursuit in the fine arts. It involves the total exploration of the self-emotional, intellectual, and kinesthetic. The program develops students' awareness and appreciation of movement in all its diverse forms and their ability to communicate through non-verbal expression. Dance develops insights into a broad range of studies; therefore it plays a viable role in the liberal arts education. Since dance is so multi-faceted, it enhances the student’s preparation for a variety of careers.

The Joint Major in Playwriting

The playwriting joint major brings together the disciplines of Theater Studies and Creative Writing in an innovative synthesis designed to educate playwrights both as writers and as theater professionals. A playwright must understand the workings of narrative and storytelling and have opportunities to develop dramatic, fully realized narratives. The playwright also needs a strong
grounding in the literature and mechanics of theater and in the collaborative process, since these are the worlds he or she seeks to inhabit, and the instrument for which the playwright composes.

Interested students with the requisite GPA will identify a potential advisor and submit an Honors proposal in April of their junior year. The Academic Procedures Committee of the department or program makes the selection of the Honors participants.

THEATER STUDIES

All Theater Studies Honors candidates will complete the Aesthetics and Criticism Senior Seminar (THEA 490WR) in the fall of their senior year and the Theater Studies Honors course (THEA 495R) in the spring of their senior year, culminating in the research project or paper that is the equivalent of a BA or BS thesis.

PLAYWRITING

Interested Playwriting majors with the requisite GPA will submit their Honors proposal according to the Creative Writing guidelines, with an application deadline in March of their junior year. Selection of Playwriting Honors candidates is made by the Playwriting advisors in consultation with the Academic Procedures Committees in both Theater Studies and Creative Writing.

Creative Writing Honors Guidelines are available via this link.

Playwriting Honors candidates who have their application accepted are either enrolled in Honors in Playwriting (ENG or THEA 494RWR) both fall and spring semesters of their senior year, or complete the Aesthetics and Criticism Senior Seminar (THEA 490WR) in the fall semester and Honors in Playwriting in the spring.
DANCE

For Dance Honors coursework information, please consult the Dance Program.

For information pertaining to Scholarly Inquiry and Research at Emory (SIRE) grants, see the Independent Study and Research section.

Study abroad programs and opportunities are developed and provided through Emory College Study Abroad.

Theater Studies has three approved study abroad opportunities:

The Accademia dell'Arte program in Arezzo, Italy, includes courses in Italian language and theater, design, scene painting, costume design, commedia/mask, commedia skills, voice and performance, and studio/production. This study abroad opportunity will fulfill one semester of the language requirement in Italian. Visit www.dell-arte.org for more information.

The London Academy of Music and Dramatic Art (LAMDA) is designed for performing arts majors and minors, providing students with conservatory theater training in acting. Training is based on three central elements: acting (including improvisation), movement (including movement theater, clown, and historic dance), and voice (including poetry, prose, solo and chorus singing). Visit http://www.lamda.org.uk for more information.

The British Studies Emory College Summer Program includes courses in Shakespeare and often, contemporary British Drama. The program includes visits to Stratford-upon-Avon, London, and the Oxford environs and has frequently included a special five-day trip to Scotland that visits cultural and historical venues in Edinburgh and St. Andrews.

For information on the Dance Program's study abroad opportunities, consult with the Dance Program faculty. Each Theater Studies major and minor is assigned a mentor advisor—ideally this is a faculty member in the student's main area of interest—whom they have gotten to know through a class or a production.

Playwriting Majors are assigned an advisor from either the Creative Writing or Theater Studies faculty. Available advisors for Playwriting majors are identified by the Chair of Theater Studies and the Director of the Creative Writing Program.

Advising

For students involved with Theater Emory, Theater Studies often provides acting and/or vocal coaching to ensure the most meaningful experience possible. It is made clear to the professional artists involved in the productions that part of their role is to serve as models and mentors for the students.

All Dance majors and minors are assigned a faculty advisor to assist them in planning their course of study. Advisors also facilitate research projects, internships, and off-campus study opportunities.

Language Study

The semester abroad program in Arezzo, Italy, fulfills one semester of the College language requirement in Italian.

Theater, Dance, and Playwriting students may receive credit for approved internships with local organizations. Playwriting students may receive credit for approved internships either through the English Department or Theater Studies.

Internship

Dance, Theater, and Creative Writing faculty help students find appropriate internships for their skills and interests.

Students may receive credit for summer internships through the Emory University Summer Internship Program (EUSIP), a no-cost, non-residential program for either paid or unpaid internships. One credit that fulfills federal labor requirements may be earned through a non-tuition based course.

Award

THEATER HONORS AND PRIZES
The Alice N. Benston Award in Theater Studies is awarded annually by the departmental faculty to one or two graduating seniors or recent graduates who have shown exceptional dedication, promise, and intellectual rigor, to encourage their continuing education in theater.

The Friends of Theater at Emory Award annually recognizes students who have made outstanding contributions to Theater Emory.

The Fine Award honors a junior or senior major or minor in Theater Studies for outstanding acting.

The Brenda Bynum Theater at Emory Award is given to the student who has offered selfless and generous contributions of time, ability, and enthusiasm to the Theater @ Emory community, which includes the Theater Studies Department, Theater Emory, and Student Theater.

DANCE HONORS AND PRIZES

The Sally A. Radell Friends of Dance Summer Scholarship Program was established in 1996 to make summer dance study more accessible to Emory students. It enables dance majors and minors to study either in the United States or abroad with notable practicing artists, dance programs, and dance companies of their choice.

The Pioneer Award is given to a senior dance major or minor who is "breaking new ground." This award recognizes creative application and creative potential in the field of dance. It is defined by an in-depth investigation in technique, performance, choreography, or movement studies.

PLAYWRITING AWARDS

The Creative Writing Program awards prizes in poetry, fiction, and drama, including the Artistine Mann Award in Playwriting. Students interested in submitting entries should watch for the contest announcements early in the spring semester or consult the department.

OTHER ARTS AWARDS

Emory College of Arts and Sciences awards the Sudler Prize in the arts each year for outstanding student achievement in studio art, creative writing, dance, music, or theater. Students are nominated by the department and selected by the Sudler Committee.

The Woman’s Club Arts Scholarship is an academic scholarship given to a student in dance, film, music, or theater studies. The award rotates among departments each year.

Theater Studies and Playwriting:

1. Directed Study in Theater (THEA 397R) and Creative Writing: Independent Study (ENG 397WR). Independent readings and research under the direction of a faculty member.

2. Senior Project (THEA 497) and Special Project in Theater (THEA 499R). Supervised projects in any area of theater.

3. Tutorials for advanced students in dramaturgy, design, administration, and acting.

4. Laboratories in production and acting.

Independent Study or Research

Dance:
Independent study projects in dance can be arranged in the areas of technical production, choreography, historical or theoretical research, performance, directing, or choreography.

**Undergraduate Research Grants:**

Scholarly Inquiry and Research at Emory (SIRE) research grants are available to students for both independent and Honors projects. Dance, Theater, and Creative Writing faculty mentor students through both the application process and projects.

**WOMEN'S, GENDER AND SEXUALITY STUDIES DEPARTMENT**

The Department of Women's, Gender, and Sexuality Studies offers an interdisciplinary undergraduate major and minor in a challenging and supportive intellectual environment. The program emphasizes the interdisciplinary and inclusive study of women, gender, and sexuality that acknowledges differences such as race, class, disability, and national belonging. Women's, Gender, and Sexuality Studies develops students' skills of critical thinking and analysis, writing and research, imagination and creative expression.

The program offers four core courses and a diverse range of cross-listed courses in the areas of Anthropology, Art History, Biology, Literature, English, Film Studies, History, Philosophy, Political Science, Psychology, Religion, and Sociology. Many courses, including the Introduction to Women's, Gender, and Sexuality Studies (WGS 200), are taught in small class settings to encourage the active exchange of ideas between teachers and students.

**Honors Program**
The honors program is a senior-year program for outstanding students with a G.P.A. of 3.5 or higher. Students selected for this program will take a graduate seminar in Women's, Gender and Sexuality Studies or a related field, will complete an honors thesis and will defend that thesis in an oral examination. (Consult the Women's, Gender, and Sexuality Studies Department for further details at http://wgss.emory.edu/home/undergraduate/honors.html.)

**Advising**
The advisor for students who declare a major or minor in Women's, Gender, and Sexuality Studies will be the director of undergraduate studies.

**Award**
Each year, up to 2 Outstanding Women’s, Gender, and Sexuality Studies Student Awards are given to senior undergraduate majors or minors in Women's, Gender, and Sexuality Studies. These awards are given in recognition for outstanding performances in women's studies academics and leadership. Nominations are solicited from among the WGSS faculty and graduate instructors.

**Independent Study or Research**
Independent study or directed reading is offered each semester by consent of the department. Prior approval is required from a member of the WGSS core or associated faculty.

**ACADEMIC MAJORS & MINORS**
• Students can declare a major/minor during, or after the second semester of their freshman year. Students should declare a major/minor no later than the end of the sophomore year.

• No more than 2 concentrations allowed, either:
  o 2 majors OR
  o 1 major and 1 minor OR
  o 1 major

• Maintain at least a C (2.0) average in any major or minor.

• Only one (1) undergraduate degree may be earned from Emory.

A Bachelor of Arts degree in African American Studies is designed to hone and enhance students' research, writing, and critical thinking skills through an interdisciplinary approach. Students are therefore required to take a range of courses in the humanities and social sciences, as well as courses that deal specifically with civil and human rights and Diaspora studies.

Twelve courses are required for the major in African American Studies.

Emphasizing the historical agency of African American and other peoples of African descent and the centrality of race, racism, and racial formation in the Americas, Europe, and Africa, the major is organized thus:

1. Introductory Requirement: 1 course - AAS 100: Intro to African American Studies (4 credits)
2. History Core Requirement: 1 course - HIST338/AAS 338 (African American History to 1865) or HIST 339/339 (African American History Since 1865)
3. Literature Core Requirement: 1 course - AAS 261 (Survey of African American Literature to 1900) or AAS 262 (African American Literature Since 1900)
4. Humanities Area Requirement: 1 course - Any other AAS course that is cross listed with the following departments: AMST, ARTHIST, CPLT, ENG, ENGCW, FILM, FREN, FILM, HIST, MUS, PHIL, REL, SPAN, and other approved courses
5. Social Science Area Requirement: 2 courses - Any other AAS course that is cross listed with the following departments: ANTH, ECON, EDS, HIST, POLS, PSYC, SOC, WGS and other approved courses (Note: The second social science class must come from a different discipline than the first social science class)
6. Diaspora Area Requirement: 1 course - Any other AAS course in which students study people of African descent outside of the United States and is listed or cross listed with the following programs or departments: AFS, LACS and other approved courses
7. Civil and Human Rights Area Requirement: 1 course - AAS 267, 300, 410, 412, 481 and other approved courses
8. Electives: 3 courses that originate in or are cross-listed with AAS

### AFRICAN STUDIES

</table>

Emory College 2021 – 2022 Catalog
A total of nine courses are required, of which six must be courses with wholly African content, totaling a minimum of twenty-seven credit hours. The remaining three courses may be courses that feature a theoretical or thematic focus with 1/3 to 1/2 African content as case studies or other examples. A minimum of four courses must be at the 300 or 400 level. Students are encouraged to strengthen their work in the major by participating in study or research abroad through one of Emory’s approved programs in Africa. Courses taken as part of study abroad that meet the above content requirements are accepted, with the approval of the Director of African Studies, as credit for the major.

Of the six Africa-focused courses, one must be selected from each of the following three requirements:

**REQUIREMENT 1: INTRODUCTORY COURSES**

- AFS 221 (HIST 221) The Making of Modern Africa
- AFS 263 (IDS 263) Introduction to African Studies, OR
- AFS 280 (ANTH 280) Anthropological Perspectives on Africa, OR
- AFS 282 (ARTHIST 282) Arts of Africa

**THESE COURSES FULFILL THE GER AND NORMALLY ARE OFFERED EACH YEAR.**

**REQUIREMENT 2: SPECIAL TOPICS IN AFRICAN STUDIES**

- AFS 364 (HIST 364) African Civilizations to the Era of the Slave Trade, OR
- AFS 367 (HIST 367) The Making of South Africa, OR
- AFS 389: Special Topics in African Studies (several 389 courses with different topics are usually taught each year)

**AFS 364, AFS 367 AND AFS 389 ARE NORMALLY OFFERED EACH YEAR.**

**REQUIREMENT 3: RESEARCH SEMINAR PAPER**

Before graduating, African Studies majors must complete a project involving a significant writing and research component ranging from 4000 to 5000 words (approx. 16-20 pages). The paper should demonstrate the student’s broad, interdisciplinary, and integrated understanding of African contexts; his or her ability to think and write analytically using place-based knowledge and to locate this knowledge in the global world; and to conduct original research using a variety of sources and interdisciplinary training.

Students may fulfill this requirement in the context of an upper-level AFS course or comparable course (including, in some cases, a graduate course) with significant Africa-related content. This course must be taken at Emory University.

Prior to the add/drop deadline in a given semester, students must confirm with the instructor of this course that the research and writing of a major paper will be possible by filling out the Senior Seminar Paper Form. The form needs to be signed by the student, the instructor and returned to the DUS by the add/drop deadline. Three weeks before the end of the semester (or any earlier date required by the instructor), students must submit a rough draft of the paper to their instructor. Within one week, the instructor will return comments on the draft.
and the student will revise it before final submission. Upon submission, the Completion of Research Seminar Paper form must be signed by the instructor and returned to the DUS by the grade deadline.

**REQUIREMENT 4: LANGUAGE COMPETENCE**

Competence in a language spoken in Africa is essential for an appreciation of the complexities of African societies. It is also an expectation for graduate programs in many disciplines, as well as for professional work in African contexts. Students are required to demonstrate competence (as a minimum through the 102 level) in a language other than English that is widely used in Africa. However they are strongly urged to continue beyond this level. Emory currently offers three such languages: French, Portuguese and Arabic. We encourage students to study abroad in Africa and take a course in an African language there. Students who already know an African language may petition to demonstrate competence through testing.

Students who take language courses during a study abroad in Africa may request that these courses count toward their language competence.

**SATISFYING MAJOR REQUIREMENTS DURING STUDY ABROAD**

Students are strongly encouraged to strengthen their work in African Studies by participating in study or research abroad through one of Emory's approved programs in Africa. Currently, Emory's CIPA programs include opportunities in Egypt, Ghana, Kenya, Mali, Morocco, Rwanda, Namibia/Botswana, Senegal, South Africa, Tanzania, and Uganda. Please visit the CIPA website for more information.

Up to a total of four regular courses (12-16 credit hours) may be earned toward the major in study abroad programs. African language courses taken during study abroad can also count toward your language competency requirement.

Prior to beginning a study abroad program, students must contact the Director or DUS to seek approval of courses to be taken and counted towards the African Studies major. Students should be prepared to provide a syllabus for any courses to be counted toward the major. Many courses offered abroad count as AFS special topics courses, but please note that only internships that satisfy Emory College guidelines.

Declaration of Major Contact: [American Studies Institute of the Liberal Arts](#)

The major requires 44 credits:

- Introduction to American Studies (AMST 201 or AMST 201_OX)
- ENG 223 Rhetorical Grammar (1-credit, S/U). Oxford continuities will be required to take ENG 223 when they arrive at Emory College, either as co-requisite to one of the previous courses (in the case that they have taken only one Frame Requirement at Oxford) or as a separate requirement to complete the major.
- At least six Core Concentration Courses in American Studies
- Three Contributing Courses
  - one in Broad Historical Perspectives
Meeting with your advisor regularly is the key to creating a concentration that gives real depth and insight into some aspect of American culture.

**Note when selecting courses:**

- Many courses in other departments can count towards the major (with approval of the DUS). Anthropology, Art History, English, History, Political Science, Religion, Sociology, Human and Natural Ecology, Science, Culture and Society all regularly offer interdisciplinary seminars that are focused on American topics. Any course in African American studies can count toward the American Studies Major.
- We strongly encourage students to select at least one course in their concentration that is either comparative or stretches the boundaries of the United States. Courses in Latin and Caribbean Studies, African Studies, Asian Studies, IDS, are often a way to enrich your understanding of the US in global context.
- The required Senior Symposium is offered only in the Fall and carries 4 credits. If you are planning to study abroad in fall of your senior year, consult early with the DUS, as you should take the course in your junior year.
- Freshman seminars cannot count toward the major.
- If you are double-majoring, up to two courses from your other major plan can count toward your American Studies major (also known as 'double-dipping').

Ancient Mediterranean Studies

Drawing on courses taught by faculty in seven Emory departments, the Ancient Mediterranean Studies major allows students to work with an advisor in developing a focused program of study.

A minimum of 36 credit hours is required (usually 11-12 courses).

**Core Introductory Courses (2 courses)**

- ANCMED 101: Introduction to Ancient Mediterranean Societies (required) and
- ANCMED 201R: Mediterranean Archaeology or ANCMED 202R: Literature and Traditions

**Language Courses**

Two semesters of study or the equivalent (e.g, summer program or intensive one semester course) of a single ancient Mediterranean language

**Additional Program Courses**
Six or seven courses, drawn from at least three different participating departments, of which three must be at the 300 level or above.

**Senior Research**

ANCMED 498 - Thesis written under advisor from the Program faculty. [Students with a GPA of 3.5. are eligible to participate in the College Honors Program and substitute ANCMED 495 for ANCMED 498 - Honors Independent Writing]

A Bachelor of Arts degree in Anthropology requires a minimum of thirteen courses: twelve must be at least 3 credits each, and one is a 1-credit capstone course. One of the 3-credit courses must be tied to the senior Capstone Project.

**A. Introductory Courses (2 courses)**

Students must take:

- 202 Concepts and Methods in Cultural Anthropology

Students must choose one of the following courses:

- 101 Introduction to Anthropology
- 201 Concepts and Methods in Biological Anthropology
- 204 Introduction to Archaeology

**B. Foundational & Area Studies Courses (2 courses)**

1. One foundational course that focuses on a theme or field of research:

   - ANT 200 / NBB 201 Foundations of Behavior
   - ANT 201* Concepts and Methods in Biological Anthropology
   - LING 201 / ANT 203 Foundations of Linguistics
   - ANT 204* Intro to Archaeology
   - HLTH 250 / ANT 205 Foundations of Global Health
   - ANT 207 / IDS 207 Foundation of Development Studies
   - ANT 210 Human Biology: Life Cycle Approach
   - ANT 230 Medical Anthropology
   - HLTH 210 / ANT 231 Predictive Health and Society
   - ANT 252 Fast Food/Slow Food
   - ANT 260 Psychological Anthropology
   - Other courses as designated by department
Note: *ANT 201 and 204 cannot be counted for both A and B

2. One course that focuses on a world ethnographic area:
   - 280 Anthropological Perspectives (Topics Vary)
   - ANT 258 / JS 258 Anthropology of the Jews
   - Other courses as designated by department

C. Concentrations for Anthropology BA Majors (4 courses)

The concentration requirement consists of **four courses at or above the 200 level** within the concentration. Courses taken to fulfill the foundational course requirement (B.1) or capstone (E) may not count toward the concentration.

Each student must choose a concentration at the time of declaration. The concentration may be changed at a later time. Students may choose from among the following concentrations:

1. The Anthropology of Global Development, Health, and Sustainability
   Areas of study include:
   - Political Economy and Development
   - Environmental Anthropology
   - Sustainability
   - Food (In)security
   - Global Health
   - Inequality

2. The Anthropology of Power, Identity, and Social Justice
   Areas of study include:
   - History, Narrative, and Politics
   - Power and Socioeconomic Inequalities
   - Race and Racism
   - Law, Power and Representation
   - Ethnic and Cultural Diversity
   - Gender and Sexuality

3. The Anthropology of Mind, Body, and Health
   Areas of study include:
   - Psychological and Cognitive Anthropology
   - Nutritional Anthropology
   - Medical Anthropology
   - Global Mental Health
   - Culture and Public Health
   - Anthropology and Neuroscience

4. The Anthropology of Meaning, Media, and Performance
   Areas of study include:
   - Media and Communication
• Visual Anthropology
• Religion and Ritual
• Identity and Representations
• Language and Culture
• Performance
• Symbolic Anthropology

5. Individualized Concentration - Student will work with faculty advisor to design the course of study. Possible areas of study include:

• Biological Anthropology
• Archaeology
• History and Anthropology
• Selected themes made in consultation with advisor

Anthropology courses and courses cross-listed with Anthropology will be designated for credit within the appropriate concentrations.

D. Anthropology Electives (3 courses)

Any Anthropology course or course cross-listed with Anthropology may count as an elective toward the Anthropology BA degree, within the guidelines listed under “additional details” below. Course offerings for each term may be found the Course Atlas.

E. Capstone Project (2 courses)
One course of at least three credits and a 1-credit capstone course.

Seniors enrolled in the B.A degree program in Anthropology are required to complete a capstone project, which is intended to be an integrative experience. Students are expected to apply what they have learned in Anthropology to a research problem/project of interest to them. Based on their research, and as part of or in addition to the work of their chosen capstone course option (below), students will produce a paper of at least 20 pages or an alternative project that is the intellectual equivalent to such a paper, working closely with their advisor/instructor through ANT 499 capstone course to ensure the project is a high-level integration of their undergraduate education in Anthropology. The paper topic or alternative project must be approved by the supervising instructor.

Students must select one of the following course options for completion of the capstone project:

• 300-level topical course in anthropology.
• 400-level independent study course that involves archival research or fieldwork. Where allowed by the program, a student can enroll in an Independent Studies Course in anthropology during a Semester Abroad to complete this requirement.
• 400-level anthropology Advanced Seminar Course.
• 500-level anthropology Graduate Seminar.

All capstone students will be enrolled in a 1-credit ANT 499 course to receive advising support for completion of their advanced capstone project.

Students successfully completing the Honor’s Program may substitute their thesis for the Capstone project requirement.

With the approval of the student’s advisor, the student can complete this requirement during the Spring semester of their Junior (third) year.
Additional details

- Only one course at the 100-level may be used to satisfy requirements.
- A maximum combined total of 8 credit hours of ANT 397R (Directed Readings) ANT 495 (Honors) and ANT 497R (Directed Research) may be applied toward the major.
- No courses taken using the S/U option may be applied toward the major.
- Students are encouraged to study abroad. Up to 4 courses taken off the Emory campus (i.e. study abroad or transfer courses) may be approved to count toward major requirements. Courses must be at least 3 credits each and be approved by the Director of Undergraduate Studies.
- A maximum of two courses may double-count for both the Anthropology BA and another major or minor.

Note: Petitions for course substitutions and exceptions will be considered by the Director of Undergraduate Studies, who may seek the advice of the Undergraduate Concerns Committee as needed.

ANTHROPOLOGY AND HUMAN BIOLOGY

Declaration of Major Contact | Anthropology

The Bachelor of Science in Anthropology is a concentration in biological anthropology. It is designed to cultivate one of the particular strengths of Emory's Anthropology department. While the degree requires training in general Anthropology, it has a clear emphasis in the area of human biology.

A Bachelor of Science degree in Anthropology requires a minimum of ten 3- or 4-credit Anthropology courses (at least 30 credit hours), and six Foundation courses (23 sem. hours). A maximum combined total of eight hours of ANT 397 (Directed Readings), ANT 495 (Honors), and ANT 497 (Directed Research) may be applied to the major. No courses taken using the S/U option may be applied to the major. A maximum of 12 credit hours earned off the Emory campus may be applied toward the major. Only one 100-level class may be taken to fulfill the elective requirements. Note: Petitions for course substitutions and exceptions will be considered by the Undergraduate Concerns Committee.

All Majors must take both:

**Anthropology 201** Concepts and Methods in Biological Anthropology AND

**Anthropology 202** Concepts and Methods in Cultural Anthropology

These foundations courses are designed to give majors a thorough grounding in all four fields of anthropology and CAN BE TAKEN IN ANY ORDER. While it is not required to complete 201 and 202 prior to taking upper division courses, it is strongly recommended that they be taken in the sophomore year, if possible, so they may serve as building blocks for further coursework.

Plus the following Departmental courses (no individual course may be used to fulfill more than one requirement area):
Human Biology (one: ANT 210, 305, 311, 312, 313, 314, 315, 316, 321)

And four elective anthropology courses. (PLEASE NOTE THAT ANT 270 CANNOT COUNT AS AN ELECTIVE IF IT IS COUNTED FOR THE STATISTICS REQUIREMENT FOR THE MAJOR.)

ANTHROPOLOGY ELECTIVES
Course offerings for the additional courses required for the major can be found in the Course Atlas.

CORE REQUIREMENTS FOR THE MAJOR

All Art History majors will take the following three courses (10 credits):

- ARTHIST 101 and ARTHIST 102, Art | Culture | Context, the foundational Art History courses
- ARTHIST 111 or ARTHIST 112, Foundations in Art Practices, or another Visual Arts course

In addition, Eight (8) elective courses in Art History, including

- One course in each of the following regional-historical divisions:
  1. Ancient Mediterranean art & architecture (Egypt, Greece, and Rome)
  2. Medieval, Renaissance, and Baroque art & architecture (Europe)
  3. Modern and contemporary art & architecture (after 1800; global)
- Four (4) courses at the 300 level or above, including one 400-level seminar. These courses may also satisfy the regional-historical distribution requirement.

ART HISTORY with MUSEUM CONCENTRATION.

Twelve courses (minimum 37 credit hours)

In addition to the Core Requirements for the Major,

- ARTHIST 282, Introduction to African Arts & Museums, or an equivalent course

Seven (7) elective courses in Art History, including

- One course in each of the following regional-historical divisions (as above)
- Four (4) courses at the 300 level or above, including one 400-level seminar. These courses may also satisfy the regional-historical distribution requirement.
- Two (2) courses with a museum focus, generally topics courses in Art History that focus on museum collections or practices, conservation, or the history of collecting. Eligible courses will be designated in the course atlas as appropriate for the concentration.
One (1) Museum-related Practicum, either an approved internship (ARTHIST 397), for at least two (2) credit hours; or Supervised Reading & Research (ARTHIST 398), for at least two (2) credit hours.

**ART HISTORY with VISUAL ARTS CONCENTRATION.**

Twelve courses (minimum 41 credit hours)

In addition to the Core Requirements for the Major:

**Six (6) elective courses in Art History, including**

- One course in each of the regional-historical divisions (as above)
- Three (3) courses at the 300 level or above, including one 400-level seminar. These courses may also satisfy the divisional requirement, above.

Three (3) elective courses in Visual Arts, including one course at the 200 level or above. An Independent Study project (ARTVIS 398) may fulfill this requirement.

**General information**

**Maker and materials courses:** Up to two (2) of the maker and materials courses may count as electives toward the Major and the Major with Museums Concentration; only one (1) of these courses may count toward the Major with Visual Arts Concentration. These courses include ARTHIST 103, Understanding Architecture; ARTHIST 104, Great Buildings; ARTHIST 210, Introduction to Computer-Aided Design; ARTHIST 387, Issues in Art Conservation; and ARTHIST 388, Technical Art History.

**Pass/fail:** No more than one course taken S/U may be applied to the Major. Seminars (400-level courses), to satisfy the requirements for the Major, must be taken for a letter grade. To fulfill the requirements for the Visual Arts Concentration, all Visual Arts courses must be taken for a letter grade.

**Study abroad:** Up to two (2) courses completed in approved study-abroad programs may be used to fulfill elective requirements for the Major; students may petition the department to allow a third. Only one (1) approved Visual Arts course may count toward the Visual Arts Concentration.

**Independent study:** No more than three (3) hours of Supervised Reading and Research (ARTHIST 398) may be applied to the Major. This does not include the three (3) hours of Independent Study in Visual Arts (ARTVIS 398) that may be taken toward the Visual Arts Concentration, or the practicum in the Museum Concentration.

**Internships:** An internship (ARTHIST 397) may not be applied to the Major unless it is completed as part of the Museum Concentration.

Biology

**Overview**

The requirements for the BS are designed for students who wish to pursue an advanced degree in the life sciences. Additional courses in chemistry, physics, **quantitative theory and methods, and calculus** provide greater in-depth training than the BA. The BA degree is appropriate for those students who wish to pursue a double major.

**Requirements**

The BS degree requires at least **57** credit hours, including a minimum of **eleven** biology classes totaling **30** hours. These **eleven** biology classes must include:

- **Biology 141 and 141L plus Biology 142 and 142L**
- One course from each of the following three areas: A) cell and molecular biology, B) organismal biology, and C) ecology/evolution
- Four elective classes (12 credit hours minimum) from the biology course listings (excluding Biology 120, 160, 190, and 497), no more than one of which is cross-listed and originates in another department (see NOTES below).

One upper level laboratory course is also required within the 30 hours minimum of biology.

**Seven** classes from other science and math departments are also required for the BS, as follows:

- Chemistry 150, 202, 203 with labs; Physics 141 with lab; **QTM 100 and two calculus classes: Math 111 and 116** are recommended but other options can be considered in consultation with your Biology faculty advisor.
NOTES

Biology 141, 141L, 142 and 142L are prerequisites for all upper level courses in biology except Biology 240, which can be taken with AP credit for Biology 141 and concurrently with Biology 141L.

A "C" average is required in the Biology, Chemistry, Physics and Math classes necessary for the major.

All courses required for the Biology major must be taken for a letter grade.

Only one cross-listed course that originates in another department may be counted for the biology major. These courses are subject to change, and currently include: Biol/Psych 320, Biol/Psych 325, Biol/Chem 330, Biol/ENVS 345, Biol/Chem 346L, Biol 356/NBB 358, Biol/NBB 361, Biol 385 (Phys 380/NBB 370), Biol/Psych 440, and certain Biol 285, 385, and 485 courses. This also applies to certain ECS 490 courses with biological topics (check with the Biology Department office).

2 credit hour courses may be taken for elective credit; however, additional biology courses will be needed to fulfill the 12 hours of elective credit required.

4 credit hours of Biology 495 (Honors Research) or Biology 499R (non-Honors Undergraduate Research) may be counted as both elective credit and an upper-level lab only after completion of the second semester of 495 or 499R.

An AP score of 4 or 5 on the Biology AP exam, or an IB score of at least 5, will exempt students from Biology 141 only. **Biology 141L and Biology 142 and 142L will still be required.** It is also recommended that transfer students without a Genetics class enroll in Biology 142.

All Biology majors are required to meet with their Biology advisor every semester during pre-registration. An enrollment hold is placed on all Biology major’s OPUS accounts each semester until they have met with Biology advisor.

BIOLOGY

**Code** BIOLOGY

**Degree Awarded** BA

**Hours To Complete** 42

**Courses Required** 11

**Declaration of Major Contact** Biology

The BA degree requires at least 38 credit hours, including a minimum of eleven biology classes totaling 30 hours. These eleven biology classes must include:

- Biology 141 and Biology 141L plus Biology 142 and Biology 142L
- One course from each of the following three areas: A) cell and molecular biology, B) organismal biology, and C) ecology/evolution
- Four elective classes (12 credit hours minimum) from the biology course listings (excluding Biology 120, 160, 190, and 497), no more than one of which is cross-listed and originates in another department (see NOTES below).
- One upper level laboratory course is also required within the 30 hours minimum of biology.
- Chemistry 150 (+150L) and 202 (+202L) are also required.
Notes

Biology 141, 141L, 142 and 142L are prerequisites for all upper level courses in biology except Biology 240, which can be taken with AP credit for Biology 141 and concurrently with Biology 141L.

A "C" average is required in the Biology and Chemistry classes necessary for the major.

All courses required for the Biology major must be taken for a letter grade.

Only one cross-listed course that originates in another department may be counted for the biology major. These courses are subject to change, and currently include: Biol/Psych 320, Biol/Psych 325, Biol/Chem 330, Biol/ENVS 345, Biol/Chem 346L, Biol 356/NBB 358, Biol/NBB 361, Biol 385 (Phys 380/NBB 370), Biol/Psych 440, and certain Biol 285, 385, and 485 courses. This also applies to certain ECS 490 courses with biological topics (check with the Biology Department office).

2 credit hour courses may be taken for elective credit; however, additional biology courses will be needed to fulfill the 12 hours of elective credit required.

4 credit hours of Biology 495 (Honors Research) or Biology 499R (non-Honors Undergraduate Research) may be counted as both elective credit and an upper-level lab only after completion of the second semester of 495 or 499R.

An AP score of 4 or 5 on the Biology AP exam, or an IB score of at least 5, will exempt students from Biology 141 only. Biology 141L, Biology 142 and Biology 142L will still be required. It is also recommended that transfer students without a Genetics class enroll in Biology 142.

All Biology majors are required to meet with their Biology advisor every semester during pre-registration. An enrollment hold is placed on all Biology major’s OPUS accounts each semester until they have met with Biology advisor.

- ECON 101 and 112 are prerequisites for higher numbered courses in Economics and for admission to the undergraduate program in the School of Business Administration. ECON 101 must be completed before enrolling in ECON 112. FIN 201 can substitute for Econ 101.
- At most two Economics courses can be exempt with AP credit.
- Generally, Economics 201, 212, and 220 are taken at Emory. Only under extraordinary circumstances may these courses be taken at other institutions; prior written approval of the director of undergraduate studies is required.
- Courses taken at another institution, before or after enrolling at Emory, will not count toward the major or minor unless written permission is given by the Director of Undergraduate Studies, even if the College has accepted credit for the courses.
- Students in Economics 394, Washington Economic Policy Semester, must register S/U instead of L/G. The credits earned for this course will be counted as 200/300 level elective(s).
- Economics 449, Economics Internship, is offered to economics majors and minors only and must be taken on an S/U basis.
- Up to eight semester hours of credit earned at non-Emory overseas study programs may be counted toward the major requirements in Economics, mostly as 300 level elective(s). Prior written approval of the Economics Department’s Study Abroad Coordinator is required.

Educational Studies Major/Noncertification Program

The educational studies major provides a foundation that is appropriate for students who may choose to enter a teacher certification program at the graduate level as well as for students who may later wish to embark upon other careers in education. The major is also appropriate for students who intend to pursue graduate study in other areas such as law or business but who need a comprehensive understanding of the complexity of educational issues in order to contribute to meaningful decision making in their professional and private lives. Graduates of this program do not meet the requirements for teacher certification.

Requirements for Major

The BA degree program consists of a minimum of ten courses (forty hours). Educational Studies 201 (American Education) is required.

Five Breadth Courses: The purpose of the breadth requirement is to insure that all majors acquire systematic knowledge in what we view as five central areas. Consequently all majors must take at least one course from each of the following five areas: Psychological Contest of Education, Social Context of Education, Cultural Context of Education, Historical/Philosophical Context of Education, and Methods of Disciplined Inquiry.

Four Elective Courses: Students must take additional four courses to complete the major. These courses will be selected in consultation with the student's adviser. The faculty values development of individualized programs that may include study abroad, off-campus internships, and other appropriate experiences in an educational context. Course taken to meet the requirements for the BA may not be taken under the S/U option. A "C" average or better must be maintained in the courses for the major to fulfill graduation requirements.

Admission

The Division of Educational Studies (DES) is scheduled to close Summer 2017. Recognizing that the number of Educational Studies (EDS) courses available will be decreasing each year as this closing date approaches, students are no longer permitted to declare new majors or minors in Educational Studies. However, students
who express an interest in the field of education, in most cases, will continue to be able to enroll in Educational Studies coursework through Summer 2017. Please contact either the Director of Undergraduate Studies or the Director of DES if you wish to express your interest educational studies, at which time you will be assigned an EDS adviser and be provided with further information. Ongoing advisement is critical during preregistration each semester since a permission number is required to enroll in most EDS courses.

All students except those in the “4+1 Bachelor’s/Master’s Program,” must take ten courses and a minimum of 36 credit hours in English for a letter grade. These courses must incorporate the following plan:

- English 205
- Four 300- or 400-level English courses in an area of concentration developed by the student with guidance from a faculty advisor
- Five electives

Included in these ten courses must be four courses other than ENG 205 that meet the following distribution requirements:

- One course in British literature before 1660
- One course in post-1660 British, Irish or other non-American Anglophone literature
- One course in American literature
- One course having a theoretical or interdisciplinary component

Two of the four courses satisfying these distribution requirements must be at the 300 or 400 level.

Important: The following courses do not count towards the major: 101, 181, 190 and 496R. No more than two creative writing courses may count toward the major.

Students in the “4+1 Bachelor’s/Master’s Program” are subject to the above requirements except such students may count up to four graduate seminars toward their ten-course requirement. Two of these graduate seminars may be taken pass/fail and any may be counted toward the area of concentration.

Ordinarily, a maximum of eight credit hours (two courses) earned off campus may be applied toward the major and at least two of the courses included within an area of concentration must be taken at Emory University. Under extraordinary circumstances, the Director of Undergraduate Studies may approve petitions for exceptions to this rule.

ENGLISH AND CREATIVE WRITING

Code: ENGCW
Degree Awarded: BA
Hours To Complete: 38 - 44
Courses Required: 11
Declaration of Major Contact: Creative Writing
Requirements: In the Creative Writing Program at Emory students study both art and craft: the literary traditions in which they write and the elements of craft in poetry, fiction, playwriting, screenwriting, and creative nonfiction. The program fosters their development as writers, through an emphasis on reading as a writer, generating material,
Academic requirements of the English/creative writing major are eleven courses (thirty-eight to forty-four credits) beyond the introductory courses in English required by Emory College (English 101, 181, or Literature 110). Five of those eleven courses (fifteen to twenty credits) are to be creative writing workshops and the other six (eighteen to twenty-four credits) are to be advanced-level English classes in literature and criticism (i.e., 300 and 400 level). Students must take at least two 300-level literature courses in prose, two in poetry, and two in nineteenth-century writing or earlier. Majors may also substitute one 200-level English literature course for one 300-level course. At least two writing workshops must be in the same writing genre (fiction, poetry, etc.). This framework provides enough flexibility so that English/creative writing majors may work out individual programs of study in consultation with their advisers. In addition to the creative writing courses listed below, English/creative writing majors are also eligible for work in the Internship Program (see ENG 496R), independent study (see ENGCW 397R), and creative writing honors (see ENGCW 495R). Please note that internship hours do not count toward the major. The Creative Writing Program also sponsors a reading series in which nationally prominent authors are invited to campus to read from their latest works and to meet with students.

**Declaration of Major Contact**

History English

The departments of History and English offer a joint major, the goal of which is a logical and focused curriculum for exploring the relationships of literature and history. The joint major seeks a coherence that draws upon expertise in each department to aid the student in fashioning an individual program. The exact nature of the student's class list should be worked out in consultation with the student's adviser in each department. There are no geographical or chronological limits placed on the joint major, but a thematic unity is expected. Student participation in the intellectual life of each department is a high priority.

At least fourteen courses (a minimum of forty-eight hours); the entire class list must be approved in writing by the student's advisors in each department.

**Requirements**

1. Seven courses in history, five of which must be above the 200 level, one of which must be a 400-level writing intensive colloquium, and all of which must demonstrate a thematic coherence
2. Six courses in English beyond the 100 level, four of which must be 300 or 400 level writing-intensive courses and all of which must demonstrate a thematic coherence.
3. One writing course, which may be either an honors thesis, a directed reading that produces a senior essay of at least 5,000 words to be read by the student's advisers in each department, or (with advance written permission of the professor and both advisers) an upper-division course in either department in which the student writes a term paper developing specific relationships between history and literature.

**Admission**

Prospective majors must submit an official letter of application that describes the student's proposed field of concentration within the joint major (e.g. sixteenth-century British, nineteenth-century American, modern Irish, African American, etc.); the letter must be endorsed by an adviser in each department. This letter calls upon the student to plan a course of study, though some flexibility is permissible as the student pursues this planned curriculum. Students are strongly encouraged to file their applications at the start of their junior year. Applications must be submitted to the director of undergraduate studies in each department before the student registers for the first semester of the senior year.

**FRENCH**
**French Studies (FS) Major**

The requirements for the **French Studies (FS) major** are French 310 and 314 plus any three out of the following 300-level courses (312, 313, 331, 341, 351, 385, 391) and three 400-level French courses (460, 488, 490). All courses must be taken for letter grade.

**French Studies major with an Interdisciplinary Track (FIT)**

The requirements for the **French Studies major with an Interdisciplinary Track (FIT)** are French 310 and 314 (in French) plus French 341 and one 300-level course in another department (in English) plus one out of the following 300-level courses (in French) (312, 313, 331, 351, 391) and three 400-level French courses (460 or 488 (in French), 471 and 497 (in English). All courses must be taken for letter grade.

**German Studies**

Students must complete **36-42** credit hours in German Studies courses to complete the major. The number of credit hours required for the major depends on the student's placement into the German program:

- For students beginning with 101, 42 credit hours including 8 credits for the 101-102 sequence are required to complete the major;
- For students beginning with 102, 38 credit hours including 4 credits for 102 are required;
- For students beginning with courses numbered 201 or higher, 36 credit hours are required.

Regardless of placement, required components of the major include the following:

1. 2 courses in German numbered 400 or higher, one of which must be completed during the student’s final year at Emory. Courses must be a minimum of 3 credit hours; independent study projects and senior thesis research cannot be used to fulfill this requirement;
2. GER 392 (1-credit conversation course, which is repeatable but may count for the major only once);
3. An academic study abroad program in the German-speaking world:
   1. Emory’s Summer Study Abroad Program in Vienna (a minimum of 8 credit hours from this program can count toward the major), or
   2. One semester in Freiburg, Berlin, or Vienna through an approved program (a maximum of 12 credit hours can be counted from semester study abroad toward the major)
Students may substitute a maximum of 7 credit hours in courses on German-related topics approved by the German Studies Department and taught by either the German Studies Department or another department, such as Film Studies, History, Art History, Music, Political Science, or Philosophy. These courses may be taught in German, English, or Yiddish.

The History Department requires all its majors to choose a concentration within the major. Since History as a discipline is diverse and our students come to it with varied expectations, the student’s concentration may aim at a broad exposure to history—General Studies in History—or at deeper immersion in one of three geographically based or three thematically focused approaches. The geographic concentrations are: United States; Europe; and, Latin America and Non-Western World. The thematic concentrations are: Women, Gender, and Sexuality; Empires, Nations, and Citizenship; and, Law, Economics, and Human Rights.

**Advanced Placement (AP) and International Baccalaureate (IB) Credits**
History majors may use a maximum of six (6) hours of Advanced Placement (AP) and International Baccalaureate (IB) history credit towards a history major. AP and IB credit cannot be used to satisfy a major distribution area requirement; these credits can be used to satisfy major credit hours only.

**Study Abroad Courses**
History majors may apply a maximum of three (3) study abroad courses towards a history major.

**General Requirements**

- A student must complete 11 courses (a minimum of 35 credit hours) of history, at least 7 courses of which must be at or above the 300-level. Two of the 11 courses required for the history major must be 400-level colloquia. Normally, one colloquium will be taken in the junior year, the other in the senior year. Graduate seminar courses (500-level) may be used to fulfill the major colloquia requirement but do not meet College continuing writing requirements, as colloquia normally do.
- Two research papers are required of all history majors. These papers are written in the colloquia and are normally sixteen to twenty-four pages in length.
- Completion of the major requires a minimum of a C average in history courses counted towards the major.
- The S/U option may not be exercised in any course counted for the major.
- Special programs have been developed for students who would like to take joint majors in history and art history, history and classics, history and English, and history and religion. Joint major information may be obtained from the Department office.

**Concentration Requirements**

- Each student must choose a concentration within the major by October of the junior year (or upon declaring a major if done at a later date).
- For all concentrations, students must take at least five courses within the concentration, one of which may be a 200-level course if listed as pertinent, while the other four must be at or above the 300-level, including one 400-level colloquium.
- One of the major’s two research papers must be done within the concentration.

**Distribution Requirements**

- All history majors are required to demonstrate chronological breadth by taking at least one course in early and one in modern history within their chosen concentration.
- History majors with geographic concentrations are also required to take at least two history courses outside their concentration and in separate geographic areas. For instance, a student concentrating in U.S. history is required to take at least one class each in European history and in World history. The two courses outside the concentration may be at any level but students should keep in mind that they may only take a total of four classes below the 300-level for major credit (this includes transfer credits from AP courses).
- Majors with thematic concentrations must explore at least two geographic areas within the concentration, at or above the 300-level (for example, U.S. and European, or U.S. and World history). General Studies majors automatically satisfy the geographic breadth requirement.

**CONCENTRATIONS FOR HISTORY MAJORS**

**General Studies**
One course each (for a total of five) in: U.S. History before 1860; U.S. History after 1860; European History before 1750; European History after 1750; and Latin America & Non-Western World History.

**United States History**
This concentration permits majors to study American history in depth, by taking more courses offered by our
faculty’s U.S. specialists. Students take advanced courses on pre-Civil War history as well as post-1860 America, enabling them to develop a fuller sense of the contours of the nation’s history.

**European History**
This concentration offers students the opportunity to study the transformative social, cultural, and political experiences of European states, societies, and civilizations from ancient Greece and Rome, through the medieval, Renaissance, and early modern periods, to the modern age of revolution, colonialism, total war, and European Union.

**Latin America & Non-Western World History**
This concentration allows students to focus on the histories of Latin America, Asia, Africa, and the Middle East through a rich variety of classes offered by our area specialists. Topics of interest include: the rise and fall of empires and civilizations, European colonialism, anti-colonial movements, inter-ethnic and sectarian politics, and globalization.

**Women, Gender, and Sexuality**
This concentration allows students to focus on the history of women, the social construction of masculinity and femininity, and the making of sexual identities across different societies and eras. Topics include: marriage and the family, definitions of male and female roles by religious institutions and the state, histories of feminism, and changes in notions of sexuality over time.

**Empires, Nations, and Citizenship**
This concentration lets students explore the social, cultural, and political tensions that have historically shaped relations between societies, and relations within the same societies. Topics include: the rise and fall of empires, from ancient to modern; the growth of nation-states and of related internal or international conflicts; and the problems of liberty, equality, and diversity that have made questions of citizenship so contested.

**Law, Economics, and Human Rights**
This concentration allows students to examine issues of law, economics, and human rights in historical contexts from ancient to modern periods. Topics include: race and slavery; the origins of capitalism, industrialism, colonialism, and imperialism; diplomatic history; gender regimes; family history; legal and constitutional history; environmental history; medical history; the holocaust; totalitarianism; and civil rights history.

**ART HISTORY.**

Eight courses (minimum 26 credit hours)

Three (3) CORE COURSES

- ARTHIST 101 and ARTHIST 102, Art | Culture | Context, the foundational Art History courses
- Either ARTVIS 111 or 112, Foundations in Art Practices, or another Visual Arts course.
Five (5) ELECTIVE COURSES, including

One course in three (3) of the four regional-historical divisions:

1. Ancient Mediterranean art & architecture (Egypt, Greece, Rome)
2. Medieval, Renaissance, and Baroque art & architecture
3. Modern and contemporary art & architecture (after 1800; global)

Three (3) courses at the 300-level or above, including one 400-level seminar. These courses may also satisfy the regional-historical distribution requirement, above.

HISTORY. Six courses (minimum 19 credit hours)

• Five (5) courses (minimum 15 credit hours) at the 300 level or above
• At least one 400-level course (4 credit hours) (e.g., HIST 487, 488, or 489)

General Information

Up to two (2) of the maker and materials courses may count toward the Joint Major as electives. These include ARTHIST 103, Understanding Architecture; ARTHIST 104, Great Buildings; ARTHIST 210, Introduction to Computer-Aided Design; ARTHIST 387, Issues in Art Conservation; and ARTHIST 388, Technical Art History.

Pass/fail: No more than one Art History course taken S/U may be applied to the joint major. Seminars (400-level courses) must be taken for a letter grade to satisfy the requirements for the Joint Major.

Study abroad. Up to two (2) courses completed in approved study-abroad programs may be used to fulfill the Art History elective requirements for the Joint Major; students may petition the department to allow a third.

Independent study: No more than three (3) hours of Supervised Reading and Research (ARTHIST 398) may be applied to the Joint Major.

Internships: An internship (ARTHIST 397) may not be applied to the Joint Major.

Honors. An Honors degree may be pursued in either department. In Art History, Honors students are required to take one graduate-level seminar, which may be used to fulfill a requirement for the Joint Major (though not the Continuing Writing Requirement for the GER). The Honors course itself, ARTHIST 495, does not count toward the Joint Major.

Advanced Placement in Art History: Students may receive 3 credit hours and an exemption from ARTHIST 101 for an AP Art History exam score of 5. Students with a score of 5 on the AP exam who elect to receive a non-credit-bearing course waiver may be exempted from ARTHIST 101 but must make up the credit hours with an additional elective course.

Advanced Placement in Studio Art: Students may receive 3 credit hours and an exemption from an equivalent Visual Arts course for a score of 5 on an AP Studio Art exam. The exam in 2D Design or Drawing may exempt a student from ARTVIS 103, and in 3D design, from ARTVIS 109. Nevertheless, before enrolling in upper-level visual arts courses, students must submit a portfolio for the instructor’s review. Students with a score of 5 on an AP Studio Art exam who elect to receive a non-credit-bearing course waiver may be exempted from the equivalent Emory course but must make up the credit hours with an additional elective course.

A total of nine courses combined from the Art History department and the list of Integrated Visual Arts Courses (found here: [http://creativity.emory.edu/home/student-resources/ivac-courses.html](http://creativity.emory.edu/home/student-resources/ivac-courses.html))

a) Five Integrated Visual Arts courses, one of which may be a semester of the Foundations in Art Practices ARTVIS 111/112 (though enrollment preference will be given to Art History majors and minors), and at least two of which must be upper-level courses.

b) Two Art History courses or alternatively, one Art History and one cross-listed Archeology course. One of the Art History courses must be in the modern period (19th century to the present); ARTHIST 102 fulfills this requirement and is highly recommended.

c) One upper level topical course in an area related to the student's focus. Each department will determine what coursework is relevant in their area. [View the list of approved upper level topical courses by area](http://creativity.emory.edu/home/student-resources/ivac-courses.html).
d) ARTVIS 490 Senior Seminar. A spring semester required class for all seniors enrolled in the co-major. This course will provide a formal structure in which the senior students will develop, discuss and present their ideas for their final project and presentation.

Students interested in a co-major in Integrated Visual Arts will submit an application and a portfolio to the Integrated Visual Arts Admissions committee in their sophomore year. Students should have completed at least one class from the list of integrated visual arts courses before being admitted to the program. Completing one class in Art History prior to application is highly recommended.

INTERDISCIPLINARY STUDIES IN SOCIETY AND CULTURE

Code IDSSC
Degree Awarded BA
Hours To Complete 44
Courses Required 12
Declaration of Major Contact Institute of the Liberal Arts

The IDS major requires 44 credits; generally this will involve 5 Frame Courses + 7 Concentration Courses:

Frame Courses = at least 20 credits (2 200-level, Writing Lab courses @ 5 credits/each, IDS 491 Senior seminar @ 4 credits, and 2 others @ 3 or more credits)

Concentration Courses = at least 7 courses carrying 3 or more credits each

Concentration Courses

At least seven of the major's required courses constitute the student's individualized concentration. This list of at least seven courses is designed in close consultation with the Director of Undergraduate Studies (DUS) or a faculty advisor, who approves of the concentration at the time the student is admitted into the major. Subsequent changes to the concentration courses must be approved by the DUS.

The concentration courses prepare a student to carry out research into a question that is best illuminated by two or more disciplinary methods. Skills and research launched in the concentration courses culminate in the required IDS senior project.

Frame Courses

Writing as a skill for reflective reading and clear articulation of thought is crucial to success within the IDS major. Frame courses provide structure to a student’s experience within the major by emphasizing writing skills and by presenting examples of analysis and illumination of intellectual problems through the methods and resources of multiple disciplines.

- Two 200-level continuing writing requirement courses that participate in the ILA’s innovative Writing Lab initiative are required; the array of options is as follows:
  - IDS 200
  - IDS 201_OX
  - IDS 205
• IDS 216W or IDS 216_OX
• An equivalent course, upon consultation with and approval by the ILA undergraduate committee.

• ENG 223 Rhetorical Grammar (1-credit, S/U) is co-requisite with all of the preceding courses, except Oxford courses. Oxford continuees will be required to take ENG 223 when they arrive at Emory College, either as co-requisite to one of the previous courses (in the case that they have taken only one Frame Requirement at Oxford) or as a separate requirement to complete the major.

• One 300-level class focusing on cultural theory is required (generally IDS 385 Critical Cultural Theory)
• Two senior year courses are required:
  o IDS 491 Liberal Studies Seminar (senior seminar and capstone)
  o Senior Research or Honors research

IDS Senior Project

As a synthesis of a student's course of study, and as a credential demonstrating a student's ability to organize complex ideas, each IDS student completes a significant senior project. Senior projects frequently involve scholarly research, but can be composed of research and other forms of scholarship, such as artistic expression or other forms of broader public engagement. Students begin their projects in the senior capstone seminar and work closely with faculty advisors, who give final approval of the project. If a student meets other requirements set by the Honors Program, the IDS Senior Project can count as the Honors Project.

Language Requirement

Competency and cultural awareness gained through the study of a non-native language other than English at the level of 201 or above.

*Note: non-honors students take IDS 499 at least once, optionally twice in their senior year; honors students take IDS 390 in their junior spring semester in addition to IDS 495 Honor Research, which is required by the Honors Program and must be taken at least once, optionally twice. As an additional support for their senior projects, non-honors students are encouraged to take IDS 390 in spring of their junior years.

Admission

IDS major declaration requires approval of the Director of Undergraduate Studies. Students are encouraged to schedule a meeting to discuss their interests in the IDS major.

INTERNATIONAL STUDIES

Code INTLSTU
Degree Awarded BA
Hours To Complete 36
Courses Required 11
Declaration of Major Contact Political Science

Requirements

1. The Political Science Department requires all its International Studies majors to complete the following foundational courses:
   o QTM 100: Introduction to Statistical Inference
   o POLS 110: Introduction to International Politics
   o POLS 111: Principles of Political Science
   o POLS 208: Political Science Research Methods

2. All International Studies majors must also complete:
   o one research course (POLS 394/494 or "RSCH" in title and on IS approved list)
   o one POLS elective at any level (on IS approved list)
o two upper-level POLS electives (300+ and on IS approved list)
o three upper-level POLS (300+) or non-POLS electives at any level (on IS approved list)

3. Modern foreign language requirement: IS majors must pass one course (202 level or above) in which the
   language of instruction is other than English.

Additional Requirements and Procedures

1. No more than four 100-level courses (not including QTM 100) may be used to satisfy the major.
2. A minimum of seven courses must be taken at Emory University or Oxford College. International Studies
   majors may get credit for up to four courses taken outside of Emory (study abroad programs, Bard
   Globalization and International Affairs and Washington Semester Programs, transfer and transient
   credits) that have been approved by the department.
3. Students may not double major in Political Science and International Studies, nor may a student major in
   International Studies and minor in Political Science.
4. No courses taken pass/fail (S/U) may count toward the major. This means that courses taken abroad in
   non-Emory approved programs, which as such receive only S/U grades, cannot count toward the major.
   The only exception is the Washington Semester Program or the Bard International Affairs and
   Globalization Program. Students may use up to eight hours (or two courses) of Washington Semester
   credit or Bard credit as elective credit towards the Political Science Major.
5. One elective course can be satisfied by a POLS 496: Internship or a POLS 497: Directed Study. In
   addition, one elective course can be satisfied by a POLS 387: CLSS Independent Research or POLS 388:
   Research in Political Science.
6. Major status does not guarantee enrollment in any particular course. Some classes may require course
   prerequisites or other requirements for enrollment.
7. Students are encouraged to take advantage of study abroad opportunities.
8. Each student majoring in International Studies will be assigned an advisor and will be expected to
   consult with that advisor in designing a plan of study.
9. Each semester, prior to pre-registration advising, the department will issue a list of IS approved courses
   to be offered the next semester (permanent and variable topic Political Science courses as well as
   cognate courses in other departments) that may be used to satisfy the International Studies
   requirements. This list will be displayed on departmental bulletin boards, distributed to International
   Studies majors, distributed to departmental advisors, and posted on the Department’s web site. Records
   of approved courses by semester will be maintained in the departmental office as well as on the
   Department's web site. Decisions on qualifying courses will be made by a committee of International
   Studies faculty from the Department of Political Science. This practice will be followed to ensure that the
   full range of International Studies courses in any one semester, many of them non-permanent offerings,
   will be available to students and credited toward the requirements for the major.
10. International Studies majors are eligible to participate in the Political Science Honors Program in order
    to receive Honors in International Studies. Honors Program students may use an appropriate graduate
    seminar to satisfy the advanced seminar requirement.

Note on the Modern Foreign Language Requirement
Students must demonstrate proficiency in a modern foreign language at a level equivalent to two years of college
study. This will be satisfied by passing one course at the 202 level (or its equivalent) or above. Courses taken to
achieve the required foreign language proficiency do not count toward the requirement that 36 hours of
international studies courses be completed, nor are the grades used in calculating the major grade point average.
Students may take this course pass/fail, if not required to fulfill a general education requirement.

ITALIAN STUDIES

Hours To Complete 36 - 48
Courses Required 12
Italian Studies is an interdisciplinary major whose focus is the study of Italy from a multifaceted point of view: literary, cultural, historical, artistic, philosophical, and political. It includes courses whose primary objective is to acquaint students with Italy, not only as a vital contributor to world intellectual and cultural history, but also with Italy's role and reality in today's world. The Italian Studies major is composed of ten classes. Six of these courses are required in Italian and follow the natural sequence of language to literature. They are 201, 202, 301, 302, and two fourth-year classes, usually 300 and 470. Students are highly encouraged to enroll in one Italian studies survey course, either 170 or 171 (number may vary), or the 270R course, taught on location during the Italy Summer Program. Three courses or more may be chosen from the following departments: Italian, Art History, Classical Studies, History, Music, Philosophy, Political Science, and Religion. Other appropriate courses may be found in the Course Atlas and submitted to Program Director for approval. Participation in the summer or semester programs in Italy is highly recommended especially for majors.

Language

JPN 202 and four more courses at the 300 and 400 levels (a total of five courses). All course progressions must be approved by the program's language coordinator. Language requirements may be fulfilled by demonstrating equivalent mastery of the language through oral and written examination administered by REALC. Students who are placed beyond 202 will take additional courses from lists A and B to equal the number of language classes skipped. Students must complete a minimum of 36 credits to graduate with a major in Japanese. Students who fall below this minimum must take additional electives from List A or List B to reach the minimum credit total.

Electives

Four electives are required (totaling at least 12 credit hours). A minimum of two must be from List A. The remaining two may be taken in any of the following combinations: two from List A, one from List A and one from List B, or two from List B (a total of four courses). No courses for the major may be taken S/U. Students must receive at least a C in each course taken for the major. One course taken on study abroad (JPN 315) may count toward the four required electives. Courses not on this list that contain more than 50% Japan-related content may be approved at the discretion of the major/minor advisor.

Electives

List A

- JPN 234 Japanese Linguistics
- JPN 270W Introduction to Japanese Culture
- JPN 372W Introduction to Modern Japanese Literature
- JPN 378W Postwar Japan through its Media
List B

- JPN 232 Language Usage in Japanese Society
- JPN 275 Nature and Culture in Japan

Equivalencies are determined by department including, but not limited to, AP credit, IB credit, and previous coursework in the ancient languages.

LATIN AMERICAN AND CARIBBEAN STUDIES

Code LACS

Degree Awarded BA

Hours To Complete 48

Courses Required 12

Twelve semester-long courses are required:

a. Seven courses (core and elective) must focus primarily on Latin America and/or the Caribbean. Of the seven courses, four must be core courses and three must be electives. Students can choose their four "core courses" from the following list:

- HIST 211: Latin American History
- One 300 Level History Class (HIST 360: History of Mexico; HIST 361: History of Brazil; HIST 362: History of the Caribbean; or any other 300 level HIST Latin American course)
- LACS 101 - Introduction to Latin American and Caribbean Studies
- SPAN 300: Reading in Spanish- Texts and Contexts
- PORT 200: Intermediate Portuguese
- Stipulation: Students who complete SPAN 300 may choose to fulfill a core requirement with an additional 3, 4 or 5 credit language course provided that it is a Spanish course numbered above SPAN 300. If another language course relevant to Latin American and the Caribbean other than Spanish or Portuguese is chosen, it must be 200-level or above.

Of the electives, a minimum of one course must be taken in an LACS course; and a minimum of one course must be taken in a social science discipline.

b. Five courses will fulfill the disciplinary concentration requirement and must be chosen from the offerings in a single departmental discipline (e.g. art history, anthropology, political science, history, Spanish, economics, religion, etc.). These five courses must be chosen from among those that count towards the major in that discipline, and need not be Latin American or Caribbean in content.

LINGUISTICS
This major is designed to introduce students to fundamental aspects of the study of human language, emphasizing how an interdisciplinary approach to language better informs a global understanding of language use, structure, acquisition, variation, and change. Specifically the program aims to show how structural, cognitive, and sociocultural approaches to the study of language compare, contrast, and complement.

The major is designed so that students first acquire a solid introductory base in the study of linguistics. They then must take a series of courses to ensure more intense study in (a) language and cognition, (b) language structure and meaning, and (c) language, society, and culture. Following this exposure to different fields and approaches, students will take elective courses to deepen their understanding of one or more of the approaches to the study of language. Majors are also normally required to demonstrate competence at the intermediate level or above in a language other than English, but may petition to satisfy the Linguistics language requirement through other combinations. Completion of the major requires a minimum of a C average in the major. The S/U option may be exercised only in the elective component of the major, for a maximum of four credit hours. A maximum combined total of four hours of courses at the 490-499 level (Directed Study, Directed Research, Honors) may be applied toward the major. Courses completed in approved Linguistics study abroad programs may also be used to fulfill major requirements (with approval of the program director or designated faculty adviser).

Course Requirements

I. Students are required to take three basic courses in the study of linguistics:

101: History of the American Languages  
201: Foundations of Linguistics  
401: Language, Mind and Society

II. Students will also take three breadth courses on key approaches to the study of linguistics:  
(1) One of the following courses in Structural Approaches to Human Language:

Linguistics 210: Sounds of Human Language (Phonetics and Phonology)  
Linguistics 212: Structure of Human Language (Morphology and Syntax)  
Linguistics 214: Meaning in Human Language (Semantics and Pragmatics)

(2) One course in Cognitive Approaches to Human Language, including but not limited to:

Linguistics 309: Brain and Language  
Linguistics 316: Language Acquisition  
Linguistics 318: Second Language Acquisition  
Linguistics 385R: Special Topics Courses (e.g., Words and the World: How Words Capture Human Experience, Language and Human Nature)

(3) One course in Sociocultural Approaches to Human Language, including but not limited to:

Linguistics 327: Language and Symbols of Media  
Linguistics 330: Language and Culture  
Linguistics 333: Language, Gender, and Sexuality  
Linguistics 326: History of the Judaic Languages
Linguistics 340R: Topics in Sociolinguistics (e.g., Discourse Analysis, Language and Social Interaction, Ethnography of Communication, Intercultural Communication)
Linguistics 344: Bilingualism and Multilingualism
Linguistics 361: American English
Linguistics 335: South Asia: Language Politics and Identity
Linguistics 385R Special Topics Courses (e.g., Speech Genres; Sociolinguistics of the Spanish-speaking World)

III. Students must take three electives, including any breadth course or courses such as:
Linguistics 505: Problems in Foreign Language Teaching
Linguistics 495A and Linguistics 495B: Honors
Linguistics 497R: Directed Reading-comprehensive theoretical reading
Linguistics 499R: Directed Research-research and analysis based on original data collection or analysis

(NOTE: Students may receive a maximum of four credits (one course) toward the major for courses at the 495-499 levels.)

IV. Students must take one course with a designated focus on research methods (min. 3 credit hrs.), including but not limited to:
LING-340W Language Variation and Change
LING-497 or LING-499 with DUS approval

Note: This course may also be counted toward the breadth (II) or elective (III) requirement for the major.

V. Students must take two foreign language courses.
a. Two courses in one foreign language at the 200-level or above OR
b. Two courses in two different foreign languages at any level, with approval from the Director of Undergraduate Studies.
(NOTE: Students participating in the Amsterdam Study Abroad Program may use introductory Dutch to satisfy one semester of this requirement.)

Admission: Math 111, 112
Students pursuing the Math/Political Science major must complete a total of 45 credit hours in 14 courses (7 POLS and 7 MATH):

**Political Science Requirements**

- POLS 111: Principles of Political Science
- POLS 208: Political Science Research Methods

**Additional POLS Courses**

- One POLS research course (394/494 or “RSCH” in title). The research course should be one in which a student would be able to fully utilize their training in mathematically-based research methods to work within a substantive area and/or on a substantive project. A student must have their choice of research course approved by the joint political science and math faculty adviser
- Four upper-level POLS electives (300-400). These courses must have content (such as readings or paper assignments) which employ the methods learned in 208 and 310. A student must have their choice of upper-level courses approved by the joint political science and math faculty advisor.

**MATH Courses**

- MATH 111: Calculus I
- MATH 112: Calculus II
- MATH 211: Multivariable Calculus
- MATH 212: Differential Equations or MATH 250: Foundations of Mathematics
- MATH 221: Linear Algebra
- MATH 361: Probability and Statistics I
- MATH 362: Probability and Statistics II

**Additional Requirements and Procedures**

1. Additional information about the joint major is available on the Math department web page.
2. No courses taken pass/fail (S/U) may count toward the major.

**Honors Program Eligibility**

A student who is a joint major in math and political science may participate in the political science honors program alongside political science and international studies majors, or in the math honors program. The political science honors program requires taking a graduate or senior seminar of the student's choice. That graduate or senior seminar can satisfy requirement "e" above, contingent on the approval of the political science adviser. Honors students also take POLS 495: Honors Tutorial in the fall of the senior year, as well as POLS 499: Honors Research in the spring of the senior year. These last two courses will satisfy only one of the three required upper-level POLS courses (see above under “Additional POLS courses”). That is, students who complete the honors program will still need to take at least two 300 level or above courses. In accordance with college guidelines, a joint major wishing to pursue honors in political science must receive approval of the math department for entry into the political science honors program, and the math department must also agree on the level of honors ultimately awarded. Also per college guidelines, a joint major pursuing honors in political science must have a faculty member of the math department on the honors committee, in addition to a political science faculty member and an outside member.

**Note on the Research Requirement**

Starting in the Fall of 2016, the Political Science department implemented a new requirement that MATH/POLS students complete a research paper as part of their Political Science major. Classes that contain a paper that...
meets the research requirement are numbers with either a POLS 394 or POLS 494 designation or contain "RSCH" in the course title.

Courses Required 12

Requirements

The Department of Middle Eastern and South Asian Studies offers a Humanities based area studies major that allows for two tracks, a Middle East Track and a South Asia Track, which come together at the junior year to form a single, comparative major. Students who complete the major will have the knowledge, languages and analytic tools to pursue employment or advanced study of the region.

1. Two years study of one of the languages of the Middle East or South Asia (Arabic, Hebrew, Hindi, Persian, Tibetan), e.g., 101-102 and 201-202; or 201-202 and 301-302; or other sequence of language study.
2. Two area-specific core courses: MESAS 100 and MESAS 200; or MESAS 102 and MESAS 202.
3. One common comparative course, MESAS 300, which brings the two tracks together.
4. MESAS 4905WR, common senior seminar for MESAS majors only by petition.
5. Four additional courses that focus primarily on the Middle East and South Asia (to be chosen in consultation with the Director of Undergraduate Studies in the Department of Middle Eastern and South Asian Studies).
6. Students must meet with the Director of Undergraduate Studies at least once each semester for advising and course approval before registering for classes.

General Requirements

BA in Music: Composition Track

BA in Music: Performance Track

BA in Music: Research Track

History and Culture Courses (all Tracks)

The Music Department at Emory offers three tracks for fulfilling a major in music: Composition, Performance, Research. Students must select a track by the end of the sophomore year and fulfill all course requirements in the track in order to earn a major in music. Since significant portions of the music curriculum are based on mastery of sequential study, the department recommends as early a declaration as possible. Early declaration also allows students maximum benefit from private lesson study, since the department provides a half-subsidy for private lessons for declared music majors.

Notes:

- MUS 121 Theory and Analysis I is the foundation course for all music major tracks. Students with a strong background in music theory may request to take the MUS 121 Exemption Test.
- No more than three credit hours of Supervised Reading or Study Abroad courses may count toward fulfillment of the music major.
- An internship may not count toward the music major.
- All courses must be taken for a letter grade.
- AP Music Theory Exam - A score of 4 will transfer to Emory as MUS 114 and count as a 100-level elective toward the music major. A score of 5 will transfer to Emory as MUS 121 and the student may move on to MUS 122 in the spring semester.
- A total of 16 hours of MUS 300, 320, and 310 may be applied toward the 128 academic hours requirements for graduation, although all applied music and ensembles must be taken for credit.
- Students may not apply MUS 300, 310, or 320 as electives in any of the tracks.
- Students will complete 45 credit hours to fulfill requirements in each track.

- History and Culture Category A or B: choose one course

Performance (4 hrs)

- Choose a combination of MUS 300 Ensembles and/or MUS 320 Applied

Electives (3 hrs)

Suggested:

- MUS 444 Counterpoint
- MUS 350 Music since 1945
- MUS 367 Computer Music Composition

Optional: If approved, a student may present a recital of original compositions during the junior or senior year. Students with a GPA of 3.5 or higher may submit a proposal to present an honors recital in the music composition track. See honors guidelines for detailed information.

Requirements for the BA in Music: Performance

Performance (12 hrs)

- MUS 300 Ensemble (4 hrs)*
- MUS 320 Applied Music (8 hrs)*

Students pursuing the Performance Track are encouraged to enroll in Applied Music and Ensembles every semester until graduation. A total of 16 hours of MUS 300 and MUS 320 will count toward the 128 hours for graduation.

Electives (9 hrs)

- Choose one advanced theory and analysis course or history and culture course from the following list:
  - MUS 222
  - MUS 245
  - MUS 350
  - MUS 444
• One course from History and Culture Category C.

• Choose two electives from any of the department's offerings, only one of which can be at the 100-level.

Optional: If approved, a student may present a solo recital during the junior or senior year. Students with a GPA of 3.5 or higher may submit a proposal to present an honors recital in the music performance track. See honors guidelines for detailed information.

Requirements for the BA in Music: Research Track

Theory/Analysis (15 hrs)

• MUS 121
• MUS 122
• MUS 221*

*Ethnomusicology: a student pursuing the Research Track and writing a research thesis may substitute one elective appropriate to his or her research focus for MUS 221, if approved by the student’s advisor.

MUS 462  The Sound of Society
MUS 463  Seminar in Ethnomusicology

Notes

Students may count no more than three credit hours of Supervised Reading or Study Abroad toward the music major.

Students may not count an Internship toward the music major.

All courses must be taken for a letter grade.

Admission

Students are required to audition before declaring a major in music.

NEUROSCIENCE AND BEHAVIORAL BIOLOGY

Code  NEUROBB
Degree Awarded  BS
Hours To Complete  61
Courses Required  17

Declaration of Major Contact  Neuroscience and Behavioral Biology

The major requires a minimum of twelve courses in Neuroscience and Behavioral Biology.

Core Courses

A sequence of four core courses includes:

- NBB 201 (Ant 200) Foundations of Behavior
- NBB 301 (Bio 360) Introduction to Neurobiology
- NBB 302 (Psych 353) Behavioral Neuroscience
- NBB 401/402W Perspectives in Neuroscience and Behavior

Elective Courses

In addition to the core courses, a minimum of seven NBB electives are required (MINIMUM OF 3 CREDIT HOURS EACH; SOME ARE 4 CREDIT HOURS.) Note: Students may use only one of the following courses as an elective: Bio 205, Bio 250, Bio 264, Bio 301, Bio 302, Math 207, Math 361, Math 362, CS 153, Chem 203, Chem 204, Chem 301, and Chem 302.

Students with particular interests, e.g. premedical, graduate school, may be advised to take additional courses chosen by the student and advisor to fit the student’s plan.

Pre-Requisites: All majors are required to take the following prerequisite courses:

- Bio 141/141L,
• Bio 142/142L,
• *Chem 150/150L,
• *Chem 202z/202zL,
• QTM 100,
• One quantitative course from the following list:
  o Math 111, 112, 112z, 116, 211, 212, 221 or 275;
  o Bio 212;
  o CS 170;
  o QTM 200

*The Chemistry curriculum recently changed, but students with credit for CHEM 141/141L and 142/142L OR CHEM 221Z/CHEM 221L have met this requirement for the NBB major.

Requirements

A minimum of forty-five hours (thirteen courses) as follows:

• Religion Courses: 19-24 hours (six courses):
  o One course from REL 301- 320 (or other tradition-specific course with approval of adviser);
  o Religion 300;
  o Four religion electives with at least two at 200-level or above.
• Philosophy Courses: 22-24 hours (six courses):
  o Philosophy 110: Introduction to Logic;
  o Philosophy 131: Introduction to Philosophy of Religion
  o Two of these three courses: Philosophy 200W, 202W, 204W;
  o Two electives, at the 300 level or above.
Senior Seminar (one course): Either PHIL 431: Philosophy of Religion or PHIL/REL 470: Joint seminar in philosophy and religion.

The course work should be organized, in consultation with an adviser. Honors in the joint major in philosophy and religion may be earned by satisfying the honors requirements of either department.

Declaration of Major Contact: Physics

The BA program offers a core physics curriculum at a less rigorous level than the BS program. All the physics major programs would be well suited for students preparing to enter medicine, dentistry, law, business, secondary school teaching, and multidisciplinary fields of science and mathematics. However, the BA programs have fewer course requirements and require less advanced mathematics, which can facilitate for the completion of a physics major when the full BS degrees requirements do not fit a student's schedule or interest.

Requirements

1. PHYS 151
2. PHYS 152
3. PHYS 212
4. PHYS 253
5. PHYS 444W
6. One of PHYS 361, PHYS 365, PHYS 421 or PHYS 461
7. Two physics electives at the 200-level or higher
8. MATH 111
9. MATH 112
10. MATH 211
11. MATH 212

PHYSICS

Code: PHYSICS
Degree Awarded: BS
Hours To Complete: 54
Courses Required: 16

Declaration of Major Contact: Physics

Requirements:

The BS is designed for those students who wish to complete a concentrated program of study in physics covering all of the standard undergraduate physics curriculum typically expected for admission to graduate school or to prepare for work in physics or physics-related fields. Areas of study will include mechanics, electricity and magnetism, quantum mechanics, thermal physics, mathematical methods of physics, advanced laboratory techniques, and optics. Most BS majors will have the opportunity to participate in undergraduate research projects if they are interested in doing so.

Required: Physics 151, 152, 212, 220, 253, 361, 365, 421, 444, 461, two physics electives, and Mathematics 111, 112, 211, and 212. At least one of the electives must be at the 300 level or higher, and the other elective must be at the 200 level or higher. BS degree students are encouraged to become involved in the research programs in the department as early as possible, either informally, or formally by enrollment in Physics 499 (which can count as one elective).

PHYSICS AND ASTRONOMY

Code: PHYSAST
Degree Awarded: BA
Hours To Complete: 44
Courses Required: 12

Declaration of Major Contact: Physics

Requirements:

The BA program in physics and astronomy offers a core astronomy curriculum along with a selection of elective courses so that coherent programs may be planned that combine the fundamentals of astronomy and other disciplines of the liberal arts and sciences. It is well suited to students preparing to enter medicine, dentistry, law, business, science writing, secondary school teaching, and multidisciplinary fields of science.

Required:

1. PHYS 116
2. PHYS 151
3. PHYS 152
4. PHYS 212
5. PHYS 253
6. PHYS 311 or 312

- Playwriting (372RW)
- Advanced Playwriting (375RW)
- History of Drama and Theater 1 and 2 (215 and 216)

Theater Studies (THEA) – 13-16 credit hours

- Reading for Performance (210W)
- Two courses from Acting or Directing or Design (These 2 courses must be from different areas)
- One dramatic literature course 300-level or above (ENG course can be used if focused on dramatic literature)

English/Creative Writing (ENG and ENGCW) – 14-16 credit hours

- Two literature courses 300-level or above (at least one course must be focused on dramatic literature)
- Two Creative Writing workshops (Poetry, Fiction, Creative Non-fiction, Screenwriting, or repeat Playwriting / Advanced Playwriting); only ONE of these can be at the 200-level.

Admission

A visit with the Theater Studies Department and Creative Writing Program and attending classes or a production are all highly encouraged and welcomed. There are no admission requirements for Playwriting.

Advising

Joint Playwriting majors will be assigned an advisor from either the Creative Writing or Theater Studies faculty.

POLITICAL SCIENCE

Code         POLISCI
Degree Awarded  BA
Hours To Complete  36
Courses Required  11
Declaration of Major Contact

Political Science

1. The Political Science Department requires all its POLS majors to complete the following foundational courses:
   o QTM 100: Introduction to Statistical Inference
   o POLS 111: Principles of Political Science
   o POLS 208: Political Science Research Methods

2. All POLS majors must also complete:
   o one research course (POLS 394/494 or "RSCH" in title)
   o one political theory course (100-400 level)
   o four upper-level electives (300-400)
   o two electives at any level (100-400)

Additional Requirements and Procedures

1. A minimum of seven courses must be taken at Emory University or Oxford College. Political Science majors may get credit for up to four courses taken outside of Emory (study abroad programs, Bard Globalization and International Affairs and Washington Semester Programs, transfer and transient credits) that have been approved by the department.

2. Students may not double major in Political Science and International Studies, nor may a student major in International Studies and minor in Political Science.

3. No courses taken pass/fail (S/U) may count toward the major. This means that courses taken abroad in non-Emory approved programs, which as such receive only S/U grades, cannot count toward the major. The only exception is the Washington Semester Program or the Bard International Affairs and Globalization Program. Students may use up to eight hours (or two courses) of Washington Semester credit or Bard credit as elective credit towards the Political Science Major.

4. One elective course can be satisfied by a POLS 496: Internship or a POLS 497: Directed Study. In addition, one elective course can be satisfied by a POLS 387: CLSS Independent Research or POLS 388: Research in Political Science.

5. Any course with a POLS prefix may fulfill a major elective at appropriate level.

6. Major status does not guarantee enrollment in any particular course. Some classes may require course prerequisites or other requirements for enrollment.

7. Courses cross-listed between Political Science and another department or program will count as Political Science courses.

PSYCHOLOGY

Declaration of Major Contact Psychology

Note: Program opens for enrollment in Spring 2021

Requirements

1. Four Foundation Courses – These courses are designed to provide students with basic knowledge about and approach to psychological science. Students must complete all four foundation courses by the end of the junior year.
A. Fundamentals of Psychology as a Behavioral Science

- **Introduction to Psychology—Psychology 110 and 111**
  Students must complete a two-semester introductory sequence in psychology—Psychology 110, Introduction to Psychology I: Psychobiology and Cognition, and Psychology 111, Introduction to Psychology II: Development, Social Behavior, and Individual Differences. These courses provide all majors with a general orientation to the methods, content areas, and central findings of psychology. We recommend that they be taken before any other psychology course. Students who have received AP credit from the college by scoring a 5 on the advanced placement test in psychology will be exempted from Psychology 111. These students must take an additional elective course to replace Psychology 111, and must take Psychology 110 to complete the introductory requirement. Students who completed a one-semester introductory psychology course will receive credit for Psychology 111, and must take Psychology 110 to complete the introductory requirement.

B. Psychological Inquiry Sequence

- **Quantitative Theory and Methods (QTM) 100 and Psychology 200WR** may not be taken concurrently.
  Students must complete the psychological inquiry sequence no later than the end junior year.
  1. **Introduction to Statistical Inference – QTM 100**
     Because adequate understanding of original source material in psychology is impossible without basic statistical literacy, students are required to take a course in statistics. Majors must meet this requirement by taking the QTM 100 statistics course offered by the Institute for Quantitative Theory and Methods.
  2. **Laboratory Methods—Psychology 200WR**
     This course provides students with a basic understanding of methods in psychology through conducting studies and evaluating published research. Introduction to Statistical Methods (QTM 100) is a prerequisite and therefore must be completed prior to this course.

2. **Survey Courses** - These courses are intended to cover a well-established area within psychological science from a broad perspective. Students must complete one course in each area. Prior enrollment in PSYC110 or PSYC111, and QTM100 strongly encouraged.

3. **Depth Courses** - These courses are designed to provide students with an in-depth study of a specific topic or sub-area within psychology. Enrollment in ALL 300-level and above courses requires completion of PSYC110, PSYC111, QTM100, and any 200-level survey course. Students may seek special permission to enroll in Psychology graduate courses.

Students must complete FOUR depth (300-level and above) courses At least THREE of those courses must come from the list below:

- PSYC 302: Human Learning and Memory
- PSYC 303: Evolution of Acquired Behavior
- PSYC 309: Brain and Language
- PSYC 310: Cognitive Development
- PSYC 320: Animal Behavior
• PSYC 321: Behavioral Neuroendocrinology of Sex
• PSYC 322: Biological Basis of Learning and Memory
• PSYC 324: Sleep & Dreaming, Brain & Mind
• PSYC 325: Primate Social Psychology
• PSYC 351: The Nature of Evidence
• PSYC 353: Behavioral Neuroscience
• PSYC 385R: Selected Special Topics in Psychology
• PSYC 410: Science & Pseudoscience in Psychology
• PSYC 424: Advanced Neuroimaging Practicum
• PSYC 427W: Hormones, Brain & Behavior
• PSYC 440W: Animal Communication
• Selected 400-Level seminar courses

The fourth depth course may be selected from this list, or may be any 300 level or above course offered by or cross-listed with the Psychology department, with the exceptions as noted below:

4. Two Elective Courses – Students must take two additional courses offered by the Psychology Department, with the exception as noted below:

Course Exclusions: PSYC 190: Freshman Seminar, PSYC397R: Directed Study, PSYC 495A/BW: Honors, PSYC 498R: Directed Reading, and PSYC 494R or PSYC 499R: Directed Research. Students may count one (1) three-hour enrollment in PSYC 494R or PSYC 499R: Directed Research; only ONE such enrollment may count towards the major.

5. Quantitative and Methodological Courses – These courses are intended to enhance students’ quantitative and methodological training, providing skills and approaches that can be used in addressing psychological questions. Students must complete two courses from the designated list of quantitative and/or methodological courses. These courses may come from offerings in Psychology, QTM, Mathematics, Computer Science, and Biology. See below for the list of these courses. Of note, students will need to meet all requirements and prerequisites for a given course, as specified by its home department.

1. Psychology – (Graduate courses, 500 level and above, require permission of instructor)

• PSYC 180: Research in College Drug Use
• PSYC 430: Advanced Statistics and Methods
• PSYC 424: Advanced Neuroimaging Practicum
• PSYC 560: ANOVA: Advanced Statistics
• PSYC 542: Research Methods in Clinical Psychology
• PSYC 561: Regression and the General Linear Model
• PSYC 770R: Topical Seminars: Psych: Multilevel Modeling Theory and Application
• PSYC 770R: Topical Seminars: Psych: Scale Development Theory and Applications
• PSYC 770R: Topical Seminars: Psych: Data Mining the Mind

2. Quantitative Theory and Methods

• QTM 120: Math for Quantitative Sciences
• QTM 210: Probability and Statistics I
• QTM 200: Applied Regression Analysis
• QTM 220: Regression Analysis
• QTM 355: Introduction to Time Series Analysis

- CS 171/171Z: Introduction to Computer Science II
- CS 253: Data Structures and Algorithms
- CS 325: Artificial Intelligence
- CS 329: Computational Linguistics
- CS 334: Machine Learning

5: Biology

- BIO 212: Computational Modeling for Scientists and Engineers (PHY 212)
- BIO 355: Introduction to Time Series Analysis (also QTM 355)
- BIO 361W: Neurophysiology Lab
- BIO 450: Computational Neuroscience

**Interfacing Science Courses** – These courses are intended to increase students’ awareness and understanding of how psychology is situated in the broader scientific landscape, and to highlight the connections between psychology and related sciences. Students must complete two courses from the designated list of interfacing science courses. These courses may come from offerings in Anthropology, Biology, Environmental Science and Chemistry. See below for the list of these courses. Of note, students will need to meet all requirements and prerequisites for a given course, as specified by its home department.

1. Biology

- BIO 223: Developmental Biology
- BIO 240: Organismal Form and Function
- BIO 241: Evolutionary Biology
- BIO 336: Human Physiology
- BIO 348: Mechanisms of Animal Behavior
- BIO 352: Epigenetics and Human Disease
- BIO 353: Genetics of Complex Traits
- BIO 360: Introduction to Neurobiology
- BIO 460: Building Brains

2. Neuroscience and Behavioral Biology

- NBB 201: Foundations of Behavior
- NBB 300: The Musical Brain
- NBB 301: Introduction to Neurobiology
• NBB 317: Human Social Neuroscience
• NBB 319: Anthropology of Fatherhood
• NBB 361: Neuropysiology Lab
• NBB 424: Medical Neuropathology

Declaration of Major Contact Psychology

I. Four foundation courses – All foundation courses must be completed no later than the end of the junior year.

1. PSYC 110 Introduction to Psychology I: Psychobiology and Cognition
2. PSYC 111* Introduction to Psychology II: Development, Social Behavior, and Individual Differences
3. QTM 100 Introduction to Statistical Inference
4. PSYC 200W Laboratory Methods (QTM 100 is a prereq for Psyc 200)

*Students who have either (a) received AP credit from the college by scoring 5 on the advanced placement test in psychology, or (b) obtained a score of 6 or 7 for an international baccalaureate psychology course, will be exempted from Psychology 111. These students must take an additional elective course to replace Psychology 111. Students who completed a one-semester introductory psychology course at another institution will receive credit for Psychology 111.

II. Two Survey Courses
Majors must take AT LEAST one survey course in each of two areas, simply designated Area 1 and Area 2. These two areas generally reflect the content of Psychology 110 and 111.

**Survey Area 1**
- 207 Brain and Behavior
- 209 Perception and Action
- 215 Cognition
- 223 Drugs and Behavior

**Survey Area 2**
- 205 Child Development
- 210 Abnormal Psychology
- 211 Childhood Psychopathology
- 212 Social Psychology

Prior enrollment in Psychology 110 and/or 111 and QTM 100 is strongly suggested for the survey courses; individual instructors may create prerequisites for survey level courses if they prefer.

**III. Four Depth Courses**

Majors must take AT LEAST 4 courses at the 300 level or above. 300 and 400 level courses require 110, 111 and QTM 100 and at least one 200 level breadth course. Individual instructors may further require PSYC 200 and/or specify any additional pre-requisites. The major difference between 300 and 400 level courses is size. Whereas 300 levels are depth courses, they may still enroll up to 60 students. 400 level courses are conceptualized more as seminars, with enrollments at 15-20.

**IV. Two Elective Courses**

Students must take two additional psychology courses offered by the department to fulfill the electives requirement. Elective options include Psychology 100, 200, 300, and 400 level courses, with exceptions noted below. Note that students may count (ONLY) one (1) three-hour enrollment in Psyc 494R or 499R, Directed Research towards the major.

**PSYCHOLOGY COURSES THAT DO NOT COUNT TOWARD THE MAJOR**: 190, Freshman Seminar; 495A/B, Honors; and 498R, Directed Reading do not count toward the major.

Quantitative Theory and Methods

A minimum of seven quantitative courses and a minimum of six additional courses in a student's substantive area of interest. Students must complete a total of 50 credit hours to complete the Quantitative Sciences B.S. degree. A number of substantive fields, like Biology and Informatics, require more than 50 credit hours because of additional curriculum requirements.

**QTM Courses**

- QTM 110: Introduction to Scientific Methods
- QTM 150: Intro to Statistical Computing I
- QTM 151: Intro to Statistical Computing II

**Substantive Field Requirements**

Choice of six courses in chosen field of interest.

- Anthropology
- Architectural History
- Art History
- Biology
- Biological Anthropology
- East Asian Studies
- Economics
- English
- History
- Informatics
- International Studies
- Latin American and Caribbean Studies
- Linguistics
- Neuroscience and Behavioral Biology
- Political Science
- Psychology
- Sociology
- Women's, Gender and Sexuality Studies

Students' coursework in the field of their substantive interest will be comprised of no more than two (2) courses at the department's 100 level - i.e., introductory - with the remaining courses being taken at the 200, 300 or 400 levels, and at least one (1) being taken at the 300 or 400 level.

There are no official restrictions about what substantive field a student can concentrate in while pursuing the QSS degree. If a student is interested in a substantive field beyond this list, please contact us to discuss their major course policies.

**Note:** A student may count no more than two classes fulfilling their substantive course requirements towards a double major.

**Additional Degree Requirements:** When necessary, a combination of QSS and substantive area courses of the student's choosing may be taken to reach 50 the credit hour requirement.
## Religion

**Code**  REL  
**Degree Awarded**  BA  
**Hours To Complete**  36  
**Courses Required**  11  

The major in Religion requires a minimum of thirty-six hours (eleven courses), one of which may be taken in a cognate discipline. It is important for the student to work closely with an adviser in choosing a course of study, which may include, for example, an emphasis in a particular religious tradition or a thematic emphasis such as religion and conflict, religion and ethics, religion and gender, ritual and performance studies, classical texts and religious thought, or comparative sacred texts.

The major requires:

1. Religion 300: Interpreting Religion  
2. Religion 490W: Senior Symposium  
3. 9 elective courses that must include the study of religion in terms of religious traditions, regions, and themes.

**Tradition Requirement**: at least 2 courses in the same religious tradition; and at least 1 course in a different tradition. Examples: Buddhism, Judaism; including studies of a tradition’s scriptures (e.g. Qur’an, New Testament). ABOVE, INDICATE 2 COURSES WITH THE SAME TRADITION AND ONE OTHER (e.g. Tradition-Buddhism, Tradition-Buddhism, and Tradition-Islam).

**Region Requirement**: at least 2 courses that examine religion in a particular geographical area, which might also include cultures in diaspora. Examples: America, East Asia, African diaspora. LIST 2 COURSES AS “REGION.”

**Theme Requirement**: at least 2 thematic courses. “Themes” may refer to approaches, topics, methods, perspectives. Examples: Death and Dying, Introduction to Religion, Religion and Healing, Human Goodness, and many special topics. LIST 2 COURSES AS “THEME.”

**Counting Classes**: The principle of “double-dipping” (but not “triple-dipping”) is allowed—for example REL 307, “East Asian Buddhism,” could count under both “traditions” and “regions.” REL 318, “Islamic Law” could count under both “traditions” and “themes.” Consultation with the DUS or your advisor is recommended.

Up to 2 courses (including language courses beyond the College’s minimum requirement) not listed (or crosslisted) as REL can count towards your electives, if the content of the course is clearly relevant to the student’s program in the study of Religion, and subject to the approval of the DUS.

**All Courses Taken Towards The Major Must Be Taken For A Letter Grade.**

The BA in Russian is no longer offered. Students who declared this major before Fall 2017 will be able to complete their course of study.

Students interested in Russian Language and Culture may now choose between two tracks in the Russian, East European and, Eurasian major. The first track will accommodate students interested in Russian language and
culture. The second track aims to broaden the language requirement to include East European languages, and strengthen the intensity of interdisciplinary training. Click here for information on the REES major.

Information on Russian Major for those who declared this major before Fall 2017 only.

Immense in its geographic size and highly influential politically in its historical and cultural development, Russia, a colossal East-West, has entered the 21st century as a major player on the world stage. In its mediation on the country’s catastrophic history, Russian culture continues to engage some of the most complex political and social issues: the country’s major thinkers (philosophers, writers, scientists, artists) have commented upon these problems with unparalleled insight. An acquaintance with their thought will introduce students to some of the intense and subtle intellectual debates, international in their scope. For these reasons alone, a degree in Russian Languages and Cultures provides essential preparation for careers in law, international relations, the diplomatic corps, business, journalism, education, to name but a few of the professions open to our students.

**Major in RUSSILLC** provides intensive language training in Russian (the predominant language of Eurasia) with a concentrated interdisciplinary study of Russia and its culture. All majors will be expected to pass the department’s proficiency interview in Russian.

Students majoring in Russian Studies are required to complete the following coursework:

- **3 courses (minimum 11 credits)** of language training beyond the intermediate level (RUSS 202). Up to 8 credits in language study completed in approved study abroad programs can be applied. All course sequences must be approved by the department.

- **4 courses (minimum 14 credits)** from courses in Russian literature, language, culture, history and politics (in at least two departments), approved by the Russian Major advisor. To assure breadth, coursework should reflect at least two different historical periods. Up to 4 credits from approved internships can be applied.

- **1 course (4 credits)**. An approved capstone seminar, entailing a serious writing and research component, offered by the Russian program (300 or 400-level course)

**Admission**

There are two tracks within the Russian, East European and Eurasian Studies Major- the Language and Culture Track and an Interdisciplinary Track.

**Track 1: Language and Culture Track Requirements**

- Successful completion of language proficiency interview in Russian in the senior year.
- 3 courses (minimum of 11 credits) of language training beyond the intermediate level (RUSS 202). Up to 8 credits in language study completed in approved study abroad programs can be applied. All course sequences must be approved by the department.
• Core classes (minimum of 10 credits). Choose any three of the following. At least one of the core classes must be writing intensive (CRW). At least 2 of the classes must be taken with RUSS/REEES designation.
  o RUSS 270 or REES 200 (3 credits minimum)
  o RUSS 271 or HIST 319 or approved equivalent (3 credits minimum)
  o RUSS 372 or HIST 320 (3 credits)
  o RUSS 378 or POLS 336 (3 credits) or approved equivalent
• 1 Elective (3 credits minimum): in REEES language, culture, history, or politics approved by the REEES Major advisor. Credits from approved internships can be applied.
• A capstone seminar (4 credits) approved and offered by the REEES program, entailing a serious writing and research component (300 or 400-level course)

Track 2: Interdisciplinary Track Requirement

• Successful completion of department interview in the senior year, focused on the signature cultural aspects of the REEES region.
• Two full year-courses (16 credits minimum) in Russian or other languages in our global area, such as Czech. Students may fulfill this requirement with credits from two different languages in the countries represented by REEES. Up to 8 language credits from approved study abroad programs can be applied. All language course progressions must be approved by the department.
• Core classes (minimum of 13 credits). At least one of the core classes must be writing intensive (CWR). The courses must represent three different disciplines
  o RUSS 270 or REES 200 (3 credits minimum)
  o HIST 319 or HIST 320 (3 credits minimum) or approved equivalent
  o RUSS 271 or RUSS 372 or RUSS 378 (3 credits minimum)
  o POLS 325 or POLS 336 (3 credits minimum) or approved equivalent
• 3 Electives (10-11 credits minimum): in REEES languages, culture, history and politics, approved by the REEES Major advisor. To assure breadth, coursework should be taken from at least two departments and reflect two different historical periods. Up to 4 credits from approved internships can be applied.
• A capstone seminar (4 credits) approved and offered by the REEES program, entailing a serious writing and research component (300 or 400-level course)

Prerequisites For Track One Only:

Russian 101, 102, 201, and 202 or equivalent
Attention: Students, proficient in Russian, who do not take language pre-requisites, must complete a minimum of 36 credits to graduate with a major in Russian. Students who fall below this minimum must take additional electives approved by the REEES Major advisor.

A total of five courses, totaling a **minimum** of 15 credit hours, are required for the minor in African Studies, of which four must be courses with wholly African content. While there are no specific courses required for the minor, we recommend the following general plan.

---

**INTRODUCTORY COURSES**

Taken early in the minor, these courses provide a general framework for African Studies:

- AFS 150 (ANTH 150): Cultures of Africa
- AFS 263 (IDS 263): Introduction to African Studies
- AFS 221 (HIST 221) The Making of Modern Africa

---

**SPECIAL TOPICS IN AFRICAN STUDIES**

Taken at any point during the minor, this set of courses can be tailored to a particular topical or thematic interest or can cover diverse themes and topics:

- Multiple AFS courses at the 200- or 300-level
- **One** non-AFS course at the 200- or 300-level, of theoretical or thematic focus with substantial African material.
- **NON-AFS COURSES MAY COUNT TOWARD THE MINOR, WITH APPROVAL OF THE DIRECTOR OF AFRICAN STUDIES. STUDENTS HAVE THE OPTION OF TAKING ONE COURSE FROM A SET OF RELATED COMPARATIVE AND THEMATIC COURSES WITH SUBSTANTIAL AFRICAN MATERIAL, THAT IS, 1/3 TO 1/2 AFRICAN CONTENT AS CASE STUDIES OR OTHER EXAMPLES.**

---

**SATISFYING MINOR REQUIREMENTS DURING STUDY ABROAD**

After a semester of study abroad in Africa, you are well on your way to a minor in African Studies! Currently, Emory College Study Abroad programs include opportunities in Egypt, Ghana, Kenya, Mali, Morocco, Rwanda,
Namibia/Botswana, Senegal, South Africa, Tanzania, and Uganda. Please visit the Emory College Study Abroad website for more information.

Students are encouraged to strengthen their work in African Studies by participating in study or research abroad through one of Emory's approved programs in Africa. Up to 9 semester hours of credit, or 3 courses, may be earned toward the minor in study abroad programs.

Prior to beginning a study abroad program, students must contact the Director or DUS to seek approval of courses to be taken and counted towards the African Studies minor. Students should be prepared to provide a syllabus for any courses to be counted toward the minor.

General Information

Up to two (2) of the maker and materials courses may count toward the Joint Major as electives. These include ARTHIST 103, Understanding Architecture; ARTHIST 104, Great Buildings; ARTHIST 210, Introduction to Computer-Aided Design; ARTHIST 387, Issues in Art Conservation; and ARTHIST 388, Technical Art History.

Pass/fail: No more than one Art History course taken S/U may be applied to the joint major. Seminars (400-level courses) must be taken for a letter grade to satisfy the requirements for the Joint Major.

Study abroad. Up to two (2) courses completed in approved study-abroad programs may be used to fulfill the Art History elective requirements for the Joint Major; students may petition the department to allow a third.

Independent study: No more than three (3) hours of Supervised Reading and Research (ARTHIST 398) may be applied to the Joint Major.

Internships: An internship (ARTHIST 397) may not be applied to the Joint Major.

Honors. An Honors degree may be pursued in either department. In Art History, Honors students are required to take one graduate-level seminar, which may be used to fulfill a requirement for the Joint Major (though not the
Continuing Writing Requirement for the GER). The Honors course itself, ARTHIST 495, does not count toward the Joint Major.

**Advanced Placement in Art History:** Students may receive 3 credit hours and an exemption from ARTHIST 101 for an AP Art History exam score of 5. Students with a score of 5 on the AP exam who elect to receive a non-credit-bearing course waiver may be exempted from ARTHIST 101 but must make up the credit hours with an additional elective course.

**Advanced Placement in Studio Art:** Students may receive 3 credit hours and an exemption from an equivalent Visual Arts course for a score of 5 on an AP Studio Art exam. The exam in 2D Design or Drawing may exempt a student from ARTVIS 103, and in 3D design, from ARTVIS 109. Nevertheless, before enrolling in upper-level visual arts courses, students must submit a portfolio for the instructor’s review. Students with a score of 5 on an AP Studio Art exam who elect to receive a non-credit-bearing course waiver may be exempted from the equivalent Emory course but must make up the credit hours with an additional elective course.

1. Language courses

**Requirements**

A) Students who do not have any background or have had very little experience in Chinese take CHN 101, 102, 201, and 202.

B) Students whose Chinese oral proficiency is close to that of Chinese native speakers, but who have little or no reading and writing skills in Chinese, take CHN 103 and 203.
Choice of A. or B. is determined by placement test. Students can waive the requirement by demonstrating competency beyond 202 or 203 through placement test.

2. Electives

In addition to satisfying the requirements in (1), students minoring in Chinese must take 5 courses in Chinese language, literature and cultural studies with no less than 18 credits. Up to three of the five can be language courses. Content courses taken to meet the minimum requirements for the minor must be at least 3 credits each with at least 50% of content on China. No more than one lecture course from a non-Emory administered study-abroad program may be counted towards the minor. Exceptions may be granted at the discretion of the minor advisor. New courses are added regularly. Please refer to the REALC Website for the most current list of electives.

No course for the minor may be taken S/U. Students must receive at least a C in each course taken for the minor.

Declaration of Major Contact Environmental Sciences Department

SIX COURSES WILL COMPREHEND THE MINOR IN EARTH AND ATMOSPHERIC SCIENCES. COURSES ARE COMPLETED IN THREE CATEGORIES: CORE COURSES, INTERMEDIATE COURSES (200 LEVEL +), AND EARTH AND ATMOSPHERIC SCIENCES ELECTIVES.

EARTH AND ATMOSPHERIC SCIENCES CORE COURSES (2 COURSES A AND B)

A. ENVS 130: Environmental Sciences (or AP Credit) and ENVS 131: Introduction to ENVS Field Studies: The introductory course will develop core interdisciplinary theories of environmental sciences that will provide the foundation for advanced study of complex systems.

B. ENVS 331: Earth Systems Science: The earth systems science course is a study of how atmospheric, oceanic and continental processes produce the characteristics of the planet, how this synergy has changed in the past and how human activity affects earth systems. (Required course for all minors)
INTERMEDIATE 200-LEVEL EARTH AND ATMOSPHERIC SCIENCES (ONE COURSE)

Students are required to develop a foundation in the theories and concepts of earth and atmospheric sciences.

- ENVS 222: Evolution of the Earth with Lab
- ENVS 229: Atmospheric Sciences with Lab
- ENVS 230: Fundamentals of Geology with Lab
- ENVS 235: Environmental Geology

EARTH AND ATMOSPHERIC SCIENCES ELECTIVES (THREE ADDITIONAL COURSES)

Students will complete elective courses in their area interest in consultation with their advisor.

- ENVS 222: Evolution of the Earth with Lab
- ENVS 229: Atmospheric Sciences with Lab
- ENVS 230: Fundamentals of Geology with Lab
- ENVS 235: Environmental Geology
- ENVS 241/242: Modern and Ancient Tropical Environments [GEOL OX 220N]
- ENVS 250: Cartography and GIS
- ENVS 321: Geology and Human Health
- ENVS 325: Energy and Climate Change
- ENVS/CHEM 328: Introduction to Atmospheric Chemistry
- ENVS 330: Climatology
- ENVS 341: Barrier Islands
- ENVS 346: Geological Origins of Landscapes with Lab
- ENVS 348: Sustainable Water Resources with Lab
- ENVS 361: Ecosystems Through Time
- ENVS 385: Special Topics courses may apply towards the minor (must be preapproved)
- ENVS 410: Extinctions

ONE OF THE FOLLOWING COURSES (3-4 CREDIT HOURS) MAY ALSO BE USED TO FULFILL AN ELECTIVE FOR THE MINOR (must be preapproved).

- ENVS 399/399W: INTRO TO INDEPENDENT RESEARCH (EARTH AND ATMOSPHERIC SCIENCES TOPICS)
- ENVS 494/494W: INDIVIDUAL RESEARCH (EARTH AND ATMOSPHERIC SCIENCES TOPICS)
- ENVS 498/498W: INDIVIDUAL DIRECTED READING (EARTH AND ATMOSPHERIC SCIENCES TOPICS)

Courses Required 7
Declaration of Major Contact Economics Department

The economics minor requires twenty-one semester hours of credit (7 courses) in economics.

A. Two Introductory Courses: Principles of Microeconomics (101), or Business Economics (FIN 201), and Principles of Macroeconomics (112)

B. One Intermediate Course: Intermediate Microeconomics (201) or Intermediate Macroeconomics (212); (Mathematics 111 is a prerequisite for Economics 201 and 212.)

C. Three Economics Electives: Electives must be at or above the 200 level. Note that several economics courses satisfy the GER, so students can make progress toward an economic minor while they also satisfy the GER.

D. MATH 111

Requirements

ADDITIONAL INFORMATION

At most two Economics courses can be exempt with AP credit.

Courses must be taken for a letter grade, and students must maintain an overall 2.0 (C) grade point average in courses used to complete a minor.

Economics 449, Economics Internship, is offered to economics majors and minors only and must be taken on an S/U basis. This counts for only 2 credit hours and will not count toward minor.

Economics 101 and 112 are prerequisites for higher numbered courses in Economics and for admission to the undergraduate program in the Goizueta Business School. Economics 101 must be completed before enrolling in Economics 112. Finance 201 can substitute for Economics 101.
Courses taken at another institution, before or after enrolling at Emory, will not count toward the minor unless written permission is given by the director of undergraduate studies, even if the College has accepted credit for the courses. A maximum of four semester hours of Economics 397R, Directed Reading in Economics, may be counted toward the minor requirements in Economics.

The Educational Studies Minor consists of a minimum of five courses (twenty hours). Educational Studies 201 (American Education) is required.

Three Breadth Courses: The purpose of the breadth requirement is to insure that all majors acquire systematic knowledge in what we view as five central areas. Consequently all minors must take three courses, one selected from three of the following five areas:

- Psychological Contest of Education,
- Social Context of Education,
- Cultural Context of Education,
- Historical/Philosophical Context of Education, and
- Methods of Disciplined Inquiry.

One Elective Course: Students must take an additional course to complete the minor. This course will be selected in consultation with the student's adviser.

The Division of Educational Studies (DES) is scheduled to close Summer 2017. Recognizing that the number of Educational Studies (EDS) courses available will be decreasing each year as this closing date approaches, students are no longer permitted to declare new majors or minors in Educational Studies. However, students who express an interest in the field of education, in most cases, will continue to be able to enroll in Educational Studies coursework through Summer 2017. Please contact either the Director of Undergraduate Studies or the Director of DES if you wish to express your interest educational studies, at which time you will be assigned an EDS adviser and be provided with further information. Ongoing advisement is critical during preregistration each semester since a permission number is required to enroll in most EDS courses.

Requirements  
Students must complete 24-30 credit hours in German Studies courses to complete the minor. The number of credit hours required for the minor depends on the student’s placement into the German program:
  • For students beginning with 101, 30 credit hours including 8 credits for the 101-102 sequence and one credit for German Conversation course (GER 392) are required to complete the minor;
• For students beginning with 102, 26 credit hours including 4 credits for 102 and one credit for German Conversation course (GER 392) are required to complete the minor;
• For students beginning with courses numbered 201 or higher, 24 credit hours including one credit for German Conversation course (GER 392) are required to complete the minor

Students may substitute a maximum of 3 credit hours in courses on German-related topics approved by the German Studies Department and taught by either the German Studies Department or another department, such as Film Studies, History, Art History, Music, Political Science, or Philosophy. These courses may be taught in German, English, or Yiddish.

Structure of the Development Studies Minor

1. Twenty-two hours required, including the Development Studies 200 Foundations team-taught course and the 2-credit Capstone Seminar. Thus, normally, 4 courses plus the Foundations and Capstone.

2. Students must take at least one course in the two of the three divisions of the university (social sciences, natural sciences, and humanities) and can count no more than two courses from their major toward the requirements for the minor.

3. The 2-hour capstone seminar will allow the student to produce a final product for the minor. Capstone experiences can be supervised by any appropriate faculty member or study abroad faculty member and may be carried out in a course or non-course experience, in relation to an Honor’s thesis project and research. Registration in the capstone seminar will provide a community of GDS minors and allow final development of a development studies-related product.

4. A rotating Steering Committee of four faculty members from different disciplines will provide guidance and supervision throughout the student’s progress through the Minor and will meet with students twice during the semester of their capstone experience.

Institute of the Liberal Arts Department

20 credits to complete

---

**ADDITIONAL INFORMATION**

The interdisciplinary Science, Culture, and Society Minor is administered through the Graduate Institute of Liberal Arts (ILA) and its Interdisciplinary Studies in Culture and Society (IDS) program, through which students can also design their own major in Science and Society. The ILA also offers majors in American Studies and Medieval and Renaissance Studies, and a minor in Sustainability.

The goal of the minor in Science, Culture, and Society is to expand the context of traditional science majors into the humanities and that of traditional humanities and social sciences majors into the natural sciences. The minor engages students in intense discussion and research in complex interdisciplinary issues like race, bioterror, addiction, technology, consciousness, and human well-
Students approach science from non-traditional directions or through interdisciplinary connections such as science and literature, science writing, or science and the arts.

CURRENT 4 + 1 PROGRAMS

4 + 1 BS/MS PROGRAM IN ENVIRONMENTAL SCIENCES

Undergraduate students majoring in Environmental Sciences (ENVS) have an opportunity to complete a Bachelor of Science (B.S.) degree in Emory College and a Master of Science (M.S.) degree in Emory’s Laney Graduate School in five years. ENVS majors take courses in Emory College of Arts and Sciences while concurrently taking graduate-level courses in Laney Graduate School. Students apply in their sophomore year and begin taking graduate courses in their junior year. Students are required to take courses in research design and practice, advanced statistics, natural sciences, environmental policy, and integration of science and policy. For more information, go to: http://envs.emory.edu/home/graduate/bs_ms.html

B.A/M.A. PROGRAM IN ENGLISH

This program, which bridges the senior year with a fifth year of graduate study, is designed to give advanced students in-depth exposure to graduate study in literature and to further their research and critical skills. Students admitted to the program will undertake limited graduate work in their senior year and then will stay on for a fifth year to concentrate exclusively on graduate studies. The 4+1 program is designed for students seeking additional preparation before applying for PhD programs in English and related fields, as well as for those pursuing other career tracks (such as secondary teaching and publishing) in which an MA degree in English is valuable. Applicants must be Emory English majors in their junior year. Additionally, it will allow students to work more closely with both faculty mentors and with the doctoral students who come to Emory from other institutions. For more information, go to: http://english.emory.edu/home/undergraduate/ba-ma.html

BA/MA PROGRAM IN FILM AND MEDIA STUDIES

The 4 + 1 BA/MA Program in Film and Media Studies provides graduate-level education in media literacy, most broadly, in the context of Emory University’s mission and goals, it furthers the aim of promoting media literacy by training our students in the history of, and critical approaches to, film and media, as well as in the uses of digital media as tools for research and communication. Students admitted to the Program undertake limited graduate work in their senior year and then enroll in Laney Graduate School for a fifth year of graduate studies. The 4 + 1 BA/MA Program aims to serve students seeking additional preparation before applying to film and media-related Ph.D. programs, as well as those pursuing other film and media career tracks in film/festival curation, film archives, production, or teaching in secondary schools and community colleges, for which an MA degree in Film and Media is helpful. Students work closely with faculty members and with doctoral students in our Ph.D. Certificate program. For more information, go to: http://filmstudies.emory.edu/home/

BA/MS OR BS/MS COMPUTER SCIENCE

Undergraduate students from any major in Emory have an opportunity to complete a BA or BS degree in their chosen major in Emory College and a Master of Science (MS) degree in Computer Science (CS) in Emory’s Laney Graduate School in five years. Students apply in their junior year. Students in the CS 4+1 program are expected to take two graduate courses each semester of their senior year, complete an internship and take six more graduate courses (or equivalent project hours) in the +1 year. Up to 6 graduate course credits may be double-counted toward their BA/BS degree. Applicants must have a GPA of 3.25 or higher and have taken (or are taking) all the following prerequisite courses: Math 111, Math 112, Math 221, CS 170, CS 171, CS 224, CS253 (or CS 323), and CS 255. For more information, go to: http://www.cs.emory.edu/undergraduate/degrees/4+1/
BA/MSHP PROGRAM IN BIOSTATISTICS

Emory College and the Rollins School of Public Health (RSPH) jointly offer a 5-year bachelors/master's degree program. Students have an opportunity to complete a Bachelor of Arts (BA) degree in Emory College, most likely with a major concentration in Mathematics and Computer Sciences, and a Master of Science in Public Health (MSHP) degree in Biostatistics within five years. Emory College students can apply, and may be admitted, to the program during their third (junior) year and enroll in 12 semester hours of credits in MSHP courses during their fourth (senior) year. Course credits taken by Emory College students in the RSPH during the fourth (senior) year count towards the required 132 hours of credit for the Bachelor of Arts degree as well as for the required 48 hours for the MSHP degree in Biostatistics. Two undergraduate courses (totaling 8 semester hours) offered by the Department of Mathematics will also count towards the MSHP degree in Biostatistics. Students graduating from Emory College with the BA degree will then take courses during their fifth year as MSHP student in the RSPH.

For more information, go to: http://www.sph.emory.edu/departments/bios/degree-programs/ba-msph-biostatistics/index.html

BS/MPH 5-YEAR ENVIRONMENTAL SCIENCES (ENVS) AND ENVIRONMENTAL HEALTH (EH) PROGRAM

Emory College of Arts and Sciences and the Rollins School of Public Health (RSPH) offer a dual-degree 5-year (4+1) bachelors/masters (BS/MPH) program. The program is designed for students to complete a Bachelor of Science (BS)* degree in Emory College in Environmental Sciences (ENVS) and a Master of Public Health (MPH) degree in Environmental Health (EH) in five years.

For more information, go to: http://www.sph.emory.edu/departments/eh/degree-programs/bs-mph-es-eh/index.html

BS/MS IN MATHEMATICS

The 4+1 Mathematics MS program will offer Emory students a coherent, integrated educational experience designed to prepare them for careers and graduate programs that rely on mathematical knowledge, analytical skills, and computational techniques.

For more information, go to: http://math.emory.edu/home/

JURIS MASTER

The Juris Master is a one-year degree, earned with the successful completion of 30 credit hours as a full-time student. The J.M. degree does not qualify recipients to practice law. Rather, it is designed to supplement a student's professional pursuits in areas beyond legal practice.

Many industries and professional fields are coping with the growing importance of regulatory oversight, intensifying risk and liability concerns, global economic uncertainty, increasingly complex decision environments as well as pressures for integrated design/build and faster movement to market. As a result, there is an increasing demand for the integration of professional knowledge in the substance of the work with legal principles relevant to the work. With the additional preparation of a J.M. degree, students will be better equipped to deal with such scenarios, by gaining insight in these and other areas of the law. A student who supplements his or her disciplinary knowledge with a related grounding in the law may enhance their value in the market and workplace; realistically assess if further legal studies are appropriate to their career aspirations; and advance interdisciplinary understanding between their undergraduate professions and law.

The JM offers courses of study in political science, jurisprudence, environmental law, media and marketing, innovation and intellectual property, arts management, and many others.

For more information, go to: http://www.law.emory.edu/academics/jm-program.html

MASTER OF ARTS IN BIOETHICS

This innovative and interdisciplinary program is designed to prepare Emory College students (from any major) to identify, evaluate and respond to the social and ethical challenges that face medicine, biotechnology and the life sciences. Our curriculum incorporates
discussion-intensive seminars, one-on-one faculty mentorship, research opportunities and a career-building practicum (e.g. at the CDC, GA State Legislature, or Atlanta Hospitals). This varied curriculum provides our students with both a theoretical grounding in bioethics as well as hands-on experience of and supervision in the implementation of ethics projects. This dual degree will provide a competitive advantage to students interested in careers in healthcare, health law, research regulation or compliance, academia or normative areas of public health.

For more information, go to: http://ethics.emory.edu/mabioethics/dualdegree/4+1.html

MASTER OF SCIENCE IN CANCER BIOLOGY AND TRANSLATIONAL ONCOLOGY

The Graduate Program in Cancer Biology provides outstanding training opportunities at the PhD and MS levels in every aspect of cancer research, from basic to translational research. This includes molecular and cellular biology, genetics and epigenetics, signal transduction, genetic engineering, nanotechnologies, and many other disciplines used to understand the development and progression of cancer.

Many different approaches are applied to a range of model systems to address how a normal cell becomes a cancer cell, how cancer progresses to a metastatic state at the molecular level and how our understanding of these mechanisms can be exploited for the design of new cancer therapies or novel ways to apply existing anti-cancer agents in the clinic.

For more information, go to: http://www.gs.emory.edu/academics/program_pages/cancerbio41.html

OVERVIEW

Emory College of Arts and Sciences, in conjunction with the Laney Graduate School, Rollins School of Public Health, and the Law School, offer five-year, combined bachelor’s and master’s degree programs to currently enrolled students. These selective programs require an application to be considered for admission. Interested students should consult with their advisors to discuss the appropriateness and applicability of this program for the student’s future goals before applying.

Each 4+1 program has its own application process and requirements that are set by the sponsoring department. Interested students can learn more by visiting the website for each program.

ADMISSIONS OVERVIEW

Each department sponsoring a 4+1 program has its own admissions deadlines, criteria, and application process. Application deadlines for existing programs range from first semester of junior year to a week after graduation, so please refer to the information on each department’s website for specific information.

ADVISING

Interested students should confer with their current departmental academic advisor to discuss how these programs will fit with the student’s long-term educational and occupational goals. Students may also wish to consult with the program coordinator of the 4+1 program as well before making a final decision to apply.

CURRICULUM

Although the structure varies from program to program, most 4+1 students take both undergraduate and graduate classes during their fourth year and only graduate classes during their fifth year. Please see each 4+1 program’s website for more specific information.

SCHOLARSHIPS AND FINANCIAL AID
Students interested in 4+1 programs should be advised that financial aid policies for graduate study are different than those for undergraduate study. Students should consult with the graduate department associated with their 4+1 program to learn more about financial aid opportunities for graduate study in those departments.

**CENTERS, INSTITUTES, AND OTHER RESOURCES**

**BILL AND CAROL FOX CENTER FOR HUMANISTIC INQUIRY**

The Bill and Carol Fox Center for Humanistic Inquiry (CHI) serves both those trained in the humanities as traditionally defined and also others in the University who are interested in humanistic issues; outreach to faculty and students in the social sciences, the sciences, and the professional schools at Emory is an important part of the CHI’s work. The CHI is dedicated to providing occasions and spaces for encouraging intellectual community and scholarship across disciplines.

**CENTER FOR CREATIVITY AND ARTS**

The Center focuses on five major areas of art and creativity: student involvement with the arts both as participants and audience; support for creative research projects; advocacy for facilities on campus that support the various disciplines and allow interdisciplinary exploration; visiting artists, artists in residence and commissioned work; and exploration of the nature of creativity through research, symposia, and conversations.

**CENTER FOR MIND, BRAIN, AND CULTURE (CMBC)**

The Center for Mind, Brain, and Culture (CMBC) explores issues and phenomena associated with mind, brain, and culture from an inter-disciplinary perspective. The Center rests on the assumption that multiple explanatory perspectives are essential for explaining the cognitive and social abilities of humans and other species. The aim is for inter-disciplinary exchange to inform faculty and student research, contribute to undergraduate and graduate curricula, and lead to a wide variety of inter-disciplinary research projects that establish multi-perspective explanations.

**CENTER FOR MYTH AND RITUAL IN AMERICAN LIFE (MARIAL)**

Emory University’s Center on Myth and Ritual in American Life (MARIAL) is one of five Sloan Centers on Working Families, supported by the Alfred P. Sloan Foundation’s Program on Dual-Career Working Middle Class Families. The MARIAL Center researches the functions and significance of ritual and myth in dual wage-earner middle class families in the American South.

**CENTER FOR THE STUDY OF HUMAN HEALTH**

The Center for the Study of Human Health is the nexus for cross-disciplinary, cross-institutional collaboration on health and provides the organizational structure to accomplish horizontal integration of Emory’s extraordinary and diverse assets. The Center achieves connections and synergies in health education, research and practice fostering intellectual exchange among a community of scholars whose interests span the science of health and the social and cultural dimensions of health and humanity.

**CHERRY L. EMERSON CENTER FOR SCIENTIFIC COMPUTATION**

The goals of the Cherry L. Emerson Center for Scientific Computation are: To provide high-end computational facilities and expertise to the computationally oriented scientific research at Emory, and to propel Emory into the forefront of research in computational sciences; To help provide state-of-the-art education on computational sciences at Emory, and to help bring computational education in Emory to the highest possible national and international levels; To encourage collaborations in computational sciences with other national and international institutions, as well as on Emory campus.

**DEVELOPMENT STUDIES WORKING GROUP**
A committee of faculty formed by Dean Bobby Paul to examine how to support and encourage development studies in the college, especially in light of recent development-related initiatives in the university.

**EMORY COLLEGE STUDY ABROAD**

In collaboration with faculty, Emory College Study Abroad develops, promotes, and administers programming for undergraduate students that encourages both intellectual and personal growth through challenging scholarship and cultural immersion. Its services support students and faculty before, during, and after the study abroad experience in order to ensure that study abroad is an essential part of an Emory College education.

**EMORY-TIBET CENTER**

The Emory-Tibet Partnership is a university-wide initiative committed to bringing together the best of the Western and Tibetan Buddhist intellectual traditions for their mutual enrichment and the discovery of new knowledge for the benefit of humanity.

**EMORY-TIBET SCIENCE INITIATIVE**

The Emory-Tibet Science Initiative is an historic initiative to develop and implement a comprehensive science education curriculum for Tibetan monastics. ETSI is comprised of faculty within both the sciences and humanities from Emory and other universities and institutions.

**FACULTY SCIENCE COUNCIL**

The Faculty Science Council pursues excellence in science education and scholarship within the Arts and Sciences and serves as an advisory body to the College Office on scientific issues. The Council’s mission is to stimulate and facilitate faculty-driven initiatives in both teaching and scholarship and to provide a faculty-based forum for discussion and evaluation of those initiatives. The Program in Science and Society is a component of the Faculty Science Council. It aims to instill the thrill and importance of science in Emory students, especially non-science majors, and in the Emory and Atlanta community at large.

**GRADUATE INSTITUTE OF THE LIBERAL ARTS**

The Graduate Institute of the Liberal Arts (ILA) is Emory University’s institutional center for comparative and interdisciplinary studies across the social sciences and humanities. Since the 1950s, the ILA has offered graduate students the opportunity to pursue doctoral work in the study of culture and society from historical, ethnographic and comparative perspectives.

**HEALTH SCIENCES HUMANITIES (HSH) INITIATIVE.**

A program which brings together students from all of the health sciences disciplines as well as the liberal arts to create truly interdisciplinary teaching situation.

**HUMANITIES COUNCIL**

**INSTITUTE FOR THE STUDY OF MODERN ISRAEL (ISMI)**

Established in 1997, ISMI’s objectives are to build and strengthen an understanding of modern Israel for Emory students and to inform the general public, which are accomplished through collaborative undertakings with other Emory University units and the sponsorship of visiting professors, lectureships, programs, and conferences. For the general public, ISMI engages in outreach to the media, general community, civic organizations, and educators in their desire to learn about modern Israel. ISMI is not an academic department nor does it confer a degree or award scholarships.

**JAMES WELDON JOHNSON INSTITUTE FOR ADVANCED INTERDISCIPLINARY STUDIES**
The mission of the James Weldon Johnson Institute for Advanced Interdisciplinary Studies is to foster new scholarship, teaching and public dialogue that focuses upon the origins, evolution, and legacy of the modern civil rights movement from 1905 to the present. Through its research and public programming, the Johnson Institute is one site within Emory University where members of the Emory community are challenged to reflect upon and examine the shifting and complex meaning of race and difference in a national and global context.

**LANGUAGE CENTER**

The Emory College Language Center (ECLC) is dedicated to international education by promoting the teaching and learning of languages. We provide students with opportunities to experience and understand world cultures both on campus and beyond.

The Center was founded in 2000 to provide support for the teaching and learning of languages and cultures at Emory. Emory University’s language departments teach 19 curricular languages. Our Center provides faculty and students with technology facilities and staff, language lab and classrooms, faculty consultation and development, lecture events, and online learning resources.

Working with the Emory Program in Linguistics we also support the needs of students learning Less-Commonly Taught Languages (LCTLS) not currently taught in the curriculum, through the Structured Independent Language Study (SILS) program.

**PROGRAM IN SCIENCE AND SOCIETY**

Science and Society aims to instill the thrill and importance of science in Emory students, especially non-science majors, and in the Emory and Atlanta community at large. They promote a better understanding of the impact of science on society and work with the Science, Social Science, and Humanities disciplines to convey the message that science is vital across disciplines--that science is not merely a collection of facts but is, at its core, a way of thinking and of approaching problems.

**PSYCHOANALYTIC STUDIES PROGRAM**

The ILA’s Psychoanalytic Studies Program (PSP) deals with the theory, application, and history of psychoanalytic thought and practice. It is not a clinical training program, but a graduate minor is offered.

**SOCIAL SCIENCES COUNCIL**

**STUDIES IN SEXUALITIES**

Studies in Sexualities takes as its focus the multiple ways in which sexuality is experienced, conceptualized, and theorized. It supports and is supported by the activities of the and the superb resources of the .

**THE GRADUATE SCHOOL**

The Graduate School offers degrees in 28 departments and divisions across the humanities, social sciences and natural sciences. The Ph.D. is offered in 24 of these highly competitive programs, preparing graduates for a range of careers, from college and university teaching to research and administration in the public and private sectors.

**THEATER EMORY**

A professional theater company in residence at the University in which undergraduates collaborate on significant and challenging artistic projects and plays with professionals and professionals, in turn, receive a rare and inspiring experience with a research-based theater.

**THEORY PRACTICE LEARNING**
In an effort to influence the future of pedagogy at Emory, TPL aims to strengthen the connection between academics and contemporary social issues, train Emory teachers to effectively implement experiential education, and create an intellectual environment of learning by doing.

**WRITING CENTER**

Tutors offer a wide range of help for writers with varying skills and abilities. While the Writing Center offers basic help and encourages struggling writers to come in, we also offer assistance for experienced writers. We believe that all writers benefit from discussing their ideas with others and that successful writers seldom turn anything in without sharing it with someone first.

**EMORY COMMUNITY**

**ARTS**

Arts programs at Emory bring students, faculty, staff, world-renowned guest artists, and audiences together in a spirit of collaboration and discovery. Whether you choose a course of study in the arts at Emory or choose to attend music, theater, or dance performances, an art exhibition, poetry readings, or film screenings, your imagination will be stirred.

Arts at Emory hosts over 300 events in the performing, visual, and literary arts each year, with internationally acclaimed musicians, numerous student ensembles, a professional theater company, prize-winning poets, novelists, playwrights and much more. Explore the arts and find the complete event calendar at arts.emory.edu.

**DANCE**

The Emory Dance Program interfaces with the Atlanta community by providing free programming including the Women’s History Month Performance Series, the Friends of Dance Lecture Series, Dance for Reel, and the Atlanta Contact Improvisation group. This year the Opening the Space series brought more than three hundred community members into the Schwartz dance studio for classes and an artist talk.

Dance at Emory is prolific, reflecting the cultural diversity of this campus. Students perform, create, collaborate, play, and practice together to express, through the body, their culture and identity. Performing affects the cohesiveness of a group and it sparks individual and group creativity. There are more than fifteen student-led dance groups that are one of a kind. They perform hip-hop, breakdancing, Capoeira, Salsa, Tap, Bhangra, classical Indian, Bollywood, and Stepping. Many groups invent fusion dance styles. They compete, and perform on and off campus.

- **Azaadi** is a South Asian male dance team.
- **ACES** (The Association of Caribbean Educators and Students) Dance spreads awareness about Caribbean cultures.
- **A.H.A.N.A. Dance** (African, Hispanic, Asian, Native American, and all other artists collective) features student choreography in a variety of styles. Choreographer and dancer auditions are held at the beginning of each semester, and performances are at the end of each semester in the Performing Arts Studio.
- **BAM** (Brotherhood of Afrocentric Men) and Ngambika (meaning “carry the load”) are both community service organizations who are known for their tremendous skill of stepping. BAM is all freshman males and Ngambika is all freshman women.
- **Capoeira** is an Afro-Brazilian art from that incorporates elements of martial arts, dance, and music.
- **E-Motion**, the official dance team of the Emory Eagles.
- **Karma** dances a folkloric style from the Punjabi Diaspora called Bhangra. They are Emory’s premiere co-ed bhangra team.
- **SaRaas** is the first and only Garba/Raas dance team combining traditional Gujarati music, costumes, props, and dance moves with a modern touch.
- **Savera** is a classical fusion dance team combining the dance styles of Odissi, Kathak, Kuchipudi, and Bharatanatyam.
- **Salsa Club** focuses on casino/cuban technique.
• **Sitara** is an all-female South Asian dance team at Emory University founded in 2000. They combine Indian and Western forms, including Ballet, Jazz, Hip-Hop, Modern, Bhartha Natyam, Kathak, Bhangra, and Garba. Sitara holds auditions at the beginning of each academic year for new members.

• **Skeleton Crew** is an innovative breakdancing club.

• **PersuAsian** is an all female dance crew that incorporates various types of hip-hop styles. Originally founded in 2008 as a small Asian dance team, the team fuses traditional East Asian dance-forms with modern hip-hop dance styles.

• **Tap That** is Emory's only tap club founded three years ago. They reach out to those who have tapped for years and those who just want to learn for fun! Practice is on Wednesdays from 6:30 - 7:30 PM in the Dance Department's studio in the Rich Building.

• **TrickaNomeTry (TNT)** originated in the fall of 2009. TNT is an all male hip-hop dance crew led by Julio Medina. The group's explosive style focuses on choreography, visuals, and tricks (stunts). Members of the group teach open classes every Saturday at 5:30pm in WPEC, aerobics room. New members are recruited every year.

**FILM AND MEDIA STUDIES**

The [Film Studies Department](#) hosts the [Cinematheque Film Series](#), a weekly 35mm film series on Wednesday nights, as well as a number of special screenings and guest speakers throughout the academic year.

[Campus MovieFest](#), the world's largest student film festival, was started by four Emory students in 2000. Students have exactly one week to create a short film that will be judged against those created by their peers. Each team is given equipment, including video cameras and editing software, to use during production of its film. Every year, hundreds of Emory students participate in the competition. At an on-campus red-carpet screening, judges present their favorite films and announce the winners of various categories, including Best Drama and Best Comedy, as well as which films will move on to the regional competition.

The Film and Media Studies curriculum at Emory offers a unique opportunity for graduate and undergraduate film study in a major urban center of more than five million people. Visit [filmstudies.emory.edu](http://filmstudies.emory.edu) for details.

**MICHAEL C. CARLOS MUSEUM**

The [Michael C. Carlos Museum](#), Georgia’s premier museum devoted to the art and history of world cultures, is located at the heart of Emory’s campus. Founded in 1919, it is home to the Southeast’s most distinguished collection of art and artifacts from ancient Egypt, Greece, Rome, Nubia, the Near East, Asia, Africa, and the Americas, as well as a works-on-paper collection spanning from the Renaissance to the present. Conservators in the Museum’s conservation laboratory conduct scientific analysis and treatment of museum collections, while creating teaching and training opportunities for students interested in pursuing careers in art, conservation, preservation, and science. The Museum also offers an array of educational opportunities for the Atlanta and Emory communities, including special exhibitions, lectures, audio tours, family guides, gallery talks, children’s programs and summer camps, interactive technology, films, internships, and much more. Admission is free for Emory students, staff, and faculty.

## PROFESSIONAL ARTISTS IN RESIDENCE

## EMORY CHAMBER MUSIC SOCIETY OF ATLANTA

[http://arts.emory.edu/outreach/community/ecmsa.html](http://arts.emory.edu/outreach/community/ecmsa.html)

The Emory Chamber Music Society of Atlanta brings together some of the finest musicians in Atlanta, who are dedicated to performing the most exciting music from the chamber repertoire. With a core membership of seven performers, the group represents a diverse repertoire, ranging from duos to large ensemble works with a variety of instrumentation. Additional performers, as demanded by the season’s repertoire, are drawn from Atlanta’s outstanding musicians. Visiting artists have included:
• cellist Yo-Yo Ma
• Eroica Trio
• Lark String Quartet
• violinist William Preucil

THE VEGA QUARTET

(http://www.vegaquartet.com/)

As Emory’s Artists-in-Residence, the members of the Vega String Quartet offer performances on the Music at Emory concert series, programs in the ECMSA Family and Noontime series at the Michael C. Carlos Museum, “Performers Up Close” discussions for the Department of Music, and outreach to select Atlanta school children.

THEATER

Students interested in theater have a wide range of opportunities at Emory. Courses in acting, directing, playwriting, theater administration, design, history, dramatic literature and criticism, and stagecraft are offered by the Department of Theater and Dance. Students may major or minor in Theater Studies. A BA in Playwriting is jointly offered by Theater Studies and Emory’s highly-ranked Creative Writing Program. Many students meet general education requirements through Theater Studies courses.

Theater Emory, the professional company in residence at Emory, provides undergraduates a unique opportunity to perform with professional actors and to work and train in design, research, direction and every aspect of production with experienced professionals. Our faculty consists of working artists who collaborate with students and professionals from Atlanta’s theater community.

Theater Emory is open to all Emory students, regardless of their major. Work study positions are available at Theater Emory and the Department of Theater and Dance. Other opportunities for experience are available through student-run organizations, including:

• Ad Hoc Productions, which produces musical theater
• Starving Artist Productions, which presents a range of plays and also produces films, events, and festivals.
• Rathskellar, an improvisational comedy troupe
• AHANA, which tackles issues of social import with a commitment to multicultural perspectives.
• Alpha Psi Omega, the National Theater Honor Society.

The city of Atlanta has a long-established theater community and many cutting-edge producers and arts collectives.

Questions about activities at Theater Emory can be addressed to 404.727.0524 or by visiting theater.emory.edu; the Department of Theater and Dance can be contacted at 404.727.6463, or visit the web at www.theateranddance.emory.edu.

ATHLETICS & RECREATION

The Athletics and Recreation Department offers opportunities for students of all interests and abilities to become involved in recreational programs, receive academic credit for physical and leisure education courses and participate in varsity athletics as an athlete or spectator. Recreational Services offers a wide variety of Intramural Sports and Club Sports for the competitive or recreational participant as well as various drop-in and instructional fitness programs. For-credit physical education courses are offered through the current Play Emory curriculum, focusing on helping students develop habits to live a healthy and active life.

The George W. Woodruff PE Center (WPEC) houses most of the Athletics and Recreation Department’s programs. Indoor court spaces offer opportunities for playing basketball, volleyball, racquetball, badminton and tennis, while swimmers of all abilities can enjoy the Madeleine Jude Brown Aquatics Center, featuring a heated, Olympic-sized indoor pool for recreational and varsity use. WPEC members who prefer a view from above can take advantage of the climbing walls. Walkers and joggers can get their hearts racing on the state-of-the-art 400-meter outdoor track or take refuge from the elements on the one-eighth mile indoor track.
Other WPEC amenities include a dance studio, aerobics room, outdoor tennis courts and a fully equipped fitness corridor, neighbored by a multi-use sport court.

Outdoor green spaces on campus provide acres of space for recreational and varsity activities. Open-use spaces include Kaminsky Intramural Park at Candler fields, which is used primarily for walk-up play, intramural and club sports, while varsity complexes host soccer, baseball and softball. Located in the heart of campus, McDonough Field is open almost year-round for students to play pick-up games.

**CAREERS CENTER**

The Career Center advises the college undergraduate students as to career decision-making, employment opportunities, academic programs, and internships that will enhance their professional development skill set. The Career Center also develops relationships with employers and graduate/professional schools promoting the recruitment of students and alumni. The singular focus of the Career Center is to ensure students develop the self-awareness and skills to not only explore career choices, but take assessment of their skills and interests in making exceptional career choices. The Career Center also houses the PreLaw Advising Office and is a partner with the PreHealth Mentoring Office.

**DINING**

**EATING ON CAMPUS**

Your college journey can take you just about anywhere, but one thing’s certain, you’re bound to get hungry along the way. Emory Dining gives you countless ways to satisfy your appetite – no matter what it’s asking for.

We have two anchor locations: Dobbs Market, a global cuisine market that provides you with endless opportunities to eat fresh, healthy options from around the world and Cox Hall Market, an a la carte quick-service dining experience.

You’ll also find seventeen additional dining options across the Emory campus. Wherever you decide to eat, you’ll discover that we do more than simply serve food around here. At Emory Dining, we honor the majesty of freshness. We bask in the glory of flavor. We make sure you savor every single bite.

**DINING PLAN**

Emory offers students an assortment of dining plans at varying costs per semester. Entering First Year classes have one meal plan designed to meet their needs and ensure that getting a good meal is not a concern as they begin their college experience. The plan offers open access to the Dobbs Market and an amount of Dooley Dollars that the student can spend at any of the many dining locations across campus. Second-year students have a choice of additional dining plans from which to choose. They may take advantage of dining at Dobbs Market or other residential dining locations along with Dooley Dollars. Students who keep Kosher or follow Halal diet may choose dining Plan K. In addition to limited access to Dobbs Market, this dining plan entitles you to 11 meals per week catered by an approved Glatt Kosher cater, assuring the highest level of kashrut.

Continuing students may choose from a range of plans at different costs per semester. Those who live in University-operated residence halls must sign up for the minimum dining plan offered. The minimum plan typically will not cover most students’ food needs for an entire semester. Graduate students may sign up for any of the meal plans including a specific discount meal plan for graduate students only. For details and terms of the various meal plans, see the Community brochure or check the website.

**OFFICE OF ACCESSIBILITY SERVICES**

The Office of Accessibility Services (OAS) assists qualified students, faculty, and staff in obtaining equal access and reasonable accommodation. OAS ensures opportunities for reasonable access and participation in all programs, as it promotes the value of a full and rich living, learning, and working experience in our community.

Programs, Services, and Resources:
• Campus Access and Barrier Removal
• Educational Accommodations
• Assistive Technology
• Resources and Advocacy
• ADA Compliance
• Campus/Community Partnerships
• Mobility and Transportation
• Residential Life Accommodations
• Workplace Accommodations
• Outreach Educational Programs

For more information regarding OAS and the services provided, please call OAS at: 404.727.9877 (voice) or 404.712.2049 (TDD). OAS are located on the third floor of the Student Academic and Activity Center (SAAC) on the Clairmont Campus. The OAS website can be found here: http://equityandinclusion.emory.edu/access/index.html

FRATERNITIES & SORORITIES

The Office of Sorority and Fraternity Life (http://osfl.emory.edu/) advises the 28 officially recognized Greek letter organizations on the Emory campus to provide members with a fulfilling and rewarding Greek experience. The governing bodies of the fraternities and sororities are the Interfraternity Council (IFC), National Pan Hellenic Council (NPHC), Multicultural Greek Council (MGC), and the Intersorority Council (ISC). Each council is dedicated to academic excellence, promoting brotherhood and sisterhood, leadership development, and service and philanthropy as well as social and service oriented programming for the entire community.

HOUSING

RESIDENCE LIFE AND HOUSING

The Office of Residence Life and Housing (http://www.emory.edu/HOUSING/) supports student development through residentially-based experiential learning. Through their on-campus residential experience, students are encouraged to develop close relationships with diverse individuals, enhance leadership skills, assume personal responsibility, enrich spiritual skills, build character and discipline, and form a better understanding and genuine acceptance of the many races, cultures, religions, and nationalities that comprise the Emory community and beyond.

In addition to providing programs and resources for student development, the Office of Residence Life and Housing is responsible for the administration of all on-campus residential facilities.

HOUSING SELECTION

Students apply for housing online through MyHousing (http://myhousing.emory.edu). Through MyHousing, students may also select rooms (returning students) and meal plans, search for and select roommates, request room changes, submit work orders, and more. MyHousing interfaces with multiple university systems and is the main portal for all housing related requests.

HOUSING FACILITIES AND AMENITIES

Residence Life and Housing staff manages all the on-campus residential facilities, including residence halls, theme houses, fraternity and sorority houses, and Clairmont Campus. Housing rates are inclusive of the following utilities: water, electricity, gas, wireless Internet connection, and Emory Cable TV.
OFFICE OF LGBT LIFE

The Office of Lesbian, Gay, Bisexual, and Transgender Life (http://www.lgbt.emory.edu) seeks to engage the university community in the creation of an affirming and just campus environment while supporting the development of students of all gender and sexual identities. To achieve its mission, the Office of LGBT Life offers a number of resources and opportunities to undergraduate and graduate students including: dedicated full-time staff members available for meetings, study and social space with a lending library, funding for leadership development, confidential queer discussion groups, student organization advising, Safe Space and other educational training, opportunities to connect with queer faculty, staff, and alumni, and more.

STUDENT MEDIA

The Student Media Council governs University-wide student media, serving as a resource board to advocate ethical journalism and media practices. This student-run council deals with other issues related to the general operation of University-wide student media organizations, which now include:

- Alloy
- Emory Undergraduate Research Journal
- Emory Political Review
- EmoryVision
- The Emory Wheel (http://www.emorywheel.com/)
- Hybrid Vigor
- Lullwater Review (http://lullwaterreview.wordpress.com/)
- The Emory Spoke (http://emoryspoke.org/)
- WMRE (http://wmre.fm/)

STUDENT LIFE POLICIES

CONFIDENTIALITY

Students are expected to be aware of and abide by specific policies formulated by Emory University concerning confidentiality. What follows is a brief summary; the full statements of this policy, as well as those of other University policies, are published annually in the Campus Life Handbook.

Emory University recognizes a student’s right of privacy and is committed to protecting students from improper disclosure of private information. Regarding the confidentiality of the information that becomes a part of the student’s permanent records and the conditions of its disclosure, the University has adopted a policy that reflects a reasonable balance between its obligations for the protection of the rights and privacy of the students and its responsibility to society.

EQUAL OPPORTUNITIES & AFFIRMATIVE ACTION POLICY

Emory University is dedicated to providing equal opportunities and equal access to all individuals regardless of race, color, religion, ethnic or national origin, gender, genetic information, age, disability, sexual orientation, gender identity, gender expression, and veteran’s status. Emory University does not discriminate in admissions, educational programs, or employment on the basis of any factor stated above or prohibited under applicable law. Students, faculty, and staff are assured of participation in University programs and in the use of facilities without such discrimination. Emory University complies with Executive Order 11246, as amended, Section 503 of the Rehabilitation Act of 1973, the Vietnam Era Veteran’s Readjustment Assistance Act, and applicable executive orders, state and federal regulations regarding non-discrimination, equal opportunity and affirmative action. Emory University is committed to achieving a diverse workforce through application of its affirmative action, equal opportunity and non-discrimination policy in all aspects of employment including recruitment, hiring, promotions, transfers, discipline, terminations, wage and salary administration, benefits, and training. Inquiries regarding this policy should be directed to the Emory University Office of Equal Opportunity Programs, 201 Dowman Drive, Administration Bldg., Atlanta, GA 30322. Telephone 404/727-9867 (V) 404/712-2049 (TDD).
UNIVERSITY-STUDENT RELATIONSHIPS

The Board of Trustees of Emory University has adopted a statement of policy dealing with University-student relationships, a digest of which follows:

1. Emory University was founded on Christian principles by the Methodist Episcopal Church and proudly continues its church relationship as an agency dedicated to seeking and imparting truth.

2. Emory University admits qualified students of any sex, sexual preference, race, color, national origin, religious preference, age, or veteran’s status, and qualified handicapped students to all of the rights, privileges, programs, and activities generally accorded or made available to students at Emory University. It does not discriminate on the basis of race, color, national origin, religion, sex, sexual orientation, age, disability, or veteran’s status in administration of its educational policies, admissions policies, scholarship and loan programs, or athletic and other Emory University-administered programs.

3. Attendance at Emory University is a privilege and not a right; however, no student will be dismissed except in accordance with prescribed procedures. Students applying for admission do so voluntarily and are free to withdraw at their pleasure, subject to compliance with the regulations of their school or college governing withdrawal and to the fulfillment of their financial obligations to the University.

4. Upon matriculation at Emory, each student agrees to be bound by the rules, policies, procedures, and administrative regulations as they exist at the time of admission and as they may be changed by duly constituted authority.

5. By admission as a student at Emory University, a person acquires the right to pursue the course of study to which he or she is admitted and to be treated with the dignity appropriate to an adult person in all matters relating to the University; in the same spirit the student shall comply with the rules and regulations of Emory University.

6. Students will be provided the opportunity to participate in the development of rules and procedures pertaining to University affairs to the extent that such participation and the results thereof, as determined by the Board of Trustees or its designated agent, are consistent with orderly processes and with the policies and administrative responsibilities of the Board of Trustees and the administration.

7. The University expects students to conduct themselves with dignity, courtesy, responsibility, and integrity, and with due respect for the rights of others, realizing that sobriety and morality are not only characteristics of a mature and responsible person but are essential to the maintenance of a free and orderly society.

8. Membership in and rules governing admission to student organizations shall be determined by the organizations themselves, and such rules shall not be required to be uniform so long as the same do not contravene any policy established by the Board of Trustees.

9. Emory University is an educational institution, not a vehicle for political or social action. It endorses the right of dissent and protects and encourages reasonable exercise of this right by individuals within the University. Because the right of dissent is subject to abuse, the Board of Trustees and the president have published a statement to clarify policy concerning such abuse, a digest of which follows:
   1. Individuals associated with Emory represent a variety of viewpoints; the University fosters the free expression and interchange of differing views through oral and written discourse and logical persuasion.
   2. Dissent, to be acceptable, must be orderly and peaceful and represent constructive alternatives reasonably presented.
   3. Coercion, threats, demands, obscenity, vulgarity, obstructionism, and violence are not acceptable.
   4. Demonstrations, marches, sit-ins, or noisy protests that are designed or intended to or which do disrupt normal institutional pursuits will not be permitted.
   5. Classes and routine operations will not be suspended except for reasonable cause as determined by the president.
   6. Administrators, faculty, other employees, and students are expected to abide by these standards of conduct in promoting their views, particularly dissent.
   7. Persons who are not so inclined should not become associated with Emory nor continue to be associated with Emory.
   8. Academic and administrative procedures will protect individuals in their right of free expression and provide for prompt and appropriate action against those who abuse such right.

SPEAKERS

Students are expected to be aware of and abide by specific policies formulated by Emory University concerning speakers invited to campus. What follows is a brief summary; the full statements of these policies, as well as those of other University policies, are published annually in the Campus Life Handbook.
When a student organization invites a speaker from outside the University to speak on campus, the event is the shared responsibility of the inviting student organization and the University. In keeping with the principle of academic freedom, Emory University supports and encourages the exchange of ideas within the University community, including ideas that may be unpopular or controversial. To this end, the University is committed to providing a forum for student-sponsored expression of divergent points of view. At the same time, the University encourages civility and has the obligation to address issues of safety and disruptive conduct. The president or the president’s designee(s) reserve(s) the right to modify the circumstances or withdraw the invitation to speak when a risk of violence or substantial disruption of the operation of the University can reasonably be foreseen.

**DISCRIMINATION & HARASSMENT**

Students are expected to be aware of and abide by specific policies formulated by Emory University concerning discrimination and harassment. What follows is a brief summary; the full statements of these policies, as well as those of other University policies, are published annually in the [Campus Life Handbook](#).

It is the policy of Emory University that all employees and students should be able to enjoy and work in an educational environment free from discriminatory harassment. Harassment of any person or group of persons on the basis of race, color, national origin, religion, sex, sexual orientation, age, handicap, or veteran’s status is a form of discrimination specifically prohibited in the Emory University community. Any employee, student, student organization, or person privileged to work or study in the Emory University community who violates this policy will be subject to disciplinary action up to and including permanent exclusion from the University. The scholarly, educational, or artistic content of any written, oral, or other presentation or inquiry shall not be limited by this policy. The preceding provision is liberally construed with the intent that academic freedom shall be allowed to all members of the academic community; however, this provision shall not be used as a pretextual basis for violation of the policy.

**SEXUAL ASSAULT**

Students are expected to be aware of and abide by specific policies formulated by Emory University concerning sexual assault. What follows is a brief summary; the full statements of these policies, as well as those of other University policies, are published annually in the [Campus Life Handbook](#).

The Emory University community expects all of its members to treat other persons with respect and dignity and will not tolerate any form of sexual assault. Sexual activity should be explicitly agreed upon by all parties. The University shall proceed with disciplinary and/or remedial actions as needed when it appears that the University’s prohibition against any form of sexual abuse has been violated. A student charged with sexual assault may be disciplined under the University’s code of student conduct as well as prosecuted under Georgia’s criminal statutes. The University also has in place procedures to provide emotional and medical support to a victim of sexual assault within the Emory community.

**RELIGIOUS LIFE**

The Office of the Dean of the Chapel and Religious Life ([http://www.religiouslife.emory.edu/](http://www.religiouslife.emory.edu/)) is the center of religious services and programs for the Emory campus. The deans work with the other religious leaders appointed by the various denominations and faith traditions. Members of the professional religious life staff are readily available for personal conferences on any matters of concern.

**SAFETY**

**EMERGENCY NOTIFICATION**

Emory uses e.Notify ([http://www.emory.edu/home/CEPAR/Notification_Program](http://www.emory.edu/home/CEPAR/Notification_Program)), a text message notification system, to send out emergency alert messages.

In order to receive an e-notification, it is recommended to subscribe by adding cell phone numbers to Emory's Emergency Notify System. All staff, faculty, and students are recommended to sign-up for this free service.

**EMERGENCY PHONES**
There are more than 124 Blue Light phones located throughout the Emory University campus. Blue Light emergency telephones link users directly and exclusively to the Emory Police Department Communications Center. Use these phones to report crime, fire, medical emergencies, or to request a police escort.

**EMORY POLICE DEPARTMENT**

The Police Department is a state-certified law enforcement agency that provides a variety of public safety services to the Emory community including law enforcement services and security systems services. Law enforcement services include criminal investigations, uniformed police services, crime prevention, and community relations programs. Security systems services include locksmithing services and the installation and maintenance of card access systems, alarm systems, and CCTV camera systems.

**HONOR SOCIETIES**

**NATIONAL**

**ALPHA EPSILON DELTA**

This national honor society recognizes students who have achieved academic distinction while pursuing a premedical or predental program.

**PHI BETA KAPPA**

The Emory College chapter of Phi Beta Kappa, Gamma of Georgia, was founded in 1929. Election to it is based on scholarship, breadth of culture, and general promise.

**MORTAR BOARD**

Mortar Board is a national honor society recognizing college seniors for superior achievement in scholarship, leadership and service.

**PHI ETA SIGMA**

The Emory College chapter of Phi Eta Sigma, a national honor society for first-year students, acknowledges outstanding scholastic achievement.

**SIGMA XI**

The Emory chapter of Sigma XI encourages original investigation in the pure and applied sciences. The chapter consists of members and associate members, including students, faculty, and staff. Although full membership is based on achievement in original investigation, undergraduate students may be elected to associate membership. Activities include meetings for the discussion of scientific subjects; financial support, through grants-in-aid, of investigations; publication of research; and maintenance of national lectureships.

**WHO'S WHO**

Who's Who honors college and university students who have made significant contributions to their schools. Selection is based on leadership, service, and scholarship.

**DEPARTMENTAL**

Outstanding achievement within particular departments and programs is recognized by election to the following societies. Students should contact the department for more information:
• Anthropology: Lambda Alpha
• Biology: Phi Sigma
• Classics: Eta Sigma Phi

OTHER EMORY SOCIETIES

STUDENT HEALTH AND COUNSELING SERVICES

Emory University Student Health and Counseling Services (http://studenthealth.emory.edu/) empowers students to take responsibility for their health and complements the academic mission of the university by providing unified medical, counseling and health promotion services that result in a healthy campus culture. Student Health and Counseling Services is committed to providing caring professional clinical services to a diverse student body and to reducing the stigma associated with seeking mental health services.

Students are involved in promoting a healthy campus culture through volunteer activities with student organizations including the Healthy Campus Coalition, Student Health Advisory Committee (SHAC), Alliance for Sexual Assault Prevention (ASAP), Helpline, Active Minds, Sexual Assault Peer Advocates (SAPA) as well as individual projects, health promotion internships and course assignments.

Emory students are responsible for notifying professors or instructors of absences caused by illness or injury. EUSHCS providers do not write medical excuses for missed classes or examinations. Of course, EUSHCS healthcare providers can supply the necessary documentation for extended illnesses or injuries, including those necessitating medical withdrawal from classes.

STUDENT INVOLVEMENT

OFFICE OF STUDENT LEADERSHIP & SERVICE (OSLS)

The Office of Student Leadership & Service (OSLS) is the hub of student involvement at Emory. From coordinating a number of strong leadership programs to Volunteer Emory, the OSLS offers many opportunities for you to find community at Emory both inside and outside the classroom. Additionally, the OSLS advises and works with the Student Government Association (SGA) and all of the student organizations that SGA recognizes. Visit www.osls.emory.edu to learn more information about the many programs and services that the OSLS offers.

STUDENT GOVERNMENT ASSOCIATION

The Student Government Association (http://www.emory.edu/SGA) is the voice of the entire student body (graduate and undergraduate) to faculty, administrators, and staff. SGA members are elected each spring, in accordance with the Constitution and Bylaws of the organization.
COLLEGE COUNCIL

College Council ([http://emory.orgsync.com/org/collegecouncil](http://emory.orgsync.com/org/collegecouncil)) is a divisional council of SGA that specifically represents Emory College of Arts and Sciences students. The Council advocates on behalf of College students, makes student activity fee decisions, and recognizes student organizations that are directly associated with College students.

STUDENT PROGRAMMING COUNCIL

The mission of the Student Programming Council ([http://students.emory.edu/SPC](http://students.emory.edu/SPC)) is to enrich the Emory community by providing a variety of quality entertainment for the entire university, making the Emory experience as enjoyable as possible. SPC signature events include: Homecoming Week, Fall and Spring Band Parties, Dooley's Week, and SPC with Love events!

RESIDENCE HALL ASSOCIATION

The Residence Hall Association ([http://www.emory.edu/HOUSING/ABOUTUS/rha.html](http://www.emory.edu/HOUSING/ABOUTUS/rha.html)) provides guidance, education and social programming for residence hall students and the community and serves as a medium for communication among residents, administration and the community.

BARKLEY FORUM

Barkley Forum ([http://www.emory.edu/BF](http://www.emory.edu/BF)) is Emory’s nationally ranked intercollegiate debate team and community outreach program. The forum sponsors the Emory National Debate Institute (ENDI) and the Urban Debate League (UDL), an education reform project that has served more than 40,000 students in 19 U.S. cities. The forum cofounded the National Debate Project, a program designed to implement critical thinking and advanced research skills into the national urban secondary school curriculum.

OUTDOOR EMORY

Outdoor Emory ([http://outdooremory.org/](http://outdooremory.org/)) allows students to participate in fun and exciting outdoor recreation and encourages appreciation of and education about the environment. Its pre-orientation trips are an Outdoor Emory tradition.

SPECIAL INTEREST AND ACTIVITY CLUBS

There are more than 375 organizations on campus recognized by the Student Government Association through which students can pursue hobbies or personal interests. These include a diverse array of religious and cultural clubs, service and social concerns organizations, and arts-entertainment and publications-media groups. Additional organizations promote activities related to academics, politics, sports, and diverse avocations. For a complete listing of student organizations, please visit [www.studentorgs.emory.edu](http://www.studentorgs.emory.edu) or the Office of Student Leadership & Service in the Dobbs University Center.

HONOR COUNCIL

The Honor Council, a body of at least ten annually appointed students, has responsibility for investigating and adjudicating all alleged violations of the Honor Code. Students found to have violated the Honor Code are subject to verbal reprimand, written reprimand, F in the course in question, suspension, dismissal, or a combination of these and other sanctions.

TRANSPORTATION & PARKING

Cliff Shuttles provide transportation throughout campus. For additional information and current hours of operation please visit the transportation website ([http://transportation.emory.edu/](http://transportation.emory.edu/)).

Transportation and Parking Services also manage on-campus parking for all faculty, staff and students. More information, including parking locations and costs, can be found on the transportation website.
VEHICLE REGISTRATION

All students operating automobiles at Emory must register with the Parking Office on the Clairmont Campus, immediately after arrival on campus or as soon as the vehicle is acquired. A fee for all students for registering an automobile is charged and subject to change annually.

Resident Emory College first-year students may not drive or park any vehicle on campus.

VOLUNTEERING & SERVICE LEARNING

VOLUNTEER EMORY

Volunteer Emory (http://www.volunteer.emory.edu/) is your one-stop-shop for community service and social justice work. VE student staff members organize weekly service trips to local schools, nonprofits, and parks, as well as plan regional alternative fall and spring break trips. Volunteer Emory also collaborates with other student groups for large-scale service days both on and off campus. Whether you are looking for a one-time service event or for an ongoing social justice project, Volunteer Emory can connect you. Volunteer Emory is a program of the Office of Student Leadership and Service.

ENGAGED SCHOLARSHIP AND LEARNING AT EMORY

When students first arrive at Emory, they typically feel excited about the intellectual journey ahead but sometimes also feel a little anxious. They may be unsure about what to study, what careers to pursue, or even how to make sense of the world around them. Students may wonder how their classroom learning and scholarly studies relate to the real world or how their college education will prepare them for fulfilling lives once they graduate.

At Emory College, students can choose from a variety of classes, fellowships, internships, and service and research programs that place them in real-world settings, where they learn marketable skills while making valuable contributions to improving local, national, and even international communities. As engaged scholars students can explore career options, connect with diverse populations, and grow intellectually and emotionally.

CENTER FOR COMMUNITY PARTNERSHIPS (CFCP)

Created by the Office of the Provost in 2000, the Center for Community Partnerships (http://oucp.emory.edu/) is Emory's centralized resource for integrating teaching, research, and service to benefit the Atlanta community. Through academic courses, research programs, and service projects, CFCP connects community groups, organizations, and agencies to Emory faculty, staff, and students who can assist them in addressing a specific concern or need. CFCP also promotes scholarship in the public interest by mobilizing and focusing Emory's intellectual capital on issues of critical importance to the metro Atlanta region. For more information about these programs, visit the website or call 404.712.9893.

EMORY SCHOLARS PROGRAM

This program offers Emory Scholars a range of opportunities to connect scholarship with service, including summer internships, study abroad, and volunteer opportunities. Whether individually or in groups, scholars also can become involved in the metro Atlanta arts community by attending ticketed cultural events. Scholars may be reimbursed for a maximum of five events per semester, up to $20 per ticket.

For more information please visit the website or call 404.727.9297.

CENTER FOR ETHICS
The Center For Ethics (http://ethics.emory.edu/) strives to ignite moral imagination, to deepen knowledge of ethics, and to encourage lives of moral meaning and ethical practice throughout the Emory community. The center frequently collaborates with campus organizations and University departments to host public events exploring pressing ethical issues.

### CENTER FOR SCIENCE EDUCATION

The Center for Science Education (http://www.cse.emory.edu) connects students in the sciences with enriching opportunities to teach and mentor K-12 students about scientific concepts. By sharing their own love of the sciences through a series of problem-based learning exercises, Emory's emerging science scholars help nurture a new generation of scientists and mathematicians. The Center also offers career information for students and curriculum resources for instructors.

Learn about classes and summer programs at the website or call 404.712.9242.

### CARTER CENTER

The Carter Center (http://www.cartercenter.org/), in partnership with Emory, advances peace and health worldwide. Under the leadership of former President Jimmy Carter, a University Distinguished Professor, and Rosalynn Carter, the center brings to campus a wide range of international scholars and world leaders. The Jimmy Carter Library and Museum contains more than twenty-seven million documents, photographs, films, and mementos of the Carter Presidency.
