**ABOUT EMORY COLLEGE** 

Emory College of Arts and Sciences combines the **personal engagement** and **excellent teaching** of a traditional liberal arts college with the ground-breaking scholarship and resources of a **major research university**.

Our diverse, ethically engaged, and inquiry-driven community seeks to transform the world through leadership in research, teaching, and service. Our mission is supported by an internationally recognized faculty, dynamic staff, and superb facilities that adopt the latest innovations in technology and environmental sustainability.

Nearly 40% of College students have some international experience by graduation, placing Emory among the top U.S. research universities for study abroad. Emory College faculty have published more than 750 books and have been distinguished recipients of the Pulitzer Prize, the National Humanities Medal, and the National Book Award. Through participation in interdisciplinary research centers across campus, College faculty bridge traditional barriers between the disciplines and work together to advance the frontiers of knowledge.

#### COLLEGE PROFILE

Emory College of Arts and Sciences combines the personal concern of a small, liberal arts college with the rich diversity of a major, urban university.

The oldest and largest division of Emory University, Emory College of Arts and Sciences has provided instruction in the arts and sciences to talented, highly motivated students for more than 165 years. Today its faculty of some four hundred offers more than twelve hundred courses to nearly five thousand students drawn from every section of the United States and many foreign countries.

The College offers students off-campus opportunities to participate in a wide

range of internship programs or to study abroad, including the Bobby Jones Scholars Program with St. Andrews University in Scotland.

Emory College of Art and Sciences resources are enriched by those of Emory University, a research university comprising

- Oxford College, a two-year college located in Oxford, Georgia;
- the Graduate School of Arts and Sciences;
- and the schools of business, law, medicine (including the allied health programs), nursing, public health, and theology.Most
  members of the college faculty also teach in graduate or professional programs. Emory University is a community of
  scholars where undergraduates, graduate and professional students, faculty, and staff benefit from the presence of each
  other as well as from the presence on or near campus of the
- United States Centers for Disease Control and Prevention,
- The Carter Center of Emory University and the Jimmy Carter Library and Museum,
- Yerkes National Primate Research Center, and
- the national headquarters of both the American Cancer Society and the American Academy of Religion.

Emory is expanding its international programs and opportunities to rise to the challenge of globalization. This effort underscores the University's conviction that a liberal arts education in the twenty-first century must embrace global perspectives and enhance crosscultural understanding. Emory is committed to training its students to pursue their professions and live their lives in a world that is fast becoming a global neighborhood. Emory College requires courses on foreign language and international and comparative issues; the other schools have strong international and global components in their curricula. A growing number of international scholars are teaching and conducting research at Emory; professors from Emory are pursuing scholarly research and service abroad, and their students gain from their experiences, insights, and broadened perspectives. The enrollment of international students is rising. Emory faculty and students are participating in The Carter Center action programs in developing countries. Mutually beneficial linkage agreements with foreign universities present challenging opportunities. Substantial new funding is stimulating exciting initiatives in global education.

Emory College offers a variety of study abroad opportunities through exchange agreements, Emory study abroad programs, and programs run by other institutions. While earning direct Emory credit in most academic disciplines, students can study in most parts of the world, including: Argentina, Australia, Austria, Bolivia, Botswana, Brazil, Chile, China, Costa Rica, Czech Republic, Egypt, France, Germany, Greece, India, Israel, Italy, Japan, Kenya, Korea, Namibia, Portugal, Russia, South Africa, South Pacific, Spain, Turkey and the United Kingdom. The Center for International Programs Abroad advises students about studying abroad and works with college faculty to develop and administer academic year, semester, and summer study abroad programs designed specifically for Emory undergraduates.

Among the centers for specialized research and study at Emory are the Graduate Institute of the Liberal Arts; The Carter Center of Emory University; the Emory Center for International Studies; the Center for Ethics in Public Policy and the Professions; the Center for Research in Faith and Moral Development; and the Michael C. Carlos Museum. Independent affiliates include the National Faculty of Humanities, Arts, and Sciences and the Georgia Humanities Council.

To qualify for baccalaureate degrees, students of Emory College must fulfill distribution requirements that ensure both basic competency in essential skills and a general knowledge of each of the major areas of human inquiry, and they must fulfill major requirements that ensure a command of the area of inquiry of most interest to them. Since these requirements permit flexibility and also reserve a substantial portion of each course of study for free electives, students work with faculty and student advisers to fashion programs that fit their individual interests. In this way Emory not only prepares students to face demanding tasks and complex problems but also introduces them to the full range of human achievement and aspiration in the hope of deepening their most searching questions and intensifying their resolve to attain their life goals.

To encourage full participation in its programs, Emory College encourages students to partake of an active residential life on campus. The college's commitment to campus residence reflects its conviction that largeness of mind and spirit may be learned in dormitories and concert halls, on stages and playing fields, as well as in classrooms, laboratories, and libraries. Students are, therefore, encouraged to participate in cocurricular activities that range from lectures, colloquia, and symposia, to concerts, exhibits, and plays, to intercollegiate and intramural sports, to scores of social clubs, civic organizations, and religious groups.

Although the college faculty is deeply committed both to discovering knowledge through scholarship and research and to communicating it through teaching, it also values informal interaction with students through advising programs and cocurricular activities. Students who become members of the Emory community should expect, therefore, to meet challenges in a variety of contexts and to learn from other students as well as from the faculty and staff.

Members of the college also join members of other divisions of the University in bringing distinguished guests for comprehensive symposia or consultations on themes of common interest. The Carter Center of Emory University regularly sponsors major consultations. Topics have focused on the Near East, national health policy, arms control and international security, reinforcing democracy in the Americas, global health, the Middle East, and women in the Constitution.

Surrounded by a hilly residential section of Atlanta called Druid Hills, the Emory campus combines natural beauty with historic interest. Peavine Creek, a branch of Peachtree Creek, winds through the campus. Flowering shrubs—azaleas, dogwoods, and redbuds—abound; and towering trees—magnolias, maples, oaks, and pines—provide shade. Several buildings on the main quadrangle are listed in the National Register of Historic Places, and several markers on the campus commemorate historic events.

A few miles south and west of the campus, the center of Atlanta bustles with activities stimulated by government, business, and transportation as well as research, education, and culture. A contemporary city of energy and charm, Atlanta has increasingly gained national and international prominence. This was highlighted by its selection as the host of the 1996 Olympic Games. It is the home of some twenty colleges and universities, including Agnes Scott College, the Atlanta College of Art, Clark Atlanta University, the Georgia Institute of Technology, Georgia State University, Morris Brown College, Morehouse College, Oglethorpe University, and Spelman College. Several professional sports teams are based in the city. Opera and theater have been strong since the opening of DeGive's Opera House in 1893.

Today Atlanta's Woodruff Arts Center includes the High Museum of Art and the Alliance Theatre as well as the Atlanta Symphony and Chorus.

Located more than one thousand feet above sea level, Atlanta offers four distinct seasons. A few hours north of the city, students hike on the Appalachian Trail, canoe and raft on the Chattooga, Chestatee, and Hiawassee rivers, or ski on Sugar Mountain. East and south, they swim and sun on the coasts of South Carolina, Georgia, and Florida. Through organizations such as Volunteer Emory, the college encourages students to explore the city of Atlanta and the region surrounding it and to contribute to the lives of other people—its hope being that the education and the lives of all of its students will be enriched both by their human and civic concerns and by their work and play.

Emory University is accredited by the <u>Southern Association of Colleges and Schools Commission on Colleges</u> to award associate, baccalaureate, master's, doctorate, and professional degrees. Contact the Southern Association of Colleges and Schools Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097 or call 404-679-4500 for questions about the accreditation of Emory University.

#### MISSION STATEMENTS

#### UNIVERSITY MISSION STATEMENT

#### Emory University's mission is to create, preserve, teach, and apply knowledge in the service of humanity.

To fulfill this mission, the University supports the full range of scholarship, from undergraduate to advanced graduate and professional instruction, and from basic research to its application in public service. While being a comprehensive research university, Emory limits its academic scope to those fields in which, by virtue of its history and location, it can excel. Hence its academic programs focus on the arts and sciences, business, law, theology, and the health professions. These disciplines are unified by their devotion to liberal learning; by cooperative interdisciplinary programs; and by the common pursuit of intellectual distinction.

The Emory community is open to all who meet its high standards of intelligence, competence, and integrity. It welcomes a diversity of ethnic, cultural, socioeconomic, religious, national, and international backgrounds, believing that the intellectual and social energy that results from such diversity is a primary asset of the University.

In keeping with the demand that teaching, learning, research, and service be measured by high standards of integrity and excellence, and believing that each person and every level of scholarly activity should be valued on its own merits, the University aims to imbue scholarship at Emory with

- A commitment to humane teaching and mentorship and a respectful interaction among faculty, students, and staff;
- Open disciplinary boundaries that encourage integrative teaching, research, and scholarship;
- A commitment to use knowledge to improve human well-being; and
- A global perspective on the human condition.

The University, founded by the Methodist Episcopal Church, cherishes its historical affiliation with the United Methodist Church. While Emory's programs are today entirely nonsectarian (except for those at the Candler School of Theology), the University has

derived from this heritage the conviction that education can be a strong moral force in both society and the lives of its individual members.

### COLLEGE MISSION STATEMENT

The scholarly mission of Emory College involves research and creativity, teaching, and service.

As an institution dedicated to **intellectual discovery and creativity**, Emory College is charged both with generating new knowledge and with inventing new ways of understanding what is already known. Faculty, administrators, and students cooperate to expand the boundaries of the known through

- research and experimentation,
- creation and performance,
- publishing the results of their efforts for the general advancement of learning and the betterment of the human prospect.

As a **teaching** institution, Emory College imparts to its students the kinds of knowledge that traditionally compose a broad liberal education:

- practical skills in critical thinking and persuasive writing, in mathematics and computation, in a foreign language;
- a basic familiarity with modes of inquiry proper to natural science and mathematics, to the social sciences, and to the arts and humanities; and
- a mature command of at least one discipline or field of concentration.

Through instruction that aims to be the symbiotic complement of research, Emory College prepares its graduates to live an active life of the mind, aware of their responsibilities to assume a part in the intellectual leadership of the nation.

As an institution responsive to the various **communities** of which it is a member, Emory College acknowledges a commitment to service in its local community, in the national and international academic community, and in the nation as whole.

Each aspect of this threefold mission must be carried forward in an atmosphere of intellectual and moral integrity, one of habitual regard for the ethical dimensions of research and creativity, teaching, and service.

#### COLLEGE STATEMENT ON DIVERSITY

Emory College of Arts and Sciences is committed to valuing difference and ensuring that the students, faculty, staff, and administrators are diverse in ethnicity, gender, religion, philosophy, sexual orientation, and physical ability. At the same time, we are unified in the goal of achieving academic excellence, preparing for life and work in a global society. We strive to offer multicultural and gender-balanced education in the curriculum, instruction, and services that address learning and physical disabilities and support for staff and faculty development.

#### UNIVERSITY ENVIRONMENTAL MISSION STATEMENT PRECIS

We, the Emory University community, affirm our commitment to protect and enhance the environment through our teaching, research, service, and administrative operations. We seek to foster a community that sustains ecological systems and educates for environmental awareness, local action, and global thinking. We seek to make environmentally sound practices a core value of the University.

#### COLLEGE HISTORY

GARY S. HAUK 91PHD VICE PRESIDENT AND DEPUTY TO THE PRESIDENT

#### Cor Prudentis Possidebit Scientiam: "THE WISE HEART SEEKS KNOWLEDGE." -EMORY UNIVERSITY MOTTO, PROVERBS 18:15

In 1836, when the Cherokee nation still clung to its ancestral lands in Georgia, and Atlanta itself had yet to be born, a small band of Methodists dedicated themselves to founding a new town and college. They called the town Oxford, linking their little frontier enterprise with the university attended by the founders of Methodism, John and Charles Wesley. The college they named Emory, after an American Methodist bishop who had inspired them by his broad vision for education that would enhance the character as well as the mind of men and women.

From its beginning, Emory has sought to preserve and carry forward the ideals of the nineteenth-century public spirit out of which Emory and other colleges had their beginnings. These ideals owed much to the peculiarly American blend of hope for a perfect future, democratic conviction about the importance of individuals, and progressive reform of educational curricula. That philosophy has shaped a university that aims to nurture moral imagination as well as critical intellect and aesthetic judgment.

On December 10, 1836, the Georgia legislature granted a charter to Emory College, named for the young Methodist bishop John Emory, from Maryland, who had died in a carriage accident the previous year. Not until two years after the chartering would the College open its doors, and on September 17, 1838, the College's first president, Ignatius Alphonso Few, and three other faculty members welcomed fifteen freshmen and sophomores. They hailed from as far away as Charleston, South Carolina, and they included a future Emory president, Osborn L. Smith, and a future member of the faculty, George W. W. Stone.

In retrospect, the mission of the nineteenth-century college appears to have been to rein in the spirit as much as to expand the mind. Certainly that was true at Emory. Students had to be in their rooms during study hours and could not go beyond the town limits more than a mile without the president's consent. Signing their names into the Matriculation Book, the earliest students bound themselves to obey the "Laws and Statutes of the College." Despite the watchful attention of their "guards," students often found ways to work up enough mischief for the faculty to put them on probation, even to expel them. Covington, an apparent seedbed of temptation, provided the allure of taverns and traveling shows.

Other social outlets proved more harmonious with the academic tenor of the campus. Two principal venues for student gatherings were Phi Gamma Hall and Few Hall, named for the two literary societies that brought students together for sharing meals, preparing their lessons, and talking about matters of the intellect. A keen competitiveness developed between the two societies, leading to a tradition of debate that permeated the campus, and laying the groundwork for Emory's national preeminence in debate-a tradition carried forward since 1955 in the Barkley Forum.

Athletics, too, has had an important place at Emory for well over a hundred years-although Emory has never played intercollegiate football and still proudly proclaims, under the emblem of a football on T-shirts, "Undefeated Since 1836." For many years, going back to the presidency of Warren Candler in the 1890s, Emory prohibited intercollegiate sports. His principal objection was the cost of intercollegiate athletics programs, the temptation to gambling, and the distraction from scholarship. Candler was not unalterably opposed to athletics, however. During his presidency he oversaw the creation of the nation's first model intramural program. In spirit the program made it possible for every student to participate in athletics, and this possibility became at Emory a guiding principle-"Athletics for All."

In time, the Board of Trustees modified its position on intercollegiate sports by reaffirming the ban on major sports-football, basketball, and baseball-but allowing the possibility of competition in others. Soon Emory was competing in soccer, swimming, tennis, track and field, and wrestling, and in 1985 Emory helped to found the University Athletic Association, a league of Division III members that stresses academics first. Emory's intercollegiate programs regularly rank among the top ten NCAA Division III programs in the country and graduate more academic all-Americans than any other university in Division I, II, or III.

For the first half-century of its life Emory struggled for existence, clinging to a tenuous financial lifeline. When war broke out between North and South in 1861, every student left to fight, and the College's trustees closed the College for the duration. When

Emory reopened in January 1866, three faculty members (including President James Thomas) returned to a campus whose buildings had been used for military hospitals and whose libraries and equipment had been destroyed.

By the turn of the twentieth century, Emory's curriculum had evolved from a traditional liberal arts program dependent on rote memorization and drill, to become broad enough for students to earn degrees in science, to study law or theology, and even to pursue learning and expertise in technology and tool craft. President Isaac Stiles Hopkins, a polymath professor of everything from English to Latin and Math, had launched a department of technology that struck the fancy of state legislators, and soon enough they were luring him away from Emory to become the first president of what is now the Georgia Institute of Technology.

Still, the sleepy little town of Oxford offered little advantage to a college whose trustees might have their visions set on higher aspirations. By happenstance, the road from Oxford to Atlanta was paved by Vanderbilt University. In 1914, following a protracted struggle between the Vanderbilt University Board of Trust and the bishops of the Methodist Episcopal Church, South, over control of the university, the church severed its long relationship with Vanderbilt and made plans to create a new university in the Southeast. Asa Candler, the founder of The Coca-Cola Company and brother to former Emory President Warren Candler, helped the church decide that the new university should be built in Atlanta. Writing to the Educational Commission of the church on June 17, 1914, Candler offered \$1 million and a subsequent gift of seventy-five acres of land.

Emory College trustees agreed to move the college to Atlanta as the liberal arts core of the university. Those seventy-five acres, about six miles northeast of downtown Atlanta, lay in pasture and woods amid Druid Hills, a parklike residential area laid out by landscape architect Frederick Law Olmstead, the designer of New York City's Central Park. Within a year marble buildings were under construction out in the Druid Hills, and within four years-by September 1919-Emory College had joined the schools of theology, law, medicine, business, and graduate studies at the University's muddy new campus.

The course of Emory's history changed dramatically and forever when, in November 1979, Robert Woodruff, an Emory alumnus and former Coca-Cola chairman, and his brother, George, transferred to Emory \$105 million in Coca-Cola stock (worth nearly one billion dollars in 2005). At the time the largest single gift to any institution of higher education in American history, the Woodruff gift made a profound impact on Emory's direction over the next two decades, boosting the University into the top ranks of American research universities. In the quarter-century since, Emory has built on its considerable strengths in the arts and humanities, the health sciences, and the professions, through strategic use of resources.

The small community of scholarship founded in Oxford has grown, but Emory's growth in research has in no way diminished the insistence on great teaching by the faculty. The 1997 report of the University Commission on Teaching reaffirmed Emory's historical emphasis on the high quality of teaching at all faculty levels and in all schools and recommended various means of support to ensure the perpetuation of this great tradition.

Since September 2003 the University has undertaken to refine its vision for its future and to develop a strategic plan for how to get there. The Vision Statement calls for Emory to be

"a destination university internationally recognized as an inquiry-driven, ethically engaged, and diverse community, whose members work collaboratively for positive transformation in the world through courageous leadership in teaching, research, scholarship, health care, and social action."

This vision harmonizes with Emory's heritage, which has blended the pursuit of truth with a commitment of service to the wider community. As summed up by Emeritus Professor James Harvey Young in an earlier history of Emory, the University has sought, throughout its life, "to make the chief ends of teaching and learning not simply the advancement of scholarly knowledge and professional expertise but also the cultivation of humane wisdom and moral integrity." True to this commitment, Emory continues to shape an education for the twenty-first century that will enable the wise heart to seek knowledge for service to the world.

MARTA information

404.848.5000

Atlanta's mass transit system is MARTA, which operates a coordinated system of bus and train lines around much of the Atlanta area. The Emory campus is accessible from the Lindbergh MARTA station, and from the Inman Park station via the #6-Emory bus, or from the Arts Center station and the Avondale station on the #36-North Decatur bus. Also, the #245 "Blue Flyer" Kensington/Emory express bus serves Emory from the Lindbergh and Kensington stations.

For the Clairmont Campus, take the #19-Clairmont bus from the Brookhaven or Decatur stations.

Coming from the airport, take any train northbound to the Lindbergh MARTA station, and take the #6-Emory bus to the Emory campus. Ask the bus driver to stop in Emory Village near the Emory main entrance.

Principles of genetics, physiology, ecology, taxonomy, and evolution with special reference to contemporary life situations. Intended for non-science majors. This course does not fulfill requirements for medical and dental schools or for a biology major. Credit Hours: 4. General Education Requirements: SNTL.

Major topics include: biomolecules, cell structure and function, energy metabolism, and cell reproduction. Fulfills biology major and pre-health requirements. Note: students receiving credit for Biol 141 must still take Biol 141L. Credit Hours: 3. General Education Requirements: SNT.

Introduces students to scientific inquiry in the laboratory. Students design, implement, analyze and present authentic research projects. Along with Biology 141, 142 and 142L, meets the requirement for medical and dental school and the biology major. Credit Hours: 2. General Education Requirements: SNTL. Requisites: BIOL 141 coreq./CHEM 141 prere.

Major topics include: molecular genetics, population genetics, genomics, evolution, gene expression regulation, signal transduction, cancer and development. Credit Hours: 3. General Education Requirements: SNT. Requisites: BIOL 141/141L as Pre/Co-req.

Students experience scientific inquiry in the laboratory. Students design, implement, analyze and FOUND. OF MODERN BIOL present authentic research projects. Credit Hours: 2. General Education Requirements: SNTL. **Requisites:** BIOL 142 as a corequisite.

> Biology 151 and 152 are a research-based, lab-focused sequence for the incoming student especially experienced and interested in basic research and in science in societal context. Credit Hours: 4. General Education Requirements: None.

Permission of instructor. Focuses on organismal physiology and development, behavior, and ecology. Advanced readings, inquiry-based labs, and discussion of current research will challenge the advanced student. Credit Hours: 4. General Education Requirements: None. Requisites: Biol 151 as Prerequisite.

For non-majors, this course is designed to provide undergraduate students with an understanding of those elements of the biological and biomedical sciences, ecology, evolutionary biology, and applied BIOLOGY FOR THE PEOPLE statistics that are of direct importance to their lives as individuals and as citizens. Credit Hours: 3. General Education Requirements: SNT.

> A course on topics of special biological interest, designed for non-majors. This course is repeatable when the topic varies. Credit Hours: 1 - 4. General Education Requirements: SNT.

Freshmen only. Variable topics. Credit Hours: 3. General Education Requirements: FSEM.

This course will prepare students for a future laboratory or field research experience. Students will be introduced to the scientific research process. Emphasis will be on the use of scientific literature, planning a research project, preparing a proposal, and scientific writing/rewriting. Credit Hours: 3. General Education Requirements: None.

Comparative studies of phylogeny and anatomy of vertebrates from both an evolutionary and functional perspective. Cat and shark dissected in laboratory. Credit Hours: 5. General Education Requirements: None. Requisites: BIOL 142/142L or BIOL OX 142.

Protozoan, helminthic, and arthropod parasites of medical significance. Topics addressed include basic principles of parasitology, evolutionary trends, host-parasite ecological considerations, therapeutic measures, and control programs. Credit Hours: 4. General Education Requirements: None. Requisites: BIOL 142/142L or BIOL\_OX 142.

Topics will include plant structure, function, growth, development, physiology, and systematics. **BIOL 210** Evolutionary relationships within the plant kingdom will also be emphasized. For science majors. PLANT BIOLOGY WITH LAB Credit Hours: 4. General Education Requirements: None. Requisites: BIOL 142/142L or 152 prereq.. Computation is one of the pillars of modern science, in addition to experiment and theory. In this **BIOL 212** course, various computational modeling methods will be introduced to study specific examples COMP.MODEL.SCIENT.& derived from physical, biological, chemical and social systems. Credit Hours: 4. General Education ENGINEERS Requirements: SNT. Crosslisted Courses: PHYS 212: Comp.Model.Scient.& Engineers. How does a single cell embryo develop into a fully functional adult organism? We will examine the **BIOL 223** basic principles underlying development at the cellular, molecular, and organismal levels. Topics DEVELOPMENTAL covered will include body plan development, examples of organogenesis and cell differentiation. BIOLOGY Credit Hours: 3. General Education Requirements: None. Requisites: BIOL 142/142L or BIOL\_OX 142. How does an organism go from a single cell to a fully patterned embryo and how does a tissue **BIOL 224** regenerate after damage? This course will use a combination of and lecture and lab work to examine EXPERIMENTAL DEV. fundamental mechanisms and principles that govern early embryonic development and tissue BIOLOGY regeneration. Credit Hours: 3. General Education Requirements: None. Requisites: BIOL 142 as prerequisite. **BIOL 240** Major topics include the biology of animals and plants, physiology, evolution, and ecology. Credit ORGANISMAL FORM AND Hours: 3. General Education Requirements: None. Requisites: BIOL 141 as Prerequisite. **FUNCTION** A study of the factors that cause genetic change and of the evolutionary consequences of such **BIOL 241** changes. Topics include population genetics, adaptation and natural selection, evolution of genes, EVOLUTIONARY BIOLOGY proteins and genomes, sexual selection, kin selection, speciation, and diversification of taxa. Credit Hours: 4. General Education Requirements: None. Requisites: BIOL 142/142L PREREQ #788. This course provides an overview of the principles of ecology and the study of relationships between organisms and their environment. Processes and properties of individuals, populations, communities, **BIOL 247** and ecosystems will be emphasized. Lectures will emphasize active and collaborative learning. Credit ECOLOGY Hours: 3. General Education Requirements: None. Requisites: BIOL 142/142L or BIOL OX 142. Crosslisted Courses: ENVS 247: Ecology. This is the laboratory portion of the Ecology class. Field studies will be conducted in various natural areas in Georgia, including a weekend trip to the mountains. Pre- or corequisite: Biology/ENVS 247. BIOL 247L (This course meets the upper-level laboratory requirement for the biology major.) Credit Hours: 2. ECOLOGY LABORATORY General Education Requirements: None. Requisites: BIOL142 & 247as a Prerequisite. Crosslisted Courses: ENVS 247L: Ecology Laboratory. This is the laboratory portion of the Ecology class. An integrated approach to the synthesis, structure, and function of macromolecular biomolecules, including proteins, carbohydrates, DNA, and RNA. First half of a two-semester biochemistry sequence. **Credit Hours:** 3. **General Education Requirements:** SNT. **Requisites:** BIOL 142/142L & CHEM 203/221.

Prerequisites: Biology/Chemistry 301, Chemistry 222, Biology 141. Topics will include nitrogen and fatty acid metabolism, glycolysis, and respiration. The evolution of the pathways associated with these processes will be explored. **Credit Hours:** 3. **General Education Requirements:** SNT. **Crosslisted Courses:** CHEM 302: Biochemistry II.

The course focuses on the key methods adopted in the study of ancient DNA, such as next generation sequencing and population genetics, as well as a thematic approach to the major evolutionary questions. Topics include human migrations, archaic humans, domestication, and ancient pathogens. **Credit Hours:** 3. **General Education Requirements:** SNT. **Crosslisted Courses:** ANT 315: Ancient DNA & Human Evolution.

Structure and function of animal behavior from a comparative, evolutionary perspective. **Credit Hours:** 3. **General Education Requirements:** SNT. **Requisites:** BIOL 142/142L or BIOL\_OX 142. **Crosslisted Courses:** PSYC 320: Animal Behavior.

Recent progress in the field of primate social behavior, particularly the role of cognition in complex social strategies. **Credit Hours:** 3. **General Education Requirements:** SNT. **Requisites:** PYSC 110/BIOL 142. **Crosslisted Courses:** PSYC 325: Primate Social Psychology.

Emphasizes basic principles of coastal ecology, human impact on coastal ecosystems, and the diversity of organisms living in these ecosystems. The course involves an eight-day laboratory/field trip to St. Simons Island, Georgia and other Georgia Sea Islands over Spring Break. **Credit Hours:** 4. **General Education Requirements:** None. **Requisites:** BIOL 142/142L or 152 prereq..

Examine the world including issues around natural and unnatural molecules, disease and society in the context of topics like drugs, molecules for Mars, aging, AIDS, bioterrorism, and crime in the courtroom using computer graphics, the molecular structure of small molecules and proteins, and energy. **Credit Hours:** 3. **General Education Requirements:** SNT. **Requisites:** CHEM 222/172 as Prereq. **Crosslisted Courses:** CHEM 330: Chem Bio & Molecular Modeling.

A study of human physiology emphasizing integrated body functions. Topics include respiration, circulation, contractility, osmoregulation, endocrinology, and neurophysiology. **Credit Hours:** 3. **General Education Requirements:** None. **Requisites:** BIOL 142/142L or 152 prereq..

Human health is intrinsically linked to dietary practices. The pharmacological properties of foods will be examined and case studies of dietary complexes will be examined in order to better understand the food-medicine continuum as a determinant of health and well-being. **Credit Hours:** 3. **General Education Requirements:** None. **Crosslisted Courses:** HLTH 340: Food, Health, and Society, ANT 349: Food, Health, and Society.

Students will learn evolutionary biology through the use of experimental evolution, real-time evolution in the laboratory. In addition to exploring primary literature, this is a laboratory course in which students will design and execute projects to actively test evolutionary theory in the lab. **Credit Hours:** 3. **General Education Requirements:** SNTL. **Requisites:** BIOL 142 or BIOL\_OX 142 prereq.

This course focuses on the conservation of biodiversity and introduces students to ways that ecological and evolutionary principles can be used to conserve and protect species and ecosystems at risk. **Credit Hours:** 3. **General Education Requirements:** SNT. **Requisites:** ENVS 131, BIOLOX111, BIOL 142. **Crosslisted Courses:** ENVS 345: Conservation Biology.

Experiments involve analysis and characterization of the major classes of biological compounds. **Credit** Hours: 2. General Education Requirements: None. Requisites: BIOL142/301,CHEM301 as prereq. **Crosslisted Courses:** CHEM 346L: Biomolecular Chemistry.

Research on the ecology of infectious diseases has increased tremendously, fueled by challenges to global human health and ecological conservation as well as advances in theory and molecular technologies. This course introduces major issues and advances in the ecology of infectious diseases. **Credit Hours:** 4. **General Education Requirements:** None. **Requisites:** BIOL 142/142L and QTM 100.

A survey of current topics in neural development and neural basis of behavior. Emphasis is on research work that uses a combination of physiological, genetic, cellular, and molecular techniques to understand neural systems and their evolution and development. **Credit Hours:** 3. **General Education Requirements:** None. **Requisites:** BIOL 142/CHEM 141 PreReq.

This course will familiarize students with principles of ecological invasions and methods for assessing the spread and impacts of invasive species on a global scale. Students will also become familiar with major sources of exotic species introductions and methods available for prevention and control. **Credit Hours:** 4. **General Education Requirements:** None. **Requisites:** ENVS 131, BIOLOX111, BIOL 142. **Crosslisted Courses:** ENVS 349: Ecology of Invasions.

Epigenetics is the study of heritable characteristics not caused by changes in DNA sequence, but rather induced by non-genetic factors that alter gene expression and are dependent on time and location. The course explores epigenetics and its relation to normal development and disease. **Credit Hours:** 3. **General Education Requirements:** None. **Requisites:** BIOL 142 & BIOL 264 as prereq..

This course will study the fundamental principles and methodology of quantitative genetics and expose students to current primary literature on current genetic analyses of complex traits such as human diseases. **Credit Hours:** 3. **General Education Requirements:** None. **Requisites:** BIOL 142 & BIOL 241 prereq..

This course will study the origins and evolution of the immune system from different fields such as immunology, molecular biology, and evolution. **Credit Hours:** 3. **General Education Requirements:** None. **Requisites:** BIOL 142/142L or 152 prereq..

This course covers the fundamentals of time series analysis in both the natural and social sciences, utilizing analytical, statistical, and numerical approaches. We will focus on the application of these methods to complex, real world data from medicine, economics, geology, and other fields. **Credit Hours:** 3. **General Education Requirements:** None. **Crosslisted Courses:** QTM 355: Intr. to Time Series Analysis.

Includes electrochemical and biophysical mechanisms for neuronal signaling, synaptic transmission, and neural bases of behavior and perception. GER Note: This course and BIOL360L satisfies half of SNTL requirement. This course w/o BIOL360L will award half of SNT only. **Credit Hours:** 3. **General Education Requirements:** SNT. **Requisites:** BIOL 142/CHEM 142 as prereq.. **Crosslisted Courses:** NBB 301: Introduction To Neurobiology.

This course will explore topics in cellular and small network neuroscience by performing virtual electrophysiology experiments on the computer. The content matches the material covered in Biology 360/NBB 301 and will help students understand neurons and neuronal networks in greater depth. Credit Hours: 2. General Education Requirements: SNTL. Requisites: BIOL 142/360 as Prerequisite. Crosslisted Courses: NBB 301L: Neurobiology Simulation Lab.

Introduction to paleoecology and paleoecological methods. Includes geological and paleontological evidence for marine, freshwater, and terrestrial ecosystems from past 600 million years; interpreting how ecosystems evolved; comparing ancient ecosystems with modern analogues. Credit Hours: 3. General Education Requirements: None. Crosslisted Courses: ENVS 361: Ecosystems Through Time.

This course examines topics in science and technology that stir public controversy. Examples are human cloning, genetically modified organisms, nuclear power, human-caused global warming, evolution, etc. Topics are examined by exploring the arguments of stakeholders through group discussion. Credit Hours: 3. General Education Requirements: None. Requisites: BIOL 142/142L or 152 prereq..

Introduction to the concepts of microbial physiology, biochemistry, genetics, and evolution. Credit Hours: 4. General Education Requirements: None. Requisites: BIOL 142/142L or BIOL\_OX 142.

Introduction to basic laboratory techniques in microbiology. Experiments dealing with the physiology, biochemistry, genetics, and molecular biology of microbes will be included. (This course meets the upper-level laboratory requirement and will count as elective credit for the Biology major.) Credit Hours: 2. General Education Requirements: None. Requisites: BIOL 142/370 as a Prerequisite.

Explores the diverse biomes of the tropics. Focus will be on tropical forests and grasslands, with an emphasis on ecological processes, biodiversity, human impact in the tropics, indigenous peoples, and ECOLOGY OF THE TROPICS ethnobotany. Credit Hours: 2. General Education Requirements: None. Requisites: ENVS 131, BIOLOX111, BIOL 142. Crosslisted Courses: ENVS 371: Ecology of the Tropics.

Permission required. This is the field course to accompany the lecture course on tropical ecology. Field ECOLOGY OF THE TROPICS trip will take place during the spring recess. Credit Hours: 2. General Education Requirements: None. Requisites: ENVS 371, BIOL 371. Crosslisted Courses: ENVS 372: Ecology of the Tropics Field.

> Lectures and readings focus on the diversity, structure, and conservation of marine ecosystems, including experimental and analytic approaches to their study. Discussions of primary literature cover current topics such as biological invasions, disease, climate change, and marine protected areas. Credit Hours: 3. General Education Requirements: None. Crosslisted Courses: ENVS 373: Marine Ecology.

This course will explore coastal and near-shore tropical marine ecosystems including mangroves and coral reefs. Readings will review key concepts of marine ecology with a focus on local ecosystems. Field excursions to local sites will provide opportunities to learn from researchers and managers. Credit Hours: 4. General Education Requirements: None. Requisites: ENVS 131 or BIOL 141 or 142. Crosslisted Courses: ENVS 375: Tropical Marine Ecosystems.

This lecture/field course is designed to give the student a broad view of these two classes of vertebrates (Amphibia and Reptilia). Class topics will include taxonomy, conservation, life histories, special senses and pheromones, biogeography, reproductive strategies, physiology, and behavior. Credit Hours: 4. General Education Requirements: None. Requisites: BIOL 142 or BIOL OX 142 prereq. Crosslisted Courses: ENVS 380: Herpetology.

Prerequisite: Biology 142. Course covers human genome projects. Geared toward developing independent thinking through solving human genetic problems and critically reviewing literature on human diseases. Credit Hours: 3. General Education Requirements: None. Requisites: BIOL 142/142L or 152 prereq..

The course explores physical and statistical constraints on strategies used by biological systems, from bacteria, to large organisms, and to entire populations, to sense external environmental signals, process them, and shape a response. Credit Hours: 3. General Education Requirements: None. Requisites: BIOL/PHYS 212 & PHYS 220. Crosslisted Courses: PHYS 434: Physical Biology.

Functions, evolution, ecology, and significance of animal communication systems in a wide taxonomic range, from insects to primates. Credit Hours: 3. General Education Requirements: None. Requisites: BIOL 142/142L or 152 prereq.. Crosslisted Courses: PSYC 440: Animal Communication.

Functions, evolution, ecology, and significance of animal communication systems in a wide taxonomic range, from insects to primates. Credit Hours: 4. General Education Requirements: WRT. Requisites: BIOL 142/142L or 152 prereq.. Crosslisted Courses: PSYC 440W: Animal Communication.

Course covers population genetics, molecular evolution, and genomics. Geared toward developing independent thinking by solving molecular biology and evolutionary genetics problems in natural populations. Credit Hours: 4. General Education Requirements: None. Requisites: BIOL 142/142L or 152 prereq..

Mankind has long recognized that plants are extremely useful as source of medicine. Medical traditions based on botanical sources are found in all human cultures and date back to prehistory. In this course both ancient and modern day botanical traditions across many cultures will be examined. Credit Hours: 3. General Education Requirements: None. Crosslisted Courses: HLTH 440: Botanical Medicine & Health, ANT 440: Botanical Medicine & Health.

This summer field course will provide students with a hands-on experience in the southern African countries of Namibia and Botswana. Within a conservation biology perspective, students have the FIELD STUDIES: SOUTHERN opportunity to learn about the unique habitats and conservation issues of southern Africa. Credit Hours: 6. General Education Requirements: None. Crosslisted Courses: ENVS 446: Field Studies: Southern Africa.

BIOL 485W SPECIAL TOPICS IN BIOLOGY Microbes shape the world we live in! Come research fungal microbes and their interactions with the environment. Students will propose and carry out the experiment while learning aspects of research, such as data analysis and presenting results to other scientists and to the public. **Credit Hours:** 4. **General Education Requirements:** None. **Requisites:** BIOL 142/142L or BIOL\_OX 142.

Intro to computational neuroscience with an emphasis on biophysical neuronal modeling of single neurons and small networks. Other topics include spike train analysis, dynamical systems analysis, and dimensionality reductions methods. Some Matlab and general programming skills are required. **Credit Hours:** 4. **General Education Requirements:** None. **Requisites:** BIOL360/NBB301/IBS514.

The basic principles of immunology, the causes of pathogenesis during the course of infection with microparasites, and the limitations to the understanding of infectious diseases (such as HIV/AIDS, tuberculosis, and malaria) caused by viruses, bacteria, and unicellular eukaryotes. **Credit Hours:** 4. **General Education Requirements:** None. **Requisites:** BIOL 142/142L or 152 prereq..

Explores our current understanding of the mechanisms that regulate development of the nervous system. Topics covered include neurogenesis, axon guidance, programmed cell death, and synapse formation. **Credit Hours:** 3. **General Education Requirements:** None. **Requisites:** BIOL 142/142L or 152 prereq.. **Crosslisted Courses:** NBB 460: Building Brains.

Application of basic principles of population genetics and population biology to the study of infectious diseases, aging, and cancer. **Credit Hours:** 4. **General Education Requirements:** None. **Requisites:** BIOL 142/142L or 152 prereq..

The purpose of this course is to introduce students (upper level undergraduate) to the fundamental concepts of RNA biology and to state-of-the-art biotechnologies that use RNA for medical and industrial applications. **Credit Hours:** 3. **General Education Requirements:** None. **Requisites:** BIOL 142/142L or BIOL\_OX 142.

This course covers ecology and systems biology of species interactions, with a focus on microbial and microbiome ecology including interactions between microbes and their hosts. This course relies heavily on the primary literature, and a basic familiarity with college-level calculus is recommended. **Credit Hours:** 3. **General Education Requirements:** None. **Requisites:** BIOL142/142L pre.BIOL 370 core.

CHEM 203 ADVANCED REACTIVITY

**CHEM 203L** ADVANCED REACTIVITY LAB Maymester Course. This course will first explore how chemicals can be used to deceive and destroy. Next, scientific techniques used by forensic chemists will be employed to evaluate and interpret evidence from a staged crime scene. New evidence will be presented each day as the mystery unfolds. **Credit Hours:** 4. **General Education Requirements:** None.

This course will examine the science of chemistry using themes that delineate chemistry as a human activity. The broader impact that the practice of chemistry has on society will be emphasized using current, historical, and interdisciplinary topics. **Credit Hours:** 1 - 4. **General Education Requirements:** SNTL.

Fall, summer. Laws and theories of chemistry; atomic and molecular structure, chemical bonding, properties of solutions; qualitative analysis. **Credit Hours:** 4. **General Education Requirements:** SNTL.

Spring, summer. Kinetics, equilibrium, electrochemistry, and chemical properties of metals and nonmetals; quantitative analysis. Credit Hours: 4. General Education Requirements: SNTL. Requisites: Chem 141 as Prerequisite.

This course will build a strong foundation in atomic and molecular structure. It starts with atomic structure and builds to ionic compounds and molecular structure, including stereochemistry and conformation. Students will interpret experimental data to explain structure, properties relationships. **Credit Hours:** 3. **General Education Requirements:** SNT.

CHEM 150L is the first lab for students taking Chemistry at Emory. The lab focuses on experimental practices including experimental design, accuracy and precision, data collection and analysis, and the use of evidence to make conclusions. Experiments will connect structure to properties of matter. **Credit Hours:** 2. **General Education Requirements:** SNTL. **Requisites:** CHEM 150 as co-requisite.

Special topics freshman seminar. Variable content. Please contact the instructor of record for specifics. **Credit Hours:** 3. **General Education Requirements:** FSEM.

CHEM 202 provides a basic understanding of the kinetics and thermodynamics associated with reactions, how these are related to the structures of reactants and products and the pathways between them, and how reactivity can be controlled through choices of reacting molecules and conditions. **Credit Hours:** 3. **General Education Requirements:** SNT. **Requisites:** CHEM 141 or 150 as prereq..

CHEM 202L students will make qualitative determinations based on quantitative data. They will measure and analyze data including reaction rates, Rf values, etc. Lab will culminate in the development of the synthesis of an alcohol and the isolation of compounds, including a natural product. **Credit Hours:** 2. **General Education Requirements:** SNTL. **Requisites:** CHEM 150L prereq/CHEM 202 core.

CHEM 202Z will provide students with a basic understanding of covalent bonding models, the energetics of reactions, and the kinetics and thermodynamics associated with reactions. The course will emphasize how reactivity is related to molecular structure and how reactivity can be controlled. **Credit Hours:** 3. **General Education Requirements:** SNT. **Requisites:** AP score 4 or IB score 5.

CHEM 202ZL students will use molecular modeling to build 3-D chemical structures. They will then prepare an ester derivative, perform a nucleophilic addition, and stusy elimination reactions. Products of these reactions will be analyzed using a variety of instruments (IR, NMR, HPLC, etc.). **Credit Hours:** 2. **General Education Requirements:** SNTL. **Requisites:** AP score 4 or IB score 5.

CHEM 203 will focus on the chemistry of organic and organometallic compounds; specifically how the molecular orbital theory can be used to predict structure and properties. This course covers kinetics, mechanisms, and catalysis. **Credit Hours:** 3. **General Education Requirements:** SNT. **Requisites:** CHEM 202 as prerequisite..

IN CHEM 203L students will be exposed to the practical aspects of working with small molecules, both organic and inorganic. Students will learn to analyze and synthesize compounds and analyze their characteristic properties such as structure, function, size distribution, and purity. **Credit Hours:** 2. **General Education Requirements:** SNTL. **Requisites:** CHEM 202L/ZL prereq 203 coreq.

CHEM 203Z ADVANCED REACTIVITY	CHEM 203Z builds on themes of structure and reactivity established in CHEM 202Z. The course will blend biomolecular, inorganic, and organic elements of reactivity, using molecular orbital theory to predict structure and properties, and introducing modern examples of catalysis and catalytic cycles. <b>Credit Hours:</b> 3. <b>General Education Requirements:</b> SNT. <b>Requisites:</b> CHEM 202Z as prerequisite.
<b>CHEM 203ZL</b> ADVANCED REACTIVITY LAB	Chem 203zL introduces more sophisticated methods for studying the reactivity of compounds. The preparation and structure elucidation of organic and organometallic compounds will be studied in the context of a research lab type setting. <b>Credit Hours:</b> 2. <b>General Education Requirements:</b> SNTL. <b>Requisites:</b> CHEM 202ZL pre/CHEM 203Z coreq.
CHEM 204 MACROMOLECULES	The relationship between sequence, structure, and function of macromolecules. The course will progress from exploring these themes in the context of synthesis, characterization, and utility of simple organic polymers to understanding the properties of complex, chemically diverse biomolecules. <b>Credit Hours:</b> 3. <b>General Education Requirements:</b> SNT. <b>Requisites:</b> CHEM 203 or 222 as prereq
CHEM 204L MACROMOLECULES LAB	The relationship between sequence, structure, and function of macromolecules focusing on the practical aspects of macromolecular synthesis, structural and functional characterization, and degradation. <b>Credit Hours:</b> 2. <b>General Education Requirements:</b> SNTL. <b>Requisites:</b> CHEM 203L prereq./204 coreq
CHEM 205 LIGHT AND MATTER	CHEM 205 will address the origins of electronic orbitals and the quantized energy states associated with molecular motions. How light causes transitions between energy levels will be central to our discussion, illuminating topics from spectroscopy to the Earth's climate and solar energy conversion. <b>Credit Hours:</b> 3. <b>General Education Requirements:</b> SNT. <b>Requisites:</b> CHEM 203/MATH 111 prereq
<b>CHEM 205L</b> LIGHT AND MATTER LAB	CHEM 205L will connect your understanding of the interaction of light & matter to the determination of molecular structure through spectroscopic methods. Students will assign atomic/molecular spectra & analyze results to determine critical properties of the compound using rigorous math on real molecules. <b>Credit Hours:</b> 2. <b>General Education Requirements:</b> SNTL. <b>Requisites:</b> CHEM203L/MATH111CHEM205.
CHEM 221 ORGANIC CHEMISTRY I	Classes of organic compounds. Functional groups, bonding, stereochemistry, structure and reactivity, carbonyl chemistry, carboxylic acids. GER Note: When a student completes this course and associated lab course they will have satisfied the requirement for SNTL. <b>Credit Hours:</b> 3. <b>General Education Requirements:</b> SNT. <b>Requisites:</b> CHEM 142 as prerequisite.
<b>CHEM 221L</b> ORGANIC CHEMISTRY LABORATORY 1	This lab covers techniques for isolation, purification, preparation, and identification of organic compounds. Investigative experiments uncover relationships between molecular structure and function. Important skills are collecting and interpreting data, keeping a lab notebook, and working safely. <b>Credit Hours:</b> 2. <b>General Education Requirements:</b> SNTL. <b>Requisites:</b> Chem 221 as Pre/Co Req.
CHEM 222 ORGANIC CHEMISTRY II	Spring, summer. Nucleophilic substitution, elimination reactions, electrophilic additions, electrophilic substitution, carbohydrates, amino acids and proteins. <b>Credit Hours:</b> 3. <b>General Education</b> <b>Requirements:</b> SNT. <b>Requisites:</b> CHEM 221/221Z/202 as prereq
<b>CHEM 222L</b> ORGANIC CHEMISTRY LABORATORY 2	This course introduces more sophisticated methods for the preparation and structure elucidation of organic compounds in the context of a research lab. Emphasis is placed on experimental design, evaluation of data, structure determination using NMR, and keeping a research-style lab notebook. <b>Credit Hours:</b> 2. <b>General Education Requirements:</b> SNTL. <b>Requisites:</b> CHEM 221L/226L/222 as Pre/Co.
CHEM 300L ANALYTICAL TOOLS & TECHNIQUES	This is a project-design based lab course. It will bring together materials from previous lab courses, as well as covering new techniques/methods. <b>Credit Hours:</b> 2. <b>General Education Requirements:</b> None. <b>Requisites:</b> CHEM 204L & CHEM 205L pre/co.
CHEM 301 BIOCHEMISTRY I	An integrated approach to the synthesis, structure, and function of macromolecular biomolecules, including proteins, carbohydrates, DNA, and RNA. First half of a two-semester biochemistry sequence. <b>Credit Hours:</b> 3. <b>General Education Requirements:</b> SNT. <b>Requisites:</b> CHEM 222/BIOL 141 as prereq
CHEM 302 BIOCHEMISTRY II	Prerequisites: Biology/Chemistry 301, Chemistry 222, Biology 141. Topics will include nitrogen and fatty acid metabolism, glycolysis, and respiration. The evolution of the pathways associated with these processes will be explored. <b>Credit Hours:</b> 3. <b>General Education Requirements:</b> SNT. <b>Requisites:</b> CHEM 301or BIOL 301. <b>Crosslisted Courses:</b> BIOL 302: Biochemistry II.

<b>CHEM 320</b> TOPIC IN BIO-ORGANIC CHEMISTRY	Chemistry of carbohydrates, fats, proteins, nucleic acids, vitamins and enzymes; emphasis on structure and reactions of compounds. <b>Credit Hours:</b> 1 - 4. <b>General Education Requirements:</b> SNT. <b>Requisites:</b> CHEM 222/172 as Prereq.
<b>CHEM 327</b> ORGANOMETALLIC CHEMISTRY	Introduction to transition metal Organometallic chemistry. Structure of metal complexes, their reactivity, reaction mechanisms, catalysis and application in synthesis. <b>Credit Hours:</b> 3. <b>General Education Requirements:</b> None. <b>Requisites:</b> CHEM 203 or 203Z & CHEM 203L.
<b>CHEM 327L</b> ORGANOMETALLIC CHEMISTRY LAB	The laboratory focuses on the preparation and applications of transition metal organometallic complexes. The course involves an independent research project envisioned by the student. <b>Credit Hours:</b> 2. <b>General Education Requirements:</b> None. <b>Requisites:</b> CHEM 203 or 203Z & CHEM 203L.
CHEM 328 INTRO.TO ATMOSPHERIC CHEMISTRY	This course will provide knowledge in atmospheric chemistry, focusing on the physical and chemical processes. Students will be able to: 1) explain important atmospheric phenomena from the local to global scale; and 2) critically assess public discussions and media coverage on air pollution. <b>Credit Hours:</b> 3. <b>General Education Requirements:</b> None. <b>Crosslisted Courses:</b> ENVS 328: Intro.to Atmospheric Chemistry.
<b>CHEM 330</b> CHEM BIO & MOLECULAR MODELING	Examine the world including issues around natural and unnatural molecules, disease and society in the context of topics like drugs, molecules for Mars, aging, AIDS, bioterrorism, and crime in the courtroom using computer graphics, the molecular structure of small molecules and proteins, and energy. <b>Credit Hours:</b> 3. <b>General Education Requirements:</b> SNT. <b>Requisites:</b> CHEM 221/221z as Prereq. <b>Crosslisted Courses:</b> BIOL 330: Chem Bio & Molecular Modeling.
CHEM 333 BIOPHYSICAL CHEMISTRY	This course offers a rigorous treatment of the fundamental principles of thermodynamics and kinetics to show how they underlie complex biological processes: protein folding, membrane selfassembly, neuronal function, and enzyme catalysis. Examples are drawn from biomolecular research and medicine. <b>Credit Hours:</b> 3. <b>General Education Requirements:</b> SNT. <b>Requisites:</b> CHEM 204/204L & 205/205L prere.
<b>CHEM 335L</b> QUANTUM CHEMISTRY LAB	Introduction to the foundational and practical aspects of modeling chemical reactions with modern computational chemistry techniques. Students will learn how to run quantum chemistry computations to predict thermodynamic properties, simulate spectra, and model the mechanisms of simple reactions. <b>Credit Hours:</b> 2. <b>General Education Requirements:</b> SNTL. <b>Requisites:</b> CHEM 205/205L prerequisite.
<b>CHEM 335LW</b> QUANTUM CHEMISTRY LAB	Introduction to the foundational and practical aspects of modeling chemical reactions with modern computational chemistry techniques. Students will learn how to run quantum chemistry computations to predict thermodynamic properties, simulate spectra, and model the mechanisms of simple reactions. <b>Credit Hours:</b> 3. <b>General Education Requirements:</b> SNLW. <b>Requisites:</b> CHEM 205/205L prerequisite.
<b>CHEM 340</b> BIOCHEMISTRY	This course focuses on the chemical principles underlying the processes that allow living systems to function: metabolism, bioenergetics, regulation, signaling and transport. Building on concepts from Chem 204, it emphasizes how chemical insights lead to the development of new drugs and diagnostics. <b>Credit Hours:</b> 3. <b>General Education Requirements:</b> SNT. <b>Requisites:</b> CHEM 204/204L & BIOL 141/no301.
CHEM 343 CHEMICAL BIOLOGY	Chemical Biology applies the tools of organic chemistry to manipulate and study biomolecules. This class explores foundational knowledge and breakthrough technologies enabling advances in nucleic acid engineering, high-throughput sequencing, biomolecular imaging, gene editing, and pharmacology. <b>Credit Hours:</b> 3. <b>General Education Requirements:</b> SNT. <b>Requisites:</b> CHEM 204&204L/BIOL 141 prereq
<b>CHEM 346L</b> BIOMOLECULAR CHEMISTRY	Experiments involve analysis and characterization of the major classes of biological compounds. <b>Credit</b> Hours: 2. General Education Requirements: None. Requisites: BIOL142/301,CHEM301 as prereq. Crosslisted Courses: BIOL 346L: Biomolecular Chemistry.
<b>CHEM 347L</b> BIOANALYTICAL CHEMISTRY LAB	Topics in modern biological chemistry are studied using techniques that may include polymerase chain reaction, DNA cloning, electrophoresis, protein detection by immunoblot, and computer analysis of DNA and protein sequence data, and spectroscopy. <b>Credit Hours:</b> 1. <b>General Education Requirements:</b> None.
CHEM 350 INORGANIC CHEMISTRY	Intermediate-level course covering structures and reactivity of coordination compounds and solid state inorganic materials. GER Note: Completion of this course and associated lab satisfies the SNTL requirement. Completion of this course and lab only completes half of the SNT requirement. <b>Credit Hours:</b> 3. <b>General Education Requirements:</b> SNT. <b>Requisites:</b> CHEM 203/203L and CHEM 205/205.

This is the first of two courses designed to introduce students to modern Mandarin Chinese. The course begins with an introduction to the sound system of Mandarin Chinese and moves on to basic skills in listening, speaking, reading and writing, and an introduction to Chinese culture. **Credit Hours:** 5. **General Education Requirements:** HAL.

Prerequisite: CHN 101. This course is the second semester of the Elementary Chinese course.. Speaking, reading, listening and writing will be learned in communicative context. Students are expected to participate in class by engaging in interactive activities and reading and writing practices. **Credit Hours:** 5. **General Education Requirements:** HAL.

This course is designed for students who already possess basic speaking skills of Mandarin Chinese but are not literate in Mandarin Chinese. It will focus on improving students' reading and writing skills. **Credit Hours:** 5. **General Education Requirements:** HAL.

Placement determined according to proficiency. This course is exclusively for students studying Chinese through an Emory-affiliated summer abroad program. Students learn practical Mandarin Chinese in natural settings. A Chinese martial arts master will also provide instruction twice per week. **Credit Hours:** 4. **General Education Requirements:** HAL.

This is the first of the two elementary Chinese courses, offered only in Emory's summer study abroad program in China. Students learn the sound system of Chinese, acquire basic communicative skills in Chinese in listening, speaking, reading, and writing. A general introduction to computer science including an overview of hardware systems, programming essentials, algorithm design, data handling, and networking. Not intended for students needing a programming background for further work in computer science. **Credit Hours:** 3. **General Education Requirements:** MQR.

MMING Introductory course in a rotating series of computer languages. Please see current atlas for language offering. Credit Hours: 2. General Education Requirements: None.

An introduction to tools of computer science that are relevant to bioinformatics, with a focus on fundamental problems with sequence data. Practical topics will include Python programming, data management, and web services. Computational concepts are emphasized with examples from underlying biology. **Credit Hours:** 3. **General Education Requirements:** SNT.

Intro to tools and concepts of computer science most relevant to business (enterprise) computing and e-commerce. An intro to basic programming principles, page layout and visual interface design, client/server computing, simple techniques for accessing databases, and their algorithmic foundations. **Credit Hours:** 3. **General Education Requirements:** MQR.

An introduction to Computer Science for students expecting to utilize serious computing in coursework, research, or employment. Emphasis is on computing concepts, programming principles, algorithm development and basic data structures, using the Java programming language and Unix operating system. **Credit Hours:** 4. **General Education Requirements:** MQR.

A second course in Computer Science, focusing on intermediate programming. Emphasis is on proficiency in the use and implementation of data structures, algorithms for classical programming paradigms, and object oriented design and programming with Java. **Credit Hours:** 3. **General Education Requirements:** MQR. **Requisites:** CS 170 as a Prerequisite.

An accelerated version of the second course Computer Science for students with advanced preparation e.g. AP CS-A. Emphasis is on proficiency in the use of implementation of data structures, algorithms for classical programming paradigms, and object oriented design and programming with Java. **Credit Hours:** 3. **General Education Requirements:** MQR.

Rotating topics in computer science. May be repeated for credit when the topic varies. Prerequisites and co-requisites depend on the topic offered. **Credit Hours:** 1. **General Education Requirements:** None.

Topics will be anounced each semester when the course is offered. **Credit Hours:** 3. **General Education Requirements:** FSEM.

An introductory course in the theory of Computer Science, focusing on analysis of discrete structures with applications. Emphasis is on developing familiarity with notation, computational acuity and creative problem solving skills. **Credit Hours:** 3. **General Education Requirements:** MQR. **Requisites:** CS 170 & MATH 111 as prereq..

A third course in Computer Science, focusing on advanced programming. Emphasis is on mastery in the use and implementation of data structures and algorithms for classical programming paradigms, using the Java programming language and object oriented design. **Credit Hours:** 3. **General Education Requirements:** MQR. **Requisites:** CS 171 as prerequisite.

Introductory systems course in Computer Science, with a focus on high level computer architecture and assembler programming. Emphasis is on comprehension of von Neumann computer architecture, information encoding and data representation, and assembler equivalents of high level programming constructs. **Credit Hours:** 3. **General Education Requirements:** MQR. **Requisites:** CS 171 as a Prerequisite.

Variable credit. Permission of faculty supervisor required prior to enrollment. Designed primarily for sophomores, this course provides ENVS students with foundational skills for research under the supervision of a faculty member. A stepping stone to more advanced research work. **Credit Hours:** 1 - 8. **General Education Requirements:** None.

Credit Hours: 3. General Education Requirements: None.

Introduction to Adaptive Natural Resource Management. The course will review existing theories, concepts and methods of adaptive assessment, management, and case histories of systems where adaptive management approaches have been applied. **Credit Hours:** 3. **General Education Requirements:** None. **Requisites:** ENVS131/240/247, BIOLOX111.

Interdisciplinary course discussing the connections between Earth and human body processes. Examines intrinsic and extrinsic metabolic pathways controlling health, pathogens, disease, pollution, natural resources, and earth and human cycles. **Credit Hours:** 3. **General Education Requirements:** None. **Requisites:** ENVS 131/BIOL\_OX 111 as Prereq.

Energy generation and consumption at the individual, regional, national and international level are used as a lens for understanding climate change. Particular attention is paid to the interaction between scientific uncertainty and global decision making. **Credit Hours:** 3. **General Education Requirements:** None. **Requisites:** ENVS131/ 227/377/POL 110.

This course draws upon the Conference of the Parties (COP) to the United Nations Framework on Climate Change (UNFCCC) as a way to explain issues related to the science, policy, and business of climate change from an interdisciplinary perspective. **Credit Hours:** 3. **General Education Requirements:** None.

This course will provide knowledge in atmospheric chemistry, focusing on the physical and chemical processes. Students will be able to: 1) explain important atmospheric phenomena from the local to global scale; and 2) critically assess public discussions and media coverage on air pollution. **Credit Hours:** 3. **General Education Requirements:** None. **Requisites:** PHYS 141/2 or 151/2 PRERQ #726. **Crosslisted Courses:** CHEM 328: Intro.to Atmospheric Chemistry.

Historical, philosophical, and ethical relationships between religion and ecology; other dimensions include Eastern thought, ecofeminism, animal rights, and literary nature writers. **Credit Hours:** 4. **General Education Requirements:** HAP / HSC. **Crosslisted Courses:** REL 329: Religion and Ecology.

Climatology studies the properties of the atmosphere and ocean and the resulting climates. We emphasize the energy cascade of the climate system and climate change. **Credit Hours:** 3. **General Education Requirements:** SNT. **Requisites:** ENVS 131/BIOL\_OX 111 as Prereq.

This course covers how the atmosphere, oceans and land work together to produce the characteristics of the planet, how this synergy has changed in the past, and how human activity affects the system. **Credit Hours:** 3. **General Education Requirements:** SNT. **Requisites:** ENVS 131/BIOL\_OX 111 as Prereq.

This course introduces students to the ecology of wetlands. The course covers factors that influence the hydrology of wetlands, present the ecology of a diverse set of wetland systems and introduce a range of management issues that confront wetland managers. **Credit Hours:** 3. **General Education Requirements:** None. **Requisites:** ENVS 131/BIOL\_OX 111 as Prereq.

This course will focus on plant identification in the field. Students will learn sight identification and the use of taxonomic keys. We will also discuss the natural history of plants and plant communities. This course fulfills an ENVS lab requirement. Includes a required weekend field trip. **Credit Hours:** 4. **General Education Requirements:** None.

Overview of barrier islands, integrates geology and ecology to understand barrier islands as places denoted by dramatic and rapid change. Includes human-related factors related to barrier islands and effects of climate change. Explores the diverse biomes of the tropics. Focus will be on tropical forests and grasslands, with an emphasis on ecological processes, biodiversity, human impact in the tropics, indigenous peoples, and ethnobotany. **Credit Hours:** 2. **General Education Requirements:** None. **Requisites:** ENVS 131, BIOLOX111, BIOL 142. **Crosslisted Courses:** BIOL 371: Ecology of the Tropics.

Permission required. This is the field course to accompany the lecture course on tropical ecology. Field trip will take place during the spring recess. **Credit Hours:** 2. **General Education Requirements:** None. **Requisites:** ENVS 371, BIOL 371. **Crosslisted Courses:** BIOL 372: Ecology of the Tropics Field.

Lectures and readings focus on the diversity, structure, and conservation of marine ecosystems, including experimental and analytic approaches to their study. Discussions of primary literature cover current topics such as biological invasions, disease, climate change, and marine protected areas. **Credit Hours:** 3. **General Education Requirements:** None. **Requisites:** ENVS 232 or 240 or 247 prereq.. **Crosslisted Courses:** BIOL 373: Marine Ecology.

This course will explore coastal and near-shore tropical marine ecosystems including mangroves and coral reefs. Readings will review key concepts of marine ecology with a focus on local ecosystems. Field excursions to local sites will provide opportunities to learn from researchers and managers. **Credit Hours:** 4. **General Education Requirements:** None. **Requisites:** ENVS 131 or BIOL 141 or 142. **Crosslisted Courses:** BIOL 375: Tropical Marine Ecosystems.

Focuses on the complexity of policy problems surrounding international environmental issues, the fragility of international environmental institutions, and specific policy problems such as free trade, sustainable development, population growth, climate change, and endangered species. **Credit Hours:** 3. **General Education Requirements:** HSC. **Requisites:** ENVS131, POLS 110.

# FILM AND MEDIA STUDIES

FILM 101 INTRODUCTION TO FILM	Serves as an intro to analyzing film and media. Examines style, form, technology, industry and cultural meaning. Spans 19th to the 21st centuries, national contexts, genres and modes of production. Introduces ways of "reading" film and other visual media, to be a more informed and critical viewer. <b>Credit Hours:</b> 4. <b>General Education Requirements:</b> HAP.
<b>FILM 102</b> INTRO.TO TV AND DIGITAL MEDIA	Introduction to the aesthetic principles, narrative strategies, and cultural significance of television and digital media including Internet video, social media, and video games. <b>Credit Hours:</b> 4. <b>General Education Requirements:</b> HAP. <b>Requisites:</b> FILM 101 or FILM_OX 270 prereq.
FILM 106 PHOTOGRAPHY I	Introduces fundamental issues in photography & visual thinking using 35mm film cameras & B/W film. Topics: camera use, film developing, darkroom & printing skills, image selection & presentation, an overview of the history of photography, basic philosophy of photography, & interpretation of images. <b>Credit Hours:</b> 4. <b>General Education Requirements:</b> HAP. <b>Requisites:</b> FILM 101 or FILM_OX 270 prereq.
FILM 107 INTRO TO DIGITAL VIDEO	Creative as well as technical problems in these related media are examined; techniques in using cameras, projectors, and video editing equipment. <b>Credit Hours:</b> 3. <b>General Education Requirements:</b> HAP. <b>Requisites:</b> FILM 101 or FILM_OX 101 prereq. <b>Crosslisted Courses:</b> ARTVIS 107: Intro to Digital Video.

Solution of linear and nonlinear systems of equations, interpolation, least-squares approximation, numerical integration, and differentiation. Credit Hours: 4. General Education Requirements: MQR. Requisites: MATH 221/275/321 & CS 170.

Analytic functions, elementary functions, integrals, power series, residues, and conformal mapping. Credit Hours: 3. General Education Requirements: MQR. Requisites: MATH 211 & 250 or MATH 276.

Axiomatic treatment of vector spaces, inner product spaces, minimal polynomials, Cayley Hamilton theorem, Jordan form, and bilinear forms. Credit Hours: 3. General Education Requirements: MQR. Requisites: MATH 250 or 276 as prereq..

This course introduces the basic concepts of algebraic and analytic number theory. Topics include: congruence relations, the distribution of prime numbers, quadratic reciprocity, Diophantine equations, continued fractions, and generating functions. Credit Hours: 3. General Education Requirements: MQR. Requisites: MATH 250 or 276 as prereq..

Combinations and permutations, counting techniques, recurrence relations, and generating functions. Block designs, finite planes, and coding theory. Introduction to graph theory. Credit Hours: 3. General Education Requirements: MQR. Requisites: MATH 221/275/321 & MATH 250/27.

Curves and surfaces in 3-space. The geometry of the Gauss map. Special surfaces. The intrinsic geometry of surfaces. Surfaces and computer graphics. Credit Hours: 3. General Education Requirements: MQR. Requisites: MATH 211/276&221/275/321&250/2.

Principles of mathematical modeling; case studies using nonlinear ordinary differential equations, difference equations, and partial differential equations. Credit Hours: 3. General Education Requirements: MQR. Requisites: MATH 212 & CS 170 as a Prerequ.

Theory of linear programming, duality, optimal flows in networks, and mathematical programming. Credit Hours: 3. General Education Requirements: MQR. Requisites: MATH 221/275/321 & CS 170.

This introductory course covers a wide range of examples and both theory and practice of unconstrained and constrained optimization. Credit Hours: 3. General Education Requirements: None. Requisites: MATH 211/276&221/275/321&250/2.

PDEs and their origin, classification of PDEs, analytical methods for the solution of PDEs, qualitative properties of the solutions, eigenvalue problems and introduction to numerical methods. Credit Hours: 3. General Education Requirements: MQR. Requisites: MATH 211/276 & 212 & 221/275/3.

Partial Differential Equations (PDE's) are a formidable tool for describing real-life problems. In this course we use PDE's for cardiovascular problems and other real-life situations. Students will visit radiology labs and learn about image processing and numerical simulations in medicine. Credit Hours: 3. General Education Requirements: None. Requisites: MATH 211/276 & 212 & 221/275/3.

Finite and continuous probability theory, distribution models (binomial, geometric, uniform, normal, Poisson, and exponential), the Chebyshev inequality, expectation and variance, moment generating functions, the central limit theorem, and applications. Credit Hours: 3. General Education Requirements: MQR. Requisites: MATH 210 or 211 or 276 prereq..

Fundamentals of statistical inference: estimation, properties of estimators, methods for comparing estimators, confidence intervals, hypothesis testing, regression, and analysis of variance. Credit Hours: 3. General Education Requirements: MQR. Requisites: MATH 361 as a Prerequisite.

Fundamentals of statistical inference: estimation, properties of estimators, methods for comparing estimators, confidence intervals, hypothesis testing, regression, and analysis of variance. This course is an extension of MATH 362 which includes a writing lab. Students take a writing lab and learn how to articulate why the statistical methods they use are applicable, discuss what their results show and make recommendations for future studies. Credit Hours: 4. General Education Requirements: MQRW. Requisites: MATH 361 as a Prerequisite.

Analysis of sets and functions in n-space which focuses on basic topological properties of sets as well as continuity and differentiation of functions. & nbsp; Topics: exterme value theorem, chain rule, and inverse function theorem. Credit Hours: 3. General Education Requirements: MQR. Requisites: MATH 211/276&221/275/321&250/2.

This course is a continuation of Math 411 which focuses on integration and uniform convergence in n-space. Topics include: Stoke's theorem, Fubini's theorem, Taylor's theorem, the Stone-Weierstrass theorem, and Sard's theorem. Credit Hours: 3. General Education Requirements: MQR. Requisites: MATH 411 as a Prerequisite.

Groups (definition and examples), cosets, Lagrange's Theorem, symmetric and alternating groups, Cayley's Theorem, isomorphisms, Cauchy's Theorem, quotient groups and homomorphisms, and the action of a group on a set. Additional topics may include the Sylow Theorems. Credit Hours: 3. General Education Requirements: MQR. Requisites: MATH 221/275/321 & MATH 250/27.

Ring Theory and Field Theory: polynomial rings, unique factorization, Euclidean domains, splitting fields of polynomials, elements of Galois theory, finite fields. Credit Hours: 3. General Education Requirements: MQR. Requisites: MATH 421 as Prereq.

Introduction to the use of calculus in economic analysis; comparative static problem and optimization theory; consideration of the mathematical techniques used in game theory. Credit Hours: 4. Anyone who attempts to use words to describe the experience of listening to music soon finds this to be a challenging task. Yet writers throughout the ages have faced this challenge and developed a variety of ways to write about music. This course provides the opportunity for students to hone their skills as music critics, by listening to and writing short essays about recorded and live performances of many different kinds of music. Each student will also write a substantial research paper on a musical topic of interest to them, and give an oral presentation on the same subject. **Credit Hours:** 3. **General Education Requirements:** HAP.

Variable topics of special interest in the field of Neuroscience and Behavioral Biology. Any of these NBB 190 courses will satisfy the new General Education freshman seminar requirement but will not count as an NBB elective. **Credit Hours:** 3. **General Education Requirements:** FSEM.

This course presents an introduction to evolutionary processes and biological bases of behavior. Lectures and readings will be organized around a developmental and life history perspective and will emphasize the importance of context in biological mechanisms and the interaction of social life, behavior, and cognition. Examples drawn especially from humans and nonhuman primates will be used to place human behavior in the Context of other species and to illustrate the dual inheritance of biology and culture in our species. Topics covered will include evolutionary mechanisms, adaptation, phylogenetic constraints, neural and neuroendocrine mechanisms of behavior, life history theory, developmental programs, principles of allometry, sexual selection and alternative reproductive strategies, social bonds and socialization, and the cognitive bases of social interaction in humans and nonhumans. **Credit Hours:** 3. **General Education Requirements:** SNT. **Crosslisted Courses:** ANT 200: Foundations of Behavior.

The focus will be to educate students in the scientific method: generating testable hypotheses, sampling randomization and control techniques. Students will learn the basic statistical vocabulary and tests necessary to read and interpret scientific articles in the field. **Credit Hours:** 3. **General Education Requirements:** SNT.

The focus will be to extend basic understandings of the scientific method as a process that actually produces a product. The elements of scientific writing, publication, and presentation are introduced in the classroom. **Credit Hours:** 3. **General Education Requirements:** None.

# QUANTITATIVE THEORY AND METHODS

<b>QTM 100</b> INTRO TO STAT INFERENCE	Intro to descriptive and inferential stats with emphasis on practice and implementation. Introduces basic statistical concepts and encourages critical thinking about data. A primary focus of the course is on implementation of appropriate statistical analysis and interpretation of results. <b>Credit Hours:</b> 4. <b>General Education Requirements:</b> MQR.
<b>QTM 101</b> RSCH.METH.& APP.IN STAT.INFER.	Overview of statistical methodology in context of real world applications; demonstrates how stats methods are used in a career or academic discipline. Students choose academic focus (e.g., Poli Sci), work with a TA trained in that field, conduct research and present results in written/oral format. <b>Credit Hours:</b> 4. <b>General Education Requirements:</b> None.
<b>QTM 110</b> INTRO.TO SCIENTIFIC METHODS	Introduces students to the style of analytic thinking required for research and concepts and procedures used in the conduct of empirical research: sampling, hypothesis testing, Bayesian inference, regression, experiments, instrumental variables, differences indifferences, regression discontinuity. <b>Credit Hours:</b> 3. <b>General Education Requirements:</b> None.
<b>QTM 120</b> MATH.FOR QUANTITATIVE SCIENCES	Teaching the necessary mathematical background for students to properly derive and implement common statistical modeling techniques employed in the social sciences. Covers core concepts of linear algebra and multivariable calculus, which are necessary skills for social science research. <b>Credit Hours:</b> 4. <b>General Education Requirements:</b> MQR. <b>Requisites:</b> MATH 111.
<b>QTM 150</b> INTRO.TO STAT.COMPUTING I	This course provides an introduction to statistical computational tools for analyzing data. The material is selected to enable you to become proficient enough to actively implement the methods and tools in your scientific research. <b>Credit Hours:</b> 1. <b>General Education Requirements:</b> None.
QTM 151 INTRO.TO STAT.COMPUTING II	This course provides a practicum of skills for data science and an introduction to how to do data science with R. Material is selected to enable you to get data into the most useful structure, transform it, visualize it, and model it. This will require you to practice the material outside of class. <b>Credit Hours:</b> 1. <b>General Education Requirements:</b> None. <b>Requisites:</b> QTM 150 as prerequisite.
<b>QTM 190</b> FIRST-YEAR SEMINAR IN QTM	Variable first-year seminar topics within QTM which may aim to provide an introduction to quantitative theory, practical applications of quantitative methods, introductory coding or statistics, or introduce other topics pertinent to quantitative fields. <b>Credit Hours:</b> 3. <b>General Education Requirements:</b> FSEM.
<b>QTM 200</b> APPLIED REGRESSION ANALYSIS	Students will apply concepts and skills learned in QTM 100 to a broader field of statistical analysis: multivariable analysis and model building. Implementation of appropriate statistical methods, hands-on data analysis with statistical software, interpretation of analysis results. <b>Credit Hours:</b> 3. <b>General Education Requirements:</b> MQR.
<b>QTM 210</b> PROBABILITY AND STATISTICS	Covers the structure of probability theory. Discusses the commonly encountered probability distributions, both discrete and continuous. Considers random sampling from the population, and the distribution of some sample statistics. Discusses the problem of estimation, and hypothesis testing. <b>Credit Hours:</b> 4. <b>General Education Requirements:</b> MQR. <b>Requisites:</b> QTM 120orMATH 210orMATH211.
<b>QTM 220</b> REGRESSION ANALYSIS	Introduces students to widely used procedures for regression analysis, and provides intuitive, applied, and formal foundations for regression and more advanced methods treated later in the major course sequence. <b>Credit Hours:</b> 4. <b>General Education Requirements:</b> MQR. <b>Requisites:</b> QTM110&150&MATH 361/362&MATH22.
<b>QTM 250</b> APPLIED COMPUTING	This course teaches students how to think like data scientists. In combination with tools such as spreadsheets, SQL, and Python, students learn data analysis and applications of machine learning using real-world datasets. <b>Credit Hours:</b> 3. <b>General Education Requirements:</b> None. <b>Requisites:</b> QTM 100 or QTM_OX 100 prereq

<b>QTM 285</b> TOPICS IN QUANTITATIVE SCIENCE	Includes topics related to statistical computing. <b>Credit Hours:</b> 1 - 4. <b>General Education Requirements:</b> None.
<b>QTM 302</b> TECHNICAL WRITING	This writing-intensive course provides students with practice developing rhetorically effective and ethically sensitive communication in genres that characterize professional activity across and outside the university. No prior technical knowledge required. <b>Credit Hours:</b> 3. <b>General Education Requirements:</b> None. <b>Crosslisted Courses:</b> ENGRD 302: Technical Writing.
<b>QTM 302W</b> TECHNICAL WRITING	This writing-intensive course provides students with practice developing rhetorically effective and ethically sensitive communication in genres that characterize professional activity across and outside the university. No prior technical knowledge required. <b>Credit Hours:</b> 4. <b>General Education Requirements:</b> WRT. <b>Crosslisted Courses:</b> ENGRD 302W: Technical Writing.
<b>QTM 310</b> INTRODUCTION TO DATA JUSTICE	Upon completing this course, students will be able to define and discuss the concepts of bias, fairness, discrimination, ethics, and justice, with respect to data science, and will gain familiarity, via case studies and practical excercises, with how these concepts play out in data-driven inquiry. <b>Credit Hours:</b> 3. <b>General Education Requirements:</b> None.
<b>QTM 315</b> GAME THEORY I	Introduction to game theory and strategic thinking. Foundational building blocks of non-cooperative games including normal and strategic form games, Nash equilibrium concept, various equilibrium concept refinements including backwards induction, sub-game perfection, and perfect Bayesian equilibrium. <b>Credit Hours:</b> 3. <b>General Education Requirements:</b> None.
<b>QTM 325</b> EVOLUTIONARY GAME THEORY	Evolutionary Game Theory draws on ideas from classic Game Theory to explain these biological phenomena. The course will introduce basic concepts from Evolutionary Biology and from Game Theory, and combine them together to find evolutionarily stable strategies everywhere around us. <b>Credit Hours:</b> 3. <b>General Education Requirements:</b> None.
<b>QTM 329</b> COMPUTATIONAL LINGUISTICS	This course will focus on the analysis of syntactic and semantic structures, ontologies and taxonomies, distributional semantics and discourse, as well as their applications in computational linguistics. Assignments will include advanced statistical analyses. <b>Credit Hours:</b> 3. <b>General Education Requirements:</b> MQR. <b>Requisites:</b> QTM 220 as prerequisite
<b>QTM 340</b> APPROACHES TO DATA SCI.W/TEXT	Teaches common theories & techniques in data science using Python. Focus is text analysis (e.g., text parsing, language models, sequence estimation, vector space models & distributional semantics, cluster analysis, supervised learning). Cloud computing, big data, & data visualization are discussed. <b>Credit Hours:</b> 3. <b>General Education Requirements:</b> None. <b>Requisites:</b> QTM 210 or CS 171 as prereq
QTM 345 ADVANCED STATISTICS	Introduces students to multivariate linear regression model and method for dealing with non-experimental data. It will equip students with understanding of the workhorse in econometrics and statistics. <b>Credit Hours:</b> 3. <b>General Education Requirements:</b> None. <b>Requisites:</b> QTM 220 as prerequisite
<b>QTM 350</b> DATA SCIENCE COMPUTING	This course emphasizes programming for data science, rather than programming for the sake of programming. Students learn essential computer literacy (e.g. shell commands), computing concepts & workflow for reproducible research. Students primarily write Python code and use cloud computing resources. <b>Credit Hours:</b> 3. <b>General Education Requirements:</b> None. <b>Requisites:</b> QTM 220 as prerequisite.
<b>QTM 355</b> INTR. TO TIME SERIES ANALYSIS	This course covers the fundamentals of time series analysis in both the natural and social sciences, utilizing analytical, statistical, and numerical approaches. We will focus on the application of these methods to complex, real world data from medicine, economics, geology, and other fields. <b>Credit Hours:</b> 3. <b>General Education Requirements:</b> None. <b>Requisites:</b> QTM 220 as prerequisite <b>Crosslisted Courses:</b> BIOL 355: Intr. to Time Series Analysis.
<b>QTM 360</b> GENERALIZED LINEAR MODELS	Covers models for qualitative (count, binary, ordinal, or nominal) data, testing for goodness-of-fit, analyzing contingency tables, regression models for count, binary, and multiple categorical response data, etc.The Generalized Linear Models provide a unifying framework for the course. <b>Credit Hours:</b> 3. <b>General Education Requirements:</b> None. <b>Requisites:</b> QTM 220 as prerequisite.
<b>QTM 385</b> SPECIAL TOPICS: QTM	Special Topics Courses. Includes Game Theory I/II, Maximum Likelihood Estimation, Longitudinal Data Analysis, Experimental Methods, Survey Research Methods, Computational Modeling, and Advanced

	Topics: Bayesian Statistics. Credit Hours: 1 - 4. General Education Requirements: None. Requisites: QTM 110,120,210 prerequisite.
<b>QTM 385W</b> SPECIAL TOPICS: QTM	Special Topics Courses that focus on the process and products of writing. Topics vary from semester to semester. <b>Credit Hours:</b> 1 - 5. <b>General Education Requirements:</b> WRT. <b>Requisites:</b> QTM 110,120,210 prerequisite.
<b>QTM 390</b> SPECIAL TOPICS TAKEN ABROAD	Study Abroad Credit Hours: 1 - 12. General Education Requirements: None.
<b>QTM 398R</b> PEER MENTORING IN STATISTICS	Engage in statistical study and mentor peers in statistics; attend an orientation, develop mentoring skills, have weekly meetings with lecturer, attend one QTM 100 section per week, and hold mentoring sessions for current students. (2 credits) OR Aid TA in QTM 100 Lab (1 credit) <b>Credit Hours:</b> 1 - 2. <b>General Education Requirements:</b> None.
<b>QTM 446</b> BIG/SMALL DATA & VISUALIZATION	An interdisciplinary exploration of digital tools for analyzing and visualizing data in the humanities and social sciences. <b>Credit Hours:</b> 3. <b>General Education Requirements:</b> HSC. <b>Crosslisted Courses:</b> SOC 446: Big/Small Data & Visualization, LING 446: Big/Small Data & Visualization.
<b>QTM 446W</b> BIG/SMALL DATA & VISUALIZATION	An interdisciplinary exploration of digital tools for analyzing and visualizing data in the humanities and social sciences. <b>Credit Hours:</b> 4. <b>General Education Requirements:</b> HSCW. <b>Crosslisted Courses:</b> LING 446W: Big/Small Data & Visualization.
<b>QTM 490R</b> ADVANCED SEMINAR	Selected advanced topics in quantitative sciences. Open only to junior and senior majors; others by permission of instructor. <b>Credit Hours:</b> 3. <b>General Education Requirements:</b> None.
<b>QTM 490RW</b> ADVANCED SEMINAR	Selected advanced topics in quantitative sciences. Open only to junior and senior majors; others by permission of instructor. <b>Credit Hours:</b> 4. <b>General Education Requirements:</b> WRT.
<b>QTM 491</b> DESIGN / ANALYSIS EXPERIMENTS	The first part of the course introduces the logic of experimentation and discusses various methodological issues in the design and analysis of experiments. The second part builds on this foundation to discuss some practical issues and ethical considerations in designing and implementing experiments. <b>Credit Hours:</b> 3. <b>General Education Requirements:</b> None.
<b>QTM 495A</b> HONORS RESEARCH	For students participating in the Quantitative Sciences honors program. Student is expected to pursue an honors committee approved project. Course objectives include support for research, analysis of data, synthesis and presentation of results/observations, and initiation of writing the thesis. <b>Credit Hours:</b> 4. <b>General Education Requirements:</b> None.
<b>QTM 495BW</b> HONORS RESEARCH	QTM 495B is for students participating in the Quantitative Sciences honors program. Students will focus on data analysis and writing the thesis. Students will also be mentored in oral presentation skills and preparation of their work for publication. This class is an independent study format. <b>Credit Hours:</b> 1 - 8. <b>General Education Requirements:</b> WRT.
<b>QTM 496R</b> QUANTITATIVE SCI. INTERNSHIP	Pre-reqs: QTM 110, 120, 210. Open to QSS majors only. Permission required by Internship Director. Supervised participation in a quantitatively focused internship approved by the Institute. No more than 4 credit hours may count toward QSS major elective credit. 3.0 minimum GPA required. <b>Credit Hours:</b> 1 - 12. <b>General Education Requirements:</b> None.
<b>QTM 496RW</b> QUANTITATIVE SCI. INTERNSHIP	Pre-reqs: QTM 110, 120, 210. Open to QSS majors only. Permission required by Internship Director. Supervised participation in a quantitatively focused internship approved by the Institute. No more than 4 credit hours may count toward QSS major elective credit. 3.0 minimum GPA required. <b>Credit Hours:</b> 1 - 12. <b>General Education Requirements:</b> WRT.
<b>QTM 497R</b> DIRECTED STUDY	Permission required by instructor. Independent reading and research under the direction of a faculty member. No more than 4 credit hours may count toward QSS major elective credit. <b>Credit Hours:</b> 1 - 12. <b>General Education Requirements:</b> None.
<b>QTM 497RW</b> DIRECTED STUDY	Permission required by instructor. Independent reading and research under the direction of a faculty member. No more than 4 credit hours may count toward QSS major elective credit. <b>Credit Hours:</b> 1 - 12. <b>General Education Requirements:</b> WRT.

<b>QTM 498R</b> QUANTITATIVE SCIENCE CAPSTONE	The capstone course provides an opportunity for students to apply their knowledge of the foundations, theory and methods of data science, along with their substantive expertise to address data driven practical problems in industry, government, and the non-profit sector. <b>Credit Hours:</b> 1 - 4. <b>General Education Requirements:</b> None. <b>Requisites:</b> QTM 220 as prerequisite
<b>QTM 499R</b> DIRECTED RESEARCH	Designed for majors (QSS, AMS, PPA, and BBA + QSS, etc.) working on independent research under the direction of faculty. Students expected to be familiar with the project, and involvement must include the employment of their statistical, computational, mathematical, and/or theoretical knowledge. <b>Credit Hours:</b> 1 - 12. <b>General Education Requirements:</b> None.
<b>QTM 999XFR</b> NON-EQUIVALENT TRANSFER COURSE	Non-equivalent transfer course in Quantitative Theory & Methods <b>Credit Hours:</b> 1 - 99. <b>General Education</b> <b>Requirements:</b> None.

# RUSSIAN AND EAST ASIAN LANGUAGES AND CULTURES

REALC 375 SPECTOP:RUSS/ E ASIAN CULTURES

An introduction to the history and culture of Russia and East Asia. Topics to be announced in advance. **Credit Hours:** 1 - 4. **General Education Requirements:** None.

# RUSSIAN, E EUROPEAN, EURASIAN

<b>REES 190</b> FRESH SEM: REES	Fulfills GER freshman seminar requirement. Seminar will introduce students to special topics in Russian and East European studies with a cross-disciplinary approach. <b>Credit Hours:</b> 3. <b>General Education Requirements:</b> FSEM.
<b>REES 200</b> INTRO TO RUSSIAN AREA STUDIES	An introduction to Russian, this course takes an interdisciplinary approach to the questions that have animated Russians for centuries: What is Russia? Where is Russia going? These issues are approached from a number of perspectives: historical, cultural, political, legal, & artistic. <b>Credit Hours:</b> 3. <b>General Education Requirements:</b> HAP.

#### GENERAL EDUCATION REQUIREMENTS

The general education component of an Emory undergraduate education is organized to present an array of intellectual approaches and perspectives as ways of learning rather than a prescribed body of content. Its purposes are to develop students' competencies in the skills and methods of writing, quantitative methods, a second language, and physical education; to acquaint students with methodologies that characterize the humanities, the social sciences, and the natural sciences as the three broad divisions of learning in the arts and sciences; to deepen students' perspectives on national, regional, and global history and culture, and to give every student some exposure to an interactive seminar experience. These purposes are met by a student's choosing from a range of individual courses within a clearly defined framework.

Only courses taken for 3 credits or above will satisfy the General Education Requirement with the following exceptions: Health, PE, the lab portion of SNTL courses, and the second semester of the honors thesis course (which may carry CWRT credit) may fulfill GERs when taken for fewer than three credits.

The list of courses satisfying General Education Requirements is constantly under review. For the latest version of the list, please see below.

## FIRST-YEAR SEMINAR CLASSES (FSEM) COURSES - AREA I

First-year Seminars, offered in a wide range of fields, are designed to engage students in various aspects of inquiry and research with close guidance of a faculty member. Requirements: One course. Must be completed in first two semesters. Any course that satisfies the First-Year Seminar Class requirement may not satisfy another general education requirement with the exception of the Race & Ethnicity (ETHN) requirement. The FSEM requirement is exempted for Oxford Continuees.

## FIRST-YEAR WRITING REQUIREMENT (FWRT) COURSES - AREA II

These courses work at refining a student's fundamental writing skills through practice either in expository prose discourse or written analysis and interpretation of works of literature. Requirement: One course. Must be completed in first two semesters.

- CPLT 101: Rhetorical Comp./Crit.Reading
- ENGRD 101: Rhetorical Comp/Crit.Reading

## CONTINUING WRITING (WRT) COURSES - AREA III

The goal of writing-intensive courses is to improve writing skills through writing regularly in a context where mentors in the various communities of discourse encourage, guide, and communicate to students high standards of writing through instruction and example. Writing intensive classes focus not only on the product, but also on the process of writing. Writing is not an elective option but a central focus of the course. Requirement: Three courses. Must be taken at Emory College of Arts and Sciences or Oxford College of Emory University. Must earn a grade of C or better.

#### SCIENCE, NATURE, TECHNOLOGY (SNT) COURSES - AREA V

These courses demonstrate fundamental principles and techniques of scientific inquiry as a means of understanding the natural world and human life. This category includes both courses focusing on scientific findings and concepts, and courses focusing on scientific methodology. Requirement: Two courses, one with a laboratory component.

- ANT 200: Foundations of Behavior
- ANT 201: Concepts & Meth in Biol Anth

- ANT 210: Hum Biol:Life Cycle Approach
- ANT 302: Primate Behavior & Ecology
- ANT 303: Modern Human Origins
- ANT 304W: Paleolithic Archaeology
- ANT 305: The Human Brain
- ANT 306: Primate Mating Strategies
- ANT 306W: Primate Mating Strategies
- ANT 307: Human Evolution
- ANT 307W: Human Evolution
- ANT 308: Evolution of Social Behavior
- ANT 309: Seminar in Primate Behavior
- ANT 310: Communication in Primates
- ANT 312: Human Skeletal Biology
- ANT 315: Ancient DNA & Human Evolution

## HUMANITIES, ARTS, LANGUAGE (HAL) COURSES - AREA VII

Students must earn credit for two sequential HAL courses in a single foreign language. Each student must pursue study of a language other than the student's native language. Students may satisfy the remaining two course requirements by taking any two HAP courses, any two additional HAL courses (where one of the HAL courses is beyond the elementary level (200 level or above)), or one HAP and one HAL course.

## RACE AND ETHNICITY (ETHN) COURSES - AREA X

The Race and Ethnicity requirement provides students with opportunities to consider racial, ethnic, and cultural dynamics; political, economic and social exclusions; and social difference, inequality and identity more generally, to gain an awareness of how these affect structural inequality amongst individuals and communities. While courses fulfilling this requirement may originate in any discipline or department, they share a common commitment to exploring the many ways that race and ethnicity shape our world and affect our understanding of it.

1 APPROVED COURSE IS REQUIRED WHICH MAY BE COMBINED WITH OTHER REQUIREMENTS. MUST BE TAKEN AT EMORY COLLEGE OF ARTS AND SCIENCES OR OXFORD COLLEGE OF EMORY UNIVERSITY. MUST EARN A GRADE OF C OR BETTER.

## ACADEMIC POLICIES & REGULATIONS

# DEGREE REQUIREMENTS

Both the Bachelor of Arts degree and the Bachelor of Science degree combine liberal studies with advanced studies. To earn the BA or BS degree, a student must successfully complete at least one hundred and twenty-four credit hours in approved academic courses plus two credit hours in physical education and a one credit hour personal health course.

The undergraduate education in Emory College comprises three overlapping components:

- general education requirements that provide a common core of substance and methodology;
- more intensive and advanced study in a major field; and
- free-ranging exploration by means of elective courses.

## GENERAL EDUCATION REQUIREMENTS

These courses provide for a common core of academic experience for Emory College students. Faculty and advisors work closely with students, especially in the first two years, in choosing the specific courses used to fulfill these requirements. The faculty's principal objective in establishing these requirements is to encourage students to familiarize themselves with the knowledge and the methodologies that characterize the arts and humanities, the social sciences, and the natural sciences and mathematics; to increase their ability to express ideas effectively in English and in another language; to extend their capacities for making informed judgments of value; to expand their knowledge and understanding of themselves, of their own and other cultures, and of the natural world; and

to develop their awareness of the ways in which the various academic disciplines may complement one another in solving the world's problems.

For the most current list of courses satisfying the General Education Requirements, please see the GER website.

## MAJOR REQUIREMENTS

Students must complete requirements for a major in a particular academic field. In order to complete a major, students must formally designate a program no earlier than the second semester of their freshman year and no later than the end of the sophomore year (see "Declaration of Plan [Major/Minor] form" available online). Students will normally be required to complete the major or minor requirements that are in place at the time they declare the program. When the requirements for a major or minor have changed, students may petition to complete the program under the old or new requirements, and departments have the discretion to approve or reject these requests.

The departments and the deans reserve the right to judge the advisability of an applicant's admission to any particular concentration. Each student's major program must be arranged under the direction and with the approval of a faculty advisor in the major with a view to obtaining reasonable mastery of a chosen field and with due provision for work outside that field. If they choose, students may be certified in two, but not more than two, areas of concentration. Minors are available in certain fields for students who wish to complete a minor in addition to a major. (A student may thus have two majors or one major and a minor.) Students must maintain at least a C (2.0) average in any major or minor they complete.

## PROGRAMS OF STUDY

Students may earn one, and only one, of the following undergraduate degrees from Emory University. In completing the following degrees, Emory College officially recognizes no more than two concentrations-either two majors or a major and minor. Such recognition does not appear on Emory diplomas but is shown on students' transcripts.

## BACHELOR OF ARTS OR BACHELOR OF SCIENCE

Emory College offers a number of majors that can result in a BA or BS. Students must maintain at least a C (2.0) average in any major they complete.

## MINORS

Minors are available in certain fields for students who wish to complete a minor in addition to a major. Students must maintain at least a C (2.0) average in any minor they complete.

## BACHELOR OF BUSINESS ADMINISTRATION

Students applying to the BBA Program for spring/early admission must complete 56 credit hours by the end of the third regular semester in order to be eligible to matriculate. Students applying to the BBA Program for fall/regular admission must complete 60 credit hours by the end of spring of sophomore year. These credit hours include credits from AP, IB, and other internationally recognized tests but do not include PACE, Personal Health, or PE credits.

#### BACHELOR OF SCIENCE IN NURSING

The BSN degree is awarded after students complete 60 credit hours in Emory College and two years in the Nell Hodgson Woodruff School of Nursing. These sixty credit hours may include up to 12 AP, IB, or internationally recognized test credits toward prerequisite requirements as long as the credit hours and coursework are displayed on the Emory transcript.

Some courses required prior to entering the nursing program are not available at Emory College. Interested students should consult with the School of Nursing and the Office for Undergraduate Education about requirements.

A dual degree program between Emory College and the School of Nursing is also available as described below.

#### STUDENTS CONTINUING TO EMORY COLLEGE OF ARTS AND SCIENCES FROM OXFORD COLLEGE

Students who meet the requirements from Oxford College and receive an associate degree may continue to Emory College of Arts and Sciences to receive a bachelor's degree.

Oxford College Continuees must earn a total of 127 credit hours (124 academic credit hours, a minimum of 2 PE credit hours, and a third academic or PE credit hour) to graduate from Emory College; of these credit hours, a minimum of fifty-four credit hours must be earned in Emory College with a minimum of three semesters of residence in Emory College (twelve credit hours or more per semester); a semester of fewer than twelve credit hours can be combined with another semester of fewer than twelve credit hours to make up one semester of residence; however, a partial semester may not be combined with a semester of more than twelve credit hours to form two semesters of residence.

#### DUAL AND EXTENDED DEGREE PROGRAMS

Students who enter dual or extended degree programs may earn the Bachelor of Arts or the Bachelor of Science degree from Emory College and a second bachelor, professional, or advanced degree from another division of the University or institution with a dual degree agreement with Emory College. These programs include:

#### 4+1 Programs

Students may earn a bachelor's degree in four years of study and a master's degree with an additional year of study in the following subjects:

- BA/MA or BS/MA in Bioethics
- BA/MSPH Biostatistics
- BS/MS Cancer Biology and Translational Oncology
- BA/MS or BS/MS Computer Science
- BS/MS Environmental Sciences
- BS/MPH Environmental Sciences and Environmental Health
- BA/MA English
- BA/MA Film Studies [program is currently suspended]
- Juris Master (JM) Program

#### Dual Degree in Engineering with the Georgia Institute of Technology

The Dual Degree Program in Engineering is not an official major at Emory College. Rather it is an academic opportunity for undergraduate students, with an interest in engineering, to pursue bachelor's degrees at both Emory College and the Georgia Institute of Technology (Georgia Tech).

The minimum amount of time to complete both degrees is 5 years; however, the program may take longer depending on the student's academic interests and studies. The program is sequential and students will receive a degree from each institution upon completion of the full program.

Planning for this program is very important as the academic requirements are intense and rigorous. Students should consult with the Dual Degree advisor to find out about the prerequisite courses needed for transfer (subject to change based on the year students apply to Georgia Tech) and the requirements needed to complete a degree with Emory College.

#### **Dual Degree in Computer Science with Agnes Scott College**

Students who initially enroll at Agnes Scott College in Decatur, GA may participate in a dual degree program with Emory in the field of Computer Science. <u>Click here for the pre-application</u>. Students will study a computer science curriculum in the Department of Computer Science plus one additional course outside the department to meet Emory's general education requirements. Students will work towards a Bachelor of Arts or a Bachelor of Science degree.

#### APPROVED: CURRICULUM, ASSESSMENT, AND EDUCATIONAL POLICY COMMITTEE, FEBRUARY 19, 2020

## ADVANCED PLACEMENT & EXEMPTION

#### Information for Incoming First Year College Students

Emory College recognizes that entering students differ in preparation and proficiency in various subjects. The College provides a variety of ways in which students may qualify for advanced courses or accelerate their progress toward both bachelor's and master's degrees.

#### **Advanced Placement Policy**

Undergraduate students admitted to Emory University as students in Emory College of Arts and Sciences (ECAS) or Oxford College may receive up to 12 credit hours towards hours required for graduation through acceptable Advanced Placement (AP) scores, International Baccalaureate (IB) scores, or other internationally recognized testing schemes (e.g. A-levels, French Baccalaureate), herein referred to as "recognized test scores." Students with more than four acceptable test scores may receive a non-credit-bearing course waiver for each additional test.

- Faculty in ECAS and Oxford College will jointly determine the scores for specific tests that will be accepted, and the equivalent courses at Emory that tests can replace. AP scores below 4 and IB Higher Level scores below 5 will not be accepted as fulfilling Emory requirements. For example, the ECAS Mathematics department and Oxford Mathematics faculty will jointly review the Calculus AP tests to determine whether Emory will accept scores of 4 and 5, or only scores of 5 for each test. The faculty will further evaluate whether the AP test credit can be used as a pre-requisite for courses that require MATH 111 or MATH\_OX 111 as a pre-requisite.
- 2. Students will receive 3 credit hours for each accepted test scores, up to 12 total credit hours. Where two exams are offered in one field, for example English Literature and English Language, languages, or computer science, credit will be offered for one but not both exams. Students who take both the AP and IB tests for the same course are eligible to have only one test posted for the course.
- 3. Students may fulfill GER requirements with recognized test scores if the equivalent Emory courses fulfill GER requirements and the credits are posted on the Emory transcript. For recognized tests that offer only elective credit, students receive credit hours but may not use the test scores to fulfill GER requirements or as pre-requisites for more advanced courses. Waivers (acceptable scores beyond 12 credits) will not fulfill GER requirements.
- 4. Students may use recognized test credit to allow them to begin with more advanced courses. For example, a student with appropriate recognized test scores for Economics may begin with ECON 112 if the Economics faculty determine that recognized test courses cover the curriculum of ECON 101.
- 5. All recognized tests with appropriate scores for credit hours or waivers will be posted to the Emory transcript. This will allow a student to use these test scores as pre-requisites, and allow advisors to understand students' preparation for more advanced courses. While waivers will fulfill pre-requisites and allow for placement in higher level courses, they will not fulfill GER requirements.
- 6. Test score information must be sent to Emory directly from the organization issuing test scores and must be received by the end of a student's first semester at Emory. Scores received after the student's first semester will not be reviewed nor accepted.

Transient study policies, for courses completed at another accredited college or university before or during matriculation at Emory, are set separately from these policies. For entering first-year students, a combined 18 credit hours (of which 12 may be awarded from recognized test credits) may be granted (see Transient Study).

#### Language Placement

Language placement is handled variously by the different language departments. No credit is awarded for courses a student exempts as a result of placement.

## **College-Level Examination Program (CLEP)**

No credit is awarded for the College-Level Examination Program.

## Additional Information for Incoming Transfer Students

The Office of Admission evaluates all credit hours earned from previous institutions, including recognized test scores, upon acceptance to Emory College of Arts and Sciences. Students may transfer a maximum of 62 credit hours.

- The first-year seminar is waived for all transfer students.
- The first-year writing requirement may be fulfilled by recognized test scores or previous college credits. This requirement will be waived for incoming transfer students with 30+ hours at matriculation.
- One continuing writing requirement will be waived for incoming transfer students with 60+ hours at matriculation
- The Personal Health Requirement (Health 100) is waived for all transfer students.
- The PED (PE elective) will be waived for incoming transfer students with 60+ hours at matriculation.
- Transfer students must complete their final 64 academic hours at Emory.

## Additional Information for Incoming Oxford Continuee Students

Students starting at Oxford College of Emory University must have all previous transfer credits, including test credits, and transient credits finalized before graduating from Oxford. Oxford Continuees may not add/drop/swap previous credits after the associate degree is awarded. A student's academic record is sealed when the degree has been granted, and no changes to the record will be made.

## Recognized Tests, Previous College, and Transient Study Credit Drops and Swaps

Undergraduate students must submit all recognized test scores or official transcripts from previous institutions by the end of their first semester of Emory (applies to new first-year and transfer students). If a final transcript for summer coursework is not available by the first day of classes, it must be submitted by October 1, immediately following the summer in which the course work was completed. All credits completed before matriculation at Emory are reviewed and posted by the Office of Admission. Failure to submit all official transcripts may result in a hold on your registration.

Students will be allowed to swap or drop credits earned through test credits or from other institutions posted on the transcript until they have earned 64 credit hours. In order for students to be eligible to drop or swap credits, the credit bearing and/or the non-credit-bearing course waiver(s) must already be posted on the Emory transcript. Credits or non-credit bearing course waivers eligible for swap/drop can include: AP/IB or International test credits, previous college credit (courses taken **before** matriculation at Emory), or transient credits.

## AMENDED: ADMISSIONS AND SCHOLARSHIPS COMMITTEE, NOVEMBER 20, 2020 APPROVED: CURRICULUM, ASSESSMENT, AND EDUCATIONAL POLICY COMMITTEE, OCTOBER 30, 2019

## CHANGING & REPEATING COURSES

## **Changing & Repeating Courses**

## **Repetition of Courses**

When a course that was previously passed is repeated, the new course credit hours do not count towards a degree. A student who wishes to re-take a course previously passed and not receive additional degree credit will be permitted to do so only if deemed advisable by the faculty advisor and a dean in the Office for Undergraduate Education.

All courses repeated, whether passed or not, including the original course, will be calculated in the student's grade-point average, and the original course grade will remain on the student's transcript.

A student will be permitted to retake a course if they fail to successfully complete a course. A student may not attempt to pass a course any more than three times.

#### **Changing Courses**

A student may change courses until the end of the Add/Drop/Swap period, which occurs on the eighth calendar day after the first day of classes each semester. A change may be made in the grading basis of a course (letter grade or S/U) until 4pm on the Friday of the sixth full week of class after the Add/Drop/Swap period. (See Academic Calendar for specific dates.)

APPROVED: CURRICULUM, ASSESSMENT, AND EDUCATIONAL POLICY COMMITTEE, OCTOBER 30, 2019

## UNDERGRADUATE CODE OF CONDUCT

The Undergraduate Code of Conduct outlines the expectations of the University for undergraduate student and student organization behavior and details the process for resolution of alleged violations of non-academic misconduct. Through the Code, administered by the Office of Student Conduct in Emory Campus Life, the University promotes the values of personal responsibility, active citizenship, and consideration for others. All students are expected to know and abide by the Code, available online at <a href="http://conduct.emory.edu">http://conduct.emory.edu</a>.

Instances of academic misconduct are adjudicated under the provisions of the <u>Emory College Honor Code</u>, which is administered through the Office for Undergraduate Education.

APPROVED: CURRICULUM, ASSESSMENT, AND EDUCATIONAL POLICY COMMITTEE, FEBRUARY 19, 2020

## ACADEMIC STANDING POLICIES: CONTINUATION, PROBATION & EXCLUSION

## Academic Standing Policies: Continuation, Probation & Exclusion

Students are expected to make progress toward completion of their degree as outlined in "Continuation Requirements." Emory College of Arts and Sciences wants to give all students the opportunity to demonstrate their scholastic ability. However, it is not in the best interest of either the students or the College to permit students to continue indefinitely in educational programs in which they are not producing satisfactory results.

#### **Continuation Requirements**

To graduate from the College, a student must accumulate 127 total credit hours. For students who start as first year students or transfer students in Emory College of Arts and Sciences, this includes a minimum of 124 academic credit hours plus the required 2 credit hours of physical education and 1 credit hour of personal health. For students who begin in Oxford College, this includes 124 academic credit hours, 2 credit hours of physical education credits, and one credit hour of either academic or physical education credit. Additional hours of physical education do not count toward the degree. A grade-point average of at least 2.0 for all work attempted for a letter grade is required of all students.

Minimum requirements for continuation from year to year are as follows:

- First Year: a minimum of 30 credit hours passed after two semesters on first-year standing and a 1.5 grade-point average on all work attempted;
- Second Year: a minimum of 60 credit hours passed after two semesters on sophomore standing and a 1.67 grade-point average on all work attempted;
- Third Year: a minimum of 90 credit hours passed after two semesters on junior standing and a 1.75 grade-point average on all work attempted.
- During the fourth year, a student must make satisfactory progress toward fulfilling requirements for a degree.

A year is normally interpreted as two full semesters or the equivalent. A full semester is one in which a student enrolls for 12 or more credit hours; two or more partial semesters in which a student enrolls for less than 12 credit hours, but which taken together total at least 12 credit hours, count as one full semester. Usually students will be promoted at the end of a year of work in a given class. Students needing an additional semester to attain minimum standards for continuation or graduation must be granted permission to enroll by Emory College of Arts and Sciences and must take all required work at Emory. In such cases, the additional semester will normally be the next consecutive one except for first-year students (see "Exclusion").

#### Academic Warning and Probation

Students on academic warning or probation will be expected to focus their time and energy on their studies in order to bring their work to the required standard.

- A dean in the Office for Undergraduate Education or the Committee on Academic Standards may, at their discretion and irrespective of grades, declare probationary status for any student who, in their opinion, is not properly using their time and talents.
- Any student whose cumulative or term grade-point average is less than 2.0 will be placed on academic probation.
- Any student who attains less than 1.5 grade-point average in a term, fails to pass two-thirds of their courses in a term, or needs a third term to promote will be placed on academic probation and will be informed that they are at risk for academic exclusion (see "Academic Exclusion"). These students will also be required to work with an advisor in the Office for Undergraduate Education to create a plan of action (POA) for the probationary period. The POA may require that students complete an educational program that reviews academic policies and resources. A dean may also at their discretion require any student on academic warning or probation to work with an advisor on a POA.
- Any student who has three or more Incomplete (I) grades on their transcript will receive an academic warning.
- Students with a 3.3 grade-point average or higher who are more than three credits short of promoting after two terms in a class will receive an academic warning.

#### Academic Advisory and Academic Watch

Students in these categories are not on probation but are at academic risk. The Office for Undergraduate Education will notify and work with students who are at academic risk. The goal is to help students achieve academic success, and avoid academic probation or exclusion.

#### **Academic Exclusion**

#### **One-Semester Exclusion:**

- Any student after the first year who fails for two successive semesters of full-time work to pass two-thirds of the hours taken, or fails to attain at least a 1.5 grade-point average, will be automatically excluded for one regular semester regardless of any previous average. A student who is excluded under this rule will not be eligible to apply for readmission for the next regular (not summer) semester. For students excluded at the end of the spring term, the period of exclusion begins at the conclusion of the spring term and ends at the end of the next fall term. A petition for readmission for any subsequent term will be reviewed by a dean in the Office for Undergraduate Education. A student who is readmitted and fails to meet the requirements set by the committee will be permanently excluded.
- A dean in the Office for Undergraduate Education reserves the right to exclude students prior to or at the end of the first year if their progress is not satisfactory. First-year students who, after two semesters, do not meet the 1.5 grade-point average required for continuation to sophomore standing (see "Continuation Requirements") may be excluded for one regular semester before being permitted to enroll for a third semester of academic work.

#### **Permanent Exclusion:**

A student who fails to meet minimum requirements for continuation from one class to the next after two semesters may
continue for one additional semester of residence only with the approval of the Committee on Academic Standards or the
Office for Undergraduate Education (see "Continuation Requirements"). Should a student, at the end of the third semester,
fail to meet minimum requirements for continuation, the student will be permanently excluded.

• A student who, after a semester-exclusion, is readmitted and fails to meet the readmission requirements set by a dean in the Office for Undergraduate Education will be permanently excluded.

EFFECTIVE SEMESTER: FALL 2020

## APPROVED: CURRICULUM, ASSESSMENT, AND EDUCATIONAL POLICY COMMITTEE, OCTOBER 30, 2019 (AND BY VOTE OF THE EMORY COLLEGE FACULTY ON MAY 5, 2020 FOR CHANGES TO THE GRADUATION REQUIREMENTS)

## COURSE LOAD REQUIREMENTS

To complete a degree within 8 full time semesters, a normal course load is 15 to 16 credit hours per semester. Students must enroll in 12 to 19 credit hours in any one semester with the following exceptions.

Students with a cumulative grade-point average of 3.0 or higher are permitted to take up to twenty-two credit hours (excluding physical education and applied music). Permission for additional physical education or music credit hours (up to twenty-four credit hours total) must be granted by the Office for Undergraduate Education.

Students may not take fewer than 12 credit hours in any one semester. Exceptions for medical or other circumstances may be granted by the Office for Undergraduate Education in consultation with the Office for Accessibility Services. (See the partial withdrawal policy for underloads occurring after Add/Drop/Swap.)

Seniors in their final semester of study may underload (enroll in fewer than 12 credits) or overload (enroll in more than 19 credits). Both of these require permission from the Office for Undergraduate Education before the end of the Add/Drop/Swap period. Seniors may underload in their final semester of study because they are not required to enroll for more credits than are needed to complete the degree. Seniors in their final semester of study with less than a 3.0 cumulative grade-point average may take up to 22 credit hours excluding physical education and music (and no more than 24 credit hours total).

Students with outstanding incomplete course grades may not overload in credit hours in subsequent semesters.

All credit for academic work must be awarded in the semester in which the work is undertaken, including summer sessions, directed readings, and internships.

#### APPROVED: CURRICULUM, ASSESSMENT, AND EDUCATIONAL POLICY COMMITTEE, OCTOBER 30, 2019

## CROSS-REGISTRATION

With permission of the Office for Undergraduate Education and the faculty advisor, fulltime students in good standing may enroll in courses offered by any of the member institutions of the Atlanta Regional Consortium for Higher Education (ARCHE), if the courses are not offered at Emory.

Students receive credit only, not grades, for these courses as part of their academic record at Emory. For courses taken under the quarter system, the credit hours are converted to semester credit hours at Emory. Courses taken through the ARCHE program count towards the limit of 20 credit hours of satisfactory/unsatisfactory courses that may be used towards the degree requirements.

Information and applications are available at the Registrar's website: www.emory.edu/Registrar.

Further information about cross-registration policies, procedures, and regulations may be obtained from the Office for Undergraduate Education, White Hall 300, 404.727.6069. Students from other colleges seeking to cross-register in an Emory course should contact the Registrar at 404.727.6042.

ARCHE Institutions Include:

- Agnes Scott College
- Breneau University

- Clark Atlanta University
- Clayton State University
- Columbia Theological Seminary
- Emory University
- Georgia Gwinnett College
- Georgia Institute of Technology
- Georgia State University
- Interdenominational Theological Center
- Kennesaw State University
- Mercer University-Atlanta
- Morehouse College
- Morehouse School of Medicine
- Oglethorpe University
- Savannah College of Art and Design-Atlanta
- Southern Polytechnic State University
- Spelman College
- University of Georgia
- University of West Georgia

#### APPROVED: CURRICULUM, ASSESSMENT, AND EDUCATIONAL POLICY COMMITTEE, OCTOBER 30, 2019

## DEGREE AUDIT

The Emory Degree Tracker is an OPUS tool that allows undergraduate students, advisors, and administrators the ability to audit student progress towards the fulfillment of general education, major, and minor requirements. Students are encouraged to review their progress towards graduation regularly and carefully. Students may access the online Academic Advisement Report via OPUS.

To view a report, use the following path:

OPUS > Academic Progress Tile > Degree Audit/Degree Tracker

It is the responsibility of all students to ensure that they meet the requirements for graduation as noted in the Emory College Catalog. Departments and programs provide final approval of any major or minor requirements.

#### **Reporting Questions**

Questions about the Degree Tracker may be submitted to the Degree Tracker team managed by the Office of the University Registrar. Questions related to individual requirements or advisement may be forwarded to a school administrator or advisor for further assistance.

#### APPROVED: CURRICULUM, ASSESSMENT, AND EDUCATIONAL POLICY COMMITTEE, OCTOBER 30, 2019

## EXCEPTIONS TO ACADEMIC REGULATIONS

Students may appeal to the Committee on Academic Standards for exceptions to or waivers of existing academic regulations and requirements in individual cases. For issues involving courses taken through study abroad, students may appeal to the Education Abroad Committee.

#### APPROVED: CURRICULUM, ASSESSMENT, AND EDUCATIONAL POLICY COMMITTEE, OCTOBER 30, 2019

FINAL EXAMS AND THE EXAM PERIOD

Emory College's policies for final exams and the examination period have been established to ensure students can adequately plan and study for their examinations and other final assignments. All faculty are expected to adhere to the policies below. Final exams are defined as any exam (or significant final assignment) given after the penultimate week of class.

- 1. Faculty members who give in-person final exams must give their exams during the final exam time scheduled by the Registrar's office. Faculty may not reschedule their exams. The deadline for any take home exams should correspond to the scheduled final exam time.
- 2. The deadline for final papers, projects, performances, and presentations may fall during the last week of class, at the scheduled exam time, or at the very end of the exam period. Faculty may not set deadlines for these projects at other points during the exam period or on reading days.
- 3. Reading days fall between the final day of class and the start of the exam period; they provide students time to prepare for final exams. Faculty may not assign deadlines for papers or other assignments during the reading days. Faculty may not reschedule final exams during the reading days.
- 4. Faculty may not give tests and exams during the last week of classes (i.e. the final five days when classes meet). Faculty should instead give those exams during the final exam period or during the penultimate week of class. Faculty may continue to give small quizzes, such as weekly vocabulary or chapter quizzes, during the final week of classes when those assessments are given periodically throughout the semester. Faculty may also give lab exams during the final week of class.
- 5. Faculty may use the entire 2.5 hour time slot scheduled for their final exam or some portion of that time according to their needs. If faculty plan to use less than 2.5 hours for the final examination, it is suggested that this is communicated with students in advance.
- 6. Exemptions to this policy must be approved at least one semester in advance by the Curriculum, Assessment, and Educational Policy Committee.

## APPROVED: CURRICULUM, ASSESSMENT, AND EDUCATIONAL POLICY COMMITTEE, FEBRUARY 22, 2019

## GRADING SYSTEM

## GRADES

A, A-, B+, B, B-, C+, C, C-, D+, D, and S are passing grades for which credit is awarded; F and U indicate failure or unsatisfactory and carry no credit; I (Incomplete) indicates that the student has not completed all the work for a course; IF and IU indicate failure to finish an Incomplete; IP indicates work in progress; W indicates withdrawal without penalty; WF indicates withdrawal failing; and WU indicates unsatisfactory withdrawal.

## QUALITY POINTS

For each semester hour of credit, quality points are computed as follows:

A = 4.0 A- = 3.7 B+ = 3.3 B = 3.0 B- = 2.7 C+ = 2.3 C = 2.0 C- = 1.7 D+ = 1.3 D = 1.0 F = 0.0

The grades of S, U, IU, and WU are given only for courses taken on a satisfactory/unsatisfactory basis (see <u>Satisfactory/Unsatisfactory Option</u>). S carries academic credit but no quality points; U or IU carries neither academic credit nor quality points. Neither W, WU, S, nor U grades count in computing a student's grade-point average. The grades of IF and WF are counted as F in computing a student's grade-point average.

The course instructor determines the scale and criteria for grading in individual courses. Students should not assume that all professors use identical grading scales or standards. Instructors should communicate their standards and systems as clearly as

possible in their course syllabi. Students should request clarification when necessary. The ultimate arbitrator of a grade is the relevant academic department or program.

When appropriate, faculty may correct a grade within one year of assigning it. After one year has passed, grade changes require the approval of the Senior Associate Dean for Undergraduate Education who may confer with the Committee on Academic Standards as needed.

#### APPROVED: CURRICULUM, ASSESSMENT, AND EDUCATIONAL POLICY COMMITTEE, FEBRUARY 19, 2020

## GRADUATION REQUIREMENTS

Subject to the limitations and qualifications stated elsewhere in this catalog, requirements for Bachelor of Arts and Bachelor of Science degrees are as follows:

- The four semesters of residence immediately prior to graduation must be taken in Emory College.
  - 1. For students who begin at Emory College of Arts and Sciences or transfer students this means their last 64 hours.
  - 2. For Oxford Continuees this means 54 hours with a minimum of three semesters of residence.
- A minimum of 127 credit hours, of which 124 credits hours must be in academic courses, not physical education. No more than 16 credit hours of applied music or 17 one-credit hour dance courses may be counted toward the 124 academic hours.
  - 1. For transfer students this could be 125 or 126 credit hours depending on PE Waivers based on credits.
  - 2. For Oxford Continuees, the total is still 127 credit hours, including a minimum of 2 PE credits and a third academic or PE credit.
- A grade-point average of at least 2.0 for all work attempted for a letter grade.
- Fulfillment of the course requirements for a major, as determined by the major department or program, with a minimum 2.0 average.
- Fulfillment of the General Education Requirements.
- Satisfaction of all financial obligations to the College and Emory University.
- No degree may be conferred to a student while he or she is suspended from Emory College under the provisions of the College Honor Code or University's Conduct Code.

#### **Application for Degree**

In order to be a degree candidate for any given term, students must file an application for the bachelor's degree with the College's Office for Undergraduate Education at the beginning of the semester they expect the degree to be conferred. The application deadlines are indicated in the academic calendar. Forms for this purpose are available online. Students who file an application after the deadline specified in the academic calendar must pay a special processing charge of twenty-five dollars and cannot be assured that their names will appear in the commencement program or that their diplomas will be available at commencement.

Commencement exercises are held annually in May for all students who completed all graduation requirements in the previous summer term, the previous fall term, or the current spring term.

#### **Financial Requirements for Graduation**

It is a requirement for graduation that all financial obligations to the University shall have been satisfied. In the case of outstanding loans not then due and payable, loan documents satisfactory to the University must have been executed and delivered to it, and all payments must be current.

#### EFFECTIVE SEMESTER: FALL 2020

#### APPROVED: BY VOTE OF THE EMORY COLLEGE FACULTY ON MAY 5, 2020

NOTE: FOR STUDENTS WHO MATRICULATED TO EMORY COLLEGE OR OXFORD COLLEGE PRIOR TO FALL 2020, A 1.9 CUMULATIVE GRADE-POINT AVERAGE IS REQUIRED TO GRADUATE. TRANSFER STUDENTS WHO MATRICULATED PRIOR TO FALL 2020 ARE STILL REQUIRED TO ACHIEVE A 2.0 CUMULATIVE GRADE-POINT AVERAGE TO GRADUATE.

## HONOR CODE

#### OVERVIEW

For nearly a century, academic integrity has been maintained on the Emory campus through the student initiated and regulated Honor Code.

All students who apply to and are accepted by Emory College, as a condition of acceptance, agree to abide by the provisions of the Honor Code so long as they remain students at Emory College. By their continued attendance at Emory College, students reaffirm their pledge to adhere to the provisions of the Honor Code.

The <u>Undergraduate Code of Conduct</u> provides information about the behavioral expectations relating to non-academic conduct.

The Emory College Honor Council website provides additional information about the Honor System at Emory.

For questions about the Honor Code, or to report a possible violation, please contact:

Ms. Blaire Wilson, Associate Director of the Honor Council, at 404-727-8928, or blaire.wilson@emory.edu.

#### PREAMBLE

Emory College of Arts and Sciences is a community of students and scholars that is steadfast in its commitment to academic integrity. All members of this community are bound by a shared duty to uphold the highest level of academic honesty. While the College is committed to establishing and maintaining an Honor Code that protects us from all forms of academic misconduct, this community of integrity cannot thrive unless we embody, in all academic pursuits, the core principles of honesty and fairness. Emory's mission—to create and apply knowledge in the service of humanity—can only be fulfilled when we, as its members, value the great responsibility we have been entrusted and conduct our lives to the dictates of the highest integrity.

#### **ARTICLE 1: HONOR COUNCIL**

There shall be a body to be known as the Honor Council, charged with the duties of presenting the honor system to all freshmen and new students and acting as a fact-finding body for the determination of Honor Code violations. The Honor Council shall recommend the consequences for dishonesty in academic work.

#### **ARTICLE 2: MEMBERSHIP OF THE HONOR COUNCIL**

Section 1. The Honor Council shall consist of no fewer than fifteen (15) and no more than twenty-five (25) student members and six (6) students eligible to serve on the Appeal Panel. Only students enrolled in the College whose primary program of study is offered by the College shall be eligible for membership. Students shall not become eligible for membership until the second semester of their sophomore year in the College. Membership shall be announced by May 1. Each member of the Honor Council and Appeal Panel shall normally be eligible to serve until graduation. In the case of a member or eligible student who does not register for any semester (exclusive of any summer enrollment period), the Dean of the College shall name a replacement until the next regular selection of members under Section 3 of this article.

**Section 2.** The executive head of the Honor Council shall be a Chairperson who shall be nominated by the Dean of the College and approved by a majority vote of the members of the Council. The Chairperson shall serve not more than twelve (12) months. The Dean of the College may create other officer positions to assist the Chairperson. The Dean shall nominate members to fulfill these roles, and their appointment shall be approved by a majority of the members of the Honor Council. The Chairperson and any other officers shall be privileged to vote on all questions.

**Section 3.** A selection committee drawn from student members and faculty advisors of the Honor Council shall be appointed by the Dean of the College and the Chairperson of the Honor Council. It shall also include at least one (1) representative of the College Council chosen in consultation with the President of the College Council. The selection committee will reduce the list of applicants to two (2) times the number of vacant seats. The Honor Council shall then make the final selection of members and of the pool of students eligible to serve on the Appeal Panel.

Section 4. A quorum of the Honor Council shall be four (4) of the student members. No member of the Honor Council may hear a case when he or she is a reporting party or witness or otherwise has a conflict of interest. If a quorum cannot be assembled for a hearing, the Dean of the College may appoint student members of the Appeal Panel as temporary members in order to reach a quorum. If a quorum is still not achieved, the Dean may appoint sufficient temporary members from the pool of students who would be eligible to serve on the Honor Council as defined in Section 1 of this article. The Dean shall train any temporary members before they may hear a case.

**Section 5.** The Dean shall annually appoint no fewer than ten (10) faculty advisors to the Honor Council. These advisors shall assist the Honor Council members in investigations and participate as voting members in hearings of the Honor Council.

Section 6. The Dean may convene a Summer Honor Council to adjudicate cases reported at the conclusion of the spring semester or during the summer session. The Summer Honor Council shall consist of no fewer than five (5) members. All current members of the Honor Council are eligible to serve. If there is not a sufficient number of members to adjudicate cases, the Dean may extend the term of members of the Honor Council who graduated in the preceding spring semester or appoint a sufficient number of temporary members, who shall serve on the Honor Council until the start of the fall semester.

**Section 7**. The Dean may temporarily or permanently remove from the Honor Council any member who compromises the integrity of the Honor Code process, fails to meet the duties of the position, is unable to participate objectively and without bias, or is reported for an Honor Code violation. Should the Honor Council member wish to contest this temporary or permanent removal, a written appeal of the decision may be submitted to the Appeal Panel within seven days of receiving the Dean's decision. The Appeal Panel shall review the circumstances that led to the removal and make a final, non-appealable recommendation that the Dean's decision be upheld, modified, or overturned.

## **ARTICLE 3: JURISDICTION**

All students enrolled in any course or program at Emory College of Arts and Sciences are expected to abide by the Emory College Honor Code. The Emory College Honor Council shall have jurisdiction over cases of academic misconduct that occur in any course within Emory College, regardless of the degree program in which the student is enrolled. The Emory College Honor Council will report all decisions, including verdicts and recommended sanctions, to the dean of the school in which the reported student is enrolled. The dean of the respective school may accept or modify the recommended sanction before reporting it to the student. The student may appeal the decision, according to the procedures listed in Article 7 below.

An Emory College student who enrolls in a course or program in another school of Emory University must abide by the Honor Code of that school. Cases of alleged academic misconduct will be decided by the Honor Council of the school where the violation occurred. Upon the conclusion of any such case, the verdict and recommended sanction will be reported to the Dean of Emory College, who may accept or modify the recommended sanction. The student may appeal the decision, according to the procedures set forth in the Honor Code of the school where the violation occurred.

In cases when the Honor Council has appropriate jurisdiction that may overlap with another school, the Dean of the College has discretion to recommend that a case be remanded to the school in which the student is enrolled. Moreover, the Emory College Honor Council may hear cases that originate in other schools upon the request of the dean of the school in which the student is enrolled.

In cases when an Honor Code violation is reported after a student has graduated and the violation relates to a course that was required for the conferral of the degree, the Dean has discretion to refer the allegation to the Honor Council for adjudication. The Honor Council may recommend and the Dean may enforce any outcome enumerated in the Honor Code in Article 6, Section 1.i, including revocation of the degree.

#### **ARTICLE 4: ACADEMIC MISCONDUCT**

**Section 1.** Academic misconduct is generally defined as any action or inaction which is offensive to the integrity and honesty of the members of the academic community. In addition to the violations enumerated in this article, instructors within Emory College of Arts and Sciences have reasonable discretion to establish specific standards and policies as related to their courses and assignments. Such additional standards and policies should be clearly articulated in the syllabus, in an assignment, or otherwise conveyed as an expectation by the instructor. It is the responsibility of each student to understand the policies established in the Honor Code, syllabi, and assignments, and act accordingly.

The Honor Code shall include an appendix that provides information about common forms of academic misconduct. The Emory College Honor Council will update the appendix on a regular basis. As the purpose of the appendix is to provide information and instruction about academic integrity, it may be revised without amendment.

Section 2. Academic misconduct includes, but is not limited to, the following actions:

(a) Seeking, acquiring, receiving, or giving information about the content or conduct of an examination, knowing that the release of such information has not been authorized;

(b) Plagiarizing, whether intentionally or unintentionally, in any assignment;

(c) Seeking, using, giving, or obtaining unauthorized assistance or information in any academic assignment or examination;

(d) Intentionally giving false information to professors, instructors, or university officials for the purpose of gaining academic advantage;

(e) Seeking to gain or to provide an unfair advantage during course registration;

(f) Falsifying, altering, or fabricating academic records, forms, or correspondence, including, but not limited to, transcripts, withdrawal forms, degree applications, or letters of recommendation, whether the documents/information are submitted within Emory University or to a third party;

(g) Intentionally sabotaging the academic work of another student;

(h) Intentionally giving false testimony or evidence in any Honor Council hearing or refusing to give evidence when requested by the Honor Council;

(i) Harassing, threatening, coercing, or bribing witnesses involved in any Honor Code case;

(j) Violating the Electronic Device Policy as described in Section 3 of this article;

(k) Violating the Testing Policy as described in Section 4 of this article; and

(I) Breaching any duties prescribed by this code.

**Section 3.** Electronic Device Policy: The use of a cell phone, smartphone, tablet, laptop, or similar device for any reason during times of examination or evaluation, including quizzes, tests, midterm and final exams, or similar assignments, shall be prohibited. Instructors are entitled to make exceptions to allow the use of an electronic device for any exam. In the absence of explicit permission to use such a device, it is assumed that such devices are not permitted.

If a student is found using an electronic device during an exam or similar assignment, the instructor should inform the student of the issue and may ask the student to store the device until the completion of the exam. The instructor should allow the student to complete the exam before reporting the incident to the Honor Council.

Section 4. Testing Policy: Instructors are entitled to establish reasonable policies to protect the security and integrity of their examinations, including quizzes, tests, midterm and final exams, and similar assignments. These policies may include, but are not

limited, to: prohibitions against large bags, coats, hats, notebooks, electronic devices, or course materials; requirements to place materials unrelated to the examination outside or at the front of the classroom; assigning seats to students; moving students during an examination; requiring a student to stop writing when time is called; and prohibiting the replication of exam materials or their removal from the testing environment. Any additional policies should be outlined in the syllabus and/or written instructions for the exam.

If a student fails to comply with the stated policies of the exam prior to the start of the exam, the instructor may withhold the exam until the student complies with the testing policies (the instructor shall not be compelled to provide additional time for the completion of the exam). If a student fails to comply with or violates the stated policies of the exam after the exam has begun, the instructor may take reasonable steps to secure the integrity of the exam, but should allow the student to complete the exam before reporting the incident to the Honor Council.

#### **ARTICLE 5: REPORTING CASES**

It is the responsibility of every member of the faculty, staff, and student body to cooperate in supporting the honor system. In accordance with this responsibility, when an individual suspects that an offense of academic misconduct has occurred, the individual shall report the suspected breach to the course instructor, a member of the Honor Council, a faculty advisor to the Honor Council, the Honor Council administration, or the Dean of the College. The Dean may dismiss the allegation without referring it for a further investigation, if upon preliminary review, the conduct does not appear to constitute academic misconduct, if there is insufficient evidence to pursue an investigation, or if the Dean deems the suspected offense trivial in nature.

#### **ARTICLE 6: PROCEDURE**

**Section 1.** (a) On receipt of a report of a suspected violation, the Dean shall inform the reported student in writing of the course and work involved in the allegation and shall refer the student to the Emory College Honor Code website. If the report is referred by the Dean for an investigation, the Chairperson of the Honor Council shall designate one (1) member of the Honor Council and one (1) faculty advisor to investigate the charge. The investigators shall meet with the reporting party and separately with the reported student, may interview other potential witnesses, and shall review any documentary and physical evidence deemed relevant by the Council. The reported student may suggest the names of witnesses who can provide information and additional documentary or physical evidence not previously brought to the attention of the investigators. If the investigators determine that there is no reasonable suspicion that an Honor Code violation occurred, they shall recommend to the Dean that the case be dismissed. If, instead, the investigators determine there is a reasonable suspicion of an Honor Code violation, they shall refer the case to a hearing.

(b) If the investigators recommend the case be dismissed, they shall promptly prepare and submit a report of the investigation to the Dean. If the Dean accepts the recommendation, the Dean shall notify the student in writing of the decision as quickly as possible and normally within seven days. If the Dean does not accept the recommendation, the student shall be referred to a hearing according to the procedures outlined below.

(c) If a decision is made to refer the case for a full hearing, the Honor Council student investigator shall schedule the full hearing as promptly as possible and shall notify the reported student of the date and time.

(d) Full hearings shall be fair and impartial. Formal rules of evidence do not apply to Honor Council proceedings. On a case-by-case basis, the Honor Council has broad discretion in considering and weighing information it deems relevant, in the form of documents, witness testimony/accounts, and other forms of information, in its proceedings. Witnesses will testify without oath, but with the understanding of university policies applicable to their participation, and written statements may be submitted from unavailable witnesses. With the exception of testifying witnesses, only the members of the Honor Council, the faculty advisors to the Honor Council, the reported student, and the student's advisor, may be present during the hearing. The student members of the Honor Council and the faculty advisors to the Honor Council may attend the hearing either as deliberating members or as silent observers for the purposes of training. The reported student shall have the right to testify and to make a closing statement. The reported student may be accompanied by a student or faculty member of the College as an advisor for purposes of consultation, but neither the reported student nor the advisor shall have the right to directly question witnesses. Rather, the reported student may request

that the members of the Honor Council ask specific questions of the reporting party and any witness, and the Honor Council has discretion to determine whether the question is relevant and should be asked, to reframe the question as deemed appropriate, or to decline to ask the question based on irrelevance. The Chairperson may suspend the hearing at any point in order to provide additional time to collect evidence, to resolve questions related to the case, to clarify answers to procedural questions, or to provide sufficient additional time for the testimony and deliberation. If the hearing is suspended, the Chairperson shall reconvene the meeting at the earliest possible date, but within seven days, absent extenuating circumstances.

(e) For cases in which multiple students are suspected of the same violation or a related violation, the Dean shall decide whether a single collective hearing for all reported students or an individual hearing for each reported student is appropriate. In either case, any of the reported students may be accompanied by a student or faculty member of the College as an advisor, so long as that advisor is not involved as a reported student or witness in the case or otherwise has a conflict of interest. Should the Honor Council hold a single hearing for all students involved, each student shall have the right to hear the testimony of any witness other than those students reported as part of the same case. Should the Honor Council hold individual hearings for each student involved, the Honor Council may require the reported students to appear as witnesses at the individual hearings.

(f) For cases in which one student is suspected of multiple violations in a single class, the Honor Council may hold a single hearing to consider all charges. For cases in which one student is suspected of violations in multiple classes, the Honor Council shall normally hold separate hearings to consider charges in each class; however, the reported student may make a request to the Dean that all charges be resolved at a single hearing. The Dean has the discretion to grant or deny the request.

(g) Should there be a suspicion that a reported student has deliberately misrepresented information while testifying or has provided false evidence, the Honor Council may consider additional charges at the hearing provided that the reported student has an opportunity to respond to those charges. In addition, the Honor Council may appropriately refer matters to the student conduct office that has jurisdiction over the student's actions.

(h) At the conclusion of the evidence, the investigator shall make a brief report about the findings of the investigation and may discuss the strength or weakness of any evidence involved. The Honor Council and faculty advisors may ask additional questions of any party before retiring to deliberate in private. Only evidence presented at the hearing will be considered in reaching a decision. For a finding of an Honor Code violation, the Honor Council must determine by a unanimous vote of four (4) Honor Council members and one (1) faculty advisor that there is clear and convincing evidence of a violation. "Clear and convincing" evidence means that a particular fact(s) is substantially more likely to be true than not to be true. If the reported student is found responsible, the Honor Council shall recommend any consequence(s) by majority vote.

- (i) The following consequences may be imposed after a finding of academic misconduct:
- (1) An educational program;
- (2) A verbal reprimand without an entry on the student's Personal Performance Record;
- (3) A written reprimand with an entry on the student's Personal Performance Record;
- (4) A zero on the assignment or other penalty to the student's grade on the assignment or the course;
- (5) A failing grade in the course, which will appear on the student's permanent transcript;
- (6) Suspension (specifying the period of suspension);
- (7) Permanent exclusion from Emory University;
- (8) Revocation of an Emory College degree that has been previously awarded;

(9) Such combination of sanctions or other sanction as may appear appropriate.

(j) After the hearing, the Honor Council shall promptly prepare a summary report of information that was considered in reaching its findings, which shall be transmitted to the Dean of the College with the accompanying recommendation and all documentary and

physical evidence before the Honor Council. The Dean may impose the recommended consequences or consequences of greater or lesser severity. Absent extenuating circumstances, the Dean shall notify the student in writing of the Dean's decision and the consequences imposed within ten days.

**Section 2.** (a) A reported student may, in an appropriate case, request an expedited hearing in writing to the Dean. Use of the expedited hearing procedure is appropriate in cases where there is evidence that the reported student has committed some violation of the Honor Code, the student admits to violating the Honor Code, and formally requests an expedited hearing before a special three-person panel rather than a full hearing before the Honor Council. Prior to the expedited hearing, the reported student must waive the right to appeal the decision and must acknowledge that use of the expedited hearing procedure does not in any way imply a recommendation for a lesser penalty.

(b) In each expedited hearing the special three-person hearing panel shall normally consist of:

- (1) The Dean of the College;
- (2) The Chairperson (or another voting student member of the Honor Council); and
- (3) A faculty advisor of the Honor Council.

(c) The panel will hear an admission of violating the Honor Code directly from the reported student, receive all evidence previously gathered by the investigating team, and may receive any additional statements from the reported student and ask questions as the panel deems useful. After the reported student and the student's advisor leave the hearing room, the members of the panel shall review the evidence and the reported student's admission of violating the Honor Code to decide if an independent finding of the alleged Honor Code violation is warranted. If the panel unanimously determines that the admission of violating the Honor Code is acceptable in light of all the evidence, then the panel members upon reviewing all relevant factors shall determine by majority vote an appropriate consequence. Absent extenuating circumstances, the Dean shall notify the student in writing of the outcome of the hearing within seven days.

**Section 3.** (a) For cases reported in the same term that a student is scheduled to graduate or cases in which the student will not be enrolled in classes on Emory's campus during the next regular term, the Dean has discretion to offer the student an administrative hearing, which will be held before a special three-person panel. The student in question holds the right to accept the administrative hearing or have his or her case heard in the next regular term according to the procedures outlined in Article 6, Section 1. Unlike an expedited hearing, the use of an administrative hearing does not require the student to admit to a violation, and the reported student retains the right to appeal the verdict and sanction. In pursuing an administrative hearing, the student waives the right to a full investigation of the case and will appear before a small panel, which will render a decision about the case.

(b) Should the reported student accept the opportunity for an administrative hearing, the Dean shall collect any evidence and a written statement from the reporting party and present these to the reported student at least twenty-four (24) hours prior to the hearing.

- (c) The administrative hearing panel shall consist of:
- (1) The Dean of the College;
- (2) The Chairperson (or another voting student member of the Honor Council); and
- (3) A faculty advisor of the Honor Council.

(d) Administrative hearings shall be fair and impartial. Formal rules of evidence do not apply to Honor Council proceedings. On a case-by-case basis, the Honor Council has broad discretion in considering and weighing information it deems relevant, in the form of documents, witness testimony/accounts, and other forms of information, in its proceedings. Witnesses will testify without oath, but with the understanding of university policies applicable to their participation, and written statements may be submitted from unavailable witnesses. With the exception of testifying witnesses, only the members of the administrative hearing panel, the reported student, and the student's advisor, may be present during the hearing. The reported student shall have the right to testify and to make a closing statement. The reported student may be accompanied by a student or faculty member of the College as an

advisor for purposes of consultation, but neither the reported student nor the advisor shall have the right to directly question witnesses. Rather, the reported student may request that the members of the administrative hearing panel ask specific questions of the reporting party and any witness, and the administrative hearing panel has discretion to determine whether the question is relevant and should be asked, to reframe the question as deemed appropriate, or to decline to ask the question based on irrelevance. The Dean may suspend the hearing at any point in order to provide additional time to collect evidence, to resolve questions related to the case, to clarify answers to procedural questions, or to provide sufficient additional time for the testimony and deliberation. If the hearing is suspended, the Dean shall reconvene the meeting at the earliest possible date, but within seven days, absent extenuating circumstances.

(e) For a finding of an Honor Code violation, the panel must determine by a unanimous vote that there is clear and convincing evidence of a violation. "Clear and convincing" evidence means that a particular fact(s) is substantially more likely to be true than not to be true. An appropriate consequence will be sanctioned by majority vote. Absent extenuating circumstances, the Dean shall notify the student in writing of the Dean's decision and the consequences imposed within seven days. The student will have the right to appeal the decision according to the procedures set forth in Article 7.

Section 4. (a) If a reported student fails to respond to messages of the Honor Council in a timely manner or is absent from any investigative meetings or hearings without good cause, the Honor Council may investigate and/or hear the case in the student's absence.

(b) A student may not withdraw from a course in which an Honor Council investigation is pending. Should a student withdraw from a course, and it is later determined that the student's work was in violation of the Honor Code, the Dean may impose a grade of F or WF upon the recommendation of the Honor Council.

(c) The procedures for investigations and hearings may be modified at the discretion of the Dean in response to any exigencies. These changes shall normally be limited to modifications of the size or composition of investigation teams and hearing panels. The reported student shall have the right to accept any modifications or to reject the modifications and resolve the case according to the procedures outlined in Article 6.

## **ARTICLE 7: APPEAL**

(a) A decision by the Honor Council and/or the sanction(s) imposed may be appealed to the Dean of the College. Such appeal must be submitted to the Dean within seven (7) days after the student has been given written notification of the Honor Council decision and sanction from the Dean. As part of the appeal, the student must present to the Dean a written statement of the basis for the appeal. If the Dean has not received such a written statement within the specified time, the decision of the Honor Council will stand.

(b) Upon receipt of an appeal, the Dean shall appoint an Appeal Panel of four (4) persons to advise the Dean concerning the outcome of the case. The Appeal Panel shall consist of two (2) Emory College faculty members and two (2) students, who have had no prior involvement in the case.

(c) The panel shall review the records in the case and make a recommendation to the Dean. The Appeal Panel may consult with members of the Honor Council. The Dean may then deny the appeal and affirm the finding(s) and sanction(s), modify the sanction(s), or request that the case be remanded to the Honor Council for a rehearing that will adhere to the process and rules outlined in Article 7 section d.

(d) If the panel determines that the case should be remanded to the Honor Council for a rehearing, the Chairperson of the Honor Council shall schedule a hearing that includes only Honor Council members who have had no prior involvement in the case. A total of four (4) members and one (1) faculty advisor shall be appointed for the rehearing. If four Honor Council members are not available, then students on the Appeal Panel who have had no prior involvement in the case may complete the quorum of four student members. The Dean shall also ask one member of the Appeal Panel to attend the hearing as a non-voting member. The Appeal Panel member will ensure that the concerns of the Appeal Panel are addressed at the hearing and may participate in the deliberation but may not vote on the question of whether the Honor Code was violated. In general, any and all evidence available at the first hearing shall be available to the Honor Council at the rehearing, including reporting parties and witnesses, unless the basis for the rehearing was related to reliance on problematic information or evidence. Should reporting parties or witnesses be deemed unavailable by the

Dean, a written statement should be provided if possible. The rehearing shall conform to the procedures outlined in Article 6, Section 1 d-j, from this point forward.

(e) When the proceedings of the Appeal Panel are concluded, the Appeal Panel shall confer with the Dean who shall render a final decision on the appeal and inform the student of the decision in writing.

#### **ARTICLE 8: HONOR PLEDGE**

Each student in the College assumes the Honor Pledge, and has a duty to know the Honor Code and its provisions. If a professor has special or additional requirements beyond the standards articulated in the Honor Code, the professor must explain the additional course requirements at the beginning of the semester or before any assignment to which these requirements apply.

#### **ARTICLE 9: MISCELLANEOUS**

(a) All proceedings under the Honor Code are confidential and those participating in the proceedings have a duty to keep information related to it confidential. Breaches of the requirement for confidentiality are addressed through this Code, any applicable conduct codes, or employee action for breaches of university policy. Nothing in this paragraph shall restrict communication to officials of the University where knowledge is necessary in the performance of the officials' duties, nor shall it restrict disclosure required by law.

(b) Wherever "Dean" or "Dean of the College" appears in this Code, each shall include any person designated by the Dean of Emory College to act for the Dean.

(c) Wherever "Chair, Chairperson, or Chairperson of the Honor Council" appears in this Code, each shall include any member of the Honor Council designated by the Chairperson of the Honor Council to act in the Chair's stead.

(d) Amendment of this Code shall be by two thirds (2/3) vote of the student members of the Honor Council, with the consent of the Dean, subject to ratification by a majority of those Emory College students voting in an election for that purpose.

(e) There shall be an Emory College Committee for Academic Integrity formed for the purpose of striving to prevent academic dishonesty and misconduct through educational programs and endorsing the positive promotion of academic integrity on campus. It will seek to cultivate students with an enhanced understanding of, and appreciation for, academic and individual honesty.

## APPENDIX 1: THE USE OF SOURCES IN WRITING PAPERS IN EMORY COLLEGE

A writer's facts, ideas, and phraseology should be regarded as his or her property. Any person who uses a writer's ideas or phraseology without giving due credit is responsible for plagiarism.

Information may be put into a paper without a footnote or some kind of documentation only if it meets all of the following conditions:

It may be found in several books on the subject. It is written entirely in the words of the student. It is not paraphrased from any particular source. It therefore belongs to common knowledge.

Generally, if a student writes while looking at a source or while looking at notes taken from a source, a footnote should be given.

Whenever any idea is taken from a specific work, even when the student writes the idea entirely in his or her own words, there must be a footnote giving credit to the author responsible for the idea. Of course methods of documentation vary, and it is possible to cite

in the text itself rather than a footnote. The point is that the student should give credit when credit is due and that he or she should give the credit in a manner specified by the instructor of the course or the department.

The student is entirely responsible for knowing and following the principles of paraphrasing. "In paraphrasing you are expressing the ideas of another writer in your own words. A good paraphrase preserves the sense of the original, but not the form. It does not retain the sentence patterns and merely substitute synonyms for the original words, nor does it retain the original words and merely alter the sentence patterns. It is a genuine restatement. Invariably it should be briefer than the source."\*

\* Floyd C. Watkins, William B. Dillingham, and Edwin T. Martin, Practical English Handbook, 3rd ed. (Boston, 1970), p. 245.

Any direct quotation should be footnoted (or documented in any acceptable fashion). Even when a student uses only one unusual or key word from a passage, that word should be quoted. If a brief phrase that is common is used as it occurs in a source, the words should be in quotation marks. The source of every quotation should be given in a footnote or in the prescribed manner.

It is of course the prerogative of the instructor to prescribe that no secondary sources may be used for particular papers.

A student who uses a secondary source must remember that the very act of looking up a book or an article should be considered as a pledge that the student will use the material according to the principles stated above.

## APPENDIX 2: Common Forms of Academic Misconduct

Article 4 of the <u>Honor Code</u> gives some of the general types of violations. This webpage clarifies the Honor Code by providing typical examples of academic dishonesty. This list is not intended to be exhaustive. If you are in doubt about any action, contact your professor for clarification.

## <u>Exams</u>

Any attempt to gain or give an unfair advantage during an exam is considered a violation of the Honor Code. Such violations include:

- Attempting to look at or copy another student's exam
- Attempting to provide answers to another student
- Programming a calculator with answers or other information
- Accessing information on a smart device
- Using notes or other unauthorized information during an exam
- Looking at an older version of the exam without the professor's permission
- Using a test bank or fraternity tub file without the professor's permission
- Taking an exam for someone else or having someone take an exam for you
- Submitting someone else's name on an exam

Because study partners often have similar answers on an exam, the Honor Council recommends that students not sit near their study partners during a quiz or test.

The use of an electronic device for any reason during an exam or testing situation is strictly prohibited and violates the Honor Code.

## Written Assignments

Plagiarism is the use of someone else's words, ideas, or work without providing proper credit. Whether the act is intentional or not, the Honor Council considers any form of plagiarism to be a violation of the Honor Code. Some examples of plagiarism and other academic misconduct in written work include:

- Using someone else's words without quotation marks and proper attribution
- Using information or ideas without acknowledging the source

- Paraphrasing a text without acknowledging the source
- Improperly paraphrasing a passage by using language or structure that is too similar to the original source
- Purchasing a paper or using an online paper assistance website
- Having any one than yourself write any part of your paper
- Using false page numbers or creating false citations

#### **Group Work and Collaboration**

Collaboration on a paper, test, lab, homework, or any other assignment is only allowed with the express permission of the professor. Do not assume that because you are allowed to collaborate on one type of assignment or in one class that you are allowed to do the same with other assignments or other classes. When in doubt, always ask your professor. Violations involving multiple students and group work include:

- Copying any part of an assignment, including answers, graphs, figures, and data
- Sharing your paper or assignment with another student without the professor's permission
- Including someone's name on a project for credit when s/he didn't contribute to the work

The Honor Council advises students to refrain from sending or providing copies of their work to other students to prevent this work from being stolen or copied.

#### **Other Issues**

There are a number of others actions that constitute academic misconduct. These include, but are not limited to:

- Submitting the same or similar work for more than one class without the approval of both professors (double submission)
- Providing false information to a professor (e.g. falsely claiming sickness or a family death)
- Creating false data for an assignment
- Signing someone else into class
- Using a clicker other than your own during class
- Forging a signature on an academic document
- Falsifying a transcript or other university document
- Seeking to gain or provide an unfair advantage during registration
- Resubmitting altered work for a higher grade
- Intentionally sabotaging the academic work of another student
- Intentionally disrupting the conduct of an exam to gain or provide an academic advantage
- Intentionally preventing other students from accessing resources for an assignment
- Offering a professor a bribe for a higher grade
- Lying or creating false evidence at any point during an Honor Code investigation
- Violating confidentiality in an Honor Code case
- Refusing to submit evidence in an Honor Code case

#### APPENDIX 3: Academic Misconduct in the Remote Learning Environment

As members of Emory University's academic community, you are expected to adhere to the standards set forth in the Honor Code regardless of whether you are completing course work in person or remotely. Accordingly, be aware that the Honor Code can be implicated in certain instances when you interact and collaborate with others, or when you consult, discuss, use, or share your own work or the work of others, especially in the remote learning environment. In addition, there are other forms of misconduct that may be specific to remote or online formats. The list below is not intended to be exhaustive. **If you are in doubt about whether actions you are contemplating taking are problematic, you should contact your professor directly for clarification.** 

#### Exams Administered in Synchronous & Asynchronous Sessions

Any attempt to provide or gain an unfair advantage may be considered a violation of the Honor Code. Such violations include:

- Asking another individual to complete an exam on your behalf
- Attempting to access another student's exam
- Attempting to provide answers to another student through any form of communication. This may include: email, text
  message, phone call, instant messaging applications or programs, file sharing, screen sharing, or screen mirroring of any
  kind
- Disseminating information about the contents of an exam to one or more students
- Attempting to screen capture, copy, or retain exam questions for yourself or others without the permission of the instructor
- Sharing your login credentials with others for the purpose of providing or seeking unauthorized assistance
- Accessing course content or materials related to the course during an exam (except when permission has been given for an open-book or open-resource exam)
- Plagiarizing content in an open-book or open-resource exam
- Accessing the internet beyond the exam administration platform (i.e. Canvas, Examity)
- Failing to share your screen with the instructor when requested
- Failing to cooperate with the exam proctor. This may include: failing to keep your webcam on as instructed, leaving the view of your webcam, or failing to use the webcam to demonstrate that your exam space is clear
- Failing to follow any instructions related to the Honor Code or academic integrity

**Electronic Device Policy:** The remote teaching environment often requires the use of a computer to complete your work. Be advised that the use of other electronic devices for any reason during an exam or testing situation without explicit permission from your professor is strictly prohibited and violates the Honor Code. This includes but is not limited to calculators, mobile phones, tablets, smartwatches, or any other device.

#### Written Assignments Submitted in the Remote Teaching Environment

Plagiarism is the use of someone else's words, ideas, or work without providing proper credit. Whether the act is intentional or not, the Honor Council considers any form of plagiarism to be a violation of the Honor Code. Some examples of plagiarism and other academic misconduct in written work submitted to courses through remote instruction include:

- Collaborating with others when the work is expected to be individual (this could be as broad as sharing ideas)
- Seeking editing assistance from unauthorized individuals such as paid tutors or editors
- Seeking assistance of any kind from a native speaker in language courses
- Soliciting others to complete your academic work (whether for pay or not)
- Completing academic work for other students (whether for pay or not)

#### **Dissemination of Content Related to the Course**

Lectures and other classroom presentations presented through video conferencing and other materials posted on Canvas are for the sole purpose of educating the students enrolled in the course. The release of such information (including but not limited to directly sharing, screen capturing, or recording content) is strictly prohibited unless the instructor clearly states otherwise. Doing so without the permission of the instructor will be considered an Honor Code violation, and may also be a violation of state or federal law, such as the Copyright Act. All other University policies remain in effect for students participating in remote education

----

EFFECTIVE JANUARY 10, 2017. THIS VERSION OF THE HONOR CODE SUPERSEDES ALL PREVIOUS VERSIONS.

## **INCOMPLETES & ABSENCES**

## INCOMPLETE WORK

A student may be granted formal permission by the Office for Undergraduate Education, in consultation with the course instructor, to defer the final examination or other parts of a course. The student must have completed at least 50 percent of the course work, be able to pass the course upon completion of the remaining work, and be able to complete the remaining work independently (apart from the administration of any missed quizzes or exams).

Approval of incompletes is based on information provided by the instructor as well as documentation provided to the Office for Undergraduate Education by the student of the specific health or personal circumstances. When permission is granted, the notation "I" is recorded for the course in OPUS by the instructor.

All incomplete work must be completed during the student's next semester of residence no later than the deadline as printed in the Registrar's academic calendar, or within twelve months if the student does not re-enroll in the College during that year. In some circumstances related to documented health or hardship issues, an instructor may agree to an extension of the deadline. This extension will be reported to the Office for Undergraduate Education, and the reasons for the extension will be documented.

Students are strongly encouraged to resolve all incompletes before studying abroad, and a significant amount of incomplete work may prevent a student from studying abroad. All incomplete work must be resolved and a grade posted prior to certification of an Emory degree.

Failure to complete the course by the appropriate deadline will result in a grade of IF or IU unless the student provides to the Office for Undergraduate Education documentation of extenuating circumstances that will allow the "I" to be changed to a "W" (withdrawal). This change is granted only in cases of significant hardship or health issues or when an instructor is no longer available to receive the outstanding work.

Students may also receive an "I" for any class in which an Honor Code suspicion has been reported. The incomplete is not subject to the regular incomplete deadline, and a final grade will be posted for the course once the Honor Code matter has been resolved.

## ABSENCES

Students are expected to attend classes regularly. Although the College does not impose any automatic administrative penalties for a reasonable number of absences from class or laboratory, instructors may impose such penalties for their individual courses or set other specific policies about attendance and punctuality. Students should understand that they are responsible for the academic consequences of absence.

## ABSENCES FROM EXAMINATIONS

A student who fails to take any required midterm or final examination at the scheduled time may not make up the examination without written permission from a dean in the Office for Undergraduate Education. Permission will be granted only for illness or other compelling reasons, such as participation in scheduled events off-campus as an official representative of the University. Deferred examinations must be taken during the student's next semester of residence by the last date for deferred examinations in the academic calendar or within twelve months if the student does not re-enroll in the college. Failure to take a deferred examination by the appropriate deadline will result automatically in the grade IF or IU. A student who takes any part of a final examination will not be allowed to defer or retake that final.

## INDEPENDENT STUDY

In most degree programs, students are given an opportunity to do independent research in close cooperation with members of the College faculty. These opportunities range across all divisions of the College, from independent laboratory research in the natural sciences to individual directed research in the social sciences and humanities. **All credit must be awarded in the semester in which the work is undertaken.** For further information, see listings under the various departments and programs.

## PE WAIVER FOR ROTC PARTICIPANTS, MILITARY SERVICE MEMBERS, AND VETERANS

Students who participate in the Reserve Officer Training Corps program or who are military service members or veterans (either of the United States or other nations) honorably discharged (or its equivalent) may receive a waiver from the Physical Education General Education Requirement for Emory College. The purpose of the waiver is to assist military and veteran students in completing their degrees without requiring them to duplicate their efforts, given the significant focus the military places on physical preparation.

This waiver applies both to the PED requirement and to the PPF requirement, which are each a single non-academic credit. Students with these waivers will be required to complete 125 total credit hours (124 academic credits plus 1 non-academic credit for Health 101) required for graduation.

ROTC students may request a waiver from the PE requirements after completing their first year in the ROTC program. Military service members and veterans may request a waiver from the PE requirements once they enroll in Emory College. ROTC students, service members or veterans should request this waiver from their OUE advisor, who will collect any necessary documentation. OUE will then enter an exception in the Degree Tracker and create a note in the student's record that the PE waiver was granted.

#### APPROVED: CURRICULUM, ASSESSMENT, AND EDUCATIONAL POLICY COMMITTEE, OCTOBER 1, 2020

## READMISSION

After withdrawal or absence for one or more semesters, except summer, any student who was in good academic standing at the end of his or her last prior semester of enrollment is eligible for readmission within five years from the initial term of withdrawal or absence.

Special conditions apply for students who were on academic probation when they left or who withdrew for health reasons (see <u>Cancellation and Withdrawal</u>).

To initiate readmission a student must submit a readmission form, which may be obtained online here: <u>http://college.emory.edu/oue/resources-a-z.html</u>). Students will be permitted to pre-register for the semester for which they are readmitted, provided the request for readmission is received by the deadlines established by the Office for Undergraduate Education. Students who would like a preregistration enrollment appointment must submit the readmission form one month prior to the preregistration enrollment period.

Readmission does not carry with it the awarding of transfer credit for work done at another college or university while a student is away from Emory. To receive credit for such work, the student must reapply to Emory as a transfer student.

For readmission after withdrawal for medical reasons, the Office for Undergraduate Education may consult with any relevant university offices including but not limited to Student Health Services, Counseling and Psychological Services, and Student Intervention Services. Typically, students who withdraw for medical reasons and are in good academic standing are eligible for readmission after an additional semester on leave from Emory. A physician statement is required for all students returning after a medical leave of absence. The form must be provided by the health care provider(s).

For readmission after a five-year period of absence, students must petition the Committee on Academic Standards (CAS) for approval of the readmission request. The requirement to petition for readmission also applies to students who complete an Oxford Associate of Arts degree but who do not enroll within five years at Emory College. Students readmitted after a five-year period of absence will be subject to the current degree requirements of Emory College of Arts and Sciences as well as the current requirements of any major or minor program that the student declares. Furthermore, the Committee on Academic Standards in consultation with the Office for Undergraduate Education and any relevant departments may determine that individual courses taken prior to the absence may not be used to satisfy degree and/or major or minor requirements.

#### APPROVED: CURRICULUM, ASSESSMENT, AND EDUCATIONAL POLICY COMMITTEE, FEBRUARY 19, 2020

## **RESIDENCE REQUIREMENTS**

Students who start in Emory College, as well as students who transfer to the College from outside the University, must complete their last sixty-four credit hours in residence at Emory College. Oxford Continuees must complete their last fifty-four credit hours in Emory College. This policy does not apply to special nonresident departmental programs, dual degree programs, and those programs approved by the faculty and administered by the Office of International and Summer Programs.

#### APPROVED: CURRICULUM, ASSESSMENT, AND EDUCATIONAL POLICY COMMITTEE, FEBRUARY 19, 2020

## RETROACTIVE ACADEMIC RELIEF POLICY

Students who have compelling reasons, namely medical need, family emergency, death in the immediate family, or other significant circumstances resulting in unforeseen hardship for the student (see <u>Withdrawal Policy</u>) and who provide appropriate support documentation that would have led to approval of a total withdrawal without academic penalty in the course of the semester, but who did not come forward to obtain a total withdrawal during the semester, may petition the Committee on Academic Standards for retroactive academic relief. Normally, students may apply for and receive retroactive academic relief for one semester only during their career in Emory College of Arts and Sciences.

If the Committee on Academic Standards grants the petition, the student's letter grades for the relevant term will be converted to Satisfactory/Unsatisfactory grades. The term will not count towards the grade-point average. A notation will be made on the official student transcript indicating the student was granted academic relief for that term due to extenuating circumstances. In addition, the term will not count towards the College's continuation/promotion requirements. Courses in which the student receives a "Satisfactory" grade will count as elective credit toward the overall credit hours requirement for graduation. Students who receive academic relief from any term are prohibited from petitioning the Committee on Academic Standards to have any of the courses with a "Satisfactory" grade count in the General Education Requirements (GERs) of the College. In no instance may these "Satisfactory" grades fulfill a GER, except as specified in the general stipulations regarding Area IX: Physical Education.

Grades assigned as part of a sanction for an Honor Code violation cannot be changed through the academic relief process, but only through the Honor Code process.

Transcript Note:

Student approved for academic relief during this term based on extenuating circumstances.

## SATISFACTORY & AUDIT GRADING

## SATISFACTORY/UNSATISFACTORY OPTION

A student may elect to take up to twenty of the total credit hours required for graduation from any department or program in the College with the stipulation that grades for courses so elected will be recorded as Satisfactory or Unsatisfactory only and shall not be counted in computing the grade-point average. The grade of Satisfactory carries full academic credit; the grade of Unsatisfactory carries no academic credit. No course used to satisfy general education requirements may be taken on an S/U basis, except for physical education courses. ECS 101: The Emory Edge, MLP\_OX 101: Milestone Project, Washington Semester, and Bard Semester, which are graded only Satisfactory or Unsatisfactory, as well as transfer and transient credit, do not count toward the twenty hours. All other courses that offered as Satisfactory/Unsatisfactory only, and courses taken through the ARCHE program, including ROTC, do count toward the twenty-hour limit toward the graduation requirement. A grade of D or better shall be considered as meeting the Satisfactory requirement.

The grading basis of a course may not be changed after 4pm on the Friday of the sixth full week of class after the Add/Drop/Swap period. One course required for concentration in a given field may be taken on an S/U basis with the approval of the Director of Undergraduate Studies and the department. (Students should refer to the College's online calendar and syllabi for courses taught during the Summer Semester or Maymester for the comparable deadline.)

The Satisfactory/Unsatisfactory option is not applicable to any courses offered by the Goizueta Business School.

## AUDIT COURSES

Emory College does not officially recognize audits. Students may therefore not register to audit any College course. With the permission of the instructor, students may unofficially visit any course for which they are eligible to register, but no record is kept of courses so visited.

## STUDENT COMPLAINTS PROCEDURE

#### **Emory College of Arts and Sciences Complaints Process**

Student complaints can be categorized into four major areas: academic, non-academic, discrimination/harassment, or appeals of any of the previously mentioned areas.

Emory encourages each student to handle complaints as close to the source as possible. Each school has their own procedures usually explained at orientation or in their respective catalogs. Academic or other concerns usually begin with student service personnel in each school who route their concerns to the appropriate school authority. Student concerns can have many facets; even when escalated, they may require a review of issues with school personnel who are closest to the situation. This practice generally results in greater student satisfaction as issues can typically be resolved more quickly. Judgments on the appropriateness of decisions regarding complaints made within a college are most appropriately made by individuals with expertise in the particular area.

#### What documentation is required to constitute a formal complaint?

Student complaints must be submitted in writing and accompanied by relevant documentation describing

- 1. the specific action, practice or decision that is being challenged
- 2. the impact of the decision
- 3. what resolution is desired
- 4. why it should be granted.

To expedite a prompt resolution, complaints should include current contact information of the individual filing the complaint. Responses to the complaint including the final decision will be provided in writing within 90 business days of receipt of the complaint. Complaints can be submitted either in hard copy or via e-mail to the relevant University Officer or Committee.

#### Where should I submit my formal complaint?

Request for an Exception to an Academic Policy

Requests for exceptions to standing academic policy are handled by the Committee on Academic Standards. Students wishing to file for an academic exception should, in the first instance, follow the procedures outlined on the Committee on Academic Standards <u>website</u>.

#### Grade Disputes

Students who wish to dispute a grade in a course or assignment should submit their complaint in writing to the Director of Undergraduate Studies in the relevant department. Departments may have specific requirements and procedures for grade appeals,

and students should consult with the departments and Directors of Undergraduate Studies for details. A full list of Directors of Undergraduate Studies can be found <u>here</u>.

#### **General Complaints**

Students who wish to make a general complaint not covered by the processes for academic exceptions or grade disputes should submit those to the Office for Undergraduate Education, White Hall 300, 301 Dowman Drive, Atlanta, 30322 or by e-mailing <u>oue.advising@emory.edu</u>.

#### **State of Georgia Complaints Process**

Federal financial aid laws and regulations require that each state have a process to review and act on complaints concerning educational institutions in the state. Individuals who have a complaint may file a complaint with Emory's financial aid office, call the Trust Line at 1-888-550-8850, or file a report online at <u>www.mycompliancereport.com/EmoryTrustLineOnline</u>. Individuals may also file a complaint about Emory University with the State of Georgia Office of Inspector General by following the directions at the Office of Inspector General (OIG) <u>website</u>. In the event that OIG receives a student complaint relating to financial aid, it will be forwarded to the Office of Inspector General of the U.S. Department of Education.

APPROVED: CURRICULUM, ASSESSMENT, AND EDUCATIONAL POLICY COMMITTEE, FEBRUARY 19, 2020

## OFFICIAL TRANSCRIPTS

Students may order official academic transcripts online through OPUS. Electronic transcripts are delivered electronically to the receiving institution. Paper transcripts are also available. Although there is no per-transcript fee assessed for transcripts, a fee is charged for express delivery of paper transcripts. Transcripts will not be issued if a student's record shows financial indebtedness to Emory University or in cases in which a student's transcript is on hold as part of a disciplinary sanction.

All transcripts include a student's entire academic record; no partial or incomplete statements of a student's record will be issued as transcripts.

To ensure prompt receipt of transcripts, students should make requests at a reasonable time prior to need. Delays in issuance may occur immediately before or after a term break. More information about ordering transcripts is available on the University Registrar's <u>website</u>.

#### APPROVED: CURRICULUM, ASSESSMENT, AND EDUCATIONAL POLICY COMMITTEE, FEBRUARY 19, 2020

## TRANSIENT STUDY (STUDY AT OTHER COLLEGES)

For entering first-year students, a combined 18 credit hours of the following types of credit may be granted (transfer students may transfer a maximum of 62 credit hours. See Advanced Placement and Exemption – Information for Incoming Transfer Students). Credit hours may count towards the General Education Requirements (GERs), or towards major or minor requirements with departmental approval. Emory and Oxford Colleges will grant acceleration placement for courses beyond the allowed 18 hours, but no additional credit hours or GER waivers will be given.

 AP/IB or other test credits (maximum of 12 credit hours). Departments have specified equivalent courses that these test credits replace for the purpose of GERs and major requirements. <u>http://catalog.college.emory.edu/academic/policies-</u> regulations/advanced-placement-exemption.html

- 2. Other college credits earned prior to matriculation that do not count towards the secondary school diploma. Newly admitted first year students who wish to receive credit for work taken at another college after acceptance and before enrollment should secure permission/approval from the dean of admission. Please review the Office of Undergraduate Admission AP/IB/Other credit policies: <a href="http://apply.emory.edu/apply/apib.php">http://apply.emory.edu/apply/apib.php</a>
- 3. Transient study credits earned after matriculation through coursework at accredited colleges or universities. Transient study may be earned domestically or internationally.

Domestic transient study (permission to take work at another institution in the United States and US Territories) is normally granted only for summer enrollment. Students who wish to take summer work elsewhere in the United States after their first year, or before a student has earned 64 credit hours, at Emory must secure written permission from the Office for Undergraduate Education before the end of the preceding spring semester and must not be on academic probation after the completion of spring semester. In order to earn credit through Domestic Transient Study, students must earn a grade of C or above. The course credits, but not the grades, are posted on the official Emory transcript. For more information, please go to the <u>DTS website</u>.

International students (on J-1 or F-1 visa status) who wish to take summer coursework in their home countries after their first year at Emory must meet the requirements for International Transient Study and complete the Office of International and Summer Programs (OISP) International Transient Study application. For more information, please go to <u>OISP's website</u>.

Credit earned at other institutions may not comprise part of the last 64 semester hours or four semesters of work toward a degree in Emory College of Arts and Sciences, except as described under approved off-campus programs such as the Washington Semester and Education Abroad programs or as described immediately below. A final transcript for any summer coursework must be submitted by October 1, immediately following the summer in which the coursework was completed. All credits for non-Emory courses must officially appear on the student's transcript by the end of their first semester upon return to Emory.

## This policy applies to students who enter in the fall 2018 semester or later. Students who began before fall 2018 should refer to the <u>Transient Study website</u> for the current policy arrangement

#### **Transient Study after 64 Credit Hours**

Students who have completed 64 credit hours of course work in Emory College of Arts and Sciences and are in good standing may receive up to 16 semester hours and one semester of residence credit toward their Emory degree for advanced-level courses taken at another college or university in the USA. Approval is required in advance by the Office for Undergraduate Education and by the chairs of the appropriate departments at Emory, who must

- 1. Certify the advanced level of the proposed courses, and
- 2. Provide a compelling reason why these courses cannot be taken at Emory.

Students who wish to take courses abroad at an international institution must either do so through an approved Emory College Education Abroad programs or the non-Emory program petition process, please visit the <u>Office of International and Summer</u> <u>Programs website</u>.

#### APPROVED: CURRICULUM, ASSESSMENT, AND EDUCATIONAL POLICY COMMITTEE, OCTOBER 30, 2019

## WITHDRAWALS

#### **Cancellations and Withdrawals**

#### Cancellation

Enrollment may be cancelled prior to the beginning of the semester or through the end of the Add/Drop/Swap period with no entry made on the student's record. To cancel enrollment, a student must secure permission from the Office for Undergraduate Education.

#### **Partial Course Withdrawals**

Emory students may withdraw from one or more courses until 4pm on the Friday of the sixth full week of class after the Add/Drop/Swap period providing that the student continues to carry a load of 12 credit hours or is in their final semester of residence as a graduating senior. In order for a partial withdrawal to be processed, a student must complete a withdrawal form through the Office for Undergraduate Education, consult with their course instructor and OUE advisor, and receive signatures from both. These signatures indicate only that consultation has occurred, not that the course instructor and advisor necessarily approve of the student's decision. Completed forms must be returned to the Office for Undergraduate Education for a dean's consideration.

In addition, students will be allowed one voluntary withdrawal from a course after the sixth week withdrawal deadline and until the Friday of the tenth week of classes during one of their first two semesters of full-time residency at Emory College provided that they maintain a 12 credit hour course load. Only one late withdrawal is allowed in that first year. An eligible student must complete a withdrawal form and follow the appropriate procedures as outlined above. This voluntary withdrawal policy applies to first-year students, transfer students and Oxford Continuees. This policy does not apply to students who are on study abroad programs.

One additional withdrawal provision is available. After the sixth full week of class after the Add/Drop/Swap period of the semester, a student may petition for a withdrawal from a class based on medical need, family emergency, death in the immediate family, or other significant circumstance resulting in unforeseen hardship for the student. Petitions will be reviewed by academic advisors in the Office for Undergraduate Education, who, with the student's permission, will consult with medical personnel where appropriate. Consultation with instructors, the student's advisor and/or others will be part of the decision process. Petitions will be considered for approval by a dean in the Office for Undergraduate Education.

#### Semester Withdrawals

A student may completely withdraw from a semester in Emory College with permission from the Office for Undergraduate Education. A student who withdraws voluntarily before the end of the twenty-third calendar day following the beginning of classes will receive grades of W in all the courses for which they are registered that term. Thereafter, a student who withdraws will normally receive grades of WF in all courses, except under the provision below.

For reasons of illness or other compelling circumstances, a student may withdraw during the semester from all classes with the approval of a dean in the Office for Undergraduate Education. Students must provide documentation from a treating health provider or other appropriate documentation relevant to their circumstances. If a dean grants the semester withdrawal, the student will receive grades of W in all courses for that term. The Office for Undergraduate Education, in consultation with the Student Health Services, Counseling and Psychological Services, and Student Intervention Services, will officially inform the student in writing as to the terms and timing for readmission. Typically, students who withdraw for medical reasons and are in good academic standing are eligible for readmission after an additional semester away from Emory. A physician statement is required for all students returning after a medical leave of absence. The form must be provided by the student's health care provider(s).

Unofficial withdrawal from the University results in 100 percent forfeiture of tuition. When officially withdrawing, students may be eligible for a refund of payments depending upon the date of withdrawal. Refunds are only processed for complete semester withdrawals; partial withdrawals from individual courses are not eligible for refunds. Financial aid awards that pay part or all of the student charges are prorated accordingly. Refunds for federal (Title IV) aid recipients will be prorated in accordance with federal regulations. No refunds are issued until all semester charges are paid in full. See the Deadlines page on the Student Financial Services website for the Emory Tuition Adjustment Schedule.

#### **Involuntary Withdrawal**

Emory University considers the safety and welfare of its students, faculty and staff a top priority. When a student engages in behavior that violates Emory's rules of conduct, the behavior will be addressed as a disciplinary matter under the applicable Student Conduct Code. The Student Conduct Code defines prohibited conduct and outlines a process for conducting disciplinary proceedings.

This Involuntary Withdrawal Policy and Procedure is not a disciplinary code, policy or process. It is not intended to apply to situations in which a student engages in behavior that violates the University's rules of conduct. It is intended to apply when a student's observed conduct, actions and/or statements indicate a direct threat to the student's own health and/or safety, or a direct threat to the health and/or safety of others. There may be situations in which both this Involuntary Withdrawal Policy and the Student

Conduct Code may apply. In all cases, the Dean of Emory College shall have final authority regarding the decision, enactment, enforcement and management of the involuntary withdrawal of a student.

#### Criteria

A student may be withdrawn involuntarily from Emory if the University determines that the student represents a direct threat to the health and safety of himself/herself or others by (1) engaging or threatening to engage in behavior which poses a high probability of substantial harm to himself/herself or others; or (2) engaging or threatening to engage in behavior which would cause significant property damage, would directly and substantially impede the lawful activities of others, or would interfere with the educational process and the orderly operation of the University.

#### Procedure

When the Senior Associate Dean for Undergraduate Education, or his/her designee, based on a student's conduct, actions or statements, has reasonable cause to believe that the student meets one or more of the criteria for involuntary withdrawal, he or she may initiate an assessment of the student's ability safely to participate in the University's program.

The Senior Associate Dean for Undergraduate Education initiates this assessment by first meeting with the student to:

- 1. review available information concerning the behavior and/or incidents which have caused concern,
- 2. provide the student with a copy of this Involuntary Withdrawal Policy and Procedure and discuss its contents with the student,
- 3. provide the student an opportunity to explain his/her behavior, and
- 4. discuss options available to the student, including counseling, voluntary withdrawal and evaluation for involuntary withdrawal.

If the student agrees to withdraw voluntarily from the University and waives any right to any further procedures available under this policy, the student will be given a grade of W for all courses, will be advised in writing of any conditions that must be satisfied prior to re-enrollment, and may be referred for appropriate mental health or other health services. If the student refuses to withdraw voluntarily from the University, and the Senior Associate Dean continues to have reasonable cause to believe the student meets one or more of the criteria for involuntary withdrawal, the Senior Associate Dean may require the student to be evaluated by an appropriate mental health professional.

#### Evaluation

The Senior Associate Dean may refer the student for a mandatory evaluation by an appropriate mental health professional or other appropriate professional. The professional may be selected by the University, so long as there is no cost to the student for the evaluation. A written copy of the involuntary referral shall be provided to the student.

The evaluation must be completed within five school days after the date the referral letter is provided to the student. Prior to the evaluation, the student will be required to sign a written authorization authorizing the exchange of relevant information among the mental health professional(s) (or other professional) and the University. Upon completion of the evaluation, copies of the evaluation report will be provided to the Senior Associate Dean and the student.

The professional making the evaluation shall make an individualized and objective assessment of the student's ability to participate safely in Emory's program, based on a reasonable professional judgment relying on the most current professional knowledge and/or the best available objective evidence. This assessment shall include a determination of the nature, duration and severity of the risk posed by the student to the health or safety of himself/herself or others, the probability that the potentially threatening injury will actually occur, and whether reasonable modifications of policies, practices or procedures will sufficiently mitigate the risk. The professional will, with appropriate authorization, share his/her recommendation with the Senior Associate Dean, who will take this recommendation into consideration in determining whether the student should be involuntarily withdrawn from Emory. A copy of the professional's recommendation will be provided to the student, unless, in the opinion of the professional, it would be damaging to the student to do so.

If the evaluation results in a determination that the student's continued attendance presents no significant risk to the health or safety of the student or others, and no significant threat to property, to the lawful activities of others, or to the educational processes and orderly operations of the University, no further action shall be taken to withdraw the student from the University.

If the evaluation results in a determination that the continued attendance of the student presents a significant risk to the health or safety of the student or others, such that there is a high probability of substantial harm, or a significant threat to property, to the lawful activities of others, or to the educational processes and orderly operations of the University, the student may be involuntarily withdrawn from the University. In such an event, the student shall be informed in writing by the Senior Associate Dean of the involuntary withdrawal, of his/her right to an informal hearing, of his/her right to appeal the decision of the hearing officer, and of any conditions necessary for re-enrollment. In most cases, a student who is involuntarily withdrawn will be given a grade of W in all courses in which the student is currently enrolled.

#### **Informal Hearing**

A student who has been involuntarily withdrawn may request an informal hearing before a hearing officer appointed by the Senior Associate Dean by submitting a written request to be heard within two business days from receipt of the notice of involuntary withdrawal. A hearing will be set as soon as possible. The student shall remain involuntarily suspended pending completion of the hearing.

The hearing shall be informal and non-adversarial. During the hearing, the student may present relevant information and may be advised by an Emory faculty or staff member or a health professional of his/her choice. The role of the advisor is limited to providing advice to the student.

At the conclusion of the hearing, the hearing officer shall decide whether to uphold the involuntary withdrawal or whether to reconsider, and the student shall be provided written notice of the hearing officer's decision as soon as possible.

#### Appeal to the Dean

The student may appeal the hearing officer's decision to the Dean, who shall review all information presented and make a final decision as to whether or not to uphold the involuntary withdrawal.

#### **Emergency Suspension**

The University may take emergency action to suspend a student pending a final decision on whether the student will be involuntarily withdrawn, in situations in which:

- there is imminent danger of serious physical harm to the student or others,
- there is imminent danger of significant property damage,
- the student is unable or unwilling to meet with the Senior Associate Dean,
- the student refuses to complete the mandatory evaluation, or
- the Senior Associate Dean determines such other exceptional circumstances exist that suspension is warranted.

In the event emergency action is taken to suspend the student on an interim basis, the student shall be given notice of the emergency suspension and an initial opportunity to address the circumstances on which the emergency suspension is based.

#### **Conditions for Re-enrollment**

Because this Involuntary Withdrawal Policy applies to cases in which there is a concern about the safety of the student or others, the Dean or his/her designee may require a student who has been involuntarily withdrawn under this Policy to be reevaluated before he/she is readmitted in order to assure that he/she presents no direct threat to himself/herself or others.

# ACADEMIC ADVISING AND SUPPORT

<u>Academic Advising</u> and <u>Support Programs</u> in the Office for Undergraduate Education (OUE) provides a range of academic advising and support services. The services and programs are designed as a supplement to faculty and departmental advising.

OUE academic advisers work closely with students, faculty and staff to provide group and individual academic advising, explain and interpret academic policies, and connect students to resources and support services on campus. In addition, students who experience medical, personal or other concerns that affect their academic progress may seek the assistance of an academic adviser to determine appropriate options.

Many students have questions about graduation requirements, course selection and programs of study. OUE academic advisers will work with students to answer academic policy questions and assist students with making academic decisions. While faculty advisers and departments provide general advising for all students upon their entrance to the College and are responsible for major/minor advising, the OUE academic advisers supplement departmental advising and provide individual consultations for students experiencing special circumstances.

Students can call (404) 727-6069, log-in to College Connect, or e-mail oue.advising@emory.edu to schedule an appointment.

Academic support is available through a variety of programs ranging from individual consultations, peer tutoring and mentoring, workshops and other programming for specific populations. Students or faculty who would like more information about specific services and programs should visit <u>Academic Support Programs</u>.

# ECS 101: THE EMORY EDGE

This course is a continuation of the Orientation Experience so all first-year students are set up for success over their 4 years at Emory. Weekly sessions and assignments will encourage students to reflect on their past and current experiences, explore Emory resources and opportunities, connect with peers, faculty and staff, and create plans for the next 4 years. All first-year students enroll in this course during their first fall semester at Emory. This is a one credit, satisfactory/unsatisfactory course.

## AWARDS & HONORS

#### BRITTAIN

Each year one graduate of Emory University receives an award, named for Marion Luther Brittain, that is intended to give public and permanent expression of gratitude for service to the University, rendered without expectation of reward or recognition.

#### CHARLES AND ANNE DUNCAN

Charles William Duncan Jr. of Houston, Texas, established this scholarship for gifted students from west of the Mississippi. At least one Duncan Scholarship is awarded each year, with priority given to residents of Texas and the Southwest.

# CHRIS A. YANNOPOULOS

Endowed by Mr. and Mrs. Michael Carlos in memory of her son, the Chris A. Yannopoulos Scholarship is awarded to students who have demonstrated an interest in classical studies or who represent the strengths brought to the United States by immigrants from other lands.

#### D. ABBOTT TURNER

The D. Abbott Turner Scholarship is awarded each year to a distinguished graduate of a Georgia high school. Preference is first given to graduates of the Brookstone School in Columbus and then to natives of the Chattahoochee Valley. Turner Scholarships are awarded on the basis of character, achievement, and service.

# DEAN'S LIST

The Dean's List recognizes the top 20 percent, by semester grade point average, of all college students enrolled for Fall or Spring semester in campus courses. Besides having the requisite grade point average, a student must have been enrolled for twelve or more hours, completed all course work, and earned no grades of U (unsatisfactory).

## EDWARD D. SMITH

The Edward D. Smith Scholarship has been endowed in honor of an outstanding Emory College of Arts and Sciences alumnus who became one of the South's leading bankers. The scholarship, which gives priority to an outstanding graduate of the Westminster Schools in Atlanta, commemorates Mr. Smith's devoted trusteeship of both Emory and Westminster. The Edward D. Smith Scholarship recognizes strong moral character, top academic achievement, and effective, unselfish service to others.

## ELY R. CALLAWAY

The Ely R. Callaway, Jr. Scholarships honor a distinguished alumnus and supporter of Emory College of Arts and Sciences. Aimed at bringing talented Georgians to Emory, the Ely R. Callaway, Jr. Scholarships are awarded to young men and women from Georgia who have distinguished themselves by academic excellence, individual achievement, and service to their schools and communities during their secondary-school careers. Recipients are awarded a stipend equal to the cost of tuition and fees along with University room and board for eight semesters of undergraduate study at Emory College of Arts and Sciences.

# EMORY DANCE SCHOLARSHIP

This scholarship is awarded annually to a dance major or minor who embodies the mission of the Emory Dance Program, as well as the following qualities: academic excellence and potential in dance, strong work ethic, open-minded, creates and participates in the Emory dance community fully, contributes to the program artistically and in service, and has a broad sense of the field of dance.

# FLORA GLENN CANDLER

These scholarships bear the name of Emory's greatest patron of the arts. Candler Scholars are recognized for their pursuit of excellence both in academics and the performing arts.

#### HENRY L. BOWDEN

The Bowden Scholarships honor a distinguished graduate of Emory College who served for twenty years as chair of the University's Board of Trustees. Henry L. Bowden Scholarships are made on the basis of academic achievement, character, and leadership to students who show promise of significant contributions to Emory College. Residents of the Southeast will be considered, with Georgia residents given priority.

# JOCELYN TAYLOR

The Jocelyn M. Taylor Scholarships honor a long-time and loyal member of the Emory College of Arts and Sciences staff. This scholarship honors her lifetime of exceptional and devoted service to Emory College of Arts and Sciences and recognizes the all-important contributions which the staff of the College collectively makes to the fulfillment of the College's educational mission and the well-being of its students and faculty.

#### JOHN EMORY

These scholarships' in the amount of two-thirds tuition, are offered each year to a highly select group of Emory Scholar Semi-finalists in recognition of their outstanding academic record and potential for intellectual contributions to the Emory community.

#### **KEMP MALONE**

These scholarships bear the name of the 1911 Emory graduate who became known as the most distinguished American scholar in his generation focusing on Old English language and literature.

# KEVIN C. LIMP

# LIBERAL ARTS

Liberal Arts Scholarships, which are partial tuition scholarships, are awarded to Emory Scholar Semi-finalists in recognition of their academic excellence. Recipients of Liberal Arts Scholarships are not admitted into the Emory Scholars Program. After their first and/or second year in Emory College of Arts and Sciences Liberal Arts Scholarship recipients may compete for a Dean's Achievement Scholarship. If successful, they become Emory Scholars and are permitted financially to combine the two awards.

## LUCIUS L. MCMULLAN

# OXFORD

These scholarships are awarded to students who chose to pursue the first two years of Emory University's liberal arts curriculum at Oxford College and then transition to Emory College of Arts and Sciences to complete the curriculum. Each year Oxford College designates a number of its outstanding incoming freshmen as Oxford Scholars. Oxford Scholars include Robert W. Woodruff Scholars, Dean\'s Scholars, and Faculty Scholars, all of whom are selected on the basis of their grades, curriculum test scores, essays, extracurricular activities, and demonstrated interest in the Scholars Program. While enrolled at Oxford, these scholars participate in the Oxford Scholars Program once they transition to the Atlanta campus.

# POLLARD TURMAN

J. Pollard Turman, a native of Atlanta, was a member of Emory's family and a guiding force at the University for more than fifty years. Throughout his life, Mr. Turman was an influential humanitarian. His understanding and support of higher education, combined with his personal commitment, have benefited institutions throughout Georgia. The J. Pollard Turman Leadership Scholarship is awarded to incoming first-year students who show special leadership potential, as demonstrated by their personal commitment to service and excellence in school, civic, and other activities combined with sound academic achievement. Residents of the Southeast receive special consideration.

# ROBERT W. WOODRUFF

The Robert W. Woodruff Scholarships bear the name of the renowned businessman and philanthropist who was head of The Coca-Cola Company for many years and was a peerless benefactor of Emory University. The scholarships are awarded to young men and women who have demonstrated qualities of forceful and unselfish character, intellectual and personal vigor, outstanding academic achievement, impressive skills in communication, significant leadership and creativity in school or community, and clear potential for enriching the lives of their contemporaries at Emory University. Recipients of the Robert W. Woodruff Scholarships are awarded a stipend equal to the cost of full tuition, fees, and University room and board.

# STIPE SOCIETY

The Stipe Society is designed to foster original, independent scholarship and creative endeavors in the arts among Emory College students and to encourage communication between undergraduate students and faculty members engaged in scholarly research. Twenty currently enrolled students are selected as associate scholars each year on the basis of proven ability in a field of scholarship and recommendations by teachers in that field. Election is for one year only, and students must apply for re-election. Those Stipe Scholars who are not already receiving faculty/staff courtesy scholarships or other scholarships that include full tuition receive an honorarium of one thousand dollars; for those receiving need-based financial aid, this honorarium replaces the college grant portion of their aid up to the amount of one thousand dollars. For further information, contact the Office for Undergraduate Education, 300 White Hall, Emory University, Atlanta, Georgia 30322.

# **UNCF-MERCK**

Apply fall of junior year. The United Negro College Fund and The Merck Undergraduate Science Research Scholarship Fellowship is intended to encourage African American undergraduate students in furthering their science education and pursuing biomedical science careers by providing tuition support and opportunities for research experience in a state-of-the-art industrial laboratory. The fellowship consists of a summer internship prior to your senior year and a second summer internship upon graduation. The award is up to a maximum of \$35,000 that consists of a scholarship of up to \$25,000 and two summer research internship stipends totaling at least \$10,000. Additional information may be found at UNCF-Merk Science Initiative.

## WILLIAM E. SIMON

Apply Fall term of Senior year. The William E. Simon Fellowship was created to encourage the pursuit of endeavors that are of benefit to yourself and your fellow man. Unrestricted cash grants will be awarded to those that have demonstrated self-direction, dedication and originality in the pursuit of a goal that can make a positive contribution to society. The Intercollegiate Studies Institute will award three fellowships with the first award being \$40,000 and the second and third awards being \$5,000 each. Please note that the Intercollegiate Studies Institute offers additional opportunities as you continue your graduate studies. Additional information can be found at Intercollegiate Studies Institute.

#### EMORY SCHOLARS PROGRAM

Emory College of Arts and Sciences offers membership in the Emory Scholars Program to incoming first-year students and to outstanding rising sophomores and rising juniors.

Individuals are selected based on outstanding academic success, evidence of the Emory <u>Scholar qualities</u> (intellectual curiosity, creative thinking, communications skills, servant leadership, and commitment to community), a sincere interest in personal growth, and a desire to invest their time, energy and talents to improve the lives of others.

In addition to receiving a merit scholarships, most notably the Robert W. Woodruff scholarship, Emory Scholars have access to both programming and opportunities and that allow them to thrive as individuals, members of the Emory community, and beyond as alumni.

#### HONORS PROGRAM

Honors Programs are available to outstanding students in most, but not all, areas of concentration. Administered by a faculty Honors Committee, these programs enable students to do intensive work in a chosen area and therefore involve work that extends beyond ordinary course requirements and ordinary standards of performance.

# REQUIREMENTS

Although all students with a cumulative average of 3.50 at the end of their first three years are eligible for these programs, final selection of participants rests with the department concerned.

Exceptions to the 3.50 average requirement may be made by the Honors Committee in individual cases upon recommendation by the department concerned. Students who wish to petition must have at least a 3.45 cumulative GPA. See department or Carlee Beard (<u>ec.honorsprogram@emory.edu</u>) for more information on the GPA waiver petition process and requirements. All Emory grades are considered in the calculation of the cumulative GPA. For example, all Emory College of Arts and Sciences and Business School grades are considered in the calculation of the cumulative GPA for Business School students who pursue honors in a major in the College. In order to graduate with honors, students must meet the requirements as outlined below over two consecutive semesters (not including summer).

Students may pursue honors in only one major or joint major.

Requirements vary slightly from department to department. They generally include enrollment in a graduate seminar or graduate course, completion of a research project or paper that is the equivalent of a BA or BS thesis, and additional supervised reading or enrollment in a special honors course. Departments that accept projects outside of a traditional honors thesis must receive

permission from the Honors Committee. Since credit for the graduate work and the reading program count toward the hours required for the major, the Honors Program usually entails an increase of about four hours of credit in the major requirement.

An examination, written and/or oral, covering the honors work, including the thesis and allied fields, is given upon completion of the program. Examiners recommend the degree of honors (honors, high honors, highest honors) to the Honors Committee, which certifies the list to the registrar for printing in the commencement program and on the students' diplomas. Fourrageres indicating the degree of honors are presented to successful candidates by the college and are worn at commencement.

# LEVELS OF HONORS

Honors (cum laude) represents satisfactory completion of the program, with an overall average of 3.50.

**High Honors** (magna cum laude) represents completion of the program with outstanding performance, including an overall average of 3.50 and a thesis of quality sufficient for oral presentation to scholars in the candidate's field.

**Highest Honors** (summa cum laude) represents completion of the program with exceptional performance, including an overall average of 3.50 and a thesis of a quality suitable for publication.

# THESIS GUIDELINES

Guidelines and deadlines for submission of theses will be available to students who are currently enrolled in the Honors Program.

# HONORS PROGRAM FAQS

#### WHAT ARE THE REQUIREMENTS FOR COMPLETING THE HONORS PROGRAM?

Students are required to maintain a cumulative GPA of at least 3.5, to be enrolled at Emory for both semesters in which they are pursuing honors, to be in residence and enrolled in at least one hour of honors research during the final semester of their participation in the Honors Program, to complete the mandatory orientation in Canvas and any other required trainings, to write and defend an honors thesis, and to submit all required honors forms and complete the ETD submission process. Additionally, many departments have their own requirements for honors students; be sure to check with your Departmental Honors Coordinator to find out what, if any, additional requirements you must meet. To find your Departmental Honors Coordinator, visit: http://catalog.college.emory.edu/academic/honors-program/contact.html.

#### MAY I DO STUDY ABROAD WHILE I AM PARTICIPATING IN THE HONORS PROGRAM?

With special permission in cases of academic relevance, students may study abroad during the first semester of their participation in the Honors Program. All students are required to be in residence during the final semester of participation in the Honors Program.

#### HOW IS GPA CALCULATED FOR HONORS PURPOSES?

Admission to the Emory College Honors Program requires a cumulative GPA of 3.5 or above, and students must maintain a cumulative 3.5 GPA through graduation to be eligible to graduate with Honors. Only Emory grades (including Emory sponsored study abroad programs and courses offered at Emory but outside the College, such as those offered by the Goizueta Business School) are calculated as part of a student's Emory GPA.

#### MY GPA IS BELOW 3.5. MAY I PARTICIPATE IN THE HONORS PROGRAM?

In May and August, the Honors Committee considers petitions to be admitted to Honors from students who do not meet the 3.5 cumulative GPA requirement. Students who have a GPA of at least 3.45, and the support of their departmental honors coordinator and potential thesis advisor are eligible to petition. Students who are admitted by petition must earn at least a 3.5 semester GPA in every subsequent semester to be eligible to continue in the Honors Program.

#### WHAT COURSE(S) MUST I BE ENROLLED IN TO PARTICIPATE IN THE HONORS PROGRAM?

The College requires honors students to be in residence and enrolled in at least one hour of honors credit during the semester in which they are completing the Honors Program. However, many departments have additional requirements for honors coursework, which typically includes two semesters of honors research/writing and sometimes an additional graduate course or seminar; be sure to check with your Departmental Honors Coordinator for more information.

# WHO MAY SERVE ON MY THESIS COMMITTEE?

Committees must consist of at least three core members. Core committee members must be regular Emory University faculty members from any school or unit. One member must be from the student's honors major and at least one member must be from Emory College. You may have additional committee members, including faculty from other universities, beyond the required three core members. Only core members vote on level of honors. Your advisor counts as one of the three core members.

## DO MY COMMITTEE MEMBERS NEED TO HOLD A SPECIFIC ACADEMIC RANK?

Regular faculty titles typically include professor, associate professor, assistant professor, professor of pedagogy, senior lecturer, lecturer, but might also include titles such as Instructor or Research Associate.

Adjunct, visiting, emeritus, and post-doctoral fellows must petition to the Honors Committee to be permitted to serve on committees.

Members of the staff are not eligible to serve on committees.

If you have questions about someone's eligibility or about the petition process, contact ec.honorsprogram@emory.edu.

#### WHEN IS THE HONORS CEREMONY HELD?

The Honors Ceremony is held on the afternoon of the Sunday before Commencement.

# I HAVE SUBMITTED MY THESIS, BUT AM NOT GRADUATING IN THE SPRING. MAY I PARTICIPATE IN THE HONORS CEREMONY?

Students who are graduating in the fall may participate in the Honors Ceremony that follows their graduation. Contact the Honors Program Administrator for more information.

#### WHO SCHEDULES MY THESIS DEFENSE?

The student is responsible for scheduling their thesis defense.

#### I WANT TO DO HONORS IN MORE THAN ONE MAJOR. IS THIS POSSIBLE?

No. Students may pursue honors in only one major or joint major, though students who are double majoring may design an interdisciplinary project that draws on both majors

#### I WANT TO DO HONORS IN MY MINOR. IS THIS POSSIBLE?

No. Honors may only be pursued in the student's declared major.

HOW DO I DROP THE HONORS PROGRAM?

If you have decided to drop the Honors Program, you must notify both the College Honors Program Administrator (<u>ec.honorsprogram@emory.edu</u>) and your Departmental Honors Coordinator by email. If dropping after College withdrawal deadlines, you must work with your advisor and/or honors coordinator to finish the honors course in which you are enrolled.

#### I AM GRADUATING A SEMESTER EARLY OR A SEMESTER LATE. MAY I STILL PURSUE HONORS?

Yes. Students may pursue Honors on an alternative timeline, with permission from their department and in coordination with the College Honors Program Administrator, but must pursue honors for two consecutive semesters (not including summer semester).

## ARE THERE ANY SPECIAL CIRCUMSTANCES THAT I SHOULD LET THE HONORS PROGRAM KNOW ABOUT?

If you are struggling academically, have petitioned a college standing committee for special circumstances, or there is an extraordinary experience that is affecting your academic path, please get in touch with the honors coordinator in your department and the honors program immediately so your best options for honors can be determined.

#### INTERNSHIPS

# SUMMER INTERNSHIPS

The academic internships initiative within the Office of International and Summer Programs (OISP) seeks to:

- Connect students with meaningful academic internships that align with their liberal arts majors
- Create structured credit-bearing opportunities to translate liberal arts skills into real world experiences
- Prepare students for the global workforce through enhanced cross-cultural competencies

Pathways to pursue academic internships:

- OISP Comprehensive Program option: <u>GLOBAL INTERNSHIPS IN SUMMER</u>
- OISP Independent Internship option: <u>1-CREDIT INTERN 496 IN SUMMER</u>
- Academic Departments:
   <u>INTERNSHIPS IN YOUR MAJOR AREA</u>

# SEMESTER INTERNSHIPS

Internships during the regular (fall or spring) semester is managed by individual departments. Students should contact the Director of Undergraduate Studies or Internship coordinator in their major department.

# ART HISTORY INTERNSHIP

During the summer terms, art history majors and qualified non-majors are eligible to apply for an internship with the Michael C. Carlos Museum, the High Museum of Art, commercial art galleries, architectural firms, and other art- and architecture-related organizations. Students must consult with an internship adviser. Internships may carry academic credit. The students' work is supervised by personnel of the cooperating institutions and agencies. The department will attempt to facilitate any reasonable internship in Atlanta and, if plausible, in other places as well. For questions about the <u>Art History Internship Program</u>, contact Professor Judith Rohrer at <u>icrohre@emory.edu</u>.

# POLITICAL SCIENCE INTERNSHIP

The political science internship program provides students with an opportunity to combine academic training with field experience. The program stresses the interdependence of the University and the community. Students engage in service/learning experiences

designed to supplement and enrich their educational programs through active participation in the governmental process. Currently, the Department of Political Science awards credit to student interns in a wide variety of agencies and offices in state and local government. The students usually serve in a research capacity for the assigned agency. Every attempt is made to match students' interests with agency needs. Students attend seminars to discuss the work they are doing and to relate it to academic studies and findings. Depending upon the nature of the internship, students may earn four to twelve credits in Political Science 496 for a departmentally approved internship. For more details, see the Department of Political Science website.

## NEW STUDENT ORIENTATION

New Student Orientation is a collaboration between Emory College of Arts and Sciences and the Division of Campus Life that strives to acclimate successfully and holistically all new students – first year students, transfer students, and Oxford Continuees – into the academic and social fabric of Emory College. The New Student Orientation program provides opportunities for students to begin building relationships with faculty, staff, current students and their new classmates as they prepare for their future in the Emory University learning community. In addition, the program provides opportunities for current students to develop their own leadership skills by serving as an Orientation Leader or Captain. For more information, please visit www.college.emory.edu/orientation.

## PREHEALTH ADVISING

Emory University Pre-Health Advising provides academic advising and support for students interested in pursuing one of many health professions. Pre-Health advisors encourage students to explore healthcare professions, assist students in developing meaningful academic and extracurricular plans, provide resources and opportunities related to healthcare professions and prepare students to apply to healthcare professional programs.

Pre-health is not a major or minor in the College, but rather indicates that a student is interested in pursuing a career in healthcare, including but not limited to: medicine, dentistry, nursing, physician assistant, public health, veterinary medicine and many others. In addition to completing any major in the College and completing Emory's General Education Requirements, pre-health students complete prerequisite courses determined by the healthcare professional program(s) to which they apply. Most of these courses are offered by the College and can be worked into schedules over four years. Prerequisites generally need to be completed before matriculation in a healthcare program.

The pre-health staff holds advising appointments (walk-in and scheduled) as well as programs throughout the year. Pre-Health Advising also provides Composite Letters for students applying to particular allied health programs. Students should register with Pre-Health Advising online to receive weekly newsletters and other important information related to healthcare professional school goals. Visit <u>www.prehealth.emory.edu</u> for information about appointment types, availability, Composite Letters and pre-health resources.

#### STUDY ABROAD

# EMORY COLLEGE STUDY ABROAD

Emory College Study Abroad within the Office of International and Summer Programs (OISP) is dedicated to fulfilling Emory College's commitment to internationalization through study abroad. In collaboration with Emory faculty, OISP develops, promotes, and administers programming for undergraduate students that encourages both intellectual and personal growth through challenging scholarship and cultural immersion. Its services support students and faculty before, during, and after the study abroad experience in order to ensure that study abroad is an essential part of an Emory College education. Approximately 50% of College students have some sort of international educational experience by the time they graduate. OISP offers over 130 approved study abroad programs in over 40 countries around the world; students can spend a summer, a semester, or a full academic year abroad in another country. Students earn Emory credits and grades while abroad, retain semester financial aid packages (some summer aid is available as well),

and fulfill academic requirements towards majors, minors, and GERs. Emory College Study Abroad also coordinates various international service learning and research options. Please visit <u>http://studyabroad.emory.edu</u> for more information.

# TIBET PARTNERSHIP

In recent years the study of Tibetan civilization has gained strength at Emory. During a visit to Emory in 1998, His Holiness the Dalai Lama signed an agreement with then-Emory President William M. Chace to work toward furthering educational links between the University and institutions of higher learning operated by the Tibetan government in exile in India. The program includes **study abroad** in Dharamsala, a **student exchange**, ongoing **courses** and **research** in Tibetan culture and philosophy, and an exchange between students and faculty.

#### VETERANS

We welcome men and women who have served in the U.S. Military to Emory. College is a big investment of time, of money, of effort and it's important that you are happy with your choice. We're happy you're considering Emory as your college choice.

Emory works with the Veteran's Administration to offer veterans financial aid through the Yellow Ribbon GI Education Enhancement Program.

## OVERVIEW

The Yellow Ribbon GI Education Enhancement Program is a provision of the Post 9/11 Veterans Educational Assistance Act of 2008. Emory College of Arts and Sciences offers a Yellow Ribbon Award of \$7000.00 per academic year to four students in the College of Arts and Sciences for as long as they are enrolled in Emory College of Arts and Sciences. Please see the Veterans Administration website at <u>https://www.gibill.va.gov/GI\_Bill\_Info/CH33/Yellow\_ribbon.htm</u> for additional information on eligibility. Your Certificate of Eligibility (COE) from the Veteran's Administration and the Veteran's Data Enrollment Sheet at <u>http://registrar.emory.edu/\_includes/documents/sections/records-transcripts/VeteransEnrollmentDataInformation.pdf</u> are the student's application for this award.

# **GUIDELINES FOR APPLICATION**

Emory College of Arts and Sciences (ECAS) will accept Yellow Ribbon (YR) applications by email attachment **or** by paper applications mailed or hand delivered to Emory College of Arts and Sciences, 300 White Hall, Atlanta, GA, 30322. YR applications should be sent to the attention of Emily Tallant, Senior Associate Director of Student Records, Office for Undergraduate Education or by e-mail to <u>emily.tallant@emory.edu</u>. We will begin receiving applications from eligible students at **8:00am EST** on June 1 each year. **Please note that faxes will not be accepted**. (*Please note-- when June 1 falls on a weekend (Saturday or Sunday) applications will be* **accepted from 8am EST on the Monday immediately following June 1.**)

- Email attachments will be opened, printed and date stamped, and filed in the YR folder.
- Paper applications will be date stamped and filed in the same folder.
- A daily log will be used to record the order in which applications are "received."

A YR application consists of a completed Veterans Enrollment Data Sheet which is available on the Registrar's website at this link: <u>http://registrar.emory.edu/ includes/documents/sections/records-transcripts/VeteransEnrollmentDataInformation.pdf</u> and a copy of the Certificate of Eligibility. Please note that only students applying for Yellow Ribbon benefits should turn in the Veterans Enrollment Data Sheet to ECAS. Students claiming VA benefits other than YR should return the form to the Registrar's office at the address printed at the top of the form.

For additional information, please refer to:

http://www.registrar.emory.edu/Students/VA/index.html

Applications from eligible students will be accepted each year beginning June 1.

(Please note-- when June 1 falls on a weekend (Saturday or Sunday) applications will be accepted from 8am EST on the Monday immediately following June 1.)

# DEPARTMENTS AND PROGRAMS

## AFRICAN AMERICAN STUDIES DEPARTMENT

Dedicated to the histories, cultures, and political movements of black communities across the United States and the wider African Diaspora, African American Studies at Emory University pursues academic excellence and social responsibility through interdisciplinary scholarship, transformational pedagogy, and engagement with local, national, and international communities of African descent. In keeping with these dual commitments, the department changes the focus and broadens the vision of students in their explorations of human experience, history, literature, culture, and politics. The department prepares students for work, life, and the realities and responsibilities of twenty-first century global citizenship through an interdisciplinary approach to liberal arts education. AAS creates learning communities characterized by introductory, advanced, and integrative forms of learning. Students have numerous opportunities to participate in first-year seminars, lectures, writing-intensive courses, undergraduate research experiences, diversity curriculum, and capstone courses and projects. Here, faculty and students work collaboratively in the democratic pursuit of greater understandings of politics, culture, social movements, and society; of knowledge, ethics, evidence, and interpretation; and of the past and present as both means and ends.

Language Study All majors are encouraged to fulfill the degree requirements of Emory College by studying one of the following foreign languages: French, Spanish, and Arabic.

#### INSTITUTE OF AFRICAN STUDIES PROGRAM

The Institute of African Studies offers an interdisciplinary major and minor focusing on the histories, societies, and cultures of the peoples of Africa. Both major and minor emphasize mastering empirical knowledge about Africa as well as theories and methods central to its study.

Study Abroad	Students are strongly encouraged to participate in study or research abroad through one of Emory's approved programs in Africa: the St. Lawrence program in Kenya, Emory's South African summer internship, CIEE Senegal semester/year program in Dakar, SIT Development Studies in Uganda, SIT Post-Conflict Studies in Uganda/Rwanda, African studies in London at the SOAS, Human Rights at the University of Witswatersrand, and African studies at the University of Cape Town, South Africa. To ensure acceptance of credit for study abroad, a student must take at least one course on Africa at Emory prior to leaving, as well as seek approval in advance of courses to be taken and counted towards the major or minor. For approved programs, students may count up to 16 credit hours of courses per semester towards the major, or a total of 12 semester hours towards the minor.
Independent Study or Research	The Institute for Developing Nations (IDN) at Emory offers scholarships for independent student research projects in Africa in partnership with <u>Emory College Study Abroad</u> .

# AMERICAN STUDIES PROGRAM

American Studies will teach you how to think expansively and critically about American culture. Our courses will allow you to understand the patterns of American culture as they have changed over time, and as they are reflected in the particular experiences of Americans from different regions, social classes, races, ethnicities, genders and national backgrounds. The major will immerse you in the subject of American culture, as well as in the interdisciplinary methods of American Studies, which seek insight through multiple perspectives on phenomena, events, or currents in American culture. You will be exposed to several disciplinary perspectives through the Contributing Courses and also to models for integrating such perspectives in the Core Course, the Introduction, and the Senior Symposium. Our major is designed to help you explore the borders of American nationality as well as the contexts in which the American experience has unfolded. Our faculty have a wide range of scholarly interests and are affiliated with the English, Women's Studies, Sociology, Religion and History Departments at Emory.

The major will emphasize the interdisciplinary study of cultural forms, practices, institutions, technologies, and social movements in American history and culture. Both individual courses and the program as a whole will give special attention to the interactions of gender, place and region, race and ethnicity, and social class as cultural patterns. While we take the United States as our primary field of reference, we do so understanding that the internal borders of region and the external borders of nation have changed over time. We thus encourage work that explores America as a place, a population, and a set of historical events, and we will encourage each major to include courses with a comparative dimension or ones that offer an international context for the development of American culture.

We seek to give students a broad base in the sweep of American history (in our introductory course and in the requirement of one other course in American History) and exposure to the way that different disciplines offer insight into American history (hence the requirement to take one contributing course in social science and one in humanities). In the core courses, students will choose from a range of deeply interdisciplinary courses as they learn to apply the basic models of the introductory course to a variety of events and social phenomena in American history. The senior symposium will function as a capstone seminar, one that will bring students to a certain level of sophistication about American Studies as a scholarly field. In that seminar, students will learn about the history of American Studies and participate in a research seminar around a common theme (such as the legacy of slavery or the Vietnam War).

American Studies began as an intellectual movement in universities and colleges and there are over two hundred American Studies

programs in the United States (and even more abroad). It is therefore a degree that is recognizable to professional schools, gradaute programs, and employers. It can prepare students for a wide range of careers: in law, business, teaching, journalism, the arts, philanthropy and museums. Our majors will be taught how to think critically about the complex social system in which they live, which is an exemplary way to combine a liberal arts education with vocational interests.

# ANCIENT MEDITERRANEAN STUDIES PROGRAM

The Program in Ancient Mediterranean Studies (AMS) is an interdisciplinary program that is a collaborative attempt to make the world of the ancient Mediterranean and its Greek, Roman, Egyptian, and Near Eastern cultures and their legacies and traditions an integral part of the humanities at Emory. To this end, AMS provides an interdisciplinary major among the fields of art history, classics, history, Middle Eastern studies, philosophy, and religion, presents colloquia and conferences, and offers opportunities for independent study and study abroad.

Honors Program If the student qualifies for and chooses to do honors, an honors thesis of substantially greater length (consult the director for full requirements) will substitute for the Senior Research Project. The student who qualifies for

and chooses to pursue honors will take AMS 495R, Honors Independent Writing, for the two terms preceding the degree, and the honors thesis will be submitted according to the requirements. (In some circumstances, AMS 498R may substitute for the first of the two terms.) If the student fails to complete the honors project, the student will still be required to submit a paper of not less than 20 pages in length which will count as the student's senior research project.

# ANTHROPOLOGY DEPARTMENT

Anthropology is the scientific and interpretive study of humankind, from its beginnings millions of years ago to the present day. The discipline of anthropology begins with a simple but enormously powerful idea: that any particular aspect of human biology and behavior can be fully understood only when it is placed against a background provided by the full range of variability found in human biology and behavior worldwide. This is the comparative perspective, the attempt to explain both the similarities and differences among people in the context of humanity as a whole. Anthropology is therefore composed of multiple subfields. We offer courses in cultural, biological, linguistic, medical, and psychological anthropology. Anthropology majors receive a sound liberal arts education, which provides a needed edge in today's competitive world of careers. Anthropology's scope and intellectual roominess can prepare students to make objective, far-sighted decisions at the professional level in any career field. Anthropology graduates go on to careers in professional anthropology, medicine, law, social work, public health, environmental studies, teaching, translation, laboratory research, international business, and government. Emory students benefit from a variety of excellent resources for studying anthropology. Students of Anthropology have access to the following laboratories: the Laboratory for Comparative Human Biology, Laboratory for Darwinian Neuroscience; Human Health Laboratory; Media Publics and Critical Discourse Laboratory; Paleolithic Technology Laboratory; QuantitativeComputational Anthropology Laboratory(QCAL). Students also have opportunities to be involved with ongoing research at the Sloan Foundation's MARIAL Center (Myth and Ritual in American Life), the Yerkes National Primate Research Center, the Center for Behavioral Neuroscience, the Michael C. Carlos Museum and The Carter Center. For those students interested in medical anthropology, Emory is affiliated with the United States Centers for Disease Control and Prevention (CDC), and the Rollins School of Public Health. The department sponsors the Beta chapter of the Lambda Alpha National Anthropology Honors Society; graduates numerous Anthropology honors students each year; and invites all Emory students of Anthropology to participate in the Emory Anthropology Student Society, which organizes exciting events and activities that foster a strong sense of community in the Anthropology department. Please visit the Anthropology Department's website for information about courses, research opportunities, and more: http://anthropology.emory.edu/home/index.html

join the Honors Program as they preregister for their senior year. The Honors Program entails directed, original **Honors Program** research (Anthropology 495A and 495B), a thesis, an oral defense, and successful completion of a graduate course. The Department of Anthropology strongly encourages its students to pursue study abroad. Study abroad is a rich and invaluable educational opportunity, and is particularly desirable for the serious anthropology student. Students who are interested in study abroad should contact Emory College Study Abroad. This office has information about programs around the world and the types of classes available in these programs. In order to ensure that majors receive the necessary breadth and specific vision that Emory's Department of Anthropology offers, students may apply no more than twelve credit hours (three classes) of off-campus credit toward any anthropology major. (This includes transfer credit from American schools, as well as study abroad.) In order to obtain Emory credit for courses taken at another institution, students are strongly urged to seek Study Abroad course credit equivalency approval before leaving Emory. Although students may submit courses for Emory credit post facto, there is no guarantee that the courses taken will be approved by the department. Finally, all approved credit is pending satisfactory completion of the course. To obtain Emory equivalency credit, students should bring the appropriate Emory College Study Abroad form, along with syllabi or official course descriptions to the Department of Anthropology Office (207 Anthropology Building). The more detailed the information you can provide about the course, the better our ability to evaluate the course for credit. These materials will be reviewed by the director of undergraduate studies in Anthropology, and credit will be approved or denied. Petitions for course substitutions and waivers will be considered by the Anthropology Undergraduate Concerns Committee. Applications are available in the Department of Anthropology office. Independent Study Anthropology students are encouraged to become engaged in research under the direction of a faculty or Research member. They may receive academic credit for research participation.

Juniors who have a minimum cumulative GPA and major GPA of 3.5 are invited by the department to apply to

# ART HISTORY DEPARTMENT

The Art History Department studies the forms, functions, meanings, and theoretical underpinnings of the visual arts, broadly construed to encompass such activities as performance, construction, and installation as well as painting, sculpture, photography, and architecture. Our department considers works of art in historically and culturally specific ways, situating them within systems of belief, habits of visual literacy, practices of self-formation, social and political ideologies, patterns of sacred and secular discourse, assumptions about intentionality and authority, and currencies of global and transnational exchange. We comprise four collaborative faculty clusters: Ancient Mediterranean and American; Medieval/Renaissance/Baroque; Modern/Contemporary European, American, and African; and Architectural Studies. As a department we strive to introduce students to a rich variety of approaches to art and its study, to model for them analytical and critical thinking, and to encourage lucid writing and thoughtful response. At the graduate level, it is our mission to train students in the methods and practices of the field and to prepare them for advanced, artwork-based, interdisciplinary research with a respect for primary evidence and cultural contexts, past and present, so that they can successfully pursue careers in academic or museum work with benefit for the broader community.

# ATHLETICS AND RECREATION DEPARTMENT

The Department of Health and Physical Education closed Summer 2013. Courses previously offered by the Department are now offered, and managed, by Athletics and Recreation, a Division of Campus Life, under the banner of "Play Emory." Within this catalog you can see a listing of all currently approved PE courses that may be offered by "Play Emory." For more information on the Play Emory website here: <u>http://play.emory.edu/play\_4\_life/index.html</u>

Students in Emory College of Arts and Sciences are required to complete two (2) one-credit-hour courses with either the prefix PE or DANC as part of the General Education Requirements. One course from the area of Principles of Physical Fitness (PPF) and one additional non-PPF elective course must be taken prior to graduation. Students may receive a letter grade or S/U for all courses. Students should register for classes comparable to their skill level. Beginning and intermediate skill levels are offered in a variety of activities. A course may not be repeated for credit unless the course number is followed with the letter R.

To view courses available as part of the Dance Program, please visit their webpage.

Study Students may receive credit for physical education courses while they are studying abroad. These courses follow the same criteria as other study abroad courses, i.e., they must be approved in advance by the HPE Department, they must be courses taught for credit at the host institution, they must meet contact hour requirements. All approved courses will earn one semester hour of credit.

# **BIOLOGY DEPARTMENT**

The discipline of biology allows us to understand ourselves and the world around us. This powerful science is discovering the basic mysteries of life and has given us the practical tools to treat diseases, to increase the amount of food that we produce, and to preserve our natural ecosystems. An education in biology offers an excellent preparation for careers in medicine or health care, biological research, ecology, biotechnology, forensic science, as well as many other possibilities. The Department of Biology occupies state-of-the-art laboratories in the O. Wayne Rollins Research Center. Faculty specializations include cell and developmental biology, genetics and molecular biology, ecology and evolutionary biology, and neurobiology and behavior. As part of its primary commitment to undergraduate education, the biology department actively fosters student participation in research with its faculty as well as through cooperative arrangements with scientists at Emory University School of Medicine, the United States Centers for Disease Control and Prevention, and Yerkes National Primate Research Center. Biology department faculty are also heavily involved in programs leading to a PhD. These programs are housed in the Graduate Division of Biological and Biomedical Sciences, and they include faculty from several departments of Emory College and the School of Medicine.

#### CATHOLIC STUDIES PROGRAM

The Catholic Studies Minor is for students who want to learn about the rich intellectual and cultural traditions of the Roman Catholic Church during the past two millennia and study their impact on western thought.

The CS minor is a academic program, without confessional stance or episcopal oversight, driven throughout by the same spirit of independent scholarly inquiry Emory faculty have brought to the study of other religions and faith traditions.

#### CHEMISTRY DEPARTMENT

The Department of Chemistry offers excellent educational programs and physical facilities. There are opportunities for a close working relationship with faculty and more advanced students. Students may become involved in research as first-year students. The chemistry building contains well-designed undergraduate laboratories and classrooms plus research facilities that allow more than 150 students, postdoctoral fellows, and faculty to investigate the frontiers of chemistry. The most modern instruments are found in our laboratories, and undergraduates use these facilities on the same basis as other researchers. The chemistry holdings of the Emory University Library are housed in the Chemistry Building so that they are readily accessible to students and faculty working in their laboratories. Master of science and doctor of philosophy degree programs are offered in a variety of fields of chemistry.

Honors Program Students who have grade point averages of 3.5 or greater are eligible to enroll in the Honors Program. This requires that the student take one graduate chemistry course in addition to the normal degree requirements,

complete a research project supervised or sponsored by a member of the chemistry faculty, and write and defend an honors thesis based on this research. A student must enroll in Chem 495WR for the thesis to satisfy the general education writing requirement.
 See "Honors Program" under the curriculum section of the catalog and consult the department for further details.
 The chemistry department conducts a six-week summer study abroad program in Siena, Italy. Students receive credit for Chem 260 and 468 taught by Emory faculty and cover the topics of analytical chemistry in the context of wine, art restoration and conservation, forensics, olive oil, and food. Laboratory experience is included as well as guest lectures by the faculty at the University of Siena. For more information, please see Emory College Study Abroad.

Advising

Students wishing to declare a Chemistry Major should visit the Chemistry Main Office (Atwood 324) and speak with the Undergraduate Coordinator.

# CLASSICS DEPARTMENT (GREEK, LATIN)

The civilization and cultural achievements of ancient Greece and Rome continue to influence our values, the way we think, and the questions we ask. They represent some of our deepest cultural roots and stand at the core of a liberal arts education. The Department of Classics offers students an opportunity to study the languages, literature, culture, and influence of classical antiquity. General courses include such topics as classical mythology, law, religion, women in antiquity, and Greek and Roman literature in translation. Most of these courses have no prerequisites, and several fulfill Emory College General Education Requirements. For students interested in Greek or Latin, language instruction is offered at all levels, from elementary to advanced, both in a classroom setting and in individualized instruction. The department offers several majors and two minors as well as joint majors with other departments. Students interested in integrating the study of Greece and Rome with other Mediterranean Civilizations are encouraged to consult the Program in Ancient Mediterranean Studies in which the Department of Classics is an active participant.

Honors Program	Outstanding students in Greek and Latin are eligible for membership in Eta Sigma Phi, the national honorary classical society. Graduates of Emory may attend the American School of Classical Studies in Athens, Greece, and are eligible to compete for the fellowships offered annually by the school. A similar connection exists with the American Academy in Rome.
Study Abroad	Students eligible for the Emory College Honors Program should consult the departmental honors coordinator. The department encourages its students to study abroad through the numerous Emory programs that include a strong Classics component.

Advising	Upon declaration of a major or minor all students are assigned an advisor in the department. Students who have not yet declared a major or minor are welcome to consult the Director of Undergraduate Studies or any other member of the department.
Language Study	Language study required for majors and minors in the department varies and can be found under the descriptions for individual majors and minors.
Award	The department awards prizes annually to its top students in the ancient languages.

# COMPARATIVE LITERATURE DEPARTMENT

Comparative Literature (commonly abbreviated as "Comp. Lit.") offers students the opportunity to pursue their love of literature beyond national and disciplinary boundaries. It situates the study of literature in a 21st century global context that takes account of cultural and linguistic diversity as well as changing technologies and new media. Majors study literary texts in at least one language other than English, delving into works from the ancient as well as the modern world, and exploring cultural productions from non-Western traditions as well as the so-called "great books" of the West. Students study literature's intersections with other media and disciplines such as philosophy, religion, history, law, film studies, and psychoanalysis, and take courses in areas as varied as Exemplary Novels, French poetry, Russian Film, Literature, Justice, Postcolonial Popular Culture, Disaster Literature or Latin American Magical Realism. Comp. Lit. students also explore important theoretical questions: How do we define the human? How does language function in society? What is the relationship between ethics and religion? How do new technologies require us to rethink social, political, and ethical issues? How do we understand the relationship between history (events that happened) and memory (how we remember those events)?

#### **Honors Program**

To receive honors in comparative literature, eligible students select a CPLT Core Faculty adviser, based on the student's interest and the director's expertise. Honors candidates are expected to enroll in an appropriate course of directed study (Comparative Literature 495R, offered during both semesters of the senior year) for methodological guidance while writing the thesis. In the fall semester, the student must take Comparative Literature 490R, designed as a graduate-level course for seniors in the Department of Comparative Literature, or (with the thesis director's and the instructor's approval) a graduate course relevant to the student's thesis. Honors students must complete an honors thesis and defend the thesis in an oral examination. In addition to

the adviser, the committee members will include one other member from the comparative literature
department and one other examiner who is not a member of the program.

See "Honors Program" under the curriculum section of the catalog and consult the department for further details.

Study Abroad

Majors in comparative literature are encouraged to pursue a course of study in any of the Emory Study Abroad Programs (summer, semester, or yearlong). The department gives credit toward the major for two courses under the foreign language requirement and three courses in literature in the original language.

# COMPUTER SCIENCE DEPARTMENT

Computer Science is central to all aspects of modern life. CS encompasses intrinsic issues of algorithms, data, and systems, as well as applications to society, health, science, and humanity. The Emory CS department conducts innovative research in these areas and offers bachelors, masters, and doctoral degrees in CS and several interdisciplinary areas. Undergraduate CS majors may pursue either a bachelor of arts or bachelor of science degree. The department also offers a joint BS in Math and Computer Science, as well as minors in CS and in Informatics. Although the BA and BS programs have different objectives, both emphasize the principles of computer science and underlying quantitative foundations. The department is home to a wide range of modern computing equipment and student laboratories, and all undergraduate programs include intensive immersive experiences in computer programming, system building, and contemporary topics in big data and artificial intelligence.

# CREATIVE WRITING PROGRAM

In the Creative Writing Program at Emory students study both art and craft: the literary traditions in which they write and the elements of craft in poetry, fiction, playwriting, screenwriting, and creative nonfiction. The program fosters their development as writers, through an emphasis on reading as a writer, generating material, and revision.

# DANCE PROGRAM

The Emory Dance Program provides a range of opportunities for students to experience dance, from performance and production to technique and theory. The mission of the Emory Dance Program is to provide a curriculum that interweaves both the practical and theoretical to foster students' creative, intellectual, and communicative powers in the field of dance. The Emory Dance Program emphasizes performance and choreography, based on the primary tenets of modern dance, which value individualism, innovation, and interdisciplinary approaches to the arts.

The study of dance is perhaps the most unique and all-encompassing pursuit in the fine arts. It involves the total exploration of the self-emotional, intellectual, and kinesthetic. The program develops students' awareness and appreciation of movement in all its diverse forms and their ability to communicate through non-verbal expression. Dance develops insights into a broad range of studies; therefore it plays a viable role in the liberal arts education. Since dance is so multi-faceted, it enhances the student's preparation for a variety of careers.

The Dance Program is housed within the **Theater and Dance Department**.

	The Sally A. Radell Friends of Dance Summer Scholarship Program was established in 1996 to make summer dance study more accessible to Emory students. It enables dance majors and minors to study either in the United States or abroad with notable practicing artists, dance programs, and dance companies of their choice.
Award	Established in 2014, the <b>Friends of Dance mini grants</b> support dance majors or minors doing research in movement, dance writing or health sciences. These grants specifically support short-term workshops and conferences. (3-4 days-up to one week)
	Nominated and selected by Emory Dance Faculty and awarded to a senior who is "breaking new ground," the <b>Pioneer Award</b> recognizes creative application and creative potential in the field of dance. It is defined by an in-depth investigation in technique, performance, choreography, or movement studies.
Independent Study or Research	Independent study projects in dance can be arranged in the areas of technical production, choreography, historical or theoretical research, performance, directing, or choreography. Scholarly Inquiry and Research at Emory (SIRE) awards grants for independent research and honors projects. Dance faculty are available to assist students in the application process.

# EAST ASIAN STUDIES

The East Asian Studies Program of Emory University is administered under the Department of Russian and East Asian Languages and Cultures to promote and coordinate events and activities related to China, Japan, Korea and broader East Asia. Associated faculty include specialists in anthropology, literature, philosophy, politics, religion, history, and music.

The East Asian Studies Program supports an undergraduate degree (major or minor) in East Asian Studies. Students may also major and minor in Chinese or Japanese through REALC.

#### ECONOMICS DEPARTMENT

Economics seeks to understand and predict human action and choice. Economic theory rests on the idea that human action is purposeful and best understood from the vantage point of a person choosing among explicitly defined alternatives. Economic theory applies principles developed from the logic of choice to the resolution of interpersonal conflicts of interest and the coordination of productive activity in a world of scarce resources. The study of economics equips students to analyze a broad range of social, political, legal, and economic phenomena and public policy. The study of market regulation, environmental protection, economic growth and development, financial markets, international trade and finance, the distribution of income, inflation, and the level of employment are the stock in trade of economics. But economists also analyze a far broader set of issues, including the nature of the family, the origins of civilizations, discrimination, crime, and the structures of law and politics. Economics provides a versatile background for postgraduate professional or academic training. Economics offers a framework for the analysis of rules of liability and property rights and thus undergirds much of the modern study of law and legal institutions. A growing number of law students find it useful to prepare for this training by majoring in economics during their tenure as undergraduates. Economics also contains the theoretical core for business, finance, accounting, and marketing and thus provides a solid foundation for postgraduate work in business administration. Many private sector job opportunities are available for economics majors in the banking industry, brokerage houses, investment banks, insurance companies, and law firms. Economics majors can work as financial analysts, risk management analysts, forecasters, or analyst staff members in litigation or merger and acquisition departments. Economics majors can also work as policy analysts for one of the Federal Reserve Banks as well as various government agencies at the federal, state, or local level.

The Honors Program is available to outstanding students in Economics, Economics/Mathematics, and Economics/History. Students with a cumulative average of 3.50 (for all courses taken at Emory) at the end of their third year may be invited to participate. The number of students admitted to the Honors Program is determined by the Economics Department's capacity for advising honors theses, so a 3.5+ GPA does not automatically lead to admission into the program. (Note that in recent years, typical GPA of invitees has exceeded 3.75.)

Administered by the Emory College Honors Committee, this program enables students to do intensive work in a chosen area and, therefore, involves work that extends beyond ordinary course requirements and standards of performance. Students must complete Economics 201, 212, and 220 previous to entering the Honors program (i.e., previous to the Fall Semester of their senior year). Students enrolled in the Honors program must complete either Economics 420 or Economics 422 by the end of the Fall semester of their senior year. Honors Program Preference will be given to students who have completed Economics 420 or 422 by the end of their third year. Students enrolled in the Honors program must complete Economics 495A during the Fall Semester of their senior year.

An examination covering the honors work, including the thesis and allied fields, is given upon completion of the program. One examiner must be chosen from outside the department. Examiners recommend the degree of honors (honors, high honors, highest honors) to the Honors Committee. Honors (cum laude) represents satisfactory completion of the program, together with an overall average of 3.50. High Honors (magna cum laude) represents completion of the program with outstanding performance, including an overall average of 3.50 and a thesis of quality sufficient for oral presentation to scholars in the candidate's field. Highest Honors (summa cum laude) represents completion of the program with exceptional performance, including an overall average of 3.50 and a thesis of a quality suitable for submission for publication.

Chudu Alexand	A student may complete Honors in the joint Mathematics/Economics major by completing the requirements for Honors either in the Mathematics Department or in the Economics Department. Participation in the Honors Program in both departments is by invitation only. The student's Honors committee must include at least one faculty member from the Economics Department, one faculty member from the Mathematics Department, and one faculty department from a department other than either the Economics or the Mathematics Departments. Students interested in a study abroad program are encouraged to contact <u>Emory College Study Abroad</u> and
Study Abroad	reviw the Economics Department Rules on Study Abroad.
	Internship Information
	The Economics Department offers an internship course, ECONOMICS 449, which is open only to economics majors and minors. Students are enrolled by permission only and they must have already completed ECONOMICS 201, 212, and 220. The course carries two credit hours taken on an S/U basis and it will not count toward the 10 courses you need to satisfy the majors requirements. The Economics department internship can be taken during the fall, spring or summer semester.
Internship	To register for the course, which is by permission only, the students are required to download the registration form ( <u>click here to download the form</u> ) and talk to their faculty advisors about the internship opportunity when they schedule courses during pre-registration. The advisor checks the prerequisites and approves the internship provided that it is compatible with the student's course of study. In a similar fashion, minors secure permission from the Director of Undergraduate Studies. The completed internship form must be turned into the Undergraduate Program Coordinator to register. Once registered the student reports to the faculty in charge of the internship course.
	A report discussing how the internship experience related to your economic training and in what ways it helped your professional development is to be turned in to the course faculty or the Undergraduate Program Coordinator on the last day of classes for the semester enrolled. See the Undergraduate Program Coordinator for further details.
	Students who would like to get internship credit over the summer at reduced cost should see Emory College's Summer Internship Program at: <u>http://college.emory.edu/oue/academic-programs/internships/index.html</u> . Here the students earn college credit (rather than economics credit) but at a much lower tuition cost.
	This area should be used to describe any internship information that students should be aware of, specific opportunities, requirements, etc.
Award	ODE - Omicron Delta Epsilon - is the economics honor society. ODE is dedicated to promoting excellence in economics by recognizing outstanding achievements and by encouraging professional exchange among students, faculty, and professionals in our discipline. The requirements for membership are a minimum overall grade point average of 3.25 and an average of 3.60 or higher in at least 16 credit hours of economics courses. ODE organizes several events annually including the spring induction banquet, dinners with faculty, and career-related information sessions.
	Three prizes are awarded by the Department annually: (1) the Jack and Lewis Greenhut Award for excellence in economics and promise for graduate studies; (2) the Tate Whitman Award in Economics for analytic clarity, personal integrity, and leadership; and (3) the George Benston and Richard F. Muth Award for intellectual curiosity, passion, and skill in economic analysis.

# ENGLISH DEPARTMENT

The study of literature, how writers produce it, and how it affects individuals and society is essential to a liberal arts education. Literary study also may explore the effects of history, religion, science, philosophy, and other disciplines upon readers and writers of different times and places. Emory's program gives undergraduates knowledge of the different genres and periods of British, American, and other Anglophone literatures and of literature as an index to culture in the broadest sense. It also stresses instruction in the techniques of analysis, research, and writing. It provides an educational foundation of critical thinking, sound judgment, and clear writing valuable to students planning careers in business, teaching, law, medicine, or other fields.

# ENVIRONMENTAL SCIENCES DEPARTMENT

The Department of Environmental Sciences' interdisciplinary and integrative curriculum is designed to equip students with key skills and knowledge to understand and confront complex environmental issues. The curriculum is rooted in the basic disciplines of ecology and conservation, earth science, and social science and policy. Field and integrative courses compel students to synthesize concepts, methods and practice from these essential disciplines. Undergraduate research opportunities and internships are emphasized. The department offers a BA, BS, three minor options, a concentration in Environment and Sustainability Management with the Goizueta Business School, and two 4+1 programs: one BS/MPH with Rollins and a BS/MS program housed within our department.

# FILM AND MEDIA DEPARTMENT

We are surrounded by moving images-on television, in movie theaters, on our computers, and even in electronic billboards. If you can understand the ways in which media communicate visually and with sound, you can become a more media literate, perceptive, discerning and skeptical citizen in the globalized 21st century.

The mission of the Film and Media Studies Department is to teach students how to make this kind of media literacy a part of their everyday lives by always thinking critically about the ways in which images and sounds create ideas. We train undergraduate and graduate students to be discerning consumers, scholars and producers of our most influential cultural forms, by grounding them in a thorough knowledge of American and international film and television history, the practices of media theory and criticism, as well as familiarizing them with the tools and methodologies of fiction and documentary filmmaking.

Our medium-sized department provides students with close mentoring and an individually tailored course of study. Our majors and minors are highly motivated, passionately enthusiastic and thoroughly trained in the perception and interpretation of moving images, and as well as the skills necessary to communicate their ideas orally and in writing.

Our majors and minors go on to careers in medicine, the law, business, publishing, the media entertainment industry (television networks, talent agencies, production companies) and academia, armed with the critical thinking skills that are the hallmark of an interdisciplinary liberal arts education. They are well prepared for whatever career they choose to pursue. In short, the Film and Media Studies Department plays a crucial role in the mission of Emory's College: to prepare students "to be responsible and well-informed citizens of the world.

Majors in French are strongly encouraged to spend at least one semester, usually during their junior year, abroad in one of the department's approved programs. The department conducts its own summer program in Paris and sponsors a semester/year program in Paris with Duke and Cornell, EDUCO. Students enrolled in the latter program may choose from a wide variety of classes offered both at the EDUCO center and at several French institutions, including three branches of the University of Paris, I, IV, and VII. Selected students also may study at the prestigious Institut des Sciences Politiques (year program only). The department gives credit

toward the French studies major or minor only for classes taken through an Emory program. However, in specific cases, and upon preapproval by the French director of undergraduate studies and the Emory College Study Abroad office, some credit may be earned overseas in programs sponsored by other institutions that offer courses or career opportunities not available through Emory.

Award

The Mrs. B.R. Bray Prize is offered annually for the year's best work in French. Sigma chapter of Phi Sigma Iota, the national Foreign language honor society, was installed at Emory in 1930.

## GERMAN STUDIES DEPARTMENT

The German Studies Department offers a major and minor degree in German Studies. Courses range from introductory level instruction to advanced studies seminars. Students may choose from courses in literature, culture, German film, history, music, business, and Yiddish studies.

Honors Program	Qualified German Studies majors are encouraged to consider writing an honors thesis their senior year. Preparation for the thesis should already begin during the fall semester of the junior year when possible directions and topics for the thesis should be discussed with departmental faculty and a research timeline can be established to complete the thesis by mid-March of their senior year. Interested students should also be aware of the funding opportunities in Emory College through the SIRE program or the Fox Center for Humanistic Inquiry to support honor's thesis work. Students writing an honor's thesis are encouraged to present their research at the annual Undergraduate Research Symposium in April of their senior year.
Study Abroad	All undergraduate students at Emory are invited and all students in German are encouraged to participate in the department's summer program in Vienna, Austria (see German 370A/B), which provides cultural immersion as well intensive language instruction. Students majoring in German studies are strongly urged to spend a regular semester or the junior year with an approved program of study in a German-speaking country. Programs are currently available in Freiburg, Berlin, and Vienna; for details contact the Emory College Study Abroad Office or the Department of German Studies.
Advising	For further assistance regarding studying German at Emory, contact the Director of Undergraduate Studies in the department. The Director of Undergraduate Studies also serves as the advisor to all majors and minors.
Internship	US-GERMAN INTERNSHIP PROGRAM
·	In conjunction with the American Chamber of Commerce in Germany, the department is pleased to offer its own summer internship program that arranges summer positions in Germany for up to five students each year. Contact the Director of Undergraduate Studies in the department for more information.
Award	Each year the Department of German Studies recognizes outstanding achievement in German by awarding DER SPRACHPREIS FOR GERMAN LANGUAGE ACQUISITION, the GERMAN STUDIES AWARD FOR EXCELLENCE, and the PRIZE FOR YIDDISH LANGUAGE ACQUISITION. In addition, the Emory College Language Center awards a prize each year for excellence in the study of German.

## HISTORY DEPARTMENT

At Emory, history is a discipline belonging to both the humanities and the social sciences. On the undergraduate level, its study is aimed not so much at training future historians as at training students to think historically. This involves the mastery of a certain amount of factual information, but never as an end in itself. Thinking historically means learning how to deal critically with evidence and to recognize relationships in order to understand that our own times are what they are because of the past. The history department offers a large number of individual courses in American and European history plus coverage of Latin America, Africa, East Asia (China and Japan), and the Near East (including Israel).

History majors and joint majors with a <u>3.50 cumulative average</u> and a <u>3.50 major average</u> in their junior year are eligible to apply to participate in the History honors program. Eligible students will be expected to complete a short application for admission into the History honors program in the first semester of their junior year. Exceptions to the 3.50 cumulative-average requirement require a formal petition, in conjunction with the Department Honors Coordinator, to the College Honors Committee.

Honors Program

Though normally beginning in the JUNIOR year for majors, the honors program is a SENIOR-year (two semester) program within the College; therefore, students will not be OFFICIALLY admitted to the honors program until the fall of their senior year (with the exception of second-semester juniors who expect to graduate the following fall). The Department, however, will expect its honors students to begin their honors

studies in the spring of their JUNIOR year, barring extraordinary circumstances. Requests for late admission (in the spring semester of the junior year) require a petition to the Department Honors Coordinator explaining the special circumstances for the late admission (study abroad, late declaration of major, etc.). The History Department is flexible on sequencing but we wish to stress the importance of beginning the program in the student's junior year.

#### **PROGRAM REQUIREMENTS**

#### A MINIMUM OF 12 HISTORY COURSES

Including at least 8 courses at or above the 300 level and at least 2 courses outside the student's major concentration field (European, World or U.S. history).

No history courses may be taken S/U to be credited to the honors requirements.

<u>3 COURSES OF REQUIRED HONORS-PROGRAM COURSES</u> (included in the 12 courses required for the history major) Hist.495A, a 500-level graduate seminar, and Hist.495BW.

HISTORY 495A, "INTRODUCTION TO HISTORICAL INTERPRETATION," is a required course of the History honors program. Although offered in both Fall and Spring semesters, History 495A is normally taken in the Spring semester of the junior year and must be taken by the end of the Fall semester of the senior year. The course addresses historiographical and methodological issues and offers practical guidance in thesis design and research.

A 500-LEVEL GRADUATE SEMINAR is normally taken in the Spring semester of the junior year or the Fall semester of the senior year. Students who wish to take their graduate seminar in another semester due to its greater suitability to their thesis topic may petition the Department Honors Coordinator for an exception. If no appropriate graduate seminar is being offered at any time in the year, candidates may petition to substitute an undergraduate colloquium to be taken as History 596R "Special Studies." Honors students may use graduate seminar courses (500-level) to fulfill the history major colloquia requirement; however, graduate seminars do not meet the College continuing writing requirement.

HISTORY 495BW is the thesis-writing section of History 495. Normally, this course is taken in the spring semester of the senior year (i.e., in the student's last undergraduate semester) and is organized around the writing of the honors thesis.

#### PROJECT PROPOSAL

Students will submit an honors project proposal (normally completed in the honors seminar, Hist.495A) to the Department and their thesis advisor, ON OR BEFORE THE LAST MONDAY IN APRIL of the junior year (or the LAST MONDAY OF NOVEMBER of the senior year for late admissions to the Department honors program).

#### HONORS THESIS

An honors thesis, usually <u>BETWEEN 40 AND 60 PAGES</u>, based on original research (as per the College honors program specifications) must be completed in conjunction with the College honors program deadlines.

#### Note on Joint Major Requirements

Please note that JOINT MAJORS (History/Art History, Classics/History, English/History, Religion/History) must choose to follow the honors program requirements of ONE OF THE JOINT MAJORS and adhere to the joint-major honors examination procedures (below).

## THESIS EXAMINATION COMMITTEE

#### FOR HISTORY MAJORS

The thesis examining committee will be composed of three faculty members, one of whom must be from a department other than history. The examination will be oral and will cover the thesis.

#### FOR JOINT MAJORS

The thesis examining committee will be composed of three faculty members: one from the history department, one from the joint-major department, and one from outside both of the joint-major departments. The examination will be oral and will cover the thesis.

Study abroad course approval and evaluation of credit: The history department does not pre-approve study abroad courses. To receive Emory history credit for study abroad courses, the student must: 1)take a history course in a history department in an approved study abroad university; and, 2)submit written work following dept. guidelines for approval of credit. Written work guidelines: To be considered for upper-level (Hist.385) credit, students must complete a 3,000 word research paper with proper use and citation of sources.??? To be considered for lower-level (Hist.285) credit, students must complete 2,000 words of written, graded work in the form of one or more short essays, or some other appropriate form (not in-class exams or journals). Upon returning to Emory, students should submit all written work and course syllabus to Becky Herring, Undergraduate Program Coordinator, who will forward these materials to the Director of Undergraduate Studies for approval and evaluation of credit.

Advising To ensure that history majors make steady progress toward timely graduation, the history department has a mandatory advising policy. Students must meet with a history advisor and obtain her/his signature during the pre-registration advising periods.

#### HISTORY 494

The history department's internship program provides students with the opportunity to apply their academic knowledge to practical experience. The internship must engage historical issues and materials. The student is responsible for identifying and securing acceptance to an internship position. All student internship projects must be approved by the history department's director of undergraduate studies, who can supply suggestions and information on possible internships.

#### ELIGIBILITY

To be eligible a student must:

Internship

Study Abroad

2) be a junior or a senior

1) be a history major

3) have a minimum 3.0 cumulative GPA

4) offer an internship project relevant to the study of history

#### APPLICATION

Students interested in enrolling in the history department's internship program must:

1) contact the sponsoring institution and make all arrangements of the internship

2) complete an application (available from the history department)

3) provide a brief proposal specifying the nature and scope of the internship and research paper with particular attention to the historical relevance of this work

4) obtain the approval of the history department's director of undergraduate studies

#### COURSE REQUIREMENTS

1) a prescribed number of hours working at the sponsoring institution, validated by a time sheet signed by the supervisor

2) a research paper of a prescribed length on an historical topic

3) a one-page evaluation by the student of the internship experience

4) a letter of evaluation from the student's supervisor at the sponsoring institution

#### COURSE CREDITS

All internships are expected to last fourteen weeks, earning four credit hours for ten to twelve hours of work per week, and conclude with a fifteen-page research paper. The paper must be submitted to the director of undergraduate studies by the last day of classes.

#### GRADES

The course grade is based on the supervisor's written evaluation of the intern's performance (50%), and on the quality of the research paper (50%) as evaluated by the history department's director of undergraduate studies.

Established in 2006, the Clio Prizes are awarded annually to the best research paper written in a junior/senior history colloquium and to the best paper written in a freshman history seminar.

The George P. Cuttino Scholarship, established in 1984, is awarded to a junior for travel and research in Europe during the summer before the senior year. The George P. Cuttino Summer Study Fellowships are awarded to juniors for study outside the United States in a summer study program. Scholarship and fellowship applications are requested in early spring semester.

The Theodore H. Jack Award, established in 1992, is awarded to a history major or joint major with senior status (75+ credit hours) during the summer before the senior year for travel and research in the United States.

Award The James Z. Rabun Prize, established in 1981, is awarded annually to the graduating senior who has achieved the most outstanding student in the field of American history.

The George P. Cuttino Prize, established in 1984, is awarded annually to the graduating senior who has achieved the most outstanding student in European history.

The Latin America and Non-Western World Prize, established in 2015, is awarded annually to the senior who has achieved the best overall record in Latin American and Non-Western World history.

The Matthew A. Carter Citizen-Scholar Award, established in September 2000 in memory of a former student, is given annually to the graduating senior who exemplifies the qualities that made Matt Carter such an outstanding individual: high academic achievement and good works in the community.

Phi Alpha Theta is the international history honorary society. Local membership is determined by grade average and course hour requirements as set forth by the international council. Invitations to join are sent to eligible majors in early spring semester.

## HUMAN HEALTH

The Center for the Study of Human Health is the nexus for cross-disciplinary, cross-institutional collaboration on health and provides the organizational structure to accomplish horizontal integration of Emory's extraordinary and diverse assets. The Center achieves connections and synergies in health education, research and practice fostering intellectual exchange among a community of scholars whose interests span the science of health and the social and cultural dimensions of health and humanity.

## INSTITUTE OF THE LIBERAL ARTS DEPARTMENT

This major is for independently minded, motivated students, who have a desire to study an individualized topic that draws on two or more disciplinary methodologies.

The history of Emory's ILA, which dates back to the 1950s, has included various programs in innovative interdisciplinary education and research, at both the undergraduate and graduate levels. The ILA has always had a strong commitment to faculty collaborations that cross disciplinary boundaries, and to public and experimental forms of scholarship. As an institute committed to the exploration of forms of knowledge that are enriched by dialogue across disciplines and departments, the ILA seeks to be a catalyst for intellectual conversations aimed at understanding the cohesion and potential of the liberal arts, and the significance and social responsibilities of science and scholarship in the 21<sup>st</sup> century.

Recent students in the ILA have used the Interdisciplinary Studies (IDS) and American Studies (AMST) Majors to focus on an array of student-designed topics, from art history and politics, to biases in the treatment in U.S. high school history texts of the WWII internment of Japanese Americans.

When they declare, majors are assigned faculty co-advisors, generally including the DUS or one of the core IDS faculty, and a faculty member from any department with specific expertise in the student's area of interdisciplinary research. The co-advisors will work closely with each student to complete an IDS or AMST proposal that specifies relevant courses as major requirements, subject to revisions to be approved by both co-advisors.

Undergraduate interdisciplinary study proceeds on the hypothesis that some, if not all, subjects require methodologies, evidence, or texts drawn from more than one discipline, if they are to be understood deeply. Three pillars structure each student's experience in the undergraduate programs of the ILA:

- a critical perspective on the history, inter-relationship, and contested nature of disciplinary boundaries, specifically with reference to social structures of education and higher education

Emory College 2021 – 2022 Catalog

Core

- a focus on writing as a crucial dimension of fully engaged reading, understanding, and public scholarship

- vibrant co-teaching as a model and embodiment of interdisciplinary inquiry and learning at the undergraduate level

Honors Program	Honors students, identified in their Junior year in their work in IDS 390 will take a minimum of one, and will be encouraged to take two semesters of IDS 495R or AMST 495R Honors Research. During the fall term the students will meet in a seminar-like setting on a weekly basis with the aim of producing a significant first draft of their future Honors project. This project will be further researched and revised during an (optional) spring semester of 495R.
Study Abroad	The IDS and AMST programs encourage study abroad and understanding of other cultures. In consultation with the director of undergraduate studies, study-abroad courses can be counted toward the IDS or AMST major concentration course requirements.
Internship	The IDS and AMST programs recognize that there can be real value to integrating the theory of academic studies with the practice of real-world experience, or in learning more about a prospective vocation through an internship. We therefore offer IDS 485R and AMST 496 as a permission-only variable credit courses every semester (including summer). Please contact for details.

#### **ITALIAN STUDIES PROGRAM**

The Italian Studies program is an interdisciplinary program based in the Department of French and Italian, with academic links to S n а

several other Emory College of Arts and Sciences departments. The program takes pride i	n the close faculty/student teaching and
mentoring relationships fostered. We offer a wide range of excellent study abroad progra	ams in Italy, both during the summer as well
as during the Fall and Spring semesters.

## JEWISH STUDIES PROGRAM

The Jewish studies program examines Jews and Judaism from the perspective of different disciplines in the humanities and social sciences, such as history, religious studies, language and linguistics, literature, theology, political science, and anthropology. This interdisciplinary approach has two objectives: first, to train students in understanding various aspects of Jews and Judaism; and second, to expose students to the serious investigation of topics with different disciplines and methodologies. The program offers a unique opportunity to pursue a high-quality liberal arts education while providing an excellent foundation for students who would like to pursue Jewish studies in graduate school, enroll in a rabbinical program, or work in Jewish organizations and communities. Students who major in Jewish studies will take nine courses and also will gain advanced language proficiency in Hebrew or another Judaic language.

Study Abroad	As part of its undergraduate program, the Institute for Jewish Studies participates in several study abroad programs. For more information on programs at Hebrew University, Tel Aviv University, CET Prague, and CIEE Prague, please visit the <u>Office of International and Summer Programs website</u> . Additionally, TIJS will in many cases also accept transfer credit from other study abroad programs for courses in
Language Study	Jewish studies, with prior approval of the undergraduate director. Hebrew language and Arabic courses are offered through the Department of Middle Eastern and South Asian Studies (MESAS) and will count towards fulfillment of the Jewish Studies major. These languages are an integral part of the Jewish Studies program.
Award	The Tam Institute for Jewish Studies offers grants to support students' academic endeavors in Jewish Studies beyond regular coursework and classroom activities, including year-long, semester-long, or summer study abroad programs (primarily for undergraduates), off-campus language study (for training beyond what is offered at Emory), research (primarily for theses or Ph.D. dissertations), and travel to attend or present papers at scholarly conferences (primarily for graduate students). TIJS will accept grant applications twice every year: In the Fall for academic-year grants and in the Spring for Summer grants. Typically, academic-year support is reserved for graduate students who need assistance with travel and research, but applications from undergraduates will be considered under extraordinary circumstances. Summer grants are regularly awarded to both undergraduates and graduate students. ## LATIN AMERICAN AND CARIBBEAN STUDIES PROGRAM

The Program in Latin American and Caribbean Studies promotes a multidisciplinary understanding of culture, history, and contemporary issues in the region. Students take courses that examine the region from a wide array of disciplinary perspectives, while simultaneously deepening their knowledge of Latin America and the Caribbean within a disciplinary concentration. A student who completes this program receives a degree in Latin America and Caribbean Studies with a concentration in a single discipline. Students are encouraged to pursue part of their education studying abroad in Latin America or the Caribbean. A maximum of sixteen credit hours of foreign study can be applied towards the major, with the approval of the program's Director of Undergraduate

Studies. In addition to its course offerings, the Program in Latin American and Caribbean Studies regularly sponsors lectures, seminars, exhibitions, and films. It also hosts visiting scholars and encourages student internships.

## LINGUISTICS PROGRAM

Linguistics, the systematic scientific study of human language and communication, is a broad field that investigates a range of questions regarding the remarkable fact that humans produce and use language. At Emory University we take an interdisciplinary approach, looking at language in relation to cognition, culture, social identity, history, philosophy, and aesthetics. Our questions include: What enables humans to produce and understand sentences that they have never heard before? What are the basic building blocks of human languages? How do children learn language? How do people use language in multilingual contexts? How are patterns of thinking shaped by language? Why do languages change over time? How do meanings get attached to words? The Program in Linguistics faculty are based in numerous departments across the college, representing the contemporary field of linguistics, as it is situated at the intersection of the social sciences and the humanities. The program directs a minor in linguistics, a major in linguistics, and a joint major in psychology and linguistics and coordinates a Linguistics Study Abroad Program in Amsterdam. The program facilitates academic discussion on language and linguistics on campus and sponsors events connected to linguistics. The program also sponsors an annual Linguistics Student Research Symposium. Students are encouraged to check the program webpage at www.linguistics.emory.edu for updates on programs of study (majors and minor), courses, and events.

Generally, this research will fall primarily within one or more of the three orientations identified in the Major in Linguistics: cognitive, structural or sociocultural (contextual) approaches to the study of language. Students with an overall grade point average Honors Program of at least 3.5 in the first three years and with at least a 3.5 GPA in their major courses will be notified by the Program in Linguistics in the Spring of their junior year that they are eligible to participate in the Linguistics Honors Program, and will be invited to an orientation meeting which will fully explain the program. Students will be responsible for defining a project and finding a faculty member who is willing to serve as advisor. The Amsterdam exchange program offers students the opportunity to take a range of courses taught in English while exploring Dutch culture and one of the world's great multicultural and multilingual cities. Students who are majors in linguistics are encouraged to take coursework abroad as part of their Emory academic degree Study Abroad program. Emory students can choose to study at Vrije Universiteit Amsterdam (VU) or Universiteit van Amsterdam (UvA). Please contact Emory College Study Abroad or the Program in Linguistics for more information. Majors are assigned an academic advisor and should meet with that advisor on a regular basis to discuss courses to take to meet the requirements for the major. In addition, students should talk to their advisors about future career plans if they include graduate training, as there may be additional courses they should Advising take for entrance to graduate school. Advisors will be available during Pre-registration. Sign-up sheets are placed outside each advisor's office in the weeks before Pre-registration. It is strongly advised that students sign up as early as possible for advising. However, advisors often have more time to spend with students at times other than Pre-registration. Please take advantage of these times when scheduling appointments. Linguistics majors and minors are required to take two foreign language courses. 1. Two courses in one foreign language at the 200-level or above or Language Study 2. Two courses in two different foreign languages at any level, with approval from the Director of Undergraduate Studies. NOTE: Students participating in the Amsterdam Study Abroad Program may use introductory Dutch to satisfy one semester of this requirement. Phi Sigma lota, the International Foreign Language Honor Society, is open to outstanding students of linguistics and foreign languages. Minimum qualifications for students applying for membership based on achievement in Award linguistics are: (1) overall GPA of 3.3 or higher, and (2) completion of at least 20 credit hours in Linguistics with an "A-" (3.67) average in linguistics courses.

## MEDIEVAL STUDIES PROGRAM

The Program in Medieval Studies at Emory University promotes interdisciplinary and cross-cultural studies of medieval societies and cultures from Late Antiquity to the seventeenth century by offering an Undergraduate Major in Medieval-Renaissance Studies in Emory College and a Graduate Certificate Program in Medieval Studies for graduate students working in departmental doctoral programs. (Note: The Undergraduate Major in Medieval-Renaissance Studies has been suspended)

The Medieval Studies Program also sponsors lectures, symposia, monthly roundtables, and other gatherings for the presentation and discussion of scholarly work by faculty and students on Medieval Studies and on the different areas of study that constitute it.

Organized as a program of Emory's Graduate Institute of Liberal Arts, the Medieval Studies Program is administered by a Director, a Steering Committee, and a Committee on Medieval Studies. Faculty associated with the Medieval Studies Program hold appointments in Art History, Classics, Comparative Literature, English, French and Italian, German Studies, History, Jewish Studies, Middle Eastern Studies, Music, Philosophy, Religion, and Spanish and Portuguese; in the Candler School of Theology; and at the Beck Center at Woodruff Library.

# MIDDLE EASTERN AND SOUTH ASIAN STUDIES DEPARTMENT (ARABIC, HEBREW, HINDI, PERSIAN, TIBETAN)

The Department of Middle Eastern and South Asian Studies offers a wide range of courses on the languages, literatures, cultures, history, and archaeology of the region. A major in Middle Eastern and South Asian studies combines the study of one or more of the languages of the region with the cultural, literary, historical, archaeological, and religious aspects of the area. This major prepares students for careers in government service, international affairs, and graduate studies. Majors in Middle Eastern and South Asian studies may elect to concentrate in specific subareas of the Middle East, such as Judaic studies, Islamic studies, South Asian studies, or archaeology. The Department of Middle Eastern and South Asian Studies also offers minors in Arabic, Hebrew, Hindi, Persian, Tibetan and Mediterranean archaeology.

Honors Program

To receive honors in Middle Eastern and South Asian Studies, eligible students select an adviser from among the faculty of the department. The adviser should be chosen on the basis of his or her expertise in the topic to be examined in the thesis. During the senior year, honors students enroll in Middle Eastern Studies 495RWR in the fall and spring semesters. Honors students must complete an honors thesis and defend it in an oral

hearing. In addition to the adviser, the committee of examiners will include one other faculty member of the department and one faculty member from outside the department.

Study Abroad

The Middle Eastern and South Asian Studies Department sponsors two summer study abroad programs: Emory Experience in Israel and Archaeology. In addition, the department sponsors two Junior Semester Abroad Programs: one at the American University in Cairo and one at Tel Aviv University. These two programs are administered by Emory College Study Abroad. For further information on these programs contact the Middle Eastern and South Asian Studies Department or Emory College Study Abroad. Majors in Middle Eastern Studies have also studied abroad at other Emory College Study Abroad approved programs, including the University of London's School of Oriental and African Studies.

## MUSIC DEPARTMENT

The Department of Music at Emory University offers a wide range of musical experiences in the classroom, performance hall, and studio. Students can receive individualized instruction from Atlanta's finest professional artists and performers, including members of the Atlanta Symphony Orchestra, and take courses in music theory, music history and literature, world music and culture, composition, and performance practices. Ensembles for chorus, symphonic winds, orchestra, jazz, and chamber music are a regular part of the music program and are open to music majors and to students pursuing other fields of primary study. Students who major in music work toward a bachelor of arts degree, which provides development as a performer through private instruction and ensemble participation, a solid grounding in theory and musicianship, and a comprehensive background in the history and literature of music. Emory offers private lessons in piano, voice, strings, winds, guitar, percussion, jazz studies, and nonwestern instruments to all students who pass an audition. Students have the opportunity to perform in recitals that are open to the public. The department sponsors a variety of ensembles, including the University Chorus, Symphony Orchestra, Concert Choir, Wind Ensemble, Jazz Ensembles, World Music Ensembles, and Chamber Ensembles. All students are encouraged to participate; auditions for ensembles are held at the beginning of each semester. Emory presents a full calendar of musical events throughout the school year. The Music at Emory Series and the Flora Glenn Candler Artists Series bring musicians of national and international stature to campus. The Emory Chamber Music Society of Atlanta and the VEGA String Quartet, in residence at Emory, present the finest in chamber literature, and their members teach and coach Emory students on a regular basis. In addition, the metropolitan Atlanta area offers a wide array of music opportunities to Emory students.

Honors Program

Advising

Students may complete an honors project in music in several different areas or combinations thereof: composition, culminating in a recital of original compositions; performance, culminating in a solo recital accompanied by program notes; research, culminating in a written thesis. Students may also propose a combination, or hybrid, honors project that combines research with either performance or composition.

All Music majors are assigned a faculty-student advisor pair to assist them collaboratively in planning a course of study. Since many Emory music majors are double majors, this approach provides enhanced academic support through TWO mentorship outlets. It provides guidance on how to balance the requirements of both of their majors, and it encourages students to explore interdisciplinary study in accordance with Emory's commitment to a well-rounded, liberal arts education.

#### **MUSIC SCHOLARSHIPS**

#### The Dean's Music Scholarships

The Department of Music offers a number of Dean's Music Scholarships for instrumental and vocal students. These scholarships are available for incoming Freshmen only and can be half, two-thirds or full tuition, tenable for four years. Candidates for this scholarship must show exceptional promise.

#### **Music Department Scholarships for Private Lessons**

Several partial scholarships are available to deserving students who are enrolled in private lessons and participate in music performance. Students who receive an award must enroll in MUS 310 or 320 and fulfill all requirements of the course. SEE THE DEPARTMENT OF MUSIC WEBSITE FOR DETAILS.

#### NEUROSCIENCE AND BEHAVIORAL BIOLOGY PROGRAM

The Neuroscience and Behavioral Biology (NBB) major is an interdisciplinary program that provides a unique science background and an excellent foundation for advanced studies in biological and behavioral research as well as medicine. NBB has become one of the "signature" programs of Emory College and has over 500 majors and approximately 140 students each year graduate with a Bachelor of Science degree. The program draws upon the resources, expertise, enthusiasm, and commitment of a diverse faculty, including representatives from biology, psychology, anthropology, chemistry, philosophy, and the School of Medicine. The NBB faculty includes 25 members who have been designated Emory Distinguished Professors by the Office of the Provost and 14 winners of the Emory Williams Teaching Award, Emory University's highest award for excellence in teaching.

In the NBB program, students can undertake independent laboratory research with Emory faculty, engage in challenging facultystudent interactions, and participate in seminars and special events that often present distinguished guest speakers. Qualified senior NBB majors can participate in the NBB Honors Program and become members of Nu Rho Psi, Emory's neuroscience honor society. NBB majors also have the unique opportunity to study with researchers affiliated with the Yerkes National Primate Research Center, the Centers for Disease Control and Prevention, the American Cancer Society, and the Neuroscience Initiative. NBB majors also have the opportunity to be involved in study abroad programs with St Andrews in Scotland, Melbourne University in Australia, and summer study in Paris, France where students are able to complete an NBB core class and an elective.

Honors Program

Seniors who meet the College Honors Program requirements are encouraged to apply for Honors in the NBB major. Interested students should begin preparing in their junior year (or earlier) by finding a Faculty research mentor to support their honors research project. Once a Faculty mentor is established, students must apply to participate in the NBB honors program including two semesters of NBB Honors research courses (495A and 495BW), biweekly meetings, and successful completion of a graduate-level course.?????

#### **UNIVERSITY OF ST. ANDREWS, SCOTLAND**

## Study Abroad BRAIN STEM (SPRING AND FALL COURSES)

The Emory Neuroscience and Behavioral Biology Program (NBB) and the University of St. Andrews Schools of Biology and Psychology have established a unique type of study abroad exchange program. The "Brain StEm" Program, represents the creation of a true "sister school" relationship between the extremely strong

neuroscience and behavioral sciences programs at the two institutions. Emory\'s NBB Program is one of the largest undergraduate programs in North America with over 300 majors and seventy-five faculty members. The neuroscience program at University of St Andrews is a joint undertaking of the Schools of Biology and Psychology which both recently received top ratings from RAE, the national audit of research quality in UK university departments. What does all this mean for the students? By implementing "The Institute of Behavioral and Neural Sciences", rather than an a la carte approach to selecting courses, a coherent program of pre-approved courses has been put into place. Overall curriculum and appropriate courses have been evaluated and selected by the faculty of each institution and faculty advisors are in place at Emory and St. Andrews to assist the students participating in "Brain StEm". Here at Emory this translates into a study abroad program that provides pre-approved equivalents for: NBB 301 and 401, required core courses; NBB 221, the statistics and experimental design course which is a prerequisite for undergraduate research; and twenty-five University of St. Andrew courses which can serve as electives for the NBB major!

#### MPHIL IN NBB (MASTERS IN PHILOSOPHY- 1 YEAR)

Building upon the successful Brain StEm program, Emory and St. Andrews are offering a 4+1 BS (Emory) MPhil (St. Andrews) research-based NBB degree combination. To qualify, Emory NBB majors must have a 3.5 GPA and have an invitation from one of the St. Andrews participating professors, or graduate from Emory with honors in NBB. The first year of the normally two-year MPhil program will be waived, allowing qualifying NBB BS graduates to complete their Masters degree in one year. Contact the NBB office for further information.

#### EMORY MELBOURNE UNIVERSITY SCIENCE EXPERIENCE (E.M.U.S.E)

A program that has been designed specifically for Emory Biology, Chemistry, and NBB students in their junior and senior year who are interested in spending a semester abroad in Melbourne, Australia. As a student program, you will undertake a research-focused study abroad experience while also taking biology, neuroscience, or chemistry courses offered Fall and Spring semesters: Semester 1 runs from early February to mid June; Semester 2 runs from early July to Mid November. This program is ran in conjunction with the Department of Anatomy and Cell Biology and the Department of Chemistry at the University of Melbourne. For more information please contact the NBB office.

#### NBB STUDY ABROAD IN FRANCE (SUMMER)

Neuroscience and Behavioral Biology program is offering a unique opportunity to study in Paris for a 5-week program that will connect the rich history of French neurology with contemporary neuroscience research. Students will couple in-class discussions with a variety of extracurricular outings to locations that illustrate France\'s role in early Neurology (e.g. Hopital de la Salpetriere) and its current research interests (e.g. Institut Curie or La Cite des Sciences). This program allows for completion of one NBB core course and one NBB elective. **Please note: No French language proficiency is required.** 

Students are encouraged to have a GPA minimum of 3.0 for the above study abroad programs.

Each NBB major is assigned an academic advisor. It is imperative that students meet with their advisers at least once a semester to discuss courses that meet the requirements of the major. In addition, students should talk to their advisors about future career plans; i.e., graduate school, medical school, etc., as there may be additional courses they should take for entrance to graduate school. Advisors will be available during preregistration as well as by appointment. However, advisors will often have more time to spend with students at times other than pre-registration. Students should take advantage of these times in scheduling appointments with their advisors.

The NBB office has an open-door policy to assist students in receiving information needed to further their undergraduate academic education.

#### PHILOSOPHY DEPARTMENT

Advising

Philosophy is the study of fundamental questions concerning the nature of what is and what ought to be. The basis of the study of philosophy is the ancient search for self-knowledge and the love of wisdom. In Plato's Dialogues, Socrates says, "Wonder is the feeling of a philosopher, and philosophy begins in wonder." The study of philosophy employs the human capacity to reflect, reason, and make critical judgments in order to consider questions such as: What is the good? What is justice? What is the nature of reality? What if anything can be known for certain? What is the nature of beauty? What is the meaning of human history and human life? Philosophy also examines the principles of logical, scientific, and religious thought, and the great systems of nature and culture employed in the search for truth. Students majoring in philosophy often enter the fields of law, medicine, or business. For these fields a background in logic, ethics, and critical thinking is particularly important. Some students who major in philosophy pursue graduate study in philosophy leading to positions in university teaching. On the graduate level, the department offers programs leading to master of arts and doctor of philosophy degrees.

	(4) The William F. Edwards Undergraduate Lecture, established in 1988, is given annually on a topic of broad philosophical interest to all undergraduates.

## PHYSICS DEPARTMENT

courses and in

Undergraduate physics majors and physics/astronomy majors may pursue either a bachelor of arts or bachelor of science degree. Although the BA and BS programs have different objectives, both emphasize the basic principles of physics and their applications, an analytical approach to problem solving including the use of mathematical methods, and direct experience with physics laboratory and research techniques. The instructional facilities of the Department of Physics, housed in the new Mathematics and Science Center, include general and advanced physics laboratories; optics, analog and digital electronics, and microprocessor laboratories; and two observational astronomy facilities. One facility is a ten-station rooftop observing deck with small reflecting telescopes used for introductory astronomy. The other primary facility is the Emory observatory, which houses a research-grade, twenty-four-inch Cassegrain telescope for use in advanced astrophysics and astronomy courses. Faculty research laboratories and computer equipment are available to students engaged in research projects in condensed matter physics, biophysics, and nonlinear dynamics. Other specialized teaching facilities for physics and astronomy include a one-hundred-and-eighty seat lecture demonstration theater, a sixty-seat Zeiss Planetarium classroom, and a sixteen-station computational physics classroom/laboratory. The graduate school offers the master of science and doctor of philosophy degrees in physics.

Honors Program	See "Honors Program" under the curriculum section of the catalog and consult the department for further details.
	Chapters of Sigma Pi Sigma, the national physics honor society, and the Society of Physics Students offer recognition and sponsored activities.
Study Abroad	Several students each year participate in study abroad programs, typically for one semester. The Director of Undergraduate Studies works with students to fit such programs into their four-year-plan.
Advising	For advising, set up an appointment with the Director of Undergraduate Studies.?????? You do not need to be majoring or minoring in physics to meet with the DUS.
Independent Study or Research	Many physics majors participate in research, although this is not a requirement. Research can be done for , academic credit (Phys 499R). This class can be repeated multiple times, and can count as an elective toward the major or minor (although only as one elective, even if taken multiple times). Research can also be done for pay; this is typically arranged between the supervising faculty member and the student. The most typical case is to do research for credit during the academic year and for pay during the summer. Students who meet the

appropriate GPA requirements can opt to do a research honors thesis during their senior year. For more information about participating in research or doing an honors thesis, consult with the Director of Undergraduate Studies.

## POLITICAL SCIENCE DEPARTMENT

The Department offers two distinct majors: Political Science and International Studies. Political Science fields of study include American government and politics, international relations, political philosophy, and comparative politics. The interdisciplinary concentration that is International Studies provides a broad background in foreign language and culture, politics, history, and economics and may appeal to students interested in journalism, teaching, international business, or government service. For information on preparation for law school, consult the <u>Studying Law at Emory page</u>.

	Outstanding students majoring in political science or international studies are invited by the department in the spring semester of their junior year to submit materials for consideration for the political science honors program the following year. Invitations are extended to students selected from this group. The program is a yearlong curriculum in which students successfully complete a political science graduate or senior seminar, conduct original research on a topic of their own choosing, and write an honors thesis under the direction of a political science faculty member. Honors students also must enroll in the honors tutorial seminar in the fall semester. Consult the department or director of undergraduate studies for more details.
Study Abroad	The Department strongly encourages its majors to consider studying abroad at some point in their studies. For specifics, consult Emory College Study Abroad and the director of undergraduate studies.
Advising	Students who declare a major are assigned a faculty advisor in the department who may be consulted on any matter pertaining to a student's progress. It is the student's responsibility to seek out his or her advisor as needed in the course of the academic year.
Language Study	The International Studies major requires two years of college-level study of a modern foreign language, or the equivalent.
Internship	Students who have sufficient background in political science courses are eligible to apply for government/political internships approved by the Department of Political Science. Students have served as interns in the White House; the offices of members of Congress, governors, and lieutenant-governors; in state legislatures; and in other state, county, and city offices. Students also may serve as interns in programs at The Carter Center. Students may earn up to twelve semester hours of political science internship credit, but a maximum of four semester hours may be used to satisfy the requirements of the political science major and a maximum of four semester hours may be used to satisfy the requirements of the international studies major.
Award	Outstanding students majoring in political science and international studies are invited by the department to join Pi Sigma Alpha, the national political science honor society. In addition, the Elliott Levitas Award for outstanding accomplishment in political science is presented annually to a senior major who exemplifies excellence in political science or international studies.
Independent Study or Research	Independent research with faculty is available through the department's Directed Study course, and from time to time other research opportunities with faculty are available.

## PSYCHOLOGY DEPARTMENT

The Department of Psychology emphasizes the scientific study of behavior. The major offers students a balanced curriculum in experimental, social/personality/clinical, neuroscience/animal behavior, and cognitive/developmental areas. Faculty members are actively engaged in teaching, and they conduct research that addresses important questions with state-of-the-art methods. Opportunities for independent study and research projects under faculty guidance are readily available.

The Honors Program is an Emory College program intended to give a highly qualified group of students more extensive experience in conducting behavioral research. Students with an overall average of at least 3.5 in the first three years and with at least a 3.5 in the major subject will automatically be notified in the Spring of their junior year that they are eligible to participate, and will be invited to a meeting which will fully explain the program.

During the senior year, each Honors student in Psychology conducts an independent research project. In concert with a faculty advisor from the Psychology Department, the student collects and analyzes data, prepares an Honors thesis based on the data, and defends the thesis in front of a committee of three faculty members. This committee recommends Honors, High Honors, or Highest Honors to be granted to the student's degree. During Commencement weekend, Honors students will participate in a college-wide Honors ceremony.

#### Honors Program

Students must arrange to work with a faculty advisor before the beginning of their senior year. Normally, an arrangement should be reached before the end of the student's junior year. Faculty members almost always give preference to students whom they know - either from volunteer work in their laboratory or from a small class. Students who think they may be eligible and interested in the Honors Program are therefore encouraged to get to know a faculty member during their sophomore and junior years. Volunteering in a professor's laboratory also assists students in making more informed decisions about whether or not to participate in Honors.

Honors students must have completed the Statistics and Laboratory Methods classes by the end of their junior year. In the fall of their senior year, Honors students enroll in PSYC 495A, and receive 3 hours of credit for participating in this weekly class. In the spring, they may receive variable credit under PSYC 495BWR for continuing work on their Honors project. Honors students are also required to take a graduate level course in Psychology during their senior year.

Study Abroad	Emory students may choose to take a semester abroad through programs approved by Emory College Study Abroad. Students considering studying abroad should contact the Study Abroad office (7-2240) for a list of Emory and non-Emory programs. In some cases, it may be possible for psychology courses taken through one of these programs to be included in the ten courses required for the major. Students should understand that it may not be possible to take courses toward the major while abroad depending on the courses that are offered by the host institution. Acceptance by Emory College Study Abroad into a study abroad program does not guarantee that appropriate courses will be available in the major. Courses taken abroad will not automatically count toward the major. Courses must be approved in writing before the student goes abroad and returning students must bring back a syllabus for the course as well as additional supporting evidence, including textbooks or readings used, papers written or copies of exams. A/P Credit:
	Students who received a score of 5 on the AP Examination in Psychology will be granted an exemption from PSYC 111. The student will still be required to complete 12 additional courses in the major, including the first half of the Introductory Requirement, PSYC 110.
	Transfer Credit:
Advising	Students who took a one-semester Intro course at another college will probably receive credit for PSYC 111. The student will be required to take 11 additional courses in the major, including the first half of the Introductory Requirement, PSYC 110. Students may transfer no more than four (4) psychology courses to the Emory undergraduate major.
	Course Time Table:
	Both PSYC 110 and 111 must be completed by the end of the junior year.
	QTM 100 must be completed by the end of the first semester of the junior year.
	PSYC 200 must be completed by the end of the junior year; this course may not be taken in the semester the student plans to graduate
Internship	The Psychology Department does not offer internships, nor does it give academic credit for internships completed elsewhere.
	completed elsewhere.
Award	Membership in Psi Chi, the National Honor Society in Psychology, is open to students studying psychology who meet the minimum qualifications. Emory's chapter of Psi Chi is operated by student officers and a faculty advisor. Eligible students are invited to membership during the fall and spring semesters. Throughout the year, Psi Chi offers programs, speakers and workshops on topics of interest to Psychology majors which are open to all interested students.

## INSTITUTE FOR QUANTITATIVE THEORY AND METHODS

The Institute for Quantitative Theory and Methods promotes the teaching, learning, and use of quantitative analysis across all disciplines.

Quantitative skills-statistical, mathematical and computational techniques-are increasingly important and essential in a wide variety of disciplines and careers. As a result, the demand for applied quantitative training with a substantive focus is strong and growing. While most quantitative training at the undergraduate level remains concentrated in math and statistics departments, QuanTM's interdisciplinary and applied focus is designed to broaden access to those skills.

Along with the Quantitative Sciences major and new joint major, Applied Math and Statistics, QuanTM runs a college-wide statistics course; offers fellowships for undergraduates, pre-doctoral students, and visiting faculty; leads a faculty skill-building program; oversees a student-run statistical consulting service; and hosts a number of themed speaker and workshop series.

## **RELIGION DEPARTMENT**

Emory College 2021 – 2022 Catalog

The study of religion is among the oldest pursuits in human intellectual history. Each of the world's living religions has a long and rich history of scholarship on its sacred texts and interpretive traditions. The curriculum in the Department of Religion involves a dynamic combination of traditional textual study, ethnographic engagement, historical reflection, and theory-practice learning. Courses are designed to introduce students to the origins and historical developments of ancient religious systems as well as the living religions of the world. Equally important, courses in the department and related programs provide a context for stepping back from the "inside" of a particular religion in order to study aspects of religion comparatively and thematically across traditions (e.g., religion in public life, religion and gender, religion and culture, religion and conflict). Religion majors and minors include students seeking careers in medicine, law, and the sciences, as well as those whose interests lie more in the humanities and liberal arts. Faculty in the Department of Religion are deeply committed to interdisciplinary work and thinking, and expect the same of their students. Many of our faculty members co-teach their courses with faculty in other disciplines in order to enliven their thinking about a particular topic. Faculty are also engaged in the Emory community, working on educational and scholarly projects with student groups. Faculty have designed student internships with the religious communities of Atlanta, and field trips and site visits are a regular component of many Emory religion classes. We are also an intentionally pluralist community--with no single "majority" of scholars studying one particular religious tradition or using one particular method of study. Faculty numbers are equally strong in Christianity, Judaism, Islam, Hinduism, Buddhism, and American studies. There is growing strength in African American religions, as well as ethnography of religions and the study of comparative sacred texts. Thanks to the high engagement of faculty in interdisciplinary work, the department now is participating in several University initiatives in contemplative studies; religion and conflict; religion and health; religion and sexuality; and religion and the arts. Students are highly encouraged to take part in these initiatives. More than half the faculty members have been recognized for excellence in teaching. The department also hosts fifteen associated faculty from other departments, including History, Classics, Political Science, Art History, Philosophy, Women's, Gender, and Sexuality Studies, and Middle Eastern and South Asian Studies. The Graduate Division of Religion, the Institute of the Liberal Arts, Candler School of Theology, the Marial Center (Myth and Ritual in American Life), The Carter Center, The Center for Law and Religion, and the American Academy of Religion at Emory University enrich the academic environment and provide additional faculty resources for

undergraduate students of religion. The department also has important connections with centers of learning from within the religious traditions, such as the Aquinas Center for Catholic Studies, the Drepung Loseling Institute for Buddhist Studies, and the Jewish Community Center of Atlanta

Honors Program	The Honors Program affords students the opportunity for long-term, in-depth research on a topic of their interest. Together with a faculty adviser, students plan a rigorous program of scholarly reading and writing. Topics have ranged from historical analysis and textual exegesis to theological treatises and ethnographic studies. Students with a cumulative average of 3.50 at the end of their first three years of study are eligible and may be invited by the Department of Religion to participate in the Honors Program. In consultation with a departmental faculty director, students will choose two additional faculty members to serve on their honors committee. The honors committee must include one member from outside the Department of Religion and, in the case of joint majors, the committee must include one faculty member from outside both departments. A minimum of two successive semesters of Honors Directed Reading (REL 495R) is required for the honors degree. The department strongly encourages the student to find and take a graduate seminar related to the honors topic. Successful honors candidates are awarded the degree with honors, high honors, or highest honors. The Department of Religion hosts a chapter of Theta Alpha Kappa, the national religious studies honor society. Local membership is determined by grade average and class standing as set forth by the national council.
Award	The department's prizes and awards include the William A. Beardslee Prize in Religious Literature for the best paper on religion submitted in a course offered by Emory College; the Vaddadi R. Rao Prize for overall excellence in the field of religion, limited to department majors; and the John Fenton Prizes in the Comparative Study of Religion for undergraduate and graduate student scholarship in the comparative study of religion.

## RUSSIAN AND EAST ASIAN LANGUAGES AND CULTURES (CHINESE, JAPANESE, KOREAN, RUSSIAN)

The Department of Russian and East Asian Languages and Cultures (REALC) is an interdisciplinary department dedicated to the study of languages and cultures in the geographic continuum from Eastern Europe through Eastern Asia. Our four concentrations are on the **Russian Federation**, the largest country spatially on the globe; **China**, the most populous country; **Japan**, the world's second-

largest economy; and Korea, one of the world's fastest growing economies. The region covered by REALC plays an increasingly critical role in global dynamics, and the department's goal is to prepare students for the complex realities of the twenty-first century. Departmental offerings bridge East and West, and include the study of the languages, linguistics, and cultures of the region; and the interrelationship of its literatures to the other arts, philosophy, religion, and the social sciences. We offer introductory through advanced classes in Russian, Chinese, Japanese, and Korean language as well as an array of courses taught in English to address the interests of a broader student audience. While REALC courses focus on some of the oldest civilizations in the world, the department houses classroom facilities that are equipped with the latest technology. Instructors make use of a range of media such as real-time television broadcasts from abroad, the Internet, and videoconferencing. This enables REALC to host interactive exchange with students and scholars in Russia and East Asia. The department sponsors various exciting and challenging study abroad programs, and special internship opportunities both overseas and in the Atlanta area. A wide variety of films, guest speakers, and special cultural events accompany our course work. REALC participates in the interdepartmental Center for Russian and East European Studies (REES) and the East Asian Studies Program (EASP), and also collaborates extensively with other departments and programs, including Linguistics, Comparative Literature, Art History, Film Studies, the Institute of Liberal Arts, Women's Studies, Theater, Music, History, and Religion. REALC courses are recommended for majors in the humanities as well as for students interested in developing a base upon which to understand international and global issues, Pacific Rim studies, and East-West relations. As dynamics become more internationalized and globalized, employers increasingly consider foreign language and experience of other cultures to be distinctive assets. REALC courses and programs offer structured, supportive opportunities for students to acquire such skills. Students with a background in Russian and East Asian languages and cultures go on to international careers, to graduate studies, or to programs in law, business, public health, or medicine. Because new courses continually are being added, please check the departmental website (www.realc.emory.edu) or call the department at 404.727.6427 for updated offerings. Also, students should contact the department for updated information about major and minor requirements and study abroad opportunities.

In addition to the College requirements for eligibility, students must maintain a 3.5 grade point average in course work in REALC and demonstrate linguistic ability (to be determined by a reading exam) to conduct research in primary sources. Eligible students will select a thesis adviser approved by the department's honor adviser. To complete the Honors program in Chinese the student will enroll in a two-semester Honors course, CHN 495A and CHN 495B/WR, for eight credits. The fall semester will be spent exploring issues and research materials for the Honors thesis. In spring, upon approval of the thesis advisor, students will be expected to write the thesis. With the approval of the Honors advisor students are expected to enroll in a senior seminar

course in either REALC or another appropriate department that would complement and support the thesis. Each thesis must be completed in the spring and defended before a committee consisting of the student's advisor, faculty member(s) from REALC and one faculty member from outside the department and approved by the Honors advisor

Outstanding students majoring in Japanese may apply to participate in the Honors Program. To be eligible, students must maintain a 3.5 grade point average in their REALC course work. Eligible students will select a thesis advisor approved by the program's honors adviser. Honors students are required to enroll in a twosemester honors course, JPN 495A and JPN 495B/WR for eight credits. The fall semester course helps students prepare to write their theses, which they complete in the spring semester. The thesis must be defended before a committee consisting of the student's advisor, faculty member(s) from REALC and one faculty member from outside the department as approved by the Honors Advisor.

Emory-approved semester study abroad programs are available in Beijing, Shanghai, and Harbin, the People's Republic of China; and in Taipei, Taiwan, at Kansai Gaidai University, Kwansei Gakuin University, and the Kyoto Center for Japanese Studies in Japan; in Moscow, Voronezh, Yaroslavl', and Irkutsk, the Russian Federation; and at Charles University in Prague, Czech Republic. Summer programs are available in Beijing, China; Tokyo, Hakodate and Osaka, Japan; and in Moscow and St. Petersburg, Russia. Other study abroad options, including academic year programs, also are available. For updated information about study abroad, contact the department at 404.727.6427 or Emory College Study Abroad at 404.727.2711.

## SOCIOLOGY DEPARTMENT

Students of sociology learn to evaluate and explain the complex interactions among people and societies; thus, sociology is an integral part of a liberal arts education. At Emory, the study of sociology covers a wide range of topics, including the study of small group interaction; the study of institutions (education, media industries, the criminal justice system, health care systems); the study of social inequality; the relationship between culture and society; and the comparative study of different societies. Students also are trained in the social research process (different methods of data gathering and analysis) to further their examination of social problems. Emory sociology majors have the opportunity to learn by doing as well as by studying, and several courses offer the opportunity for hands on research.

To be eligible to apply for the honors program the following qualifications need to be met:

- 1. An overall GPA of at least 3.5 after fall semester of junior year.
- 2. A sociology major GPA of at least 3.7 after fall semester of junior year.
- 3. Maintain these GPA minimums spring semester of junior year; any acceptance to the program will be contingent on spring grades.

At the beginning of the spring semester of the junior year, eligible students (i.e., those with sufficiently high GPAs overall and within the major) are contacted and informed about the application process for the honors program.

Honors Program

The application process includes:

- Prior to submitting an application, students must meet with the Director of Undergraduate Studies (Dr. Jeff Mullis). Please set up an appointment early spring semester if you are interested in applying.
- The Application materials include:
- 1. Statement of Research Interest (1-2 pages): Students should describe their potential topic area for the honors thesis. Students should discuss potential research questions, ideas about methods, and the empirical data they might use for their research.
- 2. Proof of at least one class taken in the thesis topic area of interest (e.g., gender; race/ethnicity; culture; globalization).

	<ol> <li>The names of 2 or 3 potential faculty honors advisors who know the student's work, and/or who teach/conduct research in the student's area of interest. The student SHOULD NOT submit letters of recommendation.</li> </ol>
	The Sociology Department faculty will review the applications and select the participants for the Honors Program. Only students who submit these application materials will be eligible for consideration.
	See "Honors Program" under the curriculum section of the catalog and consult the Director of Undergraduate Studies in Sociology (Dr. Jeff Mullis) for further details.
Study Abroad	<b>SOC 390: Health Care/Society Seminar.</b> The Department of Sociology offers a six-week program in London focusing on issues and problems in health care delivery in Great Britain and the United States. Emphasis is on the comparative social organization of the two systems, contrasting the evolution and current state of the two health care systems. The program includes seminars with British professors; a short internship experience in a healthcare setting; and a survey research project.
	To declare a major or minor in sociology, please see Neema Oliver in the Sociology Department Office, 225 Tarbutton Hall, to complete paperwork.
Advising	Neema Oliver will review the sociology requirements, sociology opportunities, and assign students to a regular faculty adviser. Faculty advisers will be your main source of information about the program, course planning, and career options.
	All minors are advised by Dr. Jeff Mullis, the Director of Undergraduate Studies in Sociology.
Internship	An internship in sociology consists of supervised work in a social service agency or other type of organization. Students are responsible for locating and securing their own internship (please email the Sociology Internship Coordinator for a list of past sites if you are having trouble locating an appropriate internship). Your internship must be unpaid. Interns take part in a special seminar and receive academic credit (four to twelve hours for SOC 494R).
	Sociology majors can become members of Alpha Kappa Delta, the international sociology honors society. Eligible students are invited at the beginning of the spring term and are inducted in April. The eligibility requirements are:
	<ul> <li>junior (or 3rd year) student majoring in sociology</li> </ul>
Award	completion of at least 5 courses (20 hours) in sociology
	<ul> <li>at least a 3.4 GPA overall</li> <li>at least a 3.6 GPA in sociology</li> </ul>
	In addition, the Department of Sociology annually recognizes an outstanding senior for distinguished undergraduate scholarship in sociology. This award is made possible by a gift from the Sara Smith Sutker and Solomon Sutker Fund.
Independent Study or Research	Students may have opportunities to assist faculty members on their research projects. These opportunities are dependent on the current research needs of the faculty. The best way to pursue research is to get to know the faculty with whom you take classes, and then talk with them about research opportunities. Remember that doing well in a class is the best way to show you would be a good research assistant. Students who do find a research assistant opportunity will be enrolled in SOC 497R: Directed Research. In the recent past, students have assisted on projects focused on the experimental analysis of interaction in small groups, the causes of delinquency, and the trends in transnational corporations.
	Please see Dr. Jeff Mullis if you would like to talk more about how to pursue research opportunities in the Department of Sociology.

## SPANISH AND PORTUGUESE DEPARTMENT

The Department of Spanish and Portuguese offers instruction in the Spanish and Portuguese languages and in Luso-Hispanic cultures and literatures. The department offers a major and minor in Spanish and a minor in Portuguese. Courses are taught in Spanish or

Portuguese, and classes are small so that students at all levels are given maximum opportunity to practice the language. Other opportunities to study Luso- Hispanic language and culture are also available through the department's study abroad programs and the Casa Hispana. Refer to the department website for more information.

Honors Program	Advanced majors with a 3.5 GPA may apply to the Honors Program in Spanish during their junior year. If accepted by the Department, they spend their senior year enrolled in Spanish 495A in the fall and in Spanish 495B WR in the spring.

Study AbroadThe department strongly encourages students to live and study in Spanish- or Portuguese-speaking countries.<br/>Students may receive credit toward the major in Spanish for up to twelve credit hours (or six credit hours in the<br/>case of the Spanish minor) taken in an approved program of study abroad, and credit toward the Portuguese<br/>minor for up to eight credit hours (two courses) taken in approved study abroad programs. These credit limits<br/>do not apply to Emory courses taught abroad or courses taught by Emory faculty. Emory University administers<br/>its own fall and spring semester programs in Salamanca, Spain, and participates in a consortium of universities<br/>to offer additional semester study programs in Latin America (Chile, Argentina, Bolivia, Ecuador, Costa Rica, and<br/>Mexico). Emory also administers summer programs in Salamanca, Buenos Aires, and Rio de Janeiro. The<br/>summer program in Salamanca includes course components taught on a rotating basis in a number of cities<br/>around the Iberian peninsula, including Valencia, Seville, and Barcelona.<br/>Once students declare a major in Spanish, they are assigned an adviser in the department.

Advising Minors in Spanish are advised by the DUS.

Minors in Portuguese are advised by the Director of the Portuguese program. The department works to ensure that students enter the program at the appropriate level. Initial placement is based on the department's assessment of various factors: results of the online Spanish Placement Exam, results of the Spanish AP exams (if applicable), number of years of study in high school, amount of time since last studies were completed, study abroad experience, and previous contact with Spanish speakers. All students who wish to study Spanish at Emory, including native speakers as well as speakers with no previous experience, are required to take the online Spanish Placement Exam (accessible at http://www.spanish.emory.edu/) and to complete the accompanying guestionnaire before enrolling in the first Spanish course in the department. After

	reviewing this and other information, the department emails an official placement to each student at their Learnlink account. Students should not enroll until receiving an official placement. During the first week of classes, instructors confirm that students are accurately placed, or recommend that they be transferred to a more appropriate class.
Internship	The department offers Span 314, Internship in Spanish, for variable credit. The internship is an opportunity for applied learning in a supervised Spanish-speaking work or volunteer environment.
	Sigma chapter of Phi Sigma Iota, the national Romance language honor society, was installed at Emory in 1930. This society recognizes those students who have completed work in foreign language courses with a 3.7 GPA.
Award	The department also offers awards for writing (Carlos Rojas Award for Excellence in Writing), service (Award for Excellence in Community Engagement) and overall excellence (Emilia Navarro Award for Excellence in Spanish).
	Additionally, the department nominates students for the Emory College Language Center's Awards in Spanish and Portuguese.

#### THEATER AND DANCE DEPARTMENT

Theater and Dance are among the richest and most rewarding of educational disciplines. They combine interests in creative arts, humanities, and social sciences. Through their integration of thinking and doing, of analysis and creative problem solving, they develop the mind, body, sensibility, and imagination. We offer a Theater Studies major and minor, a Dance major and minor, and a joint major in Playwriting with the Creative Writing Program. Each area has its own focus and requirements.

#### **Theater Studies**

Our course of study offers a broad-based liberal arts education that not only challenges and develops the student in our discipline, but also offers practical preparation for a variety of careers, including law, business, medicine, education, and communications. Excellent teaching and mentoring are high priorities for the faculty and interactions occur in a variety of settings: small classes, individual consultations, master classes, rehearsals, and performances.

The major and minor require a study of the various subfields of theater, with a strong core of dramatic literature. Advanced courses in all areas are available. Theater Emory offers an opportunity unique in undergraduate theater education: the opportunity to work with professionals in an Equity company, where all casting is age appropriate and where students may play central and substantial supporting roles. Four student theater groups offer other opportunities to act, direct, design, produce, and stage manage. Emory's unique combination of a liberal arts undergraduate program and a professional theater provide a strong and flexible training ground.

#### The Dance Program

The Emory Dance Program provides a range of opportunities for students to experience dance, from performance and production to technique and theory. The mission of the Emory Dance Program is to provide a curriculum that interweaves both the practical and theoretical to foster students' creative, intellectual, and communicative powers in the field of dance. The Emory Dance Program emphasizes performance and choreography based on the primary tenets of modern dance, which value individualism, innovation, and interdisciplinary approaches to the arts.

The study of dance is perhaps the most unique and all-encompassing pursuit in the fine arts. It involves the total exploration of the self-emotional, intellectual, and kinesthetic. The program develops students' awareness and appreciation of movement in all its diverse forms and their ability to communicate through non-verbal expression. Dance develops insights into a broad range of studies; therefore it plays a viable role in the liberal arts education. Since dance is so multi-faceted, it enhances the student's preparation for a variety of careers.

#### The Joint Major in Playwriting

The playwriting joint major brings together the disciplines of Theater Studies and Creative Writing in an innovative synthesis designed to educate playwrights both as writers and as theater professionals. A playwright must understand the workings of narrative and storytelling and have opportunities to develop dramatic, fully realized narratives. The playwright also needs a strong

grounding in the literature and mechanics of theater and in the collaborative process, since these are the worlds he or she seeks to inhabit, and the instrument for which the playwright composes.

See "Honors Program" under the curriculum section of the catalog and consult either the Dance Office Manager, the Theater Studies Academic Degree Program Coordinator, or the Creative Writing Program Coordinator.

Interested students with the requisite GPA will identify a potential advisor and submit an Honors proposal in April of their junior year. The Academic Procedures Committee of the department or program makes the selection of the Honors participants.

## THEATER STUDIES

All Theater Studies Honors candidates will complete the Aesthetics and Criticism Senior Seminar (THEA 490WR) in the fall of their senior year and the Theater Studies Honors course (THEA 495R) in the spring of their senior year, culminating in the research project or paper that is the equivalent of a BA or BS thesis.

#### Honors Program

#### PLAYWRITING

Interested Playwriting majors with the requisite GPA will submit their Honors proposal according to the Creative Writing guidelines, with an application deadline in March of their junior year. Selection of Playwriting Honors candidates is made by the Playwriting advisors in consultation with the Academic Procedures Committees in both Theater Studies and Creative Writing.

Creative Writing Honors Guidelines are available via this link.

Playwriting Honors candidates who have their application accepted are either enrolled in Honors in Playwriting (ENG or THEA 494RWR) both fall and spring semesters of their senior year, or complete the Aesthetics and Criticism Senior Seminar (THEA 490WR) in the fall semester and Honors in Playwriting in the spring.

## DANCE For Dance Honors coursework information, please consult the Dance Program. For information pertaining to Scholarly Inquiry and Research at Emory (SIRE) grants, see the Independent Study and Research section. Study abroad programs and opportunities are developed and provided through Emory College Study Abroad. Theater Studies has three approved study abroad opportunities: The Accademia dell'Arte program in Arezzo, Italy, includes courses in Italian language and theater, design, scene painting, costume design, commedia/mask, commedia skills, voice and performance, and studio/production. This study abroad opportunity will fulfill one semester of the language requirement in Italian. Visit <u>www.dell-arte.org</u> for more information. The London Academy of Music and Dramatic Art (LAMDA) is designed for performing arts majors and minors, Study Abroad providing students with conservatory theater training in acting. Training is based on three central elements: acting (including improvisation), movement (including movement theater, clown, and historic dance), and voice (including poetry, prose, solo and chorus singing). Visit <u>http://www.lamda.org.uk</u> for more information. The British Studies Emory College Summer Program includes courses in Shakespeare and often, contemporary British Drama. The program includes visits to Stratford-upon-Avon, London, and the Oxford environs and has frequently included a special five-day trip to Scotland that visits cultural and historical venues in Edinburgh and St. Andrews. For information on the Dance Program's study abroad opportunities, consult with the Dance Program faculty. Each Theater Studies major and minor is assigned a mentor advisor--ideally this is a faculty member in the student's main area of interest--whom they have gotten to know through a class or a production. Playwriting Majors are assigned an advisor from either the Creative Writing or Theater Studies faculty. Available advisors for Playwriting majors are identified by the Chair of Theater Studies and the Director of the Creative Writing Program. Advising For students involved with Theater Emory, Theater Studies often provides acting and/or vocal coaching to ensure the most meaningful experience possible. It is made clear to the professional artists involved in the productions that part of their role is to serve as models and mentors for the students. All Dance majors and minors are assigned a faculty advisor to assist them in planning their course of study. Advisors also facilitate research projects, internships, and off-campus study opportunities. The semester abroad program in Arezzo, Italy, fulfills one semester of the College language requirement in Language Study Italian. Theater, Dance, and Playwriting students may receive credit for approved internships with local organizations. Playwriting students may receive credit for approved internships either through the English Department or Theater Studies. Dance, Theater, and Creative Writing faculty help students find appropriate internships for their skills and Internship interests. Students may receive credit for summer internships through the Emory University Summer Internship Program (EUSIP), a no-cost, non-residential program for either paid or unpaid internships. One credit that fulfills federal labor requirements may be earned through a non-tuition based course. Award

The Alice N. Benston Award in Theater Studies is awarded annually by the departmental faculty to one or two graduating seniors or recent graduates who have shown exceptional dedication, promise, and intellectual rigor, to encourage their continuing education in theater.

The Friends of Theater at Emory Award annually recognizes students who have made outstanding contributions to Theater Emory.

The Fine Award honors a junior or senior major or minor in Theater Studies for outstanding acting.

The Brenda Bynum Theater at Emory Award is given to the student who has offered selfless and generous contributions of time, ability, and enthusiasm to the Theater @ Emory community, which includes the Theater Studies Department, Theater Emory, and Student Theater.

#### DANCE HONORS AND PRIZES

The Sally A. Radell Friends of Dance Summer Scholarship Program was established in 1996 to make summer dance study more accessible to Emory students. It enables dance majors and minors to study either in the United States or abroad with notable practicing artists, dance programs, and dance companies of their choice.

The Pioneer Award is given to a senior dance major or minor who is "breaking new ground." This award recognizes creative application and creative potential in the field of dance. It is defined by an in-depth investigation in technique, performance, choreography, or movement studies.

#### PLAYWRITING AWARDS

The Creative Writing Program awards prizes in poetry, fiction, and drama, including the Artistine Mann Award in Playwriting. Students interested in submitting entries should watch for the contest announcements early in the spring semester or consult the department.

#### OTHER ARTS AWARDS

Emory College of Arts and Sciences awards the Sudler Prize in the arts each year for outstanding student achievement in studio art, creative writing, dance, music, or theater. Students are nominated by the department and selected by the Sudler Committee.

The Woman's Club Arts Scholarship is an academic scholarship given to a student in dance, film, music, or theater studies. The award rotates among departments each year.

#### **Theater Studies and Playwriting:**

1. Directed Study in Theater (THEA 397R) and Creative Writing: Independent Study (ENG 397WR). Independent readings and research under the direction of a faculty member.

2. Senior Project (THEA 497) and Special Project in Theater (THEA 499R). Supervised projects in any area of Independent Study theater.

#### or Research

3. Tutorials for advanced students in dramaturgy, design, administration, and acting.

4. Laboratories in production and acting.

Dance:

Independent study projects in dance can be arranged in the areas of technical production, choreography, historical or theoretical research, performance, directing, or choreography.

#### **Undergraduate Research Grants:**

Scholarly Inquiry and Research at Emory (SIRE) research grants are available to students for both independent and Honors projects. Dance, Theater, and Creative Writing faculty mentor students through both the application process and projects.

#### WOMEN'S, GENDER AND SEXUALITY STUDIES DEPARTMENT

The Department of Women's, Gender, and Sexuality Studies offers an interdisciplinary undergraduate major and minor in a challenging and supportive intellectual environment. The program emphasizes the interdisciplinary and inclusive study of women, gender, and sexuality that acknowledges differences such as race, class, disability, and national belonging. Women's, Gender, and Sexuality Studies develops students' skills of critical thinking and analysis, writing and research, imagination and creative expression.

The program offers four core courses and a diverse range of cross-listed courses in the areas of Anthropology, Art History, Biology, Literature, English, Film Studies, History, Philosophy, Political Science, Psychology, Religion, and Sociology. Many courses, including the Introduction to Women's, Gender, and Sexuality Studies (WGS 200), are taught in small class settings to encourage the active exchange of ideas between teachers and students.

Honors Program	The honors program is a senior-year program for outstanding students with a G.P.A. of 3.5 or higher. Students selected for this program will take a graduate seminar in Women's, Gender and Sexuality Studies or a related field, will complete an honors thesis and will defend that thesis in an oral examination. (Consult the Women's, Gender, and Sexuality Studies Department for further details at <a href="http://wgss.emory.edu/home/undergraduate/honors.html">http://wgss.emory.edu/home/undergraduate/honors.html</a> .)
Advising	The advisor for students who declare a major or minor in Women's, Gender, and Sexuality Studies will be the director of undergraduate studies.
Award	Each year, up to 2 Outstanding Women's, Gender, and Sexuality Studies Student Awards are given to senior undergraduate majors or minors in Women's, Gender, and Sexuality Studies. These awards are presented in recognition for outstanding performances in women's studies academics and leadership. Nominations are solicited from among the WGSS faculty and graduate instructors.
Independent	Independent study or directed reading is offered each semester by consent of the department. Prior approval

ch semester by consent of the department. Prior approval is Study or Research required from a member of the WGSS core or associated faculty.

## ACADEMIC MAJORS & MINORS

- Students can declare a major/minor during, or after the second semester of their freshman year. Students should declare a • major/minor no later than the end of the sophomore year.
- No more than 2 concentrations allowed, either: •
  - o 2 majors OR
  - $\circ$  1 major and 1 minor OR
  - o 1 major
- Maintain at least a C (2.0) average in any major or minor. .
- Only one (1) undergraduate degree may be earned from Emory. ٠

## MAJORS

AFRICAN AMER	RICAN STUDIES		
Code	AAS		
Degree Awarded	BA		
Hours To Complete	38 - 44		
Courses Required	11		
Declaration of Major Contact	African American Studies		
	A Bachelor of Arts degree in African American Studies is designed to hone and enhance students' research, writing, and critical thinking skills through an interdisciplinary approach. Students are therefore required to take a range of courses in the humanities and social sciences, as well as courses that deal specifically with civil and human rights and Diaspora studies.		
	Twelve courses are required for the major in African American Studies.		
	Emphasizing the historical agency of African American and other peoples of African descent and the centrality of race, racism, and racial formation in the Americas, Europe, and Africa, the major is organized thus:		
	<ol> <li>Introductory Requirement: 1 course - AAS 100: Intro to African American Studies (4 credits)</li> <li>History Core Requirement: 1 course - HIST338/AAS 338 (African American History to 1865) or HIST 339/339 (African American History Since 1865)</li> </ol>		
Requirements	3. Literature Core Requirement: 1 course - AAS 261 (Survey of African American Literature to 1900) or AAS 262 (African American Literature Since 1900)		
	4. Humanities Area Requirement: 1 course - Any other AAS course that is cross listed with the following departments: AMST, ARTHIST, CPLT, ENG, ENGCW, FILM, FREN, FILM, HIST, MUS, PHIL, REL, SPAN, and other approved courses		
	<ol> <li>Social Science Area Requirement: 2 courses - Any other AAS course that is cross listed with the following departments: ANTH, ECON, EDS, HIST, POLS, PSYC, SOC, WGS and other approved courses (Note: The second social science class must come from a different discipline than the first social science class)</li> </ol>		
	<ol> <li>Diaspora Area Requirement: 1 course - Any other AAS course in which students study people of African descent outside of the United States and is listed or cross listed with the following programs or departments: AFS, LACS and other approved courses</li> </ol>		
	<ol> <li>Civil and Human Rights Area Requirement: 1 course - AAS 267, 300, 410, 412, 481 and other approved courses</li> </ol>		
	8. Electives: 3 courses that originate in or are cross-listed with AAS		
	9. Required Capstone Course - AAS 490: Senior Seminar

Courses Required 9

Declaration of Major Contact

African Studies

A total of nine courses are required, of which six must be courses with wholly African content, totaling a **minimum** of twenty-seven credit hours. The remaining three courses may be courses that feature a theoretical or thematic focus with 1/3 to 1/2 African content as case studies or other examples. A minimum of four courses **must** be at the 300 or 400 level. Students are encouraged to strengthen their work in the major by participating in study or research abroad through one of Emory's approved programs in Africa. Courses taken as part of study abroad that meet the above content requirements are accepted, with the approval of the Director of African Studies, as credit for the major.

Of the six Africa-focused courses, one must be selected from each of the following three requirements:

## **REQUIREMENT 1: INTRODUCTORY COURSES**

- AFS 221 (HIST 221) The Making of Modern Africa
- AFS 263 (IDS 263) Introduction to African Studies, OR
- AFS 280 (ANTH 280) Anthropological Perspectives on Africa, OR
- AFS 282 (ARTHIST 282) Arts of Africa

## THESE COURSES FULFILL THE GER AND NORMALLY ARE OFFERED EACH YEAR.

## **REQUIREMENT 2: SPECIAL TOPICS IN AFRICAN STUDIES**

#### Requirements

- AFS 364 (HIST 364) African Civilizations to the Era of the Slave Trade, OR
- AFS 367 (HIST 367) The Making of South Africa, OR
- AFS 389: Special Topics in African Studies (several 389 courses with different topics are usually taught each year)

AFS 364, AFS 367 AND AFS 389 ARE NORMALLY OFFERED EACH YEAR.

## **REQUIREMENT 3: RESEARCH SEMINAR PAPER**

Before graduating, African Studies majors must complete a project involving a significant writing and research component ranging from 4000 to 5000 words (approx. 16-20 pages). The paper should demonstrate the student's broad, interdisciplinary, and integrated understanding of African contexts; his or her ability to think and write analytically using place-based knowledge and to locate this knowledge in the global world; and to conduct original research using a variety of sources and interdisciplinary training.

Students may fulfill this requirement in the context of an upper-level AFS course or comparable course (including, in some cases, a graduate course) with significant Africa-related content. **This course must be taken at Emory University**.

Prior to the add/drop deadline in a given semester, students must confirm with the instructor of this course that the research and writing of a major paper will be possible by filling out the <u>Senior Seminar Paper Form</u>. The form needs to be signed by the student, the instructor and returned to the DUS by the add/drop deadline. Three weeks before the end of the semester (or any earlier date required by the instructor), students must submit a rough draft of the paper to their instructor. Within one week, the instructor will return comments on the draft

and the student will revise it before final submission. Upon submission, the <u>Completion of Research Seminar</u> <u>Paper form</u> must be signed by the instructor and returned to the DUS by the grade deadline.

#### **REQUIREMENT 4: LANGUAGE COMPETENCE**

Competence in a language spoken in Africa is essential for an appreciation of the complexities of African societies. It is also an expectation for graduate programs in many disciplines, as well as for professional work in African contexts. Students are required to demonstrate competence (as a minimum through the 102 level) in a language other than English that is widely used in Africa. However they are strongly urged to continue beyond this level. Emory currently offers three such languages: French, Portuguese and Arabic. We encourage students to study abroad in Africa and take a course in an African language there. Students who already know an African language may petition to demonstrate competence through testing.

Students who take language courses during a study abroad in Africa may request that these courses count toward their language competence.

#### SATISFYING MAJOR REQUIREMENTS DURING STUDY ABROAD

Students are strongly encouraged to strengthen their work in African Studies by participating in study or research abroad through one of Emory's approved programs in Africa. Currently, Emory's CIPA programs include opportunities in Egypt, Ghana, Kenya, Mali, Morocco, Rwanda, Namibia/Botswana, Senegal, South Africa, Tanzania, and Uganda. Please visit the <u>CIPA website</u> for more information.

Up to a total of four regular courses (12-16 credit hours) may be earned toward the major in study abroad programs. African language courses taken during study abroad can also count toward your language competency requirement.

Prior to beginning a study abroad program, students must contact the Director or DUS to seek approval of courses to be taken and counted towards the African Studies major. Students should be prepared to provide a syllabus for any courses to be counted toward the major. Many courses offered abroad count as AFS special topics courses, but please note that only internships that satisfy <u>Emory College guidelines</u>.

## AMERICAN STUDIES

ł	AMERICAN STUDIES		
	Code	AMERST	
	Degree Awarded	BA	
	Hours To Complete	44	
	Courses Required	11	
	Declaration of Major Contact	American Studies Institute of the Liberal Arts	
		The major requires 44 credits:	
	Requirements	<ul> <li>Introduction to American Studies (AMST 201 or AMST 201_OX)</li> <li>ENG 223 Rhetorical Grammar (1-credit, S/U). Oxford continuees will be required to take ENG 223 when they arrive at Emory College, either as co-requisite to one of the previous courses (in the case that they have taken only one Frame Requirement at Oxford) or as a separate requirement to complete the major.</li> </ul>	

- At least six Core Concentration Courses in American Studies
- Three Contributing Courses
  - o one in Broad Historical Perspectives

- o one in Humanities Perspectives
- one in Social Science Perspectives
- Senior Symposium (AMST 490)

Meeting with your advisor regularly is the key to creating a concentration that gives real depth and insight into some aspect of American culture.

#### Note when selecting courses:

- Many courses in other departments can count towards the major (with approval of the DUS). Anthropology, Art History, English, History, Political Science, Religion, Sociology, Human and Natural Ecology, Science, Culture and Society all regularly offer interdisciplinary seminars that are focused on American topics. Any course in African American studies can count toward the American Studies Major.
- We strongly encourage students to select at least one course in their concentration that is either comparative or stretches the boundaries of the United States. Courses in Latin and Caribbean Studies, African Studies, Asian Studies, IDS, are often a way to enrich your understanding of the US is global context.
- The required Senior Symposium is offered only in the Fall and carries 4 credits. If you are planning to study abroad in fall of your senior year, consult early with the DUS, as you should take the course in your junior year.
- Freshman seminars cannot count toward the major.
- If you are double-majoring, up to two courses from your other major plan can count toward your American Studies major (also known as 'double-dipping').

## ANTHROPOLOGY

Code	ANTH
Degree Awarded	BA
Hours To Complete	36
Courses Required	12
Declaration of Major Contact	Anthropology

A Bachelor of Arts degree in Anthropology requires a minimum of thirteen courses: twelve must be at least 3 credits each, and one is a 1-credit capstone course. One of the 3-credit courses must be tied to the senior Capstone Project.

#### A. Introductory Courses (2 courses)

Students must take:

202 Concepts and Methods in Cultural Anthropology

Students must choose one of the following courses:

- 101 Introduction to Anthropology
- 201 Concepts and Methods in Biological Anthropology
- 204 Introduction to Archaeology

## Requirements B. Foundational & Area Studies Courses (2 courses)

1. One foundational course that focuses on a theme or field of research:

- ANT 200 / NBB 201 Foundations of Behavior
- ANT 201\* Concepts and Methods in Biological Anthropology
- LING 201 / ANT 203 Foundations of Linguistics
- ANT 204\* Intro to Archaeology
- HLTH 250 / ANT 205 Foundations of Global Health
- ANT 207 / IDS 207 Foundation of Development Studies
- ANT 210 Human Biology: Life Cycle Approach
- ANT 230 Medical Anthropology
- HLTH 210 / ANT 231 Predictive Health and Society
- ANT 252 Fast Food/Slow Food
- ANT 260 Psychological Anthropology
- Other courses as designated by department

Note: \*ANT 201 and 204 cannot be counted for both A and B

2. One course that focuses on a world ethnographic area:

- 280 Anthropological Perspectives (Topics Vary)
- ANT 258 / JS 258 Anthropology of the Jews
- Other courses as designated by department

# C. Concentrations for Anthropology BA Majors (4 courses)

The concentration requirement consists of **four courses at or above the 200 level** within the concentration. Courses taken to fulfill the foundational course requirement (B.1) or capstone (E) may not count toward the concentration.

Each student must choose a concentration at the time of declaration. The concentration may be changed at a later time. Students may choose from among the following concentrations:

# 1. The Anthropology of Global Development, Health, and Sustainability

Areas of study include:

- Political Economy and Development
- Environmental Anthropology
- Sustainability
- Food (In)security
- Global Health
- Inequality

# 2. The Anthropology of Power, Identity, and Social Justice

Areas of study include:

- History, Narrative, and Politics
- Power and Socioeconomic Inequalities
- Race and Racism
- Law, Power and Representation
- Ethnic and Cultural Diversity
- Gender and Sexuality

# 3. The Anthropology of Mind, Body, and Health

Areas of study include:

- Psychological and Cognitive Anthropology
- Nutritional Anthropology
- Medical Anthropology
- Global Mental Health
- Culture and Public Health
- Anthropology and Neuroscience

# 4. The Anthropology of Meaning, Media, and Performance

Areas of study include:

Media and Communication

- Visual Anthropology
- Religion and Ritual
- Identity and Representations
- Language and Culture
- Performance
- Symbolic Anthropology

5. Individualized Concentration - Student will work with faculty advisor to design the course of study. Possible areas of study include:

- Biological Anthropology
- Archaeology
- History and Anthropology
- Selected themes made in consultation with advisor

Anthropology courses and courses cross-listed with Anthropology will be designated for credit within the appropriate concentrations.

# **D. Anthropology Electives (3 courses)**

Any Anthropology course or course cross-listed with Anthropology may count as an elective toward the Anthropology BA degree, within the guidelines listed under "additional details" below. Course offerings for each term may be found the Course Atlas.

# E. Capstone Project (2 courses)

One course of at least three credits and a 1-credit capstone course.

Seniors enrolled in the B.A degree program in Anthropology are required to complete a capstone project, which is intended to be an integrative experience. Students are expected to apply what they have learned in Anthropology to a research problem/project of interest to them. Based on their research, and as part of or in addition to the work of their chosen capstone course option (below), students will produce a paper of at least 20 pages or an alternative project that is the intellectual equivalent to such a paper, working closely with their advisor/instructor through ANT 499 capstone course to ensure the project is a high-level integration of their undergraduate education in Anthropology. The paper topic or alternative project must be approved by the supervising instructor.

Students must select one of the following course options for completion of the capstone project:

- 300-level topical course in anthropology.
- 400-level independent study course that involves archival research or fieldwork. Where allowed by the program, a student can enroll in an Independent Studies Course in anthropology during a Semester Abroad to complete this requirement.
- 400-level anthropology Advanced Seminar Course.
- 500-level anthropology Graduate Seminar.

All capstone students will be enrolled in a 1-credit ANT 499 course to receive advising support for completion of their advanced capstone project.

Students successfully completing the Honor's Program may substitute their thesis for the Capstone project requirement.

With the approval of the student's advisor, the student can complete this requirement during the Spring semester of their Junior (third) year.

#### Additional details

- Only one course at the 100-level may be used to satisfy requirements.
- A maximum combined total of 8 credit hours of ANT 397R (Directed Readings) ANT 495 (Honors) and ANT 497R (Directed Research) may be applied toward the major.
- No courses taken using the S/U option may be applied toward the major.
- Students are encouraged to study abroad. Up to 4 courses taken off the Emory campus (i.e. study abroad or transfer courses) may be approved to count toward major requirements. Courses must be at least 3 credits each and be approved by the Director of Undergraduate Studies.
- A maximum of two courses may double-count for both the Anthropology BA and another major or minor.

Note: Petitions for course substitutions and exceptions will be considered by the Director of Undergraduate Studies, who may seek the advice of the Undergraduate Concerns Committee as needed.

	The Bachelor of Science in Anthropology is a concentration in biological anthropology. It is designed to cultivate one of the particular strengths of Emory's Anthropology department. While the degree requires training in general Anthropology, it has a clear emphasis in the area of human biology.
	A Bachelor of Science degree in Anthropology requires a minimum of ten 3- or 4-credit Anthropology courses (at least 30 credit hours), and six Foundation courses (23 sem. hours). A maximum combined total of eight hours of ANT 397 (Directed Readings), ANT 495 (Honors), and ANT 497 (Directed Research) may be applied to the major. No courses taken using the S/U option may be applied to the major. A maximum of 12 credit hours earned off the Emory campus may be applied toward the major. Only one 100-level class may be taken to fulfill the elective requirements. Note: Petitions for course substitutions and exceptions will be considered by the Undergraduate Concerns Committee.
Requirements	All Majors must take both:
	Anthropology 201 Concepts and Methods in Biological Anthropology AND
	Anthropology 202 Concepts and Methods in Cultural Anthropology
	These foundations courses are designed to give majors a thorough grounding in all four fields of anthropology and CAN BE TAKEN IN ANY ORDER. While it is not required to complete 201 and 202 prior to taking upper division courses, it is strongly recommended that they be taken in the sophomore year, if possible, so they may serve as building blocks for further coursework.
	Plus the following Departmental courses (no individual course may be used to fulfill more than one requirement

area):

# ART HISTORY

Code	ARTHIST
Degree Awarded	BA
Hours To Complete	35 - 41
Courses Required	11-12
Declaration of Major Contact	Art History

#### CORE REQUIREMENTS FOR THE MAJOR

All Art History majors will take the following three courses (10 credits):

- ARTHIST 101 and ARTHIST 102, Art | Culture | Context, the foundational Art History courses
- ARTVIS 111 or ARTVIS 112, Foundations in Art Practices, or another Visual Arts course

In addition, Eight (8) elective courses in Art History, including

- One course in each of the following regional-historical divisions:
  - 1. Ancient Mediterranean art & architecture (Egypt, Greece, and Rome)
  - 2. Medieval, Renaissance, and Baroque art & architecture (Europe)
  - 3. Modern and contemporary art & architecture (after 1800; global)
  - 4. Arts & architecture of Africa, Islam, Asia, and the indigenous Americas
- Four (4) courses at the 300 level or above, including one 400-level seminar. These courses may also satisfy the regional-historical distribution requirement.

# Requirements ART HISTORY with MUSEUM CONCENTRATION.

Twelve courses (minimum 37 credit hours)

In addition to the Core Requirements for the Major,

• ARTHIST 282, Introduction to African Arts & Museums, or an equivalent course

Seven (7) elective courses in Art History, including

- One course in each of the following regional-historical divisions (as above)
- Four (4) courses at the 300 level or above, including one 400-level seminar. These courses may also
  satisfy the regional-historical distribution requirement.
- Two (2) courses with a museum focus, generally topics courses in Art History that focus on museum collections or practices, conservation, or the history of collecting. Eligible courses will be designated in the course atlas as appropriate for the concentration.

One (1) Museum-related Practicum, either an approved internship (ARTHIST 397), for at least two (2) credit hours; or Supervised Reading & Research (ARTHIST 398), for at least two (2) credit hours.

#### ART HISTORY with VISUAL ARTS CONCENTRATION.

Twelve courses (minimum 41 credit hours)

In addition to the Core Requirements for the Major:

Six (6) elective courses in Art History, including

- One course in each of the regional-historical divisions (as above)
- Three (3) courses at the 300 level or above, including one 400-level seminar. These courses may also satisfy the divisional requirement, above.

Three (3) elective courses in Visual Arts, including one course at the 200 level or above. An Independent Study project (ARTVIS 398) may fulfill this requirement.

#### **General information**

**Maker and materials courses**: Up to two (2) of the maker and materials courses may count as electives toward the Major and the Major with Museums Concentration; only one (1) of these courses may count toward the Major with Visual Arts Concentration. These courses include ARTHIST 103, Understanding Architecture; ARTHIST 104, Great Buildings; ARTHIST 210, Introduction to Computer-Aided Design; ARTHIST 387, Issues in Art Conservation; and ARTHIST 388, Technical Art History.

**Pass/fail**: No more than one course taken S/U may be applied to the Major. Seminars (400-level courses),to satisfy the requirements for the Major, must be taken for a letter grade. To fulfill the requirements for the Visual Arts Concentration, all Visual Arts courses must be taken for a letter grade.

**Study abroad**: Up to two (2) courses completed in approved study-abroad programs may be used to fulfill elective requirements for the Major; students may petition the department to allow a third. Only one (1) approved Visual Arts course may count toward the Visual Arts Concentration.

**Independent study**: No more than three (3) hours of Supervised Reading and Research (ARTHIST 398) may be applied to the Major. This does not include the three (3) hours of Independent Study in Visual Arts (ARTVIS 398) that may be taken toward the Visual Arts Concentration, or the practicum in the Museum Concentration.

**Internships**: An internship (ARTHIST 397) may not be applied to the Major unless it is completed as part of the Museum Concentration.

BIOLOGY	
Code	BIOLOGY
Degree Awarded	BS
Hours To Complete	62
Courses Required	18
Declaration of Major Contact	Biology
	Overview

The requirements for the BS are designed for students who wish to pursue an advanced degree in the life sciences. Additional courses in chemistry, physics, **quantitative theory and methods**, and calculus provide greater in-depth training than the BA. The BA degree is appropriate for those students who wish to pursue a double major.

# Requirements

The BS degree requires at least **57** credit hours, including a minimum of **eleven** biology classes totaling 30 hours. These **eleven** biology classes must include:

Requirements

- Biology 141 and 141L plus Biology 142 and 142L
- One course from each of the following three areas: A) cell and molecular biology, B) organismal biology, and C) ecology/evolution
- Four elective classes (12 credit hours minimum) from the biology course listings (excluding Biology 120, 160, 190, and 497), no more than one of which is cross-listed and originates in another department (see NOTES below).

One upper level laboratory course is also required within the 30 hours minimum of biology.

Seven classes from other science and math departments are also required for the BS, as follows:

• Chemistry 150, 202, 203 with labs; Physics 141 with lab; **QTM 100 and two calculus classes: Math 111 and 116** are recommended but other options can be considered in consultation with your Biology faculty advisor.

## NOTES

# Biology 141, 141L, 142 and 142L are prerequisites for all upper level courses in biology except Biology 240, which can be taken with AP credit for Biology 141 and concurrently with Biology 141L.

A "C" average is required in the Biology, Chemistry, Physics and Math classes necessary for the major.

All courses required for the Biology major must be taken for a letter grade.

Only one cross-listed course that originates in another department may be counted for the biology major. These courses are subject to change, and currently include: Biol/Psych 320, Biol/Psych 325, Biol/Chem 330, Biol/ENVS 345, Biol/Chem 346L, Biol 356/NBB 358, Biol/NBB 361, Biol 385 (Phys 380/NBB 370), Biol/Psych 440, and certain Biol 285, 385, and 485 courses. This also applies to certain ECS 490 courses with biological topics (check with the Biology Department office)

2 credit hour courses may be taken for elective credit; however, additional biology courses will be needed to fulfill the 12 hours of elective credit required.

4 credit hours of Biology 495 (Honors Research) or Biology 499R (non-Honors Undergraduate Research) may be counted as both elective credit and an upper-level lab only after completion of the second semester of 495 or 499R.

An AP score of 4 or 5 on the Biology AP exam, or an IB score of at least 5, will exempt students from Biology 141 only. **Biology 141L and Biology 142 and 142L will still be required.** It is also recommended that transfer students without a Genetics class enroll in Biology 142.

All Biology majors are required to meet with their Biology advisor every semester during pre-registration. An enrollment hold is placed on all Biology major's OPUS accounts each semester until they have met with Biology advisor.

#### **Additional Information**

- Courses, including the mathematics requirement, must be taken for a letter grade and students must maintain an overall 2.0 (C) grade point average in courses used to complete a major or minor.
- ECON 101 and 112 are prerequisites for higher numbered courses in Economics and for admission to the undergraduate program in the School of Business Administration. ECON 101 must be completed before enrolling in ECON 112. FIN 201 can substitute for Econ 101.
- At most two Economics courses can be exempt with AP credit.
- Generally, Economics 201, 212, and 220 are taken at Emory. Only under extraordinary circumstances
  may these courses be taken at other institutions; prior written approval of the director of
  undergraduate studies is required.
- Courses taken at another institution, before or after enrolling at Emory, will not count toward the major or minor unless written permission is given by the Director of Undergraduate Studies, even if the College has accepted credit for the courses.
- Students in Economics 394, Washington Economic Policy Semester, must register S/U instead of L/G. The credits earned for this course will be counted as 200/300 level elective(s).
- Economics 449, Economics Internship, is offered to economics majors and minors only and must be taken on an S/U basis.
- Up to eight semester hours of credit earned at non-Emory overseas study programs may be counted toward the major requirements in Economics, mostly as 300 level elective(s). Prior written approval of the Economics Department's Study Abroad Coordinator is required.

	Educational Studies Major/Noncertification Program
	The educational studies major provides a foundation that is appropriate for students who may choose to enter a teacher certification program at the graduate level as well as for students who may later wish to embark upon other careers in education. The major is also appropriate for students who intend to pursue graduate study in other areas such as law or business but who need a comprehensive understanding of the complexity of educational issues in order to contribute to meaningful decision making in their professional and private lives. Graduates of this program do not meet the requirements for teacher certification.
Requirements	Requirements for Major The BA degree program consists of a minimum of ten courses (forty hours). Educational Studies 201 (American Education) is required.
	Five Breadth Courses: The purpose of the breadth requirement is to insure that all majors acquire systematic knowledge in what we view as five central areas. Consequently all majors must take at least one course from each of the following five areas: Psychological Contest of Education, Social Context of Education, Cultural Context of Education, Historical/Philosophical Context of Education, and Methods of Disciplined Inquiry.
	Four Elective Courses: Students must take additional four courses to complete the major. These courses will be selected in consultation with the student's adviser. The faculty values development of individualized programs that may include study abroad, off-campus internships, and other appropriate experiences in an educational context. Course taken to meet the requirements for the BA may not be taken under the S/U option. A "C" average or better must be maintained in the courses for the major to fulfill graduation requirements.
Admission	The Division of Educational Studies (DES) is scheduled to close Summer 2017. Recognizing that the number of Educational Studies (EDS) courses available will be decreasing each year as this closing date approaches, students are no longer permitted to declare new majors or minors in Educational Studies. However, students

who express an interest in the field of education, in most cases, will continue to be able to enroll in Educational Studies coursework through Summer 2017. Please contact either the Director of Undergraduate Studies or the Director of DES if you wish to express your interest educational studies, at which time you will be assigned an EDS adviser and be provided with further information. Ongoing advisement is critical during preregistration each semester since a permission number is required to enroll in most EDS courses.

	All students except those in the andamp;#8220;4+1 Bachelorandamp;#8217;s/Masterandamp;#8217;s Programandamp;#8221; must take ten courses and a minimum of 36 credit hours in English for a letter grade. These courses must incorporate the following plan:	
	• English 205	

- Four 300- or 400-level English courses in an area of concentration developed by the student with guidance from a faculty advisor
- Five electives

Included in these ten courses must be four courses other than ENG 205 that meet the following distribution requirements:

- One course in British literature before 1660
- One course in post-1660 British, Irish or other non-American Anglophone literature
- One course in American literature
- One course having a theoretical or interdisciplinary component

andamp;#160;Two of the four courses satisfying these distribution requirements must be at the 300 or 400 level.andamp;#160;

**Important:** The following courses do not count towards the major: 101, 181, 190 and 496R. No more than two creative writing courses may count toward the major.

Students in the andamp;#8220;4+1 Bachelorandamp;#8217;s/Masterandamp;#8217;s Programandamp;#8221; are subject to the above requirements except such students may count up to four graduate seminars toward their ten-course requirement. Two of these graduate seminars may be taken pass/fail and any may be counted toward the area of concentration.andamp;#160;

Ordinarily, a maximum of eight credit hours (two courses) earned off campus may be applied toward the major and at least two of the courses included within an area of concentration must be taken at Emory University.andamp;#160; Under extraordinary circumstances, the Director of Undergraduate Studies may approve petitions for exceptions to this rule.

# ENGLISH AND CREATIVE WRITING

Requirements

Code	ENGCW
Degree Awarded	ВА
Hours To Complete	38 - 44
Courses Required	3 11
Declaration of Major Contact	Creative Writing
Requirements	In the Creative Writing Program at Emory students study both art and craft: the literary traditions in which they write and the elements of craft in poetry, fiction, playwriting, screenwriting, and creative nonfiction. The program fosters their development as writers, through an emphasis on reading as a writer, generating material,

#### and revision.

Academic requirements of the English/creative writing major are eleven courses (thirty-eight to forty-four credits) beyond the introductory courses in English required by Emory College (English 101, 181, or Literature 110). Five of those eleven courses (fifteen to twenty credits) are to be creative writing workshops and the other six (eighteen to twenty-four credits) are to be advanced-level English classes in literature and criticism (i.e., 300 and 400 level). Students must take at least two 300-level literature courses in prose, two in poetry, and two in nineteenth-century writing or earlier. Majors may also substitute one 200-level English literature course for one 300-level course. At least two writing workshops must be in the same writing genre (fiction, poetry, etc.). This framework provides enough flexibility so that English/creative writing majors may work out individual programs of study in consultation with their advisers. In addition to the creative writing courses listed below, English/creative writing majors are also eligible for work in the Internship Program (see ENG 496R), independent study (see ENGCW 397R), and creative writing Program also sponsors a reading series in which nationally prominent authors are invited to campus to read from their latest works and to meet with students.

Declaration of Major Contact	History English		
Requirements	The departments of History and English offer a joint major, the goal of which is a logical and focused curriculum for exploring the relationships of literature and history. The joint major seeks a coherence that draws upon expertise in each department to aid the student in fashioning an individual program. The exact nature of the student\'s class list should be worked out in consultation with the student\'s adviser in each department. There are no geographical or chronological limits placed on the joint major, but a thematic unity is expected. Student participation in the intellectual life of each department is a high priority. At least fourteen courses (a minimum of forty-eight hours); the entire class list must be approved in writing by the student\'s advisors in each department.		
Admission	Prospective majors must submit an official letter of application that describes the studentandamp;#8217;s proposed field of concentration within the joint major (e.g. sixteenth-century British, nineteenth-century American, modern Irish, African American, etc.); the letter must be endorsed by an adviser in each department. This letter calls upon the student to plan a course of study, though some flexibility is permissible as the student pursues this planned curriculum. Students are strongly encouraged to file their applications at the start of their junior year. Applications must be submitted to the director of undergraduate studies in each department before the student registers for the first semester of the senior year.

credit hours required for the major depends on the student's placement into the German program:

• For students beginning with courses numbered 201 or higher, 36 credit hours are required.

Regardless of placement, required components of the major include the following:

Requirements

- 1. 2 courses in German numbered 400 or higher, one of which must be completed during the student's final year at Emory. Courses must be a minimum of 3 credit hours; independent study projects and senior thesis research cannot be used to fulfill this requirement.;
- 2. GER 392 (1-credit conversation course, which is repeatable but may count for the major only once);
- 3. An academic study abroad program in the German-speaking world:
  - 1. Emory's Summer Study Abroad Program in Vienna (a minimum of 8 credit hours from this program can count toward the major), or
  - 2. One semester in Freiburg, Berlin, or Vienna through an approved program (a maximum of 12 credit hours can be counted from semester study abroad toward the major)

Students may substitute a **maximum** of 7 credit hours in courses on German-related topics approved by the German Studies Department and taught by either the German Studies Department or another department, such as Film Studies, History, Art History, Music, Political Science, or Philosophy. These courses may be taught in German, English, or Yiddish.

Declaration of Major Contact	<u>History</u>
	The History Department requires all its majors to choose a concentration within the major. Since History as a discipline is diverse and our students come to it with varied expectations, the student's concentration may aim at a broad exposure to history— General Studies in History—or at deeper immersion in one of three geographically based or three thematically focused approaches. The geographic concentrations are: United States; Europe: and,
Requirements	Latin America and Non-Western World. The thematic concentrations are: Women, Gender, and Sexuality; Empires, Nations, and Citizenship; and, Law, Economics, and Human Rights.

Advanced Placement (AP) and International Baccalaureate (IB) Credits

History majors may use a maximum of six (6) hours of Advanced Placement (AP) and International Baccalaureate (IB) history credit towards a history major. AP and IB credit cannot be used to satisfy a major distribution area requirement; these credits can be used to satisfy major credit hours only.

#### **Study Abroad Courses**

History majors may apply a maximum of three (3) study abroad courses towards a history major.

#### **General Requirements**

• A student must complete 11 courses (a minimum of 35 credit hours) of history, at least 7 courses of which must be at or above the 300-level. Two of the 11 courses required for the history major must be 400-level colloquia. Normally, one colloquium will be taken in the junior year, the other in the senior year. Graduate seminar courses (500-level) may be used to fulfill the major colloquia requirement but do not meet College continuing writing requirements, as colloquia normally do.

• Two research papers are required of all history majors. These papers are written in the colloquia and are normally sixteen to twenty-four pages in length.

• Completion of the major requires a minimum of a C average in history courses counted towards the major.

• The S/U option may not be exercised in any course counted for the major.

• Special programs have been developed for students who would like to take joint majors in history and art history, history and classics, history and English, and history and religion. Joint major information may be obtained from the Department office.

#### **Concentration Requirements**

- Each student **must choose a concentration** within the major by October of the junior year (or upon declaring a major if done at a later date).
- For all concentrations, students must take at least five courses within the concentration, one of which may be a 200-level course if listed as pertinent, while the other four must be at or above the 300-level, including one 400-level colloquium.
- One of the major's two research papers must be done within the concentration.

# **Distribution Requirements**

- All history majors are required to demonstrate chronological breadth by taking at least one course in early and one in modern history within their chosen concentration.
- History majors with geographic concentrations are also required to take at least two history courses
  outside their concentration and in separate geographic areas. For instance, a student concentrating in
  U.S. history is required to take at least one class each in European history and in World history. The two
  courses outside the concentration may be at any level but students should keep in mind that they may
  only take a total of four classes below the 300-level for major credit (this includes transfer credits from
  AP courses).
- Majors with thematic concentrations must explore at least two geographic areas within the concentration, at or above the 300-level (for example, U.S. and European, or U.S. and World history). General Studies majors automatically satisfy the geographic breadth requirement.

# **CONCENTRATIONS FOR HISTORY MAJORS**

#### **General Studies**

One course each (for a total of five) in: U.S. History before 1860; U.S. History after 1860; European History before 1750; European History after 1750; and Latin America & Non-Western World History.

# **United States History**

This concentration permits majors to study American history in depth, by taking more courses offered by our

faculty's U.S. specialists. Students take advanced courses on pre-Civil War history as well as post-1860 America, enabling them to develop a fuller sense of the contours of the nation's history.

#### **European History**

This concentration offers students the opportunity to study the transformative social, cultural, and political experiences of European states, societies, and civilizations from ancient Greece and Rome, through the medieval, Renaissance, and early modern periods, to the modern age of revolution, colonialism, total war, and European Union.

#### Latin America & Non-Western World History

This concentration allows students to focus on the histories of Latin America, Asia, Africa, and the Middle East through a rich variety of classes offered by our area specialists. Topics of interest include: the rise and fall of empires and civilizations, European colonialism, anti-colonial movements, inter-ethnic and sectarian politics, and globalization.

#### Women, Gender, and Sexuality

This concentration allows students to focus on the history of women, the social construction of masculinity and femininity, and the making of sexual identities across different societies and eras. Topics include: marriage and the family, definitions of male and female roles by religious institutions and the state, histories of feminism, and changes in notions of sexuality over time.

#### **Empires, Nations, and Citizenship**

This concentration lets students explore the social, cultural, and political tensions that have historically shaped relations between societies, and relations within the same societies. Topics include: the rise and fall of empires, from ancient to modern; the growth of nation-states and of related internal or international conflicts; and the problems of liberty, equality, and diversity that have made questions of citizenship so contested.

#### Law, Economics, and Human Rights

This concentration allows students to examine issues of law, economics, and human rights in historical contexts from ancient to modern periods. Topics include: race and slavery; the origins of capitalism, industrialism, colonialism, and imperialism; diplomatic history; gender regimes; family history; legal and constitutional history; environmental history; medical history; the holocaust; totalitarianism; and civil rights history.

#### Five (5) ELECTIVE COURSES, including

One course in three (3) of the four regional-historical divisions:

- 1. Ancient Mediterranean art & architecture (Egypt, Greece, Rome)
- 2. Medieval, Renaissance, and Baroque art & architecture
- 3. Modern and contemporary art & architecture (after 1800; global)
- 4. Arts & architecture of Africa, Islam, Asia, and the Americas

Three (3) courses at the 300-level or above, including one 400-level seminar. These courses may also satisfy the regional-historical distribution requirement, above.

HISTORY. Six courses (minimum 19 credit hours)

- Five (5) courses (minimum 15 credit hours) at the 300 level or above
- At least one 400-level course (4 credit hours) (e.g., HIST 487, 488, or 489)

#### **General Information**

Up to two (2) of the maker and materials courses may count toward the Joint Major as electives. These include ARTHIST 103, Understanding Architecture; ARTHIST 104, Great Buildings; ARTHIST 210, Introduction to Computer-Aided Design; ARTHIST 387, Issues in Art Conservation; and ARTHIST 388, Technical Art History.

**Pass/fail**: No more than one Art History course taken S/U may be applied to the joint major. Seminars (400-level courses) must be taken for a letter grade to satisfy the requirements for the Joint Major.

**Study abroad**. Up to two (2) courses completed in approved study-abroad programs may be used to fulfill the Art History elective requirements for the Joint Major; students may petition the department to allow a third.

**Independent study**: No more than three (3) hours of Supervised Reading and Research (ARTHIST 398) may be applied to the Joint Major.

Internships: An internship (ARTHIST 397) may not be applied to the Joint Major.

**Honors**. An Honors degree may be pursued in either department. In Art History, Honors students are required to take one graduate-level seminar, which may be used to fulfill a requirement for the Joint Major (though not the Continuing Writing Requirement for the GER). The Honors course itself, ARTHIST 495, does not count toward the Joint Major.

**Advanced Placement in Art History**: Students may receive 3 credit hours and an exemption from ARTHIST 101 for an AP Art History exam score of 5. Students with a score of 5 on the AP exam who elect to receive a non-credit-bearing course waiver may be exempted from ARTHIST 101 but must make up the credit hours with an additional elective course.

Advanced Placement in Studio Art: Students may receive 3 credit hours and an exemption from an equivalent Visual Arts course for a score of 5 on an AP Studio Art exam. The exam in 2D Design or Drawing may exempt a student from ARTVIS 103, and in 3D design, from ARTVIS 109. Nevertheless, before enrolling in upper-level visual arts courses, students must submit a portfolio for the instructor's review. Students with a score of 5 on an AP Studio Art exam who elect to receive a non-credit-bearing course waiver may be exempted from the equivalent Emory course but must make up the credit hours with an additional elective course.

111/112 (though enrollment preference will be given to Art History majors and minors), and at least two of which must be upper-level courses.

Requirements

b) Two Art History courses or alternatively, one Art History and one cross-listed Archeology course. One of the Art History courses must be in the modern period (19th century to the present); ARTHIST 102 fulfills this requirement and is highly recommended.

c) One upper level topical course in an area related to the student's focus. Each department will determine what coursework is relevant in their area. <u>View the list of approved upper level topical courses by area.</u>

d) ARTVIS 490 Senior Seminar. A spring semester required class for all seniors enrolled in the co-major. This course will provide a formal structure in which the senior students will develop, discuss and present their ideas for their final project and presentation.

Students interested in a co-major in Integrated Visual Arts will submit an application and a portfolio to the Integrated Visual Arts Admissions committee in their sophomore year. Students should have completed at least one class from the list of integrated visual arts courses before being admitted to the program. Completing one class in Art History prior to application is highly recommended.

INTERDISCIPLIN	NARY STUDIES IN SOCIETY AND CULTURE
Code	IDSSC
Degree Awarded	ВА
Hours To Complete	44
Courses Required	12
Declaration of Major Contact	Institute of the Liberal Arts
	The IDS major requires 44 credits; generally this will involve 5 Frame Courses + 7 Concentration Courses:
	Frame Courses = at least 20 credits (2 200-level, Writing Lab courses @ 5 credits/each, IDS 491 Senior seminar @ 4 credits, and 2 others @ 3 or more credits)
	Concentration Courses = at least 7 courses carrying 3 or more credits each
	Concentration Courses
	At least seven of the major's required courses constitute the student's individualized concentration. This list of at least seven courses is designed in close consultation with the Director of Undergraduate Studies (DUS) or a faculty advisor, who approves of the concentration at the time the student is admitted into the major. Subsequent changes to the concentration courses must be approved by the DUS.
Requirements	The concentration courses prepare a student to carry out research into a question that is best illuminated by two or more disciplinary methods. Skills and research launched in the concentration courses culminate in the required IDS senior project.
	Frame Courses
	Writing as a skill for reflective reading and clear articulation of thought is crucial to success within the IDS major. Frame courses provide structure to a student's experience within the major by emphasizing writing skills and by presenting examples of analysis and illumination of intellectual problems through the methods and resources of multiple disciplines.
	• Two 200-level continuing writing requirement courses that participate in the ILA's innovative Writing Lab initiative are required; the array of options is as follows:

- IDS 200
- IDS 201\_OX
- o IDS 205

- IDS 216W or IDS 216\_OX
- An equivalent course, upon consultation with and approval by the ILA undergraduate committee.
- ENG 223 Rhetorical Grammar (1-credit, S/U) is co-requisite with all of the preceding courses, except Oxford courses. Oxford continuees will be required to take ENG 223 when they arrive at Emory College, either as co-requisite to one of the previous courses (in the case that they have taken only one Frame Requirement at Oxford) or as a separate requirement to complete the major.
- One 300-level class focusing on cultural theory is required (generally IDS 385 Critical Cultural Theory)
- Two senior year courses are required:
  - IDS 491 Liberal Studies Seminar (senior seminar and capstone)
  - Senior Research or Honors research

#### **IDS Senior Project**

As a synthesis of a student's course of study, and as a credential demonstrating a student's ability to organize complex ideas, each IDS student completes a significant senior project. Senior projects frequently involve scholarly research, but can be composed of research and other forms of scholarship, such as artistic expression or other forms of broader public engagement. Students begin their projects in the senior capstone seminar and work closely with faculty advisors, who give final approval of the project. If a student meets other requirements set by the Honors Program, the IDS Senior Project can count as the Honors Project.

#### Language Requirement

Competency and cultural awareness gained through the study of a non-native language other than English at the level of 201 or above.

\*Note: non-honors students take IDS 499 at least once, optionally twice in their senior year; honors students take IDS 390 in their junior spring semester in addition to IDS 495 Honor Research, which is required by the Honors Program and must be taken at least once, optionally twice. As an additional support for their senior projects, non-honors students are encouraged to take IDS 390 in spring of their junior years.

# Admission IDS major declaration requires approval of the Director of Undergraduate Studies. Students are encouraged to schedule a meeting to discuss their interests in the IDS major.

#### Emory College 2021 – 2022 Catalog

- two upper-level POLS electives (300+ and on IS approved list)
- three upper-level POLS (300+) or non-POLS electives at any level (on IS approved list)
- 3. Modern foreign language requirement: IS majors must pass one course (202 level or above) in which the language of instruction is other than English.

#### **Additional Requirements and Procedures**

- 1. No more than four 100-level courses (not including QTM 100) may be used to satisfy the major.
- A minimum of seven courses must be taken at Emory University or Oxford College. International Studies majors may get credit for up to four courses taken outside of Emory (study abroad programs, Bard Globalization and International Affairs and Washington Semester Programs, transfer and transient credits) that have been approved by the department.
- 3. Students may not double major in Political Science and International Studies, nor may a student major in International Studies and minor in Political Science.
- 4. No courses taken pass/fail (S/U) may count toward the major. This means that courses taken abroad in non-Emory approved programs, which as such receive only S/U grades, cannot count toward the major. The only exception is the Washington Semester Program or the Bard International Affairs and Globalization Program. Students may use up to eight hours (or two courses) of Washington Semester credit or Bard credit as elective credit towards the Political Science Major.
- One elective course can be satisfied by a POLS 496: Internship or a POLS 497: Directed Study. In addition, one elective course can be satisfied by a POLS 387: CLSS Independent Research or POLS 388: Research in Political Science.
- 6. Major status does not guarantee enrollment in any particular course. Some classes may require course prerequisites or other requirements for enrollment.
- 7. Students are encouraged to take advantage of study abroad opportunities.
- 8. Each student majoring in International Studies will be assigned an advisor and will be expected to consult with that advisor in designing a plan of study.
- 9. Each semester, prior to pre-registration advising, the department will issue a list of IS approved courses to be offered the next semester (permanent and variable topic Political Science courses as well as cognate courses in other departments) that may be used to satisfy the International Studies requirements. This list will be displayed on departmental bulletin boards, distributed to International Studies majors, distributed to departmental advisors, and posted on the Department's web site. Records of approved courses by semester will be maintained in the departmental office as well as on the Department's web site. Decisions on qualifying courses will be made by a committee of International Studies faculty from the Department of Political Science. This practice will be followed to ensure that the full range of International Studies courses in any one semester, many of them non-permanent offerings, will be available to students and credited toward the requirements for the major.
- 10. International Studies majors are eligible to participate in the Political Science Honors Program in order to receive Honors in International Studies. Honors Program students may use an appropriate graduate seminar to satisfy the advanced seminar requirement.

#### Note on the Modern Foreign Language Requirement

Students must demonstrate proficiency in a modern foreign language at a level equivalent to two years of college study. This will be satisfied by passing one course at the 202 level (or its equivalent) or above. Courses taken to achieve the required foreign language proficiency do not count toward the requirement that 36 hours of international studies courses be completed, nor are the grades used in calculating the major grade point average. Students may take this course pass/fail, if not required to fulfill a general education requirement.

#### Declaration of Major Contact <u>Italian Studies</u> <u>French and Italian Studies</u>

Requirements	Italian Studies is an interdisciplinary major whose focus is the study of Italy from a multifaceted point of view: literary, cultural, historical, artistic, philosophical, and political. It includes courses whose primary objective is to acquaint students with Italy, not only as a vital contributor to world intellectual and cultural history, but also with Italy's role and reality in today's world. The Italian Studies major is composed of ten classes. Six of these courses are required in Italian and follow the natural sequence of language to literature. They are 201, 202, 301, 302, and two fourth-year classes, usually 300 and 470. Students are highly encouraged to enroll in one Italian studies survey course, either 170 or 171 (number may vary), or the 270R course, taught on location during the Italy Summer Program. Three courses or more may be chosen from the following departments: Italian, Art History, Classical Studies, History, Music, Philosophy, Political Science, and Religion. Other appropriate courses may be found in the Course Atlas and submitted to Program Director for approval. Participation in the summer or semester programs in Italy is highly recommended especially for majors.

Language requirements may be fulfilled by demonstrating equivalent mastery of the language through oral and written examination administered by REALC. Students who are placed beyond 202 will take additional courses from lists A and B to equal the number of language classes skipped. Students must complete a minimum of 36 credits to graduate with a major in Japanese. Students who fall below this minimum must take additional electives from List A or List B to reach the minimum credit total

#### Electives

Requirements

Four electives are required (totaling at least 12 credit hours). A minimum of two must be from List A. The remaining two may be taken in any of the following combinations: two from List A, one from List A and one from List B, or two from List B (a total of four courses). No courses for the major may be taken S/U. Students must receive at least a C in each course taken for the major. One course taken on study abroad (JPN 315) may count toward the four required electives. Courses not on this list that contain more than 50% Japan-related content may be approved at the discretion of the major/minor advisor.

Declaration of Major Contact	Latin American and Caribbean Studies	
	Twelve semester-long courses are required:	
	a. Seven courses (core and elective) must focus primarily on Latin America and/or the Caribbean. Of the seven courses, four must be core courses and three must be electives. Students can choose their four "core courses" from the following list:	
	HIST 211: Latin American History	

- HIST 211: Latin American History
- One 300 Level History Class (HIST 360: History of Mexico; HIST 361: History of Brazil; HIST 362: History of the Caribbean; or any other 300 level HIST Latin American course)
- LACS 101 Introduction to Latin American and Caribbean Studies
- SPAN 300: Reading in Spanish- Texts and Contexts

PORT 200: Intermediate Portuguese

Requirements

Stipulation: Students who complete SPAN 300 may choose to fulfill a core requirement with an additional 3,4 or 5 credit language course provided that it is a Spanish course numbered above SPAN 300. If another language course relevant to Latin American and the Caribbean other than Spanish or Portuguese is chosen, it must be 200-level or above.

Of the electives, a minimum of one course must be taken in an LACS course; and a minimum of one course must be taken in a social science discipline.

b. Five courses will fulfill the disciplinary concentration requirement and must be chosen from the offerings in a single departmental discipline (e.g. art history, anthropology, political science, history, Spanish, economics, religion, etc.). These five courses must be chosen from among those that count towards the major in that discipline, and need not be Latin American or Caribbean in content.

LINGUISTICS

Degree Awarded	ВА
Hours To Complete	35 - 40
Courses Required	11
Declaration of Major Contact	<u>Linguistics</u>
	This major is designed to introduce students to fundamental aspects of the study of human language, emphasizing how an interdisciplinary approach to language better informs a global understanding of language use, structure, acquisition, variation, and change. Specifically the program aims to show how structural, cognitive, and sociocultural approaches to the study of language compare, contrast, and complement.
	The major is designed so that students first acquire a solid introductory base in the study of linguistics. They then must take a series of courses to ensure more intense study in (a) language and cognition, (b) language structure and meaning, and (c) language, society, and culture. Following this exposure to different fields and approaches, students will take elective courses to deepen their understanding of one or more of the approaches to the study of language. Majors are also normally required to demonstrate competence at the intermediate level or above in a language other than English, but may petition to satisfy the Linguistics language requirement through other combinations. Completion of the major requires a minimum of a C average in the major. The S/U option may be exercised only in the elective component of the major, for a maximum of four credit hours. A maximum combined total of four hours of courses at the 490-499 level (Directed Study, Directed Research, Honors) may be applied toward the major. Courses completed in approved Linguistics study abroad programs may also be used to fulfill major requirements (with approval of the program director or designated faculty adviser).
	Course Requirements
	I. Students are required to take three basic courses in the study of linguistics:
Requirements	101: History of the American Languages 201: Foundations of Linguistics 401: Language, Mind and Society
	<ul><li>II. Students will also take three breadth courses on key approaches to the study of linguistics:</li><li>(1) One of the following courses in Structural Approaches to Human Language:</li></ul>

Degree Awarded	BA
Hours To Complete	45

Courses Required 14

Declaration of Major Contact Political Science Mathematics Students pursuing the Math/Political Science major must complete a total of 45 credit hours in 14 courses (7 POLS and 7 MATH):

#### **Political Science Requirements**

- POLS 111: Principles of Political Science
- POLS 208: Political Science Research Methods

#### **Additional POLS Courses**

- One POLS research course (394/494 or "RSCH" in title). The research course should be one in which a student would be able to fully utilize their training in mathematically-based research methods to work within a substantive area and/or on a substantive project. A student must have their choice of research course approved by the joint political science and math faculty adviser
- Four upper-level POLS electives (300-400). These courses must have content (such as readings or paper assignments) which employ the methods learned in 208 and 310. A student must have their choice of upper-level courses approved by the joint political science and math faculty advisor.

#### **MATH Courses**

- MATH 111: Calculus I
- MATH 112: Calculus II
- MATH 211: Multivariable Calculus
- MATH 212: Differential Equations or MATH 250: Foundations of Mathematics
- MATH 221: Linear Algebra
- MATH 361: Probability and Statistics I

#### Requirements

MATH 362: Probability and Statistics II

#### **Additional Requirements and Procedures**

- 1. Additional information about the joint major is available on the Math department web page.
- 2. No courses taken pass/fail (S/U) may count toward the major.

#### **Honors Program Eligibility**

A student who is a joint major in math and political science may participate in the political science honors program alongside political science and international studies majors, or in the math honors program. The political science honors program requires taking a graduate or senior seminar of the student's choice. That graduate or senior seminar can satisfy requirement "e" above, contingent on the approval of the political science adviser. Honors students also take POLS 495: Honors Tutorial in the fall of the senior year, as well as POLS 499: Honors Research in the

spring of the senior year. These last two courses will satisfy only one of the three required upper-level POLS courses (see above under "Additional POLS courses"). That is, students who complete the honors program will still need to take at least two 300 level or above courses. In accordance with college guidelines, a joint major wishing to pursue honors in political

science must receive approval of the math department for entry into the political science honors program, and the math department must also agree on the level of honors ultimately awarded. Also per college guidelines, a joint major pursuing honors in political science must have a faculty member of the math department on the honors committee, in

addition to a political science faculty member and an outside member.

#### Note on the Research Requirement

Starting in the Fall of 2016, the Political Science department implemented a new requirement that MATH/POLS students complete a research paper as part of their Political Science major. Classes that contain a paper that

meets the research requirement are numbers with either a POLS 394 or POLS 494 designation or contain "RSCH" in the course title.

Declaration of Major Contact Music

**General Requirements** 

**BA in Music: Composition Track** 

BA in Music: Performance Track

BA in Music: Research Track

History and Culture Courses (all Tracks)

The Music Department at Emory offers three tracks for fulfilling a major in music:Composition, Performance, Research. Students must select a track by the end of the sophomore year and fulfill all course requirements in the track in order to earn a major in music. Since significant portions of the music curriculum are based on mastery of sequential study, the department recommends as early a declaration as possible. Early declaration also allows students maximum benefit from private lesson study, since the department provides a half-subsidy for private lessons for declared music majors.

#### Notes:

- MUS 121 Theory and Analysis I is the foundation course for all music major tracks. Students with a strong background in music theory may request to take the MUS 121 Exemption Test.
- No more than three credit hours of Supervised Reading or Study Abroad courses may count toward fulfillment of the music major.

#### Requirements

- An internship may not count toward the music major.
- All courses must be taken for a letter grade.
- AP Music Theory Exam A score of 4 will transfer to Emory as MUS 114 and count as a 100-level elective toward the music major. A score of 5 will transfer to Emory as MUS 121 and the student may move on to MUS 122 in the spring semester.
- A total of 16 hours of MUS 300, 320, and 310 may be applied toward the 128 academic hours requirements for graduation, although all applied music and ensembles must be taken for credit.
- Students may not apply MUS 300, 310, or 320 as electives in any of the tracks.
- Students will complete 45 credit hours to fulfill requirements in each track.

Requirements	The BS is designed for those students who wish to complete a concentrated program of study in physics covering all of the standard undergraduate physics curriculum typically expected for admission to graduate school or to prepare for work in physics or physics-related fields. Areas of study will include mechanics, electricity and magnetism, quantum mechanics, thermal physics, mathematical methods of physics, advanced laboratory techniques, and optics. Most BS majors will have the opportunity to participate in undergraduate research projects if they are interested in doing so.
	Required: Physics 151, 152, 212, 220, 253, 361, 365, 421, 444, 461, two physics electives, and Mathematics 111, 112, 211, and 212. At least one of the electives must be at the 300 level or higher, and the other elective must be at the 200 level or higher. BS degree students are encouraged to become involved in the research programs in the department as early as possible, either informally, or formally by enrollment in Physics 499 (which can count as one elective).

Requirements

- - 1. The Political Science Department requires all its POLS majors to complete the following foundational courses:
    - QTM 100: Introduction to Statistical Inference
    - POLS 111: Principles of Political Science 0
    - POLS 208: Political Science Research Methods 0
  - 2. All POLS majors must also complete:
    - o one research course (POLS 394/494 or "RSCH" in title)
    - one political theory course (100-400 level) 0
    - four upper-level electives (300-400) 0
    - 0 two electives at any level (100-400)

#### **Additional Requirements and Procedures**

- 1. A minimum of seven courses must be taken at Emory University or Oxford College. Political Science majors may get credit for up to four courses taken outside of Emory (study abroad programs, Bard Globalization and International Affairs and Washington Semester Programs, transfer and transient credits) that have been approved by the department.
- 2. Students may not double major in Political Science and International Studies, nor may a student major in International Studies and minor in Political Science.
- 3. No courses taken pass/fail (S/U) may count toward the major. This means that courses taken abroad in non-Emory approved programs, which as such receive only S/U grades, cannot count toward the major. The only exception is the Washington Semester Program or the Bard International Affairs and Globalization Program. Students may use up to eight hours (or two courses) of Washington Semester credit or Bard credit as elective credit towards the Political Science Major.
- One elective course can be satisfied by a POLS 496: Internship or a POLS 497: Directed Study. In addition, one elective course can be satisfied by a POLS 387: CLSS Independent Research or POLS 388: Research in Political Science.
- 5. Any course with a POLS prefix may fulfill a major elective at appropriate level.
- 6. Major status does not guarantee enrollment in any particular course. Some classes may require course prerequisites or other requirements for enrollment.
- 7. Courses cross-listed between Political Science and another department or program will count as Political Science courses.

#### A. Fundamentals of Psychology as a Behavioral Science

- Introduction to Psychology—Psychology 110 and 111
- Students must complete a two-semester introductory sequence in psychology— Psychology 110,
  Introduction to Psychology I: Psychobiology and Cognition, and Psychology 111, Introduction to
  Psychology II: Development, Social Behavior, and Individual Differences. These courses provide all
  majors with a general orientation to the methods, content areas, and central findings of psychology. We
  recommend that they be taken before any other psychology course. Students who have received AP
  credit from the college by scoring a 5 on the advanced placement test in psychology will be exempted
  from Psychology 111. These students must take an additional elective course to replace Psychology 111,
  and must take Psychology 110 to complete the introductory requirement. Students who completed a
  one-semester introductory psychology course will receive credit for Psychology 111, and must take

#### B. Psychological Inquiry Sequence

• Quantitative Theory and Methods (QTM) 100 and Psychology 200WR may not be taken concurrently. Students must complete the psychological inquiry sequence no later than the end junior year

1. Introduction to Statistical Inference – QTM 100

Because adequate understanding of original source material in psychology is impossible without basic statistical literacy, students are required to take a course in statistics. Majors must meet this requirement by taking the QTM 100 statistics course offered by the Institute for Quantitative Theory and Methods.

2. Laboratory Methods—Psychology 200WR

This course provides students with a basic understanding of methods in psychology through conducting studies and evaluating published research. Introduction to

Statistical Methods (QTM 100) is a prerequisite and therefore must be completed prior to this course.

2. **Survey Courses -** These courses are intended to cover a well-established area within psychological science from a broad perspective. Students must complete one course in each area. Prior enrollment in PSYC110 or PSYC111, and QTM100 strongly encouraged.

,	Area I	Area II
	PSYC 207: Brain and Behavior	PSYC 205: Child Development
	PSYC 209: Perception and Action	PSYC 210: Abnormal Psychology
	PSYC 215: Cognition	PSYC 211: Childhood Psychopathology
	PSYC 223: Drugs and Behavior	PSYC 212: Social Psychology

3. **Depth Courses** - These courses are designed to provide students with an in-depth study of a specific topic or sub-area within psychology. Enrollment in ALL 300-level and above courses requires completion of PSYC110, PSYC111, QTM100, and any 200-level survey course. Students may seek special permission to enroll in Psychology graduate courses.

Students must complete FOUR depth (300-level and above) courses At least THREE of those courses must come from the list below:

- PSYC 302: Human Learning and Memory
- PSYC 303: Evolution of Acquired Behavior
- PSYC 309: Brain and Language
- PSYC 310: Cognitive Development
- PSYC 320: Animal Behavior

- PSYC 321: Behavioral Neuroendocrinology of Sex
- PSYC 322: Biological Basis of Learning and Memory
- PSYC 324: Sleep & Dreaming, Brain & Mind
- PSYC 325: Primate Social Psychology
- PSYC 351: The Nature of Evidence
- PSYC 353: Behavioral Neuroscience
- PSYC 385R: Selected Special Topics in Psychology
- PSYC 410: Science & Pseudoscience in Psychology
- PSYC 424: Advanced Neuroimaging Practicum
- PSYC 427W: Hormones, Brain & Behavior
- PSYC 440W: Animal Communication
- Selected 400-Level seminar courses

The fourth depth course may be selected from this list, or may be any 300 level or above course offered by or cross-listed with the Psychology department, with the exceptions as noted below:

Course Exclusions: PSYC397R: Directed Study , PSYC494R: Directed Research for Study Abroad, PSYC 495A and 495BW: Honors Program, PSYC498R: Directed Reading, PSYC499R: Directed Research.

4. **Two Elective Courses** –Students must take two additional courses offered by the Psychology Department, with the exception as noted below:

Course Exclusions: PSYC 190: Freshman Seminar, PSYC397R: Directed Study, PSYC 495A/BW: Honors, PSYC 498R: Directed Reading, and PSYC 494R or PSYC 499R: Directed Research. Students may count one (1) three-hour enrollment in PSYC 494R or PSYC 499R: Directed Research; only ONE such enrollment may count towards the major.

5. Quantitative and Methodological Courses – These courses are intended to enhance students' quantitative and methodological training, providing skills and approaches that can be used in addressing psychological questions. Students must complete two courses from the designated list of quantitative and/or methodological courses. These courses may come from offerings in Psychology, QTM, Mathematics, Computer Science, and Biology. See below for the list of these courses. Of note, students will need to meet all requirements and prerequisites for a given course, as specified by its home department.

1. Psychology – (Graduate courses, 500 level and above, require permission of instructor)

- PSYC 180: Research in College Drug Use
- PSYC 430: Advanced Statistics and Methods
- PSYC 424: Advanced Neuroimaging Practicum
- PSYC 560: ANOVA: Advanced Statistics
- PSYC 542: Research Methods in Clinical Psychology

- BIO 355: Introduction to Time Series Analysis (also QTM 355)
- BIO 361W: Neurophysiology Lab
- BIO 450: Computational Neuroscience

**Interfacing Science Courses** – These courses are intended to increase students' awareness and understanding of how psychology is situated in the broader scientific landscape, and to highlight the connections between psychology and related sciences. Students must complete two courses from the designated list of interfacing science courses. These courses may come from offerings in Anthropology, Biology, Environmental Science and Chemistry. See below for the list of these courses. Of note, students will need to meet all requirements and prerequisites for a given course, as specified by its home department.

# PSYCHOLOGY Code PSYCH Degree Awarded BA Hours To Complete 39 Courses Required 12 Declaration of Major Contact Psychology I. Four foundation courses – All foundation courses must be completed no later than the end of the junior year. 1. PSYC 110 Introduction to Psychology I: Psychobiology and Cognition

- 2. PSYC 111\* Introduction to Psychology II: Development, Social Behavior, and Individual Differences
- 3. QTM 100 Introduction to Statistical Inference
- 4. PSYC 200W Laboratory Methods (QTM 100 is a prereq for Psyc 200)
- Requirements \*Students who have either (a) received AP credit from the college by scoring 5 on the advanced placement test in psychology, or (b) obtained a score of 6 or 7 for an international bacculaureate psychology course, will be exempted from Psychology 111. These students must take an additional elective course to replace Psychology 111. Students who completed a one-semester introductory psychology course at another institution will receive credit for Psychology 111.

#### II. Two Survey Courses

Majors must take AT LEAST one survey course in each of two areas, simply designated Area 1 and Area 2. These two areas generally reflect the content of Psychology 110 and 111.

## Survey Area 1

- 207 Brain and Behavior
- 209 Perception and Action
- 215 Cognition
- 223 Drugs and Behavior

## Survey Area 2

- 205 Child Development
- 210 Abnormal Psychology
- 211 Childhood Psychopathology
- 212 Social Psychology

Prior enrollment in Psychology 110 and/or 111 and QTM 100 is strongly suggested for the survey courses; individual instructors may create prerequisites for survey level courses if they prefer.

## **III. Four Depth Courses**

Majors must take AT LEAST 4 courses at the 300 level or above. 300 and 400 level courses require 110, 111 and QTM 100 and at least one 200 level breadth course. Individual instructors may further require PSYC 200 and/or specify any additional pre-requisites. The major difference between 300 and 400 level courses is size. Whereas 300 levels are depth courses, they may still enroll up to 60 students. 400 level courses are conceptualized more as seminars, with enrollments at 15-20.

## **IV. Two Elective Courses**

Students must take two additional psychology courses offered by the department to fulfill the electives requrement. Elective options include Psychology 100, 200, 300, and 400 level courses, with exceptions noted below. Note that students may count (ONLY) one (1) three-hour enrollment in Psyc 494R or 499R, Directed Research towards the major.

**PSYCHOLOGY COURSES THAT DO NOT COUNT TOWARD THE MAJOR**: 190, Freshman Seminar; 495A/B, Honors; and 498R, Directed Reading do not count toward the major.

Students' coursework in the field of their substantive interest will be compromised of no more than two (2) courses at the department's 100 level - i.e., introductory- with the remaining courses being taken at the 200, 300 or 400 levels, and at least one (1) being taken at the 300 or 400 level.

There are no official restrictions about what substantive field a student can concentrate in while pursuing the QSS degree. If a student is interested in a substantive field beyond this list, please contact us to discuss their major course policies.

**Note**: A student may count no more than two classes fulfilling their substantive course requirements towards a double major.

Additional Degree Requirements:???When necessary, a combination of QSS and substantive area courses of the student's choosing may be taken to reach 50 the credit hour requirement.

RELIGION	
Code	REL
Degree Awarded	BA
Hours To Complete	36
Courses Required	11
Declaration of Major Contact	Religion
	The major in Religion requires a minimum of thirty-six hours (eleven courses), one of which may be taken in a cognate discipline. It is important for the student to work closely with an adviser in choosing a course of study, which may include, for example, an emphasis in a particular religious tradition or a thematic emphasis such as religion and conflict, religion and ethics, religion and gender, ritual and performance studies, classical texts and religious thought, or comparative sacred texts.
	The major requires:
	<ol> <li>Religion 300: Interpreting Religion</li> <li>Religion 490W: Senior Symposium</li> <li>9 elective courses that must include the study of religion in terms of religious traditions, regions, and themes.</li> </ol>
Requirements	<b>TRADITION REQUIREMENT</b> : at least 2 courses in the same religious tradition; and at least 1 course in a different tradition. Examples: Buddhism, Judaism; including studies of a tradition's scriptures (e.g. Qur'an, New Testament). ABOVE, INDICATE 2 COURSES WITH THE SAME TRADITION AND ONE OTHER (e.g. Tradition-Buddhism, and Tradition-Islam).
	<b>REGION REQUIREMENT</b> : at least 2 courses that examine religion in a particular geographical area, which might also include cultures in diaspora. Examples: America, East Asia, African diaspora. LIST 2 COURSES AS "REGION."
	<b>THEME REQUIREMENT:</b> at least 2 thematic courses. "Themes" may refer to approaches, topics, methods, perspectives. Examples: Death and Dying, Introduction to Religion, Religion and Healing, Human Goodness, and many special topics. LIST 2 COURSES AS "THEME."
	<b>Counting classes</b> : The principle of "double-dipping" (but not "triple-dipping") is allowed—for example REL 307, "East Asian Buddhism," could count under both "traditions" and "regions." REL 318, "Islamic Law" could count under both "traditions" and "themes." Consultation with the DUS or your advisor is recommended.
	Up to 2 courses (including language courses beyond the College's minimum requirement) not listed (or crosslisted) as REL can count towards your electives, if the content of the course is clearly relevant to the student's program in the study of Religion, and subject to the approval of the DUS.
	ALL COURSES TAKEN TOWARDS THE MAJOR MUST BE TAKEN FOR A LETTER GRADE.

#### Information on Russian Major for those who declared this major before Fall 2017 only.

Immense in its geographic size and highly influential politically in its historical and cultural development, Russia, a colossal East-West, has entered the 21st century as a major player on the world stage. In its mediation on the country's catastrophic history, Russian culture continues to engage some of the most complex political and social issues: the country's major thinkers (philosophers, writers, scientists, artists) have commented upon these problems with unparalleled insight. An acquaintance with their thought will introduce students to some of the intense and subtle intellectual debates, international in their scope. For these reasons alone, a degree in Russian Languages and Cultures provides essential preparation for careers in law, international relations, the diplomatic corps, business, journalism, education, to name but a few of the professions open to our students.

**Major in RUSSLLC** provides intensive language training in Russian (the predominant language of Eurasia) with a concentrated interdisciplinary study of Russia and its culture. All majors will be expected to pass the department's proficiency interview in Russian.

Students majoring in Russian Studies are required to complete the following coursework:

**3 courses (minimum 11 credits)** of language training beyond the intermediate level (RUSS 202). Up to 8 credits in language study completed in approved study abroad programs can be applied. All course sequences must be approved by the department.

**4 courses (minimum 14 credits)** from courses in Russian literature, language, culture, history and politics (in at least two departments), approved by the Russian Major advisor. To assure breadth, coursework should reflect at least two different historical periods. Up to 4 credits from approved internships can be applied.

**1 course (4 credits).** An approved capstone seminar, entailing a serious writing and research component, offered by the Russian program (300 or 400- level course)

Declaration of Major Contact Institute of African Studies Program

A total of five courses, totaling a **minimum** of 15 credit hours, are required for the minor in African Studies, of which four must be courses with wholly African content. While there are no specific courses required for the minor, we recommend the following general plan.

## INTRODUCTORY COURSES

Taken early in the minor, these courses provide a general framework for African Studies:

- AFS 150 (ANTH 150): Cultures of Africa
- AFS 263 (IDS 263): Introduction to African Studies
- AFS 221 (HIST 221) The Making of Modern Africa

## SPECIAL TOPICS IN AFRICAN STUDIES

## Requirements

Taken at any point during the minor, this set of courses can be tailored to a particular topical or thematic interest or can cover diverse themes and topics:

- Multiple AFS courses at the 200- or 300-level
- **One** non-AFS course at the 200- or 300-level, of theoretical or thematic focus with substantial African material.
- NON-AFS COURSES MAY COUNT TOWARD THE MINOR, WITH APPROVAL OF THE DIRECTOR OF AFRICAN STUDIES. STUDENTS HAVE THE OPTION OF TAKING ONE COURSE FROM A SET OF RELATED COMPARATIVE AND THEMATIC COURSES WITH SUBSTANTIAL AFRICAN MATERIAL, THAT IS, 1/3 TO 1/2 AFRICAN CONTENT AS CASE STUDIES OR OTHER EXAMPLES.

## SATISFYING MINOR REQUIREMENTS DURING STUDY ABROAD

After a semester of study abroad in Africa, you are well on your way to a minor in African Studies! Currently, Emory College Study Abroad programs include opportunities in Egypt, Ghana, Kenya, Mali, Morocco, Rwanda, Namibia/Botswana, Senegal, South Africa, Tanzania, and Uganda. Please visit the <u>Emory College Study Abroad</u> <u>website</u> for more information.

Students are encouraged to strengthen their work in African Studies by participating in study or research abroad through one of Emory's approved programs in Africa. Up to 9 semester hours of credit, or 3 courses, may be earned toward the minor in study abroad programs.

Prior to beginning a study abroad program, students must contact the Director or DUS to seek approval of courses to be taken and counted towards the African Studies minor. Students should be prepared to provide a syllabus for any courses to be counted toward the minor.

Two (2) CORE COURSES

- Either ARTHIST 101 or ARTHIST 102, Art | Culture | Context, the foundational art history courses
- Either ARTVIS 111 or 112, Foundations in Art Practices, or another Visual Arts course.

Five (5) ELECTIVE COURSES, including

One course in three (3) of the four regional-historical divisions:

- 1. Ancient Mediterranean art & architecture (Egypt, Greece, and Rome)
- 2. Medieval, Renaissance, and Baroque art & architecture
- 3. Modern and contemporary art & architecture (after 1800; global)
- 4. Arts & architecture of Africa, Islam, Asia, and the Americas

Two (2) courses at the 300 level or above. These courses may also satisfy the regional-historical distribution requirement, above.

## Requirements General Information

Up to two (2) of the maker and materials courses may count toward the Joint Major as electives. These include ARTHIST 103, Understanding Architecture; ARTHIST 104, Great Buildings; ARTHIST 210, Introduction to Computer-Aided Design; ARTHIST 387, Issues in Art Conservation; and ARTHIST 388, Technical Art History.

**Pass/fail**: No more than one Art History course taken S/U may be applied to the joint major. Seminars (400-level courses) must be taken for a letter grade to satisfy the requirements for the Joint Major.

**Study abroad**. Up to two (2) courses completed in approved study-abroad programs may be used to fulfill the Art History elective requirements for the Joint Major; students may petition the department to allow a third.

**Independent study**: No more than three (3) hours of Supervised Reading and Research (ARTHIST 398) may be applied to the Joint Major.

Internships: An internship (ARTHIST 397) may not be applied to the Joint Major.

**Honors**. An Honors degree may be pursued in either department. In Art History, Honors students are required to take one graduate-level seminar, which may be used to fulfill a requirement for the Joint Major (though not the

Continuing Writing Requirement for the GER). The Honors course itself, ARTHIST 495, does not count toward the Joint Major.

**Advanced Placement in Art History**: Students may receive 3 credit hours and an exemption from ARTHIST 101 for an AP Art History exam score of 5. Students with a score of 5 on the AP exam who elect to receive a non-credit-bearing course waiver may be exempted from ARTHIST 101 but must make up the credit hours with an additional elective course.

Advanced Placement in Studio Art: Students may receive 3 credit hours and an exemption from an equivalent Visual Arts course for a score of 5 on an AP Studio Art exam. The exam in 2D Design or Drawing may exempt a student from ARTVIS 103, and in 3D design, from ARTVIS 109. Nevertheless, before enrolling in upper-level visual arts courses, students must submit a portfolio for the instructor's review. Students with a score of 5 on an AP Studio Art exam who elect to receive a non-credit-bearing course waiver may be exempted from the equivalent Emory course but must make up the credit hours with an additional elective course.

ECONOMICS	
Code	ECONMIN
Degree Awarded	None
Hours To Complete	21
Courses Required	7
Declaration of Major Contact	Economics Department
	The economics minor requires twenty-one semester hours of credit (7 courses) in economics.
	A. Two Introductory Courses: Principles of Microeconomics (101), or Business Economics (FIN 201), and Principles of Macroeconomics (112)
	B. One Intermediate Course: Intermediate Microeconomics (201) or Intermediate Macroeconomics (212); (Mathematics 111 is a prerequisite for Economics 201 and 212.)
	C. Three Economics Electives: Electives must be at or above the 200 level. Note that several economics courses satisfy the GER, so students can make progress toward an economic minor while they also satisfy the GER.
	D. MATH 111
Requirements	ADDITIONAL INFORMATION
	At most two Economics courses can be exempt with AP credit.
	Courses must be taken for a letter grade, and students must maintain an overall 2.0 (C) grade point average in courses used to complete a minor.
	Economics 449, Economics Internship, is offered to economics majors and minors only and must be taken on an S/U basis. This counts for only 2 credit hours and will not count toward minor.
	Economics 101 and 112 are prerequisites for higher numbered courses in Economics and for admission to the undergraduate program in the Goizueta Business School. Economics 101 must be completed before enrolling in Economics 112. Finance 201 can substitute for Economics 101.

Courses taken at another institution, before or after enrolling at Emory, will not count toward the minor unless written permission is given by the director of undergraduate studies, even if the College has accepted credit for the courses. A maximum of four semester hours of Economics 397R, Directed Reading in Economics, may be counted toward the minor requirements in Economics.

EDUCATIONAL

Courses Required	5
Declaration of Major Contact	
	The Educational Studies Minor consists of a minimum of five courses (twenty hours). Educational Studies 201 (American Education) is required.
	Three Breadth Courses: The purpose of the breadth requirement is to insure that all majors acquire systematic knowledge in what we view as five central areas. Consequently all minors must take three courses, one selected from three of the following five areas:
Requirements	<ul> <li>Psychological Contest of Education,</li> <li>Social Context of Education,</li> <li>Cultural Context of Education,</li> <li>Historical/Philosophical Context of Education, and</li> <li>Methods of Disciplined Inquiry.</li> </ul>
	One Elective Course: Students must take an additional course to complete the minor. This course will be selected in consultation with the student's adviser.
Admission	The Division of Educational Studies (DES) is scheduled to close Summer 2017. Recognizing that the number of Educational Studies (EDS) courses available will be decreasing each year as this closing date approaches, students are no longer permitted to declare new majors or minors in Educational Studies. However, students who express an interest in the field of education, in most cases, will continue to be able to enroll in Educational Studies coursework through Summer 2017. Please contact either the Director of Undergraduate Studies or the Director of DES if you wish to express your interest educational studies, at which time you will be assigned an EDS adviser and be provided with further information. Ongoing advisement is critical during preregistration each semester since a permission number is required to enroll in most EDS courses.

	Structure of the Development Studies Minor	
	1. Twenty-two hours required, including the Development Studies 200 Foundations team-taught course and the 2-credit Capstone Seminar. Thus, normally, 4 courses plus the Foundations and Capstone.	
Requirements	2. Students must take at least one course in the two of the three divisions of the university (social sciences, natural sciences, and humanities) and can count no more than two courses from their major toward the requirements for the minor.	
	3. The 2-hour capstone seminar will allow the student to produce a final product for the minor. Capstone experiences can be supervised by any appropriate faculty member or study abroad faculty member and may be carried out in a course or non-course experience, in relation to an Honor's thesis project and research. Registration in the capstone seminar will provide a community of GDS minors and allow final development of a development studies-related product.	
	5. A rotating Steering Committee of four faculty members from different disciplines will provide guidance and supervision throughout the student's progress through the Minor and will meet with students twice during the semester of their capstone experience.

#### FOUR-ONE-PROGRAMS

#### CURRENT 4 + 1 PROGRAMS

### 4 + 1 BS/MS PROGRAM IN ENVIRONMENTAL SCIENCES

Undergraduate students majoring in Environmental Sciences (ENVS) have an opportunity to complete a Bachelor of Science (B.S.) degree in Emory College and a Master of Science (M.S.) degree in Emory???s Laney Graduate School in five years. ENVS majors take courses in Emory College of Arts and Sciences while concurrently taking graduate-level courses in Laney Graduate School. Students apply in their sophomore year and begin taking graduate courses in their junior year. Students are required to take courses in research design and practice, advanced statistics, natural sciences, environmental policy, and integration of science and policy.

For more information, go to: http://envs.emory.edu/home/graduate/bs\_ms.html

### B.A/M.A. PROGRAM IN ENGLISH

This program, which bridges the senior year with a fifth year of graduate study, is designed to give advanced students in-depth exposure to graduate study in literature and to further their research and critical skills. Students admitted to the program will undertake limited graduate work in their senior year and then will stay on for a fifth year to concentrate exclusively on graduate studies. The 4+1 program is designed for students seeking additional preparation before applying for PhD programs in English and related fields, as well as for those pursuing other career tracks (such as secondary teaching and publishing) in which an MA degree in English is valuable. Applicants must be Emory English majors in their junior year. Additionally, it will allow students to work more closely with both faculty mentors and with the doctoral students who come to Emory from other institutions.

For more information, go to: http://english.emory.edu/home/undergraduate/ba-ma.html

#### BA/MA PROGRAM IN FILM AND MEDIA STUDIES

The 4 + 1 BA/MA Program in Film and Media Studies provides graduate-level education in media literacy, most broadly, in the context of Emory University\'s mission and goals, it furthers the aim of promoting media literacy by training our students in the history of, and critical approaches to, film and media, as well as in the uses of digital media as tools for research and communication. Students admitted to the Program undertake limited graduate work in their senior year and then enroll in Laney Graduate School for a fifth year of graduate studies. The 4 + 1 BA/MA Program aims to serve students seeking additional preparation before applying to film and media-related Ph.D. programs, as well as those pursuing other film and media career tracks in film/festival curation, film archives, production, or teaching in secondary schools and community colleges, for which an MA degree in Film and Media is helpful. Students work closely with faculty members and with doctoral students in our Ph.D. Certificate program.

For more information, go to: http://filmstudies.emory.edu/home/

#### BA/MS OR BS/MS COMPUTER SCIENCE

Undergraduate students from any major in Emory have an opportunity to complete a BA or BS degree in their chosen major in Emory College and a Master of Science (MS) degree in Computer Science (CS) in Emory's Laney Graduate School in five years. Students apply in their junior year. Students in the CS 4+1 program are expected to take two graduate courses each semester of their senior year, complete an internship and take six more graduate courses (or equivalent project hours) in the +1 year. Up to 6 graduate course credits may be double-counted toward their BA/BS degree. Applicants must have a GPA of 3.25 or higher and have taken (or are taking) all the following prerequisite courses: Math 111, Math 112, Math 221, CS 170, CS 171, CS 224, CS253 (or CS 323), and CS 255.

For more information, go to: http://www.cs.emory.edu/undergraduate/degrees/4+1/

### **BA/MSPH PROGRAM IN BIOSTATISTICS**

Emory College and the Rollins School of Public Health (RSPH) jointly offer a 5-year bachelors/master's degree program. Students have an opportunity to complete a Bachelor of Arts (BA) degree in Emory College, most likely with a major concentration in Mathematics and Computer Sciences, and a Master of Science in Public Health (MSPH) degree in Biostatistics within five years. Emory College students can apply, and may be admitted, to the program during their third (junior) year and enroll in 12 semester hours of credits in MSPH courses during their fourth (senior) year. Course credits taken by Emory College students in the RSPH during the fourth (senior) year count towards the required 132 hours of credit for the Bachelor of Arts degree as well as for the required 48 hours for the MSPH degree in Biostatistics. Two undergraduate courses (totaling 8 semester hours) offered by the Department of Mathematics will also count towards the MSPH degree in Biostatistics. Students graduating from Emory College with the BA degree will then take courses during their fifth year as MSPH student in the RSPH.

For more information, go to: http://www.sph.emory.edu/departments/bios/degree-programs/ba-msph-biostatistics/index.html

#### BS/MPH 5-YEAR ENVIRONMENTAL SCIENCES (ENVS) AND ENVIRONMENTAL HEALTH (EH) PROGRAM

Emory College of Arts and Sciences and the Rollins School of Public Health (RSPH) offer a dual-degree 5-year (4+1) bachelors/masters (BS/MPH) program. The program is designed for students to complete a Bachelor of Science (BS)\* degree in Emory College in Environmental Sciences (ENVS) and a Master of Public Health (MPH) degree in Environmental Health (EH) in five years.

For more information, go to: <u>http://www.sph.emory.edu/departments/eh/degree-programs/bs-mph-es-eh/index.html</u>

# **BS/MS IN MATHEMATICS**

The 4+1 Mathematics MS program will offer Emory students a coherent, integrated educational experience designed to prepare them for careers and graduate programs that rely on mathematical knowledge, analytical skills, and computational techniques.

For more information, go to: <u>http://math.emory.edu/home/</u>

# JURIS MASTER

The Juris Master is a one-year degree, earned with the successful completion of 30 credit hours as a full-time student. The J.M. degree does not qualify recipients to practice law. Rather, it is designed to supplement a student\'s professional pursuits in areas beyond legal practice.

Many industries and professional fields are coping with the growing importance of regulatory oversight, intensifying risk and liability concerns, global economic uncertainty, increasingly complex decision environments as well as pressures for integrated design/build and faster movement to market. As a result, there is an increasing demand for the integration of professional knowledge in the substance of the work with legal principles relevant to the work. With the additional preparation of a J.M. degree, students will be better equipped to deal with such scenarios, by gaining insight in these and other areas of the law. A student who supplements his or her disciplinary knowledge with a related grounding in the law may enhance their value in the market and workplace; realistically assess if further legal studies are appropriate to their career aspirations; and advance interdisciplinary understanding between their undergraduate professions and law.

The JM offers courses of study in political science, jurisprudence, environmental law, media and marketing, innovation and intellectual property, arts management, and many others.

For more information, go to: http://www.law.emory.edu/academics/jm-program.html

#### MASTER OF ARTS IN BIOETHICS

This innovative and interdisciplinary program is designed to prepare Emory College students (from any major) to identify, evaluate and respond to the social and ethical challenges that face medicine, biotechnology and the life sciences. Our curriculum incorporates

discussion-intensive seminars, one-on-one faculty mentorship, research opportunities and a career-building practicum (e.g. at the CDC, GA State Legislature, or Atlanta Hospitals). This varied curriculum provides our students with both a theoretical grounding in bioethics as well as hands-on experience of and supervision in the implementation of ethics projects. This dual degree will provide a competitive advantage to students interested in careers in healthcare, health law, research regulation or compliance, academia or normative areas of public health.

For more information, go to: http://ethics.emory.edu/mabioethics/dualdegree/4+1.html

### MASTER OF SCIENCE IN CANCER BIOLOGY AND TRANSLATIONAL ONCOLOGY

The Graduate Program in Cancer Biology provides outstanding training opportunities at the PhD and MS levels in every aspect of cancer research, from basic to translational research. This includes molecular and cellular biology, genetics and epigenetics, signal transduction, genetic engineering, nanotechnologies, and many other disciplines used to understand the development and progression of cancer.

Many different approaches are applied to a range of model systems to address how a normal cell becomes a cancer cell, how cancer progresses to a metastatic state at the molecular level and how our understanding of these mechanisms can be exploited for the design of new cancer therapies or novel ways to apply existing anti-cancer agents in the clinic.

For more information, go to: http://www.gs.emory.edu/academics/program\_pages/cancerbio41.html

# OVERVIEW

Emory College of Arts and Sciences, in conjunction with the Laney Graduate School, Rollins School of Public Health, and the Law School, offer five-year, combined bachelor's and master's degree programs to currently enrolled students. These selective programs require an application to be considered for admission. Interested students should consult with their advisors to discuss the appropriateness and applicability of this program for the student's future goals before applying.

Each 4+1 program has its own application process and requirements that are set by the sponsoring department. Interested students can learn more by visiting the website for each program.

#### ADMISSIONS OVERVIEW

Each department sponsoring a 4+1 program has its own admissions deadlines, criteria, and application process. Application deadlines for existing programs range from first semester of junior year to a week after graduation, so please refer to the information on each department's website for specific information.

#### ADVISING

Interested students should confer with their current departmental academic advisor to discuss how these programs will fit with the student's long-term educational and occupational goals. Students may also wish to consult with the program coordinator of the 4+1 program as well before making a final decision to apply.

#### CURRICULUM

Although the structure varies from program to program, most 4+1 students take both undergraduate and graduate classes during their fourth year and only graduate classes during their fifth year. Please see each 4+1 program's website for more specific information.

SCHOLARSHIPS AND FINANCIAL AID

Students interested in 4+1 programs should be advised that financial aid policies for graduate study are different than those for undergraduate study. Students should consult with the graduate department associated with their 4+1 program to learn more about financial aid opportunities for graduate study in those departments.

# CENTERS, INSTITUTES, AND OTHER RESOURCES

# BILL AND CAROL FOX CENTER FOR HUMANISTIC INQUIRY

The Bill and Carol Fox Center for Humanistic Inquiry (CHI) serves both those trained in the humanities as traditionally defined and also others in the University who are interested in humanistic issues; outreach to faculty and students in the social sciences, the sciences, and the professional schools at Emory is an important part of the CHI\'s work. The CHI is dedicated to providing occasions and spaces for encouraging intellectual community and scholarship across disciplines.

# CENTER FOR CREATIVITY AND ARTS

The Center focuses on five major areas of art and creativity: student involvement with the arts both as participants and audience; support for creative research projects; advocacy for facilities on campus that support the various disciplines and allow interdisciplinary exploration; visiting artists, artists in residence and commissioned work; and exploration of the nature of creativity through research, symposia, and conversations.

# CENTER FOR MIND, BRAIN, AND CULTURE (CMBC)

The Center for Mind, Brain, and Culture (CMBC) explores issues and phenomena associated with mind, brain, and culture from an inter-disciplinary perspective. The Center rests on the assumption that multiple explanatory perspectives are essential for explaining the cognitive and social abilities of humans and other species. The aim is for inter-disciplinary exchange to inform faculty and student research, contribute to undergraduate and graduate curricula, and lead to a wide variety of inter-disciplinary research projects that establish multi-perspective explanations.

# CENTER FOR MYTH AND RITUAL IN AMERICAN LIFE (MARIAL)

Emory University's Center on Myth and Ritual in American Life (MARIAL) is one of five Sloan Centers on Working Families, supported by the Alfred P. Sloan Foundation\'s Program on Dual-Career Working Middle Class Families. The MARIAL Center researches the functions and significance of ritual and myth in dual wage-earner middle class families in the American South.

# CENTER FOR THE STUDY OF HUMAN HEALTH

The Center for the Study of Human Health is the nexus for cross-disciplinary, cross-institutional collaboration on health and provides the organizational structure to accomplish horizontal integration of Emory's extraordinary and diverse assets. The Center achieves connections and synergies in health education, research and practice fostering intellectual exchange among a community of scholars whose interests span the science of health and the social and cultural dimensions of health and humanity.

# CHERRY L. EMERSON CENTER FOR SCIENTIFIC COMPUTATION

The goals of the Cherry L. Emerson Center for Scientific Computation are: To provide high-end computational facilities and expertise to the computationally oriented scientific research at Emory, and to propel Emory into the forefront of research in computational sciences; To help provide state-of-the-art education on computational sciences at Emory, and to help bring computational education in Emory to the highest possible national and international levels; To encourage collaborations in computational sciences with other national and international institutions, as well as on Emory campus.

# DEVELOPMENT STUDIES WORKING GROUP

A committee of faculty formed by Dean Bobby Paul to examine how to support and encourage development studies in the college, especially in light of recent development-related initiatives in the university.

# EMORY COLLEGE STUDY ABROAD

In collaboration with faculty, Emory College Study Abroad develops, promotes, and administers programming for undergraduate students that encourages both intellectual and personal growth through challenging scholarship and cultural immersion. Its services support students and faculty before, during, and after the study abroad experience in order to ensure that study abroad is an essential part of an Emory College education.

# EMORY-TIBET CENTER

The Emory-Tibet Partnership is a university-wide initiative committed to bringing together the best of the Western and Tibetan Buddhist intellectual traditions for their mutual enrichment and the discovery of new knowledge for the benefit of humanity.

### EMORY-TIBET SCIENCE INITIATIVE

The Emory-Tibet Science Initiative is an historic initiative to develop and implement a comprehensive science education curriculum for Tibetan monastics. ETSI is comprised of faculty within both the sciences and humanities from Emory and other universities and institutions.

# FACULTY SCIENCE COUNCIL

The Faculty Science Council pursues excellence in science education and scholarship within the Arts and Sciences and serves as an advisory body to the College Office on scientific issues. The Council\'s mission is to stimulate and facilitate faculty-driven initiatives in both teaching and scholarship and to provide a faculty-based forum for discussion and evaluation of those initiatives. The Program in Science and Society is a component of the Faculty Science Council. It aims to instill the thrill and importance of science in Emory students, especially non-science majors, and in the Emory and Atlanta community at large.

# GRADUATE INSTITUTE OF THE LIBERAL ARTS

The Graduate Institute of the Liberal Arts (ILA) is Emory University's institutional center for comparative and interdisciplinary studies across the social sciences and humanities. Since the 1950s, the ILA has offered graduate students the opportunity to pursue doctoral work in the study of culture and society from historical, ethnographic and comparative perspectives.

#### HEALTH SCIENCES HUMANITIES (HSH) INITIATIVE.

A program which brings together students from all of the health sciences disciplines as well as the liberal arts to create truly interdisciplinary teaching situation.

# HUMANITIES COUNCIL

# INSTITUTE FOR THE STUDY OF MODERN ISRAEL (ISMI)

Established in 1997, ISMI's objectives are to build and strengthen an understanding of modern Israel for Emory students and to inform the general public, which are accomplished through collaborative undertakings with other Emory University units and the sponsorship of visiting professors, lectureships, programs, and conferences. For the general public, ISMI engages in outreach to the media, general community, civic organizations, and educators in their desire to learn about modern Israel. ISMI is not an academic department nor does it confer a degree or award scholarships.

JAMES WELDON JOHNSON INSTITUTE FOR ADVANCED INTERDISCIPLINARY STUDIES

The mission of the James Weldon Johnson Institute for Advanced Interdisciplinary Studies is to foster new scholarship, teaching and public dialogue that focuses upon the origins, evolution, and legacy of the modern civil rights movement from 1905 to the present. Through its research and public programming, the Johnson Institute is one site within Emory University where members of the Emory community are challenged to reflect upon and examine the shifting and complex meaning of race and difference in a national and global context.

# LANGUAGE CENTER

The Emory College Language Center (ECLC) is dedicated to international education by promoting the teaching and learning of languages. We provide students with opportunities to experience and understand world cultures both on campus and beyond.

The Center was founded in 2000 to provide support for the teaching and learning of languages and cultures at Emory. Emory University\'s language departments teach 19 curricular languages. Our Center provides faculty and students with technology facilities and staff, language lab and classrooms, faculty consultation and development, lecture events, and online learning resources.

Working with the Emory Program in Linguistics we also support the needs of students learning Less-Commonly Taught Languages (LCTLs) not currently taught in the curriculum, through the Structured Independent Language Study (SILS) program.

# PROGRAM IN SCIENCE AND SOCIETY

Science and Society aims to instill the thrill and importance of science in Emory students, especially non-science majors, and in the Emory and Atlanta community at large. They promote a better understanding of the impact of science on society and work with the Science, Social Science, and Humanities disciplines to convey the message that science is vital across disciplines--that science is not merely a collection of facts but is, at its core, a way of thinking and of approaching problems.

### PSYCHOANALYTIC STUDIES PROGRAM

The ILA's Psychoanalytic Studies Program (PSP) deals with the theory, application, and history of psychoanalytic thought and practice. It is not a clinical training program, but a graduate minor is offered.

The Graduate School offers degrees in 28 departments and divisions across the humanities, social sciences and natural sciences. The Ph.D. is offered in 24 of these highly competitive programs, preparing graduates for a range of careers, from college and university teaching to research and administration in the public and private sectors.

# THEATER EMORY

A professional theater company in residence at the University in which undergraduates collaborate on significant and challenging artistic projects and plays with professionals and professionals, in turn, receive a rare and inspiring experience with a research-based theater.

#### THEORY PRACTICE LEARNING

In an effort to influence the future of pedagogy at Emory, TPL aims to strengthen the connection between academics and contemporary social issues, train Emory teachers to effectively implement experiential education, and create an intellectual environment of learning by doing.

# WRITING CENTER

Tutors offer a wide range of help for writers with varying skills and abilities. While the Writing Center offers basic help and encourages struggling writers to come in, we also offer assistance for experienced writers. We believe that all writers benefit from discussing their ideas with others and that successful writers seldom turn anything in without sharing it with someone first.

### EMORY COMMUNITY

#### ARTS

Arts programs at Emory bring students, faculty, staff, world-renowned guest artists, and audiences together in a spirit of collaboration and discovery. Whether you choose a course of study in the arts at Emory or choose to attend music, theater, or dance performances, an art exhibition, poetry readings, or film screenings, your imagination will be stirred.

Arts at Emory hosts over 300 events in the performing, visual, and literary arts each year, with internationally acclaimed musicians, numerous student ensembles, a professional theater company, prize-winning poets, novelists, playwrights and much more. Explore the arts and find the complete event calendar at <u>arts.emory.edu</u>.

# DANCE

The <u>Emory Dance Program</u> interfaces with the Atlanta community by providing free programming including the Women's History Month Performance Series, the Friends of Dance Lecture Series, Dance for Reel, and the Atlanta Contact Improvisation group. This year the Opening the Space series brought more than three hundred community members into the Schwartz dance studio for classes and an artist talk.

Dance at Emory is prolific, reflecting the cultural diversity of this campus. Students perform, create, collaborate, play, and practice together to express, through the body, their culture and identity. Performing affects the cohesiveness of a group and it sparks individual and group creativity. There are more than fifteen student-led dance groups that are one of a kind. They perform hip-hop, breakdancing, Capoeira, Salsa, Tap, Bhangra, classical Indian, Bollywood, and Stepping. Many groups invent fusion dance styles. They compete, and perform on and off campus.

- Azaadi is a South Asian male dance team.
- ACES (The Association of Caribbean Educators and Students) Dance spreads awareness about Caribbean cultures.
- A.H.A.N.A. Dance (African, Hispanic, Asian, Native American, and all other artists collective) features student choreography in a variety of styles. Choreographer and dancer auditions are held at the beginning of each semester, and performances are at the end of each semester in the Performing Arts Studio.
- **BAM** (Brotherhood of Afrocentric Men) and Ngambika (meaning "carry the load") are both community service organizations who are known for their tremendous skill of stepping. BAM is all freshman males and Ngambika is all freshman women.
- Capoeira is an Afro-Brazilian art from that incorporates elements of martial arts, dance, and music.
- **E-Motion**, the official dance team of the Emory Eagles.
- Karma dances a folkloric style from the Punjabi Diaspora called Bhangra. They are Emory's premiere co-ed bhangra team.
- SaRaas is the first and only Garba/Raas dance team combining traditional Gujarati music, costumes, props, and dance moves with a modern touch.
- Savera is a classical fusion dance team combining the dance styles of Odissi, Kathak, Kuchipudi, and Bharatanatyam.
- Salsa Club focuses on casino/cuban technique.

- Sitara is an all-female South Asian dance team at Emory University founded in 2000. They combine Indian and Western forms, including Ballet, Jazz, Hip-Hop, Modern, Bhartha Natyam, Kathak, Bhangra, and Garba. Sitara holds auditions at the beginning of each academic year for new members.
- Skeleton Crew is an innovative breakdancing club.
- **PersuAsion** is an all female dance crew that incorporates various types of hip-hop styles. Originally founded in 2008 as a small Asian dance team, the team fuses traditional East Asian dance-forms with modern hip-hop dance styles.
- Tap That is Emory's only tap club founded three years ago. They reach out to those who have tapped for years and those who just want to learn for fun! Practice is on Wednesdays from 6:30 7:30 PM in the Dance Department's studio in the Rich Building.
- TrickaNomeTry (TNT) originated in the fall of 2009. TNT is an all male hip-hop dance crew led by Julio Medina. The group's explosive style focuses on choreography, visuals, and tricks (stunts). Members of the group teach open classes every Saturday at 5:30pm in WPEC, aerobics room. New members are recruited every year. http://www.youtube.com/trickanometryTV
- Zeebah means "beautiful" in Farsi, which is the language of Iran. This all female dance group performs a wide range of dances from Iran and the surrounding areas. The group was founded in order to share the unique style, culture, and flair of traditional Persian dance.
- Zuri is a dynamic African Dance team.

# FILM AND MEDIA STUDIES

The <u>Film Studies Department</u> hosts the <u>Cinematheque Film Series</u>, a weekly 35mm film series on Wednesday nights, as well as a number of special screenings and guest speakers throughout the academic year.

<u>Campus MovieFest</u>, the world's largest student film festival, was started by four Emory students in 2000. Students have exactly one week to create a short film that will be judged against those created by their peers. Each team is given equipment, including video cameras and editing software, to use during production of its film. Every year, hundreds of Emory students participate in the competition. At an on-campus red-carpet screening, judges present their favorite films and announce the winners of various categories, including Best Drama and Best Comedy, as well as which films will move on to the regional competition.

The Film and Media Studies curriculum at Emory offers a unique opportunity for graduate and undergraduate film study in a major urban center of more than five million people. Visit <u>filmstudies.emory.edu</u> for details.

#### MICHAEL C. CARLOS MUSEUM

The <u>Michael C. Carlos Museum</u>, Georgia's premier museum devoted to the art and history of world cultures, is located at the heart of Emory's campus. Founded in 1919, it is home to the Southeast's most distinguished collection of art and artifacts from ancient Egypt, Greece, Rome, Nubia, the Near East, Asia, Africa, and the Americas, as well as a works-on-paper collection spanning from the Renaissance to the present. Conservators in the Museum's conservation laboratory conduct scientific analysis and treatment of museum collections, while creating teaching and training opportunities for students interested in pursuing careers in art, conservation, preservation, and science. The Museum also offers an array of educational opportunities for the Atlanta and Emory communities, including special exhibitions, lectures, audio tours, family guides, gallery talks, children's programs and summer camps, interactive technology, films, internships, and much more. Admission is free for Emory students, staff, and faculty.

# MUSIC

Music offerings at Emory include courses in music and culture, theory and composition, music history and literature, as well as a variety of instrumental, choral, and world music ensembles that are open to all students, faculty, and staff of Emory College and the graduate and professional schools of the University. Auditions are held at the beginning of each academic year and students are encouraged to participate on a credit basis. Music ensembles perform in the Cherry Logan Emerson Concert Hall located in the newly opened 90,000-square-foot Schwartz Center for Performing Arts and in the Performing Arts Studio located in the Burlington Road Building.

Private lessons are offered in all media, including piano, organ, voice, strings, winds, percussion, composition, sitar, erhu, guzheng, and other world music instruments. Private lesson fees are assessed to music majors. Non-majors may take lessons for credit or no credit; additional fees apply. Many of the artist affiliates on the Emory faculty are members of:

- Atlanta Symphony Orchestra
- Atlanta Opera Orchestra
- Emory Chamber Music Society of Atlanta and other professional groups in the metropolitan area

Local, national, and international artists visit the campus regularly for concerts, master classes, and symposia, providing a wealth of concert opportunities at which students hear a wide variety of professional performances. Past performers include:

# THEATER

Students interested in theater have a wide range of opportunities at Emory. Courses in acting, directing, playwriting, theater administration, design, history, dramatic literature and criticism, and stagecraft are offered by the Department of Theater and Dance. Students may major or minor in Theater Studies. A BA in Playwriting is jointly offered by Theater Studies and Emory's highly-ranked Creative Writing Program. Many students meet general education requirements through Theater Studies courses.

Theater Emory, the professional company in residence at Emory, provides undergraduates a unique opportunity to perform with professional actors and to work and train in design, research, direction and every aspect of production with experienced professionals. Our faculty consists of working artists who collaborate with students and professionals from Atlanta's theater community.

Theater Emory is open to all Emory students, regardless of their major. Work study positions are available at <u>Theater Emory</u> and the <u>Department of Theater and Dance</u>. Other opportunities for experience are available through student-run organizations, including:

- Ad Hoc Productions, which produces musical theater
- Starving Artist Productions, which presents a range of plays and also produces films, events, and festivals.
- Rathskellar, an improvisational comedy troupe
- AHANA, which tackles issues of social import with a commitment to multicultural perspectives.
- Alpha Psi Omega, the National Theater Honor Society.

The city of Atlanta has a long-established theater community and many cutting-edge producers and arts collectives.

Questions about activities at Theater Emory can be addressed to 404.727.0524 or by visiting <u>theater.emory.edu</u>; the Department of Theater and Dance can be contacted at 404.727.6463, or visit the web at <u>www.theateranddance.emory.edu</u>.

# ATHLETICS & RECREATION

The <u>Athletics and Recreation Department</u> offers opportunities for students of all interests and abilities to become involved in recreational programs, receive academic credit for physical and leisure education courses and participate in varsity athletics as an athlete or spectator. Recreational Services offers a wide variety of Intramural Sports and Club Sports for the competitive or recreational participant as well as various drop-in and instructional fitness programs. For-credit physical education courses are offered through the current Play Emory curriculum, focusing on helping students develop habits to live a healthy and active life.

The George W. Woodruff PE Center (WPEC) houses most of the Athletics and Recreation Department's programs. Indoor court spaces offer opportunities for playing basketball, volleyball, racquetball, badminton and tennis, while swimmers of all abilities can enjoy the Madeleine Jude Brown Aquatics Center, featuring a heated, Olympic-sized indoor pool for recreational and varsity use. WPEC members who prefer a view from above can take advantage of the climbing walls. Walkers and joggers can get their hearts racing on the state-of-the art 400-meter outdoor track or take refuge from the elements on the one-eighth mile indoor track.

Other WPEC amenities include a dance studio, aerobics room, outdoor tennis courts and a fully equipped fitness corridor, neighbored by a multi-use sport court.

Outdoor green spaces on campus provide acres of space for recreational and varsity activities. Open-use spaces include Kaminsky Intramural Park at Candler fields, which is used primarily for walk-up play, intramural and club sports, while varsity complexes host soccer, baseball and softball. Located in the heart of campus, McDonough Field is open almost year-round for students to play pickup games.

### CAREERS CENTER

The <u>Career Center</u> advises the college undergraduate students as to career decision-making, employment opportunities, academic programs, and internships that will enhance their professional development skill set. The Career Center also develops relationships with employers and graduate/professional schools promoting the recruitment of students and alumni. The singular focus of the Career Center is to ensure students develop the self-awareness and skills to not only explore career choices, but take assessment of their skills and interests in making exceptional career choices. The Career Center also houses the PreLaw Advising Office and is a partner with the PreHealth Mentoring Office.

#### DINING

# EATING ON CAMPUS

Your college journey can take you just about anywhere, but one thing's certain, you're bound to get hungry along the way. Emory Dining gives you countless ways to satisfy your appetite – no matter what it's asking for.

We have two anchor locations: <u>Dobbs Market</u>, a global cuisine market that provides you with endless opportunities to eat fresh, healthy options from around the world and <u>Cox Hall Market</u>, an a la carte quick –service dining experience.

You'll also find <u>seventeen additional dining options</u> across the Emory campus. Wherever you decide to eat, you'll discover that we do more than simply serve food around here. At Emory Dining, we honor the majesty of freshness. We bask in the glory of flavor. We make sure you savor every single bite.

# DINING PLAN

Emory offers students an assortment of <u>dining plans</u> at varying costs per semester. Entering First Year classes have one meal plan designed to meet their needs and ensure that getting a good meal is not a concern as they begin their college experience. The plan offers open access to the Dobbs Market and an amount of Dooley Dollars that the student can spend at any of the many dining locations across campus. Second-year students have a choice of additional dining plans from which to choose. They may take advantage of dining at Dobbs Market or other residential dining locations along with Dooley Dollars. Students who keep Kosher or follow Halal diet may choose dining Plan K. In addition to limited access to Dobbs Market, this dining plan entitles you to 11 meals per week catered by an approved Glatt Kosher cater, assuring the highest level of kashrut.

Continuing students may choose from a range of plans at different costs per semester. Those who live in University-operated residence halls must sign up for the minimum dining plan offered. The minimum plan typically will not cover most students' food needs for an entire semester. Graduate students may sign up for any of the meal plans including a specific discount meal plan for graduate students only. For details and terms of the various meal plans, see the Community brochure or check the website.

#### OFFICE OF ACCESSIBILITY SERVICES

The Office of Accessibility Services (OAS) assists qualified students, faculty, and staff in obtaining equal access and reasonable accommodation. OAS ensures opportunities for reasonable access and participation in all programs, as it promotes the value of a full and rich living, learning, and working experience in our community.

The Office of Sorority and Fraternity Life (<u>http://osfl.emory.edu/</u>) advises the 28 officially recognized Greek letter organizations on the Emory campus to provide members with a fulfilling and rewarding Greek experience. The governing bodies of the fraternities and sororities are the Interfraternity Council (IFC), National Pan Hellenic Council (NPHC), Multicultural Greek Council (MGC), and the Intersorority Council (ISC). Each council is dedicated to academic excellence, promoting brotherhood and sisterhood, leadership development, and service and philanthropy as well as social and service oriented programming for the entire community.

### HOUSING

### RESIDENCE LIFE AND HOUSING

The Office of Residence Life and Housing (<u>http://www.emory.edu/HOUSING/</u>) supports student development through residentiallybased experiential learning. Through their on-campus residential experience, students are encouraged to develop close relationships with diverse individuals, enhance leadership skills, assume personal responsibility, enrich spiritual skills, build character and discipline, and form a better understanding and genuine acceptance of the many races, cultures, religions, and nationalities that comprise the Emory community and beyond.

In addition to providing programs and resources for student development, the Office of Residence Life and Housing is responsible for the administration of all on-campus residential facilities.

#### HOUSING SELECTION

Students apply for housing online through MyHousing (<u>http://myhousing.emory.edu</u>).Through MyHousing, students may also select rooms (returning students) and meal plans, search for and select roommates, request room changes, submit work orders, and more. MyHousinginterfaces with multiple university systems and is the main portal for all housing related requests.

#### HOUSING FACILITIES AND AMENITIES

Residence Life and Housing staff manages all the on-campus residential facilities, including residence halls, theme houses, fraternity and sorority houses, and Clairmont Campus. Housing rates are inclusive of the following utilities: water, electricity, gas, wireless Internet connection, and Emory Cable TV.

#### OFFICE OF LGBT LIFE

The Office of Lesbian, Gay, Bisexual, and Transgender Life (<u>http://www.lgbt.emory.edu</u>) seeks to engage the university community in the creation of an affirming and just campus environment while supporting the development of students of all gender and sexual identities. To achieve its mission, the Office of LGBT Life offers a number of resources and opportunities to undergraduate and graduate students including: dedicated full-time staff members available for meetings, study and social space with a lending library, funding for leadership development, confidential queer discussion groups, student organization advising, Safe Space and other educational training, opportunities to connect with queer faculty, staff, and alumni, and more.

- The Emory Spoke (<u>http://emoryspoke.org/</u>)
- WMRE (<u>http://wmre.fm/</u>)

#### STUDENT LIFE POLICIES

#### CONFIDENTIALITY

Students are expected to be aware of and abide by specific policies formulated by Emory University concerning confidentiality. What follows is a brief summary; the full statements of this policy, as well as those of other University policies, are published annually in the <u>Campus Life Handbook</u>.

Emory University recognizes a student's right of privacy and is committed to protecting students from improper disclosure of private information. Regarding the confidentiality of the information that becomes a part of the student's permanent records and the conditions of its disclosure, the University has adopted a policy that reflects a reasonable balance between its obligations for the protection of the rights and privacy of the students and its responsibility to society.

#### EQUAL OPPORTUNITIES & AFFIRMATIVE ACTION POLICY

Emory University is dedicated to providing equal opportunities and equal access to all individuals regardless of race, color, religion, ethnic or national origin, gender, genetic information, age, disability, sexual orientation, gender identity, gender expression, and veteran's status. Emory University does not discriminate in admissions, educational programs, or employment on the basis of any factor stated above or prohibited under applicable law. Students, faculty, and staff are assured of participation in University programs and in the use of facilities without such discrimination. Emory University complies with Executive Order 11246, as amended, Section 503 of the Rehabilitation Act of 1973, the Vietnam Era Veteran's Readjustment Assistance Act, and applicable executive orders, state and federal regulations regarding non-discrimination, equal opportunity and affirmative action. Emory University is committed to achieving a diverse workforce through application of its affirmative action, equal opportunity and non-discrimination policy in all aspects of employment including recruitment, hiring, promotions, transfers, discipline, terminations, wage and salary administration, benefits, and training. Inquiries regarding this policy should be directed to the Emory University Office of Equal Opportunity Programs, 201 Dowman Drive, Administration Bldg., Atlanta, GA 30322. Telephone 404/727-9867 (V) 404/712-2049 (TDD).

# UNIVERSITY-STUDENT RELATIONSHIPS

The Board of Trustees of Emory University has adopted a statement of policy dealing with University-student relationships, a digest of which follows:

- 1. Emory University was founded on Christian principles by the Methodist Episcopal Church and proudly continues its church relationship as an agency dedicated to seeking and imparting truth.
- 2. Emory University admits qualified students of any sex, sexual preference, race, color, national origin, religious preference, age, or veteran's status, and qualified handicapped students to all of the rights, privileges, programs, and activities generally accorded or made available to students at Emory University. It does not discriminate on the basis of race, color, national origin, religion, sex, sexual orientation, age, disability, or veteran's status in administration of its educational policies, admissions policies, scholarship and loan programs, or athletic and other Emory University-administered programs.
- 3. Attendance at Emory University is a privilege and not a right; however, no student will be dismissed except in accordance with prescribed procedures. Students applying for admission do so voluntarily and are free to withdraw at their pleasure, subject to compliance with the regulations of their school or college governing withdrawal and to the fulfillment of their financial obligations to the University.
- 4. Upon matriculation at Emory, each student agrees to be bound by the rules, policies, procedures, and administrative regulations as they exist at the time of admission and as they may be changed by duly constituted authority.
- 5. By admission as a student at Emory University, a person acquires the right to pursue the course of study to which he or she is admitted and to be treated with the dignity appropriate to an adult person in all matters relating to the University; in the same spirit the student shall comply with the rules and regulations of Emory University.
- 6. Students will be provided the opportunity to participate in the development of rules and procedures pertaining to University affairs to the extent that such participation and the results thereof, as determined by the Board of Trustees or its designated agent, are consistent with orderly processes and with the policies and administrative responsibilities of the Board of Trustees and the administration.
- 7. The University expects students to conduct themselves with dignity, courtesy, responsibility, and integrity, and with due respect for the rights of others, realizing that sobriety and morality are not only characteristics of a mature and responsible person but are essential to the maintenance of a free and orderly society.
- 8. Membership in and rules governing admission to student organizations shall be determined by the organizations themselves, and such rules shall not be required to be uniform so long as the same do not contravene any policy established by the Board of Trustees.
- 9. Emory University is an educational institution, not a vehicle for political or social action. It endorses the right of dissent and protects and encourages reasonable exercise of this right by individuals within the University. Because the right of dissent is subject to abuse, the Board of Trustees and the president have published a statement to clarify policy concerning such abuse, a digest of which follows:
  - 1. Individuals associated with Emory represent a variety of viewpoints; the University fosters the free expression and interchange of differing views through oral and written discourse and logical persuasion.
  - 2. Dissent, to be acceptable, must be orderly and peaceful and represent constructive alternatives reasonably presented.
  - 3. Coercion, threats, demands, obscenity, vulgarity, obstructionism, and violence are not acceptable.
  - 4. Demonstrations, marches, sit-ins, or noisy protests that are designed or intended to or which do disrupt normal institutional pursuits will not be permitted.
  - 5. Classes and routine operations will not be suspended except for reasonable cause as determined by the president.
  - 6. Administrators, faculty, other employees, and students are expected to abide by these standards of conduct in promoting their views, particularly dissent.
  - 7. Persons who are not so inclined should not become associated with Emory nor continue to be associated with Emory.
  - 8. Academic and administrative procedures will protect individuals in their right of free expression and provide for prompt and appropriate action against those who abuse such right.

# SPEAKERS

Students are expected to be aware of and abide by specific policies formulated by Emory University concerning speakers invited to campus. What follows is a brief summary; the full statements of these policies, as well as those of other University policies, are published annually in the <u>Campus Life Handbook</u>.

When a student organization invites a speaker from outside the University to speak on campus, the event is the shared responsibility of the inviting student organization and the University. In keeping with the principle of academic freedom, Emory University supports and encourages the exchange of ideas within the University community, including ideas that may be unpopular or controversial. To this end, the University is committed to providing a forum for student-sponsored expression of divergent points of view. At the same time, the University encourages civility and has the obligation to address issues of safety and disruptive conduct. The president or the president's designee(s) reserve(s) the right to modify the circumstances or withdraw the invitation to speak when a risk of violence or substantial disruption of the operation of the University can reasonably be foreseen.

### DISCRIMINATION & HARASSMENT

Students are expected to be aware of and abide by specific policies formulated by Emory University concerning discrimination and harassment. What follows is a brief summary; the full statements of these policies, as well as those of other University policies, are published annually in the <u>Campus Life Handbook</u>.

It is the policy of Emory University that all employees and students should be able to enjoy and work in an educational environment free from discriminatory harassment. Harassment of any person or group of persons on the basis of race, color, national origin, religion, sex, sexual orientation, age, handicap, or veteran's status is a form of discrimination specifically prohibited in the Emory University community. Any employee, student, student organization, or person privileged to work or study in the Emory University community who violates this policy will be subject to disciplinary action up to and including permanent exclusion from the University. The scholarly, educational, or artistic content of any written, oral, or other presentation or inquiry shall not be limited by this policy. The preceding provision is liberally construed with the intent that academic freedom shall be allowed to all members of the academic community; however, this provision shall not be used as a pretextual basis for violation of the policy.

# SEXUAL ASSAULT

Students are expected to be aware of and abide by specific policies formulated by Emory University concerning sexual assault. What follows is a brief summary; the full statements of these policies, as well as those of other University policies, are published annually in the <u>Campus Life Handbook</u>.

The Emory University community expects all of its members to treat other persons with respect and dignity and will not tolerate any form of sexual assault. Sexual activity should be explicitly agreed upon by all parties. The University shall proceed with disciplinary and/or remedial actions as needed when it appears that the University's prohibition against any form of sexual abuse has been violated. A student charged with sexual assault may be disciplined under the University's code of student conduct as well as prosecuted under Georgia's criminal statutes. The University also has in place procedures to provide emotional and medical support to a victim of sexual assault within the Emory community.

#### **RELIGIOUS LIFE**

The Office of the Dean of the Chapel and Religious Life (<u>http://www.religiouslife.emory.edu/</u>) is the center of religious services and programs for the Emory campus. The deans work with the other religious leaders appointed by the various denominations and faith traditions. Members of the professional religious life staff are readily available for personal conferences on any matters of concern.

#### SAFETY

# EMERGENCY NOTIFICATION

Emory uses e.Notify (<u>http://www.emory.edu/home/CEPAR/Notification\_Program</u>), a text message notification system, to send out emergency alert messages.

In order to receive an e-notification, it is recommended to subscribe by adding cell phone numbers to Emory's Emergency Notify System. All staff, faculty, and students are recommended to sign-up for this free service.

# EMERGENCY PHONES

There are more than 124 Blue Light phones (<u>http://www.emory.edu/home/emergency/index.html#emergency contacts</u>) located throughout the Emory University campus. Blue Light emergency telephones link users directly and exclusively to the Emory Police Department Communications Center. Use these phones to report crime, fire, medical emergencies, or to request a police escort.

### EMORY POLICE DEPARTMENT

#### STUDENT HEALTH AND COUNSELING SERVICES

Emory University Student Health and Counseling Services (<u>http://studenthealth.emory.edu/</u>) empowers students to take responsibility for their health and complements the academic mission of the university by providing unified medical, counseling and health promotion services that result in a healthy campus culture. Student Health and Counseling Services is committed to providing caring professional clinical services to a diverse student body and to reducing the stigma associated with seeking mental health services.

Students are involved in promoting a healthy campus culture through volunteer activities with student organizations including the Healthy Campus Coalition, Student Health Advisory Committee (SHAC), Alliance for Sexual Assault Prevention (ASAP), Helpline, Active Minds, Sexual Assault Peer Advocates (SAPA) as well as individual projects, health promotion internships and course assignments.

Emory students are responsible for notifying professors or instructors of absences caused by illness or injury. EUSHCS providers do not write medical excuses for missed classes or examinations. Of course, EUSHCS healthcare providers can supply the necessary documentation for extended illnesses or injuries, including those necessitating medical withdrawal from classes.

#### STUDENT INVOLVEMENT

# OFFICE OF STUDENT LEADERSHIP & SERVICE (OSLS)

The Office of Student Leadership & Service (OSLS) is the hub of student involvement at Emory. From coordinating a number of strong leadership programs to Volunteer Emory, the OSLS offers many opportunities for you to find community at Emory both inside and outside the classroom. Additionally, the OSLS advises and works with the Student Government Association (SGA) and all of the student organizations that SGA recognizes. Visit <u>www.osls.emory.edu</u> to learn more information about the many programs and services that the OSLS offers.

# STUDENT GOVERNMENT ASSOCIATION

The Student Government Association (<u>http://www.emory.edu/SGA</u>) is the voice of the entire student body (graduate and undergraduate) to faculty, administrators, and staff. SGA members are elected each spring, in accordance with the Constitution and Bylaws of the organization.

# COLLEGE COUNCIL

College Council (<u>http://emory.orgsync.com/org/collegecouncil</u>) is a divisional council of SGA that specifically represents Emory College of Arts and Sciences students. The Council advocates on behalf of College students, makes student activity fee decisions, and recognizes student organizations that are directly associated with College students.

### STUDENT PROGRAMMING COUNCIL

The mission of the Student Programming Council (<u>http://students.emory.edu/SPC</u>) is to enrich the Emory community by providing a variety of quality entertainment for the entire university, making the Emory experience as enjoyable as possible. SPC signature events include: Homecoming Week, Fall and Spring Band Parties, Dooley's Week, and SPC with Love events!

# RESIDENCE HALL ASSOCIATION

The Residence Hall Association (<u>http://www.emory.edu/HOUSING/ABOUTUS/rha.html</u>) provides guidance, education and social programming for residence hall students and the community and serves as a medium for communication among residents, administration and the community.

# BARKLEY FORUM

Barkley Forum (<u>http://www.emory.edu/BF</u>) is Emory's nationally ranked intercollegiate debate team and community outreach program. The forum sponsors the Emory National Debate Institute (ENDI) and the Urban Debate League (UDL), an education reform project that has served more than 40,000 students in 19 U.S. cities. The forum cofounded the National Debate Project, a program designed to implement critical thinking and advanced research skills into the national urban secondary school curriculum.

# OUTDOOR EMORY

Outdoor Emory (<u>http://outdooremory.org/</u>) allows students to participate in fun and exciting outdoor recreation and encourages appreciation of and education about the environment. Its pre-orientation trips are an Outdoor Emory tradition.

#### SPECIAL INTEREST AND ACTIVITY CLUBS

There are more than 375 organizations on campus recognized by the Student Government Association through which students can pursue hobbies or personal interests. These include a diverse array of religious and cultural clubs, service and social concerns organizations, and arts-entertainment and publications-media groups. Additional organizations promote activities related to academics, politics, sports, and diverse avocations. For a complete listing of student organizations, please visit <u>www.studentorgs.emory.edu</u> or the Office of Student Leadership & Service in the Dobbs University Center.

# HONOR COUNCIL

The Honor Council, a body of at least ten annually appointed students, has responsibility for investigating and adjudicating all alleged violations of the <u>Honor Code</u>. Students found to have violated the Honor Code are subject to verbal reprimand, written reprimand, F in the course in question, suspension, dismissal, or a combination of these and other sanctions.

#### **TRANSPORTATION & PARKING**

Cliff Shuttles provide transportation throughout campus. For additional information and current hours of operation please visit the transportation website (<u>http://transportation.emory.edu/</u>).

Transportation and Parking Services also manage on-campus parking for all faculty, staff and students. More information, including parking locations and costs, can be found on the transportation website.

# VEHICLE REGISTRATION

All students operating automobiles at Emory must register with the Parking Office on the Clairmont Campus, immediately after arrival on campus or as soon as the vehicle is acquired. A fee for all students for registering an automobile is charged and subject to change annually.

#### Resident Emory College first-year students may not drive or park any vehicle on campus.

#### **VOLUNTEERING & SERVICE LEARNING**

### VOLUNTEER EMORY

Volunteer Emory (<u>http://www.volunteer.emory.edu/</u>) is your one-stop-shop for community service and social justice work. VE student staff members organize weekly service trips to local schools, nonprofits, and parks, as well as plan regional alternative fall and spring break trips. Volunteer Emory also collaborates with other student groups for large-scale service days both on and off campus. Whether you are looking for a one-time service event or for an ongoing social justice project, Volunteer Emory can connect you. Volunteer Emory is a program of the Office of Student Leadership and Service.

### ENGAGED SCHOLARSHIP AND LEARNING AT EMORY

When students first arrive at Emory, they typically feel excited about the intellectual journey ahead but sometimes also feel a little anxious. They may be unsure about what to study, what careers to pursue, or even how to make sense of the world around them. Students may wonder how their classroom learning and scholarly studies relate to the real world or how their college education will prepare them for fulfilling lives once they graduate.

At Emory College, students can choose from a variety of classes, fellowships, internships, and service and research programs that place them in real-world settings, where they learn marketable skills while making valuable contributions to improving local, national, and even international communities. As engaged scholars students can explore career options, connect with diverse populations, and grow intellectually and emotionally.

# CENTER FOR COMMUNITY PARTNERSHIPS (CFCP)

Created by the Office of the Provost in 2000, the Center for Community Partnerships (<u>http://oucp.emory.edu/</u>) is Emory's centralized resource for integrating teaching, research, and service to benefit the Atlanta community. Through academic courses, research programs, and service projects, CFCP connects community groups, organizations, and agencies to Emory faculty, staff, and students who can assist them in addressing a specific concern or need. CFCP also promotes scholarship in the public interest by mobilizing and focusing Emory's intellectual capital on issues of critical importance to the metro Atlanta region. For more information about these programs, visit the website or call 404.712.9893.

#### EMORY SCHOLARS PROGRAM

This program offers Emory Scholars a range of opportunities to connect scholarship with service, including **summer internships**, **study abroad**, and **volunteer** opportunities. Whether individually or in groups, scholars also can become involved in the metro Atlanta **arts** community by attending ticketed cultural events. Scholars may be reimbursed for a maximum of five events per semester, up to \$20 per ticket.

For more information please visit the website or call 404.727.9297.

#### CENTER FOR ETHICS

The Center For Ethics (<u>http://ethics.emory.edu/</u>) strives to ignite moral imagination, to deepen knowledge of ethics, and to encourage lives of moral meaning and ethical practice throughout the Emory community. The center frequently collaborates with campus organizations and University departments to host public events exploring pressing ethical issues.

# CENTER FOR SCIENCE EDUCATION

The Center for Science Education (<u>http://www.cse.emory.edu</u>) connects students in the sciences with enriching opportunities to **teach** and **mentor** K-12 students about scientific concepts. By sharing their own love of the sciences through a series of problembased learning exercises, Emory's emerging science scholars help nurture a new generation of scientists and mathematicians. The Center also offers **career** information for students and **curriculum resources** for instructors.

Learn about classes and summer programs at the website or call 404.712.9242.

# CARTER CENTER

The Carter Center (<u>http://www.cartercenter.org/</u>), in partnership with Emory, advances peace and health worldwide. Under the leadership of former President Jimmy Carter, a University Distinguished Professor, and Rosalynn Carter, the center brings to campus a wide range of international scholars and world leaders. The Jimmy Carter Library and Museum contains more than twenty-seven million documents, photographs, films, and mementos of the Carter Presidency.
